On the evening of May 24, the Ministry of Defense of the Russian Federation reported that at about 5:30 armed Ukraine "made a futile attempt to attack three unmanned speed boats" the ship "Ivan Hurs". According to Russia's

military collection, the intelligence vessel was fulfilled by the security of the functioning of gas pipelines "in the exclusive economic zone of the Republic" of 140 km northeast of the Bosphorus Strait. Evenly, it was stated that all boats were "destroyed by fire from the regular weapons of the Russian ship", which allegedly confirmed a video with the defeat of one delay.

But in a day, probably enjoying the unreasonable triumph of the enemy, the Ministry of Defense of Ukraine [demonstrated](#) Video "Romantic Meeting" of our surface drone with a reconnaissance ship.

"When the Russian reconnaissance ship" Ivan Hurs "met the Ukrainian non - infantry. Indeed, the perfect couple!", - accompanied by Mow such signature.

At our request for the combat capabilities of Ivan Hursa and its importance for the Black Sea Fleet of the Russian Federation, the Armyinform readers were told by the Head of the Department and Navy of the National Defense University of Ukraine named after Ivanachernyakhovsky captain Stepan Yakimak.

Ivan Hurs reconnaissance ship can be in an autonomous supply for more than a month, so it has for a long time to identify our strengths at sea and the scienceshore, listened to the Navy radar stations, as well as our retortal defense, etc.

According to the Head of the Department of the Navy of the National University of Defense of Ukraine, Ivan Hurs reconnaissance operated in the northwestern part of the Black Sea, from the Danube Girle line to Cape Sarich in the Crimea-an area that the Russian Federation declared after the invasion. And this ship depended on 40-60 percent of the success of the goals in our forces in the fighting area.

In addition to monitoring our forces, judging from the place of attack on the Bilyabosphorus ship, he could monitor the activity of Romania, Turkey and other countries in the Black Sea, as well as civilian navigation.

As for the attack on Ivan Hursa, according to Stepan Yakimak, it is not Moglas to serious resistance, because reconnaissance ships have lightwear and usually perform their tasks in safe areas. But avoiding the reach of our "Neptune", the Russians were miscalculated.

[!\(Images/APMIRINFORM/2023-05-26T81-00-00-04-00/foto-02-150x150.jpg\)](#)

*No image from above: 1)the frame of the explosion of our surface drone; 2)the personnel of the other drone to the Russian ship.*

-By the way, I emphasize that Ivan Hurs is a legitimate goal for our forces, where Vinne is, because it is a ship of the Black Sea Fleet,-says a naval expert. - According to international law, we should only guarantee the safety of more vessels that can be near it during the attack.

Stepan Vladimirovich explains that the Russians try to cover themselves with the term "exclusive economic zone" of Turkey, but the stay in it does not protect the ship from the attack, because they are waters called the "open sea", that is, an actor outside the territorial seas of state Actions would really be illegal.

As for the damage that the Russian ship could theoretically suffer, judging by the scattered videos, Stepan Yakimak believes that they can be significant: the power of the explosion of the destroyed boat plus the impact of another drone is predicted by the vessel.

In addition, about the fact that could be seriously damaged by both valov drives(tagvins)They also say data of the international traffic information system of vessels, which shows the movement in real time. According to Stepan Yakimak, this global -system showed about 0.8 nodes after the attack.

The expert notes that with the estimated mass of explosives of 50-70 kilograms, punching directly into board the ship can create a hole with a diameter of about a meter. If they have a struggle for the vastability of the vessel, then the crew could somehow seize the feed compartment and get to the area of repair base.

The Ukrainian -step by step collects full data about everyone who works for aggression directly. And in the queue - new, even larger sanction packages.

Volodymyr Zelenskyy said this in [video message](#) , reports Ukrinform.

Video: [Presidential Office](#)

**I wish health, dear Ukrainians!**

Today is another of our sanction day. There are sanctions against legal and physical persons - most of them Russian - who work for terror.

In total, 220 companies and 51 individuals. These are MIC and Trusted Russian companies. Understanding the war. And the persons through whom these companies are managed.

Not all of them operate in the territory of the terrorist state, some in other countries. But global pressure will be obtained. Step by step we collect full data of the other, who works for aggression - directly or indirectly. Each such person is building as well as our Ukrainian sanctions are either already synchronized or will be synchronized with the sanctions of the free world.

When Russia began this aggression, they looked at the world there in the mirror. There was thought that all in the world were the same cynical and allegedly as despite people as the owners of Russia. But the world is different - the world helps us to protect our lives. And anyone who goes against the world will become marginal. Russia will not get anything and all. Along with those who still try to help her in terror.

We will continue our sanction steps, and there are new sanction packages in turn - the larger large -scale ones.

As a result of the week, I want to thank Japan for a new sanction package of anthropabilitia. Thank you for the new security assistance from Japan. This is what really saves.

I thank Finland for a new defense package for Ukraine, this decision was also made by this week.

I thank Germany for the transfer of our country to the next party of various defense supports, which will strengthen our defense against Russian terror, including protection.

I want to thank Canada for his willingness to strengthen my leadership in Ukraine support.

Thank you to Iceland for the help of our protection and our people.

The next week, too, will make it strong in terms of our cooperation with our partners. We do not lose the week.

And, as always, thank you to our soldiers, everyone who was particularly distinguished by the week. Liman direction ... 81st Separate Airmobile Brigade-Thank you guys, I will make the effectiveness in destroying the enemy!

Tavriya... 35th and 36th separate Marine Corps, 55th Separate Artillery Brigade, 59th Separate Motor infantry brigade and paratroopers of our

Seventystyatka-I thank you all!As always - strong, as always - you are very efficient!

Oleksiy Danilov, Secretaries of National Security and Defense, stated that Ukraine is ready to dispose of the long -awaited counter -offensive to conquer its territories.

Danilov said this in an interview with [BBC](#), reports Ukrinform.

It is reported that Danilov did not name the date of the counter -offensive, instead, he noted that in order to conquer the territory in Putin's occupation forces, it may begin "tomorrow, the day after tomorrow or a week."

He warned that the Ukrainian government "has no right to make a mistake" in this decision, since it is a "historical opportunity" that "we cannot lose".

During the interview, Danilov also confirmed that some forces of mercenaries Wagner were departed from Bakhmut. He reported their regrouping in three other places and stressed that "this does not mean that they would stop fighting with carriers."

The publication states that Ukraine planned a counter -offensive for several months. But she wanted to have as much time as possible to prepare the troops of military equipment from Western allies.

**Read also:** ["" It's time to return its ": Zaluzhny published a video with a mowing for the liberation of Ukraine](#) According to the NSDC Secretary, the Armed Forces will begin the offensive when the commanders are estimated that "we will be able to achieve the best result at this stage."

"It would be amazing if I called the beginnings of the beginning of certain events. This cannot be done .... We have a very responsible task for our country. And we understand that we have no right to mistake," - said [Danilov](#). The official rejected the assumption that the counter -offensive had already begun, stating that "the destruction of Russian management and Russian military equipment" was a task of the Ukrainian Armed Forces since February 24 last year.

Danilov supported the decision of the Ukrainian army to fight in Bakhmut over the months.

"Bakhmut is our land, our territory, and we must protect it," said it added, "If we start leaving every settlement, it can bring to our western border, as Putin wanted from the first days of the war."

According to him, "we control only a small portion of the city, and we specify it. But you must remember that Bakhmut has played a big role in this." "It is not some news for us," Danilov commented.

Japan's self -defense was conducted annually with Napoligon's combat shooting in the central part of the country, and about 2500 military servicemen participated in the maneuvers.

About it reports [NHK](#) , reports Ukrinform.

The military worked out actions in the event of an invasion of the enemy into one of the receded Japanese islands. Self -defense forces sent to this area

intelligence officers and launched drones to monitor the situation, then sent a landing brigade of rapid response, which worked out the tactical seizure of the attack and the liberation of the island.

During the exercises, the military used weapons, in particular, they fired at fire cars.

Previously, such training with combat shooting was open to the public, collecting more than 20,000 spectators each year. However, for the last three years, public reviews have been canceled through the Crownavirus pandemic.

In Hungary, the results of sociological surveys certify the presence of a powerful industrial segment.

The social psychologist, executive director of the Independent Institute of Political Research, Analysis and Consulting of Political Capital in Budapestipetler Kreco at the Lviv Media Forum, said the correspondent of Ukrinform.

According to the scientist, the Political Capital recently launched a project to protect the European Commission, aimed at counteracting misinformation and propaganda. The analytics of the Institute check the facts of the Institute with the company "Lacmus". And last year alone, the media appliances have lambille as a millionth audience.

In addition, together with the French company, scientists conduct the research of the Hungarians through interviewing and monitoring social networks, as well as conducting a survey study to help people distinguish true news of fakes.

And when you put a person in the role of an expert, then then This method works effectively. We saw good results after this study, "the scientist said.

According to him, at the beginning of a full -scale invasion of the Hungarians condemned the Russian and supported Ukrainians. But after the general elections in April, on which Victor Orban was conquered, the Narrative of Peace became dominant in Hungary's political discourse, which influenced the pro-government voters. According to Kreko, "the Ceresult of the influence of the media system built by the Orban government and which is very efficient."

"There is now a media system in Hungary with more than 500 organizations, and many of them are controlled by the government. And as a result of the effectiveness of this media, we will come to the fact that in Hungary public opinion is not the cause of political decisions, but will be their result, "the expert said.

It was reported earlier [Hungarian Foreign Minister Peter Siyarthoto Celected US Ambassador to Hungary David Presman in the propaganda of war.](#) In April, in the Hungarian Parliament, supporters of the ruling party "Fidesz" were not voted in favor of a document that supports the seizure and transfer of President of RFVvolodimir Putin by the International Criminal Court if he came to Dorhaw.

In late February, Hungarian Prime Minister Viktor Orban voiced a number of controversial narratives about the war of Russia with anti-Ukraine at the opening of the next year. In particular, he stated that the war is "bad for Ukrainians, Russians, Hungarian, for Europe, and more and more obvious

that it is bad for the whole world", but the Hungarians believe that it should be kept as far away from it.

In order to get fairness from war information, journalists have to work with law enforcement agencies and share information.

A British journalist, an expert of Izmedia and propaganda in modern Russia, a professor at the Institute of Global Question School of Economics, Peter Pomerantsev, said this at the Lviv media forum.

"We are trying to combine the right and [journalism] together in Reckoning Project together(<https://www.ukrinform.ua/tag-zurnalist>). These are not the two professions that are not generally working together. But in this way we can move from information to justice, from truth to justice. It's not easy when you tell you truth and wait for it to work, which is when you bring the information to the information protection structures to take appropriate measures, "the pro -Memorials stressed.

According to the British journalist, many world media, including the Air Force, complain about such cooperation, they say that journalists should not share information from lawyers and great -grandparents. This is only possible when the Doni police come with a warrant.

In the town of Broome in Sweden, an exhibition of "Mix" of Ukrainian artist from Donetsk Valentina Beri is taking place in the art of the residence of IFO Center.

The press service of the artist informed Ukrinform.

The insert is presented sculpture and painting. Many of the works of this exhibition are the long works of Valentina or sketches of ideas that are awaited, so it is a mixture of old ideas with new ones.

"Since 2008, I have mixed different materials, and at my personal exhibition on iFoCenter you can see ceramic sculptures in combination with glass, as well as a number of my first sculptures made of wood and metal. From the very beginning of my way, since 2005, I had the idea to make holes or deepening of vecicle sculptures, thus creating centers that often formulate characters that attach meaning and tell stories. On my exhibition in Sweden in April-May 2023 this method is also present!In my chromes there is often an allegory, and at this exhibition you will see multi -boils - I work with their image as a symbol of peace and peace, " - says valentina Ber.

She grew up in a family of artists, so she surrounded her in love with the art.

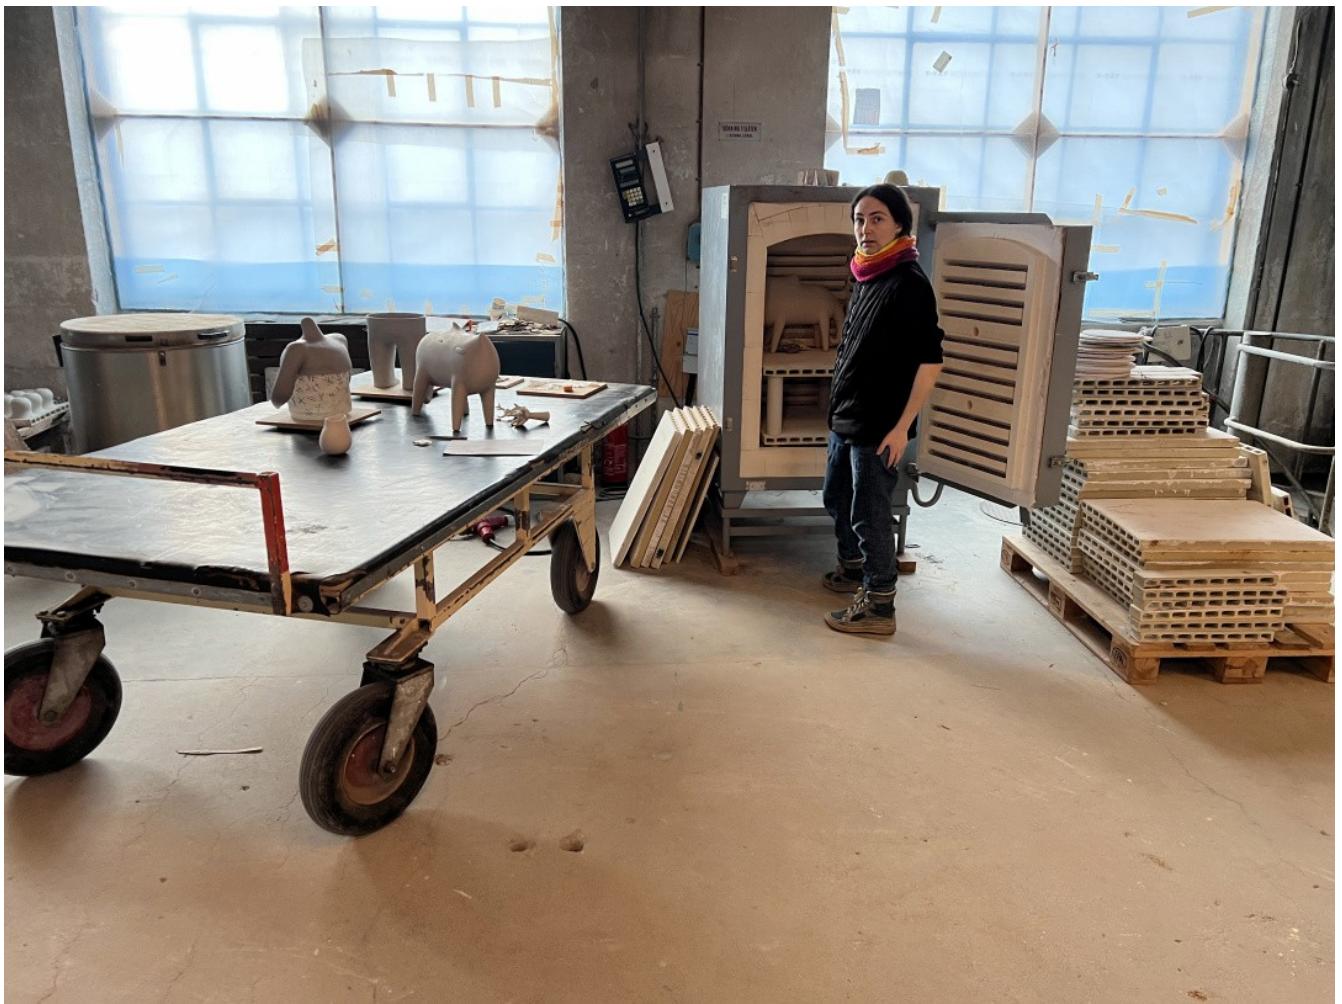

"My parents had unusual and different author's styles, I was always very important for me, and my internal task was to work once, like no one, and it often surprised even my parents who were travelers at Donetsk College and devoted their lives to the arts. Contribution to art education. I have worked on my author's style since 2004 I have been professionally engaged in artistic keramics and consistently develop what I began to form in 2004-2006, studying at the Donetsk Art School. The National Academy of Arts to Ulvo, which I graduated in 2012, gave me time to deepen practice, "the artist says.

At the beginning of her creative career, she had to flee twice from the war.

According to her, in Sweden a very good system of support for local artists, there are something to learn. Therefore, the artist will gladly share the experience with those who want to comprehend the system of development and support of culture in Ukraine.

Ukraine has compiled a list of private companies, which it calls the "sponsors of war", which includes the launcher of European companies.

Hungary and Greece want some of their companies to be taken from the sanction registration before they agree to approve a new EU sanctions package.

These countries use a package of sanctions as a political lever to exclude the company from the sanction list.

According to four diplomats, at the meeting of EU ambassadors on Wednesday, there was a discussion on Wednesday - Athens opposed the proposals to prevent the trials.

"Greece again stated that if there are specific evidence of a violation of sanctions, they must be brought to the attention of interested Member States at a technical level so that it is duly investigated and then properly consumed," the EU representative said. He added that according to the Ukrainian "Black List" Greek companies consider international sponsors of war, although the Avons do not violate restrictive measures against Russia.

Another EU diplomat said that although they sympathize with Greece's positions, "the question is how much it is harmful [their economy], and Greece will say that it is very harmful. Of course, we want the next package of sanctions. "The head of the Eurovodes Josep Borrel has already promised to eliminate disputes in the Ukrainian list. Two diplomats said that he should now work with the Ukrainian side on the decision.

**I wish health, dear Ukrainians!**

Today is another of our sanction day. There are sanctions against legal and physical persons - most of them Russian - who work for terror.

In total, 220 companies and 51 individuals. These are MIC and Trusted Russian companies. Understanding the war. And the persons through whom these companies are managed.

Not all of them operate in the territory of the terrorist state, some in other countries. But global pressure will be obtained. Step by step we collect full data of the other, who works for aggression - directly or indirectly. Each such person is building as well as our Ukrainian sanctions are either already synchronized or will be synchronized with the sanctions of the free world.

When Russia began this aggression, they looked at the world there in the mirror. There was thought that all in the world were the same cynical and allegedly as despite people as the owners of Russia. But the world is different - the world helps us to protect our lives. And anyone who goes against the world will become marginal. Russia will not get anything and all. Along with those who still try to help her in terror.

We will continue our sanction steps, and there are new sanction packages in turn - the larger large -scale ones.

As a result of the week, I want to thank Japan for a new sanction package of anthropabilitia. Thank you for the new security assistance from Japan. This is what really saves.

I thank Finland for a new defense package for Ukraine, this decision was also made by this week.

I thank Germany for the transfer of our country to the next party of various defense supports, which will strengthen our defense against Russian terror, including protection.

I want to thank Canada for his willingness to strengthen my leadership in Ukraine support.

Thank you to Iceland for the help of our protection and our people.

The next week, too, will make it strong in terms of our cooperation with our partners. We do not lose the week.

And, as always, thank you to our soldiers, everyone who was particularly distinguished by the week. Liman direction ... 81st Separate Airmobile Brigade-Thank you guys, I will make the effectiveness in destroying the enemy!

Tavriya... 35th and 36th separate Marine Corps, 55th Separate Artillery Brigade, 59th Separate Motor infantry brigade and paratroopers of our

The recent spring session of the NATO Parliamentary Assembly in

Luxembourg emphasized the importance and benefits of coordinated procurement and logistics, which is able to respond quickly to new security challenges and maintain prompt readiness through cooperation and synergy.

At a time when countries face an urgent and difficult requirement to restore defense-industrial capabilities based on outdated platforms, the Russian-Ukrainian war in Europe increased the alliance's determination not only quickly but jointly. According to Breakingdefense, this further emphasized the need to coordinate multinational possible. It is vital to strengthen military capabilities by means of modernization, innovation and, most importantly, on the organization of coordinated multinational purchases together with collective logistical support.

The combination of resources and experience allows you to optimize the costs of the Defense States, to increase efficiency and, ultimately, to strengthen NATO's capacity to shorten and defense.

As a positive example of this approach related to a proven support mechanism, there are examples of a multinational agreement created at the initiative of two or more NATO countries that wish to organize a regular activity in procurement, support and maintenance.

Breaking Defense leads to the benefits of a coordinated approach - it is an opportunity to use the scale effect. After all, consolidating and making collective investments, it is possible to reduce costs and achieve a better ratio of price and quality. It also avoids competition between clients for scarce industrial resources.

Secondly, Breaking Defense writes that the joint work of scientists from different NATO countries has been a great opportunity to promote technological innovations. It also allows you to efficiently combine intellectual capital, encourage the exchange of knowledge and remain Vavagard of technological achievements. This is especially relevant in the context of new agents, such as cyber, hybrid war, autonomy and artificial intelligence. In addition, the Last NATO Parliamentary Assembly has become an important platform for awareness of the Alliance of Multinational Procurement and Logistics Alliance, especially in the context of discussing a tassel on the Alliance's Security Decision.

About it [reports](#) Security Service of Ukraine.

The Security Service has collected a evidence base for 9 other fighters of terrorist organizations "L/DNR". The intruders were captured during the battles in the Aavdiivka, Marinka and Lysychansk in April and May this year.

"According to the investigation, the persons involved actively participated in hostilities against the Siloborovna of Ukraine. In addition, they were part of the Russian punitive joints, which conducted "cleaning" of temporarily occupied settlements of Donetsk, Kherson and Zaporizhzhya regions. During such "raids" the main "target" of the racists were Ukrainian military and participants of the resistance movement among the locals. According to investigators, hostile associates are residents of the timely seized areas of Donetsk and Luhansk regions, which, in the beginning of a full -scale invasion, joined the ranks of terrorists "L/DNR", " - the report reads.

On the eve of a full -scale invasion, they were transferred to regular units of the Southern Military District of the Armed Forces of the Russian Federation. They were assigned to the positions of snipers, grenade launchers, arrows and machine gunners.

Based on the evidence taken, investigators of the Security Service were informed by the persons of the Criminal Code of Ukraine:

Наразі вони перебувають під вартою. Триває розслідування для встановлення всіх обставин злочинів. Зловмисникам загрожує довічне ув'язнення.

Комплексні заходи проводили співробітники СБУ за процесуального керівництва Київської обласної прокуратури.

European countries are currently demonstrating unity and solidarity in many reports, including the support of Ukraine and the introduction of sanctions

pressure. This was announced during the 15th Annual Kyiv Security Forum, founded by the Arseniy Yatsenyuk Foundation "Open Ukraine", said Etienne de Posen, an extraordinary and non-resident ambassador of France to Ukraine.

He said that French President Mr. Macron has built a very warm relationship with a moistened Zelensky before the large-scale invasion of the Russian Federation, and now the Ukrainians are welcome that France supports Ukraine.

He noted that after an attack on the Russian Federation on Ukraine of the EU country and, in particular, France interrupted their attitude to the military aspect of Ukraine's support.

Etien de Possen emphasized that the French position has been unchanged from the beginning of a large-scale intent - Russia is an aggressor, Ukraine is fighting for its existence, independence and security.

He also noted that France provides powerful military assistance and support Ukraine in the UN Security Council.

He is also convinced that Ukraine will surely become a member of the future.

In the straight [ether](#) The only news of the "Uniform News" spokesman of the Air Force of Ukraine Colonel Yuriy Ignatius responded to the questions of the

presenters on the situation during the last day of the Tie efficiency of the Ukrainian Air Defense System.

-As we can see, this night was more or less quiet,-said Yuri Ignat. - In the south there are several whipped UAVs, now in the air command "South" are refined their types. But in general, it was a day - both night and day, were stubborn. The enemy used different types of weapons, including ballistic routes in peaceful institutions.

Colonel Yuri Ignat notes that the aggressor country continues to use anti-CIFT objects in the frontal area of the anti-aircraft managed missiles KOSKOSS-300 and C-400. At the same time, during the use of such weapons, not against air purposes, but on the Earth, their accuracy is significantly lost, and therefore Rosarmia releases for land purposes not 1-2, and 7-8 missiles, affecting the area, by type of work, say, say, say, say, say, say "City". In the Bakhmut direction, the enemy has unsuccessfully stepped down, but in general the offensive activity is reduced. The enemy relied on the detachment of aviation strikes of tactical artillery shelling. About this [it is referred](#) In the telegram-channel of the Deputy Ministers of Ukraine Anna Malyar.

"Yesterday and today there are no active battles - neither in the city nor on the flanks. Instead, the enemy actively fires the outskirts of the city and the approach to it," she reported.

According to Anna Malyar, we hold the previously occupied heights of half-night and south from Bakhmut. At the same time, the promotion was reported yesterday and today to accomplish other tasks.

The decrease in the offensive activity of the enemy is due to the fact that the replacement and re-grouping of troops continues. The enemy tries to strengthen his own capabilities.

"Our troops control the outskirts of Bakhmut in the southwestern part in the aircraft," the Deputy Minister of Defense of Ukraine summed up.

In an interview with the famous Ukrainian journalist Dmitry Komarov, Major General Vasyl Malyuk, the head of the Security Service of Ukraine, told how a large-scale war was personally elaborated for him, as well as the first steps from the Schichius invasion of the power structure he now heads.

-I met the war side by side with the staff of the Main Directorate of Intelligence National Guards,-the general recalls. - We went to meet the enemy and did possible and impossible so that it does not enter the capital.

According to Vasyl Malyuk, this happened in the first two days after the beginning of the Russian invasion, and then he had to return to Kiev, to abuse and to arrange work.

-In those days there was a lot of such a Brownian movement, and it was necessary to do so that everything would work harmoniously, like an orchestra,-explains Major General.

As a result of instantaneous measures, the capital was divided into several feasters, and each of them worked operational and investigative groups, which were composed of employees of the Security Service of Ukraine, the National Police, as well as NABU and special forces. Law enforcement officers responded to any threats, instantly leaving into places.

And the SBU chairman says that in those threatening for the Ukrainian capital, the Dainets of February 2022 was in the defense of ancient Kiev literally, even civilian citizens.

In a few days, on February 28, Vasyl Malyuk was appointed President of Ukraine by the Deputy Chairman of the SBU. Returning from the Ministry of Internal Affairs of the Homogeneous Security Service, the officer first took up the creation of a special unit to fulfill the most important tasks in the rear of the enemy on the territories temporarily seized by the Russian horde. At that time, the fighters of the newly formed special unit operated on the border of the Kiev Tyazhimir regions, performing the most important task at that time - the reconstruction of the enemy's logistics paths. It also includes partisan-agent forces. Special forces, guerrillas and agents in the rear of the enemy conducted a lot of special measures, which significantly weakened the enemy. So, among other things, then the fighters of "Bunnik" managed to even destroy the rear office of the Russian armada, which was blown deep into the country. Subsequently, according to Vasily the baby, the experience gained then was successfully implemented in the territory of Donetsk, Lugansk, Kherson, Mykolaiv and Zaporizhzhya regions.

-It was in this connection that I was on business trips in these regions,-adds Major General Vasyl Malyuk.

The North Atlantic Alliance in the future summit in Vilnius has a political decision - to offer Ukraine membership in NATO and start negotiating entry.

About this [it is referred](#) in a complex positional [document](#) NATO Fighting Forum, which was presented during the 15th annual CBF.

The document states that "there was a lack of political will on both sides for many years."

"Instead of adopting Ukraine - a historical step that would provide common security and stopped the growing geopolitical and military ambitions of Russia - multi -political leaders have chosen to postpone and leave such a perspective in the future. This turned out to be a tragic mistake, " - said the efficiency.

Its authors state that the war has changed everything: "The national resistance of Ukraine opposite Russia's aggression has made a real breakthrough in the Alliance's security thinking.

The document emphasizes that now nothing can replace Ukraine's membership in NATO - "no special formats or temporary security".

The Kiev Security Forum emphasizes the need to quickly move to the excavation and hopes that the NATO summit in Vilnius will be a turning point for Ukraine's membership in the Alliance.

The document calls for the Allies to make a political decision to propose to Ukraine membership and start negotiations on admission. In addition, start negotiations within the Alliance on providing Ukraine with guarantees similar to the collective defense guarantees of Article 5 for the period before NATO accession.

"Without unambiguous clarity in the issue of Ukraine's accession to the Alliance, we are at risk of maintaining an endless war in Europe, and the issue of Ukraine's membership in NATO instead of becoming a fundamental element of the new European European Architectural Security, will again become the subject of trading during political negotiations."

If Russia wins the war against Ukraine, it will inspire China to declare antiquitorial claims to Japan, India, Vietnam and other countries. It is a common situation not only in Asia but also in Europe. The loss of Russia in this will enhance the dependence of the Russian Federation on China.

This opinion during the 15th Annual Kyiv Security Forum expressed the older researcher asia Society Policy Institute in New Dely Dr. Ch. Radja Mogan.

He also stated, although India did not clearly condemn Russian aggression, his country appreciates territorial independence, inviolability and sovereignty and weighs their fundamental issues.

According to the expert, this situation is complicated by the fact that India has a very developed defense relationship with Moscow, and these relationships are important for overcoming aggression from China, which has territorial claims to India.

Raja Mogan wished Ukraine victory and preservation of historical sovereignty, as it "will help restrain Chinese expansion."

In an interview with Dmitry Komarov, the head of the Security Service of Ukraine Major General Vasylmalyuk said that last year the special service had already discovered more than 300 Russian agents. But there are nuances, says the head of the SBU.

According to the SBU chairman, agents are detained, so to speak, different caliber. From ordinary collectors of information on the dislocation of Ukrainian military parts and units - to top, such as Medvedchuk.

-If we mentioned this person, we should understand that Medvedchuk worked side by side with the 5th FSB Service of the Russian Federation,-Vasily Malyuk continues. - This is the service that works in Ukraine. She did this all the time, it is her direct work. There was even such a plan called "Ray" - and in the case file it was reflected - where Medvedchuk even made adjustments to how to work and work in Ukraine. It is about their deep agent prohibition, the further creation of occupation regimes in the territory of Ukraine, etc.

The general adds that, working on the case of Medvedchuk, the SBU staff found and many other hostile sources. In this context, one cannot but mention, in particular, a traitor who became a resident of Russian intelligence and had a call sign "Professor".

-It is a character who worked in Odessa,-says Major General Magic. "He also lived, and he was a resident, that is, he had other agents who were in other

regions of Ukraine, collected information, passed it on to the Professor, and he, in turn, passed on to her.- He had with him the so -called STZ - a special technical tool, - explains General. - It was a clock equipped with a camcorder and other means. He filmed, and in the future, thanks to the information received, the enemy planned to bring rocket blows to these objects, the buildings of the VCA and the SBU.

One of the ways that will allow the process in the international tribunal to attract Russian President Vladimir Putin to justice for the aggression of the in Ukraine, may be the adoption of the UN General Assembly resolution. Such a burden of the 15th annual Kiev Security Forum was expressed by William Taylor, Vice president of the Institute of Peace(USA), US Ambassador to Ukraine in 2006–2009.

In his opinion, **one of the options** is the adoption of the UN General Assembly resolution.

He noted that this "will need extraordinary efforts, but it can be made," because, as William Taylor reminded, Ukraine managed to receive 141 and even 143 member states of General Assembly.

Mr Taylor also stressed that the United States offered another mechanism of the beginning process.

**The third option** Taylor named the idea of consideration of Putin's claim in one of third countries, such as European, in the jurisdiction of Jeslochin to commit the act of aggression.

Separately, the exhibit also spoke about the prospects of NATO summit for Ukraine, which will take place in Vilnius.

We will remind, earlier, the office of the President of Ukraine stated that Ukraine can be created before the creation of an international special tribunal for management for the next year and a half for the next year, provided

SBU head Vasily baby

According to the head of the Security Service of Ukraine, Major-General Vasyl Malyuk, the enemy of his agents in the liberated territories were not

ready for the level of professionalism of documentation that Ukrainian special services have today.

Also, says Major General Vasyl Malyuk, we have actively documented the so-called enemy pseudo-referendum in the territories where the enemy managed to legitimize his tricolor. An interesting moment was known from the document -intercepted Security Service of Ukraine. In it, the collaborators complained to the curators from Russia that the Kherson do not support the ideas of DORF.

"The situation is very tense in settlements. Most residents are pro -Ukrainian, they are awaiting the liberation of their territory for the formation of the Armed Forces, aggressively against representatives of the Russian authorities on the ground, "the traitors reported to their owners.

The Head of the Security Service of Ukraine shows that on the day of the so-called plegiscite, the enemy and his associates were pre -prepared data on the appearance and results of "Voting".

- 30 hryvnias from each ticket sold will be allocated for rehabilitation of vents through sports and providing the National Team of Ukraine in the Games in Dusseldorf this fall. Ukrainian defenders and defenders who have wounded wounds and injuries during hostilities will present our country in international competitions in adaptive sports for veterans, "Oleg Sobchuk said during his speech.

The head of the veterans department of the "Concement of the Living" Foundation Taras Kovalik Talodimir Turchin - the head of the project "Support the unconquered" from the stage thanked the Gurro and personally Oleg Sobchuk for their work, which helps the military.

In addition, the concert was a collection for operations for the National Program "Save the limb", whose mission is to reduce the disability of Ukrainian Ukrainians, which is associated with the injuries of the extremities that they have experienced. In April this year, the frontman of the band Oleg Sobchuk became an ambassador programs "Save the limb".

The funds of almost 800,000 hryvnias received in the charitable tour of "Non", which took place in 23 cities of Ukraine, will also be sent for conducting operations for the wounded military. The author of the program Serhiy Soshinsky received from Oleg Sobchuk a certificate certifying the transfer of funds.

Talking in an interview with Dmitry Komarov about recent detentions of hostile agents, the head of the Security Service of Ukraine Major-General Vasyl Malyuk was separately on the agent network under the name "Serb", which operated in the Dnipropetrovsk region.

-It consisted of 7 people, and they worked in all possible areas: they gathered information both about the military and civilians, and including the missile shelling of Dnipropetrovsk region,-explains Major-General Miarvasil Mid.

The bold traitors acted under the guise of volunteers, identifying the information they needed from the Ukrainian military.

The detention of the culinary was a loud business. After all, it was not the arrest of an ordinary employee, but the head of the SBU department in Crimea. The Colonel of the SBU, who was to comprehend the liberation of Crimea, on the contrary, was a Russian spy, transmitted secret information. His arrest became a special operation, which he was developed by the chairmanly by the President of Ukraine.

Indeed, today the Security Service of Ukraine pay special attention to their own employees who are suspicious. For example, they notice that they are tiding about colleagues or investigations of resonant administrations. And then it turns out that they have connections with the power structures.

Since the beginning of the UNIFIER Operation in 2015, the Armed Forces of Canada have trained more than 36,000 military servicemen of Ukraine's security forces and the advanced soldiers, in particular, more than 2400 have been trained after full -scale maintenance in Ukraine in February 2022. Canada's National Defense Minister Dear Anita Anand also noted that the supply of donations of small arms and ammunition in April was the supply of packages. Machine guns, machines, stores, stores were already delivered to Ukraine, and it is planned to deliver 1 million rounds of caliber5.56 mm and 4800 assault rifles in the next weeks. The summer is expected that all 21 thousand rail weapons and 2.4 million ammunition will be in Ukraine.

Thanks to the current work of the Royal Air Force detachment, more than nine million pounds of military aid provided by Canada, Alliance members and partners in Europe have now been transported by Canada.

Canada, as before, seeks to work closely with the Alliance members of the Tapartners to provide Ukraine with the necessary support that continues the brave to the illegal and unjustified war of Russia.

Facts:

Contact Group on Defense of Ukraine(UDCG)The United States Ministers were created in April 2022 to provide a strategic mechanism for determining the critical needs for the equipment and gaping of Ukraine, which allowed members of the Alliance and partners to synchronize the prevention, consult and coordinate military assistance and increase the capacity of armed forces. The Contact Defense Defense Group of Ukraine is gathering on a monthly ministerial level and now unites 50 countries.

Since the beginning of 2022, Canada has allocated more than \$ 8 billion in help, including over \$ 1 billion in military assistance. This includes the main combat tanks of Leopard 2A4 and one armored evacuation machine, the national advanced anti-aircraft missile system(Namams)Repeated ammunition, 39 armored vehicles of combat support, anti -tank weapons, small arms, howitzers M777 and appropriate ammunition, drones with high resolution chambers, winter clothing and more.

More than 300 servicemen and servicemen of the Canadian Armed Forces are now advanced as part of the UNIFER operation, perform various functions, such as providing and coordinating training, supporting national command, assistance and delivery of military donations to Ukraine in coordination by significant allies and partners.

Today is another of our sanction day. There are sanctions against legal and physical persons - most of them Russian - who work for terror.

In total, 220 companies and 51 individuals. These are MIC and Trusted Russian companies. Understanding the war. And the persons through whom these companies are managed.

Not all of them operate in the territory of the terrorist state, some in other countries. But global pressure will be obtained. Step by step, we collect full data for the aggression - directly or indirectly. Each such person is building as well as our Ukrainian sanctions are either already synchronized or will be synchronized with the sanctions of the free world.

When Russia began this aggression, they looked at the world there in the mirror. There was thought that all in the world were the same cynical and allegedly as despite people as the owners of Russia. But the world is different - the world helps us to protect our lives. And everyone who goes against the world will become marginal. Russia will not get anything and all. Along with those who still try to help her in terror.

We will continue our sanction steps, and there are new sanction packages in turn - even large -scale.

As a result of the week, I want to thank Japan for a new sanction package of anthropabilitia. Thank you for the new security assistance from Japan. This is what really saves.

I thank Finland for a new defense package for Ukraine, this decision was also made by this week.

I thank Germany for the transfer of our country to the next party of various defense supports, which will strengthen our defense against Russian terror, including protection.

I want to thank Canada for his willingness to strengthen my leadership in Ukraine support.

Thank you to Iceland for the help of our protection and our people.

The next week, too, will make it strong in terms of our cooperation with our partners. We do not lose the week.

And, as always, thank you to our soldiers, everyone who was particularly distinguished by the week.

The Bakhmut direction ... 80th separate landing brigade-thank you, warriors, for your active actions! This is exactly what you need. The glorious 93rd separately mechanized brigade "Cold Yar"-thank you for your sustainability and for your meaning! Well done!

According to the representative of the GUR of the Ministry of Defense of Ukraine, now the task of the Russian guerrillas of the state of the state from

the regime of Vladimir Putin. Andriy Yusov informed that the resistance operates both in the border villages of Russia and in the capital region of Ukraine-aggressor.

"Their task is now, when we talk about Belgorod region, the liberation of this land from the dominance of Putin's regime, which for the inhabitants of these territories - representatives of different peoples, different nationalities - is obviously a regime of internal occupation. And if we are talking about a number of peoples who have a higher political consciousness, it is not even an internal occupation, it is, in fact, a direct external occupation - for example, if we talk about the Divative or Tatarstan, "he explained.

The intelligence representative warned that Ukrainians should not overestimate the reaction of Kremlin to the operation of the LSR and RDC in the Belgorod region in the context of Nafrorot. However, according to him, the Russian leadership is forced in response to the divisions of the region to regroup their troops. The breakthrough of volunteers across the Cordonandri Yusov called an unconditional consequence of the full -scale invasion of Russian Storytoria of Ukraine.

"The geographical and political names of the territories may change. The territory that is called the "Russian Federation"-it includes various historical land, which in different stages were called differently. So today this name is this, then - we will see, "he emphasized.

The representative of the GUR of the Ministry of Defense of Ukraine informed that as a result of the operation of the Ubelgorod region, a valuable information for Ukrainian military intelligence was collected, which for obvious reasons would not be disclosed. However, the part of the data he briefly described as the "king of the naked" received the whole world. As Andrei Yus explained, it is about the exhaustion of Putinat's power apparatus by Russia's vulnerability to internal blows.
