The Security Service of Ukraine has neutralized the subversive activity of 12 more pro -Russian agitators, who spread anti -Ukrainian content on the Internet.

**Yes, in Poltava region:**

According to the materials of the SBU for 8 years, prison threatens two hostile propagandists.

One of them is an employee of a local enterprise of critical infrastructure, which has performed a full -scale invasion of Ukraine.

Another person involved in the Internet has the idea of establishing Kadyrov in the Ukrainian cities.

**In Dnipropetrovsk Oblast:**

The former local merchant, who heroned the militants of the Wagner PEC and justified their participation in the assault of Ukrainian cities in eastern Ukraine, was exposed.

He distributed destructive "slogans" through the Internet, as well as when communicating with acquaintances.

**In Donetsk:**

The whole "cell" of pro-Russian online agitators is neutralized. It included 4 residents of the region who praised the L/DNR terrorist organizations involved in the Eastern Front.

**In the Kirovograd region:**

The resident of Onufrievsky district was detained. In his posts on the social network "Classmates" he called "illegal" the de -occupation of Kherson.

**In the Chernihiv region:**

Two hostile agitators were reported. On their own accounts, they posted propaganda posts that were trapped by Internet groups.

It is established that the son of one of the persons involved is a Russian military, with whom she reassured.

**In Rivne region:**

The subversive activity of two citizens of the Russian Federation with certificates of residence in Ukraine is documented.

In the forbidden social networks, they discredited Ukrainian defenders tasked crimes of Russian invaders from Buryatia against civilians.

In all exposed facts, investigative actions are ongoing to establish all circumstances and prosecution of the perpetrators, [reports](#) SBU official site.

The complex measures were carried out by the SBU staff in Dnipropetrovsk, Kirovograd, Chernihiv, Poltava, Rivne, Donetsk Talugansk regions together with the National Police for procedural management of the prosecutor's office.

The other day, three-day courses in tactical medicine were held with a group of soldiers of a separate regiment of support for the Command of Supporting Forces forces of Ukraine, which were under the guidance of the instructors of

the Training Center of the Tactical Medicine "Wheel". Knowledge of the right sequence of actions and the formed skills can save life while providing medical assistance in the wounds.

About it [reported](#) On the Facebook page of the Armed Forces Support Forces.

The course of training instructors ASM(All Service Members)- This is the basic, first level of preparation by TSSS Protocol(Tactical Combat Casualty Care). Цей протокол сьогодні в Збройних Силах України є офіційним. Загальна мета ТСССПолягає в тому, щоб навчити воїнів ефективно надавати допомогу пораненим убою, водночас запобігаючи додатковим втратам особового складу і є запорукою успішного виконання бойового завдання.

Одна із засновниць центру тактичної медицини «КоЛеСо», бойовий медик Ольга Омельчук розповідає:

«Ми готуємо інструкторів у військовій частині, яких обираємо серед військовослужбовців цього військового колективу. Досконало відпрацьовуємо з ними перший базовий рівень протоколу, щоб згодом вони навчали інших військовослужбовців. І що найголовніше — кожного тижня тренували особовий склад своїх підрозділів. Це неможливо забезпечити за допомогою сторонніх інструкторів, які приїжджають на певний час. Кожна військова частина повинна мати власних інструкторів, які будуть здійснювати постійне, системне тренування. Серед усієї групи ми проводимо перший модуль навчання — це три дні, потім ми формуємо програму за якою займаються визначені нами старші групи, вони продовжують тренувати майбутніх інструкторів. Коли вони завершать навчання, то будуть здійснювати правильну підготовку своїх побратимів для надання допомоги пораненим на полі бою».

Mr. Kisido, Mr. Prime Minister, thank you for the invitation to visit the summit.

Dear colleagues!

During this war, Ukraine participated six times in meetings of the Seven Group, but online. Now - a moment for personal thanks.

We, together with you and all our allies and partners, have reached such a level of work that provides for democracy, international law, to freedom.

In the world, there were efforts to ignore and despise what we value. But now it is evident. Now our power is growing. And anyone who can wish the anti-democratic country's aggression sees what the answer will be. And the more we will work with you, the less likely it is that someone in the world will go crazy. But is this enough?

Democracy needs more. I think we need the obvious global leadership of democracy. This is the main thing that we provide our cooperation.

Here are some examples.

For many years, we have heard that Russia can attack any country with hypersonic missiles that have not been knocked down. Russia wanted to be afraid of some moment to betray our values. Well, it is over. The "Petriets" of the Ukrainians have shown what democracy was capable of.

We together proved that the question is not how many missiles are in our country enemy, but in how many air defense systems we have. "Petriots", "Iris-T", "Nams", "Classes", "Samp-T"-they protect life in our cities and rescue a global safety brand for democracy.

When such air defense systems in Ukraine are enough to protect all cities, the world will see which air shield is able to create democracy. We are moving what the safety of the sky will be, not our enemy.

I thank you, dear leaders who helped Ukraine with air defense! Together, we have saved Russian rockets for thousands and thousands of lives of Ukrainians.

I am also grateful for the decision to train our pilots on modern fighters.

The air shield can only be complete when ground systems are filled with modern aircraft in the air. Now we are going on the way to eliminate the breakdown.

When our pilots know the F-16 and when these machines appear in our sky, it is not only for Ukraine. It will be a historic moment for the entire security architecture in Europe and the world.

Dear colleagues! Each decision for the protection of Ukraine and freedom guarantees the preservation of international rules based on the rules. As the house grows from the bricks, so the decision with you is growing freedom - we guarantee it. We, democracy.

And our answer is, in fact, the basis for the mandatory rules for preventing aggression.

Ukraine emphasizes the principle of preventive security. That is why our suggestions for the security package for Ukraine - when they work - will become a comprehensive factor. And not just for us.

There are "safety umbrellas" in the world. And they have to open when the sky is blackened. But how will it be the one at a time, while the "security umbrella" expands to a new ally?

Just as our actions with you have saved the international law of Tasvoboda during this war, our security guarantees will work to prevent the tragedy of war. They will work to stop the potential aggressor.

Ukraine would like our teams to place dots over "i" in the case of guaranteeing Vilnius - the summit for which the Euro -Atlantic is expected.

Thank you, Mr. President Biden, that you fill the content of global safety for democracy! Thank you for the leadership, for the weapons, for the decision to feed pilots. I believe that the wings of our common freedom will be more obvious in the world! Thank you to both parties of Congress and yours, Mr. President, a team and all a love -loving American hearts.

I thank you, Olaf, Mr. Chancellor, for your determination, which changes the history of democracy, for the long -term defensive and financial support of Ukraine, which gives stability to all our free Europe. I thank your colleagues in the government, thank the Bundestag and the whole people of Germany.

I thank you, Mr. Prime Minister, for your energy, which gives us more and more long-range opportunities. I believe that your leadership will help to give the obvious force of law when, together with our partners, a mom -tribunal on Russia's aggression. Thank you to your colleagues, the British Parliament and the whole British people.

I thank you, Emmanuel, Mr. President, for saving the values and that the support of France of Ukraine is a manifestation of respect for freedom people, for equality in international relations, for brotherhood between people.

I thank George Meloni for the power of her character gives us all. Thank you to the Government, Parliament and all Italians who support our people's protection. Thank you, Charles, thank you, Ursulo, for being more than institutions under your leadership of the Memorial Institution. It was once said that the EU is a Tsyburecacy. You prove that our association is not kept on bureaucracy, but of the durable values that give us a strong course!

Thank you, Fumio, Mr. Prime Minister, for the obvious leadership of Japan in Asia's fate of international law, thank you for comprehensive support from your country.

Dear colleagues!

We are united by another principle - rationality. We always act practically, protecting our values. And the obvious expression of rationality is the Ukrainian formula of peace. I thank you for the support of our formula.

The day before I was at the Summit of the Arab States League, and we do everything to connect the whole world around the formula of peace - around a peaceful summit, which will give a push of a formula.

I would like to discuss the steps from the implementation of the formula and details of the organization of a peaceful summit within our meetings today.

Thank you.

**Mr. Prime Minister Kishido!**

**Dear leaders!**

We all have a chance to become co-authors of peace. This peace will not be for one country, as well as this war is not only harmful to Ukraine. The UN Charter and the order based on the direction were destroyed.

Everyone in the world has felt the destructive consequences of Russian aggression. Someone has worked out of crazy jumps for food or energy. Someone will see that in the case of a catastrophe on the Russian nuclear power plant, the wind is precious pollution to its land. Someone knows that if Russia manages to collapse the stolen Ukrainian territory, then on its land a receiving neighbor.

Our world is big, but we all have in it together. And this is our common thing - peace.

At one time, until February 24, Ukraine spent more than 180 rounds with Russia - 183 - in various formats for termination of aggression. There were respectful international intermediaries in those interrogations, and they saw that Russia was not looking for peace.

The truce did not work. It lasted seven years, and during this time thousands of people were killed. Now nothing has changed, except that we, when we defended ourselves, weakened Russia. Now she is frankly looking for frosts of war. Not for the sake of peace, but for the sake of winning a little time, growing strength and hitting again.

The one who has embarked on the path of terror does not come from him.

That is why our formula of peace and international law are needed. Ukraine has proposed a formula of peace to the world. While the Russian invaders remain on our earth, no one will sit at the table of negotiations with Russia. The colonizer must go away. Alesvit has a power sufficient to make Russia to restore Russia step by step. We have proven that.

As an example, food safety. This is one of the points of our peace formula.

When Russia blocked our sea, we found a way out. We agreed with the UN Iturechyna to create a corridor for food exports so that no one in the world will be angry or food shortages.

Together we stabilized the markets. So we gave the world an element of peace. And by analogy, it can also work for each other point of the formula of peace, starting with radiation - which is very dangerous - and energy security and ending the restoration of the full force of the UN Charter and our territorial integrity, so that they have been violated by Russia.

We have developed a peace formula so that each of its points is supported by resolutions. So that everyone in the world can choose the point that can help realize. From Japan to Arab countries, from Europe to Latin America - we find support for the formula of peace. And we continue this work.

Soon - 500 days of a full -scale war, in July it will be. And this is a symbolic time of time, a good moon to collect the formula of peace - the world of world. The summit of anyone who respects honesty and wants to end this war. I am going to join together!

Even if we are divided by the distance, we are united by a common understanding: you were bruised, if your home had fallen into your home if the enemy came to your gate i deported your children, you would not seem to be colonialists, you would unite all world, you would fight like We fight.

**Thank you!**

**Soon - summer holidays. The Ministry of Education has found that this rocky will begin on May 25 and will last until September 1.**

**And although the number of children's camps in Ukraine in connection with Russian aggression and the occupation of part of its territory has decreased significantly, our children will still have to relax and get well. Armyinform correspondent has tried to find out what children's camps this summer will be free of charge or on preferential conditions will receive children of servicemen.**

### **Summer camps, free for children of servicemen**

List free summer camps for children in 2023 provides [enableme.com.ua](https://enableme.com.ua) .

У 2023 році кілька організацій відкрили набір у пільгові дитячі літні табори для реабілітації та відпочинку дітей. У цій статті ви зможете знайти інформацію про умови отримання безоплатного відпочинку, а також контактну інформацію організаторів таборів.

### **Ukrainian Gen Camp**

З 17 квітня у Карпатах почав роботу Gen.Camp — оздоровчо-освітній табір для психологічної реабілітації дітей з гарячих точок України. Це безоплатна ініціатива, яку фінансує фундація Олени Зеленської.

Участь у таборі безоплатна, реабілітація проводиться за кошти українських меценатів.

Хто може стати учасником Gen.Camp?

Діти віком 7-11 років, які мають яскраво виражені ознаки психологічної травми, спричиненої війною, та потребують якнайшвидшої допомоги.

### **Літній безоплатний реабілітаційний табір «Небокрай»**

Безплатний реабілітаційний табір для дітей був створений за ініціативи КАД «Небокрай», та проводиться за підтримки Благодійної Організації «БФ СЯГАЙНЕБЕС», а також благодійників — фізичних та юридичних осіб як в Україні, так і за її межами.

Мета проекту — надання безоплатного відпочинку та створення сприятливих умов для швидкої реабілітації дітей, що постраждали від збройної агресії російської федерації в Україні.

Табір відбудеться влітку 2023 року на Закарпатті в Україні, в дві зміни. Перша зміна 1-16 липня, друга зміна 15-30 серпня 2023 року. Кількість дітей на зміні — до 60 дітей. Зміна триває 14 днів.

Who can get a vacation at the Skhraray camp?

Bulgarian lays the plans for the construction of a second nuclear power plant on the Danube bank by Russian nuclear reactors, which she purchased from the aggressor country six years ago.

As Ukrinform reports, it reports .

The Bulgaria Government intends to instruct the French company "EDF" to analyze the dawnness of the completion of the construction project In the city

of Belene, which started 40 years ago and has been frozen several times by various governments.

Bulgaria ordered two Russian nuclear reactors for a project in Belen six years ago, but after the start of a full -scale invasion of Russia in Ukraine in Ukraine became impossible for Russian companies.

An alternative is the construction of two new American nuclear reactors at the Mscinjin NPP in Kozloldi.

The Provisional Government, appointed by Bulgaria President Rumen Radev, wants the Parliament to decide whether to continue the nuclear project in Belen or to look for buying Russian equipment.

At the same time, the Bulgaria Ministry of Energy awaits proposals from EDF on the conditions and the cost of completing the project with Russian reactors without the participation of Russia.

**Read also:** The country also awaits proposals from the American company Westinghouse to bring new reactors to NPPs in Kozlodua.

On May 19, the Minister of Energy Rosses of Christ reported that state investments at the Bulgaria at the NPP was 1.25 billion euros.

"We have assets of 1.25 billion euros, for which we have a platum of millions a year, and Bulgaria has long been a time to make a decision on an important state asset," Christ said.

As reported , France plans to modernize and develop its own nuclear energy.

The European Union has condemned the Russian decision to initiate a criminal case against the prosecutor and three judges of the International Criminal Court, which were involved in the investigation of crimes during the Russian aggressive war against Ukraine.

According to Ukrinform, this is stated in the statement of the high representative of ESZHZEP BORREL, the full text of which was published on .

«Європейський союз засуджує кримінальне провадження, що було ініційовано the authorities against the prosecutor and the judicial criminal court. Any Russian actions against the MCC Tasprob's mandate intimidate those involved in the investigation of international crimes in Ukraine are politically motivated, unfounded, unjustified and unacceptable. They are a further testimony to the Kremlin's unanswered rules and international law, "he said at home.

The EU has confirmed the full support of the ICS, which is an independent Tane -pre -warned judicial institution, which is trusted by more than 120 countries from all -regional region, and which provides responsibility for the most serious crimes.

"We firmly stand with the court, and we remain ready to protect his employees from any foreign interference in the course of justice that is taught to undermine the international criminal justice system. We make all the member countries to protect the principles and values set out in the Urian Statute and to remain united in the fight against impunity, "Josep Borrel said.

NGO "Crimean" organized a charity screening of the documentary "1944. Crimea. Deportation ", the funds raised will be directed to support 251 separate forensic defense of the Armed Forces.

This was reported by Ukrinform correspondent.

"It's not just stories about deportation. These people are witnesses of a crime that is so punished. Therefore, it is important to know these stories, it is important to document them. She turned out to be very emotional, sensitive, she explains what deportation is and what she did with a person, " - said the screenwriter Mavilier Khalil.

According to her, the premiere of the tape took place in 2019, but it still degenerates festivals. The film won awards in Turkey, Greece, India.

"1944. Crimea. Deportation "has three main lines: three elderly people recall how at five o'clock in the morning they were given 15 minutes for a meeting and taken out - whom to the Urals, whom in Uzbekistan. At that time, they were 10-12 years old.

The movie also contains animation elements. It was based on the paintings of one of the heroes of Sadykha Aji-Selyma, who through drawings documented the events during the deportation: as children of Russians threw stones on wagons in which transported Tatars, and shouted "traitors", as they had to lay down with friends. .

The historian Martin-Alexander is sour, he noted that the deportation of 1944 erased the memory of the Crimean Tatars all previous injuries and tragedies that had fallen on the dollyu people, including the Holodomor, which was also in Crimea in 1932-1933.

At the same time, the Crimean Analyst Yevgeny Yaroshenko emphasized that the most aptly writing the tragedy of the Crimean Tatar people is the term "surgun", which in translation "exile".

"As for me, a discourse could be started on a more correct terminological evaluation of these events," he said.

The autumn-winter period of gas in Ukrainian storage facilities has more than 14 billion cubic meters.

The Prime Minister of Ukraine Denis Shmigal wrote about it in According to the results of the meeting of the crisis energy headquarters, Ukrinform reports.

“The main topic is the start of preparation for the next heating season. (<https://www.ukrinform.ua/tag-gaz>) The storage facilities should be more than

14 million cubic meters. Our strategic goal is to minimize the import of gas in Ukraine by increasing our own gas production, "Shmigal said.

According to him, at a meeting of the anti -crisis energy headquarters, the situation in electricity was also created. Schmigal noted that it was a Dano-order to increase the possibility of export-import of electricity with the EU.

"They agreed with all the energy enterprises present with the plan of recovery of the supplier season of 1710 MW of generating capacity," - said.

**Read also:** [\*\*Shmigal\*\*](#) The Prime Minister has informed that the Ministry of Energy and the Ministry of Infrastructure was tasked with ensuring the protection of over-Russian drones and missiles of generating facilities and distribution systems.

The meeting also discussed the proposal for decentralization of the energy network, including the involvement of communities in the development of a dispersed generation, said Shmigal.

As reported by Ukrinform, He expressed the opinion that in the next heating season the Ukrainian power system would come with a much smaller margin of safety. It is necessary to accelerate the pace of repair work in order not to return to shutdown electricity.

Nigerie has been opened by the largest Dangote oil refinery in Africa, which should help overcome chronic fuel deficiency in the country.

About it reports , reports Ukrinform.

As noted, Nigeria is a large manufacturer , but most of it is exported, instead the country is forced to import purified fuel and often encounters fuel deficiency.

This problem should be solved by the refinery plant, which belongs to the richest humanity of Africa Aliko Dangote. The cost of the plant is \$ 19 billion, its construction lasted for almost 7 years.

**Read also:** It is planned that the company will be able to produce about 650 thousand barrels of barrel products a day - this is more than enough to meet the needs of Ukraine. The complex also includes a power plant, a deep - water port and a fertilizer factory.

As reported by Ukrinform, the countries of North Africa have increased significantly imports and petroleum products from Russia.

The European Union is determined to ensure the efficiency of economic sanctions against Russia and make it impossible to bypass with third countries, and Tsizilles will be at the heart of the 11th Package of Sanctions.

This was stated by the EU High Representative Josep Borrel at a press conference with the suspicions of the EU Council of Ministers on Foreign Affairs, correspondentation.

"We discussed the 11th Package of Sanctions. His focus will be on the missing sanctions, which occurs in certain places. We have to put this land," said .

According to him, the EU conducts the analysis of commodity flows after the introduction of sanctions against the Russian Federation, including indicators of EU exports to some countries that bordered.

"For example, we reduced our car exports in the Russian direction by 80 percent. At the same time, we increased the export of cars to some countries by almost 300 percent. Somewhat strange interest in European cars of Russian neighbors. And it is not a senseless idea to imagine that these cars were imported and then re-exported. If so, it will be bypassing the sanctions," the high representative of the EU said.

**Read also:** [\*\*Borrel\*\*](#) Another example that he cited is the sharp increase in the demand for Russian Naiser India, which now accounts for 36 percent of Russian oil exports, the habitat of several times exports of products of Indian oil refining enterprises to the European Union.

"In the case of India, I clearly stated that it buys Russian oil, Jesicon, is normal. We do not blame the government of India at all. Osanctions are not extrusion. Our companies were obliged to execute decisions, but we cannot impose our will of India or Indian companies. If, thanks to our marginal limitation of prices for Russian Nafta, India can buy it cheaper - it is good, the Russians will get less monetary," Borrel said.

This year 309 Belarus and 38 Russians did not receive a residence permit in Lithuania because of the country's national security.

According to Ukrinform, the head of the Lithuanian Migration Department of Lithuania Gudzinskaya reported this, which is quoted .

"There were also those who were not given a residence permit for other reasons, but most of the foreigners did not receive it because of the threat of safety," - said.

It is noted that this number includes those Belarusians and Russians who will long live in Lithuania.

According to Gudzinskite, earlier this reason for the refusal was rare. Last year, the year of the war in Ukraine, in Lithuanian residence permit, 163 citizens of different countries were denied for various reasons (of them only 32 because of the threat of safety).

"Зростання значне, – сказала очільниця Департаменту. Саме через війну ДМпосилив контроль.

Зазначається, що зараз громадяни РФ та РБ заповнюють спеціальну анкету, в якійони повинні розповісти про свою працю в минулому, про зв'язки з правоохоронними та силовими структурами, є питання про війну, про те, коговони підтримують у цій війні.

За словами голови департаменту, попри те, що позиція About the war is unambiguous and well known, several dozen people in the questionnaire indicate that they support Moscow and its motifs.

"It should be borne in mind that there was no war before, there was no increased check. The situation has changed, the threat has increased, so the assessment of the threat has become emphasized," Gudzinskite said.

The high representative of the EU Josep Borrel emphasized that it is inadmissible to put on one-level aggressor-Russia and Ukraine, which is a victim of this aggression, as such an approach can bring just peace.

He stated this in Brussels during a press conference following the results of EU administrative administrations, Ukrinform correspondent reports.

"Anyone who is really interested in peace cannot put aggressor and victim to a single level. I conveyed this message to all leaders in the world, especially who say that they are very interested in peace but continue to put the signs between the aggressor and his victim. The approach cannot bring peace that will be fair and cannot ensure that the Ukrainian people respect for its rights," Borrel stressed.

According to him, everyone wants to end the war.

"The only one who wants to continue this war is Putin. And no one wants peaceful than Ukraine. That is why we support the initiative of the President of Zelensky's Just a Just Peace," the EU High Representative said.

Ukrenergo: power supply has been restored at Zaporizhzhia Nuclear power plant

**Понеділок  
22 травня**

 УКРЕНЕРГО  
Національна енергетична компанія

## СТАН В ЕНЕРГОСИСТЕМІ УКАЇНИ

- «Укренерго» відновило живлення Запорізької АЕС від української енергосистеми.
- Внаслідок атаки росіян пошкоджені зазнали лінії 330-750 кВ у Дніпровському регіоні. ЗАЕС певний час працювала від генераторів.
- Внаслідок атаки відключалась велика електростанція та низка підстанцій «Укренерго» і обленерго, знеструмлювались споживачі у Запоріжжі.
- Робота електростанції поступово відновлюється. Споживачі вже заживлені за резервними схемами.
- У вечірні години закликаємо зменшити використання електроенергії з 19:00 до 22:00.

Heads of the Mykolaiv Regional Military Administration Vitaliy Kim stated that he is now official data on the accession of the ports of Nikolaev to Grain Koridor.

He said this at a briefing at the Media Center Ukraine - Ukrinform, Ukrinform reports.

"There is currently no official data on the accession of the Nikolaev ports to the Grain Corridor. Everyone is working on, but I do not confirm this information. It depends on political decisions," Kim said.

According to him, everything is ready for the vessels - both Ukrainian and foreign - came from the ports of Nikolaev. But because of the threat of firing at Kinburn Spit, this issue is currently on a pause. Kim reminded that the last time they tried to withdraw Nibulon barges, they were fired.

**Read also:** As reported by Ukrinform, in October 2022 in the area of Ochakov, two barges of Nibulon were fired in Ochakov. Two workers were killed.

On May 17, Turkish President Recep Tayyip Erdogan stated that the grain consumption was extended for two months, until July 18, 2023. According to him, the Russian side promised not to interfere with the event of Turkish ships in the ports of "Nikolaev" and "Olbia".

Ukraine, the United Nations and Turkey, on March 18, 2023, have been continuing the "safe transportation of agro-products through the Black Sea". The agreement was extended for 120 days, and Russia was stated that the agreement would be valid until May 18, 2023.

Since April 2023, the Russian side has constantly blocked the implementation of the Grain Agreement. In particular, from May 8 to May 14, according to the Ukrainian Clubagrarian Business, no vessel has passed the entrance to seaports and no vessel was registered for inspection.

Viceremier-Minister for Recovery-Minister of Community Development, Territories of Tainfrastructure Alexander Kubrakov said that within the agreement, Ukraine had already exported 30.4 million tons of agricultural products.

In the Carpathian region, in Snyatyn, about 300 Jewish tombstones, which were laid out, were moved to the cemetery.

About it in The operating director in the united Jewish community of Ukraine Vivital Kamozin has informed, Ukrinform reports.

“Matsev in Snyatyn was transferred to a new Jewish cemetery. 92 Pallets, about 300 Matsev and 5 days of work ... gratitude to the land owner Sergiy for

his conscious position, and local authorities - for his complicity, "Kamozin said.

He added that one of the oldest Maciev was dated 1761. The cost of the projector was 229 thousand UAH, now 208 thousand.

It is noted that the gravel of the land owner has already been paid, and 350 km m of the pavement will be purchased by the end of the week after the funds are completed.

Currently, Matsev is planning to create a lapidarium(Exhibition of ancient writing on stone slabs - ed.). Його мають намір поставити на місці старого єврейського кладовища, з якого були зняті надгробні плити.

Раніше Камозін повідомив, що в Снятині на вулиці Шевченка земля біляторговельного приміщення викладена мацевами на площі майже 300 кв м. Це стало можливим за радянської влади.

Sexual rates, which are committed in the territory of Ukraine by Russian troops, certify that the systemic policy of Russia against the civilian population of Ukraine.

This was stated by Deputy Minister of Defense Anna Malyar during the conference "#u4j: respect. Support. Justice," Ukrinform correspondent reports.

"Crimes of the Russian Federation are not only aggression in the direct sense, but also a number of others, including sexual ones. ... They are in fact with civilian population ... So we are not just talking about sexual crimes, we are talking about the acts of medieval cruelty that our enemy shows about our civilian registration, "the painter emphasized.

She noted that sexual crimes have its own specificity.

"If in peacetime simply rape, sexual abuse we can characterize as a sexual crime and, accordingly, motivation there is a sexual passion, then in these circumstances it is also the act of dominance of one -of -the -art, it is an act of humiliation. This is done to demoralize society to break our resistance, and therefore it is much wider than a sexual violence, "the Deputy Minister explained.

In her opinion, sexual crimes are committed not only by the Russian military - the systemic action of the Russian state against the Ukrainian civilian population.

**Read also:** [\*\*Sexual\*\*](#) According to her, the Ministry of Defense has a group that investigates this category of crimes is the necessary data.

"The military and I are communicating about it, and in There is a group that works with our servicemen who came from captivity. Among them, 23% of women said that they were aware of the facties of violence against our citizens who have fallen into the bondage of the enemy's boil, and 15% of men know about it, "the MOU representative said.

Sexual crimes of the Russian military have signs of planned policy of the Ukrainian people.

"For the first time, the world saw the enemy's face in the Kyiv region. And every time we mibbon the same picture of all the territories released from the invaders. We are considering these crimes as signs of the planned policy of the extermination of the Ukrainian Narode, that is, genocide," he said.Kostin noted that because of the sensitive nature of these crimes, prejudice and distrust of law enforcement and law enforcement agencies, people are afraid to tell them.

Currently, the purpose of the Attorney General's office is to change this state of affairs, Kosin emphasized. In his words, it is necessary to start with the preparation of law enforcement officers, who can also have different prejudices regarding the victims of sexual crimes.

"We need to start with informing and training our own employees. Modern - people -centered practices of pre -trial investigation need to start with the respect of the victims. In addition to the fact that we need to take over technologies, techniques of Inavichka from our international partners, we need to introduce teaching of zapsychology, ethics and communications. Attention should be affected by sexual abuse, "the Prosecutor General said.

Thus, he added, it will be possible to build confidence and to encourage the victims of the wards to talk about sex crimes.

We will give the content for Ukraine from NATO summit in Vilnius.

President Volodymyr Zelenskyy said this in the evening video, Ukrinform reports, citing .

**Video: I wish health, dear Ukrainians!**

We have already started cooking this and in the coming weeks. We expect new meetings and intervals, as long as it is to visit us, to our country. There will be more weapons for our soldiers.

We add content to Ukraine weekly from the summit in Vilnius. We do our best to make the summit for us exactly the one that works. Let's see, but that is less, we are working on it.

By the way, today there is an important declaration from the NATO Parliamentary Assembly. Things are named by their names - a clear recognition of the genocide of Russia's crimes against our state, a clear condemnation of Rashist ideology. This is the right basis for other international organizations.

We are preparing for several intermediate security measures in the neighboring countries-those that support us most. There will be new appeals for the sake of understanding the world of Ukraine, for the sake of strengthening our connections with partners.

And such intense foreign policy, various non -standard formats, maximum useful attention of the world to Ukraine, to our defense - we will be all. Each time there are more results for Ukraine - air defense, artillery, armored vehicles, shells, training - all this is a must.

I want to thank all our soldiers today who protect the sky. About the evening until this morning, 25 "Shahmed" was shot down. 25 out of 25. Development. And every such confusion is the saved lives of people, it is an infrastructure. Thank you!

Some of the terrorists' missiles have also managed, but unfortunately, not all. Unfortunately, drilling. Dnipro and Kharkiv, Odesa and Lviv, Kyiv and Zaporizhzhia - all our cities of the Igromades should receive a full air shield. We are very active in the P for a Nadtsim together with our partners.

Today it is worth noting the units of the Khortytsa Osv - the most persistent taine, the most effective. 3rd and 5th separate assault brigades, 80-then landing brigade, 93rd separate mechanized brigade "Kholodnoyar", 214th separate special purpose battalion ... Thank you, warriors! Tsebakmut direction, it is the extraordinary power of our people.

Glory to all our soldiers who destroy the enemy! Glory to all who make our victory closer every day!

Thank you all in the world who supports us! Thank you!

**Glory to Ukraine!**

In Ukrainian, it is necessary to create memory infrastructure.

This was stated by the head of the Ukrainian Institute of National Memory Anodobokovich during a thematic meeting dedicated to Heroes Day, Ukrinform reports.

"All the great countries in which traditions are drawn, 1000 years, which value their own institutions, value their figures of the past, they have all their places that retain the memory of important events and important figures: pantheons heroes, cemeteries, cathedrals, memory, memory. ubisers, large

areas named after outstanding people. This memory infrastructure helps you feel the next generation of these heroes ... now in incredible demand for these things. We need this memory infrastructure, and the part of this infrastructure concerns the recording of memory of outstanding positamines, "Drobovich said.

He noted that the strength and example of these people will be of decisive importance for future generations.

"The vast majority of those who are now fighting in Ukraine were indeed an advanced choice in February 2022. In many respects, the country was not ready for a good attack. Actually, the whole world was not ready for such a level of aggression. Many Ukrainians intuitively, rationally, with Different motives have taken this step ... and I believe that this millennial memory of outstanding figures has shot here. Inam is just lucky that it worked like that. But it may not be lucky to be the next one. Drobovich emphasized.

Haldenwang warns of "increased risk" for Germany about possible acts of Russian sabotage. At the symposium, which took place in Berlin, he said that "preparatory actions" were already taken from the Russian side, such as a specialty for IT utility companies.

"These(sabotage - ed.)Opportunities are actually accessible, they can also be used against German purposes and, above all, critical infrastructure, "said the head of counterintelligence.

He noted that the intensity, scale and complexity of the activities of Russian services has increased significantly with the outbreak of the war in Ukraine. Currently, you can see special adventures, "but not yet a mass cyberattack on German critical infrastructure." According to Galdengwang, very powerful forces of Valuga Cyberatak have been created in Russia. They are now used mainly against the infrastructure of the in Ukraine, but if they were applied against the US, Western Europe of the Occupation, then you would really have to count with complex attacks, a recognizable counter -intelligence.

At the same time, he noted that access to a variety of information for Russia was dramatically, in particular, through the expulsion from all over Europe, several hundred workers of its intelligence services.

"Now they are forced to use alternative methods to satisfy the great interest... for Risks. There can be no question of any naivety, "the official says.

He also mentioned complex cyberattacks from China, as well as "Increased interest in espionage by German politics in all areas." According to the Glavyphebral Agency, "while Moscow's revenge was aggressive imilitarian, Beijing acts much more restrained, strategically and long -lasting purposes."The official also reproached the German right, noting that the fact that Putin's Song is singing in many places is also a merit of the "alternative for Germany" party, which is somewhere replacing the Russian media with their narratives.

In Lviv, a school using a 3D printer is being built in Ukraine. Through training

from foreign partners, the latest technology of fast and quality construction is planned to be used for reconstruction.

The founder of the Humanitarian Fund Team4ua Jean-Crisistof Bony said this during a pressbrief, Ukrinform correspondent reports.

"We brought 3D printing technology to Ukraine so that you see all its advantages. This is the first time we are using such technology in Ukraine and the entire printing phase will be completed for the datuine. We also plan to open a training center on this technology to introduce 3D- In Ukraine, and Special Donetsk and Lugansk. Everyone in Ukraine is now talking about rebuilding and we are being built right now and are ready to attract all the regions, "Jean -Cristof Bonnie said.

Construction of the elementary school of the elementary school of secondary school №23 on Warsaw Street in Lviv was launched in November 2022. In the first stage, the team projected the foundation of the future school, but subsequently the construction process was stopped due to massive missile shelling of Ukraine, lack of power supply unstable weather conditions.

Therefore, only in May, the 3D-printer and the active phase of the work were brought. According to the concept of the project, which was created by the Kiev Balbek Bureau Workshop, it erects a single -storey building with a height of 3.5m and an area of 506 square meters. There will be classes, teaching, foyer, corridors and bathrooms. The total budget is \$ 800.

"There are now about three thousand students in Lviv schools who have come from other farms with a full -scale war. This school building is located in the neighborhood of the neighborhood, where there are indeed a large number of children and all the educational institutions are crowded. One hundred children, that is, four classes, will study here. The dining room, gym and shelter will be in the main building of the school for two minutes, "said the head of the department of education of Lviv Andriy Zakalyuk.

According to the head of the contracting organization 7ci Olga Gavura, this school is invaluable, since in addition to the educational institution that receives the city, foreign donors of Ukrainians are the latest construction technology that can be scale up to the country.

"The advantage of this technology is that you do not need to perform internal-finishing and external finishing work-facade insulation. Myeconomoma time on the construction of walls and on finishing work. In such technology, they are needed in a minimal amount. This is a project of the future. We are planning

to do with the help of a 3D printer of cities, which can be able to save about a hundred villages of Kherson region. And this is only the beginning, " - adding.

The Zhytomyr Polytechnic University is developing a generator -cold plasma that will be used for the treatment of wounds and sterilization of medical tools.

Roman Kolomiets, a teacher of the Faculty of Information and Computer Technologies, told the Ukrinform correspondent.

"The development of cold plasma generator for medical use is ongoing. We focus on medicine, although such generators are used, in particular, in the

food industry. The principle of its work is that a tall voltage, approximately 20 thousand volts, the air is ionized, and ions - a ceno aggregate state of a substance - plasma. It is the ions kill bacteria. Advantage is that the bacterium does not produce immunity to it. When we are ossified antibiotics against bacteria, they do not destroy them by 100%, because bacteria produce immunity and mutate. As for viruses, the efficiency of cold plasma generator has not been proven, "Kolomiets said.

According to the scientist, this method began to develop in the world about 10 years. Cost of cold plasma generators in and the US is too high, and the development of Zhytomyr Polytechnic is focused on it to be lower and acceptable to the Ukrainian consumer.

Currently, the university has already created the third prototype of such a generator, which is planned to improve. The Kolomian emphasizes that the development can be used to treat wounds, because cold plasma is capable of stopping blood flow, has a bactericidal effect and protects against thermal tissue damage.

**Read also:** [\*\*Ohmatdit\*\*](#) In addition, this method is suitable for sterilization of tools in hospitals, beauty salons, tattoos. Among the advantages of cold plasma generator, in particular, is the ability to sterilize tools from any

The EU Borrel High Representative of the EU Borrel, at a meeting of the EU Council of Ministers, called for the delivery of military assistance to Ukraine, more quickly to develop another financial tranche from the European Peace Fund.

He stated this at a press conference following the meeting of the European Ministers of Foreign Affairs, Ukrinform correspondent reports.

"The success and volume of Ukrainian defense depend not only on the courage of military Ukraine and its people, but also on the pace of deliveries of ammunition and weapons. It is that our military assistance should continue, increase and develop, including the supply of more air defense systems. It is very important because it can bring real changes to the battlefield, "said Borrell.

He stressed that every day of delay in deliveries is measured by life. "The thing is not a Ugrosh, but in people who die or injure. I called for all ministers to accelerate delivery and participate in joint ordering for Ukraine, as well as to complete the work on the next tranche of the Zevra Peace Fund, "the high representative stressed .

He noted that within the EU Military Auxiliary Mission(EUMAM-Ukraine)15,000 Ukrainian servicemen have already been prepared, and it is planned to prepare the same amount by the end of the year.

With regard to the blocking of Hungary of the next funding tranning for Ukraine, the European Peace Fund and the requirements of Budapest to withdraw Ukrainian sanctions from the OTR-Bank Borrel noted that the resolution of this issue requires "internal talks" among EU countries.

"Bilateral or multilateral contacts - we have to do our best to approve and deliver the next military assistance package to Ukraine. If however, the member has difficulty, we have to discuss what to do. My role is to speak Zuushima for the sake of finding solutions. So far, we have been able to find solutions to all aid of military assistance. I am convinced that we will continue to continue.

The high representative of the EU Josep Borrel emphasized that it is inadmissible to put on one-level aggressor-Russia and Ukraine, which is a victim of this aggression, as such an approach can bring just peace.

He stated this in Brussels during a press conference following the results of EU administrative administrations, Ukrinform correspondent reports.

"Anyone who is really interested in peace cannot put aggressor and victim to a single level. I conveyed this message to all leaders in the world, especially who say that they are very interested in peace but continue to put the signs between the aggressor and his victim. The approach cannot bring peace that will be fair and cannot ensure that the Ukrainian people respect for its rights," Borrel stressed.

According to him, everyone wants to end the war.

"The only one who wants to continue this war is Putin. And no one wants peaceful than Ukraine. That is why we support the initiative of the President of Zelensky's Just a Just Peace," the EU High Representative said.

The European Union is determined to ensure the efficiency of economic sanctions against Russia and make it impossible to bypass with third countries, and Tsizilles will be at the heart of the 11th Package of Sanctions.

This was stated by the EU High Representative Josep Borrel at a press conference with the suspicions of the EU Council of Ministers on Foreign Affairs, correspondantation.

"We discussed the 11th Package of Sanctions. His focus will be on the missing sanctions, which occurs in certain places. We have to put this land," said .

According to him, the EU conducts the analysis of commodity flows after the introduction of sanctions against the Russian Federation, including indicators of EU exports to some countries that bordered.

"For example, we reduced our car exports in the Russian direction by 80 percent. At the same time, we increased the export of cars to some countries by almost 300 percent. Somewhat strange interest in European cars of Russian neighbors. And it is not a senseless idea to imagine that these cars were imported and then re-exported. If so, it will be bypassing the sanctions," the high representative of the EU said.

NGO "Crimean" organized a charity screening of the documentary "1944. Crimea. Deportation ", the funds raised will be directed to support 251 separate forensic defense of the Armed Forces.

This was reported by Ukrinform correspondent.

"It's not just stories about deportation. These people are witnesses of a crime that is so punished. Therefore, it is important to know these stories, it is important to document them. She turned out to be very emotional, sensitive, she explains what deportation is and what she did with a person, " - said the screenwriter Mavilier Khalil.

According to her, the premiere of the tape took place in 2019, but it still degenerates festivals. The film won awards in Turkey, Greece, India.

"1944. Crimea. Deportation "has three main lines: three elderly people recall how at five o'clock in the morning they were given 15 minutes for a meeting and taken out - whom to the Urals, whom in Uzbekistan. At that time, they were 10-12 years old.

The movie also contains animation elements. It was based on the paintings of one of the heroes of Sadykha Aji-Selyma, who through drawings documented the events during the deportation: as children of Russians threw stones on wagons in which transported Tatars, and shouted "traitors", as they had to lay down with friends. .

The historian Martin-Alexander is sour, he noted that the deportation of 1944 erased the memory of the Crimean Tatars all previous injuries and tragedies that had fallen on the dollyu people, including the Holodomor, which was also in Crimea in 1932-1933.

At the same time, the Crimean Analyst Yevgeny Yaroshenko emphasized that the most aptly writing the tragedy of the Crimean Tatar people is the term "surgun", which in translation "exile".

"As for me, a discourse could be started on a more correct terminological evaluation of these events," he said.

About it [reports](#) The Telegram -specific communication.

To enhance the effect, Russia often uses cyber and information attack at the same time.

Thus, in April, Russian hackers carried out an unusual kieperoperation, which was made of double cyberattack and operations of information influence.

Initially, a cyberattack took place on one of the ministries of Ukraine, and then one of the Ukrainian media. The hackers broke the site of the publication and posted the news of the Ministry, with criticism of Cert-UA activities.

The enemy probably tried to cause Ukrainians to distrust the media and state bodies.

Recall that since the beginning of 2023, the government response team to the computer-intensive events of the Cert-UA, which operates with the State Secretariat, has operated more than 700 cyberincyders and cyberincards in manual regime. Government organizations are tamy to the authorities in the spotlight of hostile hackers.

The Mission of the European Union to provide military assistance to Ukraine teaches Ukrainian military in Germany and Poland. In Germany alone, ten countries are working on the preparation of soldiers to fight Russia and plan up to 10,000 Ukrainian defenders by the end of the year.

About it [reports](#) The press service of the Armed Forces of the Federal Republic of Germany.

Colonel Gaiko Dil, Chief of Staff of Special Training of the European Union Mission of Military Assistance to Ukraine, is consistent with the clogging of Ukrainian military in Germany on behalf of the European Union Mission for Military Aid to Ukraine.

"We offer a very wide range of learning with our partners," - said. The training varies from basic training for recruits for special training on the use of Western weapons and training of troops, during which the formation of more than 500 soldiers prepare for battle.

In addition, trainers, commanders and medical staff will study. "We have prepared nearly 3,500 Ukrainian military today," says Colonel Gayko Dil.

Germany and its partners have enough opportunities to prepare nearly 10,000 Ukrainian military on German land by the end of the year. The study lasts from four to six weeks, in exceptional cases it can be up to three months.

"We are trying to offer the best in learning so that Ukrainians can fulfill their mission," says the Chief of Staff of the EU Mission Special Preparation Command for Military Assistance to Ukraine.

The focus in training is currently focusing on the preparation of tank crews for the main combat tank of Leopard 1 A5 - in cooperation with armed Siladania and on the preparation of infantrymen for actions in the battalion on the other

hand. The main battle tank Leopard 1 A5 is the precursor of the model, which was used by the Bunda.

"The peculiarity of this learning is that these Leopard 1 A5 goes straight," he says. - They are provided to us for training. We train the crew of their original tank, which they will then bring to Ukraine. "

The armed forces of Denmark take over the training of commanders, gunners, and the armed forces of Germany - drivers.

Another Russian agent has been detained in the Nikolaev area, which is transferred to the location of the defense forces. Thus, at the instructions of the aggressor, the person involved in the roads of the region and hiddenly

recorded the locations of the personnel composition and equipment of Ukrainian defenders.

He also tried to identify warehouses with weapons and ammunition of the Armed Forces, in particular foreign production. In addition, the attacker conveyed to the occupiers information about the consequences of their air attacks using phosphorus ammunition, reactive systems of the hail and Iranian drones of Shahd.

The obtained reconnaissance invaders were used to prepare new repeated beats in the region, especially on Ochakov.

The SBU counterintelligence detained the Russian agent during the performance of a fever. He turned out to be a local resident who was involved in silent cooperation.

During the search, the attacker found a mobile phone that he used to communicate with the invaders.

Investigators of the Security Service reported the detainee of a suspicion of a state treason committed in the state of martial law. There is a pre -trial investigation to establish all the circumstances of the crime.

The attacker is threatened with life imprisonment.

MRC Typhon Missile Set. Photo: US Army.

**At the beginning of 2023, the Lockheed Martin Concern officially handed over the US Army a prototype battery kit MRC Typhon. In this way, the**

lifted states took another step in the direction of deployment of missile system systems - those who were banned in 1987 by a medium and shorter -range pro -receptacle contract(Rcmd). З цього фактично вийшла росія(Having taken the winged rocket for the Iskander complex. - Ed.), respectively, and the US did not see the point in compliance with the provisions of this document.

About the recent American rocket system of the Army Correspondent tells the investigator of weapons and military equipment, Doctor of Historical Sciences, Professional Academy of Land Forces named after Hetman Peter Sagaidachnya Andnyi Haruk.

Andriy Haruk. Photo from A. Haruk's personal archive

**- Andriy Ivanovich, what became the prehistory of the creation of this type of weapon?**

-The RSMD contract prohibited the deployment of land base missiles with a range of 500-2500 km, but did not limit the same weapon of maritime base. The US, having destroyed the winged landscapes of the land base BGM-109G GLCM "Griffin", successfully developed a marine analogue-Tomahawk missiles. That is, for the deployment of non -name KR it was necessary to take only one step - to create an appropriate ground -free plant.

And the Americans went the easiest way: installed on the corresponding chassis of "half" the module of the ship's vertical start-up MK 41. In the shipbuilding, such a module contains eight rockets, and in terrestrial-only four. The predicted use(TPK)four types - MK 14 mod 2(For "tomatovs"), Mk 21 mod 3(For missiles SM-6 BLOCK I), MK 21MOD 4(For missiles SM-6 BLOCK IA)i Mk 29 mod 1(For SM-6 Block IB missiles). Старт відбувається «гарячим» способом — з пуском двигуна ракети (start -up -wrapping)Inside TPK.

**- Are there any features in the layout and application of these installations and in the chowons specifically?** Start from Typhon, unlike the griffin, is carried out vertically, and not dedicated. Another difference is the presence of only one BKP on the battery. Griffin in the Griffin, the battery consisted of four PU and two BCPs divided by the subsoil sections. Theoretically, this provided greater flexibility of use, but no significance.

The scheme of combat deployment and ammunition of Mrctyphon missile system. Infographics: US ARMY.

"Griffins" carried a constant combat duty in storage hangers(in Great Britain, Germany, Italy and Belgium)And in the case of anxiety, they had to make a

starter from the base, immediately after leaving the hangars. They used only thermo -fusion warheads(W84 adjustable power - from 0.3 to 150 kW), the adity of the start reached 2500 km. But "typhoid" is not even seen as a carrier weapon.

\*!

-MRC's abbreviation means MID-Range Capability—that is, "the ability of the average radius." Typhon should take a place between the promising missile systems of PRSM and LRHW. The first one is ATCMS substitute, but twice as lighter, with a range of 500 km(And in the future - 650 and even 1000 km).

Друга — це гіперзвукова ракета з дальністю пуску 2775 км.

Для «Тифона» дальність пуску окреслюється в 1000-1100 миль (Approximately 1,600-1800 km) і він буде конкурувати з системою OpFires (range approximately 1000 miles). Загальна кількість «Тифонів», що буде придбана для армії, поки неоголошувалась. Вважається, що вона може сягнути 15 батарей (5 tribal dysons).

Scheme of combat deployment of the battery kit of the MMRC Typhon missile system. Figure: US Army.

**- Andriy Ivanovich, what can you tell about the missiles for this complex?** With the second type of rockets is more difficult. The fact is that SM-6, it is RIM-174, is a cesuitous rocket, a representative of a very large family of "Standard" missiles. SM-6 Block Ia is currently relocated now(RIM-174A). Він використовує корпус і двигуни (Starting and marching)SM-2ER

Block IV missiles(RIM-156A), Aleks a new guidance system at the final stage is an active radar, zanten, similar to the one used in the AIM-120C Amraam Air-Air Air missile.

US Navy officially do not serve SM-6 Block IA firing, and for SM-2rBlock IV outlines this parameter in a very wide range-100-200 nautical miles(185-370km). Для SM-6 Block IA «гуляє» цифра 460 км, але вона маломовірна, враховуючи, що двигуни на цій ракеті аналогічні SM-2ER Block IV, а сама вона навіть трохи важча (1497 kg instead of 1466). До того ж SM-6 Block IA шаленодорога — 14 млн доларів за одиницю (Only more expensive SM-3block IIA anti-fabal rocket-it costs more than 45 million! avt.). Для порівняння: ракети «Томагавк» Block V за грудневим контрактом купуються десь по 1,54 млн заштуку. Тобто SM-6 Block IA — це зброя, яка не може бути масовою.

The use of such rockets for land firing is theoretically possible, but practically - meaningless. Yes, they have a small lid time in view of supersonic speed, but the mass of the combat unit - only 63.5 kg. In short, the inclusion of SM-6 in Typhon's ammunition raises more questions than answers.

**- And are there any special requirements for the chassis on which the LRF complex is mounted?**

Паралельно американська промисловість готуватиме серійне виробництво нової техніки, і після 2023 року Пентагону передадуть такі батареї. Будівництвокомплексів для п'яти дивізіонів займе ще кілька років, і після цього армія США отримає бажані можливості середньої дальності. Як бачимо, у США досить широким фронтом ведуться роботи зі створення наземних ракетних комплексів середньої дальності. Байден наздоганяє путіна!

The conference organizers are the International Central Bank and Security and the European Foundation of Lennart Mary.\_

Mr. Tony Lawrence noted that only the unification of the Alliance can be an effective solution to the "Russian problem" for Ukraine and all of Europe, in order not to disappear in the aggression of the Russian Federation, but also to defeat it and to ensure a long peace in the world.

The Russian war against Ukraine actually united the Alliance. Strong Front with a coordination was created, which is a very important signal for Russia did not interfere with the security of other countries.

That is why, for example, the process of joining Sweden and Finland to NATO is important(\_Finland became the 31st Alliance country on April 4-ed.).

"We are returning from captivity to all who are in the registry. If a new information or evidence of missing occurs, it may be a basis for changing its accounting category, "the message reads.

The staff noted that the availability of additional information about the defender, evidence of enemy captivity or confirmation of captivity by the Ministry of Defense of the Russian Federation, are important, but have no direct influence.

With regard to communication with military units, the staff representative noted that a document that is obliged to provide families is a notification. Other except for those that have limited access, you can obtain corresponding requests through territorial centers of staffing and social support.

The issues of financial support and communication by the National Police of Ukraine were discussed separately at the meeting.

All dates and terms when Russian propaganda could best use the Bakhmut taking reports have long been over. And the latter was 9th. It was then that with propaganda purposes, the collective Putin would have to present at least in the context of the achievements of the so-called and, in fact, the Great

Language, and now not the winter offensive - commenting on the latest statements about the capture of Bakhmut. Department of Intelligence of the Ministry of Defense of Ukraine Isov.

In addition, it is important that the confrontation between Prigogin, Shogu Tagerasimov, and, of course, the very fact that this news is announced by Prigogine, it is clear that for the official structures of the Ministry of Defense of the Russian Federation are not good news. The only thing that can be "greeting" the racists is the destruction of most of the bricks. This is what the whole world is looking at now, that the next city, which has developed a pre - razrocom -scale invasion under the control of Ukraine, has flown, is now virtually destroyed. This is another example of military crimes and genocidal war against Ukraine. And, in fact, the picture of what carries with him "Russian measure", - said Andrei Yusov.

Talking about the reserves that Russia plans to throw in Bakhmut, the representative of GUR MUUUKU stated that the occupiers are not betting on the quality of their preparation as the quantity.

The European Union will continue to support Ukraine, intensifying this production capacity of the European military industry.

About this before the meeting of the EU Foreign Ministers in Brussels [stated](#) French Foreign Affairs Catherine Colonna.

"I mean the third component of a military assistance package that can increase European production facilities. That is, to strengthen the consciousness that it is able to supply ammunition to Ukraine as it is. And this should be done quickly, "the head of French diplomacy emphasized.

She added that France was ready with other European partners to take part in the preparation of Ukrainian pilots. It will take several months. In addition, official Paris helps Kiev to meet the needs of poverty, armored vehicles, tanks and their maintenance.

"We make our promises. All that France has decided to supply, it will be in a timely manner in favor of Ukraine, "Katrín Kolonsna said.

We will remind, during an official visit on May 14, 2023 the head of Ukraine of Zelensky's Volodymyr to Paris together with French President Emmanuel Makron was discussed Ukraine's operational needs for Russian aggression. At the same time, the French leader emphasized that France will provide Ukrainian political, financial, humanitarian and military support.

Foreign Minister of Ukraine Dmytro Kuleba launched the second tour of the Africa countries and the first in the history of bilateral relations visit to Morocco.

The head of Ukrainian diplomacy [reported](#) In Instagram .

«Марокко. На початку другого турне країнами Африки марокканські партнери запросили відвідати прекрасну мечеть Хасана II в Касабланці — найбільшу діючу мечеть в Африці. Це справжній витвір мистецтва, над яким впродовж семи років працювали понад 10 тисяч марокканських художників та ремісників.

А головне — двері цієї мечеті вилиті з українського титану. Такого ж міцного, як українські воїни, які нині боронять нашу Україну від ворога», — написав Дмитро Кулеба.

Він зазначив, що це перший візит міністра закордонних справ України до Марокко з часу встановлення двосторонніх відносин.

“In October 2022 it was the first in the history of Turne African countries. Then the Senegal, Cot-D'Ivar, Gana and Kenya were visited.

It was the beginning of the Renaissance in relations between Ukraine and Africa. A complex process that we are constantly moving forward.

The first tour was history, the second is the system. In the autumn, geography has been visiting the countries of Sub -Sub -Akhar Africa, and now - states in all parts of the continent - from north to south. Logistics is cruel here, but the work of the erobot, "the Foreign Minister wrote.

The head of Ukrainian diplomacy also noted that there are important negotiations in African leaders and business, separating three key tasks for Ukraine.

**" three key tasks:**

**The first** : to attract as many African countries as possible in the embodiment of Vladimir Zelensky's formula.

**Second:** enlist support for uninterrupted exports within the Black Sea Sern Initiative and the Grain Presidential Program.

**Third:** Create new opportunities for Ukrainian business.

The African continent may seem something far for Ukrainians. In fact, Africa is heterogeneous, she lives with a modern life. We, diplomats, come to the Rafrican countries to open the door. Other state bodies, citizens and business will be followed by new opportunities, "Dmytro Kuleba wrote. "We will work on this during the week. Keep track of the news, "the Foreign Ministry announced.

High North

About this the head of the Defense Policy and Strategy Program, the Scientific Trade of the International Defense and Security Center(Tallinn) **Tony Lawrence** told in an exclusive interview with the Armyinform correspondent during Lennart Mary \_ - Annual Security Forum, which has been taking place in Weston since 2007.\_

Mr Tony Lawrence noted that the United Kingdom plays a leading role(JEF)Due to the coordination of defense forces of the no means of Europe and the Baltic States. This format is important for strengthening regional security.

-I believe that it is important for the people of Northern Europe to protect themselves. Cid states have a common format to respond quickly, perhaps faster than the dit of the current conditions. So it can maintain some safety.

*Development. The combined expeditionary forces are multinational armed forces created in 2015. He is headed by the United Kingdom, and they are composed of Estonia, Latvia, Lithuania, Finland, Sweden, Denmark, the Netherlands, Norway, Iceland.*

JEF has a mostly marine orientation. At the same time, there is a lot to do between Ukraine and the northern European countries. And it is necessary to build a work in the future.

One of the advantages of JEF is a very flexible format. Therefore, the most united expeditions have concentrated in the United Kingdom, but countries can join them as they are. Such flexibility can certainly include the Ukrainian element for joint interests.

JEF is not only a military formation, but also a political forum for discussing regional issues.

## I wish health, dear Ukrainians!

We have already started cooking this and in the coming weeks. We expect new meetings and intervals, as long as it is to visit us, to our country. There will be more weapons for our soldiers.

We add content to Ukraine weekly from the summit in Vilnius. We do our best to make the summit for us exactly the one that works. Let's see, but that is less, we are working on it.

By the way, today there is an important declaration from the NATO Parliamentary Assembly. Things are named by their names - a clear recognition of the genocide of Russia's crimes against our state, a clear condemnation of Rashist ideology. This is the right basis for other international organizations.

We are preparing for several intermediate security measures in the neighboring countries-those that support us most. There will be new appeals for the sake of understanding the world of Ukraine, for the sake of strengthening our connections with partners.

And such intense foreign policy, various non -standard formats, maximum useful attention of the world to Ukraine, to our defense - we will be all. Each

time there are more results for Ukraine - air defense, artillery, armored vehicles, shells, training - all this is a must.

I want to thank all our soldiers today who protect the sky. About the evening until this morning, 25 "Shahmed" was shot down. 25 out of 25. Development. And every such confusion is the saved lives of people, it is an infrastructure. Thank you!

Some of the terrorists' missiles have also managed, but unfortunately, not all. Unfortunately, drilling. Dnipro and Kharkiv, Odesa and Lviv, Kyiv and Zaporizhzhia - all our cities of the Igromades should receive a full air shield. We are very active in the P for a Nadtsim together with our partners.

Today it is worth noting the units of the Khortytsa Osv - the most persistent taine, the most effective. 3rd and 5th separate assault brigades, 80-then landing brigade, 93rd separate mechanized brigade "Kholodnoyar", 214th separate special purpose battalion ... Thank you, warriors! Tsebakmut direction, it is the extraordinary power of our people.

Glory to all our soldiers who destroy the enemy!

Glory to all who protect our cities from terrorists!

Glory to all who make our victory closer every day!

Thank you all in the world who supports us! Thank you!

***Glory to Ukraine!***

Today in Kiev a representative of the President of Ukraine in the

**Verkhovna Rada of Ukraine, a member** Committee of the Verkhovna Rada on National Security, Defense and Intelligence Fedirvenislavsky conducted briefing. The reserves of the international meeting of the leading countries of the world \*\* **G7, in which the representative this time was Ukraine.**

In his opinion, the meeting in Japan became without exaggeration by a historical event. The G7 summit of the G7 summit took place, which was preceded by the large -scale official meetings of President Vladimir Zelensky at the Asian continent and in the so -called Arab world.

Assessing the results of communication of the Ukrainian delegation with the members of the international organization of the Great Seven countries, Fedor Venislavsky named the main acquisition of such meetings in Hiroshima called a joint decision on providing Ukraine aircraft-16 with the relevant preliminary training of Ukrainian military pilots. The supervision of a member of the Verkhovna Rada Committee on National Security, Defense and Intelligence, Taxation of G7 countries is a clear testimony that the Ukrainian state has to join the most powerful, developed countries in the world.

- The training of Ukrainian pilots on these fighters is the long -lasting - the de - time of the months, and repeats the track that we watched in the case of a "tank coalition" when military specialists were initially studied, and then the equipment was transmitted. I am convinced that this year Ukraine will receive

not only flyers!- said Fedor Venislavsky. -In addition to the F-16, the armed forces of Ukraine will be transferred to the rockets of high radius, the air defense system and, of course, what the Ukrainian pre-resident, military leadership, was repeatedly insisted on. These are ammunition and artillery systems of large range and more. Together, all this indicates that the generalized world, in particular, the most powerful economies of the world support the taboda to support Ukraine in the future, - said Fedor Venislavsky.Answering questions about the plans of Ukraine's participation in the NATO summit, which is planned for July this year in Vilnius, Fedor Venislavsky noted that the Ukrainian state for full membership in the Alliance is no longer necessarily to receive a MAP(NATO Membership Action Plan).

— Україна, її Збройні Сили вже виконали переважну більшість тих вимог, які зазвичай висуваються країнам-кандидатам. Після деокупації територій та остаточної перемоги над російським агресором Україна розраховує на швидку процедуру прийняття в родину НАТО, — заявив Федір Веніславський.

Most people who have survived sexual violence by the invaders are told about this. Sexual violence remains a "hidden crime" that lends a deep injury that destroys the fate of people, families and whole communities. It is not easy to violence on sexual grounds, it is a conscious policy of hostile state directed to intimidation, demoralization, humiliation of the dignity of our civilian population. The GPU and the Prosecutor General Andriy Kostin have made this topics wide professional and public discussion. It is for this type of crime that it is important. After all, on our common position and attitude to victimsual violence, depends on whether they turn to the law enforcement agencies of those who are still hesitant or ashamed. We all have to protect them together for punishment not only of performers, but also those who form a chubin policy, "Anna Malyar wrote.

The ability of Ukrainian troops to reflect Russian hypersonic ballistic missiles "dagger" causes a psychological blow to Russia, and will force Moscow to adjust the plans.

This was stated(<https://rus.err.ee/1608984598/polkovnik-vendla-poterjakinzhala-nanesla-psihologicheskij-udar-rossii>), reports Ukrinform.

"First of all, knocked down missiles" dagger "is proof that the Ukrainian side is currently the opportunity to protect itself and its important objects from hypersonic rocket," said Colonel Wendla.

**Read also:** [\*\*dagger\*\*](#) On Tuesday, Ukraine announced that it managed to knock down six Russian hypersonic ballistic missiles "daggers", which Moscow had early affirming that air defense systems that exist in the world would not cope with them. The "dagger", shot down by the American Patriot air defense system, was first reported on May 6.

"As already mentioned in public sources, one of the greatest effects of this for Russia is psychological. According to the myth of this weapon, which was represented as a manual and unrestrained, a serious blow. They are of high value because the Ukrainian side has shown that this can be done, "Wendla explained.

According to him, it is now expected that Russia will be very careful of studying the history of usage and developing these missiles. "There are conversations about repression about scientists who were engaged in the development of" daggers ". Most likely, there is a search for guilty or tsaps-disabilities to justify the failure, and this demonstrates the frustration of the Russian side in connection with this. At the same time such

actions(Repression against scientists)- order.)Probably will affect the ability to develop such weapons systems, "the colonel said.

**Read also:** However, according to it, the destruction of "daggers" will not lead to a significant reduction of Russia's capacity to deliver tactical nuclear weapons.He stressed that the "daggers" shot in Ukraine show that the efforts of Western countries to strengthen air defense are meaningful and should be dedicated.

"NATO countries use the same or similar systems that are currently effective against hypersonic missiles in Ukraine. Thus, NATO countries are confirmed(Efficiency - Ed.)The development of echeloric air defense and its importance, "said Wendla.

According to him, the same applies to . "Estonia is a member of NATO. In general, it also confirms that NATO's Air Air Defense is also effective against the Russian" Miracle West, "Wendla said.

Member States of the North Atlantic Alliance consider the possibility of signing the Security Regulations for Ukraine, as an example of the Israeli model in July, as a result of NATO summit in Vilnius.

He told about it in an interview President of the Republic of Poland Andrzej Duda, reports Ukrinform.

"Biden, who visited Poland in February, discussed the concept of the Israeli model. It is now gaining popularity among Western allies as part of the NATO Day Summit, which will take place in July in Vilnius, "the Polish leader noted in this connection.

Safety Agreement is expected to be based on proposals, known as the Treaty of Yakhivka , will be signed as a result of the NATO summit. According to Duda, the agreement will determine the priority of the transfer of weapons and advanced technologies to Ukraine.

At the same time, according to Western officials who are familiar with the negotiations, this agreement will be related to the process of promoting Ukraine to future NATO membership, but will not allow de facto to involve the organization of the North Atlantic Treaty with Russia with Russia.

"First of all, knocked down missiles" dagger "is proof that the Ukrainian side is currently the opportunity to protect itself and its important objects from hypersonic rocket," said Colonel Wendla.

**Read also:** [\*\*dagger\*\*](#) On Tuesday, Ukraine announced that it managed to knock down six Russian hypersonic ballistic missiles "daggers", which Moscow had early affirming that air defense systems that exist in the world would not cope with them. The "dagger", shot down by the American Patriot air defense system, was first reported on May 6.

"As already mentioned in public sources, one of the greatest effects of this for Russia is psychological. According to the myth of this weapon, which was represented as a manual and unrestrained, a serious blow. They are of high value because the Ukrainian side has shown that this can be done, "Wendla explained.

According to him, it is now expected that Russia will be very careful of studying the history of usage and developing these missiles. "There are conversations about repression about scientists who were engaged in the development of" daggers ". Most likely, there is a search for guilty or tsaps-disabilities to justify the failure, and this demonstrates the frustration of the Russian side in connection with this. At the same time such

actions(Repression against scientists)- order.)Probably will affect the ability to develop such weapons systems, "the colonel said.

**Read also:** However, according to it, the destruction of "daggers" will not lead to a significant reduction of Russia's capacity to deliver tactical nuclear weapons.He stressed that the "daggers" shot in Ukraine show that the efforts of Western countries to strengthen air defense are meaningful and should be dedicated.

"NATO countries use the same or similar systems that are currently effective against hypersonic missiles in Ukraine. Thus, NATO countries are confirmed(Efficiency - Ed.)The development of echeloric air defense and its importance, "said Wendla.

According to him, the same applies to . "Estonia is a member of NATO. In general, it also confirms that NATO's Air Air Defense is also effective against the Russian" Miracle West, "Wendla said.
