International Sledge Sport Federation(FIL)Leave in the force of removal the Russian one participation in competitions under its auspices.

This decision was made At the Congress of the Organization in Bucharest, the Ministry of Youth of Ukraine reports.

“Due to the continuing invasive war of Russia against Ukraine, it is decided to suspend all the rights to participate athletes, coaches, instructors and other officials of sled sports in the RF competitions, sanctioned FIL. The presence of Russian representatives is related to the high risk for the safety, peacefulness and integrity of these competitions and the participants, including the Russian Federation itself, ”the testimony reads.

It should be noted that in March 2022, FIL forbade Russia and Belarus to participate in tournaments under its auspices in response to a full -scale invasion of the Russian Federation in Ukraine. In September of the same year, the International Sanity Federation for the second time was renovated by Russian and Belarusian sleds after Russia was able to fulfill its rights in the organization.

We thank the world sports community for the adamant support of Ukraine as well as the aggressor policy.

President of Ukraine Volodymyr Zelenskyy

Volodymyr Zelenskyy [said](#) in your conversation.

"Rate. Priority - advanced, specific issues of offensive. There were reporters and commanders directly from the directions of fighting. Also reporting Committee, Head of GUR.

Separately and in detail they considered the preparation and provision of new brigade Guard and our border guards - those who are waiting for their time for combat actions.

In some directions, our warriors move forward, in some directions protect positions and oppose storms and increased attacks of the invaders. There will be lost positions. Only released. They have only losses. And in general-the resolution of pressure, our pressure, which allows you to pave the path of our flag. Syno-yellow colors will be throughout our south and throughout our east. Bommy is on their land, and it gives the greatest power.

I thank all our soldiers - every soldier, every sergeant, every officer of every general who is attracted to our active offensive and defensives now. I thank you for every liberated and for every protected position!

Today, in a conversation with the Prime Minister of Great Britain, Rice Sunak, defense needs as a time, thanked for the defense support. For example, the British "Svedou" - long -range missiles - make a very useful and accurate business at the front. Like many other weapons. And this cooperation will be a significant continuation.

Of course, they discussed with Richa, Mr. Prime Minister, preparing a NATO Vilnius summit and a meaningful filling of this Alliance meeting.

Today, there is also a significant political decision of Britain on sanctions - to keep junctions against Russia, until the aggressor compensates for all the damage caused to our country, our country. And it is very important that the assets of the aggressor state and all persons associated with it are related to the system of domination built by the Kremlin territory . It will be fair, and I am grateful to the British who support us on the path of justice. Both the conference and financial cooperation and our movement in the EU have discussed Ursula Der Lyen with the presidential community. Already this week we are expecting an intermediate oral evaluation of our work on the recommendations of the European Commission. And discussed in detail, the 11th sanctional package against Russia for the war.

He also spoke with the Netherlands Prime Minister Mark Rutte Tapremier, Denmark, Matte Frederixen. As always, they paid attention to the forefront

and our joint defense efforts, thanked for their support and readiness to develop our cooperation for the sake of safety, " - the message reads.

The President also informed about negotiations with the leaders and representatives of Africa, who were in Ukraine last week and then visited the terrorist state. Each such international step only convinces again and again that Svetuvaro is more active in working with the formula of peace. Because only this formula is sufficiently reacting to every aspect of Russian madness.

Also, Volodymyr Zelenskyy spoke with the President of the Bank today. And not only about cooperation now, but also about the post -war transformation of Ukraine. About those decisions about those steps, about the new doctrine of the new Ukraine, which wins Ukraine, - the quotes that we prepare and implement. All together. Just as we now expose this aggression.

"Thank you all who are in battle now, in combat posts, in combat positions!

Especially today I will note the assault unit of GRU "Artan" and its commissarayor Torkotyuk. Thank you!

And yet - our special operations. Victor, all the guys - thank you very much!

Thank you all who are fighting and working for Ukraine!

Glory to Ukraine!" Said the President.

Shipmen that carry some products from Lithuania transit through the territory of the Russian Federation or RB, from July 3, will have to file a manufacturer's declaration.

As Ukrinform reports, it reports [LRT](#).

Перелік, затверджений Митним департаментом, включає декілька десятків товарів подвійного призначення, які можуть бути використані у військових цілях або для збільшення потужностей російської промисловості.

У декларації виробник повинен буде підтвердити, що знає продавця та покупця свого товару у третій країні, а також те, що вони перевозитимуться транзитом через Білорусь чи Росію, що вони не будуть перепродані чи перевалені у цих країнах, і хто їхній кінцевий споживач знаходиться у третій країні.

Декларації виробника будуть потрібні на литовській митниці з 3 липня при декларуванні товарів на експорт та реекспорт, а з 17 липня - і на митницях, які діють у пунктах прикордонного контролю.

З 5 червня Митний департамент застосовує суворіші перевірки для запобігання можливому обходу санкцій та ввезення товарів до Росії — перевізники повинні подати документи, що підтверджують це. Проте статистика показує, що відбувається паралельний імпорт деяких товарів до Росії та Білорусі.

In the Ministry of Community Development, Territories and Infrastructure, the Parliament will be considered by the Parliament in the near future, the bill №9165, which will allow Ukrainian Ukrainians to choose with the help of "action" projects that will be funded by the DFRR.

About it in [interview Ukrinform](#) The Deputy Minister of Community Development, Territories and Infrastructure of Azarchin reported.

"The previous standards for the distribution of funds of the FDRs took into account the population of Uregion and an indicator of gross regional product, as well as in fact depending on the political component. Any MP is not always ethical to "promote" his own project or not to support another, since 50% of the composition of the Commission to coordinate are members of the budget committee. Therefore, it turned out that sometimes the projects were only pyar in nature, not contributed to the economic development of the region," the Deputy Minister said.

According to her, if the document is approved, 50% of the funds from UAH 2 billion, which are foreseen by the SPDR in 2023, will be distributed in equal parts of the interrudama regions, the remaining 50% will be additionally equal to 11 regions, which were more affected by hostilities. Central and local executive authorities and local self-government bodies will be able to submit projects for the implementation of the SFRR's brash through a specialized platform - action.

The most criticized document for preferences allegedly will have projections of acquired cities that will receive all funds Azarchin emphasizes. But the vote will take place within the region, so every Ukrainian will be able to choose the option that suits him most, is not just about a separate city. Financing will also take place not only for one project, but also those for which the funds will be sufficient and which will get a UNIONAL Rating.

Archaeologists have been in the Galician Castle tower, which was under rubble.

Vladimir Oliynyk, the CEO of the National Reserve "Ancient Galich", told Ukrinform, Ukrinform reports.

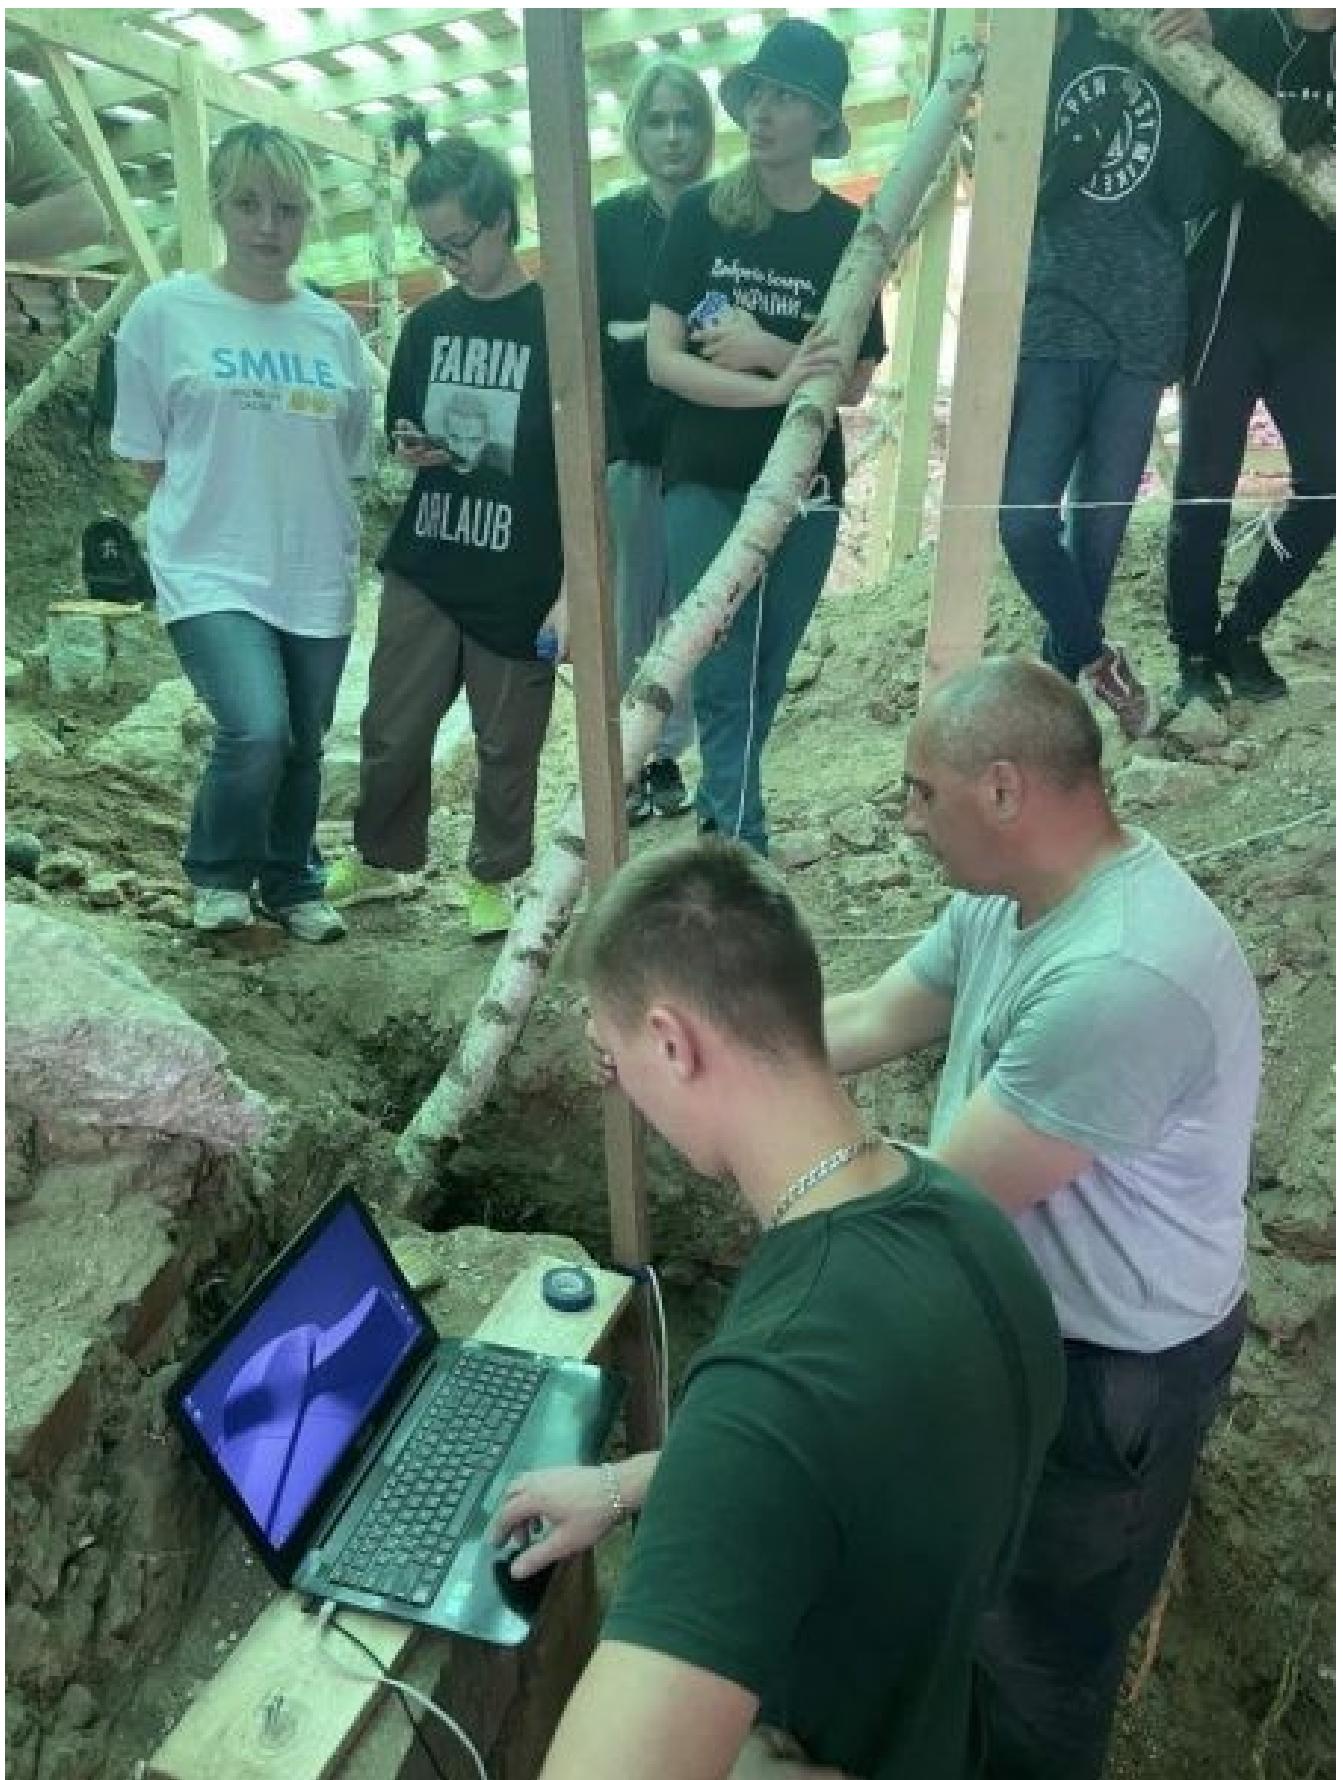

"In the archeological season of 2022, the Vyzhnaya Tower of the Galician Zam was cleared. This week we resumed archaeological work and got a surprise - forgiven the dry cellars of the Galician Castle's entrance tower. In 1676, when the Turks attacked the Turks, the Galician Castle was blown up. The wall fell to the entrance. So we believe that no one has come into the dungeon of the castle since then, "Oliynyk said.

According to him, under the tower, scientists expect to find ancient rooms that will help explore the history of the Galician castle in the princely day.

Halytsky Castle or Starostinsky Castle - a castle in the city of Halych, built in the fourteenth century. However, his predecessor was first mentioned in 1119 by a celled citadel. Archaeologists believe that at first it was a wooden structure that later grew into a strong castle of Galician princes(Xi-Xiv ст.).

The Russian fathers are quite under -working, and fakes are fakes to cause some reaction in the audience.

This was reported in the Unified News Telelorphone by the head of the Main Department of Intelligence of the Ministry of Defense Kirill Budanov, answering the question of how he won the appearance of the fake that he was allegedly buried, reported by Ukrinform.

"I perceive it ridiculous enough and react the same. The fakes are fakes to call a certain reaction in the audience. But this is enough, let's just say, unfair fakes. All - those people who did it - realized that I was fine with me, "he said.

"But they caught on this hook of" world -famous "experts like Illikiv, who, directly with foam into my mouth, told that I had died first there, then rose, then in whom I fell. Let people play, why not, "the head of the GUR.

Answering the question whether he sees the change of trends in the last half of the year before the Russian propaganda machine, Budanov said that this dynamic is visible, and it is a departure from the narrative that "they are all overwhelming."

Budanov stated that the Russians are guilty of being "some strange things" throughout the RFF.(Like technogenic situations and explosions in Russian warehouses - ed.).

"What you sow, you reap. Moreover, we have a very simple analysis of a small chronology: before Russia began its aggressive actions, nothing happened, "he said.

Shipmen that carry some products from Lithuania transit through the territory of the Russian Federation or RB, from July 3, will have to file a manufacturer's declaration.

As Ukrinform reports, it reports [LRT](#).

Перелік, затверджений Митним департаментом, включає декілька десятків товарів подвійного призначення, які можуть бути використані у військових цілях або для збільшення потужностей російської промисловості.

У декларації виробник повинен буде підтвердити, що знає продавця та покупця свого товару у третій країні, а також те, що вони перевозитимуться транзитом через Білорусь чи Росію, що вони не будуть перепродані чи перевалені у цих країнах, і хто їхній кінцевий споживач знаходиться у третій країні.

Декларації виробника будуть потрібні на литовській митниці з 3 липня при декларуванні товарів на експорт та реекспорт, а з 17 липня - і на митницях, які діють у пунктах прикордонного контролю.

**I wish health, dear Ukrainians!**

A brief report for this day.

First of all, I thank our air forces and all defenders of the sky from other defense for every confused Russian rocket and for every shotgun. Just last night - more than 30 shotguns. These are hundreds of saved lives, this infrastructure. Thank you, warriors!

Second. Today in Kherson as a result of the shelling of the invaders victims ... They were engaged in the elimination of the consequences of the Russian terrorist attack by the Nakakhovsky hydroelectric power station and were fired by Russian artillery. Eight DSSNS employees were injured, one, unfortunately, died ... My condolences to their relatives and relatives!

Every such Russian blow, every Russian terrorist attack is an argument every time, and there will be no chance of staying on the Ukrainian land. There are no killers and terrorists here and will never be.

Now our warriors in the south, in the east are very actively destroying the enemy, physical purification of Ukraine. This will continue.

Terror protection is the destruction of terrorists. And this is a guarantee that the state-gun will never be able to bring evil to Ukraine. Actually about the cetretic point for today. The first meetings in London have already begun within a conference on the reconstruction of Ukraine, which we prepared with British dogs. Discussions in Switzerland and Germany, France and Italy have already taken place. There is a work of different levels for our restoration. And we direct this work that our reconstruction, our restoration becomes not only the construction of construction, but a global project of protection.

Ukraine, transformed Ukraine, reinforced Ukraine is a security and security guarantor, it is a protection against any forms of Russian terror protection against any repetitions of Russian aggression.

Tomorrow at the London Conference I will present some of the aspects of our philosophy of Ukraine. The full meaning will be represented later this month. And in Ukraine.I thank everyone who is fighting and working for Ukraine!! thank each of our warrior, who is now in battle, in combat posts and combat missions!Zaporizhzhia, Donetsk - you are good guys!

Thank you all who train our warriors and who helps us with weapons!Every unit, every projectile uses Ukraine as efficiently as possible and always - for the protection of life.

The accusations of the Russian Federation against a foreign humanitarian law, the creation of "dirty bombs", the use of stored methods and means of warfare are void. Similar statements from the mouth of the Russian power sounded last fall, when the Russian invaders were defeated by the Front around Kherson.

About it [reports](#) Ministry of Defence Ukraine.

"The goal is quite clear: the authorities of Russia wants to distract from the obvious malesty of occupation troops at the front and to create distrust of Western allies of Ukraine," - said in the report.

Recall:

"The Kakhovskaya hydroelectric power station was undermined by the Russians led to environmental and humanitarian -carastrophe. On the conscience of Russia - shelling of settlements of Ukraine, mass muddy of civilians, torture and execution of prisoners of war. If Russia speaks of the danger of war from someone - then it solves it itself. If Russia speaks of a "dirty bomb", it can be a real threat to its use by the Russians, " - said in the text of the message.

For its part, the Ministry of Defense of Ukraine evaluates all scenarios and interconnections and together with other agencies and military administrations use measures to counteract the Russian threat.

З вересня 2022 року по червень 2023 року сайт проекту "Хочу жити" відвідали більш ніж 45 мільйонів осіб з Росії та тимчасово окупованих територій. За цей період отримано більш ніж 20 тис. заявок, в тому числі і щодо попередньої здачі в полон.

## 20 014

звернень за 9 місяців

Це дорівнює чисельності ~40 мотострілецьких батальйонів

 батальйон штатом в 500 осіб

Over the past two months, I want to live almost the same number of applications as one half a year of work of the project.

This is stated in [publication](#) on the telegram-channel of the coordination headquarters on the management of prisoners of war.

In total, since the launch of the project in September 2022, I would like to live 20014 of appeals by all channels: Telegram, WhatsApp, Chat Bot and on a hotline. During the 9 months of operation, the site of the project visited 45 million people from the country-reactor.

The number of applications for the previous delivery from those Russians who gave up mobilization and who do not want to become the Kremlin's cannon meat. It is also possible to "twist the nuts" by the authorities of the Russian Federation: conducting hidden mobilization, introduction of online stories and permission to remove foreign passports from conscripts.

All who voluntarily surrendered are designed as captured in battle. This means that while the serviceman is in Ukrainian captivity, the Urals will continue to pay him.

I wish health, dear Ukrainians!

A brief report for this day.

First of all, I thank our air forces and all defenders of the sky from other defense for every confused Russian rocket and for every shotgun. Just last night - more than 30 shotguns. These are hundreds of saved lives, this infrastructure. Thank you, warriors!

Second. Today in Kherson as a result of the shelling of the invaders victims ... They were engaged in the elimination of the consequences of the Russian terrorist attack by the Nakakhovsky hydroelectric power station and were fired by Russian artillery. Eight DSSNS employees were injured, one, unfortunately, died ... My condolences to their relatives and relatives!

Every such Russian blow, every Russian terrorist attack is an argument every time, and there will be no chance of staying on the Ukrainian land. There are no killers and terrorists here and will never be.

Now our warriors in the south, in the east are very actively destroying the enemy, physical purification of Ukraine. This will continue.

Terror protection is the destruction of terrorists. And this is a guarantee that the state-gun will never be able to bring evil to Ukraine. Actually about the cetretic point for today. The first meetings in London have already begun within a conference on the reconstruction of Ukraine, which we prepared with British dogs. Discussions in Switzerland and Germany, France and Italy have already taken place. There is a work of different levels for our restoration. And we direct this work that our reconstruction, our restoration becomes not only construction projects, but a global protection project.

Ukraine, transformed Ukraine, reinforced Ukraine is a security and security guarantor, it is a security against any form of Russian terror protection against any repetitions of Russian aggression.

Tomorrow at the London Conference I will present some of the aspects of our philosophy of Ukraine. The full meaning will be represented later this month. And in Ukraine.

Together with partners and all together here, at home, in Ukraine, we must guarantee that after us for Ukraine - only safety, only freedom, only peace.

I thank everyone who is fighting and working for Ukraine! I thank each of our warrior, who is now in battle, in combat posts and combat missions! Zaporizhzhia, Donetsk - you are young guys! Glory to Ukraine!
