The TF-1 French TV channel showed a report filmed in the occupied Russian military territories of Ukraine. It does not say that Russia is the aggressor entered.

About it [reports](#) On its official Facebook page the Center for Combating Misinformation.

The plot shows the positions of the Russian military. They comment on ammunition and drones, as well as telling how these means of impressions are used against the Armed Forces.

The French report showed an unsuccessful example of "neutral journalism" as it is not in this war, where it is clearly clear who is the aggressor and the terrorist.

Thus, the TF1 TV channel deliberately promotes the narrative about the "power of Russian army" and discredits Ukraine, showing that it is possible to bypass the Ukrainian -law on the side of the enemy, - summarized in the CPD.

УДніпропетровській області викрили масштабне підпільне виробництво пального таканали постачання фальсифікату на ринок; злочинне угруповання щомісяця заробляло до 30 млн грн.

Про це повідомив у [Фейсбуці](#) The National Police Strategic Investigation Department, Ukrinform reports.

It is noted that the group included 10 people: organizers of the underground oil refinery, owners of gas stations of such comparative structures.

For the production of falsified fuel, the organizers of the equipment were used by the capacity of one of the oil refineries of the region, which were available to receive up to 500 tons of fuel every month.

According to the police, the raw materials were stolen from the oil pipelines and supplied the manuary plant. After processing of oil, solvents of unknown origin were added to the raw materials, including those that are forbidden to use fuel in Europe and Ukraine.

In order to mask criminal activity, the management of the oil refinery made fictitious contracts with controlled commercial structures, and in order to accept real profits, unreliable data was entered into the financial reporting.

Sold falsified fuel through the network gas station and enterprises of real sector.

"The underground oil business brought it to the organizers of up to 30 million UAH of profit, and the illegal" margin "of" businessmen "was 20 UAH from one trickal," - said in the department.

Law enforcement officers conducted searches at the places of residence of the persons involved, in the cars they belong to them, the offices of enterprises, refineries and automotive base, as well as the sets of sale of counterfeit fuel. Investigative actions were carried out in the territory of Dnipropetrovsk, Kyiv, Odessa, Poltava, Cherkasy, Kirovograd, Zhytomyr regions and in Rivne.

Law enforcement officers seized more than 850 tons of petroleum products and equipment for almost 95 million UAH, cars of persons involved, as well as UAH 40 million, 498 thousand euros and 1.4 million. The total amount of seized property is almost UAH 200 million.

The Minister of the Government of the Belgian Federal Region Brussels Pascal Smet had to resign after a scandal with an invitation of officials from Iran Tarf.

As Ukrinform reports, it reports [Politico](#).

Смета розкритикували за запрошення ультраконсервативного мера Тегерану Алірезу Закані на Брюссельський урбаністичний саміт.

Окрім цього, Смет запросив на захід 14 іранських та двох російських офіційних осіб. Захід відбувався 12-15 червня. Витрати на проживання цих осіб були оплачені регіоном Брюсселя.

After this event, the source for a long time defended his decision before the Brussels deputies and noted that he did not press on the Belgian Foreign Ministry, and if the federal rejection of such a visit received a substantiated rejection of such a visit, he agreed to a departed position. According to him, the consent to the entrance of the Tehran mayor was released by the Foreign Minister of Belgium Aja Lyabib.

Siman acknowledged that the Brussel Government paid accounts for Iranian and Russian officials, and it was a mistake, but he accused one of his workers.

The chief conductor of the national team of Ukraine in football Sergey Rebrov spoke zeurnalists after the match of the European Championships-2024 with the Monalt team(1:0).

Про це повідомляє офіційний [сайт](#) Ukrainian Football Association(Waf), reports Ukrinform.

- It is difficult to spend three games in 10 days. We knew that this meeting would be very weighted. As in the last match, they spent the second half more confidently. The main thing was to get three points and move on.

- everyone expected a more confident victory. This Ukraine has played worse, templag, did Malta deserve praise?

- It is very difficult for us to play with such teams, because they have a very compact defense. I realized that it would be so that in the second half we will play better than the stubborn. They spent a lot of strength, pressed a lot, so there was a much better game in the second half of the meeting. I expected it. We always play hard against such saturated defense. Many moments were crucified in the second half. Yes, they had to score more. I know that in Ukraine everyone is waiting for 5-0, 6-0, but now all teams can defend themselves.

- Why did you decide not to include in the application for the Kochergin and Rusyn match?

- because we have to have 23 players, someone has to stay out of application.

- Do you consider Matvienko's output in the starting liner?

- I don't know what mistakes are. I look at how ready the players are home to, how they play for their clubs, I analyze. As you can see, Mykolenko is not a grave time. This is his first two matches after the injury. I planned to release it in the second half. I think he has increased the level of our game in the attack.

- Maybe it was worth trying sable on the position of the left defender instead of mattresses?

- I love all the players, but I get away from statistics, I look who is better. We have competition at every position, so I choose who will play. This is normal.

- Of course, it is too early to demand something from the national team of Ukraine. How do you think why are so difficult to win over rivals like Malta? Read also: [The national team of Ukraine beat Malta in selection for Euro-2024](#) - Do you plan to attend youth Euro-2023 matches?

- Yes, I plan to come to Bucharest. Tomorrow, my assistants are Gomez and Gleb Platov. I will come for a second or third game. This is a very important tournament. I wish our team success so that we get to the Olympics. From the giving of the players, I talked to them, they want to play for the youth. No

one said he wanted to relax on the eve of the euro. They have made the all. I am sure that these players will help our "youth".

- What should we expect from the September matches of the national team of Ukraine?

- We now met with Germany, showed a decent game. The next gaming will be official, we need to prepare seriously for any duels. We have always set a goal before - getting out of the group.

- How do you appreciate the Tsygankov game, which have already been appointed team leader? How did you determine who would beat the second penalty?

- Victor himself set himself as the leader of the team. No one appointed him. What he does in the last three matches is his merit. Before the game, we determined that Yarmolenko would beat the penalty. But after the unsuccessful performance of the former, I saw that he himself suggested that Tsygankov punch. I understood that Andrew was not psychologically ready for the second penalty. Therefore, I am grateful to Tsygankov for showing that he was ready for it.

34% of Ukrainian refugees in Lithuania plan to live and work in this country.

This is evidenced by an anonymous survey of Ukrainians who have used the services of employment services for the second year, Ukrinform reports with reference [Delfi](#).

The survey conducted in May showed that most of the refugees will be set by women aged 30-40 years(83,2%)of which more than half(52,5%)- with higher education. Most Ukrainians noted that the Lithuanians have taken them pure

very well(97%). Цього року збільшилася кількість тих, хто не визначився з планами на майбутнє, пов'язаними з життям у [Литві](#) (40%), минулого року таких було 32%.

Литовська Служба зайнятості сприяє інтеграції українців у ринок праці, компенсуючи частину заробітної плати працедавцям, які їх працевлаштували. З початку цього року 1400 біженців з України почали брати участь у програмі субсидованого працевлаштування. За даними опитування, 89,1% опитаних українців задоволені наданими Службою зайнятості послугами (Compared to the last year data, this score improved by 3.4%).

53,5% респондентам, які брали участь в опитуванні, вдалося працевлаштуватися. Більшість стверджує, що умови праці їх задовольняють, хоча половина опитаних українців хотіли б вищої зарплати. 89% респондентів зазначили, що спілкуванням робочому середовищі відбувається добре чи дуже добре.

Russian Firms "Promtechnology" and "Tetis" have purchased significant parties of ammunition produced by Hornady.

About it reports [Politico](#) , reports Ukrinform.

"These data are replenishing more and more evidence that lethal danletal military equipment is still coming to [Russia](#) Despite the introduction of the

event of immovable sanctions in response to the invasion of President Vladimir Putin Ukraine last year, "the publication reads.

According to experts in the defense industry, the war revealed the absence of RFPs for the production of high quality sniper rounds, and this contributes to the "prosperity" of the black market of the Western ammunition.

The journalists managed to document the information on the supply of this equipment. In the "Declaration of Conformity", submitted to the Russian State Register and dated August 12, 2022, Promtechnology stated that she plans to put a party of 102,200 lead balls of Hornady for the preparation of "hunting ammunition" used in "Civilian weapons".

The second declaration with the same date applies to the bills without capsules for the assembly of civilian firearms "made by Hornady with the same .338 Lapua Magnum. However, the .338 Lapua magnum is not a "hunting", but a powerful long-acting projectile, developed in the 1980s, was used by Western snipers in Iraq and Afghanistan.

Another Russian buyer of Hornady ammunition - Tetis - published on two deliveries from the moment of the full -scale invasion of the Russian Federation in Ukraine on February 24, 2022. The latter was in April over 300,000 "units", which include a wide range of products from the Hornady catalog.

And the Americans will enter the figure of 50 thousand sometime at the end of August. However, as Chernyk emphasized, a huge Euro -Atlantic military conveyor started for Ukraine - and every week, every month all this is to build and grow.

According to him, in September, the forces of Ukraine's defense will be able to enter the parity.

"The Russians will not be able to produce high-quality artillery. But there are very many old junk in warehouses, including D-44 in 1943, and we have been used to be used. , as long as we go to the parity. I think we will reach this in September. But it is not here philosophy. At the same time, Chernik expressed the opinion that there will be no repeated Kharkiv operation. "We very much want a quick offensive, but the enemy also studies, wrapped, and we will have to grind it methodically. However, in strategic concentration, the wheel of military history unambiguously rotates on the side of Ukraine, " -summed up the expert.

Representatives of Polish and Ukrainian dairy businesses and vocational schools of dairy industry oppose any trade restrictions on the side of Ukraine and Poland.

This was discussed during the first Polish-Ukrainian dairy dialogue, reports Ukrinform with reference to [press service\(SMPU\)](#).

It is noted that as a result of the meeting, a joint appeal of professional associations of the threshers of the two countries to the governments of the Republic of Poland was adopted.

"Poland and Ukraine's dairy enterprises support free trade without any political restrictions, duties, quotas and other restrictions, with transparent Tastable Rules, which are predictable and the same for both parties," -will be in the text.

The Executive Director of SMPU Arsen Didur stressed that it is unacceptable to make the import of Ukrainian [dairy products](#), and the creation of additional obstacles to the examination of the restoration of veterinary control on milk and dairy products of Poland.

"We consider it unacceptable that our dairy exports are at the border of the twice or even more. It does not contribute to understanding and does not increase our mutual transfer," he said.

The Director of the Association added that all actions of the governments of Poland and Ukraine should be paid for democracy of free trade and legality.

The expert of the National Scientific Center "Institute of Agrarian Economics" Leonidtulush noted that Ukrainian dairy products do not pose problems for the dairy market of Poland.

"If you talk about the importance of Poland for the Ukrainian dairy sector, Poland's then in total imports of dairy products to Ukraine exceeds 45%. Instead, the share of exports to Poland in the total export of exporting products from Ukraine is only 8%. We can talk about the wickedness of mutual trade between countries, "the expert explained.

The Director of the Polish Dairy Chamber(Polish Chamber of Milk)Agnieszko Malishevskavsky was supported by Ukrainian colleagues. As reported, Poland in April 2023 introduced a temporary ban on imports of Ukrainian agricultural products, including milk and dairy products. It was lifted after the EU had prohibited the import of pest, corn, rapeseed and sunflower seeds from Ukraine to five EU countries.

On June 2, the Ministry of Agrarian Policy and Food of Ukraine stated that the Government of Ukraine has reinstated veterinary control to Tamolok products from the Republic of Poland.

In the Union of dairy enterprises, they opposed such a decision and stated that it would lead to the mirror response of the Polish side.

About \$ 60-70 billion will be required to restore housing in the Kherson region, damaged as a result of firing of it.

Such an opinion [Ukrainian radio](#) The director of the Scientific and Technical Center of the Academy of Construction Ivan Perehinets expressed, Ukrinform reports.

"The restoration of 60 million square meters that we have lost today from the combatants, plus the restoration of houses damaged from flooding, will be \$ 60-70 billion in monetary exquisite," Pereginets said.

He noted that Ukraine expects to receive almost a trillion dollars from international donors. Therefore, according to the expert, in the country is a lot of money in order to restore and build housing. However, the problem can be a braklemified and experienced builders, engineering, prose resources.

"Ukraine is now on hearing all over the world, and those large funds that will come to us to go, we would advise you to focus on the construction of a new home, which has been answered by standards of comfort, energy saving, environmental friendliness. A different one we beat the alarms about The fact that the recovery requires all-aarmia-a million or a half of builders. And the process will continue for 5-10 years, "-said the expert.

According to Pereginets, now to create registers of builders of various specialties, to encourage people to participate in recovery. This, among other things, will contribute to the return of our citizens from abroad. The expert also recommends that you pay more attention to new construction, not the restoration of critical houses.

At the same time, he emphasizes that in areas where the water retreated, and the local Tavi leadership gave permission, people should return to their submerged homes, but not to live in them.

With the limits of the Armed Forces, after the start of a full -scale war, many samples of the western arms were unusable, and some paid deliveries and the nebula was made.

About it writes [The New York Times](#) With reference to Ukrainian and Western officials, reports Ukrinform.

"We had occasions when we paid money but did not receive(weapons - ed.)»,- quotes the newspaper of the Deputy Minister of Defense of Ukraine Volodymyr Gavrilov.

According to him, the government analyzed the procurement during the past, and excluded problematic contractors from further work. Two people who participated in the execution of armed contracts for Ukraine reported that the shortage was subsequently delivered and in other cases brokers returned.

The publication calls the "crazy" volumes of western supplies [weapons](#) In Ukraine, it notes that problems are inevitable.

In particular, some of the platforms that went to Ukraine were unsuitable, although the documents indicated that weapons were ready for combat insurance. Some samples only agreed to spare parts for other systems. The editions, now about 30% of the Armed Forces, are renovated, which is a high indicator for a country that leads active contradiction.

One examples of problematic deliveries are the transfer of 33 self -propelled Goubitsyitalian government.

In Italy, it was confirmed that these machines needed major repairs, which was supported by the US contractor Ultra Defense Corporation. However, when the first batch of restored cars received the when they were "unusable for combat missions", the newspaper quoted the official document of the Ministry of Defense.

In Kiev, they complained about poor repair work, and from this drive the Pentagon opened an investigation.

The publication notes that Ukrainian officials are mostly refrained from complaints with the executed donated equipment. "There were problems with the quality of some howitzers, but the Mipovin keep in mind that it was a gift," Gaavrilov said in this connection. [Read also: on Kakhovskaya HPP could undermine underwater passage -investigation NYT](#) In a short time, contractors repaired transmission, replaced batteries, eliminated liquid leaks, broken lights, etc. and stated that all 29 machines are ready for references to Ukraine. However, when the cars reached Poland, it was found that 25 of them were rotten. It took almost a month to find sufficient tires for replacement, which "delayed the delivery of other equipment to Ukraine, it took considerable effort and time," the Pentagon's report said.

A similar situation happened with the howits of the M777, which should have been sent in Ukraine a few weeks after the start of a full -scale invasion. As it

seemed, they "needed serious maintenance", and one was in such a bad condition that "killed someone" while using it.

In January, the Minister of Defense of the United Kingdom, Ben Volles announced the planned transmission of self-propelled howitzers AS-90, including those who were in "varying degrees of readiness". Twelve of them needed either recovery or use for spare parts, according to a statement by the British Defense Ministry.

NATO Secretary-General Jens Stoltenberg has named three priorities for the guarantee of Western democracies for the following decades, among which the first one is to continue assistance to Ukraine in its fight against Russian aggression.

He stated this today during a speech to the German business at a conference on the occasion of the German Industry Day, Ukrinform reports.

"We are now experiencing a critical moment for our safety. In the future, the competition between the great world forces is growing. Our values and democracy are undergoing pressure, President Putin has returned the war to Europe again. After the Clothes War, we all hoped for peaceful relations with Russia. Gradually, the cards were dispelled as a result of an aggressive tendency in Presidential's behavior, "said NATO leader.

He recalled that such a trend was manifested during the Russian invasion of a group, in the actions of the Russian army in Syrian Aleppo, in the Russian aggression of Broad and in the Donbass. A full-scale invasion of Ukraine has finally curtailed any illusions that could remain about the possibility of constructive work with Russia, the Secretary General emphasized.

Read also: [freezing conflict in Ukraine will not bring peace - Stoltenberg](#) "So now we are in the turning point of our history. What we do or do not do now will determine our safety for the next anniversary, "Stoltenberg said.

He emphasized the three main purposes, which should concentrate the Western Democracies to respond to the challenges coming from the more dangerous world.

"The first. We must continue to support Ukraine. NATO has helped Ukraine since 2014 and provided unprecedented assistance during the past year. Germany has a significant contribution to this work, transferring Ukraine's air protection, combat tanks, artillery and ammunition. This assistance increases the ability of Ukraine to fight on the battlefield and return their territories, and they can return more. We must continue to give them everything to help them as a sovereign and independent state. This is our immediate task, "the NATO Secretary General has announced."Second, we must continue to strengthen our defense. After the Russian has exposed a full -scale invasion of Ukraine, it was much better understanding why it is necessary - not to provoke a conflict, anavpaki - to preserve peace. It costs money. Therefore, NATO leaders of the next month in Vilnius will determine 2 percent of GDP as a minimum level of defense costs, "Stoltenberg said.

Read also: [Cooleba - Stoltenberg U: It is important to make a free -to - NATO membership in NATO, eliminating VAT](#) He congratulated Germany's intention to reach this defense budget at 2 percent of GDP as early as 2024 and put a separate emphasis on the need to strengthen the potential of the defense industry of the event.

"Our stocks(weapons and ammunition - ed.)Evaporated, so they must be filled, not only in Germany, but in many countries around NATO. Production is

the key to continue assistance to Ukraine and to ensure our defense, "said the Alliance head.

The third main direction of security, in his opinion, is the cesaosa -running of the excessive dependence of Western democracies on resources that come from totalitarian states.

"A few months ago, many believed that gas purchases from Russia were an adversative solution. We all found out, and in a difficult way that it is also amazing. ... Germany and other European countries have carried out huge sakes for diversification of energy supply. We do not have to make the same mistake with other totalitarian regimes, "Stoltenberg said.

He noted that this, in particular, concerns the avoidance of excessive dependence of raw materials and semiconductors from China, increasing the control of double -use European technologies, which can be used by the way against Europe and the West itself.

The refugee day on Sofia Square of Kyiv presented an exhibition-installation "Nadiya from the house" about displaced persons and refugees in Ukraine.

This was reported by Ukrinform correspondent.

"As soon as the war began, our migrant heroes grabbed their suitcases, domestic lovers and the most valuable things and fled the world by their eyes. Sitting down trains, people did not know what was waiting for them. Often

they lost everything, and now they need to get support to begin from scratch. Similarly, refugees -crossing the border, they did not have any idea where they will be given a shelter. Therefore, this exhibition about the interaction of our charity fund as a parties to support and [displaced persons](#) And refugees we pass help, " - said Natalia Gurzhiy, Chairman of the Board of Rokada.

Installation is a 25 suitcase that transmits 25 stories of migrants of Ukrainian cities, in particular, Nikopol, Bakhmut, Severodonetsk, Mariupol, Novovakakhovka, Nikolaev, Bucha, as well as people who came to Ukraine from Saudi Arabia, Iran.

From the semi -open suitcases, things that have been seized with them are visible, running away and persecution - towels, keys, toys, toothbrush, rice. Animals, even guitar. Also, every suitcase is represented by a historian of Ukrainians and foreigners who started their lives from scratch on a new place.

"People, leaving their homes, lose everything. Sometimes they continue to look for them. He was even shot. He dug a pit, covered with snow, made holes for breathing - so did the morning. Then he went to the border with Ukraine, where his meetings of the SBU. And two weeks ago Moshabchon opened his restaurant in Irpen, " - said the social worker and community - Manager of Rokada Dmitryptetrosyuk.

Kryvyi Rih's strict savings can remain a strict savings regime for three weeks.

The head of Kryvyi Rih City Military Administration Alexandervkul reported in [telegram](#), reports Ukrinform.

"Can we not save water? No. Otherwise, it will be guaranteed to end the week. Through strict savings, we have a chance to reach the implementation of waters," Vilkul said.

According to his [words](#) To compensate for the receipts lost due to Kakhovskaya hydroelectric power supplies, 11 million cubic meters per month is required(up to 380 thousand cubic meters per day - taking into account the consumption of a city, rural district and evaporation from the Southern "reservoir"). Після руйнування Каховської ГЕС та обміління водосховища без дніпровської води залишилося 2/3 Криворізької агломерації - приблизно 550 тисяч людей із 800тисяч жителів.

У транзитному Південному водосховищі води залишилося трохи більше ніж намісяць. Начальник МВА [наголосив](#) To take water can only from the Karachuny reservoir, and to transfer from other reservoirs of the Dnieper Cascade, which is higher. Currently, four technical solutions for providing the city and nearby villages with water are being implemented. But it takes time, money, materials, so there is a risk that two -thirds of the city will remain water. The most critical period is September-October.

Read also: [to repair damaged housing in Kherson region you need a nearly \\$ 70 billion - expert](#) Therefore, Vilkul once again called on the residents of Krivoy Rog to save water. According to its words, this contributes to the maximum reduction of water supply to industrial enterprises, the ban on work of sinks, a ban on irrigation from hoses, a decrease in a living sector, the work of a water utility from 22.00 to 5.00 only in regimensing.

With regard to the work of the car wash, the chief VS noted that the violators prohibited sanctions.

"Many businessmen have heard us and stopped the washing of cars. There are dishonest ones that have not been switched off and even disrupted the valves with the valves. As reported by Ukrinform, on the night of June 6, Russian troops undermined the Kakhovka hydroelectric power station, causing the flooding of part of the Kherson Tamikolaiv regions and at the same time - a critical measuring of the Kakhovsky Dam.

On June 8, at 3.20 night, the level fell, and Kakhovka water receded into the Southern reservoir.

Residents of Kryvyi Rih were warned that water consumption should be reduced by 40%. In the Nikopol district, water supply has already been stopped in the Pokrov, manganese, part of the Pokrovsk community, Tomakiv, Mirovsk and Chervonohrigorivska TG.

The Parliamentary Assembly of the Council of Europe will consider a resolution on the consequences of Russia against Ukraine, which, among other things, proposes to be awarded the terrorist formations of the Wagner and Cadyrivi.

This was reported by the head of the Ukrainian delegation in the PACE, People's Deputy of the Parliamentary faction "Servant of the People" Maria Mezentsev on the broadcast of the Tele scale "Unified News", Ukrinform reports.

"The resolution on the consequences of Russian aggression against Ukraine has revolutionary historical points. We will have the inclusion of such armed formations in the quality terrorist - the Wagner group, as well as those people who serve under the flags, "the People's Deputy said.

She noted that the resolution will contain a provision on ecocide "as a global tragedy of the whole subcontinent, a total of the Black Sea basin", the consequences of which have not been evaluated.

"We also propose to create a special register of those countries, companies that bypass or help to bypass the sanctions imposed on [European Union] in this resolution. (<https://www.ukrinform.ua/tag-evrosouz>)», - addupat.

In addition, she said, during the session will be emphasized on the functioning of the register of losses, which is started at a summit in the Icelandic Rabyvik.

The work of the "grain initiative" is actually stopped - the Russians openly sabotage inspection, the capacity of the corridor - less than 20% of the possible.

This was emphasized by Viceremier-Minister for Recovery-Minister of Development of Communities, Territories and Infrastructure Alexander Kubrakov in a column for [NV](#), reports Ukrinform.

"Opening of seaports of Ukraine for all types of goods is required for Ukrainian [economy](#). This is a rather formula - our economy is export-oriented, working economy - the state of the state to pay salaries to defenders, secured, equipment defended - the way to victory. Russia is well aware of the connectivity of these, so it attacks peaceful cities and enterprises, "the official said.

Kubrakov emphasized that now the work of the "grain initiative" is actually stopped - the Russians openly sabotage inspections of ships, the capacity of the corridor - less

This leads to significant losses not only from Ukraine: the world has not received at least 20 million tonnes of agricultural products because of a grain agreement.

As it was reported, in early June, Russia resumed registration of the incoming navy by violation of the sustainable algorithm of registration and inspection of ships. In particular, on June 4, the Russian side registered 2 incoming vessels, which were declared in the Grain Initiative on the same day. This is contrary to the accepted rules of inspection of ships, which provide that the first time the check is performed, who are waiting for the longest time.

The Ruslan Shostak National Social Service and Charitable Foundation "Rushfoundation" have signed a Memorandum of Cooperation aimed at implementing the world practices in ensuring and protecting children's rights.

The press service of the Fund reported this Ukrinform.

"The Rush Foundation has signed a memorandum on cooperation with the National Social Service Service of Ukraine in order to combine efforts to increase the efficiency of activities aimed at helping Ukrainian [children](#) and the state to overcome the causes of orphanage in Ukraine, "the fund was informed.

As the purpose of cooperation is noted - to reduce the number of orphans and children deprived of parental care in orphanages and boarding schools of Ukraine by giving them the opportunity to get into the family or the media as close as possible to the family and to promote their rights.

"The state needs reliable partners who will provide practical assistance to the creation of important tasks to promote adoption in Ukraine. We can only achieve a common goal - every child's family, "said Vasyl Lutsyk, a family of the National Security Service.

In turn, the director of Rush Foundation Natalia Maslo noted that the Fund had had the most evacuation of orphans since the Second World War - about 1,700 children and accompanying children have been in Turkey.

"We have been seeing all the problems of these children for a year. And we thoroughly study the reform of the institutional system(orphanages and boarding schools)care and upbringing of children and the transition to a more sophisticated system that provides care and upbringing of the child in a family or close to the family environment, "she said.

Blue and yellow colors will be throughout the south and throughout Ukraine. And there are no fortifications or reserves in the states that will stop us.

Volodymyr Zelenskyy said this in [video closer](#), reports Ukrinform.

Video: [Presidential Office](#)

I wish health, dear Ukrainians!

Report for this day.

Rate. Priority - advanced, specific issues of offensive. There were reporters and commanders directly from the directions of fighting. Also reporting Committee, Head of GUR.

Separately and in detail they considered the preparation and provision of new brigade Guard and our border guards - those who are waiting for their time for combat actions.

In some directions, our warriors move forward, in some directions protect positions and oppose storms and increased attacks of the invaders. There will be lost positions. Only released. They have only losses. And in general-the pressure of pressure, our pressure, which allows you to pave the path of our flag. Syno-yellow colors will be throughout our south and throughout our east. Bommies are on their land, and it gives the greatest power.

I thank all our soldiers - every soldier, every sergeant, every officer of every general who is attracted to our active offensive and defensives now. I thank you for every liberated and for every protected position!

Today, in a conversation with the Prime Minister of Great Britain, Rice Sunak, defense needs as a time, thanked for the defense support. For example, the British "Sidewht" - long -range missiles - make a very useful and accurate business at the front. Like many other weapons. And this cooperation will be a significant continuation.

Of course, they discussed with Richa, Mr. Prime Minister, preparing a NATO Vilnius summit and a meaningful filling of this Alliance meeting. They discussed with Rishi and the preparation of the Conference on Reconstruction of Ukraine - the conference of Vlondon. These days, it will take place, and we expect from it consolidation of different international efforts, including big business, in support of our restoration. Recovery that must be demonstrated to the world, which is freedom.

Both the conference and financial cooperation and our movement in the EU have discussed Ursula Der Lyen with the presidential community. Already this week we are expecting an intermediate oral evaluation of our work on the recommendations of the European Commission. And discussed in detail, the 11th sanctional package against Russia for the war.

He also spoke with the Netherlands Prime Minister Mark Rutte Tapremier, Denmark, Matte Frederixen. As always, they paid attention to the forefront and our joint defense efforts, thanked for their support for the readiness to develop our cooperation for the sake of security.

He informed about negotiations with the leaders and representatives of the African states, which were in Ukraine and then visited the terrorist state. Every international step is only convinced that the world should be more active in the world with the formula of peace. Because only this formula is quite comprehensively reacting for the aspect of Russian madness.

And one more.

The World Bank. He spoke to the Bank President today. And not only about cooperation, but also about the post-war transformation of Ukraine. About those decisions and about the timber, about the new doctrine of the new Ukraine, Ukraine, which wins - steps that we will prepare and implement. All together. As together as we now overcome this aggression.

Thank you all who are in battle now, in combat posts, in combat positions!

Especially today I will note the assault unit of GRU "Artan" and its commander Torkotyuk. Thank you!

And yet - our special operations. Victor, all the guys - thank you very much!

Thank you all who are fighting and working for the sake of Ukraine!

Glory to Ukraine!

The chief conductor of the national team of Ukraine in football Sergey Rebrov spoke zeurnalists after the match of the European Championships-2024 with the Monalt team(1:0).

Про це повідомляє офіційний [сайт](#) Ukrainian Football Association(Waf), reports Ukrinform.

- It is difficult to spend three games in 10 days. We knew that this meeting would be very weighted. As in the last match, they spent the second half more confidently. The main thing was to get three points and move on.

- everyone expected a more confident victory. This Ukraine has played worse, templag, did Malta deserve praise?

- It is very difficult for us to play with such teams, because they have a very compact defense. I realized that it would be so that in the second half we will play better than the stubborn. They spent a lot of strength, pressed a lot, so there was a much better game in the second half of the meeting. I expected it. We always play hard against such saturated defense. Many moments were crucified in the second half. Yes, they had to score more. I know that in Ukraine everyone is waiting for 5-0, 6-0, but now all teams can defend themselves.

- Why did you decide not to include in the application for the Kochergin and Rusyn match?

- because we have to have 23 players, someone has to stay out of application.

- Do you consider Matvienko's output in the starting liner?

- I don't know what mistakes are. I look at how ready the players are home to, how they play for their clubs, I analyze. As you can see, Mykolenko is not a grave time. This is his first two matches after the injury. I planned to release it in the second half. I think he has increased the level of our game in the attack.

- Maybe it was worth trying sable on the position of the left defender instead of mattresses?

- I love all the players, but I get away from statistics, I look who is better. We have competition at every position, so I choose who will play. This is normal.

- Of course, it is too early to demand something from the national team of Ukraine. How do you think why are so difficult to win over rivals like Malta? Read also: [The national team of Ukraine beat Malta in selection for Euro-2024](#) - Do you plan to attend youth Euro-2023 matches?

- Yes, I plan to come to Bucharest. Tomorrow, my assistants are Gomez and Gleb Platov. I will come for a second or third game. This is a very important tournament. I wish our team success so that we get to the Olympics. From the giving of the players, I talked to them, they want to play for the youth. No

one said he wanted to relax on the eve of the euro. They have made the all. I am sure that these players will help our "youth".

- What should we expect from the September matches of the national team of Ukraine?

- We now met with Germany, showed a decent game. The next gaming will be official, we need to prepare seriously for any duels. We have always set a goal before - getting out of the group.

- How do you appreciate the Tsygankov game, which have already been appointed team leader? How did you determine who would beat the second penalty?

- Victor himself set himself as the leader of the team. No one appointed him. What he does in the last three matches is his merit. Before the game, we determined that Yarmolenko would beat the penalty. But after the unsuccessful performance of the former, I saw that he himself suggested that Tsygankov punch. I understood that Andrew was not psychologically ready for the second penalty. Therefore, I am grateful to Tsygankov for showing that he was ready for it.

Currently, innovations in the field of defense technologies are actively

developing in Ukraine. To accelerate the development of Defense-Tech, the Brave1 cluster is already working, the project of the drone army is also working to develop. We do everything to create the best conditions for the start of technological companies. The Viceremier-Minister of Zinnovations, the Development of Education, Science and Technology-Minister of Digital Transformation Mikhail Fedorov.

The Drone Army began within the Fandering Platform United24, when people from all over the world united in support of Ukraine. Gradually projector into a large state program. In total, 3864 drones were purchased at the expense of United24 alone for more than UAH 4.3 billion.

"We have achieved significant results to increase the number of drones of Ukrainian production at the front hundreds of times. For Ukrainian manufacturers, they have been cleaned, we have increased funding, assisting with logistics and components. In general, thanks to the project of the Drone Army began to change the doctrine of application of the Armed Forces in the Armed Forces. 11 shock mouths have already been created, working on a new doctrine. Agenda is to create the best conditions in the world to make UAVs in Ukraine more. The technologies keep the lives of the military. Everything is simple: there is a drone - there is information on the movement of Russians. There is a drone - there is information as artillery to hit the target. CEMINIMUM, which is performed by drones on the front, "said Mikhail Fedorov.

-Viceremier-Minister also spoke about the most popular services among Ukrainians in action. These include digital documents, business registration services, taxes, and war -related services. By the end of the year, the Ministry of Defense is planning to make 100 % of the most popular state services available online.

"We are now working to restore the place of change of the place of registration, which will be automatic. In the work of new services for drivers. In particular, re -registration of a car for several clicks in action. It will be a revolutionary service. We are working out to work on customs clearance of cars in an application and social services. Also on the action for civil servants. It will be a special profile in the application, which will display goals, ministries and their results. We introduce artificial intelligence in action to make our service farther and more convenient for Ukrainians. Each of these services is about the change of philosophy of the government and culture of public administration, "Mikhailofedorov said. Source: [Government Portal](#)

The Ruslan Shostak National Passocial Service and Charitable Foundation "Rush Foundation" have signed a memorandum of cooperation aimed at introducing the best world practitioners.

The press service of the Fund reported this Ukrinform.

"The Rush Foundation has signed a memorandum on cooperation with the National Social Service Service of Ukraine in order to combine efforts to increase the efficiency of activities aimed at helping Ukrainian [children](#) and the state to overcome the causes of orphanage in Ukraine, "the fund was informed.

As the purpose of cooperation is noted - to reduce the number of orphans and children deprived of parental care in orphanages and boarding schools of Ukraine by giving them the opportunity to get into the family or the media as close as possible to the family and to promote their rights.

"The state needs reliable partners who will provide practical assistance to the creation of important tasks to promote adoption in Ukraine. We can only achieve a common goal - every child's family, "said Vasyl Lutsyk, a family of the National Security Service.

In turn, the director of Rush Foundation Natalia Maslo noted that the Fund had had the most evacuation of orphans since the Second World War - about 1,700 children and accompanying children have been in Turkey.

"We have been seeing all the problems of these children for a year. And we thoroughly study the reform of the institutional system(orphanages and boarding schools)care and upbringing of children and the transition to a more sophisticated system that provides care and upbringing of the child in a family or close to the family environment, "she said.

Separately and in detail they considered the preparation and provision of new brigade Guard and our border guards - those who are waiting for their time for combat actions.

In some directions, our warriors move forward, in some directions protect positions and oppose storms and increased attacks of the invaders. There will be lost positions. Only released. They have only losses. And in general-the pressure of pressure, our pressure, which allows you to pave the path of our flag. Syno-yellow colors will be throughout our south and throughout our east. Bommies are on their land, and it gives the greatest power.

I thank all our soldiers - every soldier, every sergeant, every officer of every general who is attracted to our active offensive and defensives now. I thank you for every liberated and for every protected position!

Today, in a conversation with the Prime Minister of Great Britain, Rice Sunak, defense needs as a time, thanked for the defense support. For example, the British "Sidewht" - long -range missiles - make a very useful and accurate business at the front. Like many other weapons. And this cooperation will be a significant continuation.

Of course, they discussed with Richa, Mr. Prime Minister, preparing a NATO Vilnius summit and a meaningful filling of this Alliance meeting. They discussed with Rishi and the preparation of the Conference on Reconstruction of Ukraine - the conference of Vlondon. These days, it will take place, and we expect from it consolidation of different international efforts, including big business, in support of our restoration. Recovery that must be demonstrated to the world, which is freedom.

Both the conference and financial cooperation and our movement in the EU have discussed Ursula Der Lyen with the presidential community. Already this week we are expecting an intermediate oral evaluation of our work on the recommendations of the European Commission. And discussed in detail, the 11th sanctional package against Russia for the war.

He also spoke with the Netherlands Prime Minister Mark Rutte Tapremier, Denmark, Matte Frederixen. As always, they paid attention to the forefront and our joint defense efforts, thanked for their support for the readiness to develop our cooperation for the sake of security.

He informed about negotiations with the leaders and representatives of the African states, which were in Ukraine and then visited the terrorist state. Every international step is only convinced that the world should be more active in the world with the formula of peace. Because only this formula is quite comprehensively reacting for the aspect of Russian madness.

And one more.

The World Bank. He spoke to the Bank President today. And not only about cooperation, but also about the post-war transformation of Ukraine. About those decisions and about the timber, about the new doctrine of the new Ukraine, Ukraine, which wins - steps that we will prepare and implement. All together. As together as we now overcome this aggression.

Thank you all who are in battle now, in combat posts, in combat positions!

Especially today I will note the assault unit of GRU "Artan" and its commander Torkotyuk. Thank you!

And yet - our special operations. Victor, all the guys - thank you very much!

Thank you all who are fighting and working for the sake of Ukraine!

Glory to Ukraine!

In the temporarily occupied territory of Ukraine continues to increase the number of rays and outrages of Russian invaders.

This was reported by Deputy Minister of Defense of Ukraine Anna Malyar in [telegram](#).

«На початку минулого тижня в окремих населених пунктах Херсонської області окупанти провели раптовий рейд з виявлення мешканців, які відмовляються віднабуття російського громадянства. До громадян, які не мали російського паспорта або підтвердженого документа про подачу заяви на набуття російського громадянства, окупанти застосовували жорстку фізичну силу, окрім інших затримували. Доля багатьох із затриманих залишається невідомою», — наголосила вона.

Водночас, за словами Ганни Маляр, 13 червня у населеному пункті Дебальцеве натимчасово окупованій території у Донецькій області російські військовослужбовці скоїли масштабне пограбування місцевих підприємств, об'єктів інфраструктури, магазинів побутової техніки та продуктових мереж.

«Награбоване завантажили у військові автомобілі, колона яких виїхала у напрямку Луганської області», — заявила заступник Міністра оборони України.

Також Ганна Маляр додала, що протягом минулого тижня у населеному пункті Покровське на тимчасово окупованій території **у Запорізькій області** інженерним підрозділом російських окупантів військ проводилось хаотичне мінінування приватних дачних ділянок місцевих мешканців.

«Крім того, було замінено окремі ділянки польових доріг та узбіч доріг засфальтовим покриттям. Будь-яких відповідних попереджень на місцевості прозамінування окупанти не встановлювали», — резюмувала заступник Міністра оборони України.

He was an employee of the local station of Ukrzaliznytsia. The collaborator was informed of the suspicion of the facts of the State Council and the illegal purchase, wearing and storage of combat supplies.

About it [reports](#) Office of the General Prosecutor of Ukraine.

According to the investigation, a resident of Pavlograd, supporting the maintenance of the Red Commodity War against Ukraine, established a connection with the representative of the Gentlets of the Armed Forces of the Russian Federation.

The suspect was aware of the movement of the Armed Forces, truck and strategic importance in the territory of the region. The "duties" of the agent included informing the enemy about the quantity, type, direction of the movement. And also about the location of railway bridges, traction substations and locations of the Ukrainian military.

Intelligence information was needed by occupiers to conduct airhoras around the region. The Russian invaders also considered the "sabotage option" of Ukrzaliznytsya with the participation of the recruited agent. Thus, it aggressions to disrupt the supply of fuel, weapons and ammunition for the Armed Forces on the Southeast Front.

However, the SBU staff exposed the Russian agent in a timely manner, documented criminal acts and detained. During the searches at the place of residence, more than 1 thousand pieces of ammunition were released and seized, which he retained the permitting permission.

The informant was detained during the next task of the curator. The prosecutor of the suspect is taken into custody without determining the size.

Currently, Ukraine does not practice sending official requests to the Russian side of specific prisoners of war, because it "overestimates the price" of such prisoners.

About it [the one was talking](#) During the meeting of the Hardware Headquarters on the Defense of Prisoners of Pursuing.

Native prisoners of war were interested in the process of confirming the stay of captivity not only with the help of ICRC representatives, but also the outfit requests of the Ukrainian side.

"We cannot do this, because it is, in simple words, to overestimate the price of such people. That is, the Russian side, having received a similar request, has understood the increased attention to one or another captive and requires special conditions for his liberation, "the expert explained.

Relatives of prisoners and missing defenders were also interested in the issue of prisoners of prisoners from maintenance in Russia or temporary - corresponding territories. The headquarters representative reported that in the event that a terrorist condemns Ukrainian prisoners under a criminal article, such people are often moved between different colonies.

At the meeting, they paid attention to the practice of releasing mobile SIM-card with Ukrainian mobile operators due to prolonged non-use of a specific SIM card with a subscriber.

According to the relatives of the defenders, in the event that such cards belong to the missing or disadvantaged servicemen, their reweir complicates the process of searching for persons.

International Sledge Sport Federation(FIL)Leave in the force of removal the Russian one participation in competitions under its auspices.

This decision was made At the Congress of the Organization in Bucharest, the Ministry of Youth of Ukraine reports.

“Due to the continuing invasive war of Russia against Ukraine, it is decided to suspend all the rights to participate athletes, coaches, instructors and other officials of sled sports in the RF competitions, sanctioned FIL. The presence of Russian representatives is related to the high risk for the safety, peacefulness and integrity of these competitions and the participants, including the Russian Federation itself, ”the testimony reads.

It should be noted that in March 2022, FIL forbade Russia and Belarus to participate in tournaments under its auspices in response to a full -scale invasion of the Russian Federation in Ukraine. In September of the same year, the International Sanity Federation for the second time was renovated by Russian and Belarusian sleds after Russia was able to fulfill its rights in the organization.

We thank the world sports community for the adamant support of Ukraine as well as the aggressor policy.

The behavior of the highest military-political leadership of Muscovy and all the Russian propaganda testifies to the concern and fear of the offensive events of the Security and Defense forces of Ukraine.

In an interview with Valery Kalnysh, a representative [Main Directorate of Intelligence of the Ministry of Defense of Ukraine] told this](<https://gur.gov.ua/content/obraz-putina-iakyi-osobysto-rozpovidaie-pro-podii-v-ukrainy-naivazhchiy-narkotyk-dlia-rosiiskoi-propahandy.html>) Andriy Yusov.

"Most Russian applications are focused on an internal audience. In particular, the statement on "5 destroyed complexes" Patriot ". For Ukraine and our partners, it is a clear lie because we are in a dense communication with the allies. But for the average enlightened it is irrelevant, it would say [the Russian dictator] "five" or "fifty", - said Andrei Yusov.

The representative of Ukraine's military intelligence noted that the "Ukrainian counter -offensive" is increasingly commented on person or a person similar to Putin or Shoigu.

"This means that even the internal audience no longer perceives as the truth of the last instance of endless horses, nightingales and scabbies. That is, some drug is already highly. The image of Putin, who personally "bursts" the proceedings in Ukraine is the most difficult drug for Russian propaganda. And what further will be a break and a void, "Andrey Yusov said.

Also, a representative of Ukraine's military intelligence hinted at which the chief of the MO Kirill Budanov is silent:

"[It is about the operations that are planned, implemented and will soon be put to life. Some of them are happening right now - literally at this time. The results of these operations - they will see, "Andrei Yusov said, adding that Shkirilo Budanov is in a wonderful working mood and reacts to Russian traffic about him with a characteristic branded laughter.

Vilnius Summit that [will take place](#) July 11-12, will give a vision of Ukraine's future as an independent, democratic member of the family.

This is stated in [statement](#) NATO Stoltenberg Secretary General at a meeting with German Chancellor Olafomsholc.

"The decisions we make in Vilnius will bring Ukraine closer to NATO," he said.

At the summit, according to him, the members of the Alliance will discuss the desire of Ukraine of the dawn. Allies are working on a long -term help pack for Ukraine.

"We are also working on the creation of a new Ukraine-NATO Council for joint consultations on security issues that are mutual interest," Jens Stoltenberg added.

The NATO Secretary General stressed that the world is currently faced with the most difficult environment because of Russia's large -scale aggression against Ukraine.

"Ukraine has the right to liberate its land. And now there is a counter - offensive. The more Ukrainians be able to free, the stronger their side will be at the table, "he emphasized.

Jens Stoltenberg noted that everyone wants this war to end. At the same time, the faithful peace cannot mean freezing the conflict and the adoption of the agreement dictated by Russia.

"NATO is not a party to the conflict, but supports Ukraine's right to self - defense, enshrined in the UN Charter," he summarized.

Deputy Minister of Defense of Ukraine Oleksandr Polishchuk emphasized the tangible and unchanging support of our partners from the United Kingdom. In

particular, weapons and military equipment are significant, where our British friends play one of the leading roles.

Equally effective is the preparation of personnel, which now releases Ukrainian land from the Russian invaders on the battlefield.

In the framework of the multinational Interflex educational operation, started with the leading role of ORBITAL instructors, they have been trained by thousands of associations and defenders of Ukraine.

Preparation was under the guidance of British instructors directly in the United Kingdom on various weapons and military equipment.

British colleagues have prepared whole Ukrainian units on combat technicians - armored vehicles of various types, RSSS and artillery, Air Defense, UAV.

Orbital is an encouraging example for other partners to involve Ukrainian defenders and defenders in the training of a joint victory with a subsoil aggressor.

The Chief Council for Television and Radio Broadcasting, Olga Gerasimymyuzuzuka, has been with a new staff of the National Television Council for Poland Iradiology(Krit).

Як передає Укрінформ, про це повідомляє пресслужба [Нацради](#).

«Майже рік тому - 13 липня 2022 року - обидва медіарегулятори підписали Меморандум про співробітництво та вже спільно провели низку важливих регуляторних консультацій», - ідеться в повідомленні.

На зустрічі сторони обговорили ініціативу KRRiT про об'єднання 9 медіарегуляторів східноєвропейських країн, аби разом просувати стратегію боротьби з російською пропагандою в Європейському Союзі. «Адже частина країн Західної Європи досі не повною мірою усвідомлюють її реальної загрози та політикою неспротиву відчинають двері інформаційному тероризму Кремля», - вказують у Нацраді.

Зазначається, що відомство братиме участь у розробці порядку денного спеціальної зустрічі, яка відбудеться у Варшаві у вересні й буде присвячена цьому об'єднанню.

Recently, the winners of the Yuna Music Prememia were awarded in the October Palace.

It is known that this year the organizers changed the rules, so the winners were chosen in nominations, and among the 100 best songs, the most popular scholarly radio stations from February 24 last year to December 31. Thus, 12 singers whose music were chosen by the Jukrains themselves were honored with honorary awards.

According to the co-founder and the general producer Yuna Pavel Shilko, this year's ceremony occurs in special conditions. For the second year, Ukraine has been heroically misplaced by the cruel invasion of the Russian aggressor.

- In this war, in addition to the main military front, there are others: volunteer, informative, psychological ... On each of them we also need a victory. The music unites, "says Yuna Pavloshilko co -founder and general producer.

In addition, the organizers introduced special awards for those artists who made an important contribution to the development of Ukrainian culture in 2022. Yes, the special Yuna 2023 received nine artists: Jamala, Artem Pivovarov, Alexander Ponomarev, Mikhail Homa, Tina Karol, Monatik, Kalush Orchestra, Kamaliya and Pianoboy.

The exhibition of destroyed Russian technology has long been a wonder for the people of Kyivans. However, not only the user -burned Russian armored vehicles could be seen on the Michael's Square of the city, but also the wreckage of the Tabespilonian missiles whipped by Ukrainian air defense, which the Russian Federation tries to beat on the Ukrainian pages.

The exposition coincided with a visit to Ukraine by a delegation of leaders of African countries who were able to see with their own eyes what powerful weapons use the aggressor against Ukraine and how efficiently Ukrainian defenders are reducing it.

[!\(Images/APMIRINFORM/2023-06-19T81-00-00-04-00/02-150x150.jpeg\)](#)

Among the attention of visitors presented at the exhibition, first of all attracted the landscape steering wheel "dagger", the engine of the winged rocket "Caliber" Takhvosta part of the Iskander missile. It is these rockets that Russian aggressor will be in peaceful Ukrainian cities. Also presented were the unmannedilitative apparatus "Orlan", "Pomegranate", "Eleron" and the fragment of "Shahaned-136", which the Russian was called "Geran-2", trying to publish it for the UAV.

The greatest impression, as always, made burned Russian armored vehicles: tanks, self -propelled artillery installations, landing machine. Together with the resistant Russian weapons, fragments of ammunition, trophy ammunition, they testified: despite the fact that the Russian army is a strong opponent, the expansion to the strength to win it. After all, as the US Secretary of State Atoniblinken, the Russian army is really second in power, but not in the world, but in the territory of Ukraine.

The Ministry of Foreign Affairs of Ukraine, the coordination headquarters on the issues of prisoners of war and other involvement bodies of Ukraine continue to take active measures to return home eleven Ukrainian -military - war, which Hungary, without the Ukrainian government of the Ukrainian government, has exported from Russia.

About this [it is referred](#) in the statement of the Ministry of Foreign Affairs of Ukraine.

"The attempts of the Ukrainian side to establish a constructive dialogue with Hungarian power by official diplomatic channels are unfortunately ignored. All attempts from Ukrainian diplomats in recent days to establish direct contact with Iz -Ukrainian citizens have not been successful. This, as well as information obtained by the revival of some of them, indicates that the assurance of the Hungarian authorities has the free status of Ukrainian defenders in Hungary does not correspond to reality, "the message reads.

The Ministry of Foreign Affairs noted that in fact, prisoners of war are kept in isolation, do not have access to open sources of information, their communication with relatives is giving away in the presence of third parties, they are denied the contacts of the Embassy of Ukraine.

"Such actions of Budapest put into question the humanitarian motivation of Ukrainians to Hungary. In addition, they can qualify as the provision of the provisions of the European Convention on the Protection of Human Rights of Captured Freedoms, "the statement was emphasized.

The Ministry of Foreign Affairs of Ukraine once again appealed to the Hungarian side to immediately allow the Ukrainian consul to be released to the Ukrainian prisoners of war in order to migrate their physical and psychological state, to tell them about their rights, and to give urgent consular assistance.

"In Ukraine, our defenders are waiting to return and are ready to give them maximum assistance in reunification with their relatives and to provide necessary rehabilitation," the ministry said.

About the operational situation in the east of our country on the air of a telecommunication "[Unin](#)" The spokesman of the Eastern Urell of the Armed Forces of the Armed Forces Colonel Sergei Cherevaty told.

-The Limano-Kupyan direction has been the leader of hostile artillery shelling for several months in a row. The last day was no exception. So, the enemy 555 times struck from different types of artillery. Twice tried to fade us. There were also 5 aircraft. During the reflection of the enemy attack, 35 invaders were destroyed and 43 more were injured. We also destroyed the tank-62, one SAU and two cars. At the same time, the T-62 tank is long outdated specification, and this indicates a lack of armored vehicles,-said Sergiycheriev.

From the clarification that the Russians constantly have serious problems with the personnel. After all, our warriors quickly destroy enemies.

According to Colonel Sergei Cherevatov, in the Bakhmut direction there is a position.

President of Ukraine Volodymyr Zelenskyy

Volodymyr Zelenskyy [said](#) in your conversation.

"Rate. Priority - advanced, specific issues of offensive. There were reporters and commanders directly from the directions of fighting. Also reporting Committee, Head of GUR.

Separately and in detail they considered the preparation and provision of new brigade Guard and our border guards - those who are waiting for their time for combat actions.

In some directions, our warriors move forward, in some directions protect positions and oppose storms and increased attacks of the invaders. There will be lost positions. Only released. They have only losses. And in general-the resolution of pressure, our pressure, which allows you to pave the path of our flag. Syno-yellow colors will be throughout our south and throughout our east. Bommy is on their land, and it gives the greatest power.

I thank all our soldiers - every soldier, every sergeant, every officer of every general who is attracted to our active offensive and defensives now. I thank you for every liberated and for every protected position!

Today, in a conversation with the Prime Minister of Great Britain, Rice Sunak, defense needs as a time, thanked for the defense support. For example, the British "Svedou" - long -range missiles - make a very useful and accurate business at the front. Like many other weapons. And this cooperation will be a significant continuation.

Of course, they discussed with Richa, Mr. Prime Minister, preparing a NATO Vilnius summit and a meaningful filling of this Alliance meeting.

Today, there is also a significant political decision of Britain on sanctions - to keep junctions against Russia, until the aggressor compensates for all the damage caused to our country, our country. And it is very important that the assets of the aggressor state and all persons associated with it are related to the system of domination built by the Kremlin territory . It will be fair, and I am grateful to the British who support us on the path of justice. Both the conference and financial cooperation and our movement in the EU have discussed Ursula Der Lyen with the presidential community. Already this week we are expecting an intermediate oral evaluation of our work on the recommendations of the European Commission. And discussed in detail, the 11th sanctional package against Russia for the war.

He also spoke with the Netherlands Prime Minister Mark Rutte Tapremier, Denmark, Matte Frederixen. As always, they paid attention to the forefront

and our joint defense efforts, thanked for their support and readiness to develop our cooperation for the sake of safety, " - the message reads.

The President also informed about negotiations with the leaders and representatives of Africa, who were in Ukraine last week and then visited the terrorist state. Each such international step only convinces again and again that Svetuvaro is more active in working with the formula of peace. Because only this formula is sufficiently reacting to every aspect of Russian madness.

Also, Volodymyr Zelenskyy spoke with the President of the Bank today. And not only about cooperation now, but also about the post -war transformation of Ukraine. About those decisions about those steps, about the new doctrine of the new Ukraine, which wins Ukraine, - the quotes that we prepare and implement. All together. Just as we now expose this aggression.

"Thank you all who are in battle now, in combat posts, in combat positions!

Especially today I will note the assault unit of GRU "Artan" and its commissarayor Torkotyuk. Thank you!

And yet - our special operations. Victor, all the guys - thank you very much!

Thank you all who are fighting and working for Ukraine!

Glory to Ukraine!" Said the President.

The Government Response Team of Ukraine CERT-UA, which operates at

the State Secretariat of Communications, warns of fraudulent activity against UKR.net users.

The attackers seem to be on behalf of technical support Ukr.net send electronic letters with the topic "noticed suspicious activity @ukr.net" and an additional form of the PDF file with the name "Safety Anti-Security"(Electronic addresse - account.support.0@ukr.net) .

У PDF-документі користувачу погрожують блокуванням поштової скриньки та вимагають підтвердити доступ до поштового акаунту, перейшовши за посиланням. Насправді посилання спрямоване на шахрайський сайт, що імітує вебсторінку поштового сервісу. У разі автентифікації на підробному вебсайті логін та пароль користувача будуть надіслані зловмисникам. Отже, сторонні особи дістануть несанкціонований доступ до електронної поштової скриньки.

Фахівці CERT-UA вжили додаткових заходів з аналізу мережової інфраструктури, що застосовується для здійснення аналогічних кібератак від 2021 року. В результаті виявили щонайменше 118 пов'язаних доменних імен, зареєстрованих компанією «Internet Domain Service BS Corp» (@Internet.bs, Bahamas).

Щоб мінімізувати вірогідність реалізації загроз щодо громадян України, ідентифіковані доменні імена додано до DNS RPZ зони, яка обслуговується CERT-UA. Також їх передано фахівцям CSIRT-NBU для внесення до DNS RPZ зони «шахрайство».

Активність відстежується за ідентифікатором UAC-0036 (The group is also known as Cold River, Callisto) and is carried out in the interests of the Special Service Federation.

CERT-UA experts recommend Ukr.net users:
