Olena Kondratyuk, Deputy Chairman of the Verkhovna Rada of Ukraine, performed Millie Medzhlis of the Republic of Azerbaijan, dedicated to the 100th anniversary of Heydar Aliyev's birthday.

About it [reports](#) Verkhovna Rada of Ukraine.

She recalled that the national leader of Azerbaijan Gaydar Aliyevda determined the firm confidence of Ukrainians in the chosen path of independence and to end the dependence on any other states.

Vesespicker also thanked Azerbaijan for the support and cooperation and provision of humanitarian aid to Ukraine.

"I want to thank the leadership of Azerbaijan for the consistent support of the sovereignty of Ukraine's territorial integrity. For my part, I would like to assure that Ukrainian will support the territorial integrity of the Azerbaijani Republic in its internationally recognized borders," Olena Kondratyuk stressed.

Vesespicker emphasized that Azerbaijan, as well as Ukraine, protects her land with dignity. She also thanked the ethnic Azerbaijanis who are fighting their lives for the freedom of Ukraine in the ranks of the Armed Forces of Ukraine.

During his speech, the Deputy Chairman of the Verkhovna Rada of Ukraine appealed to the Azerbaijan's consumerization and participants of the meeting to the devastating consequences of the Russian invasion of Ukraine.

Vesespicker stressed that more than 3,000 educational institutions and more than 1,200 health care institutions were injured during the Russian invasion of bombardment in Ukraine.

"In the Ukrainian city of Irpin, which you all have heard in the horrific news of the Russian army against peaceful Ukrainian citizens, there is a street and square of Gayard Aliyev's wife, an outstanding ophthalmologist, academician Zarifia. In her honor, Irpin School # 12 was also named. The Aliyovubul School is fired by the Russians," Elena Kondratyuk emphasized.

At the same time, the deputy chairman of the Verkhovna Rada exacerbated not only on the occupation of Ukrainian lands by Russia, "but also on the direct insane intention of the Russians, the genocide of Ukrainians is not hidden by the Russians, kicking our children."

She emphasized that almost 20,000 Ukrainian children - and this is only an official digit - violently deported to Russia.

The issues of further steps to simplify imports of goods, critical for the production of weapons and military equipment and strengthening of defense capability of Ukraine, were discussed during a working meeting at the Ministry of Economy of Ukraine on May 17, 2023.

About it [reports](#) Government portal.

The meeting was attended by representatives of the Ministries of Economy, Defense, Strategic Industry, the State Export Control Service, the Federation of Employers of Ukraine, Sectoral Associations, and the OPC.

As the representatives of the manufacturers noted during the meeting, the government previously tasted the necessary decisions that made it possible to significantly simplify the import of goods and double use for defense needs. On the same way, in March last year, amendments to Resolution No. 1228 of 12.07.1999. Businesses that have the authority to export and/or import military goods were entitled to import military goods by all positions(ML1 - ML22)List of military goods to be subject to state control to meet the needs of national defense forces.

In December, the Government approved a list of military goods and dual use, for international transfers(imports)which during the martial law the law “On State Control over International Transfers of Military Patients and Dual Usage” is not widespread(Resolution No. 1378).

Відтак, нагальні потреби ОПК вимагають подальших кроків з лібералізації відповідних механізмів. Зокрема, розширення переліку товарів, на імпорт якихне буде поширюватися у період воєнного стану дія закону про експортний контроль.

Під час засідання були обговорені конкретні пропозиції виробників щодорозширення переліку. За підсумками вирішено опрацювати подані пропозиції зурахуванням позицій всіх зацікавлених сторін та внести відповідні зміни до постанови № 1378, які будуть надані на погодження до заінтересованих державних органів та подані на розгляд Уряду.

In the liberated Kherson, the SBU detained another Russian agent.

She was a nurse of one of the local hospitals, who was recruited during the occupation of the regional center by the FSB personnel employee.

On his task after the release of Kherson, she remained in the city of Ipreadays to work in a medical institution for reconnaissance and subversion against Ukraine.

Subsequently, the malefactor collected for the aggressor the constituent data of Ukrainian defenders who were treated in a medical institution.

She also spied on the places of defense forces that are stationed by the gerrulates of the regional center.

In addition, the Russian agent recorded the consequences of hostile rocket launchers and Kherson and transferred the corresponding "reports" to the FSB through the messenger.

Intelligence needed invaders to adjust re -firing shots in the city.

According to investigators, in the field of view of the Russian intelligence service, a woman got through the public support of the invaders in one of the anti -Ukrainian groups in telegrams.

During the searches at the place of residence, the defendant found a mobile phone she used to communicate with the aggressor.

On the basis of the evidence collected, the security service investigators informed her of suspicion to a co -treated betrayal committed in the state of martial law.

She is now in custody. Investigation is ongoing to establish all the crime.

The complex measures were carried out by the SBU staff in the Kherson region of the preservation leadership of the regional prosecutor's office.

Vice Prime Minister for the Restoration of Ukraine-Minister of Development of Communities, Territories and Infrastructure Alexander Kubrakov spoke about the continuation of the Geruric Agreement.

About it [reports](#) Government portal.

"The grain agreement is unlocked, it will continue its validity until July 18. It will be a lot of receiving Ukrainian products thanks to the efforts of our partners, Turkey and the UN. We are grateful to partners for the adamant and purposeful suggestion that the agreement should work in the future and on the conditions signed by all. I note that the grain initiative was and is valid, as it prolonged March for 120 days, until July 18, "Alexander Kubrakov emphasized.

To date, 30.4 million tonag products have already been sent to the needs of the world. Since mid -April, Russia has groundlessly launched the work of initiative, and in May, in fact, blocked it by refusing to register a fleet and conducting inspections of the fleet, which is going to load D -Ukrainian ports. Almost 70 vessels are now expected in territorial waters, 90% are those who are ready to deliver our farmers' products to the world.

"We welcome the continuation of the initiative, but we emphasize that it should work effectively. To do this, it is necessary to eliminate problems that are already created by Russia by sabotage of inspections and registration of a new Flot. We hope that our partners will make every effort to make the grain agreement fully work on the food security of the world, and Russia will eventually use food as weapons and blackmail, "the testimony reads.

The Minister of Defense of Ukraine Alexei Reznikov in Kiev held a meeting with the representatives of the American non -profit organization Renew Democracyinitiatiaiae, headed by US Congress Senator Mary Katherine Hitkamp.

Alexei Reznikov thanked the United States of America for the help of our country to fight the Russian invaders and for the fact that the government and the US people are standing side by side with Ukraine for more than a year of full-scale. The issue of further consolidation of efforts in ensuring the detachment of Russian aggression and the implementation of bilateral cooperation was discussed in order to delay the capabilities of the Armed Forces of Ukraine.

The Minister of Defense informed the foreign delegation about the current state of the front, the continuation of the record of crimes of Russians committed in Ukrainian territories. He expressed his belief that Russian officials who give ordinary orders should be brought to international criminal responsibility.

The head of the defense department emphasized the importance of strengthening the prototypal defense of Ukraine to create a civilian population over our country, which should protect the civilian population and objects of critical infrastructure.

He also noted that in the future of the NATO Vilnius Summit, Ukraine is waiting for a clear signal from partners about the readiness to accept our state as a full member of the Alliance.

Alexei Reznikov emphasized on the importance of Ukraine's conquest of the prime, which will allow successfully to carry out land operations, in particular the deposits of Ukrainian territories. That is why, according to him, at least the fourth generation is needed by our defenders to defend from Russian air terrorism and subsequently make them a part of national air defense.

American delegates have expressed words of support to our country and the remarkable integrity and sustainability of Ukrainian servicemen in the struggle

of Ukraine. Mary Katherine Hitkamp emphasized that the heroic of a more convenient people is a striking example not only for the US but for the world.

During 2022, Russia spent on promoting propaganda through the state media \$ 1.9 billion instead of the planned \$ 1.5 billion 50% of the budget was directed to RT, the Russian Twediagroup "Russia Today".

This was reported by the founder of the initiative of "Notagonota" Alona Romanyuk to refer to the study of the project In a comment to Ukrinform.

"This figure was deducted by analysts of the DEBUNK project in their great They indicate that the Kremlin had to spend \$ 1.5 billion in propaganda, but,

for all the evidence available in public access, you can calculate \$ 1.911rd. At the same time, it should be borne in mind that these funds were directed only to the state. This amount does not include social networks, propaganda through cinema, bothams, costs of propaganda through education, "she said.

The expert stressed that more than 50% of these funds went to RT, to VGTRK(All -Russian State Television and Radio Language Company)and on the media group "Russia today". At the same time, the study revealed a trend by which the budget has increased from year to year.

Romanyuk also noted that to calculate the full amount of funds that the government It was impossible to propagate propaganda because not all funds are shown in open sources.

"For example, in addition to the Cinema Foundation, other sources can also sponsor propaganda in films. And the same bothams - they are not marked in the budget, the alecosters are highlighted," the expert said.

Read also: According to Romanyuk, it is difficult to evaluate the effectiveness of propaganda, since there are no research on this topic.

"It is difficult to say about effectiveness, because there are no relevant research now. However, we see many politicians, experts and media, make Russian propaganda narrative The thoughts and views of people not only in Russia, but in Ukraine and the world are tedded, "she said.

About it in an interview in the program "Year -Sketch. The intelligence officer "said the head of the intelligence department of MOU Kirill Budanov, reports Ukrinform.

"The whole plan of the Russians was - a rapid landing way(At the airportGostomel - Order.)And to go from there. It was generally a single plan, "said Budanov.

He added that the whole day on February 24, 2022 the Russians tried to plant a Tamdesant, and the holiday believed that they would succeed.

"First, they did not believe that it would be resisting at all, secondly, they believed that they would be laid rapidly, and the plane would unload the units that would enter Kiev any time," said GUR Chief.

According to him, the last role in this played the information that our intelligence spread.

Read also: [**Budanov**](#) "The one they wanted to believe, she still took the mountain. Why, the Russian people were stupid, they did not believe that there would still be a war: they did not take with them fuel tanks, they stopped tanks, there was no supply of supplies, food, this is all true. But the truth is different-they had to create a picture-mounted offensive and an alternative to surrender. And to create a picture of these columns. So it was. No one hoped to fight like Umariupoli. There were no options. They believed that no one would be able to create a serious opposition, and they would enter the government quarter, change the leadership. In their view, the state management at this time should have escaped somewhere, if not - they would destroy it, "Budanov said.

He added that Russia changed the invasion date within two weeks. Ukraine received the final information about the attack at 4 am on February 24 at about 15.00023.

The Ministry of Internal Affairs of Germany has released a project of a new version of the law, which provides for a shortening of naturalization.

This was reported by Ukrinform correspondent.

The project assumes that naturalization can be allowed in five years, and in the individual cases - three years instead of eight, as still.

"We only allow to naturalize in five years instead of eight. Those who are in particular integrated can reduce this period to three years. Those people who are well -versed in German, reach excellent results at work or volunteer. We intend to determine the enormous life achievements of the Gastarbeiter generation for our country. That is why we plan to make it easier for them," Nancy Phaseker said.

She gave an example of Canada - as an example of attracting skilled workers, which are also urgently needed by Germany.

Read also: [**citizenship**](#) The conditions for faster naturalization are language skills, education, professional and economic integration, public participation and civic knowledge. A person should be able to pay for himself and his family members.

Fezer noted that many immigrants feel Germans, but do not want to break the country of origin. In the future, they will no longer be forced to give up some of their identity.

The minister emphasized that such manifestations as anti-Semitism, xenophobia or other ideas, motivated by inhumanity, which are incompatible with the guarantee of human dignity of the Federal Republic of Germany and violate the free democratic basic order, will not be tolerated in society. And those who promote will not be able to become a German citizen.

Read also: [**citizenship**](#) "If you do not share our values, you can't become a German," the phase summed up. That is, if someone wants to naturalize in Germany, he must adhere to the values of a free society. The law of the law should now evaluate federal lands.

In Ukraine, a portrait of a fighter with an epidemic/AIDS, which created artificial intelligence based on unique photos, was presented to AIDS Day.

According to Ukrinform, the charitable organization "All -Ukrainian Communist of People Living with HIV/AIDS" reports.

"For thirty -three years of Ukrainian independence, more than 50 thousand Ukrainians have taken the lives of AIDS. At the same time, thousands of HIV-positive Ukrainians are fighting for life. As a sign of their support for the Memorial Day of the dead from був представлений унікальний портретборця з епідемією ВІЛ/СНІДу. Особливість цього портрета в тому, що йогостворив штучний інтелект, розмістивши на свій високотехнологічний смак у кожній клітинці фото людей, які щодня борються і перемагають хворобу", -йдеться в повідомленні.

In Ukraine, 33 cases of HIV and AIDS are on average daily.

As it is noted, the number of people who took the medication increased every

year and more than 130,000 patients with HIV received treatment. The number of patients receiving treatment was 121 189 people at the beginning of this year.

's @sabrinasingh24 has this update on the U.S. Patriot missile defense systemin Ukraine, that Russia claims to have destroyed recently(with a Kindzhalhypersonic missile): "It has been repaired, it is fully back online andoperational."

MS. SINGH: I would refer you to the Ukrainians to speak more on how they're operating the Patriot. All I can tell you is - if you're referring to the Patriot that was damaged, you know, it was -- it was temporarily or there was minor damage to the Patriot. It has been repaired, it is fully back online and operational, but for any more specifics on that, I would refer you to the Ukrainians to speak to that.

The European Union urged China to press on Russia to stop armed aggression in Ukraine.

This was stated by the President of the European Council Charles Michel before the G7 Summit, which takes place in Japanese Hiroshima, Ukrinform reports, citing He also emphasized the importance of strengthening the relationship of the block with Beijing, stating that "stable and constructive relations with There are our common interests. "

At the same time, Michel emphasized that the EU would remain "firm" in its values and will express its interests.

He emphasized "the need to work together with China on global calls: climate change, conservation of natural resources, biodiversity", taking into account Beijing's role in the international community and its development economy.

"China is of special responsibility in the world. He must play marriage rules. And we urge China to press on Russia so that it causes armed aggression," Michelle said.

Read also: "We will continue to express our concern about human rights, whether in Zhnonza, or in Cinzyan or Tibet. We will not tolerate the interference with nasikraine, which will blow up our democratic societies, "he said.

Michel added that the EU will work to "reduce excessive dependence" on China and "to create a truly equal conditions for our companies and workers."

He also confirmed the commitment of the "one China's policy" on Taiwan, adding that there was no "unilateral change of status quo" from the EU.

Read also: As it was reported, the 48th Summit began today in Japanese Hiroshima, which will last until May 21. The main theme of the meeting of the Japanese heading of G7 determined the stability of the global economy in the context of the consequences of the coronavirus pandemic and the consequences of Russian aggression in Ukraine.

The European Union at this summit is represented by President of European Radisharl Michelle and the President of the European Commission Ursula von Der Lyen. Such a meeting was held in Germany in June 2022.

The students have hypothesized the emergence of viral mutations due to the intense luminosity of the Earth.

About it in The doctor of medical sciences, the head of the Department of Medical Psychology, Psychosomatic Medicine and Psychotherapy Mended and Psychology and Psychology of the Faculty of Psychology of the National Medical University named after O.O. Oleg Chaban.

"There is a lot of light in our lives. It is enough to inspect the land of the snack - it literally glows, except the oceans, of course. But there, despair people, our planet glows around the clock. In the metropolitan areas where humanity begins to scold, light never disappears! So, the "light pollution" of the planet is directly related to the mutations of viruses, "he said.

The scientist recalled that changes in circadian rhythms in humans and all living creatures occur due to added light.

The Kiev region will receive windows worth \$ 1 million for installation on objects damaged as a result of a full -scale invasion of Russia.

According to Ukrinform, Ruslan Kravchenko, the head of the Kyiv Regional Military Administration, reports in .

“Київщина отримає вікна на суму 1 млн дол для встановлення на об'єктах, пошкоджених внаслідок повномасштабного вторгнення Росії.

Таку допомогу надасть області некомерційна організація Global Empowerment Mission (GEM) Partnership with Govard G. Buffett's fund(HGBF). Підписали із засновником GEMМайком Каппоні відповідний меморандум про співпрацю", – написав Кравченко.

Він зауважив, що одне з міст, яке потребує такої допомоги – Ірпінь. Сьогоднічимало жителів who, because of the war, have not stopped their homes. One of the reasons is damaged, including the absence of windows.

According to him, more than 11 thousand has already been replaced thanks to the GEM HGBF windows. Double -glazed windows in the houses of Poltava, Zaporozhye, Bucha, Irpen, Mykolaiv, Kharkiv and Uman. The program also includes replacement of windows in schools, gardens of talacarins. "Our task is to carry out all the necessary work in a short time - the intake of the heating season," Kravchenko emphasized.

The parties also discussed the possibility of GEM in the internal arrangement of 70 private homes that will be comprehensively rebuilt in Irpen.

The issues of comprehensive reconstruction of private and apartment residents in the Brovarsky and Buchan districts were also raised.

Read also: The chairman of the Kova recalled that no less important issue is the arrangement of shelters and providing education institutions with school buses.

"GEM arrangements are an example of constructive and effective cooperation. Tsetotically a signal for other international partners. Only together will we be able to solve the refugees and return the Ukrainians home as soon as possible. I am grateful to our journey for tremendous support in the restoration of the Kyiv region, "Kravchenko said.

Supply electronics from German companies obviously fall into Russian armored groups despite sanctions.

Some such cases have been explored , reports Ukrinform.

According to the investigation, despite the ban on export, Russian companies are likely to receive microelectronics of German companies, and the delivery scheme is not even too conspiratorial.

One of the firms is Elix -St. GmbH - is in Stuttgart. According to the documents, they produce details for private use, for cameras, "for modules of a smart house". As stated in the documents, the customs found the cargo absolutely harmless. But if the officials looked more closely, they could have a suspicion that the buyer in the capital of Kazakhstan Astana was a mediator who founded the company in March 2022, shortly after Westermwritting the first sanctions against Russia.

In the first months, goods were sent to Kazakhstan for more than 800,000 euros. The company supplied products to Russia from 2018 to 2021. Elix-St. has a subsidiary in Moscow. On the website of Moscow Elix, they declare naps with Russian external intelligence of SVR, with the Airline "Sukhoy" Ingolcoma missile manufacturers.

The German magazine claims that officials in Germany knew about transactions.

There are 4014 civil protection shelters in Kiev today, including 3 393 basements.

According to Ukrinform, the Kyiv City Military Administration reports in .

"As of January 1, 2023, the Civil Protection Protective Fund was increased by 398 shelves. That is, today the use of 4014 shelters in the city of Kyiv is planned(3393 - basement and

basements, 364 - underground parking, 211 - underground crossings, 46 - underground subway premises)", - the message reads.

The KMVA noted that closing the shelter of civil protection is not a systemic problem and point issues that will be resolved on the ground. Such objects will be manifested and will be accessible to unobstructed access.

The head of the KMVA Sergey Popko stressed that the enemy almost daily carried out air attacks on Kiev. And during one of these attacks, the administration revealed a corner that not all shelters are discovered for the people of Kyivans. He believes that during the war, when the enemy performs massive air attacks, the shelter is closed to which there is no release for the people of Kyivans is a crime.

Read also: [**shelter**](#) "Therefore, during a meeting of the Defense Council, I identified the tasks of structural units - to identify such problems and to make everything that these structures that were used as shelter worked. Our most important task is the safety of the health of Kyivans. That is why we are fighting and approaching peace in Ukraine after our wins, "Popko said during a review of civil protection structures in the Darnitsky district of Kyiv.

This was initiated by the military administration after numerous complaints from the people of Kyivans. Popko journalists, together with the Director of the Municipal Security Department Roman Tkachuk, inspected shelters of different ownership and the answers of the media for all security issues.

If the shelter is closed, citizens can call: "101" or "1551". Rescuers will come and open the shelter.

The Ministry of Internal Affairs of Germany has released a project of a new version of the law, which provides for a shortening of naturalization.

This was reported by Ukrinform correspondent.

The project assumes that naturalization can be allowed in five years, and in the individual cases - three years instead of eight, as still.

"We only allow to naturalize in five years instead of eight. Those who are in particular integrated can reduce this period to three years. Those people who are well -versed in German, reach excellent results at work or volunteer. We intend to determine the enormous life achievements of the Gastarbeiter generation for our country. That is why we plan to make it easier for them," Nancy Phaseker said.

She gave an example of Canada - as an example of attracting skilled workers, which are also urgently needed by Germany.

The Russians did not know that they would be able to plant a landing in Gostomel - they did not have another planning of the capital of Ukraine.

About it in an interview in the program "Year -Sketch. The intelligence officer "said the head of the intelligence department of MOU Kirill Budanov, reports Ukrinform.

"The whole plan of the Russians was - a rapid landing way(At the airportGostomel - Order.)And to go from there. It was generally a single plan, "said Budanov.

He added that the whole day on February 24, 2022 the Russians tried to plant a Tamdesant, and the holiday believed that they would succeed.

"First, they did not believe that it would be resisting at all, secondly, they believed that they would be laid rapidly, and the plane would unload the units that would enter Kiev any time," said GUR Chief.

According to him, the last role in this played the information that our intelligence spread.

Why, the Russian people were stupid, they did not believe that there would still be a war: they did not take with them fuel tanks, they stopped tanks, there was no supply of supplies, food, this is all true. But the truth is different-they had to create a picture-mounted offensive and an alternative to surrender. And to create a picture of these columns. So it was. No one hoped to fight like Umariupoli. There were no options. They believed that no one would be able to create a serious opposition, and they would enter the government quarter, change the leadership. In their view, the state management at this time should have escaped somewhere, if not - they would destroy it, "Budanov said.

He added that Russia changed the invasion date within two weeks. Ukraine received the final information about the attack at 4 am on February 24 at about 15.00023.

Viceremner-Minister of Ukraine Irina Vereshchuk

Irina Vereshchuk emphasized this viceremper-Minister Irina Vereshchuk during a live broadcast of Rada. According to her, the Ukrainian Government views the enemy certification on temporarily occupied territories as a hostile weapon. It is an enemy tool that the enemy tries to legitimize his stay in the Ukrainian territory.

Viceremier said that a forced passport to save her life is not a crime. However, if a person has received a passport and collapse or commit unlawful in terms of Ukrainian legislation, then legal evaluation will be given in due time by authorized bodies.

“The experience of Kharkiv and Kherson region has shown that justice will be restored. Therefore, I want to reassure and to warn people at the same time: all cases of Russian passports will be considered in the context of those events and the options for which it happened. Our recommendation as a government remains unconscious: to evade cooperation with the enemy, if possible, not to receive passports, if possible - to leave or wait for the Armed Forces. We will come!” - Irina Vereshchuk summarized.

The coordination headquarters met with relatives and close soldiers of the individual airmobile brigade from Zhytomyr region, which is part of the landing and assault troops of the Armed Forces of Ukraine. Representatives of the coordination headquarters, Security Service of Ukraine communicated with

the families of captives and missing persons(The united center)and the International Committee of the Red Cross.

About it [reports](#) Coordinating headquarters of inquiries for the treatment of prisoners of war.

According to the headquarters representative, it is impossible to argue that the prisoners can not be exposed to the extent, because they can be moved to other places. The aggressor country does not provide official information. However, important information about the probable place of detention can be obtained from other sources, including those defenders who are already free from captivity.

A representative of the International Committee of the Red Cross assured that the ICRC Chopochera was accessed to all without exception of prisoners of war, not just to those who were confirmed by the Ministry of Defense of the Russian Federation.

The staff representative also drew attention to the fact that not all information received from captivity can be public.

"The publication of some information can be detrimental to those who are still innocent," he added. - And our task is to pick up all. "

The problematic issues concerning communication by the National Police of Ukraine and military units were discussed separately.

The Security Service conducted a multi -stage special operation during which she detained the willow agent of the Main Directorate of the General Staff of the Armed Forces of the Russian Federation(better known as the game).

Зловмисник збирав для окупантів розвіддані про місця розташування Сил оборонита об'єктів критичної інфраструктури у східних і західних регіонах України. Передусім ворога цікавили локації підрозділів СБУ і Держприкордонслужби, атакож точні координати ключових мостів та електропідстанцій на Харківщині та Буковині.

Затримано російського агента у Чернівцях під час проведення ним прихованої фотофіксації військового об'єкта. Ним виявився місцевий житель, який у 2021році переїхав до Харкова і працював техніком з налаштування інтернету.

Після початку широкомасштабного вторгнення він почав активно поширювати про кремлівські наративи на власній сторінці у забороненій соцмережі «Однокласники» та потрапив у поле зору російської воєнної розвідки. Згодом нанього дистанційно вийшов кадровий співробітник гру, який запропонував негласну співпрацю на користь країни-агресора.

Перебуваючи у Харкові, ворожий агент виконував вказівки свого російського «куратора» щодо збору даних про дислокацію блокпостів та фортифікаційних споруд у місті. Крім того, він передавав окупантам геолокації місцевих енергооб'єктів.

Невдовзі фігурант отримав нове завдання — повернувшись до Чернівців під наглядом відвідування родичів.Хоча насправді метою «поїздки» було шпигування за обласним управлінням СБУ, прикордонним загоном та місцевим військоматом. Також у центрі уваги зловмисника були транспортні мости регіону — їх координати і система охорони.

На підставі зібраних доказів слідчі Служби безпеки повідомили російському агенту про підозру у державній зраді, вчиненій в умовах воєнного стану. Наразі він перебуває під вартою. Триває розслідування.

For the first time in the Kyiv region, the military division and units of the territorial defense forces that are part of the northern operating area troops, working out for the destruction of the enemy sabotage and intelligence groups.

About it [reports](#) Command of the Joint Forces of the Armed Forces.

"Ukraine has a significant branched river network, which, in addition to the use of transit, is a natural obstacle to the promotion of troops. Authorizing such a disposition on these reservoirs can successfully perform real-efficient landing operations, " - said the commander of the United States of Ukraine, Lieutenant General-Lieutenant Sergey Naev.

According to him, the war with Russia forced Ukraine to revise and renovate the resistance of the actions of the occupying troops. In particular, in those areas of Ukraine where there is an extensive network of rivers. And, analyzing the state of affairs, the Armed Forces of Ukraine came to the conclusion that the river flotillas were needed.

"The need to create a military river fleet on the Dnieper in the Berezinized year indicated unfriendly actions by Belarus, which unofficially maintains the aggression of the Russian Federation against Ukraine. In addition, it should be borne in mind that the army of Belarus has 19 vessels of a military-year-old Division in Pinsk and a base in Loev, that is, on the border with us, " Lieutenant General Sergey Naev reported.

According to the commander, since then the unit has acquired a personnel and ship composition. It has in service with boats that can carry and evacuate the personal composition, perform the functions of escorting, protection, patrol, intelligence. At the end of last year, the unit included patrolmen provided by the United States.

"The landing of the river landing and the capture of a certain bridgehead is a small part of the primary tasks, to which warriors are always ready, which defend the rest. I am satisfied with the preparation of our units, "-emphasized the Lieutenant General Sergey Naev.

According to the legend of exercises, the point of management of the group of troops receives a message about the attack on the checkpoint, at which

there is a clash with the use of weapons, there are wounded. Unknown abducts weapons and disappear in a unique direction.

Immediately involved a rapid response group arrives at the scene where cars detect. The decision to launch UAVs for conducting aero -intelligence and search for DRG is made. Over a certain period of time, the DRG is found in the ambush of the river. The information is transmitted to the management point where the decision on the use of artillery and river landing is made.

Further, according to the classic scheme: boats of guards arrive at the place, which are planted with advanced units for the purpose of exploring the terrain and covering the landing of the main group of river landing. The advanced watch shows observation posts of the enemy by firearms. Then gives permission to land.

The landing is unloaded ashore and enters the battle along the shoreline. At the same time, the boats of the guard enters the enemy and destroy it. Fire groups surround the enemy DRG and clean the terrain. The capture group is delayed. After the operation, the wounded and the convoy prisoners occur.

The inhabitants of the Russian Federation are preparing for the existence in the war conditions for the two years, affirming in the public consciousness of

the belief that the war is the norm of the Russian life. This observation was made by Doctor of Historical Sciences (Institute of History of Ukraine of NASU) Larisa Yakubova during the operation of the round table "Rashism. Understand to overcome."

Signals that Russians have to be patient for a quarter of a century have been broadcast by the Kremlin since November 2022. Citizens of the Russian Federation are prepared for the fact that hundreds of thousands will be sent to the Ukrainian Front, and the war of anti-Ukraine is now a new Russian national idea for at least the next anniversary. In this state, gradually degraded and decomposed, Russia can be able to exist for a long time, because the ideology of Rashism, the Russians will be able to change their consciousness.

This is, according to Larisa Yakubova, an oncologically ill totalitarian, which destroyed and replaced society and the state, able to exist for many years. Russian citizens will consider it normal, unnoticed that they live under the reign of a totalitarian regime, and not realizing that the ideology of Rashism has been broadcast by him in common with fascism dissent.

The main features of such a system in political practice are endless populism of zest, and the main task is to destroy any signs of subjectivity, except for the officially allowed totalitarianism of the state political and Russian national

identities. Citizens of the Russian Federation were not noticed how they were delayed in totalitarianism, due to the fact that the creators of ideology and dominant regime avoided its definition and name. According to the scientist, from the proclamation of the official ideology, which in Ukraine, the term "Rashism" has already been marked, the Kremlin regime is currently keeping the only way to avoid the use of historically compromised terms such as "Nazism" or "fascism". This was warned by the beloved philosopher Vladimir Putin Ivan Ilyin, who is considered one of the main theorists of Russian fascism.

Thus, the threat to the Russian totalitarian regime in Ukraine and the world can be no dangerous and long -term. This should be taken into account when developing planning and counteracting the aggression of the Russian Federation.

"If a person dies, he usually stays in the location - at the site of death. Then the office of the Commissioner for Persons who disappeared in the face of comprehensive circumstances is connected. We carry out repatriation and exchanges of bodies, then-DNA tests. Thus, about many people we return during the exchange, there was no information, but they were alive in captivity. The information provided by part is the basis of our search work. Fortunately, there are many cases, the casualties think that a person has died, and then it is in captivity, "Bogdan Okhrimenko said.

In addition, the staff representative noted that the coordination headquarters employed delegated representatives of the troops: if additional information is needed, we are in contact with the management of the parts.

The meeting also discussed the possibility of exchange of "everyone".

"Today it is more real than, for example, three months ago. It depends on the success of the counter -offensive and the replenishment of our exchange fund, " - said Bogdan Okhrimenko.

The relatives also noticed that the number of confirmations of the captivity of the Rosiy Cherry International Committee of the Red Cross had increased(ICCH).

«Теперішній МКЧХ значно ефективніший, ніж на початку широкомасштабного вторгнення. Роль Червоного Хреста дуже важлива», — зазначив представник штабу.

Head of the Main Directorate of Intelligence of the Ministry of Defense of Ukraine, Major-General Kirill Budanov gave an interview of the project "Different People".

Gur IU press service [cites](#) The main theses of the interview.

"Art of War":

The fact that we disorient the opponent is exactly a fact. Until everything is not tired, they, I think, will not understand what was happening at all.

What is more important: to confuse the enemy or risk that someone in Ukraine will not understand it correctly? As for me, the answer is obvious: to confuse the worker.

Nuclear Risks:

We did not approach the nuclear war, but we did not depart. In general, this threat is inspired by artificially. Of course, everything is possible in theory, but the likelihood is zero, because all this will end with a strategic loss of Russian federation.

The strategic loss is the destruction of the whole strategic goal of the existence of this political system.

Russia's future in the world:

The Russian leadership wanted "grandeur" to all be reckoned with them - "bipolar world", as they say. The bipolar world may be, but without them. They simply can no longer: neither the level of economy nor in the level of military diplomatic force.

The military potential of the Russian Army:

Everything that the Russians could use against us have already been involved.

The potential for serious offensive actions of the army of the Russian Federation is completely exhausted. The containers have a serious potential for defense. Defense they constructed a seven, correct, powerful. But this is no longer the Russian army that could conduct serious offensive operations.

Local actions at the level of Bakhmut-yes, 50-70 meters a day they manage to pass, and sometimes-it is not possible. It's, sorry, a little bit is not a level for how they said, the second army of the world.

The Group of the Russian Federation, which is involved in hostilities against Ukraine - about 370 thousand -war component, about 20 thousand national guards and about 7 thousand, with a zuzstan for now, a set of various militarized formations.

Shogg's envy:

What says [the owner of the so -called Wagner PEC] Prigozhin is mostly true. Yerechi, who are twoly perceived, but somewhere 80% of what he says is pure.

It is unfortunate to recognize, but the so -called PVC under the conditional name "Wagner" shows efficiency - unlike the Russian army. Against this background, their conflicts were even more exacerbated. Shoggy and Gerasimov's team does everything to erase these PVCs. Unfortunately, I have to admit that Wagner is the most effective. No one in Russian federation is compared to the efficiency of fighting.

Spies in International Legion:

The number of foreign volunteers in early March 2022 reached thousands. Only those who came under the criteria of moral and combat readiness were taken to the international legion.

In the international legion there were spies from different countries, but it is a low percent. Most of those who tried to "shoo out" - and such attempts were, the safety safety was filtered at the stage of selection and interviews.

Russian agency in Ukraine:

The agent network of the Russian Federation in Ukraine remains, but its capacity is much in the myth.

Competition of special services of Ukraine:

I personally respect the baby General. I have friendly with him, you can say, even personal relationships. Everything is wonderful with him.

Healthy competition between special services is always a normal process. It is very good that it is.

GUR agents in the Kremlin:

Yes, in Russia we have our sources that inform us perfectly.

Valuation of Russian special services:

The Russian army is not the second in the world. Apparently, not the third, but in the top ten.

We are in a state of war with one of the most powerful military vehicles that were raising and very serious, unlike the army, the most powerful system of special services. It would be wrong to underestimate the enemy.

Because we act more or less effectively, it means that we act correctly.

"guerrilla" movement in Russia:

The forces of resistance in Russia are branched, often not combined into a single system, but also controlled organisms.

In our opinion, you do not need to combine them. The traitor in one organization will destroy only one organization. If they are combined, the losses will be not right.

Ukraine is not Russia:

The protest potential of Russian society is almost zero. It will only be possible to shake Russia in the middle when the elites are ready for it. There is no civic society - it is not Ukraine, even incorrectly comparing.

A ferry crossing Taman:

Most of the radical pro-Russian population with the first departments of the Safety and Defense Forces of Ukraine in the Crimea in any format will immediately move through the ferry to the mainland of the Russian Federation.

I think the Crimean bridge is not needed.

Belarusian factor: We used to use all our possible communication paths that we had. Even one people's deputy was, it is also true to prevent Belarus as a country into this war.

Putin lost his hope of drawing Lukashenko into the war. Ammunition from Belarus was Russian, this is true - they took out almost everything that could be. They use polygon -Belarusian to prepare their mobilized ones. After all, that's all.

Drones in the war:

The war proved the concept of maximum efficiency of use of drones and as intelligence, and as Kamikadze.

Drones of reusable use(with a discharge of ammunition)showed less efficiency due to high saturation by means of air defense, both in us and the guide.

Dron Kamikadze, which flies one way, is more likely to success.

Drones that should work as planes for the task of blows - they are usually beaten.

Participation in Crimean Ride 2016:

Yes, I took. So what?

Does it pull "in the field" now? Pulls. Is there anything? At best, rarely. I am and I am with them, but it is clear that it is not 90% of my life.

A decisive moment in the war:

The first day of a full -scale invasion of the Russian Federation and battles in Moshchun - these are events that were destroyed by the end of the Russian Federation.

The knocking of them from Irpen put a point, but the main thing is the bridge and fighting in Gostomel. These are the events that completely destroyed the Russian plan.

We need to make efforts to finish everything in 2023.

Representatives of the coordination headquarters, the National Guard of Ukraine Tanational Police were answered as close.

About it [reports](#) Coordinating headquarters of inquiries for the treatment of prisoners of war.

The staff representative assured the audience that the defenders who returned from captivity were interviewed, the facts of bullying and torture were recorded. The information is saved for accuse documents.

Red Cross International Committee(ICCH)On their own initiative, it conducts a survey with defenders who agree to provide information.

They discussed whether the moving of captives from one place of keeping on another return from captivity.

"There are exchanges when we return many guys whose maintenance we have not expected. Data on the place is not a decisive factor for release, - said the representative of the headquarters. - The enemy provokes relatives, forcing the prisoners to call it that the Russian side gives them for exchange, and Ukraine does not want to take away. This is an open manipulation. The negotiations on the release of the Chernobyl defenders, as well as all other boys and girls, do not stop. We are ready to pick up everyone when this aggressor country agrees. "

There were several National Guards who were released at the meeting.

"I was told in the pre -trial detention center that I was awaited as an officer at home for 15 years. Get a passport of the Russian Federation. All psychologically press. Russian citizenship is offered almost everyone, "said one of the released defenders.

The defenders who returned advised during such calls, when the boys speak the text, simply tell them the main news from Ukraine - that all the way, the relatives are alive, that everything is done to release them.

Australia has introduced new financial sanctions and an export prohibition, and the national and strategic importance sectors for Russia.

This is stated in [message](#) The press service of the Australian Premier-Minister.

These additional measures are aimed at slowing the Russian military machine.

Australia's actions are part of the initiative of international partners that are collected at the G7 leaders in Hiroshima this week.

"Australia supports Ukraine. We pay tribute to the unwavering stability of the tenacity that the Ukrainian people have shown," said Prime Minister Anthony Albanese.

New financial sanctions will be related to 21 organizations and three individuals, in particular:

The Australian Government is also prohibiting the export of all machines and concomitant parts to Russia and the territories that are temporarily controlled by Russia. This will not allow Australian goods to promote Russia's aggression in Ukraine.

ARMIA INFORM

On May 19, the National Bank of Ukraine presented a very commemorative coin "Forces of Support of the Armed Forces of Ukraine".

This coin by its characteristics is identical to the usual circuit coin mining of 10 UAH of the sample of 2018. At the same time, its reverse is a thematic, dedicated to servicemen of support for the Armed Forces forces of Ukraine.

The Head of the National Bank of Ukraine Andriy Pyshny, during the presentation, announced, which he considers his unconditional obligation to perpetuate the departments of the units of the Armed Forces of Ukraine in national money.

ARMIA INFORM

"The forces of support of the Armed Forces are a powerful support for the combat capability of the army, which is why today we are present and put into circulation of the coin that honors their feats. Our novamonta carries a certain symbol - dedication and gratitude to a particular kind of forces, extraordinary to the country's defense capability. Because of this, its daily presence of the construction of Ukrainians will have a powerful message - a reminder of the heroism of the journal of the Armed Forces of Ukraine, about those who are re-elaborated in our country, "said the head of the National Bank.

For his part, the Commander of the Armed Forces of the Armed Forces Brigadier General Dmitry Gerega told about the main areas of activity assigned to their troops.

- The support command of support includes five major military organisms. First of all, engineering troops that are intended for the engineering provision of units, units and associations of all types of armed forces. Drugostova - troops of radiation, chemical and biological protection. In addition, the command contains a military-topographic service, the main components of which are cartographic, topogeodetic, photogrammetric and editorial and publishing centers.

The brigade General also noted that the command of the support forces of support for the organization of hydrometeorological support was put on the command of support forces. And a special seat in their state is occupied by the dog service, which was presented by the film by the doglogist Captain Leonid Levchenko, together with his assistant - the Belgian shepherd, nicknamed Diamond.

First of all, I would like to thank the hospitality of his royal high -grade Prince Muhammad, all the people of Saudi Arabia and Misudzhidda, who accepts this summit.

I hope we are all here for peace and justice.

Dear participants of the summit!

Today is the 450th day of a full-scale war, which is conducted against Nazi invaders.

We do not have such rockets that our enemy has. We have much less aviation. We do not have numerous killing drones that Iran supplies Russia. We do not have so much artillery. But we remain strong, because on our side is true. Moreover, we displace the invaders from our land.

Anyone who protects their native land from the invaders, anyone who protects the children of their mother -in -law from enslavement, every such warrior - on the path of justice. I am proud of such warriors and all Ukrainian people!

The war has never been a choice of Ukrainians. Our troops did not go to foreign lands, we are not engaged in annexation and robbery of other peoples' resources. But we never obey any strangers and colonizers. So we fight! And Yavpeat is that all your peoples will understand this main emotion.

I am also sure that all your peoples will understand the main call that I want to stir here in Jedd. A noble call for all of you is to promote the protection of our people, including the Ukrainian Muslim community!

Together with me here - highly respected Mustafa Dzhemilev, leader of the Crimean Tatar Narode, one of the indigenous peoples of Ukraine. Their house is Crimea, a focalian culture in Ukraine. For centuries, the Crimean Tatar people have been named to remain an integral and strong component of the Muslim community. But Crimea was the first to suffer from the Russian occupation, and most of those who undergo repression in the occupied Crimea are themuslims themselves.

We already have a positive experience with Saudi Arabia - about the liberation of our peoples captured by Russia. We can expand this experience!

And even if there are people who have a different view of war on our earth, calling it a conflict, I am sure that we can all be united in order to save our people from the cages of Russian prisons.

Unfortunately, there are those who close their eyes on the cages of tangent annexation in the world and here. I am here for everyone to look honestly. Whatever the ashamed of the Russians, but independence should still be. And I want to dress Saudi Arabia, I want to thank the absolute majority of you to retain sustainable international positions and the UN Charter. Your people could already make sure that Ukrainians are the people of peace. True Mir. In 2021, we determined the openness of Ukraine for your people. And the peoples of Saudi Arabia, united Arab Emirates, Oman, Bahrain, Kuwait met Ukraine. I am happy that your tourists have been able to see the luxury of spring in our capital, in Kiev, and the grandeur of the Carpathians!

I believe that one day your people will return, in particular, to see the Crimea free from Russian occupation and humiliation.

Our relationships are also built on our universities tens of thousands of urabs every year. It is an honor for us that the children of Morocco, Egypt, Jordan, Iraq, Lebanon, Algeria, Libya and Tunisia went to Ukraine for education.

We, together with you, did one of the most honorable missions in the world - guaranteed food safety. Ukraine traditionally provides wheat with other agricultural products. We were glad to welcome and investment peoples - as well as Qatar's investment in port infrastructure.

Initially, the pandemic, and then the more terrible virus - the rabies of aggression - hit these other normal relationships on these other normal relationships.

I am more than sure that none of you will agree to give the invaders a third in country. I am more than sure that none of you would look at you without a fight, Yakhuzhinka steals the children of your people. Hundreds of thousands of our children have deported the benefits, divorced from relatives, and our children there, in Russia, are taught to hate their compatriots. I am more than sure that none of you would have resigned out the nuclear power plant occupation to use it to blackmail the world with a nuclear disaster.

See how many years of suffering have brought Libya, Syria, Yemen ... How many lives have been warmed for years of hostilities in Sudan and Somalia, in Iraq Taafghanistan ...

Anyone who adds suffering with their new aggression, anyone who sows enmity, anyone who wants the old days of the invading empires that did not pay attention to the volunteer-dependent nations - every such offender goes against the world and will be cursed.

And I congratulate everyone who together with us is ready to embark on the path of justice! Each of the honorary delegations was handed the document in your language with ten-major peace formulas. Please you can choose the direction you know appropriate. And I will be grateful to each of you who will choose the direction of rescuing people who are kept in Russian captivity. Therefore, I invite all who respect peace, to join the realization of the formula of peace and thus reduce the war and wars, suffering and evil.

Russia is weak, we win it even when it is in the hands of more resistance; Its aggressiveness is not from power, but from the realization that time was empire. This is because the time of free peoples will never pass, and Ukraine proves it.

Wishing you peace! I invite you to direct cooperation, without any intermediaries, with the country. And let our strength act coordinated for the rest of the tabula of people of all peoples!

And please hear the Crimean Tatar people, hear Muslims of Ukraine!

May the Most High keep our warriors!

Glory to Ukraine!

"The enemy cannot win the quality, so he takes the quantity.

In particular, he increased the presence of troops in the Bakhmut direction by several people and tries to use the advantage in heavy artillery of the and shells.

Russian troops continue to attack the price of heavy losses that are disconnected by our losses.

In Bakhmut, they turn buildings into ashes. Only leave the foundation that cannot be defended.

At the same time, our troops keep the border of the area "aircraft" in Bakhmut.

In the suburbs of Bakhmut today the pace of promotion of our troops is somewhat reduced. At the same time the enemy is unable to return lost positions.

Our warriors reflect all the attacks of the enemy in this direction.

Bakhmut's defense and suburbs performs his military tasks:

About it [reports](#) General Staff of the Armed Forces of Ukraine.

It is noted that the head of the US Land Forces Command has got acquainted with the deputy and stages of training the junior commanders of the Armed Forces of Ukraine, which provide for classes in leadership, psychological, methodological, fire, technical and tactical training, as well as international humanitarian law. Training is conducted by Ukrainian and British instructors with the involvement of foreign sampling and military equipment.

[!\(Images/APMIRINFORM/2023-05-19T92-00-00-04-00/28-150x150.jpg\)](#)

During the briefing, General Andrew P. Poppas was informed by representatives of the 11th brigade of the security forces of the UK Armed Forces of Multinational Educational Operation "Interflex" and the contribution of armed Silayl Britain and the participating countries in improving the necessary capabilities of Ukraine. Protection of Ukraine.

During the direct communication with the warriors of Ukraine, the US Commander -in -Chief Command the US Forces forces discussed with them the issues of warfare, training, readiness, exchange of experience and multinational -operative compatibility and separately emphasized the importance of the development of the leader as one of the driving forces. the multidimensional space of the battlefield.

Later, US Army General Andrew P. P. Popas delivered a lecture by Kermite Roosevelt, a tradition that began in 1947 as a tribute to the memory of the son of former USA Theodore Roosevelt -A infantry-shaped ground forces of the UK Armed Forces and the 16th Airborne Assault Brigade.

Kermite Roosevelt served in the armies of the United Kingdom and the United States during the First World War and every year the British General comes to the United States to enter the US Army of British-American special relations, Aman-American General attends the United Kingdom to communicate in Zbritan troops.

"Success in the battle is based on skills and relationships established during the learning time, whether for the smallest units, or for multinational partnership," said Andrew Poppas with British troops.

US Army Army Commander, Commander of the US Army Army, emphasized that "training wins the battle" and that the armies should "prepare to prepare as if it were approaching."

[!\(Images/APMIRINFORM/2023-05-19T92-00-00-04-00/75-150x150.jpg\)](#)

"Learning is the only important thing that the army can do in time that can be controlled," he said. - Teams and armies are created in the field, in the field and on landfills for combat firing, where people have no choice but to rely on each other to fulfill the mission, without rescue tints or conditional buttons that would allow their problems to be solved, " The commander noted.

"The training manages everything that the army does, and everything that the formation can or can not. You can see this strategy in real time, whether the closest football field, or up to a thousand six hundred miles east on the linefront line in Ukraine, where training is brought by the results, "said General Armysshi Andrew Popas and emphasized the importance of being the smallest teams to improve their basic teams Skills, and training should be

complicated as units train together as combat groups, crews and divisions, and, finally, as multinational alliances.

He emphasized the values of combined exercises, such as the recent Warfighter exercises, which participated in the 3rd Infantry Division of the UK Army Forces forces, to ensure the "technical and cultural compatibility" of the US and Britain's armies, providing a strong signal to potential.

[!\(Images/APMIRINFORM/2023-05-19T92-00-00-04-00/98-150x150.jpg\)](#)

According to Commander Andrew Popas, "Joint Viking in Norway and Defender Europe, they convey a valuable strategic message, which we show our determination to each other and our allies emphasize our presence and readiness for potential opponents.

"And if we do it properly when our opponents see that we are well -devoted and deeply devoted to our allies, perhaps only possibly, the fed up, willingness will be able to restrain some fighting at all before they get away. And if not, then - well, so we are called soldiers with you ... Yes? The culture of the victorious warrior begins with a culture of purposeful learning. When the next battle comes, when the enemy is at the gate, we will not prepare the luxury, "said the American general.

The Ukrainian General Staff notes that the Armed Forces of Ukraine are grateful for the reception and assistance of the United Kingdom and the United States of America._

АРМІЯ INFORM

The Ministry of Defense of Ukraine held a working meeting to discuss the issues of food for the servicemen of the Armed Forces of Ukraine. The event was presented by Deputy Minister of Defense of Ukraine Denis Sharapov, participated in the representatives of the authorized units of the Ministry of Defense, the Armed Forces, members of the Anti -Corruption Council and market participants. The meeting presented the order of organization and procurement of food products for the needs of the Armed Forces in 2023.

ARMYINFORM

At the beginning of the event, Deputy Minister of Defense Denis Sharapov noted the positive fact of a broad representation of stakeholders of business, suppliers, retailers who responded to the proposal to participate in a work meeting. He announced that the Ministry of Defense plans to announce the bidding on the organization of food for armed servicemen. The attendees were familiar with the basic principles that such purchases would be held.

He also reported that a collegial body was created in the defense department, which will carry out the trading procedures and selection of winners.

APNISINFORM

Maxim Gritsenko noted that at the beginning of a large -scale invasion of food suppliers were critically limited to feed the army that increased significantly.

In particular, the subject of purchasing food kits will be divided into 22 lots, with the compulsory compliance with the principle of "food goes for the military". That is, products must be supplied where the military unit is from the list of the relevant contract.

According to Maxim Gritsenko, it is quite optimistic that multi -companies participated in a working meeting.

The active participants in the working meeting were members of the Public Anti -Corruption Council at the Ministry of Defense.

Upon completion of the working meeting, the representative of the Public Anti -Corruption Council, Olegsirko, noted the constructive position of the defense department on the Organization of Nutrition of the Armed Forces.

- Speaking of a food system, it is advanced. This is, in fact, the system of NATO's armies, which in 2015 was somewhat hurriedly implemented. It is because of the rush that the problems that now lead to scandals have arisen. The army needs to be fed today, and in order to improve the existing mechanisms about their transparency, time and calculations are needed. What I see azaraz is undoubtedly a way forward. Today we have seen the intermediate system of food organizations of the Armed Forces, which still needs improvement. But the design position of the Ministry of Defense in this matter is most important, - said Oleg Sirkо.
