The Ministry of Health continues to inform how to prepare possible emergencies at the Zaporozhye NPP, which is temporarily captured by Russia.

About this [it is referred](#) On the MoH page in Telegram.

The report states that this information **applies only to residents of the 50-kilometer zone around the ZPP** and is not relevant to people who live outside this radius.

The Ministry of Health is advised to make sure that there is potassium iodide in the first aid kit that is useful to reduce the negative impact of radioactive iodine into the thyroid in the event of a nuclear object.

** It is necessary to take the required dose of potassium iodide only after official airborne!

"It is optimal to take the drug after alerting for 6 or less hours of overcoming a radioactive cloud, but potassium iodide remains effective with the receipt of the cloud and 6 hours after it. Not recommended administration of the drug 24 hours after the cloud is received, "the message goes.

Aluminum-antacid sorbents should also be in the first aid kit. ** This group of gas suits contains an active substance aluminum hydroxide and are used for the adhesion of neutralization, binding and excretion of radionuclides from the body, thus reducing health risk.

In addition, it is necessary to take care of the presence of alginates, the active substance - sodiumalginat. It creates a protective barrier on the surface of the liquid stomach content. This barrier prevents the body's dangerous substances.

Also in the first aid kit should be put **sodium bicarbonate**, a remedy for the restoration of the heater state of blood and correction of metabolic acidosis(condition that is characterized by a violation of the chemical balance of acids and alkalis in the blood).

У домашній аптечці обов'язково має бути **маска**, яка є засобом фізичногозахисту для зменшення потрапляння в організм небезпечних речовин.

The right hand of the Russian sub -billionaire Mikhail Shelkov was detained, who directed the export of titanium from Ukraine for the production of Caliber missiles.

About it [reports](#) Security Service of Ukraine.

"These persons organized a scheme of hidden export from Ukraine to the Russian raw materials. There it was used in the military-industrial complex, including for the production of rockets of the type "Caliber", MiG-35 TASU-35 combat aircraft, KA-52 helicopters, "the SBU told.

It is noted that the official position of the detainee is the adviser to the CEO of the CEO of the SUMP-AVISMA, which belongs to the Russian billionaire. Thus, through it, shelkov has established the supply to the Russian Federation of minerals from the depository of the Damurin Mining and Processing Combat. On his behalf, Fedosev arrived Ukraine before February 24, 2022 to control this illegal business.

According to the available data, the organizers of "Schemes" were transported to Russia by almost 11 tons of total value of almost \$ 2 million.

The SBU staff documented the equipment and conducted comprehensive measures to bring its organizers to justice. During the search, the Russian passport and documents with evidence of illegal activity were appeared in Fedseev.

We will remind, earlier investigators of the SBU reported Shelkov and Fedosev of suspicion under Part 3 of Art. 110-2 of the Criminal Code of Ukraine(Financing actions taken for the purpose of a violent change or overthrow of a constitutional order or seizure of state power, change of boundaries of territory or state border).

Наразі суд обрав Федосеєву запобіжний захід у виді тримання під вартою.

The coordination headquarters met with a meeting of native servicemen who were surprised or died during a terrorist attack in Olenivka.

About this [it is referred](#) on the staff page on Telegram.

The questions of close military personnel were primarily concerned with the individual aspects of DNA expertise and the identification of the bodies of the dead. In particular, relatives demanded repeated examinations abroad, since, in their opinion, not in all times the expertise in Ukraine gave an operational and unambiguous result.

In addition, the relatives of the defenders were interested in investigators, according to which criteria, Russian terrorists selected fighters to move to the hangar where Terctact. Investigators explained that the invaders selected people not related to each other: different ages, different military ranks, and difficulty.

"We will be able to say with confidence whether the prisoners who were in the undermined angarra were or were not selected according to certain criteria only after the completion of the necessary investigative actions. In particular, let's look at the crime scene, we extradite the suspects to Ukraine. That is, at least after the de -occupation of the one, "the representative of Azov explained.

The US government will rely on the sanction pressure on the Wagner PEC, headed by Prigozhin to deprive this grouping of the opportunity to sow chaos and violence around the world.

This was stated at a briefing in Washington Coordinator of the National Security Council of White Domudzhon Kirby, Ukrinform reports his own correspondent.

"We will continue to take appropriate measures to limit their ability to sow chaos and violence, wherever they are," Biden's administration said.

He recalled that in relation to [Wagner PVC]]([https://www.ukrinform.ua/tag-pvk-vagnera](https://www.ukrinform.ua>tag-pvk-vagnera)) Sanctions were applied as a transnational criminal unit. At the same time, this military company continues to operate not only in Ukraine but also in Africa, other regions.

The United States does not consider the "inevitable" threat to the Russian troops of the Zaporozhye NPP - despite information about the placement on the territory of the Zinbukhivka station.

This is what the situation at the Washington briefing was described by the representative of the White House Council Security John Kirby, Ukrinform reports his own correspondent.

"I will not resort to specific intelligence - I would say that we are very careful about it, we see these reports," - said the White House representative at the request to comment on the statements of the Ukrainian side about the activity of the Russian troops in the Ministry of Internal Affairs.

He also recalled that the US side has the opportunity to track the level of radiation around a nuclear power plant.

Currently, the settlements of Kherson and Mykolaiv region carry out works of treatment of consequences of the blast by Russia of Kakhovka hydroelectric power station. In some areas, residents return to their homes. About it [reports](#) Ministry of Reintegration of the Occupied Territories of Ukraine.

However, when returning to the housing that was in a flooded state, you need to follow the following tips:

1 . Before you go to the apartment, evaluate its external integrity. Especially supporting structures and walls. Make sure they are not deformed and safe. When moving the apartment, consider the holes in the floor, broken glass and more.

2 . Be as careful as possible. Do not touch the electrical panels, switches, sockets, if they were not well dried, cleaned and trusted by specialists. In case of switching on, they can be struck by electric current or causing a fire. The same applies to the electrical appliances that remain in the flooded home.

Do not endanger your loved ones: You can only get back with your children, well -dried and safe housing.

Remember: to return to the homes that were in the flood area can be more than with the permission of local authorities and emergency response services.

The Ukrainian film directed by Akhtem Seitablaev "Mirny-21" was invited to show in 15 countries.

The correspondent of Ukrinform was told by director Akhtem Seitablaev.

"As for Mirny-21, I recently returned from such a pretty international tour. It was Berlin, Warsaw, Brussels, Strasbourg, where the show took place at the Council of Europe Palace. And now we have an invitation from 15 countries. including with commercial shows. And in each country is several cities.

Therefore, I think that the story with boxing offices and with international division also has signs of a good result, "Seitablaev said, answering questions about the cash meeting of his film.

He believes that the history of cash fees [movie "Mirny-21"](#) - it is a kind of "game in a long". The like experience was with the ribbons "Heytarma", "Alien Prayer" and "Cyborgs", each of which was shown at least in fifty countries in the world, starting from the show in the Senate United States of America ending with Hong Kong.

In addition, the result of the cash collection of the movie "Mirny-21" also affected the number of cinemas from the beginning of a full-scale Russian invasion.

"Regarding the cash collection, let's remember the" Mavka " - 150 million hryvnias. This is given that the real cinemas are now, after the large -scale invasion now, 195 is left. By February 24, there were about 600 of them and it was three times less than required for the number of Ukrainian population. And I imagine the person-195 cinemas in the country collect 150 million hryvnias. We can say a decline of Ukrainian boxing office? Of course, not. That is not. The viewer, "the Ukrainian director said.

*!(<https://www.ukrinform.ua/rubric-culture/3690329-seitablaev-zaaviv-pro-robotu-nad-velikim-proektom-pro-sili-teroboroni.html>)According to Seitablaev, even low cash collection of war films is not an extent that such products should not be produced. On the contrary, now more money and efforts to invest in the Ukrainian film industry, which to build and tell the world, including the current events of the Ukrainian-Russian War.

The former NATO General Secretary, Anders FOG Rasmussen, noted that NATO's Vilnius Samite should receive both security guarantees and a signal to the Alliance membership.

He stated this at a joint briefing with the Head of the Presidential Office of Ukraine by the Irmak for German media representatives on the preparation of

the Parliament Summit and providing security guarantees for Ukraine, Ukrinform reports by reference to [the press service of the Head of State](#).

Окрему увагу було привернуто до пропозицій щодо гарантій безпеки для України, які мають бути надані на її шляху до повноправного членства в [NATO](#).

According to Yermak and Rasmussen, such proposals were set out in the project security agreement, developed by experts of the international working group and published in September 2022.

*!(<https://www.ukrinform.ua/rubric-politics/3727860-ukraina-pragne-otrimati-citke-zaprosenna-v-nato-za-sprosenou-procedurou-ermak.html>)Rasmussen noted that at the Vilnius Summit, Ukraine should receive both security guarantees and a signal on the prospects of membership in the Alliance. He emphasized that he would be in the provision of security guarantees to Ukraine at the summit in July, and stated that the future of the Ukrainian state is in the Alliance, because Ukraine will now build a new security architecture of Europe.

“We need to move to a clear support package and talk about the frame of long -term safe guarantees for Ukraine. Also in focus - NATO membership for Ukraine. I believe that this time will come at the Vilnius Summit,” - said the former Secretary -General.

Talking about defensive support from partners, Yermak noted that the stability of the Ukrainian people and the determination of the armed forces in the fight against the Russian aggressor encourage world leaders to increase the supply of weapons to our state.

“Every day, the Ukrainians, as they go to bed, are not sure whether they will wake up in the morning. But they turn here, at home. They come back. And this prompted partners to give the sky to protect the sky. So in other positions, ”the manager stated.

In this context, he also noted that weapons provided by Germany, including air defense, also help our people. It was reported that on July 11-12 in Vilnius [NATO summit will take place](#).

At all levels, the Ukrainian side emphasized that the assurance that “Ukrainian member of the Alliance”, which were heard during the NATO Bucharest Summit in 2008, was not enough.

Instead, Ukraine raises NATO Allies on the guarantee of security and a clear prospects for the movement towards full membership in the Alliance.

The recommendation of the Venice Commission on the renewal of privileged status after the end of the war of Russia against Ukraine is a major reputational loss for the body itself.

This was stated by Vice Minister for European and Euro-Atlantic Integration Olga Stephanyshyn in an interview [RBC-Ukraine](#), reports Ukrinform.

"The first thing we need to understand in conclusions(Venice Commission - Ed.)Recommendations are provided. Ukraine does not feel obliged to respond to an abbey manner in connection with these recommendations, "the government said.

Commenting on the recommendation of the Venice Commission on the need to renew "privileged status" for the Russian language after the completion of "extraordinary situation", ie war with the Russian Federation, [Stefanyshyn](#) She noted that in the opinion of the Ukrainian side, "it is a large -scale loss for the body itself."

"We do not consider it possible to do this discussion in the plane of some legal nuances at all. In Ukraine, the rights of all national minorities are fully ensured. Deep, obviously, you do not have to immerse yourself here in a question concerning the Russian national minority. I want to pay attention to - in Ukraine a non -organized Russian national minority, "Viceremierka emphasized.

She recalled that the Russian Federation had never defended the rights of the Russian minority, they always spoke of "Russian -nakedness", which should be "protected".

"And in fact, the Venice Commission came out of this Russian narrative. The deepening of us is such an unpleasant story. There is a certain constitutional nuance here, every constitution provides that the free development of Russian and other spots is ensured. The Constitution was approved in the 96th year, with this wording, when memorandums, contracts and CIS, 6 years after the collapse of the Soviet Union, the Derosian language was state. This reality, obviously, in war, we can not change the constitution and so on. All this was explained. It is obvious that this context was to be taken into account, "Stephanishina said.

According to her, each recommendation of the Venice Commission will be discussed.

The Akhasheni Wine and Spa Resort in Kakhetia with the assistance of Georgia in Ukraine and the comprehensive support of the State Youth Agency of Georgia, a weekly summer camp was opened for 46 Ukrainian children from Lviv region.

According to Ukrinform, this is stated on the Facebook page of the post.

It is reported, with warm greetings to Ukrainian children, respected guests: Deputy Minister of Culture, Sports and Youth of Georgia/Acting President Teimurazjanjanjalia, a member of the Georgia Parliament from Gurgjani Mr David Songulashvili.

During the official ceremony, a temporary attorney for Ukraine in Georgia Oleksandr Shulga noted that in the pre-war children, sunny and hospitable Kherson region took the summer and hospitable Kherson. And everyone was plentiful of the Azov Sea near Genichesk and Black near Skadovsk, the sunshine in the Lazuric and Iron Port, and the gentle Dnieper near the Oleshcham was athletes and river adventures. However, the brutal war, resolved by barbaric Russia, thwarted these summer plans, and terrorist acts of military criminals with a managed undermining of the Kakhovka hydroelectric power station has led to a pre-ecological catastrophe, the consequences of which will be signed for many years.

Using the opportunity, the Ukrainian diplomat thanked for the support and assistance of the Georgian people, the Government of Georgia and the local authorities, the deputies of the Georgia Parliament and local councils, and also expressed confidence that after the unconditional victory of Ukraine, all children, all nationalities, and can be resting on both shores. in Ukrainian Crimea, and not only in the hospitable Georgian Kakhetia, but also in the sovereign territory of Georgia of Vabhzia and the Cynval region.

We will remind, on June 23 representatives of the Embassy of Ukraine and the Alliance of Georgian-Ukrainian Friendship on June 23 met with Ukrainian children who are a recreation for Georgia.

President Volodymyr Putin was not true that in the Ukrainian-Russian negotiations, he was allegedly signed a peace agreement in Istanbul in 2022, but Ukrainian abandoned it.

This was stated by the leader of the Crimean Tatar people Mustafa Dzhemilev during the ceremony of raising the Crimean Tatar flag near the building of the Ministry of Internal Affairs of Ukraine, reported by Ukrinform.

"A few days ago, the Kremlin dictator Putin, in front of the heads of the College of African countries, said that in March 2022, a peace agreement was signed in Istanbul in March 2022, and it has terminated and continued its hostilities. Of course, Putin in the usual manner was brazenly lied. I say this responsibly because it was administered at the final part of the talks in Turkey. In fact, we passed on to the Russian side as a condition for the termination of hostilities with the position of the border departed as of February 24. And on the issues of Crimea and the Donbass, the process begins, pledging not to use the force to release these territories. But the next day after the negotiations, Putin stated that there could be no negotiations about Crimea, because it is a territory of Russia, "Dzhemilev said.

The European Business Association considers the national commission proposed by state regulation in the fields of energy and utilities, the marginal level of prices in the electricity market is economically unjustified as possible to review the resolution regulating such prices.

According to Ukrinform, the press service [Eve] reports it(<https://eba.com.ua/vstanovleniya-granychnyh-tsin-negativno-vplyvayet-na-rynok-elektrychnoyi-energiyi/>).

"Experts of the European Business Association have got acquainted with proposals in detail [NERCEP](#) and believe that the proposed marginal prices do not meet market conditions, not economically substantiated and can critically affect the formation of free(market)Bilateral contracts prices, "the statement said.

The EBA states that on June 26, during a meeting of the National Commission for State Regulation in the Fields of Energy and Utilities(NERCEP)The project "On setting marginal prices for a day in advance", the internal market and the balancing market "will be considered, which provides for the establishment of marginal prices in the electricity market.

According to experts and representatives of the business environment, the continuation of the practice of regulating wholesale prices for electricity, as the NERCEP offers, does not contribute to the key principles of the new model of the market, namely the transparency of iconic accidentity, and also determines the functioning of the market in regulated-mandible.

In addition, the level of marginal prices offered by the regulator will not provide sufficient money to finance investments in new generating facilities, which are essential to the Ukrainian energy system due to the current mixture of generation and balancing capacity.

According to the experts of the Association, the establishment of marginal prices of the NERCEP pro -erecting institution is not fully agreed with both European regulation and provisions of national legislation.

"Accordingly, the business calls for a review of the provisions of the resolution and not accepted the level of marginal prices in the electricity market in the current version," the EBA added.

The EU Ministry of Executive Boards could not agree on the allocation of the 8th Packuvian assistance for Ukraine, although they approved a new contribution of the Member States of the Pre-European Peace Fund in the amount of 3.5 billion euros.

This was announced today during a press conference in Luxembourg as a result of EU's RESPONSE COMMINTISTS, EU High Representative Josep Borrel, Ukrinform correspondent reports.

"We have confirmed our obligation to support Ukraine, double the efforts of equipment and training, do everything to support the counter -offensive that Ukraine. First of all, we agreed a very needed application of 3.5 million euros to the European Peace Fund and immediately had to explain that it was not for Ukraine ... Approval of the 8th Package(military - ed.)Help for Ukraine still has not been solved. We worked personally with everyone, trying to resolve this issue as soon as possible, because this package of support for Ukraine remains vital, "Borrel said.

He recalled that additional contributions to the interstate European Fund will be directed, except for Ukraine, to support the partners of the European Union anywhere in the world, including Africa and Western Balkans.

This year, there are 2,000 war veterans and families of fallen defenders and defenders will be compensated for housing.

The Minister of Veterans of Ukraine Yulia Laputina said about it in [interview Ukrinform](#). "When I came to the ministry, there were more than 3,000 families for housing for veterans. And this applies to internal migrants, who became the name of the country at the same time, participants of the ATO, and persons with disabilities as a result of war, and as well as members of the

families of the dead. It was a big challenge for me. During the year, 100 apartments were issued, 50 apartments. We had a meeting with both the President of Ukraine and the Department of Minister. The decision was initiated and made to completely close this. Last year, unfortunately, because of a full -scale invasion, this money returned to the defense [Defense](#), but this year we have this money. Of course, I understand that the price of a square meter has changed, but more than 2000 families from these categories, which we have been guilty for many years, will provide housing, "Laputina assured.

Also, she said, it was possible to buy housing for veterans in the territory of Ukraine, not just at the place of registration.

Sixteen -year -old graduate Darina Vdovenko, who was a single picket against the concert of Svetlana Loboda in Kharkiv the day before, does not believe in her position for her position, which the singer wrote about on her social networks.

Darina Vdovenko said this in a comment to Ukrinform correspondent.

"I see that her post disposes of actions, with what she told me. She is not respected by my position because she asked about [money](#) . As for her behavior, the fact that I was handed by my hand, I will say that no person should treat the other person so much, "Kharkiv said.

Darina thanked the people who expressed her support during a single pile.

"Yes, Loboda's supporters were much more, but there were those who supported me. And I am grateful to these people, "the girl said.

Her parents of her daughter and principle are approved.

"Mom said that, of course, she was not surprised, but very proud. The father also supports, "Darina said.

One of the country's priorities is the restoration of energy infrastructure and reconstruction.

Minister of Finance Ukraine Sergey Marchenko told this in an interview for French media Lesechos, Ukrinform reports, citing [press service](#). "One of our priorities is [recovery](#) the energy infrastructure that became the target of Russian attacks, especially at the beginning of the heating season last year. It is estimated that \$ 3.3 billion will be allocated to protect energy facilities from missile attacks and drones. This need is extremely urgent, as the energy can

be the target of the Russian Federation again, as soon as winter comes, " - said Marchenko.

The second priority of the state, according to him, is housing.

"More than 100,000 dwellings have been destroyed and needed to rebuild \$ 1.9 billion. This is important, in particular, for Ukrainian refugees to return home as soon as possible," the Minister said.

The repair of hospitals, schools and other educational institutions is estimated at \$ 2.3 billion. Needed for transport and logistics.

"It is important to repair roads and bridges now, to develop communications with the Zevrian Union, because it is the only border that we have left," - said.

He recalled that last week at the London Conference of the Donoriva Country was exposed to allocate 60 billion euros for the restoration of Ukraine, but it was necessary to take into account that at this stage it was only an obligation.

Organization “Media Initiative for Human Rights”(Mplex)The murder of two teenagers in Berdyansk is still unknown, but according to her information they were killed by sniper shots.

About it in [Facebook](#) MIPP reported, Ukrinform reports.

"For a few days we have been analyzing the situation and thinking that we, the legal organization, the state of Ukraine and the international community could do to prevent this tragedy. So far, we do not have a response to a cure. Moreover, we are still unknown all the circumstances that led to the death of the honors, "the message reads.

The organization does not exclude that the occupation investigation could intimidate the boys to provoke them to escape and armed detention. Currently, Mipps thinks that the guys could be killed intentionally.

"The occupying bodies could have made efforts to preserve the lives of teenagers, but did not happen. For example, during the "investigative actions" the investigative committee of the statement of Oghannysyan and Khanganova attracted dozens of security forces. Instead, according to our information, Tigran and Nikita were killed by sniper shots, "the organizations said.

It is noted that occupation power [Berdyansk](#) He claims that their murder allegedly occurred as a result of an attack on the "police", which was made by Tigran and Nikita. Information from open sources own sources of MIPP confirms that a shootout in Berdyansk in the evening was really. However, there have not been any confirmations about the victims of the average, which the invaders emphasized. This incident is further investigating and clarifying all the circumstances.

At the same time, the organization emphasizes the importance of context and events, which was overwhelmed by the killing of teenagers.

Since September 2022, Tigran and Nikita, as well as their families have been persecuted by the Russian occupation authorities. The Tigran was stolen from home, for five days they were bouncing and mocking it. He was released only after the announcement of the child to whom the parents succeeded. The family also tried to take out the occupation, but the occupiers arrested the boy and parents and returned to the occupied Berdyansk. In the last few weeks, the pressure has increased. Investigators announced the teenage to prepare a sabotage and planned to transfer the case to court. The investigator arrived in Tigran, but Tigran, together with Nikita fled from home and hid, came to the murder of Tigran. At that time, Tigran called a mother who was in Germany with younger children, asked to help. The boys needed help, but could not find it in a drowsy city.

In the morning on the day of the tragedy of Nikita and Tigran returned home. Immediately the investigator came to them. In the evening, the boys two went out for a walk in the city.

Read also: [In the occupied territory of Ukraine the Russians are massively delayed by non -full -born - human rights activists](#) Half an hour before the firefight report appeared, the mother spoke with Tigran by phone. According to her, he was calm and said that 21:00 plans to be at home. In general, it was clear from the conversation that he was expecting to meet with his family, had plans for the future and, apparently, on his own initiative would take a risky action.

"Further events unfolded, we do not know exactly. However, we can assume that Tigran and Nikita were brought to the pressure of the pelvication of the occupying power and, as it seemed, the hopeless situation in which the people found themselves, "the IPP said

The Media Initiative for Human Rights considers Berdyansk, specifically the senior investigative department of the investigative department of the Investigative Department of the Investigative Committee of the Russian Federation Khusinev IR, as well as the leadership of the Investigative Committee, which, in the opinion and above the military-political leadership of the Russian Federation.

MIPP also does not remove responsibility from international organizations, the Red Cross and the UN International Committee, to which the European Parliament appeared in its resolution the day before, calling to intervene in the situation around the teenage and facilitate their departure into the territory controlled by government. No reaction to this call happened.

Currently, MIPP is expected to increase the pressure and persecution of Tigran Tamykita's loved ones by the occupying power. Therefore, the intervention of the international community, in particular, is relevant. As it was reported, in the occupied Berdyansk invaders declared ["liquidation of two pro-Ukrainian terrorists"]](<https://www.ukrinform.ua/rubric-ato/3727376-zagarniki-kazut-so-vbili-u-berdansku-dvoh-proukrainskih-teroristiv.html>). One of them is 16-year-old Tigran Ogannisyan. Miple notes that the other is killed - Nikita Khanganov.

The network publishes the last [video](#) recorded by Tigran. On it the guy says, "All, it's death, a guy. Farewell. Glory to Ukraine". Then the recording breaks.

Tigran Ogannesian [invaders](#) They were stolen in September 2022. He was accused of terrorism with another teenager, Nikita Khanganov. They were threatened with 20 years.

The European Union monitors the development of events in Russia, which remain unpredictable, since the armed intervention of the Wagner group showed the weakening of the state of Taavtory Putin personally and put the entire political system of the Russian Federation on the border.

This was stated at a press conference in Luxembourg as a result of the Council of Ministers of EU in the abuse of EU High EU Josep Borrel, the Ukrinform correspondent reports.

"We started this day to evaluate the development of events in Russia during the weekend, the unfinished armed intervention was made by Wagner. The situation is complicated and unpredictable, which was from the beginning ... These events have been repaired that the Russian state and Putin's personal authority were weakened, ... The political system demonstrated a break, "the EU High Representative said.

He noted that the EU conducts a strong coordination of actions with international partners, with all 27 Member States and with neighboring countries. Borrel's foundations, recent events changed the nature of the threats that came from Russia. It was more threatened because she could have fallen into the peaceful neighbors who had renovated. From now on Russia It turns into a risk factor, because remaining one of the main nuclear states of the world demonstrates political instability and intransitiveness.

He noted that the clarification of the EU Strategy on Russia in these new conditions was needed.

"Customs officers have found another large cargo of cocaine in a container in Porturordam. There were almost 3,600 kilograms of cocaine between the bananas. This is the most emergency this year, "the message reads.

It is noted that the street value of this batch of drugs is estimated at 269 million euros.

Law enforcement officers suggest that cocaine could be downloaded to Ecuador. However, in their opinion, the company, which is indicated by the recipient of the container, is probably not related to smuggling drugs .

The Russian Federation continues the invading war against Ukraine. Despite the detachable losses, the terrorist state does not give up plans for the complete accumulation of our territory. The enemy continues to ignore the laws and customs of war, uses terror tactics, strikes, fires both military and civilian objects.

This was emphasized by the Deputy Minister of Defense of Ukraine Anna Malyar during a briefing for representatives of foreign media, [reports](#) Ministry of Defence Ukraine.

Anna Malyar noted that last week, unfortunately, there were killed and injured in the civilian population, including children, dwellings and other civilian infrastructure were destroyed and damaged.

"The enemy continues to cause massive rocket and aviation strikes in the territory of the country, combining them with the attacks of Shahd drones 136/131 by the depletion of our air defense system. Last week, the invaders struck 95 rocket launchers and 262 aviation strikes, "the Deputy Minister of Defense of Ukraine said.

Anna Malyar also informed about the operational situation in all areas of hostilities.

"In the Volyn and Polissya directions, the operational situation without significant changes. The enemy retains military presence in the border areas in order to dispose of the transfer of our troops to other directions. Continues

the shelter of seizures from the territory of the Russian Federation, provides provocations on the state border. At the landfills of the Republicbiller, measures of combat training and coordination of units of the Armed Forces of the Russian Armed Forces before being sent to areas of fighting in the territory of Ukraine, "said Anna Malyar.

According to the Siversky and Slobozhansky directions, according to the Deputy Ministry of Defense, the Russian Federation also retains military presence in border areas with Ukraine.

"The enemy holds two -way groups of UVs in the border areas of Bryansk and Kursk regions(with)"West" in order to shake our troops and prevent movement. Continues shelling of settlements from the territory of Russian federation and sabotage and intelligence activities, "said Anna Malyar. The enemy tries to displace our troops out of positions, but it is not available.

"The enemy last week in the east made 6 457 shelling and release 315 006 ammunition. At the same time, in the east, our troops began to offensive actions in the areas of Orikhovo-Vasylivka, Bakhmut, Bogdanivka, Berryny, Hlyshchiivka and Kurdyumivka at the end of the week. At each of the direction from 1 to 2 km.

The troops are now being fixed on the reached boundaries and continue to the destroyer, "Anna Malyar said.

She also added that last week in the south, the situation of significant changes was not wondered. The forces of Ukraine continue to conduct an offensive operation of the Tselitopol and Berdyansk directions. A week as a result of improving the operational(tactical)The position and alignment of the front line increased storage of the liberated territories by 17 square meters. km. In general, since the start of the submoned area is 130 square km .

На Таврійському напрямку ворог протягом минулого тижня 148 разів атакував наші позиції. За минулий тиждень на Таврійському напрямку зафіксовано 3861 обстріл. Ганна Маляр підкреслила, що якщо скласти обстріли сходу і півдня, то вийде більше ніж 10 тисяч обстрілів за тиждень, тобто це щохвилини цілодобово.

Підрозділи ракетних військ і артилерії Сил оборони Таврійського напрямку протягом тижня виконали 8783 вогневих завдання. російські окупантійні війська чинять потужний опір, водночас зазнають значних втрат в особовому складі, озброєнні та техніці.

За словами заступника Міністра оборони, загиблих серед наших воїнів за тиждень 8 разів менше, ніж у ворога. Українська авіація, ракетні війська та артилерія за минулий тиждень завдали понад 110 ударів по районах зосередження особового складу противника, знищили 17 зенітно-ракетних комплексів ворога, завдали ураження по 11 пунктах управління, що значно знизило можливості ворога щодо ураження нашої авіації і БПЛА.

«Також українські захисники уразили 7 складів боєприпасів ворога та знищили сотні одиниць ворожої техніки, серед яких танки, артилерійські системи, гелікоптери, приміром два ворожих Ка-52 та Mi-24, а також 48 із 51 іранських ударних БПЛА типу Shahed-131/136», — зазначила Ганна Маляр.

The Russian Federation continues to wage conquest war against Ukraine. Despite numerous losses, it doesn't refuse from plans for complete occupation of our territory.

On the border with Belarus on Volyn and Polissia directions the operational environment has not significantly changed. The enemy maintains military presence in the vicinity of bordering areas in order to prevent redeployment of our troops to other directions. It continues shelling of localities from the territory of the Russian Federation, carries out provocations on the state border. There are no markers of offensive formation establishment. On the training field of the Belarus Republic units of the Russian Federation continue training and coordination before the deployment to the Areas of operation on the territory of Ukraine.

On the border with the Russian Federation, on Siversk and Slobodzhanshchyna directions the enemy also maintains its military presence in the areas bordering with Ukraine. In bordering regions of Briansk and Kursk the enemy has two operational groups of the troops formation Zapad with the purpose to hamper our troops and prevent their maneuver. It continues shelling of residential areas from the territory of the Russian Federation and continues sabotage and reconnaissance activity.

East

On the East Defence forces of Ukraine conduct both defensive and offensive operations and have tactical success. The enemy continues its offense on Lyman, Bakhmut, Avdiivka and Mariinka directions. Severe

hostilities are taking place there. During the last week there were up to 250 combat encounters on these directions. The enemy is trying to push our troops back from the taken positions, but unsuccessfully. During the last week on the East the enemy inflicted 6456 shelling and launched 315006 pieces of ammunition. At the same time at the end of the week our troops began offensive in the vicinity of the Areas of Operation Orikhove-Vasylivka, Bakhmut, Bohdanivka, Yahidne, Klishchiivka and Kurdiuvka. Advance on every direction varies from 1 to 2 kilometres. Now troops are trying to set on reached lines and continue to destroy the enemy.

South

The situation on the South hasn't changed drastically during the last week. Defence forces continue offense on Melitopol and Berdiansk. During the week via improvement of the operational and tactical situation and through levelling of the front line the area of the liberated territories expanded on 17 square kilometres.

In general terms since the beginning of offensive liberated area reaches 130 square kilometres.

On Tavria direction during the last week the enemy has attacked our positions 148 times. Units of missile troops and artillery of Defence forces on Tavria direction have completed 8783 fire tasks during the last week.

Russian occupation forces resist severely, simultaneously they suffer personnel, weaponry and equipment losses.

Losses of the enemy

We have 8 times less losses than the enemy. During the last week our aviation, missile troops and artillery inflicted more than 110 attacks against enemy's assembly areas, destroyed 17 surface to air missile complexes of the enemy, attacked 11 command posts of the enemy (which reasonably decreased enemy's capability to attack our aviation and UAVs) and engaged 7 ammunition depots of the enemy.

Moreover hundreds of enemy's equipment are destroyed, including tanks, helicopters, artillery systems.

For instance 2 enemy helicopters Ka-52 and 1 Mi-24, as well 48 from 51 Iranian attack UAVs Shahed-131/136.

Despite the undermining by the Russian occupiers of the Dams of the Kakhovka hydroelectric power station, the situation is stable and controlled. A slight decrease in the level of the level in the cooler rate is recorded. It is currently 16.58 m. This is sufficient to ensure the needs of the station.

About it [reports](#) Headquarters for the elimination of consequences of Kakhovskaya hydroelectric power station.

The water level in the TPP channel, from where the ZPPP is fueled, if necessary, is 11.15 m. It should be noted that recently the water level in Canalis is not falling, its indicators are no longer dependent on the Kakhovka reservoir.

It is worth recalling that the NPPS power units have not operated since September 2022, and there is no active evaporation of water from the cooler pond.

Greetings to the graduates of the Taras Shevchenko Military Institute, Braian Menness, a maider-Major of Liberty Fort, the United States Armed Forces.

I want to express my gratitude to the brigade General Anatoliishevchenko for the opportunity to share with you a few tips, as Vasaclas prepares graduates who, while risking their own lives, take on a sensotement to perform tasks that will undoubtedly help protect Ukraine.

I recently dismissed the deputy commander of the 18th Airborne Corps. At one time, we were a unit of the US Armed Forces, which supported the Armed Forces of Ukraine from February to December 2022. The armeds of Ukraine and the people of Ukraine were incredibly impressed by us.

In 2000, more than 23 years ago, I participated in one of the first exercises with the program "Partnership for Peace" in the west of Ukraine, near Lviv, he drew for joint strategic planning together with the then commander of the Armed Forces, Colonel Ivan Yakubts. For me, this was a good experience. Comparing the condition of your army then and now, I am amazed at how much the armed forces of Ukraine have strengthened, in particular, thanks to such co -wanders as you.

More than 35 years ago, I graduated from the Academy in the West Point. Among the Academy's immigrants, there is a belief that if the release ceremony rains, the graduates will be war. In our case, the belief has come true. For more than five years, he managed the fighting in Iraq and Afghanistan, and also answered for planning the actions of the combined command of special operations of the efficiency of the deployment in these countries. He also performed the duties of the battalion and brigade in the 82nd Airborne Division, the first Ranger battalion and the 10th Mountain Division Commander.

I acknowledge that I did not have such combat experience as the one that is obtained in Ukraine, however, I am deeply convinced that there are inviolability that commanders should possess: * be technically aware. Commanders should be experts in their field;

The world is not in place, as well as the challenges we face. Commanders should be open to new knowledge, master new tactics, technologies of Tastrategy. The training should be continuous.

And most importantly, commanders should be true to their country and always hold their word. The devotion and purpose of military service should not be in doubt.

Your main motivation should be to protect and defend the provisions of the Constitution of Ukraine. In difficult times, military duty and protection of your country are the main call. You are all doing right if you enjoy the time spent on the service. Be careful to the servicemen and educate the subordinates who will appreciate your command qualities.

The power of the army is in its unity. Successful completion of the task is always a common mate.

Finally, take the time to remember those who served us to be sacrificial immune and invaluable experience of which is now an important lesson for us. Honor them do their best to preserve the principles they fought for. I will consider that you will be guided by these tips during your service. Beat, strong and worthy.

Thank you for the opportunity to greet you. I really admire you!Good health to you!!I pray that one day in Ukraine there will be peace.

Minister of Law of Ukraine Dmytro Kuleba

The raid of Wagner units on Moscow clearly demonstrated the weakness of the regimen. Provision of the necessary military assistance, strengthening of

sanctioning and determination of the international community will defeat Russia in its military against Ukraine and the democratic world.

About it [reports](#) Foreign Ministry of Ukraine.

"On Saturday night, we saw not the finale, but only a break in the next act of Putin's vertical. Russia is weaker daily. It is critically important to infect Ukraine with all the necessary weapons, especially artillery systems, Tasnards and missiles, to strengthen international sanctions in the fields of nuclear energy, digital technologies, the sale of diamonds, marine logistics and financialns. We should also prevent Russia from causing missile strokes on Ukrainian places, first and foremost a global ban on the supply of dual - purpose goods for Russian rocket and drone industries, "Dmitrykuleba said.

The Minister has called on the US to accelerate the process of training in Ukrainian pilots and technicians as much as possible and transfer to Ukraine the Western model aircraft: "Together, all these steps will be released by all Ukrainian territories."

He also greeted the EU decision to increase the European Peace Fund's Budget to EUR 3.5 billion, which will help not only provide long-scale supply of military equipment for Ukraine, but also develop the Ukrainian-European Defense Industrial Alliance. According to the minister, a special event will take place in Ukraine near Ukraine, which is the beginning of such a long -term defense cooperation.

Finally, Dmitry Kuleba told the European Ministers of the Foreign Sentences of two Ukrainian teenagers from Berdyansk Tigran Ogannisyan and Mykytikhanganov, who gave their lives in the fight against the Russian occupation: "Ukraine will certainly win because it is protected by such heroes as Tigran Tamykita. Glory to Ukraine!".

Today is an important day for the indigenous Crimean Tatar people - the Crimean Tatar flag.

About it [reports](#) Office of the President of Ukraine.

“Blue cloth with golden tamaga is a symbol of centuries-old struggle of Crimean Tatars for their freedom, their unity and continuity of generations. He was a proud people through all the vicissitudes of the twentieth century: in the momented-liberation competitions of 1917-1921, in exile after 1944, accompanied the people in their homeland in the late 1980s-early 1990s. In 2014, the blue flag with a golden tamga became a symbol not only of Crimean Tatars, but the resistance of occupation. And now, along with the state flag, the Crimean Tatar Star is proudly worn on chevrons by Ukrainian soldiers, who fight for our volatility and the opportunity to return home to the Crimea. Congratulations to the Crimean Tatar Flag! Unity and strength. We do our best to make Crimea free from occupation and Procrims can be fluttering freely where they belong!», - the message reads.

Leading higher education and Ukrainian Peace Council combined efforts to establish a just peace, unity in Ukraine and abroad, on the basis of the Ukrainian peace formula. To do this, the other day in Kiev they signed the Salvation Agreement.

The history of the Ukrainian Peace Council begins in 1951, when the Ukrainian Republican Peace Protection Committee was established in the

midst of Kholodnovyna, whose activities were based on the principles of universally recognized values: peace, freedom, equality.

Since 1991, the committee has been transformed into the Ukrainian Peace Council. Near the Vitkov -Ukrainian Peace Council were prominent representatives of the scientific and creative intelligentsia of Ukraine, such as Maxim Rylsky, Pavel Tychyna, Leonidpervoimaisky, Mykola Semenenko and other famous personalities.

АРМІЯ INFORM

**

The main purpose of the organization throughout its history was and remains - the union of the public's efforts to establish peace and harmony in Ukraine in Ukraine.

**

A special challenge for the Ukrainian Council of Peace was the aggression of the Russian anti -Ukraine, which began in February 2014 and grew into a large -scale statements of the Russian Federation. Therefore, the Ukrainian Council of Peace has new tasks:

1 . To continue the social and public activity of the organization on the basis of the Ukrainian formula of the President of Ukraine Volodymyr Zelensky;

- 2 . To intensify cooperation with humanitarian and peacekeeping organizations of the UN, such as UNESCO, Red Cross and others;
- 3 . To intensify the activity of an organization aimed at expanding the International Coalition of Ukraine's support in the war against Russia;
- 4 . To contact the UN Non -Governmental Committee on obtaining corresponding status under the UN Economic and Social Council;
- 5 . Through the public society of different countries of the world to spread the truthful information about Russia's aggression and its genocide against the Ukrainian people;
- 6 . To envisage in the organization of the organization a system of measures to support the Volona movement and to provide comprehensive assistance to the Armed Forces of Ukraine;
- 7 . Launching the youth wing of the Ukrainian Council with the involvement of progressive youth;
- 8 . To continue the practice of awarding prominent public-political figures of Ukraine and other countries of the world "Order of Peace of URM";
- 9 . In the postwar period, to launch a series of "round tables of peace" with the participation of representatives of civil society, bodies of state administration of Ukraine and leading peacekeeping organizations of peace. Therefore, to achieve these tasks during a meeting in the Ukrainian State University named after Mikhail Drahomanov, heads of leading Ukrainian universities - Taras Shevchenko National University of Kyiv, National Technical University of Ukraine "Kyiv Polytechnic Institute named International Scientific and Technical University named after Yuri Bugay-as well as the National Academy of Pedagogical Sciences of Tanational Center "Small Academy of Sciences of Ukraine" together with the public organization "Ukrainian Council of Peace" signed an agreement on cooperation with the "Combination beyond, on the basis of the Ukrainian formula of peace. "

The rector of the National Technical University of Ukraine Kyiv Polytechnic Institute named after Igor Sikorsky and in combination, the head of the Ukrainian Radimir Mikhail Zgurovsky told the correspondent Armyinform about how a public organization, designed to establish the right peace and approximation of the victory of Ukraine.

The purpose of signing the agreement is to consolidate efforts for more powerful promotion of organizations through the educational environment, in particular through the youth wing. The Osvitan wing of the organization is a very important component that has a variety of measures, in particular in the international arena. Also, we had a manner between our organization and the Ukrainian-Polish Information Forum to submit to the general public of Europe in our ideas. And now our materials are published on these sites. Since May, more than 15 conceptual materials have been published before May, Mikhailozhurovsky said.

Another informant of the Russian Federation was detained, who was collecting intelligence on the defense of the Ukrainian NPP. This is the second exposed agent of the Russian special services that "hunted" this strategic object in 2023.

About it [reports](#) press service.

According to the investigation, the hostile associate was a resident of the South Ukrainian, whom the Russian intelligence service was involved in cooperation in May this year.

In the field of view of the enemy, he got through his pro-Kremlin posts in one of the Reliase Telegram channels.

The attacker collected and transmitted the enemy information about the places of base of defense units that protect the South Ukrainian nuclear power plant. In particular, they were interested in the exact coordinates of the deployment of military forms that provide defense of the NPP and satellite city of Yuzhnoukrainsk.

Russian "curators" paid money for their tasks. According to preliminary values, the person involved received from the enemy in total almost 9 thousand UAH for the completion of the previous tasks.

The attacker was detained during an attempt to convey the coordinates and photographs of one of the same objects. The detainee seized a mobile phone with evidence of the work activity.

On the basis of the evidence of the person, the defendant was informed of the suspicion of the unconventional dissemination of information about the referral, movement of weapons, weapons, combat supplies to Ukraine, movement, movement or placement of the Armed Forces formed by the military formations formed in accordance with the laws of Ukraine.

The attacker is chosen by a preventive measure - detention.

The military personnel of the Armed Forces of Ukraine are training vital scarecrows to save lives on the battlefield in their first -of -a -kind training, which is conducted by the British army and its international partners.

This is stated in [message](#) British government.

During the five -week course, which began on May 29, the current and new medical for the Armed Forces of Ukraine taught critically important methods, such as the provision of medical care, control of great blood loss and providing urgent emergency care at the pre -hospital stage.

Testimony from the battlefield and the inquiries of Ukrainian staff were included in the pre -programs, and the trainees were informed about how best to optimize their health so that they were ready for battle.

Listeners continue to test their knowledge in practice in combat scenarios to get confidence in the effective use of their first -time skills. They include:

"This world -class medical training is another fantastic example of how the UK's armed forces and our international partners are successfully working to support Ukraine's struggle against the illegal tassel invasion of Russia. Our support of Ukraine will last as much as it will be required; From providing combat training to free transfer of equipment and ammunition, which Ukraine is urgently needed, "said the Deputy Secretary of State of the Parliament of the United Kingdom and Northern Ireland for Defense, Veterans and Families of Merrise.

In recent days of study, Ukrainian servicemen will learn to provide the first medical assistance to other military personnel of the Armed Forces of Ukraine post -repair.

An armed revolution attempt with Yevgeny Prigozhin is a continuation of serial -political conflicts in Russia. In general, what is happening there is the censorships of the Russian criminal large -scale invasion of Ukraine. Mipoda was the unwillingness of security officers, officials of different ranks to publicly

protect Putin, no citizen of the Russian Federation voluntarily went to the defense of Putin.

This was announced on the national telephone by the representative of the main management of intelligence of the Ministry of Defense of Ukraine Andriy Yusov.

Andriy Yusov emphasized that it is important to understand today that this process is still incomplete. The voiced and real goals of Prigogine's campaign to Moscow could differentiate, as well as the voiced and real conditions of arrangements. It is necessary to observe further events, including personnel changes in the territory of the Moscow region, the fate of participants in these processes, then it will become clear who really won it.

The Cabinet of Ministers of Ukraine has allocated the Ministry of Veterans of

Ukraine 200 mLN 633,87 thousand hryvnias for the reconstruction of the Borodyan Center for Social and Psychological Rehabilitation of the Population, which belongs to the sphere of management of consciousness.

The relevant decision to allocate funds from the Fund for the elimination of the consequences of armed aggression was made at a government meeting.

Borodyanka-Center is the flagship project of the Ministry of Veterans, and the active construction of which is supported by the partners of the Ministry. It should appear on the site of the tank hit by the Russian invaders of the Center for Social and Psychological Rehabilitation of the Population in the town of Borodyank(Kyiv region).

Цей заклад забезпечуватиме надання комплексних послуг із психосоціальноговідновлення не лише ветеранам війни та їхнім сім'ям, а й постраждаломуцивільному населенню. До того ж, відновлення бородянського центру патронує Президент України Володимир Зеленський, який вже віддав на його відбудову стотисяч доларів — грошову винагороду, яку він отримав разом із Медаллю Свободи, котру вручають в США видатним світовим діячам.

«Дякую керівництву держави та Уряду за підтримку цього дійсно важливого проєкту! Ми залучаємо та акумулюємо кошти наших і національних і міжнародних партнерів на цей проєкт, і відкриті для співробітництва у відбудові нашого Центру», — зазначила міністр у справах ветеранів України Юлія Лапутіна.

About this Deputy Minister of Defense of Ukraine [wrote](#) In his telegram.

"The task of the Russian Federation is now to stop our offensive at any cost. Blasting of dams, replacement of fields, continuous shelling, diversions,

information and even "nuclear" rhetoric. This is a maximum task. The minimum is to stop, then to significantly complicate and slow down our promotion and in the meantime to prepare our own counter -offensive. The motivation to "not lose" the occupied lands will be carried out much more than the motivation to "capture" our lands. Because it is their permanent trauma, "the message reads.

Anna Malyar noted that the occupiers are psychologically easier to tolerate an unsuccessful effect than the loss of the conquered lands. It demoralizes and demorates them.

"They will then not collect their army themselves, because the fighters, like in Kharkiv region, began to refuse to comply with orders. So we have to understand that. It is really difficult for our war. Very. But they move forward. Confidently. Ajami we wage a just war. And this is our power, "the deputy minister emphasized.

On June 24-25, the second annual Drone Hackathon "Anti-Shahed" took place. During the time, 50 teams presented projects for security and defense forces. According to the results of the ratings, three winners were selected who presented the most effective and most effective projects. Each will receive \$ 1 million for realization and scaling of technological developments that will help fight Shahmed.

About it [reports](#) Government portal.

"In the war, it is important to understand what is happening on the battlefield and to propose technological solutions. We see how the situation on the front changes in direction. How important are UAVs, satellite communications, situational identity systems. The picture of the battle changes. Fast decisions need to be made to realize effective ideas. It is now critically important to create alternative counteraction to Iranian Shahane. We have cool cases with the army of drones, when not only foreign drones, but also UAVs of domestic production were supplied to the front. Similar to the development of systems of protection of the Ukrainian sky, "said the Vice Prime Minister for Innovation, Education, Science and Technology-Minister of Digital Transformation Mikhail Fedorov.

The winners of the drone hackathon "Anti-Shahed" will conclude contracts for 1 million donors. The funds will go to the development of development as soon as possible, which destroy the wicked drones in the Ukrainian sky. New technologies will help fight stars Shahas so that you do not spend powerful resources for the Air Force.

"In fact, the Ukrainian infrastructure is being attacked by Iranian drones. Only at least 400 Shahaneda has been launched in May. In total, at least 1,200 percussion was launched in Ukraine last year. Ukrainian experts are able to amaze the world and efficiently counteract. Our task is to support the developers, to create speeches for mass production of alternative systems of counteraction to Iranian shivedam, "-said Oleksandr Kubrakov, Vice Prime Minister for the Restoration of Ukraine-Minister of Development of Ukraine-Minister of Communities, Territories and Infrastructure. That is why it is critical to us to create alternatives to counteracting Iranian shivedam.

"It is important to use not only available weapons, but also new samples of equipment for the Armed Forces of Ukraine. Our enemy does not sleep and develops a tav perfect its technologies. This also applies to the shamed attack on Ukraine. Each is individual. Therefore, in order to constantly counteract new attacks of UAVs, we need to introduce new systems to identify, identify and destroy goals. I am sure that every idea proposed by Nahaktone has every chance of working for victory, "Vladimir Koval, General General of Ukraine, said.

The Drone Hackathon "Anti-Shahod" brought together developers, engineers, cyber-specialists and enthusiasts who create advanced systems and technologies to identify, track and destroy enemy drones. Project specialists

of different genera and types of troops, military structures and digital technologies were evaluated.

"When a new modern idea is being put into practice, it is an effective surprise for our enemy. According to available information on the territory of Russian, UAV production plants are actively built, and therefore the percentage of new Dronovpovp attacks will increase. With each attack, the enemy analyzes his or her bug works constantly on changing tactics. Therefore, the first thing that can be implemented as quickly as possible is the system of detection of enemy drones and, of course, their prompt destruction, "said Anatoliy Krivonozhko, Lieutenant General, Commander-General, Commander-in-Chief of the Center.

"Every great war sets new trends in the development of military technologies. First -Ass to create a war of tanks. The second is aviation. This war has shown that the wars of unmanned aerial vehicles will take place at the next decades. That is why we need to create these modern technologies to overcome the enemy on the front today and to protect our territories in the closest, "said Yuri Shchigol, Head of the State Secretariat of Communications.

We will remind, earlier within the army of drones we have already held the first Drone Hackathon. The 30 formed teams, which presented technological solutions in the development of the BLPL, 6 became winners. In half a year, they embodied their ideas into a product that was repaired at the landfill.

The Drone Hackathon "Anti-Shahed" is implemented on the initiative of the General Staffing Forces of Ukraine, the Ministry of Defense and the Ministry of Infrastructure within the project of the Army project and is aimed at finding innovative and effective solutions in the fight against non-floodstretics.

I wish health, dear Ukrainians, dear Ukrainian women!

Today is the front. Donetsk region, Zaporizhzhia. Our warriors, our leading positions, areas of active action at the front. Today, in all directions, our

warriors were moving forward, and this is a happy day. I wished the boys more of such a day.

He was in Khortytsia units, which were distinguished in the Bakhmut battle, heroically distinguished. Well done, warriors! Then - in our marines, very powerful, very acute. Thank you for trying to protect the lives of our soldiers. Then - Tavriya, south, front. A busy day, many emotions. He was honored to reward our military, to thank personally, to shake his hand. Thank you for all your words support, guys! Thank you for the arms - very warm - everyone today. And thank you chevrons. This is extremely honorable for me, we will talk about every chevron. All our warriors - from a soldier, sailor to General - Well done!

He handed over two gold stars of the Hero of Ukraine-Captain Oleg Oliy, commander of the 81st Separate Brigade of DShV, and Major Sergey Dudin, deputy commander of the Marines Battalion of the 35th Separate Brigade. Really majestic, I thank you!

Meetings with generals. Zubanych, Tarnavsky, Sodol, Syrsky. Several operational solutions. Once again, the creation of the Marine Corps, all, clear, absolutely understandable: organization, training, supply. More infantry and all the elements of our defense forces are strengthened, this is necessarily.

Yesterday - negotiations with partners, in particular with President Biden, primarily the offer of weapons. And today - where this weapon will give more power, more protection of the lives of Ukrainians. And it will bring our victory. This is the main thing. All our land will be free - absolutely everything.

I thank everyone who is now in battle for Ukraine, who is preparing for battle, who assigned tasks at combat posts. Everyone who recovers after injuries. All who trains our warriors! Thank you! I am proud of you all! Glory to you, cheegers!

And the eternal, light memory of everyone who gave their lives for Ukraine, everyone is too much!

Glory to Ukraine!
