The political crisis in the Russian Federation was predictable and inevitable.

About this [deputy](#) The Minister of Defense of Ukraine Hannamars wrote in her telegram.

Anna Malyar emphasized that Ukrainians can regard events that have begun asleep as the inevitable degradation of the Russian state.

For Ukraine, this is a window of opportunity, but it is not necessary to relax, it is better to be careful and prepared for any scenario.

"We are working on our strengthening and victory," she said.

The Deputy Minister of Defense noted that the imperial campaign on new lands could not cover the internal problems in the state - only aggravating. What is Ivid. Whatever the state they build, they still get a "gulag", which sooner or later rebels and breaks down.

"The war in Ukraine has shown the weakest place of the Russian Empire - fear of preference. All their solutions are based on lies. They always created "air locks" for the king and believed in them themselves. This is such an imperial feature - to indulge in your own grandeur and overestimate yourself. This was prompted by a completely adequate decision - to solve the war with Ukraine without systematic truthful calculations of their own capabilities. Exclusively ambition and arrogance. The price of this non-governmental solution is the fate of Russia itself. They are fighting with us and destroying themselves, "her post reads.

Anna Malyar emphasized that if you look globally at this as an evolutionary process, then a non-viable system launched a self-destruction program. There is no conspiracy or world conspiracy. These are natural processes.

"They will destroy themselves as a state in this form, and we will naturally defeat themselves, are painfully ready to move forward. We are a nation that now creates a new type of culture in the world. To us - culture always lost barbarism. We prove that you can be strong, protect yourself and remain civilized. Therefore, the future is behind us, and Russia is the past, " - summarized.

Military Folders of mercenaries from Wagner PEC, led by Yevgeny Prigogin, against the Kremlin -making "cracks" in the power of Russian President Vladimir Putin.

This was stated by US Secretary of State Anthony Blinken in an interview with the US media.

According to Blinken, the uprising of Prigogine against Putin emphasizes that the decree of the Russian leader also invaded Ukraine in his country.

"If you put it in a context 16 months ago, Putin was on the threshold of Kiev in Ukraine, trying to take the city in a matter of days, to wipe the country from the map. Now it was to defend Moscow, the capital of Russia, against its own mercenary," - said Blinken in an interview [ABC News](#).

"So, I think it is obvious - we see how cracks appear. Where they will go, if they go, when they leave, it is very difficult to say. I do not want to speculate this," Blinken said, adding that "I don't think we saw the final act."

"So much everything under the surface has now expired the premiums of the preconditions for war, in terms of war, the view of the view that it really brought Russia," Blinken said.

"Since Russia is now being released, Putin has to worry about what is happening in Russia, as well as that he is not trying to make in Ukraine. I think this creates an additional advantage for Ukrainians," said.

"The fact that you have from the inside a person who directly casts doubt on someone's fulfillment directly calls into question the prerequisites on which this aggression was started against Ukraine. This in itself is something very powerful. This is adding. Where they go when they appear, it is too early to speak, but it raises new questions that Putin will have to deal with," the US Secretary of State. **Read also:** [The world has seen that Putin's power can be swept inside -Esonic parliamentarian](#) On the air [CBS News](#) Blinken stated that he had raised deep questions about this incident himself as a prerequisite for Russian aggression against Ukraine during the whole incident, saying that Ukraine or NATO had no threats to Russia, which is part of Putin's narrative. "And it was Putin's direct call. So it raises deep questions. It shows the realist region," he said

Blinken also suggested that the threats to Putin's authorities, caused by non-precedent events may not have ended and may last weeks or months. He also called Prigoine a "growing thunderstorm" within Russia.

As it was reported, the leader of the Wagner PEC Yevhen Prigozhin announced Demarch against the Russian military leadership, including against the Ministry of Defense Sergei Shoigu. He took control of Rostov-on-

Don and part of the Okronezh region, after which the Wagnerivtsi went to Moscow.

First. Of course, we discussed the fighting on the forefront, our active actions. Heads for partners for supporting - she is very important and really helping the warriors to move forward. Now Russian invaders are suffered by the losses that they need. Each loss of them is a long -term increase in freedom.

The Embassy of Ukraine in the State of Israel has called on the Israeli government to change its position on the Russian Federation and support Ukraine with defense means in the fight against a raiding.

This is stated in the post of embassy in [Facebook](#) , reports Ukrinform.

"The Embassy of Ukraine in [State of Israel](#) He regret stresses that the current government of Israel has chosen the path of close cooperation with the Rivne Federation. This is evidenced by a number of rather contradictory events that have been given in the first half of 2023 and which coincided with the almost complete reference of Israeli humanitarian aid to Ukraine, "the presentation reads.

Among these events, the Embassy notes "The Ruture Visit of the Ministry of Foreign Affairs of Israelud of Ukraine in February this year and a number of interviews by Prime Minister Benjaminethanetanias of Israeli media, in particular, with The Jerusalem Post dated June 22."

"First of all, all the relevant statements of the Prime Minister of Israel have always been focused on justifying Israel's inaction in providing a defense assistance for the last 1.5 years. Initially, the arguments were concentrated by Israel's relations with Russia in Syria and the fragile position of the Jewish Power Plant in the Russian Federation. However, in the last interview, the assumptions have been presented and speculative assumptions that suggest the transfer of Western combat from the battlefield in Ukraine of Syrian and Iranian regimes, "the statement reads.

The Embassy also reminds that the Israeli government has recently successfully conducted the high level of political negotiations at the Ministry of Foreign Affairs of Russia. In addition, the Embassy notes the neglect of the moral boundaries by many Mimalian officials who took part in the diplomatic reception of the Russian Embassy in Jerusalem a week ago. In particular, the MSIZRAIL ignores Putin's regular anti -Semitic statements.The embassy also added that as long as the Ukrainian people, including its significant community, are flowing blood through the attacks of Russian missiles and Iranian non -Vaspilots, the Israeli leadership, covering themselves with verbal demagogic of their neutrality, actively establish relations with the Russian Federation.

The Embassy emphasizes that the "neutrality" of the Israeli government is regarded as a significant pro -Russian position.

"Unfortunately, the Israeli government has little attention to the opinion of its own people and the ignorance of the world Jewish diaspora, which unambiguously supports Ukraine in its combat with Russian state terrorism. We urge the Israeli government to change our position and support Ukraine with defense means, to support it with Russian state terrorism, "the Embassy of Ukraine summarized the statement.

Sappers are those brave servicemen who are the first to go everywhere to change the territory. But infantrymen should also have basic knowledge of how to properly recognize mines and how to act if they come across them.

Defenders of one of the individual mechanized crews in breaks between fearing such training measures to constantly improve their skills.

- Given the current situation, we are constantly neutralizing or installing, - says Saper Igor. - Sometimes it turns out that in a month we do not have a daily day off, because there is a lot of work. If we are tasked with changing a certain area, then we need to immediately understand that it is quite a large cut of the territory.

[!\(Images/APMIRINFORM/2023-06-25T56-00-00-04-00/foto-2-18-150x150.jpg](!/(Images/APMIRINFORM/2023-06-25T56-00-00-04-00/foto-2-18-150x150.jpg)

The sapper also says that before getting a job for work, the intelligence officers who check the territory that must be replaced will be first released.

According to him, they are constantly confronted with the enemy's special concern and meanness. After the release of the right bank of Kherson region, the residents of the de -industrial villages were asked to change their homes.

- It was in the village of Truhine. In fact, it is quite difficult to exchange people's homes, because it was there that we were expected from the occupiers in the most unexpected places. One of these cases happened when a woman called us home. The enemy expelled her and lived in the hut. When they entered the house, seven stretch marks were noticed. After that, they examined everything very carefully, and the Kidam seemed to have nothing left, then our attention was attracted by the hell. As it turned out, they were replaced. The inhuman is simple, "Igor recalls.

Now the main task of the Sapper platoon is to teach in the most shortermines of Ukrainian infantrymen to distinguish between mines and in a critical situation to harm them.

- When we are not on the departure, it means that we have to learn something new. Training from sappers is really useful for us, because the hospital is always "at zero". The knowledge gained allows you to save life and health. The more and better we will train and learn here, the more we will be able to stop the enemy on the "front", - says the Pichotinets with the call sign "Ali".

The Ministry of Health continues to inform how to prepare possible emergencies at the Zaporozhye NPP, which is temporarily captured by Russia.

About this [it is referred](#) On the MoH page in Telegram.

The report states that this information **applies only to residents of the 50-kilometer zone around the ZPP** and is not relevant to people who live outside this radius.

The Ministry of Health is advised to make sure that there is potassium iodide in the first aid kit that is useful to reduce the negative impact of radioactive iodine into the thyroid in the event of a nuclear object.

\*\* It is necessary to take the required dose of potassium iodide only after official airborne!

"It is optimal to take the drug after alerting for 6 or less hours of overcoming a radioactive cloud, but potassium iodide remains effective with the receipt of the cloud and 6 hours after it. Not recommended administration of the drug 24 hours after the cloud is received, "the message goes.

Aluminum-antacid sorbents should also be in the first aid kit. \*\* This group of gas suits contains an active substance aluminum hydroxide and are used for the adhesion of neutralization, binding and excretion of radionuclides from the body, thus reducing health risk.

In addition, it is necessary to take care of the presence of alginates, the active substance - sodiumalginat. It creates a protective barrier on the surface of the liquid stomach content. This barrier prevents the body's dangerous substances.

Also in the first aid kit should be put **sodium bicarbonate**, a remedy for the restoration of the heater state of blood and correction of metabolic acidosis(condition that is characterized by a violation of the chemical balance of acids and alkalis in the blood).

У домашній аптечці обов'язково має бути **маска**, яка є засобом фізичногозахисту для зменшення потрапляння в організм небезпечних речовин.

I wish health, dear Ukrainians!

He has just completed a series of international conversations-with the President of the United States Biden, with Prime Minister of Canada Trudeau, with President of Poland Andrzej Duda. Positive conversations, very much needed now for all of us.

First. Of course, we discussed the fighting on the forefront, our active actions. Headed to partners for supporting the support - it is very important and really helping the warriors to move forward. Now Russian invaders are suffered by the losses that they need. Each loss of them is a long -term increase in freedom.

They also discussed the further strengthening of Ukrainian soldiers, and I thank my partners to understand our needs - long -range needs. I am especially grateful to the President Biden and the United States for the reliability of Patriots. They discussed the strengthening of artillery, MLRS and more.

Second. The situation at the Zaporizhzhya Nuclear Station. The attention of the world to the existing Russian threat at the Zaporozhye station, unfortunately, is not enough. As a bunnedosta and the reaction to the Russian undermining the Kakhovka hydroelectric power plant, the tricky efforts of Russian terrorists to hit the dam of another reservoir with the cover.

He proved the information to our partners that we have, in our intelligence on the Russian -scenario with the Ministry of NPP, which for terrorists is obviously approved. We have to do-all together in the world-quite specific, to prevent any radiation incidents.

Third. The longer Russian aggression lasts, the greater the degradation it causes and Russia itself. One of the manifestations of such degradation is that Russian aggression returns to his native harbor. We exchanged in conversations with the leaders of what is happening in Russia. We see the development of the situation equally how to react.

And one more. Very important meetings were held today in Copenhagen. Formatic advisers. The office of the office - Andriy Yermak, as well as Andriy Sibiga, as well as Igor Zhovkva, met with political advisers of the leaders of Turkey, India, Japan, South Africa and European Union institutions. We approach the formula of peace, and for this we attract as wide as possible a circle of partners.

Relations with the European Union are also unchanged with a top priority, we add a full-time soil every week. Thank you all who support Ukraine! I thank Mr. Biden President, Congress, both parties and all Americans for the historical strengthening of freedom in the world! Thanks to the Prime Minister Trudeau and all Canadians for the unchanged support! I thank Panupra-President Dudi and everyone in Poland who stands with Ukraine side by side of the fate of Europe!

Glory to our soldiers! Glory to every brigade, which is now moving on the front ...

Taurian direction - you are good! Thank you!

***Glory to Ukraine!***

Greetings to the graduates of the Taras Shevchenko Military Institute, Braian Menness, a maider-Major of Liberty Fort, the United States Armed Forces.

I want to express my gratitude to the brigade General Anatoliishevchenko for the opportunity to share with you a few tips, as Vasaclas prepares graduates who, while risking their own lives, take on a sensotement to perform tasks that will undoubtedly help protect Ukraine.

I recently dismissed the deputy commander of the 18th Airborne Corps. At one time, we were a unit of the US Armed Forces, which supported the Armed Forces of Ukraine from February to December 2022. The armeds of Ukraine and the people of Ukraine were incredibly impressed by us.

In 2000, more than 23 years ago, I participated in one of the first exercises with the program "Partnership for Peace" in the west of Ukraine, near Lviv, he drew for joint strategic planning together with the then commander of the Armed Forces, Colonel Ivan Yakubts. For me, this was a good experience. Comparing the condition of your army then and now, I am amazed at how much the armed forces of Ukraine have strengthened, in particular, thanks to such co -wanders as you.

More than 35 years ago, I graduated from the Academy in the West Point. Among the Academy's immigrants, there is a belief that if the release ceremony rains, the graduates will be war. In our case, the belief has come true. For more than five years, he managed the fighting in Iraq and Afghanistan, and also answered for planning the actions of the combined command of special operations of the efficiency of the deployment in these countries. He also performed the duties of the battalion and brigade in the 82nd Airborne Division, the first Ranger battalion and the 10th Mountain Division Commander.

I acknowledge that I did not have such combat experience as the one that is obtained in Ukraine, however, I am deeply convinced that there are inviolability that commanders should possess:\* be technically aware. Commanders should be experts in their field;

The world is not in place, as well as the challenges we face. Commanders should be open to new knowledge, master new tactics, technologies of Tastrategy. The training should be continuous.

And most importantly, commanders should be true to their country and always hold their word. The devotion and purpose of military service should not be in doubt.

Your main motivation should be to protect and defend the provisions of the Constitution of Ukraine. In difficult times, military duty and protection of your country are the main call. You are all doing right if you enjoy the time spent on the service. Be careful to the servicemen and educate the subordinates who will appreciate your command qualities.

The power of the army is in its unity. Successful completion of the task is always a common mate.

Finally, take the time to remember those who served us to be sacrificial immune and invaluable experience of which is now an important lesson for us. Honor them do their best to preserve the principles they fought for. I will consider that you will be guided by these tips during your service. Beat, strong and worthy.

Thank you for the opportunity to greet you. I really admire you! Good health to you! I pray that one day in Ukraine there will be peace.
