In the city of Kharkiv, persons with the status of combatants will be able to obtain a cost -free loan for a home for up to 15 years.

Such a norm is contained in the decision to amend the city target program of construction(acquisition)Available housing for 2021–2030, adopted on June 13 during an extraordinary session of Kharkiv City Council.

In this way, the deputies took care of our military and law enforcement officers who participated in the measures necessary to ensure the defense of

Ukraine, protection of the security of the population and the interests of the state in connection with Russian aggression.

In addition, by voting, other changes have been made to this program, and will be able to remain in the queue to receive a preferential lever with the preservation of the order in the Register.

The initiators of these important decisions were a deputy group of numerous protectives of Ukraine, headed by a representative of the Kharkiv Regional Public Organization "Union of ATO Veterans" Yuri Korsunov.

He said that on the basis of the last decision of the City Council the mechanism of providing interest -free loans is being worked out, specific housing facilities, state financial institutions and more are selected. Therefore, there is a little more to work on bringing this issue to the finish line. However, in his thought, the hardest thing is behind.

By the way, at the same time in Kharkiv region a regional program for supporting ATO/OOS participants for construction or purchase of housing in the Kharkiv region for 2022-2025 is being implemented. This social project, better known as "60%by 40%", stipulates that the participants of the program from the regional budget compensate for 40%of the cost of the home they buy. The rest of the money is paid by ATO/OOS. Among the criteria for determining the priority of candidates for housing is the multidimensionality, injuries, disability, etc.

The procedure of procurement of food for the Armed Forces of Ukraine is open and compliance with all procedures. Anyone can track it on the website.

About it [reports](#) Ministry of Defence Ukraine.

At the same time, on June 12, several people spread unreliable and incorrect information on the purchase of food of the Ministry of Defense.

Therefore, as for "not publishing information on which, allegedly, the collegial body made a decision on Friday, June 9", then the collegial organ of the Ministry of Defense of Ukraine on Defense Procurement, and by the way, there is a representative of the Anti -Corruption Council at the Ministry of Defense Ministry , On June 9, he made only a decision to reject participants in some procedures, which MUS immediately published in the electronic system of ProZorro on June 9.

The decision to recognize the winners was transferred by the collegial body to June 12, after which IUU on the same day - June 12 - immediately published them by the ProZorro procurement system. It is about 8 procurement procedures. This information is open. In addition, on June 13, another 8 procedures were announced and winners.

In total, the Ministry of Defense has announced 22 procedures for the purchase of food for the Armed Forces. Currently, 16 of them have results and the winners have been announced. The winners have not yet been determined by 4 processes; Another 2 procedures were rejected by all times, and on June 13, these 2 procedures were repeated.

"Unfortunately, people who have distributed information that the publications of trading are not being delayed and not published. These "data" is not true. This is easily checked both in the ProZorro system, so it is idle at the expense of public control - a representative of the anti -correal counterparts is a part of the collegial body of the Ministry of Defense on Defense Procurement.

Actually, information about this "fact" has already been deleted by authors from publications. What do we have in reality? Purchases are ongoing, everything happens to all procedures and without violation of no terms, which are defined by the Law on Public Procurement, - said Deputy Minister of Defense Denisssharapov.In addition, during the period of clarifications from the participants for each procedure, a secondary average of 40 appeals - that is, 22 procedures more than 850 appeals. The Ministry of Defense is obliged to publish appropriate explanations within one working day from the date of receipt of the receipt.

"Given that all this could have caused the disruption of the personal composition, the MOU took into account these risks and proposed the corresponding changes to the CMUN335 resolution. Important: These

changes did not oblige the MOU to continue the current agreements of the year, but only gave the right to amend the time, sufficient for the procurement procedure. We cannot allow our military to eat. The reaction to such threats is obvious - it is impossible to make a lot of inspection on the nutrition of military unscrupulous participants. Currently, the post -publication of the results of bidding, that is, when we are sure that the auction has taken place, that there will be no disruption of food supplies to our defenders and rags, we have applied to leave these changes without consideration without consideration, "Denis Sharapov added.

Russian invaders took advantage of the tragic consequences(<https://armyinform.com.ua/tag/kahovska-ges/>)to strengthen the occupation regime in the temporarily occupied territory of Kherson region.

About this [told](#) Deputy Minister of Defense of Ukraine Anna Malyar.

"With the beginning of the mass evacuation of the population from the flooded area, the command of the Russian occupation troops has introduced additional rigid filtration measures to identify citizens with pro -Ukrainian sentiment. At the checkpoints, military personnel for permission to leave people to safe places herself [pay](#) Significant sugars and give valuable things and jewelry found during the searches, "she wrote.

According to Anna Malyar, Russian invaders were selected and immediately destroyed Ukrainian passports, birth certificates and other documents obtained in Ukraine. The invaders also stole the personal property of citizens with abandoned owners of premises.

"At the same time, representatives of Russian occupation administrations during the removal of propaganda videos by the so -called journalists cynically declared a successful organized evacuation of the civilian population, although practical measures were not taken. Occupants are also banned by local volunteers to provide victims of humanitarian aid(food, water, clothing, medicines, etc.)», - said Deputy Minister of Defense of Ukraine.

Alexander Dugin, the head of the pro -Kremliv International Organization "Eurasian Movement", was collected. The person involved is one of the key

ideologues of the Russian people and genocide of the Ukrainian people. In its numerous stakes, printed publications and publications, it has already translated the existence of Ukraine as a sovereign state for more than 10 years and calls for its armed capture by Russian troops.

About it [reports](#) Security Service of Ukraine.

At the beginning of a large-scale invasion of the Russian Federation, Dugin was one of the first publicly supported occupation groups of the aggressor country and justified their military rooms against Ukraine. The attacker openly promoted the ideas of mass physical destruction of Ukrainians, as well as the civil infrastructure of our country.

Linguistic and linguistic expertise confirmed the facts of the criminal activity of the Russian citizen Dugin. On the basis of the evidence collected, he was notified to him by two articles of the Criminal Code of Ukraine:

Since the attacker is hiding from justice in the territory of Russia, SBBA is comprehensive measures to hold him responsibility against Ukraine.

At this time, 16 EU Member States have been assisted in Ukraine to overcome the Kakhovsky Hydroelectric Power Exploration.

About this [it is referred](#) On the European Commission's website.

"After blasting the dam in Nova Kakhovka last week and the call of Ukrainian power for help now the EU will mobilize its strategic reserves from the powersceu capacity," the statement said.

As noted in the European Commission, 16 European countries - Austria, Belgium, Bulgaria, Czech Republic, Denmark, Estonia, Finland, France, Germany, Latvia, Lithuania, Netherlands, Norway, Poland, Spain and Sweden - have offered assistance through the EU's Civilian Protection.

Among the help, in particular, water tanks, water pumps, boats, rescue equipment, generators and other necessary assistance for the affected areas.

Ukraine has also received three mobile water treatment plants from the EU, which can produce 120,000 liters of clean water per day and thus help to help get the problem of access to drinking water.

In order to further support humanitarian operations on the EU, 500,000 euros were also mobilized to solve immediate needs that arose from the Choice of the Kakhovka Dam. This assistance supplements 200 million Euro - humanitarian assistance that have already been allocated to Ukraine in 2023.

About it [reports](#) Coordinating headquarters for the issue of prisoners of war.

Representatives of the coordination headquarters, the Office of the Verkhovna Rada for Human Rights, the State Border Guard Service of the

Tamzhizh International Committee of the Red Cross were answered by the loved ones.(ICCH).

Представник штабу запевнив, що робота зі звільнення прикордонників іЗахисників Зміїного ведеться щоденно:

«Це показав обмін 11 червня. Ми завжди працюємо, щоби визволити всіх. У нас нема улюблених підрозділів чи неулюблених. Тим більше, усі наші Оборонці в колоніях уже перемішані й ворог за великим рахунком теж не ділить їх запідрозділами».

Також він зауважив, що планова робота зі звільнення вдається не завжди:

«Так, краще би був план — кожна мати знала б, коли повернути її сина і скільки треба чекати. Була б визначеність. Але росіянам байдуже. Хочуть завдати рідним якомога більше болю. Це їхня політика. Тому кожен обмін — не схожий напопередній. Проте коли відбуваються контрнаступальні операції — обміничастішають».

Представниці Міжнародного комітету Червоного Хреста наголосили, що неприпиняють роботу для відвідин наших бранців:

«Колеги з МКЧХ, які працюють у РФ, постійно намагаються переконати російську сторону надати доступ до полонених і підтвердити полон тих, кого утримують росіяни і про кого немає інформації. На жаль, це забирає час. Але результатимаємо».

Представник Офісу Уповноваженого Верховної Ради з прав людини застеріг від пропозицій невідомих осіб «викупити з полону» родичів.

«У більшості випадків це шахрайство. Просто заберуть гроші. Також такі пропозиції мають посіяти недовіру до органів нашої державної влади. Крім того, ті, хто ризикне погодитися, можуть потрапити на гачок російських спецслужб», — сказав він.

Координаційний штаб радить повідомляти про такі випадки за контактними телефонами та звертатися до правоохоронних структур.

During the last meeting of the government, an order was made to create commissions in every community that was affected by the emergency caused by the undermining of the Kakhovsky Hydroelectric Power Dam. The commissions will capture the factual and destroyed property in Kherson region.

This was stated by Viceremier-Minister Irina Vereshchuk, reports Ministry of Reintegration of the Temporarily Coopered Territories of Ukraine.

Commissions should appear immediately. Their creation will be controlled by the Kherson regional military administration.

"The government adopted provides that local governments are obliged to create such commissions as soon as possible. They should function with a permanent settlement, every territorial community affected by the result of flooding. Their task is to record the facts of damage to the property. Their work will depend on the speed of preparation of acts, entering the data in the registry and receiving compensation, " - summarized the re -ancase.

A powerful evidence was collected on another Russian associate, which after

cooperation with an enemy in the Donetsk region fled from the region and wanted to avoid justice. He judged the attacker 13 years in prison.

As informs The Security Service of Ukraine, at the beginning of a large -scale interference of Russia, was handed over to the occupiers of the location of the defense forces on the Liman Napryamka.

He conveyed the reconnaissance in the "liaison" - the DNR, which was in the temporarily captured part of the region.

At the same time, after the liberation of the region from the Russian invaders, their informatics fled to Lviv, where as a displaced person wanted to "hide" the mid -city residents.

The SBU staff found that the defendant planned to restore their contacts by the residents, in particular, to transfer to them intelligence from the territory of the Western Region of Ukraine. The collaborator was detained at the end of December last year.

On the basis of the evidence collected, the court found the attacker guilty of collaboration.

ARMYINFORM

Step by step demining the State Special Defense Transport Service of Ukraine cleans their native land from artillery shells, various mines, aviation and other explosive "gifts" left by Russian invaders during retreat.

The correspondent of the Armyinform witnessed one of the stages of demining nearby entertainment of the Vyshgorod district, in the Kyiv region.

[!\(Images/APMIRINFORM/2023-06-14T83-00-00-04-00/dsst\\_01-150x150.jpg\)](#)

After the de -occupation, the process of restoring the destroyed infrastructure began. One stages of which was the restoration of movement across the River of Zhrev, which divides the village of Slazvrav and Zherevpillya. At all stages of the builders are accompanied by changes of variations, including representatives of the State Special Transport Service of the Ministry of Defense of Ukraine.

The State Special Transport Service is a specialized military formation, which is part of the Ministry of Defense of Ukraine system, intended to ensure the sustainable functioning of transport in peacetime and in a special period.

[!/\(Images/APMIRINFORM/2023-06-14T83-00-00-04-00/dsst\\_05-150x150.jpg\)](!/(Images/APMIRINFORM/2023-06-14T83-00-00-04-00/dsst_05-150x150.jpg))

- We are not working on this facility for the first time. The first time they cleared the territory in the beginning of the construction of the temporary bridge. Now the builders have come to the erection of a new bridge. During the work, they found ammunition that were detonated, and called our group to mine the construction site,-says the commander of the engineering-sapper group of DSST Alexander Przhikov. - It is very difficult to work in this area, because the soil remains the same concrete elements of the structure of the old bridge, which significantly complicates the use of the ministry.

Of course, the sappers of the State Support Service were not only demining the adjacent destroyed bridge of the territory. The local residents asked the

military to inspect the land and other territories near the village, and they were never denied.

[!\(Images/APMIRINFORM/2023-06-14T83-00-00-04-00/dsst\\_09-150x150.jpg\)](#)

The sappers argue that the land around the bridge hides many "orkivski-surprises", because during the blasting of the structure, the Russians used an unsecured amount of ammunition, namely, anti-tank mines TM-62 and 82-mmminometric mines. The use of so many ammunition can only be explained that the invaders needed to release a place for washing machines that they selected from local residents.

[!\(Images/APMIRINFORM/2023-06-14T83-00-00-04-00/dsst\\_11-150x150.jpg\)](#)

In total, 22 explosive objects were identified and disposed of this time, including three anti-tank mines of TM-62 and nineteen mortar mines. Due to the fact that the detected ammunition cannot be transported, the sappers decided to destroy them on the spot.

For the first time, the German government approved the National Security Strategy and called Russia a greater threat.

About this [it is referred](#) on the site of the German government.

"For the first time in the history of our country, we have developed a national security strategy," Germany's Federal Chancellor Olaf Scholtz.

According to him, this strategy is an important contribution to the safety of people in Germany.

"Without security, there is neither freedom nor stability, nor prosperity," - said the German Chancellor.

Olaf Scholtz added that the country's political environment has changed in the last one and a half years, in particular, it meant a large-scale invasion of Russia and attack on the Nord Stream gas pipelines.

"Security in the 21st century is more than hostilities and diplomacy. The Russian Aggressive War against Ukraine has shown that peace and freedom do not fall from the sky. This applies to, for example, medicines, as well as cyberspace and cleanliness of water," Germany's Minister of Law Berbb said.

The strategy is based on three "central dimensions" of security policy: defense, stability and stability. It states that "today's Russia is the greatest threat to peace and security in the Euro-Atlantic region.

Servicemen who were called to the ranks of the maritime border guard on mobilization but did not have experience of service, were trained at one of the training centers of the SSSU.

About it [reports](#) State Border Service of Ukraine.

More than thirty defenders and one defender in the framework of preparation have acquired practical skills in marine, fire, tactical and intelligence training. The newly minted border guards practiced in shooting, throwing, developed endurance, checking the ability to overcome difficulties, heavy physical and psychological loads related to tasks, expanded their knowledge, courageously and steadily overcome their own fears.

[!\(Images/APMIRINFORM/2023-06-14T8-00-00-04-00/news\\_20230613\\_151405\\_16866584452-150x150.jpg\)](#)

The lion's part of the course took place in the field, during which the border guards studied and performed actions in the group, department, platoon.

"My decision was unambiguous - today I have to get involved in the protection of Ukraine. We will win, but not desired enough, we must act. A person is afraid of what he does not know. I think knowledge will overcome all fears. There is still a lot of work work, but the base is stuck - strong, " - summed up the maritime border guard Alla Skazkevich.

The practical highlight of the course was the struggle for the survivability of the ship, which was bully in conditions as close as possible to emergency. Practice defenders improved the coordinated crew actions using emergency

rescue property while combating local fire and training the skills of counteracting the volumetric fire development.

In addition to the struggle for the survivability of the ship, they studied the mobilized and the basics of tactical medical.

Prepared, motivated and inspired by the first successes, border guards were released to staff units, where they will hone the skills in the crew.

The United States, Canada, Britain, Denmark, the Netherlands, Italy, Norway, Germany, during the Ramstein format, have announced new multi -billion donations to strengthen Ukraine's defense capabilities.

This was stated on Thursday following the meeting by US Secretary of Defense Lloyd Austin, Ukrinform correspondent reports.

"Today, several countries have announced new obligations to Ukraine," the head of the Pentagon said.

So, according to him, Canada has allocated an additional \$ 500 million package, which will include more than 200 air defense missiles to protect the Ukrainian sky. The USA with the UK, Denmark and the Netherlands, "contributed to the financing of additional important air defense missiles for Ukraine."

In this context, he emphasized that the main focus of attention is focused on the adoption of Ukraine with more effective air defense systems, given the development of Russia's cruel missile attacks in Ukrainian peaceful cities.

Italy also stated that it is allocated assistance, including "extremely important hardware that meets Ukraine's most remedial needs for Ukraine."

In addition, Austin emphasized, several other allies made proposals to support Ukraine in the long run. In particular, Norway and Germany have announced long -term packages, and Denmark has declared the allocation of packaging military assistance in the amount of almost \$ 2.6 billion by 2024.

"All these contributions emphasize our unity and support of Ukraine and the protection of an international order based on rules that ensures the safety(<https://www.ukrinform.ua/tag-ssa>).

The military counterintelligence of the Security Service of Ukraine in cooperation with the Operational Command "North" and investigators of the Department of the Security Service of Ukraine in the Chernihiv region

revealed a Ticker, which "drained" into the social network of the location of the forces of defense of the external.

About this [it is referred](#) in the report of the Operations Command "North".

"The man illegally disseminated information on the movement of the personnel of the defense forces in the region. It is established that he personally reported the record and video of the military object that provided the movement, the anecid media file placed on his own page on the social network chipboards with geolocation.

In a few minutes, the video was picked up by Russian propaganda publications, including pro-Kremlin telegram channels with a total audience of more than 100,000 subscribers. More than 12,000 users, including residents of the aggressor country, have been viewed on the personal page of Ticker.

During the investigation, the location of the blogger was established and his / her activities were stopped. Military counterintelligence found that he explained his own actions with the desire to "build up" the audience. However, in the course of the person involved in the case, his connection was established on the temporarily occupied territories of Ukraine with representatives of the NFF, controlled by the special service of the Federation, "the message said.

It is also reported that on the basis of the evidence collected, the person was prohibited the reference under Part 2 of Art. 114-2 of the Criminal Code of Ukraine(spreading information about the movement, movement or location of the Armed Forces or other military formations), an indictment was sent to court. The attacker faces up to 8 years of prison.

The units of the Security Service of Ukraine again emphasize the ban on the removal of video and photo materials, indicating the locations of the defense forces, as well as the consequences of hostile shelling.

The publication of such photo and video materials on the Internet is regarded as a correction of enemy fire and is a crime punishable in accordance with the law.

The troops of the aggressor country are afraid of the offensive of the Defense Forces of Ukraine, so they increase the fields. The invaders almost daily

conduct unbroken shelling of Ukrainian positions and destroy the civilian infrastructure of frontline villages and cities.

This was stressed by the commander of a separate mechanized brigade Colonel Andreykravets, [reports](#) Military Mediаcenter.

"For any hostile action, the crews respond adequately, cruel and confident. The situation in our lane remains controlled. When we need to support the fighting, we are exacerbated by colleagues and our aircraft systems, which are hit daily in the rear and previous positions of the invaders, "he said.

According to Colonel Andriy Kravts, the motivation in his brigade is very powerful: side by side serve from the millionaire to a simple peasant.

"They are all here to defend our Ukrainian land. Now the main task of the warrior, every Ukrainian is to believe in our victory and support the Armed Forces of Ukraine. During the coordination headquarters and the Ombudsman's office, civilians who are hostage to the aggressor state and the Ombudsman's office were not considered to be considered to be consistent with international law.

International humanitarian law implies the unconditional perpetrator of such persons. However, the terrorist state despises any international mining and holds civilians near prisoners of war.

About it [reports](#) Coordinating headquarters of inquiries for the treatment of prisoners of war.

"Despite the fact that our headquarters is dealing with the liberation of prisoners of war, we also try to forget from Russian captivity and our civilian citizens, using our exchange fund for this purpose," the Ombudsman's representative is explained.

According to him, the search and liberation of such persons is complicated by the fact that the Russian notes do not confirm the maintenance on their or temporarily occupied territories of civilian citizens, because it is an international crime. Nevertheless, Ukraine has an effort to make an effort to press on Russia at the international level and to require a non -civilian return to the Motherland.

Also, families were interested in hostages of civilians whether they were threatened with criminal responsibility after returning home. The representative of the ex -inspiring was that civilians were not threatened with criminal liability, even if they were forced to receive Russian passports: "We understand that it is often the emphasis on survival. Therefore, of course, such persons will not bear the responsibility for it."

At the same time, the expert noted that almost all civilian hostages of the special service offer cooperation in favor of the aggressor state.

According to a coordination representative, after returning home, Ukrainian services carry out a number of inspections of liberated persons. If it is possible that one or the other person has agreed to cooperate with the enemy and already manage to harm our country, such person will be held accountable.

Inclusion of Russia in the "black list" of the International Group on Combating Down Down(FATF)will strengthen the directions already used and adopted sanctions against the aggressor.

The head of the National Bank of Ukraine Andriy Pishny said this at a briefing, Ukrinform correspondent reports.

"The joint efforts of the entire Ukrainian team managed to achieve a significant progress in the question related to the inclusion of Russia in the" black list "(FATF -Row.). Проміжний результат був доволі відчутним. На сесії, яка відбулася у лютому 2023 року, членство РФ у FATF було призупинено. Однак ми вважаємо, що цього недостатньо. Ми працюємо над тим, щоб на пленарній сесії FATF, яка відбудеться 19-22 червня, було ухвалено рішення про включення Росії до "чорного списку", - сказав Пишний.

Він наголосив, що Національний банк посилив аргументи з якими звертались до організації і уряд, і Міністерство фінансів.

"Зі свого боку я підписав листи на керівників центральних банків, а також провів двосторонні зустрічі і діалоги. У цих листах ми надали повне юридично обґрунтування доказів, відповідну юридичну позицію, яка дає, на нашу думку, необхідність включити Росію до "чорного списку". Це суттєво посилить по усіх напрямах уже застосовані і прийняті санкційні пакети, а також буде гідною відповіддю на останні терористичні атаки, на екоцид, на вбивства цивільного населення, які здійснює РФ", - підкреслив голова [НБУ](#).

The first stage of the Drone Army Project ended. According to his results, the centers of preparation of UAV operators taught 10 thousand military to manage "wings" in 10 months. Within the second stage - there will be another 10,000 UAV pilots.

This was reported by Viceremier-Minister for Innovation, Development of Education, Science of Tatekhnology-Minister of Digital Transformation Mikhail Fedorov, Ukrinform reports.

"As part of the Drone Army Project, 10,000 operators have been completed [UAV](#). 26 schools have joined it. The second stage starts - we plan to teach another 10,000 soldiers. We also wash new categories. Previously, it was only about reconnaissance copters, currently concerning FPV-oules, as well as a UAV of aircraft type. This stage is planned to be able to get more than the previous one, because the schools have established the educational process - for half a year, "the ministry head said.

According to him, the project assumes that 7600 pilots will acquire skills of spraying with ordinary intelligence copters(Mavic/Matrix/altar), 2000 –fpv-Drones and 400 pilots-bombers aircraft(Storks, Flyeye). Кожен звійськових зможе обрати одну з 26 приватних шкіл, з якими підписано меморандуми про співпрацю. Вони розташовані в різних куточках України – Києві, Запоріжжі, Черкасах, Харкові, Полтаві, Дніпрі, Одесі.

Під час навчання всі студенти проходять теоретичну частину, де вивчають технічні параметри безпілотників, обслуговування техніки, картографію, тактику польотів в умовах РЕБ, маскування, демаскувальні фактори ворога тощо. Та практичну частину з прольотами на полігонах і місіях, які максимально наближені до справжнього бою.

«Армія дронів» використовує кошти донорів, партнерів, міжнародних та приватних компаній. Але дуже важливо, щоб цей проект став частиною державної програми. Ukraine and Northern Macedonia agreed on "transport visa waiver". It provides for the dismissal of bilateral and transit transportation permits for vehicles of Euro-3 and above.

The corresponding decision was made during a meeting of the Ukrainian-Macedonian mix of international road transportation of passengers and cargoes, which was met in the capital of Northern Macedonia Skopje, Ukrinform reports with reference to the Ministry's press service on [Facebook](#).

«Розширюємо список країн, з якими лібералізуємо транспортні перевезення. Створення умов для ефективної роботи наших перевізників – одне з ключових завдань Міністерства. «Транспортний безвіз» вже діє з Європейським Союзом, у березні його було продовжено до червня 2024 року. Ми не зупиняємося, тривають відповідні переговори з іншими країнами», - зазначив заступник міністра розвитку громад, територій та інфраструктури Сергій Деркач.

Також Україна та Північна Македонія домовилися вдвічі збільшити квоту дозволів для виконання перевезень до третіх країн на нинішній та наступний рік, а також згодили порядок їх дії. Вони можуть бути використані як в прямому, так і у зворотному напрямку. Такий вид дозволів дійсний для транспортних засобів будь-якої категорії екологічності.

Щоб скористатися «транспортним безвізом», у перевізників має бути сертифікат виробника або уповноваженої установи для підтвердження класу екологічності неменше Євро-3.

The United States, Canada, Britain, Denmark, the Netherlands, Italy, Norway, Germany, during the Ramstein format, have announced new multi -billion donations to strengthen Ukraine's defense capabilities.

This was stated on Thursday following the meeting by US Secretary of Defense Lloyd Austin, Ukrinform correspondent reports.

"Today, several countries have announced new obligations to Ukraine," the head of the Pentagon said.

So, according to him, Canada has allocated an additional \$ 500 million package, which will include more than 200 air defense missiles to protect the Ukrainian sky. The USA with the UK, Denmark and the Netherlands, "contributed to the financing of additional important air defense missiles for Ukraine."

In this context, he emphasized that the main focus of attention is focused on the adoption of Ukraine with more effective air defense systems, given the development of Russia's cruel missile attacks in Ukrainian peaceful cities.

Italy also stated that it is allocated assistance, including "extremely important hardware that meets Ukraine's most remedial needs for Ukraine."

In addition, Austin emphasized, several other allies made proposals to support Ukraine in the long run. In particular, Norway and Germany have announced long -term packages, and Denmark has declared the allocation of packaging military assistance in the amount of almost \$ 2.6 billion by 2024.

"All these contributions emphasize our unity and support of Ukraine and the protection of an international order based on rules that ensures the safety([https://www.ukrinform.ua/tag-ssa](https://www.ukrinform.ua>tag-ssa)).

The new companion from Varda Space Industries on June 13 began its work. It is the world's first cosmic pharmaceutical plant that can also be used for hypersonic research.

As Ukrinform reports, it reports [New Atlas](#).

According to representatives of Varda Space Industries, such production is very useful for growing protein crystals. Since gravity is not influencing the

properties of chemical compounds in [space](#), the production of medicines in extraterrestrial conditions can make a revolution in this industry.

Particularly important is the possibility for manufacturers of medicines that can use a space plant with weightlessness for crystallization of biological proteins in order to analyze their structure and create medicines.

Such a space plant can also be used for the production of medicines with extraordinary precision. And such production costs a lot less than on Earth. Due to the fact that the cost of launch into space becomes less costly, such production can be success.

So far, Varda Space Industries was the first to send to the space production and at the same time a laboratory satellite. It will fly in orbit for more than a month at an approximate height of 1000 km. The plant launched Falcon 9 on June 12. After the mission is completed, the device will return to the ground.

Varda believes that their new development can also be used to carry out various research in the field of hypersonic.

If everything goes by, Varda Space Industries plans to send a similar device to space at the end of this year. The American company has plans to create multiple production space modules and even has a plan to create a production space station in the orbit of the Earth.

The training of Ukrainian soldiers is an important part of the assistance of Western partners, who have already prepared 60 thousand fighters.

Such data were given by the Chairman of the Joint Committee of the Chiefs of Staff of the United States, Millie, at a press conference with US Secretary of Defense Lloyd Austin, after a meeting in Ramstein, Ukrinform correspondent reports.

"Within the framework of global efforts, there is now training for more than 6 thousand Ukrainians: 40 different training grounds, in 65 courses in 33 countries of sodium continents. All this is happening now, "Millie said.

He noted that since the beginning of the war, partners have prepared more than 60 thousand Ukrainians. Only [USA](#) More than 11 thousand soldiers from Ukraine have been prepared, and there are now 3 battalions, one of which is tank.

Speaking of the current counter -offensive of Ukraine, Millie called it "very heavy". The Armed Forces, according to him, gradually move forward, but making outdoors too early. At the same time, the general noted the very high moral spirit of Ukrainian soldiers, unlike the Russian ones.

The war is dynamic, it is a competition of will, but we can be sure that the preparedness of Ukrainians to defend their land and freedom, their courage and skill will win, added Millie.

Every day, Ukrainians fight not only with weapons, but also with their iron invincible spirit, the commander emphasized.

He noted that the contact group provides Ukraine with tools that will help you succeed. Millie assured that partners would support Ukraine as much as he would need.

"We will continue to provide large -scale and widespread support from modern types of reconnaissance and training of Ukrainian forces," said the American general. He recalled new help packages declared last week.

Unprovoked and criminal aggression of Russia is not only an attack on Ukraine and its people, it is a frontal attack on the whole world order, which has been providing global peace, wealth and stability.

This was announced in Brussels today during a press conference following the work of the Constant Defense Group of Ukraine in Ramstein format, the

head of the United States Chiefs of Staff, General Mark Millie, Ukrinform reports.

"We stand not just as a group of states together today, but as a united front that stands for values. We stand as the fundamental principles - nationality and freedom, for the principles that undermines criminal tape -provoked Russian aggression against Ukraine. This arbitrary war is not only act of aggression against Ukraine. It, by definition, is a frontal attack by the international order, which guarantees peace, wealth and freedom for our states, "the US military commander stressed.

He recalled that the President [Volodymyr Zelenskyy](#) He recently announced that the Ukrainian was undergoing an offensive operation to liberate its country. According to him, this campaign is now very early, so it is very early to make some meaningful estimates. But every day, Ukrainians demonstrate the persistence of tachaic, sustainability and military skill, which allows them to methodologically release their territories from Russian invaders, Millie said.

Such a struggle, according to the general, always has a high price, which is paid by Ukrainian defenders who are fighting not only with iron and weapons - they are fighting a non -leisure steel will and a combat spirit. This struggle leading to the people of Ukraine resonates far beyond Ukraine in many countries of the world that value freedom and reject tyranny. Therefore, the coalition of the states that united the contact group of the Defense of Ukraine continues to provide Ukraine that allow it to succeed, to defend its freedom and independence, Millie emphasized. As it was reported, the first day of two-day defense ministers of NATO countries is ongoing in Brussels, the main issues of which are the continuation of assistance for Ukraine in its fight against Russian aggression, as well as the preparation for the Alliance for the Vilnius Summit on July 11-12.

As part of the meeting, a meeting of the Ramstein Defense Group in Ramstein was held for US leadership, which brought together 50 countries, including 31 NATO countries and partner countries.

A two -party group of US Congress members presented a project of the Law "Conducting Economic Prosperity and Opportunities for Ukrainians"(REPO), which provides for the allocation of additional assistance to Ukraine at the expense of confiscated Russian assets.

This is stated in the official [message](#) Released on Thursday on the website of the Committee on International Reports of the US Senate, Ukrinform reports.

"More than a year from the beginning of the full -scale war of the Russian Federation against Ukraine throughout the world, Russian state assets worth more than \$ 300 million remain frozen. Given the cruelty [Russia](#) But its military crimes against the Ukrainian people will be correct that the Cost of the Government of the Russian Federation in the United States have been confiscated and re -profiled in order to help Ukraine to recover, "one of the works of the bill Jim Rish said in this connection.

His colleague from the Democratic Party, who also spoke the document, Senator Sheldon Whitehaus, emphasized that hundreds of billions of dollars would come to the restoration of Ukraine.

"The two -party bill Repo guarantees that the United States - as an Obostransatlantic Alliance - can take a leading role in achieving this goal," the legislator stressed.

President of Ukraine Volodymyr Zelensky states that Ukraine has never been a source of warfare wars, it still remains the territory of peace, this war of Prischlase Russia.

He said this in an appeal to Switzerland Parliament, where there is now a proceeding on the re -export of weapons for the protection of Ukraine, whose video is presented in [telegram](#) , reports Ukrinform.

"Ukraine has never been a source of any invading wars. And even now, although it sounds somewhat paradoxical, Ukrainian land is the territory of peace, the goddeko of this [war](#), the source and cause of aggression are outside our borders, "the President said.

Viso: [op](#)

He appealed to the parliamentarians of Swiss to imagine how to fall asleep every night, our people are checking in the news whether there is a warning of pro-Russian bombing aviation that goes on the border of launching missiles by the Naddaspian Sea or somewhere. "It is more than one and a half thousand kilometers from our land! There is a war on the wings. shelter, "Zelensky explained.

He also spoke about how Ukrainian communities bordering on Russia live. In his words, these are three areas that are constantly suffering from Suterrorist shelling from the Russian territory almost every night and daily. "They are being shot across the border from the territory of Russia from artillery or mortars, rocket-propelled airbags ... It is a death or threat of death that comes to the landlord from Russia," the President said.

In addition, Zelensky emphasized, hundreds of Ukrainian families have lost their native margins of Iranian drones-Kamikadze-"Shahaned", which the Russians launch in our cities almost every night, and they take our people's lives, constantly destroy our infrastructure!"And all this is also the death that has come to the Irrigation," he emphasized.

And, according to him, there is nothing in this cruel war on our land, absolutely nothing that would do our land, our people, it is our Ukrainian source of war or the territory of those who want to seize something in another noun. That is why, he emphasized, any impartial look would testify one thing: if Russia had not brought war to our peaceful Ukrainian land, then the war would be, the source of evil and death-outside our borders.

The President explained that supporting Ukraine, the world supports the protection against war. "That is why solidarity with our people show, in particular, even those nations that we had no meaningful relations until February 24, 2022, when Russia transformed hybrid aggression against our country to Open-large-scale waride war, "he said.

In this context, Zelensky expressed gratitude to all countries of the civilized world for every package of sanctions against Russia, which limit Russian terrorist potential, for every unit B The terrorist state.

The NATO-Ukraine Commission, which took place today at the level of defense ministers today, will be the last time, since in the future, the relations between the parties will be derived to the new format provided for Ukraine-NATO Council.

The Minister of Defense of Ukraine Alexei Reznikov stated this during a meeting with journalists after the meeting of the NATO-Ukraine COMMISSION COMMISSION, Ukrinform correspondent reports.

"As a lawyer, I do not like to make forecasts, but I can prophesy: it was the first since 2016 meeting of the Commission Ukraine-Ukraine, and I have a serious hope that it was. The next meeting of Defense Ministers from Ukraine and NATO, I hope, reconciliation or immediately after(Summit in)Vilnius - it will be the advice of Ukraine -NATO. This is a new level of relations, a new and higher level of interaction, if not a member of NATO, but will already be in all committees, in all representative meetings, with the right to raise issues that are issued in the relevant agreements. So, the next will be the meeting of the Ukrainian Council, with more opportunities, "said Alexei Reznikov.

NATO and political invitations to accession should already be developed by the preparation for the Alliance Summit in Vilnius.

About it during your [appeal](#) At the end of the 477th of the war, President of Ukraine Volodymyr Zelenskyy said, Ukrinform reports.

Viso: [op](#)

## I wish health, dear Ukrainians!

Report for this day. The first is that we have significant international steps that intensify our position in several directions.

The European Parliament has adopted a powerful resolution to support the European Taiuro -Atlantic aspirations of our people. There is a specific call for a leadership euro union to define a clear way of acquiring our state membership in the EU.

And in the issue of the Alliance, the European Parliament captures the meaning of our Ukrainian universal in Euro -Atlantic security, which stipulates that the path of Ukraine in NATO is a state -of -the -art invitation to entry in the context of the preparation for the Alliance Summit in Vilnius. Time for integration and security is obvious, and I thank you for the actual statement of this to all members of the European Parliament and Ms. President of the European Parliament Roberti Metzoli, as well as the Chairman of the Verkhovna Rada of Ukraine Ruslan Stefanchuk for his constant irregular work with the parliament.

The second significant international step for today is the bill on confiscation and transfer of our country as a reparation assets of the Russian state-a terrorist state. I thank the US senators who have a biparty support for this issue for justice for Ukraine's Tavi victims of Russian terror.

In dictatorships such as Russian, money is the highest value. And even more of persons who serve the management regime or are actually owners of state structures. Today he continued to appeal to the parliaments of our partners.

He called on the parliamentarians and the people of Switzerland and continue to maintain the unity of tasolidarity with us in protecting common values and freedom. It is very important that all in Europe we understand equally: only the power of weapons can now protect the life of the life that we all appreciate, in all countries - from the Atlantic of Durane, including Switzerland. This is our common task - to protect freedom, international law and human life.

He also spent telephone conversations with representatives of the two countries-Belize and Costa Rica. We build new partnerships for Ukraine-to support the formula of peace and our resolution in the UN in defense of the UN Charter and international law as a whole. The discussion of Mr. Costa Rica and Mr. Prime Minister Belize is the opportunity to organize a meeting of

Ukraine-Latin America. We can together give much more protection for freedom and equality of nations in the modern world.

An important report was today on the situation in Kherson region and in general, half -day countries, in our Dnieper after the Russian terrorist attack on Kakhovskaya HEP. Elimination of the consequences of catastrophe, assistance to people, providing drinking and all other sensitive and important issues. Government Schmigal, Klimenko Minister of Internal Affairs, Profile Deputy Head of the Kuleb Office, representatives of local authorities. Another report is the situation in Kryvyi Rih Taodes after recent strikes of terrorists.

And, of course, the front. I thank all our soldiers, every unit, every boost brigade for today - for today's fighting.

I will note especially six units. Khortytsia dawn-paratroopers of our powerful 80th separate Brigade of DShV. "Tavriya"-warriors of our 23rd separate mechanized brigade, Marines of the 35th and 37th separate brigades, warriors of the 128th-equally mountain and assault Transcarpathian brigade and the 128th separate brigade of Silro ... Your performance!For strength, courage, but that you return to Ukraine the Ukrainian land and strengthen our Ukrainian will.

Glory to everyone and everyone who is now in battle, at combat posts and at combat operations!Glory to all who train our warriors!Who treats and rehabilitates defects and defenders after injuries!

Thank you all in the world who helps. And, by the way, the next "Ramstein" today has been quite effective. We are still strong!

### ***Glory to Ukraine!***

Ukraine, with the help of NATO partners, has already been able to build a reliable pro -emptyic protection system and considers its further development as a priority of numbers.

The Minister of Defense of Ukraine Alexei Reznikov stated this during a meeting with journalists after the meeting of the NATO-Ukraine COMMISSION COMMISSION, Ukrinform correspondent reports.

This is exactly how the military manager answered the question of Ukrinform correspondent, at which Ukraine is still a Ukraine from the goal of the development of the elaboral air defense system.

"We're not far from this purpose. We've already built it(Anti -air system Defense - order.), and now we develop. We have the most developed in the world Patriot, Nasams Iris-T and SAMP/T. Ade-stunning level are other systems-"Kottali", "Cheetahs", as well as Soviet, which we still have, and even to manual MAZRCs, that is, a system of different range of action. The fact of creating a plane, but we will know that we will have planes as part of air defense, says that this system continues development, "Oleksiresnikov said. .

He reported that during a meeting in Brussels, there were a duty on partner countries to continue providing Ukraine with no need to Ukraine and launch systems.

"This month, or in the next months, we will be able to get the first -sisters of HAWK, which we have not yet, and the corresponding equipment and missiles to them. So, the air defense is developing. Today, I have repeated to my partners that the prototyped defense is the first priority. Our task is that our children grow up and study under the peaceful sky. Therefore, we need to develop the system. In fact, not everyone is today, every second of the defense ministers spoke - about the continuation of Ukraine's provision with rockets and systems of retorting protection, "the Minister of Defense of Ukraine emphasized.

The new companion from Varda Space Industries on June 13 began its work. It is the world's first cosmic pharmaceutical plant that can also be used for hypersonic research.

As Ukrinform reports, it reports [New Atlas](#).

According to representatives of Varda Space Industries, such production is very useful for growing protein crystals. Since gravity is not influencing the

properties of chemical compounds in [space](#), the production of medicines in extraterrestrial conditions can make a revolution in this industry.

Particularly important is the possibility for manufacturers of medicines that can use a space plant with weightlessness for crystallization of biological proteins in order to analyze their structure and create medicines.

Such a space plant can also be used for the production of medicines with extraordinary precision. And such production costs a lot less than on Earth. Due to the fact that the cost of launch into space becomes less costly, such production can be success.

So far, Varda Space Industries was the first to send to the space production and at the same time a laboratory satellite. It will fly in orbit for more than a month at an approximate height of 1000 km. The plant launched Falcon 9 on June 12. After the mission is completed, the device will return to the ground.

Varda believes that their new development can also be used to carry out various research in the field of hypersonic.

If everything goes by, Varda Space Industries plans to send a similar device to space at the end of this year. The American company has plans to create multiple production space modules and even has a plan to create a production space station in the orbit of the Earth.

During a briefing of representatives of the Security and Defense Forces of Ukraine in Military Mediаcenter, Deputy Minister of Defense of Ukraine Anna Malyar said that the Ministry of Defense monitors how the enemy fights

against Ukraine in the information field, and in real examples, unto the two main theses that are trying to give up Russian propaganda:

"Now the Russians are spreading two main theses. The first is about the allegedly large losses of the personal staff of the Armed Forces of Ukraine. Such information is aimed at demoralizing the Ukrainian army from one way, and on the other, on the contrary, to raise a spiritual army. Therefore, in this situation, it can be noted that, first, during the war, the same of the parties does not publish accurate data of its losses, because the enemy is nigger and can adjust its plans, including to assume and calculate our plans. Now we can talk only about the ratio, which at the beginning of the 2014 and a large -scale invasion of 2022, brief: the number of dead on the Ukrainian side is much or much or more than times lower than the loss of the enemy.

Yesterday we published these figures. If we talk about last week, in the area of operational responsibility of the operative-strategic groups of the Khortytsia troops, enemies were killed almost more times more than our servicemen. Speaking of the pronounced direction, the enemies were killed 5.3 times more than the Ukrainian people. The life of our warriors is the most valuable for us and is a priority in the time of planning military operations.

The second narrative, spread by the Russians to discredit military aid, refers to Bradley armored vehicles that partners provide us. " During the time briefing, Anna Malyar demonstrated a photo of Bradley BMP(M2 Bradley), in which the shell of the RSZV "Grad" was combined. In the first photo - the machine immediately after the direct number, on the second - a crew, which was successfully evacuated and continues to fulfill the tasks on other technique.

The hostile TG channels launched a misinformation and manipulative campaign, the purpose of which is to make Ukrainians.

About it [reports](#) Center for combating misinformation.

Rospropagandists will spread the provocative video, where they hint at the undermining of the Zaporozhye AAZ. In the video, the racists showed an explosion on the Crimean bridge, undermined the Nord Stream - 2, as well as undermining the Kakhovka hydroelectric power station. In such a manipulative method, the enemy hints that it is all the case of the hands of Ukraine and tries to remove the responsibility for the committed.

The video ends with a photograph of the ZPP and date 03.07.2023, which is evidenced by the elastic terrorist attack on a nuclear facility. In this way, the racists try to make Ukrainians, and also create for themselves infoaliba in the case of realization of the second Fantasy of Putin.

Russia throws the remains of ZEK-occupiers from the so-called assault mouth "Z" to the so-called "volunteer corps".

About it [reports](#) MOV Intelligence Directorate.

"For the regrouping and completion of the so -called volunteer corps" convicted persons, the military leadership of the Russian Federation formed a special commission, " - said the message.

This commission was headed by the Deputy Chief of Staff of the Russian occupation troops in Ukraine Major General Oleg Polgaev.

The GUR added that the members of the Special Commission of Polguyev on the temporarily occupied territories of Ukraine have enhanced security.

According to intelligence, the commission issued an order to select about 2,000 people who were prisoners, conducting training with them at landfills located at a time of occupied Ukrainian territories, and transfer to the war zone.

The discipline among the volunteers will be monitored by groups of military police of the Russian Federation.

It is noted that by order of Russian dictator Vladimir Putin, assault companies "Z" from convicted persons were formed to conduct offensive acts of city battles during the war against Ukraine.

"In practice, the occupation units, completed in prisoners, showed extremely combat capability. Among the bugs, alcoholism, looting, and desertion, including catastrophic losses, are flourishing, "the renovation said.

Live broadcast [TEMACHORFON](#) The only news spokesman for the Air

Forces of Ukraine Colonel Yuri Ignatius reported about the current situation in the sky of Ukraine, as well as how much the air forces of anti -aircraft managed missiles are in the Air Force.

Colonel Yuri Ignat notes that recently there is an activation of the enemy of unmanned aviation for intelligence purposes: at the beginning of the Ukrainian counter -offensive, and even earlier, in his anticipation - the war increases the pace of use of reconnaissance UAVs above the line of collision. They will be beaten in the future.

However, the Head of the Command of the Command of Air Forces emphasizes, it is always necessary to remember at what price of Ukrainian prototypical defense these whipped UAVs, missiles and other aircraft are given. This is the main thing, it is about the number of anti -aircraft managed missiles, which are used to destroy these air goals. Their consumption, reminiscent of Yurignat, on average for two for each goal, so that there is a confidence in its destruction. So Ukraine requires a huge number of not only modern Western anti -aircraft missile complexes, but also an extremely large number of ammunition for them. West, according to Colonel Yuri Ignat. He was not ready for such large -scale fighting in Ukraine. However, the shock has passed, the production of the means of the impression is growing, and partner countries are actively helping Ukraine, continuing to supplement weapons and ammunition.

Representatives of the coordination, the United SBU Center and the rehabilitation team, presented the existing order of work and highlighted current problems.

The representative of the Air Force presented the methodology of the disseminated survey, which gives the opportunity to systematize data, draw conclusions, learn lessons.

During the meeting, they also discussed important methods and practices of the work of Zaporizhia servants who have experienced captivity, as well as the stages of their reintegration.

Experts from the United States noted that it is very important and necessary for the training of each serviceman for survival in case of possible time in captivity. American experts got acquainted with the methods of work of Ukrainians with prisoners of war and recognized them as optimal in such quantities and available resources: material base and specialists, in particular prepared psychologists.

Important stages in working with defenders and defenders who have experiences were named at the meeting:

The main focus of the reintegration program is the restoration of physical and psychological state starting from the first minutes after returning. In the United States, reintegration groups can conduct a serviceman with experience of Polonivida 24 hours to 5 years after his release.

Ukraine is currently introducing new training programs for staff. It is important that they are ready, because the release of captivity occurs regularly and the time will come when we release all the prisoners. So now you need to increase the professional team.

The NATO-Ukraine Commission, which took place today at the level of defense ministers today, will be the last time, since in the future, the relations between the parties will be derived to the new format provided for Ukraine-NATO Council.

The Minister of Defense of Ukraine Alexei Reznikov stated this during a meeting with journalists after the meeting of the NATO-Ukraine COMMISSION COMMISSION, Ukrinform correspondent reports.

"As a lawyer, I do not like to make forecasts, but I can prophesy: it was the first since 2016 meeting of the Commission Ukraine-Ukraine, and I have a serious hope that it was. The next meeting of Defense Ministers from Ukraine and NATO, I hope, reconciliation or immediately after(Summit in)Vilnius - it will be the advice of Ukraine -NATO. This is a new level of relations, a new and higher level of interaction, if not a member of NATO, but will already be in all committees, in all representative meetings, with the right to raise issues that are issued in the relevant agreements. So, the next will be the meeting of the Ukrainian Council, with more opportunities, "said Alexei Reznikov.

**Read also: [Reznikov discussed with NATO Secretary -General Projects for Ukraine's defense capability](#)**

He recalled that on June 15, 2016, the last meeting of the Ukrainian Commission was held. Later, this format was blocked as a result of veto from Hungary. The first year later, this commission was held at the Defense Minister, with the participation of all 31 NATO Defense Minister Tukraine.

"It was an opportunity to convey our vision. Of course, we talked about our application in NATO, Vilnius, expectations, and strengthening our disability. The main thing that is very inspired and is important - from the morning, devoting with the US Secretary of Defense Lloyd Austin, we have already said industrial. We talked about future forces, the development of the capabilities of the Ukrainian defense forces even after we win - which at the time they are the Armed Forces of Ukraine on the eastern flank of Europe and NATO, " - said the Ukrainian military director.

Another achievement of this "last" commission of Ukraine-NATO was initiative and Luxembourg for the creation in IT coalition, which will be able to increase the knowledge of Ukraine, in particular, in matters of cyber defense. In addition, such ainitiative will join those countries that, for certain political measuring or reasons, cannot join a fatal coalition but will be able to join an IT coalition that can be formed within the frame.

As it was reported earlier, today in Brussels, within the framework of the first day of the work Council at the level of the Ministers of Defense, a meeting of the NATO-Ukraine Commission and the meeting of the contact group on defense of Ukraine under the age of Susha took place. The Minister of Defense of Ukraine Alexei Reznikov took part in these events.

Participants considered ways to continue and accelerate the provision of Ukraine's assistance for offensive against Russian invaders and for the release of terminals, as well as the issue of prospects of Ukraine's membership in **NATO** and receipt of safety guarantees by the time as long as such membership happens.

These and other major issues about the Alliance will be discussed during the NATO Vilnius Summit on July 11-12 this year.

The European Parliament has approved a resolution aimed at supporting Ukraine's restoration of its integration into the Alliance.

About this [it is referred](#) on the site of the European Parliament.

It is noted that **425** deputies were made "for" , **38** "against" \*\* and 42 abstained.

"The MEPs are calling on NATO allies to fulfill their obligations to the pre - Ukraine and to pave the way to invite Kiev to join the defense alliance," the statement said.

The resolution states that the MEPs expect the process of accession to develop after the end of the war and end as soon as possible.

The report also emphasizes that until the membership is reached, by the Esar with NATO allies and like-minded partners, they should "work closely with Ukraine in order to develop temporary security guarantees." Everoduta insist that they should be introduced immediately after the war.

"Parliament emphasizes that Ukraine's integration into both NATO and the EU will strengthen regional and global security and strengthen the tie between Ukraine's Taiurotlantic community," the message said.

Parliament is called for a comprehensive and adequate package of EU renewal measures for Ukraine, which should be focused on immediate, medium-and long-term assistance, reconstruction and restoration of the country.

"They are looking forward to the future review of the current long -term financial program and the proposed mechanism of Rebuild Ukraine Facility, which will cover the financing of the need for Ukraine in the coming years," the statement reads.

## I wish health, dear Ukrainians!

Report for this day. The first is that we have significant international steps that intensify our position in several directions.

The European Parliament has adopted a powerful resolution to support the European Taiuro -Atlantic aspirations of our people. There is a specific call for a leadership euro union to define a clear way of acquiring our state membership in the EU.

And in the issue of the Alliance, the European Parliament captures the meaning of our Ukrainian universal in Euro -Atlantic security, which stipulates that the path of Ukraine in NATO is a state -of -the -art invitation to entry in the context of the preparation for the Alliance Summit in Vilnius. Time for integration and security is obvious, and I thank you for the actual statement of this to all members of the European Parliament and Ms. President of the European Parliament Roberti Metzoli, as well as the Chairman of the Verkhovna Rada of Ukraine Ruslan Stefanchuk for his constant irregular work with the parliament.

The second significant international step for today is the bill on confiscation and transfer of our country as a reparation assets of the Russian state-a terrorist state. I thank the US senators who have a biparty support for this issue for justice for Ukraine's Tavi victims of Russian terror.

In dictatorships such as Russian, money is the highest value. And even more of persons who serve the management regime or are actually owners of state structures. Today he continued to appeal to the parliaments of our partners.

He called on the parliamentarians and the people of Switzerland and continue to maintain the unity of tasolidarity with us in protecting common values and freedom. It is very important that all in Europe we understand equally: only the power of weapons can now protect the life of the life that we all appreciate, in all countries - from the Atlantic of Durane, including Switzerland. This is our common task - to protect freedom, international law and human life.

He also spent telephone conversations with representatives of the two countries-Belize and Costa Rica. We build new partnerships for Ukraine-to support the formula of peace and our resolution in the UN in defense of the UN Charter and international law as a whole. The discussion of Mr. Costa Rica and Mr. Prime Minister Belize is the opportunity to organize a meeting of

Ukraine-Latin America. We can together give much more protection for freedom and equality of nations in the modern world.

An important report was today on the situation in Kherson region and in general, half -day countries, in our Dnieper after the Russian terrorist attack on Kakhovskaya HEP. Elimination of the consequences of catastrophe, assistance to people, providing drinking and all other sensitive and important issues. Government Schmigal, Klimenko Minister of Internal Affairs, Profile Deputy Head of the Kuleb Office, representatives of local authorities. Another report is the situation in Kryvyi Rih Taodes after recent strikes of terrorists.

And, of course, the front. I thank all our soldiers, every unit, every boost brigade for today - for today's fighting.

I will note especially six units. Khortytsia dawn-paratroopers of our powerful 80th separate Brigade of DShV. "Tavriya"-warriors of our 23rd separate mechanized brigade, Marines of the 35th and 37th separate brigades, warriors of the 128th-equally mountain and assault Transcarpathian brigade and the 128th separate brigade of Silro ... Your performance!For strength, courage, but that you return to Ukraine the Ukrainian land and strengthen our Ukrainian will.

Glory to everyone and everyone who is now in battle, at combat posts and at combat operations!Glory to all who train our warriors!Who treats and rehabilitates defects and defenders after injuries!

Thank you all in the world who helps. And, by the way, the next "Ramstein" today has been quite effective. We are still strong!

### ***Glory to Ukraine!***

Alexei Danilov

Ukraine should stand in the position of rejection of any nuclear blackmail. This emphasized Secretary of the National Security and Defense Council of Ukraine Alexey Danilov.

He noted the increased mention of the threat of nuclear war and called the "manipulative" formulation of the question of the threat of Putin's use of nuclear weapons.

"The thesis that, in my opinion, will now actively move to the Kremlin(Yunovorskaya key to the fundamental Western Phobias)that the presence of a nuclear bomb should automatically exclude the resistance of a country that has no such weapons. The country is the object of an attack of a nuclear state, if you go proposed by logic, provokes the threat of nuclear apocalypse. And in such a sequence the object of condemnation becomes not the aggressor, but the victim

We want to tell us: give up and do not resist? We do not need your freedom, we need our comfort and safety? This opinion will be tried to form in the world to refuse to support Ukraine, which by its actions, it turns out, "provokes" Russia ", - said Alexei Danilov.

According to the NSDC Secretary, in order for this false and deceptive logic not to become, we must not tired firmly and consistently in the position of not receiving any nuclear blackmail.

"We are not afraid of the so -called" second army of the world "nor the first in size of existing Russia, nor Putin's bunker rats and his nuclear bunk. Let us only be one - to lose freedom and in the struggle for it we will go to the end, "he added.

The problem of the Kremlin's nuclear madness, Oleksiy Danilov, is a non - violent exclusively Ukraine, it is the problem of the world.

"The world has long watched and if it did not knowingly help, then it did not interfere with the growth of the Russian monster. It was when Ukraine was forced to pass the second largest arsenal to the Russian nuclear arsenal, to equip the Russian Army Army with our winged rockets, when the world was a donor of modern technologies, a buyer of oil and gas, which became the basis for the financing of construction. When the international elites were corrupted and the Russian oligarchy was opened.

Yes, the officer reported that in the Bakhmut front of the front is currently underway.

-Remembering that over the past two weeks we used any opportunity to counter-attack, and released about 16 square kilometers of our territory, the enemy, despite a significant advantage in the personal staff of the tactics, works very carefully,-says Colonel Sergey Cherevaty. —To, in the Bakhmut direction, there were only two combatants. The active efficiency was in terms of the use of artillery: 285 times struck the trunk with jet artillery. Made 3 aircraft. During the battles, 67 samples were destroyed, 110 were injured, 4 were captured.

In addition, according to the officer, the Ukrainian defenders destroyed the self -propeller, anti -tank rocket complex, as well as the modern stations of the Triad radio. Two hostile field warehouses with ammunition were destroyed. The enemy used artillery in the Limano-Kupyansk direction-here the enemy was fired at the position of our Vivsk from various artillery systems 502 times. Seven times the Russians tried to attack our positions on the front of the front, made 9 aircraft. However, all that was brought to the enemy of any benefit, because all hostile attacks were reflected - Ukrainian defenders do not give the Muscovites a chance to advance on this way or at least shake our defense. During the fighting, 31 the occupier was reduced, 62 were injured. Also, as a result of strokes on the positions, the Voicebulo set the complex of visual observation "Mur-M" was destroyed.

ARMIA INFORM

The Drone Army Academy launched the second stage of UAV operators. Another 10,000 soldiers are mastering drone management and joined for the forces of defense with new effective skills. The ArmyInform correspondents visited one of the polygons of Kyiv region and learned about the stages of training of drones, their preparation process in special schools and who will be able to use future experts this time.

**Reference .** *armia drones are a joint project of the General Staff of the Armed Forces, the State Secretariat of Communications and the Ministry of Digital Transformation, the Ministry of Defense. During the over11 months of the Army of Drones, 3864 complexes were purchased at the United24 expense. The total amount of contracts concluded is over UAH 4.3 billion.*

- In the first stage of the training project, 10,000 operators passed. There is now a launch phase, within which another 10,000 soldiers are masked by driving drones. I explain that in the next six months we will be able to achieve this goal. It is to effectively perform tasks on the front, to reduce the loss of drones of Tanayalore - to save the life of as many defenders as possible, - said the Minister of Digital Transformation Mikhail Fedorov.

In total, the drone army has signed a memorandum with 26 schools that teach UAV operators. Some of them were present at today's event. The schools have renovated different types of unmanned aerial vehicles and showed how these "birds" work in combat.

[!/\(Images/APMIRINFORM/2023-06-15T92-00-00-04-00/1h9a7234-150x150.jpg\)](!/(Images/APMIRINFORM/2023-06-15T92-00-00-04-00/1h9a7234-150x150.jpg))

- We come to study motivated boys and girls. And even if they never kept drone in their hands, two to three weeks, each becomes a professional user. Our instructors have many years of experience in robotiza drones, so we know all the nuances in preparation and try to make everyone after these exercises a specialist in this case, - says Vyacheslav Ponomarev, instructor of the Center of UAV Kokrok.

This time, the training will be held not only on copter, but also on FPV-ames and diggitacles. In total, the drone army plans to release 7 600 operators, 2,000 FPV-pilots and 400 UAV operators of the aircraft type.

The instructors also added that during training, all cadets first undergo the theoretical part, where they study the technical parameters of drones, maintenance of equipment, cartography, tactics of flights in the conditions of EWS, masking, demanding factors of the enemy, etc. And the practical part of the sprouts on landfills and missions that are as close as possible to real - wrote.

[!/\(Images/APMIRINFORM/2023-06-15T92-00-00-04-00/1h9a7114-150x150.jpg\)](!/(Images/APMIRINFORM/2023-06-15T92-00-00-04-00/1h9a7114-150x150.jpg))

- Our school teaches us usually operating military people who are only planning to go to Naphront. We have many directions: we teach to fly both civilian drones and fpvrons, we have courses on radio electronic intelligence, radio communications and others. We have a powerful theoretical base, which is supported as powerful practical training. Now the war of technology is ongoing, accordingly, the better you have technologies and more promptly you respond to some danger, the more you have to stay alive, - says the head instructor of the school Bury Vierolexander Sky.

Training in these schools is free of charge for current representatives of the Defense Forces of Ukraine. The completion of the course will receive a

school certificate, which confirms their readiness to apply developed skills at the front.

The soldier Vladimir serves in one of the parts of the Kharkiv garrison. In the

middle of June, he came to the Military Medical Officer, located in the Narobozhanshchyna to pass the Military Medical Commission.

He chose the time of visit himself, based on his official employment and state of health, with the help of special software "E-Merga".

Visitor of the NMCC PNR Soldier's Lordimir

According to the command of the military-medical institution, the first version of the e-n-monk was introduced in February 2023.

-Four months ago, we used our own technological development to record and pass the Military Medical Commission,-explains the head of the departmental medical staff. - The results were quite significant then. In May, we will establish a better version of "E-Berg". I note that we have successfully implemented other technological innovations, namely: MIS MISTS SMART, specialized ER Hospital software, Tracker software and others.

By the way, from the beginning of a large-scale invasion of occupiers in this medical facility has increased the number of visitors among the defenders and defenders of Ukraine. Of course, the burden on all doctors increased proportionally, working with visitors in the clinic.

[\(Images/APMIRINFORM/2023-06-15T94-00-00-04-00/harkiv-gospital-5-150x150.jpg\)](!/(Images/APMIRINFORM/2023-06-15T94-00-00-04-00/harkiv-gospital-5-150x150.jpg))

The temporary executor of the chief of the clinic explained that through professional features, queues sometimes occur near the offices of such doctors as: neuropathologist, traumatologist or psychiatrist. She added that quite often they come to them boys and girls of the spare registration in the E-Brga system. For various reasons, some units of units do not yet enjoy the possibilities of innovation. Therefore, the warriors are divided by the corresponding paper documents for the VLK.

-Of course, we do not refuse to anyone and accept everyone without records in "E-Berg". However, it should be understood that in such cases there is some correction of schedules of visiting doctors. There is another point here. Yes, if one is a well -deserved person after injury on crutches comes to us, then we somehow go to help her. But what do we do when such soldiers in one day do not get one or two? As a practitioner, E-Merga is a very efficiency in terms of the VLK. I believe that everything will gradually work out and all the employees will send people to us only after electronic registration, - said the military doctor.

According to this military medical institution, they do not hide problematic questions and are constantly working on their solution.

## **I wish health, dear Ukrainians!**

Report for this day. The first is that we have significant international steps that enhance our position in several directions.

The European Parliament has adopted a powerful resolution to support the European Taiuro -Atlantic aspirations of our people. There is a specific call for a leadership euro union to define a clear way of acquiring our state membership in the EU.

And in the issue of the Alliance, the European Parliament captures the meaning of our Ukrainian universal in Euro -Atlantic security, which stipulates that the path of Ukraine in NATO is a state -of -the -art invitation to entry in the context of the preparation for the Alliance Summit in Vilnius. Time for integration and security is obviously came, and I thank you for the actual statement of this to all members of the European Parliament and Ms. President of the European Parliament Roberti Metzoli, as well as the head of the Verkhovna Rada of Ukraine Ruslan Stefanchuk for constant irregular work with the parliament.

The second important international step for today is the bill on confiscation and transfer of our state as a reparation of the Russian state-the terrorist state. I thank the US senators who have a biparty support for this issue for justice for Ukraine's Tavi victims of Russian terror.

In dictatorships such as Russian, money is the highest value. And even more of persons who serve the management regime or are actually owners of state structures.

When the state-terrorist and all Russian persons whose labeling with the Kremlin loses its money with the Kremlin created the conditions for Russian aggression or which are an inviocean cover for Russian corrupt officials, then a very important goal will be achieved-they will feel what loss is. They do not respect life and are notable when human lives are lost. The Russian dominant class does not appreciate the people and is ready to spend human lives for hundreds of thousands. But they regret the money - those who have appropriated by the way. They value their assets. They should be lost, and in favor of those who suffered from their aggression, from this terrorist war in favor of our country, our people.

Today he continued to appeal to the parliaments of our partners. He also spent telephone conversations with representatives of the two countries-Belize and Costa Rica. We build new partnerships for Ukraine-to support the formula of peace and our resolution in the UN in defense of the UN Charter and international law as a whole. The discussion of Mr. Costa Rica and Mr. Prime Minister Belize is the opportunity to organize a meeting of Ukraine-Latin America. We can together give much more protection for freedom and equality of nations in the modern world.

An important report was today on the situation in Kherson region and in general, half -day countries, in our Dnieper after the Russian terrorist attack on Kakhovskaya HEP. Elimination of the consequences of catastrophe, assistance to people, providing drinking and all other sensitive and important issues. Government Schmigal, Klimenko Minister of Internal Affairs, Profile Deputy Head of the Kuleb Office, representatives of local authorities. Another report is the situation in Kryvyyi Rih Taodes after recent strikes of terrorists.

And, of course, the front. I thank all our soldiers, every unit, every boost brigade for today - for today's fighting.

I will note especially six units. The Khortytsia fell-paratroopers of our powerful 80th Separate Brigade of DShV. "Tavriya"-warriors of our 23rd separate mechanized brigade, Marines of the 35th and 37th separate brigades, warriors of the 128th-equally mountain-assault Transcarpathian brigade and the 128th separate brigade of Silro ... !For strength, courage, but that you return to Ukraine the Ukrainian land and strengthen our Ukrainian will.

Glory to everyone and everyone who is now in battle, at combat posts and at combat operations! Glory to all who train our warriors! Who treats and rehabilitates defects and defenders after injuries!

Thank you all in the world who helps. And, by the way, the next "Ramstein" today has been quite effective. We are still strong!

**Glory to Ukraine!**

The UN International Court of Justice has completed public hearings in the Ukraine Anti-Protection Case on the violation of the two conventions by the occupying country-on the struggle of terrorism and the elimination of all forms of racial discrimination. This is the first case of Ukraine against the Russian Federation in international judicial institutions, which was heard.

Olga Kurishko was present at the hearings as an expert from the Ukrainian delegation. The delegation was headed by the Ambassador of the Foreign Ministry of Ukraine, the agent of Ukraine in court Anton Korinevich, and the representation of the President of Ukraine to the Autonomous Republic of Crimea and others also entrusted.

According to the representative office, two rounds of speeches of the parties took place in the Hague: on June 12, the legal team of Ukraine performed, and on June 8 and 14 - Russia. Listeners were devoted to the consideration of the case, so after the court heard to have a decision.

We will remind, Ukraine on January 16, 2017 filed a lawsuit in the International Court of Justice in front of the Russian Federation on violation of the Convention on the Prohibition of Financing of Terrorism of Taxism on

Prohibition of Racial Discrimination. The United Nations International Court of Justice recognized its legal one in the case of violation of these two conventions on November 8, 2019.

The accusations, nominated The activities of the Majlisukrim Tatar people, a wave of violent disappearances, murders, illegal and arrests in the occupied Crimea, as well as restrictions on teaching Ukrainian and Crimean Tatar languages in Crimean educational institutions.

General View of Themeting

In Brussels, the next, thirteenth meeting of the contact group on the Defense of Ukraine in Ramstein format took place. She, according to the Minister of Defense Shatloid Austin, took place "at a critical and historical moment" - against the backdrop of Ukraine on the liberation of its territories from Russian ash.

The ministers of defense agencies have agreed on more than 50 countries, which have been brought into the meeting - in the article by the Army.

### **Allies of Ukraine have agreed new military assistance for defense forces**

Pentagon Head Lloyd Austin at a briefing following the meeting of the contact group on Defense of Ukraine in Ramstein format on June 15 [declared](#) that the Union countries of Ukraine have agreed on new military assistance for the defense forces.

Yes, a number of countries have reported training plans for Ukrainian military and support for Ukrainian equipment. Germany and Poland reported support for Ukrainian Leopard tanks. And the Netherlands and Denmark - about progress to train Ukrainian pilots.

**Canada** [declared](#) On the allocation of the package for \$ 500 million to support Ukraine. 288 AIM-7 missiles will be awarded to Ukraine's Armed Forces to protect the sky. Also Canada:

Canadian Defense Minister Anita Anand said 116 of 200 armored machines that promised Ukraine have already been delivered, and 18 more have to deliver a tank week.

6750 assault rifles will also be delivered in the coming days; 1.1 million of cartridges 7.62 mm; 250 000 caliber cartridges 5.56 mm; 70 000 Sniper ammunition. Lloyd Austin noted that **Italy** also announced the provision of new, critical need for Ukraine. And several partners consider Ukraine support in the long run.

**Norway** and **Germany** announced packages for several years, and **Denmark** announced its package for about \$ 2.6 billion for military assistance for 20124.

Lloyd Austin also recalled that the equipment received by Ukraine and weapons are consumed by Ukrainians withstand and bring victory closer.

"Patriot, Iris-T and Nasams have saved the lives of Ukrainians," the minister emphasized, and urged the group members to continue to provide NAPPO and ammunition systems.

Mr Austin also assured that partners will provide Ukraine with this stage of assistance, but also one that the state will need a long run so that Ukraine can protect itself from further possible aggression by Russia.

In particular, as he explained, it is about plans to prepare the military. In his opinion, this will establish the foundations of future cooperations and the Armed Forces.

The head of the US defense agency also mentioned the announced new package of the United States worth more than \$ 2 billion, which includes additional tubes for Patriot and HAWK systems, missiles, 105- and 203 mm. In addition, he noted that Biden President approved the transfer of the next \$ 25 million benefit, which includes Nasams and HIMARS, additional Bradley, anti -tank weapons and more.

The Pentagon Head also emphasized the recent missile attacks of the Russians with a cover horn and flooding of large territories of Kherson region through the destruction of Kakhovskaya hydroelectric power station. He noted that they are another reminder of the devastating innocent of Russian aggression for innocent civilians.

At the same time, Mr Austin noted that Ukrainians continue to inspire all the luminosity and resistance of the aggressor, the efforts to liberate their own territories and the restoration of the sovereignty of the state, and the Armed Forces by showing the extraordinary courage and skill.

He thanked all the participants in the Ramstein format for their support for Ukraine.

But once again he said that Russian President Putin, when starting his great war on Ukraine more than a year ago, thought he would easily win - he was wrong. **Fighters for Ukraine**

The closure of the Ukrainian sky, in particular, the need to provide Ukraine with fighter generation was not for the first time voiced by the Ukrainian side, and the universities concentrated their efforts on strengthening the air defense systems for Ukraine, stating that giving fighters it is a long -term process.

However, today at the 13th meeting of the Contact Group on Assistance to Ukraine, Ramstein, Brussels, except the closure of the Ukrainian sky with the help of the Ukrainian air defense(Pentagon's head noted that strengthening the Ukrainian PPO is necessary for the protection of the civilian population and the critical infrastructure)Ukraine also received assurances from partners

to start pilot training on modern fighters.

According to the Minister of Defense of Ukraine Alexei Reznikov after the meeting, he also wandered about the clear intention of the Allies to build a "fighter coalition".

According to the Minister of Defense, the Ukrainians will first begin training exercises of F-16 led by the Netherlands and Denmark. And then othericraines join.

Earlier it became known that Ukrainians will go to study at the F-16. The pilots were selected, they had a number of requirements. The Ministry of Defense also named the required F-16 for Ukraine, in particular, Ukraine hopes to receive from the Winning partners about 40-50 F-16 fighters and form three or four-levels for protecting the sky.

Recall that a few weeks ago, US President Joe Biden gave good to training Ukrainian pilots to work at the F-16, and the subsequent transfer of these fighters to the Ukrainian side. The United States was categorically opposed to conversations about modern -year -olds for the Armed Forces. Also, the other day Alexei Reznikov reported that it is possible to receive from the Allies not F-16, but fighters of another type. "Today, my colleagues Luxembourg François Bausch and Estonia Minister Khan Hannovurus have supported my

idea of creating an IT Coalition of Ramstein. They are ready to take the leadership role in creating this group, "he wrote.

### **Austin commented on the Russian statements about the Russian Allied Ukrainian Technology**

US Secretary of Defense Lloyd Austin during a meeting of the Ramstein contact group stated that the Russians show the same tuning equipment from different angles.

The head of the Pentagon noted that damage to military equipment on the field is fighting, but the Russian side is distributing photos and videos, depicting "those self -apple cars almost a thousand times from ten different angles."

"As for the loss of technique: this is war. Yes, we know that the damage of Napoli battle will be on both sides. But it is important that Ukrainians have the opportunity to display damaged equipment, to repair where possible, and return this technique to the battle. And also that they have means to continue to move forward, "Austin said at a briefing after meeting the contact group from Ukraine's defense in Brussels.

He stressed that the damage to military equipment will continue, but "if not, Ukrainians still have many combat capabilities." Lloyd Austin also asserted that, as expected, it was a "difficult battle", but he believes in the victory of Ukraine.

## **Ukraine is able to liberate its territories**

NATO Secretary General Jens Stoltenberg at the Ramstein Meeting Pressing Form, said that NATO representatives have decided today "how to protect and strengthen Ukraine's support. After all, Ukraine has become a counter - offensive assistance to NATO countries is important for success in the battlefield.

He noted that these successes are due to the courage and skills of Ukrainian soldiers, but they also demonstrate that the support of NATO countries as they attach Ukraine to Ukraine "actually relevant on the battlefield." We will remind, the day before, on June 14, Ukraine gave a clear signal to read the invitation to NATO membership during the July Summit of the Alliance.

Reference. The meeting of the contact group for assisting Ukraine in Ramstein format was founded in the spring of 2022 after the large -scale invasion of the Russian Federation in Ukraine. On April 26, Ramstein Air Force Air Force in Germany took place a first -time consultative group. The Minister of Defense of Ukraine Oleksiy Reznikov after the meeting stated that there were "tectonic changes" in the philosophy of partners on the transmission of weapons. Since then, meetings of the advisory group have decided to conduct a month.

The previous 12th meeting took place on May 25. It discussed the strengthening of Ukrainian air defense, strengthening of "armored fist", repair production of military equipment.

On June 12, the Minister of Defense of Ukraine Alexei Reznikov spoke about expectations from the future meeting in Ramstein format. .

According to the minister, these issues will be discussed during the Ramstein's Ramstein from the Netherlands, Denmark, USA and other countries of the Defense Commander. That is why, as Alexei Reznikov noted, representatives of the Air Force of the UKRAINE took part in the Ukrainian delegation at this meeting.

Representatives of the headquarters and the command of the Siterritorial Defense of the Armed Forces of Ukraine answered the questions.

About this the coordination headquarters on the management of prisoners of war [reports](#) In his official Telegram channel.

The staff representative recalled that the military unit conducts a service after the fighter disappears on the battlefield and determines the accounting category - for example, missing missing. Some also announces the territorial central complex and social support, and he in turn reports the family. But bywoman can announce the headquarters when they find any of the missing data.

"If the situation allows, then the servicemen take away the bodies of the dead," said the representative of the TRO Command. "But it is important here to protect others and not increase the number of losses."

Troy representative also stressed that the accounting category "missing" in addition to confirmation through ICRCs may change in several circumstances: DNA coincidence with the sample of the deceased, the court's recognition of death, the return from the captivity from the shelter, if the fighter was hiding in the so -called gray area or name .
