President of Ukraine Volodymyr Zelenskyy [applied](#) to Ukrainians on the 395th day of the war:

I wish health, dear Ukrainians!

Today, our National Guard celebrates its day, and it will be right if we thank the National Guard together. For the National Guard, along with all the warriors, he powerfully beat Ukraine. Thank you for the strength and strength of killing for the Donbas. For the defense of Bakhmut and Avdiivka. For the heroic protection of Mariupoli "Azovstal". For fighting in Luhansk region. For the fighting in the Kyiv region, for the battle for Kiev. They keep defense in the south, in the Zaporozhye direction.

Separately, I want to thank for the onset of the offensive, which has already become an example of the formation of new brigades for Ukrainian defense.

During the large -scale war, almost 5,000 National Guards have been marked by state awards - it is for participation in battles, for bravery, for stability, a slaughter, which is reached by the National Guard. 32 National Guard fighters awarded Hero of Ukraine.

I thank all the Guards: soldiers, sergeants, officers, command!Thank you who helps the National Guard units, who trains the fighters, provides them with them necessary, helps with treatment after injuries, with rehabilitation.

The power of Ukraine is the power of all who fight for Ukraine and who helps the soldiers. It is simply impossible to Yuena our state force without the National Guard.

Today there was a meeting with the military - a special military meeting, a special participant. He also held meetings with intelligence.

Defense, strengthening of our protection - both from the external threat, as well as the internal threats. We are preparing our appropriate steps.

Constantly, unchanged maximum attention - the situation on the forefront. Cruel battles, how much they take away the lives of our people and require a permanent mobilized stinker state and society every day.

It is wrong, it is unfair when our fighters who come in the front have a feeling that for many, the war has been in the rear. For those who are not just far from Donetsk or Nikopol, Saltivka, from the border areas of Sumy region, from Zaporizhzhya ... And who is thoughtful from the trenches, from the daily pain of Ukrainians.Dear Ukrainians!Support our fighters always when possible. Also, also about volunteer meetings and join when you can.

It is very important that everyone who has information influence is involved in the viral work. This applies not only to journalists. This applies to anyone who

can spread the truth about aggression. Who is capable of reminding the world of pro -Ukrainians and Ukrainian women who have passed through occupation through losses ... about what Ukraine is fighting for freedom and justice for both our people and for all the currents that are threatened by Russian tyranny. The world should be heard as intensively as last year that aggression against Ukraine is ongoing. He should hear that to end the war this year, to liberate Ukraine from Russian evil this year - the recipient task of the civilized world. Because civilized means, in particular, the irrespection to protect civilization.

He met with goodwill Ambassador UNICEF Orlando Bloom and UNICEF - Organization team that deals with humanitarian support and protection of children. Orlando Bloom has long been working with this direction. He was already in Ukraine, Nanha Donbass, even before the full -scale war. And he knows that this aggression has brought, how full -scale the efforts of the world should be to stop it to draw Ukraine after the war.

We discussed the issue of reconstruction of our country, our school infrastructure. Avid this help. We agreed to make our teams work on a few layers.

In particular, this is the issue of the return of our children who were exported to Russia by the creation of bomb shelters for our children. And the third is the technical support of dystioning training in areas and areas where it is impossible to study offline secrets.

Today, as always, I will celebrate our soldiers, who gave a significant result of Ukraine for the last day, for this day, in general this week.

57 Separate Motor Infantry Brigade, 5th Separate Storm Brigade and 93rd Separate Brigade-Well done, boys!Thank you for your power!

Marines of the 35th and 36th separate brigades, fighters of the 55th Artillery Brigade "Zaporizhzhya Sich"-all in Donetsk-thank you for being the best in the week!

I also want to celebrate our warriors today, which defend the summary and Chernihiv region. It is also a defense against attempts to start DRG across the border, it is the attachment of Ukraine from air strikes, it is also a protection against terrorists. **_ Glory to all our soldiers who are in battle!_**

_ Thank all who help defense!_

_ Eternal memory and respect to all our soldiers who gave their lives in Ukraine!_

Glory to Ukraine!

According to the experts of the Government Response Team to Cert-UA, a year ago, the Sector of Security and Defense took the second place a year ago.

Such a high proportion indicates not only that this segment is interesting for the hackers, but also that local authorities are still insufficiently protected by the enemy, which is usually explained by a lack of funds and experts.

As a result of large -scale special operations in Kharkiv and Donetsk regions, a branched agent network of the FSB, which is composed of locals, was

composed. The attackers were collecting intelligence on the places of moving forces of defense in the territory of the regions.

About it [reports](#) Security Service of Ukraine.

In the "special attention" of the enemy there were routes of movement of military echelons and dismantling of railway stations, which unload the arms of the Armed Forces. The agents also explored locations with ammunition, fire positions, checkpoints and fortifications of Ukrainian troops in the frontline areas of Ukraine and Dnipropetrovsk.

In addition, they convey to the occupiers the coordinates of strategically important bridges. The attackers recorded the results of Russian missile strikes by Pokramatorsk, Druzhkivtsi, Konstantinovtsi and settlements of Kharkiv region for argument of repeated air attacks.

Also during the temporary occupation of Izium and Balaklava, the persons involved in the local occupation administrations.

The SBU counterintelligence officers in stages documented the criminal acts of Russian agents ashamed four participants of the enemy network. One of them used the status of an assistant People's Deputy of Ukraine and the certificate of the journalist.

Four more are in the territory of the aggressor country. Complex measures are underway for them.

According to the investigation, the agent network was formed by two FSB personnel employees before the start of a large-scale invasion. It was a agent who was previously recruited by the Honorary Consul of the Russian Federation in Kharkiv. Other participants of the group, the aggressor was involved in unspoken cooperation remotely or during the traveling of the persons involved in the Russian Federation. Each of them was awarded a conspiratorial legend.

After February 24 last year, the FSB "activated" its agent for exploration and subversive activities against Ukraine. The transfer of intelligence to the RFZlovniki was carried out through a telegram channel in the form of media files of Tagelocations on electronic maps. In the case of occupation of the regions, the traitors "claimed" for entry into the management of the occupation administrations. In addition, according to the coordinates revealed during investigative actions, counterintelligence was a hostile cross with a weapon that the invaders left during the escape of the defense forces in Kharkiv.

On the basis of the evidence collected, the security services informed the detainees in the state treason, which was committed in the state of martial law. The trial of the arrogant event is detention. The investigation is ongoing to hold the responsibility of all perpetrators.

MOC calls for determining the path of Russian and Belarusian athletes to competitions as "neutral".

We regret that the IOC has used these concerns as an excuse to radically change their premium reasoned position on the recommendation to prevent Russian and Belarusian athletes and officials to international sports competitions. We want to emphasize that not the nationality of athletes defines their role, but the fact that they are sponsored/supported by their governments or companies that support the Kremlin regime that continues their aggressive war against Ukraine, or even they are directly Russian, "the message reads.

The signatories remind that every day the Russian military continues to attack the civilian infrastructure of Ukraine, including sports facilities and killed by Ukrainian, including Ukrainian athletes. of South of Ukraine Natalia Humeniuk, a united Press Center of Defense of South of Ukraine, said in the direct elage of the Tele scale.

-In the direction of the Dnieper-Buzi estuary for three days in a row there is no visualization. Obviously, after the destruction of the field warehouse with ammunition at the same way, the Russians do not have the possibility of their supply. Also, the enemy does not have the possibility of pulling equipment, even mortar weapons, since the successful work of our units was destroyed by their combat positions, ashtorm does not allow free movement. Therefore, we work together with the forces of nature we continue to liberate our territories.

Humeniuk also noted that in the southern direction there is a certain increase in the activity of the enemy.

-This is due to the work of security and defense units for cleaning the 20-30-kilometer strip on the left bank of the Dnieper. This combat work is undergoing and has results. For example, shelling of the Kherson region of the past was fixed at 90-100 shelling per day. Currently, this figure has fallen to 50-60. This suggests that the logistics of the enemy is seriously undermined, they have increased many warehouses and weapons, including artillery and jet installations, and cannot establish a new supply of weapons and ammunition. Automation of anti -polishing missiles last day in the Kherson region, say that the enemy continues to use aviation and is very afraid of our prototypical defense.

Despite the difficult economic situation, the government has already indexed pension payments during a full -scale war. As of today, all pensions are fully

paid. On this emphasized Prime Minister Denis Shmigal during a meeting of the Cabinet of Ministers on March 28.

"As a result of the indexation in this March, the pension increased by almost 20%. The Indexation touched 10.5 million Ukrainian pensioners. The average calculation was almost 600 UAH. Now the average pension in Ukraine is 5200 UAH, "the Prime Minister said.

The government also increased payments to military pensioners and liquidators at the Chernobyl NPP. According to Denis Shmigal, the average increase in the pensioners exceeded a thousand hryvnias for these aspects.

This increase will affect about 600 thousand Ukrainians. Appearances of age, which were introduced by the President of Ukraine Volodymyr Zelenskyy, also remain valid, the Prime Minister assured.

"We understand that citizens of retirement age need special support during the war. Therefore, we found resources, indexed pensions, continued supplements, we provide subsidies and benefits, help everyone who needs it, "Denis Shmigal emphasized.

The Prime Minister thanked the international partners, through which Ukraine can fully and timely finance all critical expenditures of the budget, as well as the Ukrainian business and all taxpayers. After all, all the funds paid by the wake up are directed to the army and safety.

Counterintelligence of the Security Service, together with the staff of internal and self -safety of the State Border Guard Service, exposed another Russian agent in the Khodispetso operation in the Chernihiv region.

The inspector of the Chernihiv border detachment was the person involved.

Even before the full -scale invasion, the official was recruited by the FSB personnel.

[!/\(Images/APMIAINFORM/2023-03-28T90-00-00-04-00/337725610_597971008889078_7868521440276346887_n-150x150.jpg](!/(Images/APMIAINFORM/2023-03-28T90-00-00-04-00/337725610_597971008889078_7868521440276346887_n-150x150.jpg)

After February 24 last year, the enemy "activated" his associate to carry out intelligence and subversive activities against Ukraine in war.

First of all, the aggressor was interested in combat orders and a plan of measures for the engineering and technical arrangement of the state border within the Chernihiv region.

It was these secret information that the Russian agent had to find, take a picture, and to pass on to his "curator" the FSB through the messenger in telegrams.

Intelligence was needed by the occupiers to prepare and hold the series in border areas in the north of Ukraine.

However, the SBU staff worked for ahead - in a timely manner exposed the owner and detained him on an attempt to transmit information with a limited accessor.

On the basis of the evidence collected, the security service investigators informed the person involved in the progery under Part 2 of Art. 111 of the Criminal Code of Ukraine(a state betrayal committed in a state of martial law).

Зловмиснику обрано запобіжний захід - тримання під вартою.

Триваєрозслідування для встановлення всіх обставин злочину і притягнення винних довідповідальності.

На думку незалежних експертів, це пов'язано не лише з тим, що Китай раптом розкуштував білоруські товари, через ЗКНР вони можуть йти на ринки третіх країн. На сьогодні білорусь у китайській зовнішній торгівлі займає лише 0,09 %. Основними партнерами Пекіна є США (16.2% of exports) and EU (15.6 %). Center for Combating Misinformation in NSDCs [debunk](#) Fake of the Russian Federation:

Rospropaganda is actively spreading the news of intercepting the first managed missilegladb, despite the fact that Ukraine, at least officially, has not received them from allies

Actually

GLSDB missiles are not yet armed in the United States and the US administration orders this weapon for Ukraine from the manufacturer - Boeing and SAAB, and does not transmit to the US Armed Forces.

The United States military aid package was announced on February 32023, and the first batch of GLSDB missiles, according to Western analysts, will be able to nine months.

However, Rospropagandists, led by the Ministry of Internal Affairs of the Russian Federation, lack of data in Ukraine does not prevent them from "intercepting" and boasting in fictional victories.
