The world must be: respect and order will return to international relations only when the Ukrainian flag will return, when there will be freedom - just like Ivsya in Ukraine.

This emphasized in his evening President of Ukraine Vladimir Zelensky, reports Ukrinform.

Video:

I wish health, dear Ukrainians!

Today is a busy day.

The first is a bet. The main attention is the battles for Avdiivka and Bakhmut, for Luhansk region, warned from those areas where the enemy tries to break the defense of all Ukraine.

And I thank every soldier, sergeant, officer and general who are opposed. Who gain sustainability - the whole state - it is there, in the battles of the most advanced points of the front line.

The pond was reported by commander of directions, head, intelligence.

Separately - preparation of new crews. Supply of ammunition and weapons to troops.

Second. The NSDC, together with the government, together with the ministries prepares a new powerful list of persons working for aggression. They will be blocked.

Third. He conducted a long meeting on energy, issues of strategic development and protection of our power system under all conditions, as well as current quotes-about the energy supply of our people and Ukrainian business.

Fourth. In the official life of our country we add a new tradition of respect.

Hundreds of thousands of Muslims of Ukraine and the Muslim community of the world are different states, different peoples - during the Holy Ramadan, they adhere to a harsh fast. The sun sends, Ehftar occurs - dinner.

In Ukraine, this is honored everywhere, and even in the front, even in the conditions of fighting. Crimean Tatar people honors Ramadan ... Respect should always be mutual. So this year, a special event will be held in Ukraine with the participation of the Head of State. And today for the first time - in the Crimean Tatar Cultural Center.

The world must know: Respect and order will return to international relations only when the Ukrainian flag will return to Crimea, when there will be freedom - just like everywhere in Ukraine.

He was honored to reward our soldiers, Ukrainian Muslims who fight together Zuzima in the Defense forces of Ukraine. He was honored to divide Eftar with our warriors, Majlis representatives, all Ukrainian Muslim community. And fifth.

He has signed several decrees today on celebrating state awards. 771 fighter.

Warriors of mechanized crews, assault, terroborons, our anti -aircraft, tactical aviation, artillery, intelligence, engineering crews, tankers. In general, the time of the full -scale war is over 43.5 thousand of our defenders and defenders defined by state awards.

I thank everyone who defends the state! Glory to everyone who is now in battle for the adviser!

And I congratulate everyone who celebrates the Annunciation today! We pray for the victory of our military and salvation of all our people from evil occupation!

Glory to Ukraine!

The Olympic Champion in the Greco-Roman Wrestling, the deputy of the Verkhovna Rada of Ukraine, Zhan Beleniuk expressed his dissatisfaction with the work of the National Olympic Committee of Ukraine.

He told about it exclusively in a comment to Ukrinform correspondent.

"We have examples of two parallel organizations - the International Olympic Committee and the International Paralympic Committee. But they are working at this point. As I communicated with Mr. Valeryzushkevich, who heads the Paralympic Committee of Ukraine, he told me how they achieved not only the not admission of these athletes, even in the case of talking about the possible return of Russian representatives and Belarusine. Plus, they generally brought Russian representatives to Tabilorus from membership of the entire organization. This is a large -scale sidelines there. From the other side we hear Mr. Gutzait's statements about the fact that he was sending out letters, but we see an urgent result, "Beleniuk explained.

He emphasized that arguments to allow Russians and Belarusians to the competition see cynical.

"I think that it is not for the Russians to say about discrimination in those conditions when the Ukrainian athletes are not only able to lose their relatives and close ones. They are relocated to other locations in Europe, or simply temporarily displaced persons who are in the boundaries of their homes and train on the western part of our country. Sametaki arguments would definitely be relevant in order to communicate at the Rivonon with these speakers, who somehow very much consider this story. We start to do this when the situation has flared up, struggling directly with the consequences, then, of course, it is more difficult for us, "Beleniuk said.

The Olympic champion is convinced that it is necessary to fight to the end in order to prevent Russians from games in Paris.

"Athletes call me calling for the fact that they do not understand their prospects at all. Whether they need to play sports, whether they can already tie sports and go to work for some other work. My position in this situation, which I voiced before, sounds as follows: it was necessary to fight Israz to fight for removing Russian Tabilorus representatives from competitions. Because otherwise athletes will become hostages. And we do not want us to have a similar choice, " - Odbeleniuk. As reported by Ukrinform, the Cabinet of Ministers has decided that Ukrainian athletes will compete at international tournaments, which will be presented with athletes of Irrigation and Belarus.

The Olympic Champion in the Greco-Roman Wrestling, the deputy of the Verkhovna Rada of Ukraine, Zhan Beleniuk expressed his dissatisfaction with the work of the National Olympic Committee of Ukraine.

He told about it exclusively in a comment to Ukrinform correspondent.

"We have examples of two parallel organizations - the International Olympic Committee and the International Paralympic Committee. But they are working at this point. As I communicated with Mr. Valeryzushkevich, who heads the Paralympic Committee of Ukraine, he told me how they achieved not only the not admission of these athletes, even in the case of talking about the possible return of Russian representatives and Belarusine. Plus, they generally brought Russian representatives to Tabilorus from membership of the entire organization. This is a large -scale sidelines there. From the other side we hear Mr. Gutzait's statements about the fact that he was sending out letters, but we see an urgent result, "Beleniuk explained.

He emphasized that arguments to allow Russians and Belarusians to the competition see cynical.

"I think that it is not for the Russians to say about discrimination in those conditions when the Ukrainian athletes are not only able to lose their relatives and close ones. They are relocated to other locations in Europe, or simply temporarily displaced persons who are in the boundaries of their homes and train on the western part of our country. Sametaki arguments would definitely be relevant in order to communicate at the Rivonon with these speakers, who somehow very much consider this story. We start to do this when the situation has flared up, struggling directly with the consequences, then, of course, it is more difficult for us, "Beleniuk said.

The Olympic champion is convinced that it is necessary to fight to the end in order to prevent Russians from games in Paris.

"Athletes call me calling for the fact that they do not understand their prospects at all. Whether they need to play sports, whether they can already tie sports and go to work for some other work. My position in this situation, which I voiced before, sounds as follows: it was necessary to fight Israz to fight for removing Russian Tabilorus representatives from competitions.

Because otherwise athletes will become hostages. And we do not want us to have a similar choice, " - Odbeleniuk. As reported by Ukrinform, the Cabinet of Ministers has decided that Ukrainian athletes will compete at international tournaments, which will be presented with athletes of Irrigation and Belarus.

I wish health, dear Ukrainians!

Today is a busy day.

The first is a bet. The main attention is the battles for Avdiivka and Bakhmut, for Luhansk region, warned from those areas where the enemy tries to break the defense of all Ukraine.

And I thank every soldier, sergeant, officer and general who are opposed. Who gain sustainability - the whole state - it is there, in the battles of the most advanced points of the front line.

The pond was reported by commander of directions, head, intelligence.

Rashists do not want to pick up their dead from the battlefield

Fighting episodes "battle for T-shaped" in miniature are demonstrated to the entire large-scale war, the likelihood of which was the probability of which another 10 years were weighing in the world by the absurd. At that time, no one seriously considered the possibilities in Europe, even "border incidents", and even more so "regional low -intensity conflicts" - as those who did not see the latter who did not see in 2014 the beginning of the unjust and criminal Russian.

In turn, the war also does not ask whether someone wants to see her and why she was called - she just comes without permission and to everyone as equal. It destroys the agenda every hour, forms a list of probables of tomorrow's day. The Ukrainian today determines what the post -war world will be - on what basic values it will be rebuilt, the grounds for what principles and guarantees will become reliable and safe. And as much as it will be.

[!\(Images/APMIRINFORM/2023-04-07T50-00-00-04-00/dsc_0161-150x150.jpg\)](#)

In a few days, the K2 Video has already watched millions of people from all over the world - they are sure that tens of millions will see it in the future. And they will almost be able to observe how, in one of the hundreds of such supporting, the front line of the front line, Ukrainians beat heroically. They stand, protecting from the enemy not just the edge of the field, where two boarding of old acacia and oaks meet. They defend their own freedom and the future of their children. Defend the right to live and work on their land by their own laws. Nurture children in love and abundance. To decide what to sow with whom to make friends with and which to believe God. The names of those who died in unequal battle but did not give the enemy of their native land, they are forever etched in national memory, and their hamstring will be decent to the following generations.

Who were and how the invaders were called, whose remains were still scattered on the battlefield, their exact number - it is unlikely that anyone will be able to install it for sure. No one came in a hundred corpses - he did not invite the "hour of truce" for the harvesting of bodies, did not ask for mediation from organizations or structures that are authored for similar events, nothing like that - they still lie there. The author saw dozens of bodies of the Russian sample.

It is only known that it is "Wagnerivtsi" - another neologism and phenomenon of time of hybrid war.

The war, when it appears in the middle of people, always, though in its own way, but forces them to stop the fire for a while - for a short constructive conversation, the essence of which usually comes down to the need to take the battlefields and the wounded.

And if we recall the historians and theorists of the wars of the past, such contacts of the Taneuhile Following the achieved arrangements formed a code of honor of the warrior their unwritten rules of war. Usually, after great upheaval, militaryelitis turned into a military-political and took responsibility for the further development of their country and determined the form of its statehood. By the expensive of military experience, during their internal and foreign policy, they preferred diplomatic resolution of disputes.

[!\(Images/APMIRINFORM/2023-04-07T50-00-00-04-00/dsc_0193-150x150.jpg\)](#)

Over time, when there was a period of recovery, development and progress, and concluded regulations and formulated rules established after bloody wars, were relevant and were usually violated by the successors of those who did the war. However, the work of previous wars was improved not only by methods of their conduct, but also formed international law.

The Russian aggression igniters violated the signed treaties and have been taken to sebellia and refused to recognize not only international law but also the law.

ARMIA INFORM

As if there was nothing in the history of wars, except for the well-known and demonstration correspondence of the Second World War, one of the Soviet military chiefs of their subordinate. At the request to move away from the occupied borders, who continue to be unpromising, as the unit suffered significant losses, the ammunition was founded, and the replenishment of ammunition was not recognized - the chief went out to the officer. And the views were ordered: "I will go through the Lychnya composition." A historical regression bordering Deevolution ...

Fighting on the outskirts of Siversk

The direct participants in the fighting on the outskirts of Siverskaya "Crimea" and "Kachan" lead to T-t-t-t-their, show their horrific consequences and tell the details. It is less than a kilometer reckoning, so we work quickly, and when we leave a place - a mortar shelling begins.

In the Kristist army since 2018, first served in artillery, then transferred a pre-emptive unit.

ARMED INFORM

We had a fight here - we took two positions: one took our grandfathers, the other - we did not know about it and at night he moved on us from two directions. While dug, the enemy decided to attack the right flank, then went around and began to step from the left. We met him from the ambush and caused the lesion - so they were all there.

We fought with ZEKs, they did not have enough military experience, they will go - and all. About a hundred, and maybe more ... You saw, there are 30-40 on thirty meters of landing, and planting-he, which is long, and everywhere lies.

Some were captured, some were dug alive after our tank. To tell them something - so nothing. They thought they would be to here, and they were given coffee here, they were given, cigarettes - they are shocked. They were tamped by the video - as if we were cooking their heads here. It is horror - they will be so believed, and when they are captured, they see that we are normal people.

What they drive - I think that they have made criminal businesses and sit for fifteen years ... So I think: it is better for half a year, but as and by whom it will be here - I do not even imagine. He came here to kill people to fail to not report to him in Russia.

[!\(Images/APMIRINFORM/2023-04-07T50-00-00-04-00/dsc_0230-150x150.jpg\)](Images/APMIRINFORM/2023-04-07T50-00-00-04-00/dsc_0230-150x150.jpg)

We have seen their artillery beat on them if they start retreating. They are being able to retreat, so they either spend the night in the "gray zone" or just forward. The prisoners said that they were canceled for their retreat - demonstally shot before the routine, "the man tells.

His brothers on the pseudo "Kachan" during the storming followed the attacking - searched the bodies of servicemen who accepted that first unequal battle. They were dead to the latter, but they were thrown by

grenades in the trench they were left. Among those who had to be evacuated were his acquaintances. Those "very good people ..."

Unfortunately, and as a reminder, technological progress has brought people not only the comfort, convenience and opportunities of the present today, but also a broadcast of copter, which filmed a short moment of the long war.

As in a short moment, good people who have left their loved ones and loved ones, warm and cozy homes, work and hobbies - have taken death in an earthen trench where acacia meet with oaks at the edge of the winter field.

ARMIA INFORM

Thanks to their habitation and self-sacrifice, in that unequal battle, the enemy was stopped and was deprived of the opportunity to attack the same stronghold points to the left, to break the defense and stick further-even to the t-shaped homes.

There is a punishment for every crime. Someone can call it "provided by law", someone - execution, someone - justice.

Soon the crews of two Ukrainian tanks and a single-fighting machine of infantry came to the T-t-t-t-wing, and in a fair battle they did what they always did in the Ukrainian-persons of their native land with the invaders-turned into a fertile black soil.

The Coordination Headquarters met with the families of the border guard of the State Border Guard Service. The children of the captive border guards conveyed drawings in support of their parents and employees of the coordination headquarters who do everything to return home.

About it [reports](#) Coordinating headquarters for the issue of prisoners of war.

The staff representative assured that the work on the release of all prisoners is not. For the Russian side, nothing weighs the timing of staying and the severity of the injuries, because the enemy has not agreed to release all weighted and sick, women and civilians. The aggressor tries to use our prisoners as a pressure lever on our native, society of Tukraine.

"The main thing that stimulates exchanges is our success at the front," the representative of the Staff said.

They discussed the topic of international responsibility of the Russians for non -compliance with international humanitarian law in the places of keeping our prisoners. The names are constantly being pressed psychologically in captivity so that they move to the biker, but such cases are extremely rare.

The headquarters also noted that in cases where we manage to establish the place of keeping the prisoner, we usually do not inform our family so that this information does not come out. Because when the Russians find out that we have such a miracle, carry a person, which means a new stage, a new "acceptance"-confusing, adaptation to new conditions.

Matrice 30T with the name of Ragnar will help to destroy the occupiers into the memory of the famous commander.

The amount of the announced fee of half a million hryvnias was closed in a week, helped both the relatives and familiar warriors, and just indifferent Ukrainians.

-The funds continued to come from different corners of Ukraine and from abroad,-the mother of the hero said. - Son's brothers, who in fierce battles under Bakhmothero -heroicly defend Ukraine, advised that in this difficult situation two drones are better than one. I, like the commander's mom, thought that three drones would be shining!Each of which will be named Ragnar and will serve in Mosin's mouth, helping the boys make death to enemies. It seems that Alexander would like us to do so, not just pouring tears ... For the sake of his son, for the sake of Ukraine, for the sake of victory.

Commenting in the heading [dovidra.info](#) At the YouTub-Canal Center of Strategic Communications and Information Security Key Principles during the War, Deputy Minister of Defense of Ukraine Anna Malyovazhavzhavzhavzhawha that among hostile information and

psychological operations(Paco)One of the most notable nowadays is the attempt to discredit the mobilization campaign, which has been going on since February 24 last year.

However, the Deputy Minister notes that often the Ukrainians themselves contribute to the propagandists in spreading messages against our country: _ "Often it happens that because of the ignorance and misunderstanding They will say something very important now. ".

Indeed, from time to time on the World Wide Web we come across rollers that criticize stories on the street, or read the advice of some expert expert in law, as potential conscripts to avoid getting them.

So let's figure out what reports about the mobilization campaign during the time phase of the Russian-Ukrainian War walk the Internet, which of them are relevant, and which have all the signs of falsification or distortion. It is also interesting that in Russia itself mobilization is passing and whether everyone who supports their leader is dreaming of protecting his false ideas with weapons in his hands.

A small percentage of evidence in no way affects the mobilization campaign in our country

Ternopil, Ukraine, turn to the shopping center and the joint venture

This statement can be denied statistics that have recently been [published](#) In Military Mediacenter, Deputy Director of Planning Department of application

of the Main Department of the National Guard of Ukraine Colonel Mykola Urshalovich. According to his information, as of April 6, only before the NSU brigades as part of the formation of units of the Guard of the offensive received 20 204 applications from volunteers. If you take into account the statistics of this campaign in the State Border Service of Tanational Police of Ukraine in general, more than 35,000 candidates dream of weapons.

Of course, among citizens there are those who avoid conscription, try to interfere with the Motherland, however, a small percentage of such evasion in no way is not flooding on a mobilization campaign in our country.

In Russia, a partial mobilization has been announced - the turn of evaders with Georgia

At the same time, Russia's official information resources prefer to close the eyes of Nazonoconfigured in the Crimea and Donbass occupied in the temporarily seized areas of Zaporizhzhya and Kherson regions. They prefer not to tell about hundreds of thousands of Russian men, who, when the call, were indicated, Georgia, Turkey, Kyrgyzstan, Finland, Armenia and other countries.

The injuries state an increase in offenses committed by the Russians. Photo: Balimannual

And the authorities of the Indonesian Bali Island, where 58,000 Russian citizens have departed from the beginning of a large -scale Russian invasion of Ukraine, a statement of the deterioration of the criminogenic situation and is trying to limit the issuance of visas for Russian citizens. About it [reports CNN](#).

In general, according to [evaluation](#) Forbes.ru, from the beginning of mobilization - after September 21 last year, when Putin signed a decree "prompting partial mobilization in the Russian Federation", almost 1 million people left the boundaries of his state state.

From single conflicts on the streets, the statement does not follow that "in Ukraine is ongoing violent mobilization" Therefore, the Russian daily newspaper writes: "On February 14, in Odessa, the staff of the Yavsk Committee rigidly detained a man in the middle of a crowded street. The videoads, removed by eyewitnesses, show how the man overthrown on the asphalt tries to resist, but people in camouflage form his hands and feet in the camouflage form to bring to the van. "

The South Operational Command condemned incorrect behavioral servicemen and on its official Facebook page [reported](#) that "on the fact of the conflict situation, which occurred on February 14, 2023, during the hours of work of a group of servicemen of one of the shopping center and JV with alerting citizens who are subject to mobilization, in the public place, the military service is conducting a service investigation."

Agree that such a single conflict on the streets does not consider that "violent mobilization is ongoing in Ukraine."

** Alert can be awarded anywhere where it is not prohibited

_ "In early January all over Ukraine the" mobilization teams "were intensified, empowered to prescribe to men summons anywhere and any time, and in the case of resistance-forcibly deliver to territorial centers of complete ... addresses. The reason for the mass raids, which was affirmed by the military, was the reluctance of people to open the door to representatives of the armyarmia, " - asserts One of the conducting propaganda Russian news online publications of Lenta.ru.

However, it does not inform its readers that according to the legislation of Ukraine, the summons can be reached not only at the places of registration or residence(https://www.youtube.com/watch?v=T1_hYb-NWyQ).

Military lawyer Igor Serov noted the Armyinform that there is a clearly defined list of officials who can do so: "give the summons to conscripts, conscripts and reservists, except employees of the Tax Code and JV, may be directors of state bodies, local self-government bodies, heads of enterprises, organizations, organizations, organizations, organizations, organizations ZhEKs. But they must have a state-owned decree of the territorial center of logistic support. "

In the case when a citizen believes that the delivery of the summons occurs with any violations, for example, it does not specify all personal data or it is

filled with colors, it is possible to refuse to sign it. Then, in the presence of the witness, an act of refusal will be drawn up. These mistakes will be made at the Center. A person also has the right to seek the help of lawyabout directly to the CCC and JV.

But we should not forget that we have not only rights but also responsibilities. According to [Article65](#) The Constitution of Ukraine "Protection of the Fatherland, Independence of Tatertorial integrity of Ukraine, honoring its state symbols is the obligation of citizens of Ukraine. Citizens serve military service according to the law. "

Deputy Minister of Defense Anna Malyar on her Facebook page [noted](#) that "after a large -scale invasion of these IPSO is difficult to get into something or to fall on something. Because to frighten the summons after everything we have passed for this year is hard. "

The GUR of the Ministry of Defense confirms the sharp increase in the number of Russian invaders who seek to be captured to save their lives.

Within the framework of the Ukrainian State Project "I want to live" in March 2023 more than 3000 appeals were recorded. This is twice as much as the previous monthly indicators, the spokesman of the program for surrendering the Russian military in Polonvitaly Matvienko said.

Ukraine's military intelligence also states the activation of the occupation of the invaders in the Polonbezhnaya on the battlefield.

The Ukrainian counter -offensive operation on Earth has not yet begun, but the effect of the respective already produces results. The choice of a Russian soldier during the war is simple: either death or captivity. However, a series of sudden, unexpected, lightning events are able to change everything.

The Ministry of Defense of Ukraine is reminiscent of regular diversity in camps for wars and other advantages of the Geneva Conventions, but at the same time - the sound of the window.

He was a spokesman for the Defense Staff. After the injury he suffered, he became one of the founders of the first volume mobile hospital named after M. Pirogov, where he held the post of deputy chief of staff.

The father's correspondence with his daughter became the basis of the book "Alphabet of War".

"I am grateful to the salt that helped me get back from the war mentally. Thanks to her leaves who were included in this book, she was gaining a courage to discuss the topics important and complex for her. It helped me

return to normal life of my time, "Yevgeny Stepanenko recalled during the presentation.

The book is built as an alphabet, where every letter is one of the dimensions of war Tamra around the war. It intertwines the life of a child in a peaceful city and the life of a father in the war. Salt calls Dad to the front, writes SMS and letters, tells about his affairs, school, friends, competitions, dances, pets ...

Even the salts ask children's and childish questions Daddy about the war. How does he live with scratches and sisters there? Are there any children in the war? What eat in the war? Is it possible in the war to trick? Will Dad another after the war? And Dad is simple, and at the same time carefully explains everything in the world.

"I wrote this book to try to explain, what is the war that it exists, how it is arranged. By February 24, the majority of the population was somewhere in the east. It was not in our context. I wanted to reply at the level of emotional, philosophical as part of our lives, "Eugene shared.

It was difficult for him to explain to people who did not know what war was. According to him, this war is endless: "It has been a tenth year, and it is possible to compare with some school, which seems to never end. So now. We make an infinity of war in some infinity. While the book was written, we lived in the Minsk agreements. The impression was that this war was suspended. And if it does not develop in such a terrible way as it was February 24, 2022. "

Eugene says that now it has become easier to explain the essence of the war.

"War is such a life in inhumane conditions, it should not be, but it is. It is more difficult to explain that life and in the war continues. Find the words that you can explain the war, a thing that cannot be explained. Everyone of my text was in emotional experiences. This is a book about emotions and the living. I am happy that we have created a book that helps people, "the author said.

Since 2021, Yevgeny Stepanenko has been working in the Balkans as a special correspondent for Ukrainian media, and after the beginning of a large-scale invasion of Russia in Ukraine helps the forces of Ukraine's defense. He has long determined that "some road has ending, so war. And when it happens, as I wrote: everything will end, because it does not happen differently. The war will end in the way and we will definitely go through this process. "

The Command of the Armed Forces of the Armed Forces of Ukraine responded to the request of the employees of the National Library of Ukraine for children and submitted to the reading audiences the use of sleeves and old helmets, which do not meet NATO standards. To make visitors transformed them into works of art.

-Children see this world differently, and in their palms is a real basis, because they turn such terrible military attributes into bright art. From now on, these helmets and sleeves are not a symbol of war, but on the contrary - the mirus and victories, which will soon come to our native land. After all, beauty must overcome evil!- said the CEO of the library Alla Gordienko.

And the back of the work is adorned by the illustration of the peaceful sky and the sun, because they are dilated that a dreamy peace and victory will soon come on our earth.

Library staff, who also joined the drawing, chose themselves to work Maria Priymachenko. Therefore, some helmets are decorated with recognizable man's beasts of the famous Ukrainian artist.

A special place in the art space of the library is the installation in memory of the prostration of children who were victims of the consequences of Russia's armed aggression. The souls are presented in the form of paper angels, which are observed.

Some of the painted helmets and sleeves will be handed over to the defenders to the front and units of military units for the design of traditions. Some reported about the number of "over 50 cars" ... The ArmyInform correspondent has figured out in this matter: 3, 24, 54 - all figures are correct, but need clarification.

Three Rak Rak modules are 24 self -propelled mortars

The originality of the configuration of self -propelled mortars **rak** is that the auxiliary masters are more than self -propelled mortars. Yes, indeed, Ukraine will receive three rannyodules. But for eight self -propelled mortars of one module are added four -core machines, three transport for transportation of mines and other equipment, as well as two reconnaissance and one repair! That is, 10 more auxiliary machines are added to the eight -footed machines in the mouth module. So a typical module **rak** consists of 18 cars.

However, if you count only self -propelled mortars, then for three modules they are indeed 24, and in total Ukraine will receive 54 cars that are included in three route modules.

In the space of the exhibition "Ukraine - Crucifixion" of the National Museum of History of Ukraine in the Second World War, the memory of Denis Artyukhov took place, at the pseudo "Dan", a senior soldier of a separate mechanized brigade named after Prince Vladimramyamoomach of the Armed Forces of Ukraine, who died on April 7, 2022.

Denis was born in Donetsk region in Gorlovka. He graduated from Gorlov's Higher Professional College No. 37. In a peaceful life he loved to meet with friends Taribal. From 2015 to the last breath, he defended his native land by the Uvations of the Armed Forces of Ukraine.

The brothers knew his position: he became a volunteer to return to his dear. He was condemned to the countrymen who succumbed to Russian propaganda. His last post on Facebook is Goldda's quote Meir: "There is no way about peace with those who came to kill you."

The Security Service has assembled a evidence base at the Prokremliivsky Politician Alexander Lazarev, who assists the aggressor in the war against Ukraine.

The person involved before the start of a full -scale invasion was part of a pool of public pseudo experts who worked for Medvedchuk, Murayev and Sharia.

Lazarev himself was directly engaged in "unbuttoning" of media images of the Khreml's associates and helped them in promoting enemy narratives in information space.

For this purpose he was a frequent "guest" on the airfare of the sub -channels "Our", "ZIK", "NewsOne", "112" and "Russia today".

In his comments, he repeatedly justified Moscow's aggressive policies in the East of Ukraine by the Civil War.

However, after February 24 last year, Lazarev hidden abroad.

Subsequently, he arrived in the occupied Crimea and joined Aksyonov's closest point, which helps in holding hostile information campaign.

On the basis of the evidence collected, investigators of the security services informed the defendant in the treason, as well as violations of equality of citizens depending on their racial, national, regional affiliation, religious beliefs, disability and other grounds.

Complex measures are ongoing to hold it.

The investigation was conducted under the procedural guidance of the Kyiv Regional Prosecutor's Office.

She told this during [discussion](#) On the topic "Changing the demographic situation in the country: forecasts and challenges for the state", the First

Deputy Minister of Social Policy of Ukraine Darius Marchak. The participants of the event discussed the challenges of the demographic crisis caused by the war of the cross -spheres of the life of Ukrainians.

The demographic crisis has a significant impact on the social sphere. The first challenge is the outreach of Ukrainian citizens abroad. Due to the decrease in the number of people in the country, the number of taxpayers is reduced. For example, the number of those who work that pay the ESA(Without the military), decreased by 25 %.

At the same time, there is a large -scale internal migration, which is the second call of the demographic crisis. 4.8 million internally displaced persons have already been registered.

Photo by Yurii Veres

Much IDPs will not be able to return home. According to the World Bank, the damage and losses caused by war, nearly half a million units of housing in Ukraine have been completely destroyed, almost a million units of housing have been damaged. Social support of such citizens occurs through a payout program(2000 UAH of the registered IDP and 3000 UAH per child).

— Крім того, відбувається тиск на спроможність системи соціального захисту надавати необхідний обсяг послуг у всіх громадах, куди переїжджають такі люди. Оскільки необхідні додаткові місця в дитячих

садках, школах, закладах охорониздоров'я, виникає додаткове навантаження на соціальних працівників, і ми неможемо спрогнозувати станом на сьогодні, який обсяг інфраструктури потрібно вдовгостроковій перспективі будувати в цих громадах. Не відомо, скільки з ВПО повернуться додому, а скільки назавжди залишиться в цій громаді, — пояснила перший заступник міністра соціальної політики України.

The third significant challenge is the increase in the number of citizens who are poverty. Another line of negative impact of demographic changes on the

social protection system is the rapid disability of society. According to the Pension Fund system, which registers the payments of disability pensions, during 2022, 13 thousand people began to receive a disability pension.

The next systemic negative impact of the war is an increase in the number of children who have been lost by one or both parents. At the same time, according to the officials, there is a sharp suspension of the pace of deinstitutionalization of the system of institutions. However, the priority of social policy remains to provide children in families, including the development of family -type orphanages. Was greatly disturbed this trend, and this is an additional risk, which depends on how much this child will grow, how socialized it will be, or will have good education and subsequently its own sources of income. .

*!

At the same time, the number of persons who will be entitled to permanent payments from the state and early retirement will increase:

У зв'язку з цим серед пріоритетів соціальної підтримки Дарія Марчак назвала надання соціальних послуг. Це означає, що кожна людина, яка потребує підтримки, має знати телефон або місце перебування кейс-менеджера, який підкаже, як розв'язати проблему.

Today, the Cabinet has approved a state policy strategy on internal disperse for the period up to 2025. The appropriate operating plan for 2023-2025 was also approved.

The document was developed by the Ministry of Reintegration with the support of the Council of Europe. Experts of international and non -

governmental organizations, which are in charge of the protection of the rights of internally displaced persons, also joined it.

The adoption of a new strategy is the response of the state to the challenges of the massive population of the population caused by full -scale aggression of the Russian Federation. It provides for the state support of IDPs at all stages - from evacuation, in the process of social adaptation in a new place to the time of return to the place of permanent residence.

Thus, the state will focus on 5 strategic purposes: 1 . Response of the state to the challenges of internal movement. 2 . The safe evacuation of citizens from dangerous areas and meeting their humanitarian needs. 3 . IDP adaptation at a new place of residence. 4 . Integration and development of IDPs in host territorial communities. 5 . Support for a safe return to an abandoned residence of a tareintegration.

"State internal movement policy should be comprehensive. The focus of attention should focus on adaptations and further integration internally displaced persons in host communities. These are access to educational services, employment, and support for self -employment. An important component of being professional psychological assistance. I thank the Council of Europe and the public organizations that have joined the strategy development. From now on, we have a clear way to respond to the challenges of internal movement, "-said Irina Vereshchuk stressed.

We will not forget that it was from the occupation of the Ukrainian Crimea, from the repression in the Crimean Freedom of Ukrainian and Crimean Tatar, that the attempt of Russia to put Ukraine and other peoples of Europe in slave conditions was against the Crimean Muslim conditions. Humiliation, repression, murder, war ...

But where the path of evil began, it is there that we are waiting for us and victory over it. Deconing Crimea is non -alternative not only for Ukraine but also for the world. For an order in the world based on the UN Conventions and the Charter, not the dimensional habits of murderers, rapists and robbers that Russia is trying to resolve.

I believe that prayers for peace for all our land will be heard without exception. We will return to Crimea - and then the world will return to the union, because the aggressor loses. The victory of Ukraine will mean the victory of life - the lives of Ukrainians of all denominations, of different origins, but with one dream and faith: is the general in good.

He said this in front of Eftaur, who was honored to divide with our warriors, also with representatives of the Majlis, the Crimean Tatar people and the dips corpuslum countries.

Despite the sadness and pain of war, let the sacred Ramadan be bright!
