After all Who is in these crimes. Is it acceptable to Ukrainian athletes to meet Russian athletes? I would say: perhaps only in rare cases. Aletonno not when the other person was or is a member of the army that is not responsible for atrocities and destruction. And this applies to very much Many, "the Austrian minister has arranged.

In his opinion, a neutral athlete can be considered "only one who is not a military personnel and did not support Russian aggression, verbally or in another way." In doing so, he pointed to the understanding that "there may be attempts to give particularly active athletes in individual sports." However, "in the case of teams, this is hardly possible, since the proximity to the nation is much stronger."

"Among the 35 countries there are many who are not to be allowed to participate in the Volhymp Games with a Russian passport. I do not have such an opinion. It is possible to distinguish. But the IOC should be more accurate than it was so far, clearly and clearly and clearly and Strictly interpreting our own recommendations. For example, we need a date from which someone can no longer be considered a Russian military. And of course, this date should be in the past, " - said Kohler. Commenting on the position of the leadership of the Austrian Olympic Committee(Aok), which is unheard of the IOC line, cogler is indicated that "some national Olympic committees are very close to the IOC, Austrian is one of them." Він закликав польських урядовців провести відповідні заходи для вирішення існуючої проблеми та роз'яснити протестувальникам шляхи подолання непорозумінь.

The Zelensky Mirror Plan of 10 points and the project of resolution No. 322, which should be adopted by the USA, have a lot in common and clearly outline Ukraine's victory.

About it during on the subject: "Victory image: How will the war with Russia end?" Associate Professor of the Department of Military Development of Oxford University, expert on public and political relations in Europe Vlad Mikhnenko.

"It is very important that the US Congress is currently undergoing([https://www.ukrinform.ua/tag-formula-miru](https://www.ukrinform.ua>tag-formula-miru)) President of Zelensky. First, this project of the resolution confirms that US policy is to see Ukraine as a winner in the international borders of the 91st year. Second - this pro-crust comes from the fact that peace after victory(Ukraine - ed.) It must be supported by its integration into NATO and other Euro-Atlantic institutions, which corresponds to the long-term US policy. Third, this project of resolution indicates that the US should work with its allies and partners to ensure Russian reparation payments to Ukraine, to help the world to rebuild Ukraine, to attract the Russian leadership of reference for the invading war and to restore justice for its victims. That is, the plan of peace and the project of Congress # 322 this year is an effort that is important and which outline the victory we all want, "Mikhnenko emphasized.

In his opinion, after the report of the resolution is adopted, the US Congress approved, it is necessary to direct efforts for European and British parliaments to accept similar resolutions in order to formally substantiate the image of the winners in such documents.

This is important because, unfortunately, there are many conversations in the Western press that are not responsible for the mentioned outlines of victory, Mikhnenko noted.

According to Mikhnenko, in peace talks, according to journalists and analysts, Putin will not formally make some great concessions, and Russia will keep the claims four regions illegally annexed last year and to Crimea is Sevastopol, annexed in 2014. Russia will agree to the conditional cessation of the road, Putin will declare victory over Ukraine, the neutralization of Ukraine, April Zelensky will be forced to temporarily postpone its plan of conducting the borders of Ukraine for a certain time.

"All this will be sold to Ukraine as a means of getting rid of further unbearable people's economic and other losses, Ukraine will store approximately 85-90% of its territory, such a demilitarized zone will be created by Korea as an international monitoring, it will freeze the front line, the rocket launchers can be started, and it is possible to start. You can come back. And the United States, NATO will declare that independent Ukraine was protected and the order based on the rules was preserved. Of course, Poland, the Baltic countries, Slovakia, the Czech Republic, Romania will not be satisfied, but the EU is more actively machomens with carrots in EU membership. NATO

membership, of course, will be frozen, the sideboard will be uncertain. The regulation of this issue can take years, and of course, the renewal of the conflict can be renewed at any time, " - said Mikhnenko about the script discussed in the Western press, adding that in this context Chinese peace initiatives are very suitable for this picture of the world, because the event can Press on Kiev and China on Putin.

Mikhnenko also mentioned the statement by the US Commander in Europe in Europe, the General Capheristofer of Kavoli that Western Allies had passed weapons for the offensive of Ukraine.

At the same time, in his opinion, Ukraine should achieve Western support, regardless of the results of the spring counter -offensive.

"It is important to build a further strategy for achieving that victory that Ukraine wants from certain components, and the main thing to achieve is to increase wise support, regardless of the results of the spring -summer campaign of Ukraine's Silaboron and no matter how far the Ukrainian troops. The event should continue support, but not be tired, because the war should not be completed before our image is being brought to life, "the expert is convinced.

Read also: Mikhnenko also expressed the opinion that diplomacy and the world community is a tribal to the image of the victory set out at the points of Zelensky and the preecution of the US resolution, to put it into life by the end of the calendar 2023.

As reported by Ukrinform, on April 26, during the hearing on the Committee on Armored Forces of the US House of Representatives, the US Commander in Europe in Europe Cristofer Cavoly said that the Armed Forces received almost all of the military assistance packages, including military equipment and weapons, which were released. The Embassy of Ukraine in Germany is launched a new format for commemoration of memory and reconciliation.

Ambassador Alexei Makeev reported to the Ukrinform correspondent.

According to him, Ukrainian diplomats deliberately refuse to lay on the Soviet memorials or places with the Soviet symbols of the Union capital. Instead, Ukrainians in Germany jointly honor the monument who fought with Nazism and all the victims of World War II.

The Ambassador reminded that Ukrainians made a significant contribution to the victory over Nazism, the price of which was extraordinary losses during 1939-1945, when more than eight million people were killed in the territory of Ukraine.

"Ukrainians fought against Nazism from the first hours of the war and to victory. Side by side with other peoples-representatives of the transatlantic antititler coalition, in the ranks of the Red Army fought about six-million Ukrainians. Today, our country protects Europe and wins new nacism, the so-called Rashism. And in this war, Germany is our ally, " - said Diplomat.

The Ambassador will also visit the Reichstag building, where a common approach will be organized by the Deposits of the German Bundestag to the historical inscriptions made by the red army in May 1945 - "Kiev", "Kharkiv", "Lviv", "Simferopol", "Yalta", "Zhytomyr". .

"Along with the honor of the feat of those who fought with Nazism and won him, we also remember other victims . Tseostarbiers, children of war, civilians affected by the hostilities of their cities and villages, "the ambassador said.

On this day, the diploma staff will join the memorable course in those places of Uberlin, where Ukrainian forced workers were kept. The event organized by Ukrainian Berlin associations. "We will pass this quiet march together with other Ukrainians who heard family stories as a child, as their labeschuras witnessed that horrific war to honor them about them," Makeev said. He added: "We remember the price of World War II well. And, unfortunately, we are experiencing a new terrible war now. It is a war in the heart of Europe, the war with a cinic propaganda, imperialism, chauvinism and historical revanism ... We will not lay flowers at the places that relay Stalin and Russian propaganda. Ukraine has clearly defined its place in Europe and in world history, and our friends and partners have approved it. The time of correction of historical murmurs has come. Ukraine returns its own, its history and memory of it, "the diplomat said.

He also noted that the Russian Federation is trying to assign the victory to Nazism and manipulate it in the modern world. "We emphasize that no) has a monopoly to victory over Nazism. Victory is the resulting efforts of dozens of states and hundreds of peoples, "Makeev emphasized.

It was reported that in Vienna on the day of memory and reconciliation on May 8 there will be a Ukrainian cultural event, within which a public feature of the movie "House of Scalo" will be held on the square.

Already, 36 countries are in a group that is working on the creation of an international special tribunal to punish Russia.

This was stated by the deputy head of OP Igor Zhovkva on the air of the television "Unin", reports Ukrinform correspondent.

"36 countries are currently in the so-called executive group. And this amount is literally daily, weekly growing. By the way, the assignors of not only the

European, Euro -Atlantic space, our literary partners and friends who help us ... This group has already included, for example, two Latin American countries are Guatemala and Costa Rica. And we will expand this to other continents, "Zhovkva said.

As he noted, "we would like all members of the group have a unanimous opinion on the format of the work of such a tribunal."

"There is now a discussion, a difficult process. And you know that Ukraine is still waiting for the vote of the relevant resolution of the UN General Assembly. Here, in fact, we are saying that you say: in order for the tribunal to make the first sentences, numerously lists, it must be formed. And the model that Ukrainianades chooses itself, it is before, or as an impetus to it involves the vote of the resellence of the UN General Assembly. Therefore, in parallel in this group and with our partners around the world, we are working on the text of this resolution, " - said the deputy head of the OP.

It is important here: quality is much more important than speed. Therefore, we will do a normal tempo with our colleagues, " - said the deputy head of the OP. **Read also:** [special tribunal](#) Recently, information in the Western media has emerged that the West allegedly considers the most realistic version of the hybrid tribunal to hold the reference of the Russian Federation. Ukraine has a strong strengthening for warriors - on earth, in the air and at sea.

President Volodymyr Zelenskyy said this in the video address, reports Ukrinform with reference to .

I wish health, dear Ukrainians!

Today, we have maintained the pace and strength of international work - all week we give Ukrainian results.

In the morning, after returning from the Netherlands, he met with Bahrain Minister. This, by the way, is the first visit of the head of the political department of this country for all the time of our diplomatic relations - since 1992. That is another argument that the world not only believes in Ukraine, but also sees how our state strengthens.

We spoke to the minister with how we can bring peace to Ukraine together and restore peace and stability to international relations. I thanked the unchanging support of Ukraine and civilized rules, including support for the UN designer. We talked about the Ukrainian formula of peace, and I believe that Bahrain could join it.

In the afternoon, the summit took place on the anniversary of our state charity platformunited24. When the work of this platform began last May, we had a chief task - to unite ordinary people around the world, to unite for the advantage of Ukraine and to protect freedom. And it succeeded!

United24 has collected from different people, from different companies from 110 world countries. We have 15 star ambassadors. I am personally proud of the support from the part of our work for the sake of naval drones, as well as all projects that are related to the freezers for the front. These are thousands of drones that make Ukraine more powerful.

Much has been done within the UNITED24 medical direction, and the results of the reconstruction are also the results. Now we add educational direction - it is the restoration of schools, as well as demining. The great task that Ukraine has faced and which can be launched not for decades, but for years, if there is sufficient global support. No Russian mines in our land should remain!

In the evening, he met with a delegation of the United States Congress. We were extinguished about the further interaction between our states for the sake of global consciousness. Also today was a meeting with representatives of the Venetian Commission, representatives of the Blackrock Investment Fund.

So, in a week: the United States and Bahrain, the Netherlands and Belgium, Finland Sweden, Norway and Denmark, Iceland. Canada. New Zealand. African Union and Comoros. But the whole multinational community of donors United24. We do our best for the world to hear Ukraine, to understand Ukraine and advised Ukraine. Because by helping us, the world protects itself.

I am glad to say that as a result of meetings in Helsinki and Hague we have a powerful development for our soldiers with weapons - on earth, in the air and at sea. I thank the partners! This is a significant intensification. We have more progress towards NATO and the European Union. We have more progress on Russia's responsibility for aggression against our state.

Glory to everyone and everyone who is now in battle for Ukraine, on combat missions at combat posts! Particularly grateful for this week to all the fighters of our air forces and all units of other kinds of troops defending the sky!

To stand, win and punish the enemy is our common task. In unity, daily making Ukraine stronger, daily adding new opportunities to our country, we will get to victory!

Eternal memory of all our heroes of different times, who defended and protected Ukraine!

Glory to our people!

Glory to Ukraine!

Pressemitteilung: Eilantrag gegen ukrainisches Flaggenverbot

Berlin, 05.05.2023 — Da auf unsere Stellungnahme vom 04.05.23 an die Polizeipräsidentin Frau Dr. Slowik nicht reagiert, sondern stattdessen eine erneute Allgemeinverfügung erlassen wurde, die das öffentliche Zeigen von ukrainischen Flaggen und Symbolen an Gedenkorten am 8. und 9. Mai verbietet, haben wir nun gemeinsam mit unserem Rechtsanwalt Patrick Heinemann Widerspruch in einem Eilantrag beim Verwaltungsgericht Berlin gestellt.

Am 8. Mai erinnern wir als Ukrainer*innen gemeinsam mit anderen Europäer*innen an das Ende des Zweiten Weltkrieges und die Befreiung vom Nationalsozialismus. An diesem Tag gedenken wir auch der über 10 Millionen ukrainischen Opfer des Zweiten Weltkrieges.

Wir sind entsetzt, dass die Berliner Polizei wie im letzten Jahr eine Allgemeinverfügung erlassen hat, die das öffentliche Zeigen von ukrainischen Fahnen und Symbolen an Erinnerungsstätten am 8. und 9. Mai verbietet. Dies wird in der Auflage und Ausführung mit der russischen Flagge, den Georgsbändern und den Kriegssymbolen "V" und "Z" gleichgesetzt. Dies verharmlost Russlands Angriffskrieg gegen die Ukraine und zeigt tiefe Ignoranz gegenüber den Leidtragenden.

Die ukrainische Flagge ist zu einem internationalen Symbol der Solidarität und des Eintretens für Freiheit und Demokratie geworden. Auch in Deutschland weht die ukrainische Fahne über viele Institutionen als Zeichen des Zusammenhalts und der Verbundenheit.

Wir bedauern, dass statt gemeinsam nach Lösungen zu suchen, die Berliner Polizei entschieden hat, mit dieser Entscheidung falsche politische Zeichen zu setzen, indem nationale Symbole der Ukraine mit der Symbolik des russischen Vernichtungskrieges gleichgestellt werden und diese damit legitimiert werden.

Gleichzeitig hoffen wir, dass das Verwaltungsgericht Berlin uns Recht gibt und das Verbot ukrainischer Lieder, Fahnen und Symbole aufhebt.

Mit freundlichen Grüßen,

In this regard, Makeev remarked to reporters that "Berlin police had been disappointed for the second time in the last few days." According to the diplomat, German population has no problems with the Ukrainian flag, but it

"has problems with the Russian invading war and the Russian flag, which is symbolized by crimes in Ukraine."

On May 5, Police of Berlin announced Near the largest memorials to the fallen Soviet soldiers, motivating it to ensure order.

I am with a broken hand there, I hide her back! The most important thing in it is documentary personnel, when young people were happy, the Nava personnel, which only returned from captivity. There is a love that is never inadvertent. And the memory of Andrei Subotin, the hero of Azovstali, which will make it long in our hearts, "Maria Burmak Correspondentarmianfor said.

_ on May 5 this year, according to the order of the Commander-in-Chief of the Armed Forces of Ukraine dated 24.12.2022 No. 333, in Ukraine will be celebrated for the first time the Day of Specialist and Military Cooperation of the Armed Forces of Ukraine. About the path to this special activity of Simis correspondent Army _ _inform _ _Sear of the central administration

In the Armed Forces of Ukraine, the decision to the pilot project from the CVS was made on May 5, 2014. His work was successfully started in the shortest possible time - a month later.

In the context of the Russian Federation, a hybrid warfare against Ukraine, civil-military cooperation has become an adequate response to novocardum. The need to establish interaction with civilian populations of state power, primarily in order to prevent obstruction(combat)actions, prompted to seek and embody a completely new in the Armed Forces of the Armed Forces of Ukraine, which is based on the experience of NATO's armed forces. The CVS, in fact, became the first in the landscaping, formed according to the standards of the North Atlantic Alliance, which has been successfully performing the tasks for years in a row.

-If we turn to the experience of NATO member states, then the task is mostly in the territory of other states in international contingents, but we have war in our own territory . **

-Indeed, the main feature of the direction of civil-military cooperation of Ukraine is that they work in the territory of their state and the widespread forces and the population.

At the initial stage, for the main tasks and functions that the units of the Civil-Military Cooperation of the Armed Forces of Ukraine have been laid, the basic functions of NATO CVS were based on : Organization of civilian-military interaction, support for troops(strength)and civilian objects, as well as relied on the experience of the United States Armed Forces. This fully corresponds to the challenges that have come to us.

An additional function, so to speak, is a national feature of search work and repatriation measures.

— You just told about the functions of the CVS, let us dwell on them .

-One of the main functions of the CVA in the Armed Forces is civil-military interaction, which provides for appropriate work and communication with state authorities, international non-governmental organizations and public associations of civilians.

Support for troops(strength)It is a priority function for CVD units. It is also not necessary to forget about the importance of evaluating the state of civil environment and informing commanders on the ground. This enables qualitatively predictable negative factors that can significantly affect the task with the appointments of the Armed Forces.

In turn, supporting civil entities is to minimize the negative effects of hostilities on the civilian population. From the beginner -scale invasion of the Russian Federation, the CVS units were faced with the need to provide humanitarian aid and evacuation of civilian populations(combat)actions and deoculated territories.

Deoocuonta Lyman, October 2022, Humanitarian Aid- Since 2014, there has been an urgent need for the search and return of the bodies of the vicious Ukraine from the control of the Government of Ukraine of the territory and the occupied territories of Donetsk and Luhansk regions, and the expansion of armed aggression of the Russian Federation and from other areas where the fighting was conducted. It is a sustainable and extremely important area of work. Therefore, the Humanitarian Project of the Armed Forces of Ukraine "Evacuation 200" was started and temporary groups on transportation of the Image of the fallen soldiers were created, which was further renamed the humanitarian Project "on the shield".

Currently, the CEC of the General Staff of the Armed Forces created the management of search work and repatriation measures. This is due to the pre-suggestion of the search for the search and repatriation of missing and lacer. This activity is carried out in cooperation with expert services, law enforcement agencies and other units of security and defense forces.

It should be noted separately that only in the Armed Forces there is such specificity of work for the units of civil-military cooperation.

-the consequences of a large-scale invasion of the Russian Federation have demonstrated that civil-military cooperation should be considered primarily as a common function of all units of the Armed Forces of Ukraine. What has changed during this time?

- Thank you for such a meaningful conversation and on this occasion I congratulate you on your professional celebration!

I wish health, dear Ukrainians!

Today we have maintained the pace and strength of international work - all week gives Ukraine the necessary results.

In the morning, after returning from the Netherlands, he met with Bahrain Minister. This, by the way, is the first visit of the head of the police department of this country during our diplomatic relations - since 1992. That is another argument that the world not only believes in Ukraine, but also sees how our state strengthens.

We spoke to the minister with how we can bring peace to Ukraine together and restore peace and stability to international relations. I thanked the unchanging support of Ukraine and civilized rules, including support for the UN designer. We talked about the Ukrainian formula of peace, and I believe that Bahrain could join it.

In the afternoon, the summit took place on the anniversary of our state charity platformunited24. When the work of this platform began last May, we had a chief task - to unite ordinary people around the world, to unite for the advantage of Ukraine and to protect freedom. And it succeeded!

United24 has collected from different people, from different companies from 110 world countries. We have 15 star ambassadors. I am personally proud of the support from the part of our work for the sake of naval drones, as well as all projects that are related to the freezers for the front. These are thousands of drones that make Ukraine more powerful.

Much has been done within the UNITED24 medical direction, and the results of the reconstruction are also the results. Now we add another educational direction - it is the restoration of schools, as well as mine. The great task that Ukraine has faced and which can be launched not for decades, but for years, if there is sufficient global support. No Russian mines in our land should remain!

In the evening, he met with a delegation of the United States Congress. We were extinguished about the further interaction between our states for the sake of global consciousness. Also today was a meeting with representatives of the Venetian Commission, representatives of the Blackrock Investment Fund.

So, in a week: the United States and Bahrain, the Netherlands and Belgium, Finland Sweden, Norway and Denmark, Iceland. Canada. New Zealand. African Union and Comoros. But the whole multinational community of donors United24. We do our best for the world to hear Ukraine, to understand Ukraine and advised Ukraine. Because by helping us, the world protects itself.

I am glad to say that as a result of meetings in Helsinki and Hague we have a powerful development for our soldiers with weapons - on earth, in the air and at sea. I thank the partners! This is a significant intensification. We have more progress towards NATO and the European Union. We have more progress on Russia's responsibility for aggression against our state.

Glory to everyone and everyone who is now in battle for Ukraine, on combat missions at combat posts! Particularly grateful for this week to all the fighters of our air forces and all units of other kinds of troops defending the sky!

To stand, win and punish the enemy is our common task. In unity, daily making Ukraine stronger, daily adding new opportunities to our country, we will get to victory!

Eternal memory of all our heroes of different times, who defended and protected Ukraine!

Glory to our people!

Glory to Ukraine!

About it [reports](#) Government portal.

This was emphasized by the Minister of Health of Ukraine Viktor Lyashko during the EU Member States Ministers, which included the heads of different institutions of EU Member States in the field of health care.

"It is very important for Ukraine to support the EU countries, as it is the European region that is our key partners in response to the truthful aggression of Russia. Health care is one of the most affected by war and one of the most loaded. We will fix the growth of demand for various types of medical care and services. Today, there is no hospital in Ukrainian, which would not be affected by a Ukrainian who is affected by the war. Every sixth health care institution physically felt in its own stands, which means the so - called "precision weapons" of Russia. Attacks on health care facilities are only part of a wider picture of deliberate attacks on civilian infrastructure, including residential buildings, schools, universities, water and power supply systems, transport, warehouses, food stocks and more. All these exit are consciously, including for the purpose of pressure and intimidation of peaceful order. In more than 400 days, the aggressor did not realize that nothing would make the Ukrainians retreat. Just as no gas, energy or political hammer forced you, European partners, to deviate from the help of Ukraine to put the concessions of the country that started this war. I am grateful that the level of humanitarian support for Ukraine remains high, and the political trip to the aggressor continues to grow, "the health minister Lyashko emphasized, addressing his European colleagues.

The minister added that Russia's full -scale war against Ukraine has created critical reception on the national health care system. To date, over 1,400 facilities of medical institutions, 177 - destroyed. Also, from the beginning, Russia damaged 103 "fast", another 250 destroyed and captured 125, almost700 pharmacies were attacked. Many countries have already taken care of some of the Tazaclade regions. Currently, the process is coordinated and the implementation of ambitious plans. Representatives of the EU Member States have confirmed their complete and unquestionable support for Ukraine in the war with the aggressor, as well as expressed their readiness and gave the realization to support Ukraine and cooperate within the projects. It is about supporting refugees from Ukraine, integration of mechanists and simplification of conditions for work for them in some EU countries, providing humanitarian assistance, development of services in the field of physical tapsychological rehabilitation, participation in the reconstruction of destroyed or damaged infrastructure, medical evacuation of Ukrainians. .

The Ministry of Health is also actively working for the direction of technology into the European community. Self-screening is conducted, a table of more than 600 documents is developed in accordance with EU requirements. Our

goal is to establish a transparent system where Ukraine will be able to become a complete component of the medical space of the European region on equal terms and will be able to report these conditions.
