Currently, there is no attention of international organizations to the temporarily occupied territory of Ukraine as a result of the terract of the Kakhovskaya hydroelectric power station.

President of Ukraine Volodymyr Zelensky stated this during an appeal of experience eco -activists, opinions and international experts, reports Ukrinform.

He noted that Ukraine will do everything possible to save the most people as possible, and emphasized the need to support the world in this process "not only rhetoric but also actions."

Read also: [Zelensky : The burial grounds were underwater in the south, at least two of them - with anthrax](#) "In the territories of the territory we have started to help. , in particular, your pressure - I ask them!" - said the head of the Ukrainian state.

He stressed that it is necessary to do everything to avoid any desert, ruins or dead zone after this disaster. According to Zelensky, it is possible to provide only joint efforts, together with the eco -protection community, leaders and states, international organizations.

"Pollution and poison from the flood zone quickly enters groundwater, poisons rivers, and from there it enters the Black Sea basin. That is, it is not a" somewhere there " - everything in the world is very interconnected.

Read also: [Kakhovskaya hydroelectric power station: Zelensky addressed the experience of the ecological community](#) And so please spread the truth about this Russian ecocide. Please call the leaders, states and international organizations to act, " - add -on president of Ukraine.

As reported by Ukrinform, on the night of June 6, the Russian army blew up the Dumbleukhov Hydroelectric Power Plant. In Kherson region, rescue work and measures of germinating the population from flooding places continue. The situation is especially dramatic in the temporarily occupied territories, where Russian invaders have stamped the civilian population without any help, while the access of Ukraine's rescue services to these people is extremely complicated or impossible. The Security Service has collected the evidence base for 7 other participants in the L/DNR terrorist organizations, who fought against Ukraine, according to the Ukrainian special service.

The attackers were captured by Ukrainian defenders in May this year. It was found that all of them at different times joined the occupation units of the Southern Military District of the Armed Forces of the Russian Federation.

While complicating the Russian troops, the militants actively participated in the storming of the Ukrainian Pottonments in Donetsk and Luhansk regions.

One of the persons involved in 2015 has been a number of terrorist grouping "noise" of the so -called "Cossack Union of the Don Troops region". After the acknowledges of Russian aggression of Russia, he voluntarily "enrolled" to one of the detachments of the Ministry of Defense of the Russian Federation under the name "Storm".

Two more malefactors who joined this occupation unit are the Donetsk region. In 2014-2015, they participated in the shelling of the positions of ATO in eastern Ukraine. The other two fighters from the terrorist groups of "Oplot" fought against the defense forces in the areas of Avdiivka and Marinka in Donetsk region, as well as the name of Mykolaivka in the Luhansk region.

In addition, among the detainees-the arrows and mechanic-driver of howitzers of the 11th separate-motto-fashion regiment of the Armed Forces of the Russian Federation(known as the "East" group). Зловмисники атакували позиції Сил оборони під Авдіївкою з використанням російської артилерії.

На підставі зібраних доказів слідчі Служби безпеки повідомили всім фігурантам про підозру в участі у терористичній організації (Part 1. Art. 258-3 Criminal Code of Ukraine).

Також злочинні дії одного із бойовиків з лав «Востока» додатково кваліфіковані, як державна зрада (Part 1 of Art. 111 of the Criminal Code of Ukraine).

Зловмисникам загрожує до 15 років тюрми.

Under the water of the south were the burial grounds of animals, at least two of them - with anthrax.

President of Ukraine Volodymyr Zelensky stated this during [appeal](#) To the world eco -activists, leaderships and international experts, Ukrinform reports.

Video: [Presidential Office](#)

"The man -made catastrophe at the Kakhovsky Hydroelectric Power Plant is not a natural disaster and a display of climatic crisis. It is a disaster. What he is doing. What he orders to do," the head of the Ukrainian state said.

Read also: [Kakhovskaya hydroelectric power station: Zelensky addressed the experience of the ecological community](#) He noted that the situation is extremely difficult at the moment, as Russian troops are stopping artillery strikes in the territory where evacuation is carried out. Zelensky said that these terrorist shelling of Eporanne. "This Russian ecocid crime is the largest in Europe, but, apparently, Russian invaders have decided to further aggravate its seeds," the President of Ukraine added.

The Head of State stated that there was no evacuation at the territory occupied by Russia. "The people of the day on the roofs in a water trap without drinking water, without food, without medical care. How many dead and victims are there, we do not know yet," Zelensky said.

He noted that literally every hour more details are established as to what damage of the Russian Federation caused this disaster. "In more than 30 settlements of life. And both are in the temporarily occupied territory. We are unknown to them. Where there was no centralized sewage, sewage drains are already in water, which is covered with everything, "the President of Ukraine said.

NATO's decisions in Vilnius to expand the Alliance and future membership of Ukraine are to be approved solely in the interests of all allies and Ukraine, without fear of Russia.

About this today during a virtual participation in a security conference, which was within the framework of the European Council of External Relations(ECFR)In Stockholm, Olga Stephanyshyn, Ukrinform

correspondent, said Viceremier-Minister for European and Euro-Atlantic Integration of Ukraine.

"Whatever the NATO Summit Decision on Ukraine's membership, it should meet the interests of the Allies and Ukraine. It should not be accepted by the scattering of the fear before Moscow or fear of its reaction to the return of the territories of Ukraine. We do not have to allow Russia to blackmail us," the Ukrainian official said.

Read also: [Commission **NATO** -Ukraine held a meeting of the Kakakhovsky Hydroe(<https://www.ukrinform.ua/rubric-politics/3720225-komisia-natoukraina-provela-zasidanna-sodo-kahovskoi-ges-domovilisa-operativnu-dopomogu.html>) She stressed that the decision of the summit in Vilnius will be an important signal for political leadership and for the people of Ukraine, which on the battlefield defends joint values, as well as its European and Euro -Atlantic future. Such solutions should not be limited to political declarations or memoranda, which, according to Stephanyshina, Ukraine has seen a lot over the past. These can be security guarantees, which are supported by specific administrative and military capabilities, specific obligations of the excavation of international organizations.

The Ukrainian viceremier recalled that granting Ukraine the status of a candidate country to entry into the EU has become a powerful incentive for the whole country in mobilization to reform even in war conditions, as well as an important factor in the implementation of an e-European path for other candidate countries, including Moldova and Georgia. The effect for Ukraine will also have a clear Euro -Atlantic perspective. **Read also:** [New European Security Architecture is impossible without integration of Ukraine](#)

[Stephanyshina](#) According to her, the Allies have no doubt that Ukraine will be a member of NATO. Ukraine has received enormous military assistance from NATO, it is moving to the full compatibility with the Alliance's troops and has powerful land forces that are most capable not only in Europe but in the world. Therefore, the Usuznikov has every reason to respond positively to the application of Ukraine on membership. At the same time, the "political choreography" of this process must still be worked out.

"My position may seem too radical or energetic. But it is worthwhile to get unique features of Ukrainian politics during a war, which is not always clear to others. Our armed forces and managers at local and central levels - we have become one. At some point, politicians began to think and evaluate the situation as the military. At the same time, our military, they know what we

need to do to bring the country closer to the EU and NATO, it is an investment in the future for which they are fighting, "Ukraine emphasized.

She stressed that during the year of the struggle, Ukrainians proved that Russia could not be in Ukraine by any of the military or political purposes. The war has left the unity of Ukrainian society in the fight against the enemy, as the question of survival and response to existential threats are higher than any political electoral processes or differences.

Read also: [Stefanyshyn And counts on the political decision on Ukraine's members of NATO at a summit in Vilnius](#) According to Stephanyshina, Russia has also received the opposite result in trying to understand the unity of the Allies and deny NATO expansion. Instead, it has received strong Euro - Atlantic solidarity and almost two thousand kilometers with the Alliance after Finland's entry and shortly - Sweden. It was reported that on July 11-12 in Vilnius there will be another NATO summit, which will consider the continuation of assistance to Ukraine in the fight against Russian aggression. President Volodymyr Zelenskyy expressed his intention to personally take part in this storage. At the same time, at all levels, the Ukrainian side emphasized that assurances about the fact that "Ukraine will become a member of the Alliance", which were made during the NATO time summit in 2008, is not enough. Instead, the Ukrainian will be about NATO allies to provide safety guarantees of a touching movement for full membership in the Alliance.

The water level of the Kakhovka reservoir reached 12.5, which is below the "dead point".

This was announced by the CEO of Ukrhydroenergo Igor Sirota in the Eviritelaphone "Unified News", Ukrinform reports.

"The level is already 12.5 meters. This is lower than the "dead" point 12.7 meters, when we can no longer do water intake in settlements and for the Zaporizhzhya NPP, " - the orphan.

*!(<https://www.ukrinform.ua/rubric-economy/3720284-zbitki-agrosektora-vid-pidrivu-kahovskoi-ges-mozut-sagnuti-15-milarda.html>)According to him, if the current rate of falling of the reservoir is 1 meter a day, then the fall process can last about seven to eight days.

"If the dam at the bottom is destroyed to the very base, the depth of the reservoir is no more than three meters, namely decreasing in width of 3.5 kilometers as a chip to a blast, up to 1 - 1.2 kilometer to the construction of the reservoir itself, " - explained the head of " Ukrhydroenergo ".

At the same time, he informed that one half of the Kakhovka hydroelectric power station is already underwater, and the other half is already 70% in water. In particular, in words, the earthen insert between the gateway and the station is also underwater and can be erosion.

Read also: [NATO-Ukraine commission held a meeting on Kakhovskaya HPP-agreed on prompt assistance](#) "We are developing a preliminary project for building a jumper that will start how much Kakhovka will be devoted," the orphan said.

He said that it took at least two months to build a jumper, 24/7 will have to be afole.

The CEO of Ukrhydroenergo noted that it would pump all the water, see the consequences of the blast and dismantle the hydroelectric power plant to construct a nest.

Read also: [Kakhovskaya hydroelectric power station: in Ukrhydroenergo is they say that the flood is already behind](#) "We will need two months to the top jumper, two months - on the lower cross. We will block, stop this flow of water, so that we begin to slowly cop the Kakhovka reservoir slowly," he emphasized. As reported by Ukrinform, [on the night of June 6, the Russian army undermined the Greblyukakhov hydroelectric power station](#). Rescue work and evacuation measures from flooding places continue in Kherson region. The situation remains in the temporarily occupied territories, de - Russian invaders have left the civilians without any help, while the access of Ukraine's rescue services to these people is extremely complicated.

On the fact of undermining the occupiers of the Kakhovka hydroelectric power station, law enforcement officers began investigation under the article "Ecocid".

Ukrhydroenergo stated that the Kakhovka hydroelectric power station is completely destroyed and recoverable.

Oleksiy Danilov, Secretarrno, stressed that Russian agent is eradicated both in Ukraine and in partner countries at a frantic pace.

According to Ukrinform, he told about it on the air [Ukrainian radio](#).

"I want to say that there are so many processes in recent times. In this Tszarin, more and more countries are found in their territory of so -called" agents of influence ", direct spies that worked for the Russian Federation.

Two or three years in the past and that is now, they are crazy shifts in this field. Recently, I am seeking the Security Service of Ukraine, military counterintelligence, counterintelligence, which are more and more finding more and more of those people who were in one time. We performed certain tasks, and we almost every day we have the report of the head of the Child General's Security Service with the results that the Security Service of Ukraine has, "Danilov said.

As for other countries, he said "the introduction of the Russian language of promotion of the so -called" Russian world "occurs under the cover of the Russian special services.

Read also: [since the beginning of the war Russia has made more(<https://www.ukrinform.ua/rubric-ato/3720279-z-pocatku-vijni-rosia-vcinila-ponad-desat-sprob-zamahu-na-budanova-gur.html>)"This is an influence. The Russian Church is a separate conversation in general. They work for the Russian FSB. Where they have that God, if their churchmen say that they must go and kill children, people. Nowadays you will find such things in the commandments of God, but those people who are aware that they are relevant to the church, they give direct instructions. It is the church of the Moscow Patriarchate, which has nothing to do. These are athletes and all other institutions. Some journalists do not row from the hands of the Russian agency in order to be certain narratives In the light of being about the lie that they spread relative to our country. We are now working out in these areas and we and partners, "the NSDC Secretary said.

With regard to specific names of spies and agents of Russian influence in Ukraine [Danilov](#) He noted that they are known."We do not have a single day so that Vasily the baby does not report to the president. . They understand what is threatening. You see how many diplomats and other Russians make non -grata persons in their Russian swamps are forbidden to enter their territory. This happens almost every day. But not always publicly, "he researched.

As reported by Ukrinform, Danilov does not exclude that in Ukraine there may be bilateral agreements with NATO member countries, regarding their adherence in our country as representatives of the Alliance or in other viewing

Foreign Minister of Ukraine Dmytro Kuleba and Natons Secretary General Stoltenberg discussed the movement of Ukraine to membership in the Alliance, the provision of ammunition and the provision of humanitarian assistance to the victims of the Kakhovsk Hydroelectric Power Plant.

The head of Ukrainian diplomacy [reported](#) Obliga Twitter.

"I had a conversation with Jens Stoltenberg about the future NATO summit. In general, it makes sense for the Alliance to take a decisive step towards Ukraine's membership. We are not NATO's aspiration on the battlefield to put an end to this war. We strive to get the best guarantees to prevent future wars, "he wrote.

Dmytro Kuleba stressed that in fifteen years the reality has changed dramatically, and NATO's approach should also change.

"The difference between 2008 and the present time is that Ukraine is now a valuable asset for the Alliance, not passive. Ukraine will make NATO stronger, "he will be in his post.

The Ministry of Foreign Affairs of Ukraine also emphasized the stable provision of nursing ammunition to ensure the effectiveness of the counter - offensive operations of Ukraine, noting that the future of Ukraine but the Euro - Atlantic community is now being solved on the battlefield.

In addition, to mitigate the crisis caused by the destruction of Kakhovskaya Damba, Jens Stoltenberg promised that NATO mechanisms will be used to provide humanitarian aid.

"In this regard, he will head tomorrow the emergency meeting of the Ukraine-Ukraine, called at my request," Dmytro Kuleba added.

For Ukraine, the consequences of the Kakhovskaya hydroelectric power station will be scary, but they will be catastrophic for Russians.

According to Ukrinform, about it in [interview Ukrainian radio](#) The secretary of the National Security and Defense Council Alexei Danilov said.

He assured that in September-October last year, the Ukrainian side warned that the Russians laid explosives directly at the station and were ready to carry out this terrorist act at any time.

Read also: [Russian agent in Ukraine is eradicated with a frantic pace-Danilov](#) "It was done [directly by Putin's order](#), and the world community has to give a good thing for terrorists, "Danilov emphasized.

He noted that the time would pass and we will be able to calculate all the losses caused by the undergoing of the Kakhovka hydroelectric power station. "Believe me, the consequences for our country will be terrible, but for the Russians they will be just catastrophic. Because they will tell all this. And those people in the Kremlin who were instructed to tear the dam will be responsible for it. , - he emphasized.

Read also: [Danilov does not exclude the possibility of individual two -sided agreements with NATO countries](#) As reported by Ukrinform, [on the night of June 6, the Russian army undermined the Greblyukakhov hydroelectric power station](#) . Rescue work and evacuation measures from flooding places continue in Kherson region. The situation remains in the temporarily occupied territories, de -Russian invaders have left the civilians without any help, while the access of Ukraine's rescue services to these people is extremely complicated.

On the fact of undermining the occupiers of the Kakhovka hydroelectric power station, law enforcement officers began investigation under the article "Ecocid".

Ukrhydroenergo stated that the Kakhovka hydroelectric power station is completely destroyed and recoverable.

After the occupied Crimea, after blasting the Russians of the Kakhovka hydroelectric power station, problems with water in cities that receive it from the North Crimeal Canal have begun.

This was reported in a comment to Ukrinform by the Head of Legal Affairs Department of the Taza -border Affairs of the Majlis of the Crimean Tatar people, the chairman of the Board of the Criminal Tatar Resource Center Skender Bariyev.

"The invaders turned to the population to stock up on drinking water, to supplement the water on the schedule. There was a restriction of water supply in Simferopol, Kerch, Theodosius, Dzhanka - these cities received water from the North Crimsal Canal. They also restrict water supply in small settlements. The problem is also in Evpatoria, "Bariyev said.

According to him, the invaders are currently explaining the problems with water, repair work and more.

"But in recent months, there have been many rainfall in Crimea. In addition, people see that after Kakhovskaya's blasting HPP The quality of the water was worse, the pressure decreased, "Bariyev added.

Read also: Russians undermining the Kakhovskaya hydroelectric power station created a problem for restoration of Crimea after de -occupation - Chubarov The Majlis representative added that he is informed that the water level of the intake canal is now reduced by 15-20 cm.

As reported, according to the Secretary of the National Security and Defense Council Alexei Danilov, as a result of the undermining of the Kakhovka hydroelectric power station, the supply of water to the occupied Crimea in the near future will become physically impossible.

The UK Prime Minister Risha Sunak called the "decisive" contribution of the United States to the maintenance of Ukraine and assured that his country was committed to obligations to victory forces of democracy and freedom.

Sakak said this during a White House in common with the US President, Ukrinform correspondent reports.

"The United Kingdom is proud of our contribution, including tanks, long -range weapons and Ukrainian soldiers' training. But there should not be a decisive contribution that allows democracy and freedom to win, "Snak said.

In this connection, he expressed his gratitude to President Biden personally to the Taman, who continue to provide Ukraine with everything necessary.

At the same time, Snak emphasized the need for other countries to intensify and realize their part of the contribution to joint security in the context of Russian aggression.

Read also: [Snak : Legal Place of Ukraine - in NATO](#) "We were lucky enough to get America's investment in European security, but the army is to divide the burden together," the Prime Minister said.

According to him, the expenditures of the United Kingdom for defense have always been more than 2%, which is considered a "control" for NATO countries. "Miserable other countries to follow the example of the US and [Great Britain](#) because our safety is ecolective, "Snak emphasized.

He also agreed with Biden's opinion that it was first and foremost a containment of the Russian Federation.

Type: Article

The Western military has no doubt that the rowers of the Kakhovskaya HEP are located.

In an interview, Ukrinform was emphasized by a well-known Polish expert, an eczepier of Poland's Land Forces, former Deputy Minister of National Defense of the country Waldemar Sklipchak.

"Russian propaganda and money of Russian oligarchs who still sponsor the change of the event, sow these doubts (Concerning the responsibility of Russia or Ukraine for Podryvkakhovskaya [HPP](#) - order.). Ale nіkto звійськових не має сумніву, що це зробили росіяни", - наголосив Скшипчак.

За його словами, у росіян для цього давно було все готове. Зокрема, вони щеторік розмістили там вибухівку, коли українська армія вела активну операцію на Херсонському напрямку.

"Вони чекали на відповідний момент, оскільки бояться українського контраступу. Російська армія перелякалася українських дій на Бахмутському і Харківському напрямках і на Запоріжжі, де українська армія атакує, хоча це щене контраступ, а оперативне введення противника в оману", - підкреслив експерт.

Читайте також: [Будували так, щоб витримала ядерний удар: фахівець виключає саморуйнацію Каховської ГЕС](#) Sklipak emphasized that the political consequence for Russia from the blast of the Damikhov hydroelectric power station should be "total isolation of Russia in the international arena of production of humanitarian catastrophe."

In his opinion, there should be a corresponding resolution at the UN level that Russia is responsible for this.

"This is an inhuman act, but it is necessary to realize that they have always acted, even with respect to their citizens," the expert stated.

Instead, the Polish General noted in the military plan, it will be difficult to cross the Dnieper over two to three weeks because of the blast, as the flow of water should be reduced and the shores should be reduced.

"The Russians were frightened because they thought that the Ukrainian army had crossed in several directions, so, undermining the dam, they defended their expositions from the west, so that the Dnipro would not go Ukrainian forces. It was their military step, since some of the forces from the south of the Russians were thrown to Nazapore, fearing that it would be the direction of the main blow to the Ukrainian army, "the Edamer of Poland Land Forces emphasized. **Read also:** [Ukraine appealed to the ECtHR through the Russian terrorist attack on [Kakhov](#)

(<https://www.ukrinform.ua/rubric-politics/3720141-ukraina-zvernulasa-do-espl-cerez-rosijskij-terakt-na-kahovskij-ges.html>) "But, in my opinion, the Russians were miscalculated because this direction was not considered by

the Ukrainian command as the chief. The main focus is a place where there is more opportunity to maneuver and you do not need to force the driver," Sklipchak emphasized.

He added that the forcing of the Dnieper could be an extremely difficult thing.

"The one who forced big rivers knows how difficult it is. I forced a wand, the guard, the Vistula(Rivers in Poland - ed.)- This is a very complex organizational process.

The full version of the interview read tomorrow on the Ukrinform website.

Russia has to respond to the undermining of the Kakhovka dam, and future reparations of the Russian Federation have to repair all the losses caused by this ecocid.

This was stated by a permanent representative of Ukraine under international organizations by Evgeny Tsybalyuk during a meeting of the OSCE Permanent Council, Ukrinform reports.

"The scale of the losses caused to my country is still to be established. However, the severity is already unprecedented.

He pointed out that the Prosecutor General of Ukraine had already communicated from the prosecutorial criminal court(MKS)The investigation of the explosion at the dam was also informed by the EU Commissioner on Justice. "Ukraine is ready to cooperate with international justice mechanisms, including the ZMCS, and provide all the necessary evidence," added a permanent representative of Ukraine.

Read also: [in Istanbul there was a rally against ecocide y, which is Russian in Ukraine](#) In the course of his speech, Tsybalyuk informed the delegations of the OSCE member countries proposal assessments of humanitarian, environmental and economic consequences of underwriting hydroelectric power plants and the first measures that the Ukrainian authorities take to eliminate them. He also pointed to the regional consequences of ecocid.

"Mass inflow of fresh water also carries risks to the Black Sea ecosystem. At this, high water washed away various pollutants into the Black Sea, including sediments, chemicals and heavy metals, together with fuel and oil. This applies to increased mine danger. Tsacatastrophe caused by Russia. This act of Russian ecocide can potentially affect the whole region, "Tsybalyuk said.

He noted that the practical contribution [OSCE](#) The solution to these challenges is "essential". "We are grateful for the readiness to support Ukraine, expressed in today's statement. We are waiting for the coordination of the modalities of possible support," - said the Ukrainian post - Representation.

In addition, he said, when Russian invaders understand the inability to maintain the occupied territories, they resort to the tactics of "burned land", an example of which is the undermining of the Kakhovsky dam.The Ukrainian post -press informed that there are over 40,000 people under threat of flooding. The Ukrainian authorities evacuate more than 17,000 people.

"Unfortunately, more than 25,000 civilians are in the territory controlled by Russia -just abandoned on the roofs of their homes. Due to the inability of the Russian occupation administration to evacuate people, Ukraine has addressed the reference international organizations to intervene in the situation," Tsybalyuk said .

Along with this, the head of the Ukrainian Mission in the OSCE condemned Russia's attempts to shift the gap to Ukraine for the destruction of the Kakhovsky dam. He recalled that the reception of victims of his own crimes,

Russia has repeatedly practiced a persecution, for example, in the case of beating MH17. Tsybalyuk emphasized that Russia predetermined to deny Ukraine's right to exist, and "this denial is a key driver of continuing aggression and genocide of the people of Ukraine."

As reported by Ukrinform, Russian troops on the night against June 6 carried out the Kakhovka hydroelectric power station. As a result of the heating of the machine hall inside, the station is completely destroyed. On the fact of Kakhovskaya hydroelectric power departments, law enforcement officers began investigations under the article "Ecocid".

Tags: ['ПДВ', 'Молоко', 'вартість']

Type: Article

In Ukraine, as of June 6, the weighted average price of milk of three grades was allowed by 22 pennies to 11.41 UAH/kg without VAT.

According to Ukrinform, it reports [the press service of the Association of Producers](#). It is noted that as of June 6, the average purchasing price of extragrade milk has decreased to 11.55 UAH/kg without VAT, which is 18 cents less than the resen. The price range for this grade in farms varies from 10.50 to 12.00 UAH/kg without VAT. The upper limit of the price range has

decreased by 50 cents of the last month, and the lower boundary remained unchanged.

The highest grade on average costs 11.55 UAH/kg without VAT which is 18 cents less than a month ago. Price for high grade milk range from 10.00 to 12.00 UAH/kg without VAT. Comparable to the beginning of May, the upper limit of the price range dropped to 10 crops.

The average price for milk of the first grade was 11.13 UAH/kg without VAT and decreased 29 cents, compared to last month. The minimum price in farms was 9.50 UAH/kg and remained at the same level as in early May. The maximum price for the first grade was 11.43 UAH/kg, which is 21 cents more than a month ago.

Read also: [Ukraine in May increased exports of dairy products - Association of manufacturers](#) According to AVM analyst Georgy Kukhalevshvili, milk and raw materials continue, since processing enterprises had difficulty in selling finished goods in both the domestic and export market. Language prices press excess stock products such as milk, butter and cheeses that accumulate in warehouses.

As reported by Ukrinform, the purchase prices for raw milk in Ukraine began to be started in early April 2023. As of the end of April, the prices for siremoloco in Ukraine decreased depending on the grade by 13-17 cents, compared to March this year.

The reconstruction in the global sense should take place at the expense of 80% of private capital;

According to Ukrinform, the press service [Ministry of Economy] reports it(<https://www.me.gov.ua/News/Detail?lang=uk-UA&id=ac2129b7-1140-4d74-8468-4e897593e7b9&title=SCobPriishovInvestor>).

"I believe that the reconstruction of the state in a global sense should take place at the expense of 80% of private capital. For this to happen, it is necessary to create the preconditions that will make investors to invest in Ukraine. We have to give a clear signal and ourselves within the society we build. In order to attract investors, the Ukrainian economy should grow faster than the neighbors, "the first VicePremier -Minister of Ukraine -Minister of Economy Yuliya Sviridenko said.

Read also: [Construction of the new hydroelectric power plant can cost about \\$ 1 billion - Ministry of Economy](#) According to her, the government is now working on three fundamental directions: ensuring our defense forces, urgent restoration and provision of mural. All of these areas are interrelated, and therefore a clear vision of how our current steps to stabilize the economy are to ensure its further development after victory.

Sviridenko believes that Ukraine should develop first and foremost those sectors that have competitive advantages. It is about the agricultural industry, green metallurgy, mechanical engineering, woodworking, IT industry, Military-Tech, health care and pharmaceuticals. At the same time, the business environment requires the reform of the law enforcement and judicial system, and to create conditions for the safety of investors' capital.

"There will be big investments when Ukraine has security guarantees. To create a comfortable conditions to create a business, the government is working on total -regulation. In order for investors to come to us, the process of building in Ukraine should take place faster than the nearest neighbor. We also need to implement a more competitive tax system, "Sviridenko stressed.

On Wednesday evening, the Latvian capital was protesting in connection with the terrorist act in connection with the terrorist act-the undermining of the Kakhovka Hydroelectric Power Dams, which has led to the largest in the last decades in Europe.

This was reported by Ukrinform correspondent.

The meeting organizer of the Confederation of Ukrainians Latvia "Viche" was able to collect a nearly 50 participants. There were many homemade posters for condemning the country of terrorist, as well as Ukrainian flags. With special interest, the participants of the action considered the flag with the signature of the commander -in -chief of the landslide of Zaluzhny. It was sent by one of the Ukrainian units - in gratitude to Zadobom, which is carried out by the Latvian diaspora.

The rally was made by Ukrainian activists, Latvian friends of Ukraine, Vienergi Edwards RatneEx, as well as Ambassador of Ukraine to Latvia Anatoly Kutsevol. As a result, a decisive position was expressed: Russia is a terrorist state that demonstrated its barbarism and committed another military crime in Ukraine. This became a kind of response to Moscow to the countries that urge Doming negotiations with the Kremlin.

Participants called on the international community to condemn the Russian terrorist attack by the Nakakhovsky hydroelectric power station and bring the Russian Federation to justice for all the commissioning of notes. *Foto: Oleg Kudrin*

The Russian army has lost more than 100,000 people in Ukraine in the last six months.

According to Ukrinform correspondent, the Deputy Head of Missyian at the OSCE Courtney Ostrien said during the OSCE Permanent Council on Thursday.

"Russia's war against Ukraine has become not only a strategic but also a military service. Many have believed in it. Today, many consider the Russian army the second most powerful in Ukraine, "she said.

Read also: [future reparations of Russia should compensate for losses](#)

[through Kakhovsky Ecocide - Ukraine in OSCE](#) According to Ostrien, technology, technology, leadership, troops, strategy, tactics and moral spirit of the Russian army "is an example of failure, even back to Moscow that Ukraine causes destructive, meaningless and unreasonable harm to Ukraine."

"It is estimated that the loss of Russian troops in the last six months was 100 thousand people," said the OSCE Deputy Head of the USSE Mission.

According to her, there is no doubt that "Russia is in a much worse setting today than to a full -scale invasion - in military, economic, geopolitical terms."

Read also: [OSCE ready to support Ukraine in overcoming the effects of the Kakhov tragedy](#) At the same time, it condemned the continuation of Russia's attacks on civilian infrastructure and expressed anxiety by the destruction of the Kakhovsky dam, which became a "pilot tragic result of an uncontrollable, full -scale invasion of Russia."

Ostrien emphasized that the United States would work to ensure that "the Kremlin of the Tai Taigs are held accountable."

She assured that the United States would continue to cooperate with Ukraine, as well as with our allies and partners to "meet the needs of Ukraine Napoli Battle and invest in the future capacity of Ukraine." "It is because we do not have illusions about Putin's aspirations, we consider that the most prerequisite for meaningful diplomacy and real peace is a stronger Ukraine, capable of restraining and protecting from any future aggression. Incarnation of negotiations to participate in constructive diplomacy, if it helps to find the way to a fair and long peace in accordance with the principles of statutory, " - said the Deputy Head of the USSE mission in the OSCE.

As reported by Ukrinform, earlier the Britain's delegation in the OSCE stated that Russia has only lost about 60,000 killed and wounded in Bakhmut, moving 29 kilometers only - one killed or wounded hip.

The rehearsal of the concert of the Symphony Orchestra of the National Philharmonic of Ukraine under the leadership of the Spanish conductor Ramon Torrelido was rehearsed in Kiev.

This was reported by Ukrinform correspondent.

The event was attended by the Ambassador of the Kingdom of Spain to Ukraine Ricardolopes Aranda, Acting The Director General of the National Philharmonic by Ukraine Head Schwed.

The performance itself will be held tomorrow, June 9, at 19:00. Soloists will be Valeria Tlis(soprano), Dmitry Tkachenko(violin), Olga Tabulin(contralto) And Alexander was drunk(tenor).

Свій концерт у Києві іспанський диригент присвячує концерт українському народу.

"Зараз у житті немає нічого важливішого, аніж бути тут: треба бути з тими, хтостраждає. Головне, не витрачати свого часу, а поділяти його з іншими людьми. Я приїхав, щоб ми могли розділити між нами музику, наше горе та нашу радість", -зауважив Торрельєдо. Він підкреслив, що музиканти роблять важливу справу, бокожна дрібка мистецтва - чи то нота, чи то мазок на полотні, несуть в собі меседж любові.

Maestro's first visit to Kiev initiated the Embassy of the Kingdom of Spain in Ukraine. The rehearsal of the future concert was held in the Philharmonic Column Hall, where the works of Spanish composers were performed, in particular, the interlude of Sarsueliel Batel Federico Chuck, as well as the Spanish Symphony for orchestromedgar Lalo. Also included in the concert program includes Music Manuel de Fali, Pablasorosabal, Federica Moreno-Torrob, Juan Himenes. The organizers emphasized that during the concert the interpretation of Ukrainian Rhapsody # 2 "Dumka-Shumka" Mykola Lysenko in the translation for Vladimir Stetsenko's violin will be released by Levko Kolodub.

Ramon Torrelido is a Spanish pianist, conductor, popularizer of classical music in the world. He conducts orchestras in Spain and Europe, is the head of the festival Mundi Talents Awards. In order to convey the classical music of the people, it acts for different audiences, including factories, hospitals, cathedrals. In 2005, he gave a concert at the barracks of the death camp and prison.

Type: Article

From the beginning of the full -scale invasion, 50% of Lugansk teachers are either abroad or temporarily captured in the territories of the region.

The head of the regional military administration Artem Lisogor said this at the Forum "Education of the Luhansk Oblast: Reintegration and Reintegration", the head of the regional military administration, reported by Ukrinform.

"We have lost about 50% of teachers since 2022, this is due to those who have left the occupied territory, and those who are abroad are in a while, these are about 700 specialists. But we communicate with them, and there is a desire for them (In people - ed.) Back, "said Lisogor.

He added that there is a personnel deficit in the level of the region.

"Some changes in funding legislation are needed, which will allow us to pay experts who will go to the de -checked territories, a 200% allowance of the conditions in which they will work, and mandatory guarantee, if it is a young expert - the possibility of unprecedented and non-standard entry of effort and obligation then to work out the predictive territories for three years, "Lisogor said, adding that separate programs will be worked out under each such person.

The head of the OVA also noted that after the de-occupation of the Luhansk region it is necessary not only to restore educational institutions, but also to restore all their material and technical base, which the occupiers were looted.

"Many schools have been completely or partially destroyed, and in almost all schools, at least new windows are needed. It is clear that it is necessary to make repairs, so why the army of invaders without neglecting that it is educational institutions, lived in them. 'FRIENDS, INTERACTIVELYSHIES, PARTS - they took it all. Many schools will need to hold works to replace the same heating. There were modern boilers, boilers, have a modernization that it was partially cut, taken out, "Lisogor said.

According to him, there are now 572 educational establishments in the temporarily occupied territory of the region, of which 252 [school](#), 270 kindergartens, 25 out-of-school education institutions, 18 educational education institutions, 4 - professional higher education, 2 - higher education, 1 - postgraduate pedagogical education. **Read also:** [new Ukrainian school reform is introduced for 5-9 classes- Shmigal](#) As Lisogor added, those children who did not leave their families of the region after February 24 are forced to attend schools that are already taught by Russian programs, and after de-occupation, another call will not only be given to textbooks, but also the introduction of educational programs, since some children were removed from Ukrainian education until February 24, 2022. There are also those who have already completed the school, and they will also need to work with the area.

However, as noted by the head of the Lugansk administration, there are cases where children of the Lugansk region are involved in studying in Ukrainian schools online.

"I am very proud that this year we have been able to provide those children who have known 11th grade, certificates for completion of school education," - said Lisogore.

At the same time, he noted that on safety issues, the number of such children is non-existent because the occupation administrations respond to such reports.

As it was reported, according to [data of the Ministry of Education and Science]](<https://saveschools.in.ua/>), in Ukraine, 3 281 educational institutions were affected by bombardment and shelling. 262 of them are completely destroyed.

There are 572 institutions in the temporarily captured territory of Luhansk region, of which 252 schools, 270 kindergartens, 25 out-of-school establishments, 18 educational education institutions, 4 - professional higher education, 2 - higher education, 1 - postgraduate pedagogical education. As of the end of 2022, 184 of the education of the region was damaged.

Ruskivskaya focuses major efforts in Liman, Bakhmut, Avdiiv and Mariinsky directions, and 26 fighting took place during the day.

The General Staff of the Armed Forces of Ukraine reported this on [Facebook](#). Having published operational information as of 18:00 on Thursday, June 8, Ukrinform reports.

As noted in the General Staff, in the mentioned directions for each square metrates heavy battles.

In total, during the day, Russian invaders made one missile and 27 aviation strikes, as well as about 30 shelling of the reactive systems of the railway system at the positions of the Defense Forces of Ukraine and settlements.

It is emphasized that the likelihood of the enemy of missile and aviation strikes throughout Ukraine is "very high".

Aviation of defense forces in total per day struck 18 beats in the areas of concentration of the personal composition of the Russian army and two on hostile anti-aircraft missile complexes.

Units of Ukrainian missile troops and artillery during the day were struck by five government utilities, six areas of concentration of live power, weapons of Tavi equipment, two anti-aircraft missile complexes, eight artillery units at fire positions and two more important objects of invaders.

On Volynskyi and Polissya directions Operational situation, as an information of the General Staff, has not undergone significant changes. Signs of formation of offensive groups of the enemy have not been detected.

Separate units of the Armed Forces of the Sirosian Federation continue to be located at the Belarus landfills.

At the Siversky and Slobozhansky directions Russia retains military adventure in the border areas with Ukraine, strengthens the composition of the border grouping at the expense of territorial troops.

The Russian aviation beat Miropil, Sinni and Severinovtsisum region during the day. From mortars and artillery, the enemy fired at atin, Bezsalivka, Miropillya and Ponomarenko of Sumy region, as well as Krasne, Morokhovets, Lukyanka, Starytsia, Gatyshche, Vovchansk and Chugunivka of Kharkiv region.

On the Kupyansk direction artillery and mortar strikes from Russian, Kamyanka, Krasne First, Novomlinsk, two -year, Kyslivka, Tabayivka Iberestovo, Kharkiv region and Novoselivska Lugansk region. In the **Bakhmut direction** the Russian army tried to improve tactical and conducted offensive actions in the direction of Ivanivsky, but the success did not have success.

Read also: [Syrsky declared the successes of the military at Bakhmutskaya Vasyukivka, Minskivka, Orikhovo-Vasylivka, Grigorivka, Bogdanivka,](#)

Ivanivske, Stupochka, Oleksandr-Schultine, White Gora, Friendship, Toretsk and North Donetsk region were injured from enemy artillery shelling.

On the **Avdeevsky direction** the Russian troops made unsuccessful attempts from the Non -Savel from Severny and Experimental. The invaders struck from the aviation in the district Avdiivka, from the artillery - in the districts of Novokalinov, Avdiivka, Tonny, Pervomaisky and Karlovka of Donetsk region.

In the **Mariinsky direction** Defense forces repelled all Russian attacks in the area of the Namarinka, causing the enemy to lose. In the areas of Marinka, Viceda and Novomikhailivkidonetsk region, strikes of enemy artillery are recorded.

In the **Shakhtar direction** The Russian army fired at the coal, the miner, the Golden Niva and the Uremivka of Donetsk region.

On **Zaporizhzhya and Kherson directions** Russian troops continue the Valiorone actions, in the area of Gulyaypol of Zaporizhzhya region caused an aircraft scaffold.

Artillery shelling From the Russian Burlatske, Green Field, Novosilka, Novopil and Temivka, Donetsk region, Olgiv, Gulyaypole, Railway, Belogorye and Kamyanskoye Zaporizhzhya region, as well as Kherson, Berislav and Antonovka of Kherson region.

According to the General Staff, the Russian military leadership has significant problems with the wake of its subordinates. Yes, servicemen who have recently signed a contract in military units stationed in the city of Volgograd were issued boots instead of shoes with high berets.

It is established that the military uniforms of Russian contractors are forced to buy assertive funds.

As reported by Ukrinform, in the Bakhmut direction of defense forces advanced 1600 meters on the southern northern flanks.

Type: Article

Ukraine has transmitted a list of urgent humanitarian needs to overcome the consequences of Russia's dams of the Kakhovka hydroelectric power station and will receive assistance in the Euro -Atlantic Coordination Center for Natural Disasters Takatastrophe in the near future.

This was discussed during the participation of the Minister of Foreign Affairs of Ukraine Dmitry Kuleba as an urgent meeting of the Commission of Ukraine - NATO, reports Ukrinform with the [Foreign Ministry of Ukraine](#).

"Ukraine has submitted to the Euro -Atlantic Coordination Center for Response Agricultural Disaster and Catastrophe, which outlined the specific needs of the Ukrainian page. I am grateful to NATO and individual allies for their rapid readiness to help Ukraine to overcome the consequences of Russia's terrorist attack at the Kakhovka hydroelectric power station, "the minister said.

Read also: [more than 3.3 thousand homes remain flooded as a result of the rupture of the Russians **Kakhovsk**

(<https://www.ukrinform.ua/rubric-regions/3720230-ponad-33-tisaci-osel-zalisautsa-pidtoplennimi-vnaslidok-pidrivu-rosianami-kahovskoi-ges.html>)Kuleba emphasized that the Kakhovska catastrophe demonstrates the absence of any limits to Russia's crime. According to him, as long as Russia occupies the Ukrainian land, the threat of new Russian crimes will remain. That is why the help of NATO allies for the release of the whole territory of Ukraine is critical.

"I urge partners to further strengthen Ukraine's defense capability, in particular to continue the supply of artillery ammunition and gun155 -caliber as soon as possible," the minister stressed.

He also urged partners to make a decision at the NATO summit in Vilnius, which will be unacceptable to Ukraine's accession to the Alliance. In his opinion, Ukraine's membership in Ntotovna is the benefit of the Alliance, since Ukraine already has significant contribution of Euro -Atlantic security today, operates according to NATO standards and uses Nativa.

Human rights groups have reported that at least 18 people in several villages have been killed in the east.

According to Ukrinform, it reports [Associated Press](#).

The United Democratic Forces fighters attacked people in the villages of Mutai, Beccambole and Bousles in the territory of the Ituri Province last weekend, Cristof Munander, Coordinator of the Human Rights Convention, said in the middle of the Human Rights.

He added that the houses in these settlements were also robbed.

Initially, the United Democratic Forces acted in the province of North Kivu, and the group also expanded the influence on the neighboring Ituri province.

Attempts by the Army of the Congo forces of Uganda to push the rebels turned out to be unsuccessful.

As it was reported, at the end of May [at least 17 people were killed by the extra-extremes](#) Northern Kiwu in the east of the Congo.

It is believed that the organization of the United Democratic forces is connected by the Islamic State with Zhugropod.

Images: ['[630_360_16655...](#)']

Tags: ['НКРЕКП', 'Биометан']

Type: Article

The National Commission for State Regulation in the Fields of Energy of such Services has improved the conditions of access of biomethane producers of gas infrastructure.

Relevant [decree](#) The regulator accepted the reference of changes to some resolutions of the NERCEP to promote the development of production vabometan during the meeting on June 8, Ukrinform reports.

"The development of production and export of biomethane is strategic for Ukraine, as it will help attract investments in the agricultural sector, create workplaces, increase tax revenues to local budgets, as well as increase export foreign exchange earnings,"(<https://www.ukrinform.ua/tag-nkrekp>)Konstantin Ushchapovsky.

The document amends the Code of Gas Transport System and the Code of Supplies in terms of improving the conditions of access to producers of biomethane to gas infrastructure and leveling of technical restriction to the gas distribution system.

This will contribute to the development of biomethane production in Ukraine and the achievements of climate neutrality, the implementation of the second nationally defined Ukraine's contribution within the Paris Climate Agreement, which corresponds to the strategy reform of the energy sector in EU member states and Ukraine.

The UN General Stefan Duzharrik confirmed that the organization is not engaged in physical rescue, but is present in Ukraine "from the beginning of the conflict" and provides humanitarian assistance to the victims.

According to Ukrinform correspondent in New York, he told reporters to the journalists, commenting on critical remarks of the President of Ukraine of

Zelensky's President of Ukraine on insufficient involvement of the UN and the Red Cross International Committee to overcome the consequences of the Kakhovsky Dam.

"As far as I know, we do not participate in physical rescue, since you do not have such opportunities and equipment that allow you to do it with a large scale. Judging by what I have seen, they are engaged in the pre -military, police and other emergency services, "he said.

Read also: [Khovskaya hydroelectric power plants. All news](#) At the same time, he said, the UN provides various humanitarian assistance to the victims.

The organization is involved in "providing assistance to people in moving to more safe areas, accessing clean water and food and receiving money assistance to meet their urgent needs," he said.

The World Food Program, together with national partners from NGO "Platka", has already delivered ready -made food to eat 18,000 people affected by floods that were evacuated to other parts of the Kherson Tamikolaev regions, Duzharik said. Also the UN Children's Fund(UNICEF)He organized the delivery of water by vehicles, sending more than 100,000 bottles of drinking water, as well as pills for purification and canisters in the affected inhabitants, he added.

Read also: [Western soldiers have no doubt that Kakhovskaya hydroelectric power station was undermined by Russia - Polish General](#) UNICEF

cooperates with the government and partners for the development of short - term powerful solutions to repair the water supply infrastructure, "which is crucial to prevent the spread of diseases, which are transmitted through water", Duzharik said.

According to him, thousands of people also receive hygienic kits. **Read also:** [Kakhovskaya hydroelectric power station: UN UN They say that Ukraine helps to overcome the consequences from the first day](#) Partners throughout Ukraine offer medical and psychosocial support to people in widespread and evacuated, who arrive in Nikolaev, Odessa and other cities, saying that 3,500 people have already received financial assistance from UNICEF.

"From the first minute, as soon as it happened, we are focused on the renowned humanitarian partners together to deliver as much humanitarian aid as possible to those who need it," Duzharik said.

At the same time, the UN is "extremely concerned about the difficult situation of civilians, which have fallen in areas under the control of the Russian military," he emphasized.

As reported by Ukrinform, the President of Ukraine in an interview with the German edition of Bild critically spoke about response from the UN and ICCC on a humanitarian catastrophe caused by the blast of the Dams of Kakhovskaya HEES by Russian troops.

As a result of the Russian troops of the Kakhovka hydroelectric power station, the agricultural sector of Ukraine could be damaged for one and a half billion dollars.

The First Deputy Minister of Agrarian Policy and Food Tarasvisotsky announced this on the air of the Teleterna "Unified News", Ukrinform reports.

"Talking about the loss of Kakhovka hydroelectric power plants, there are two directions. The first thing is really, where there is flooding and the direct losses have already been received," he said.

In this context, Vysotsky informed that 10 thousand hectares of agricultural lands were flooded on the Right Bank. At the same time, according to him, according to modeling and satellite images, damages of thousands of hectares of land.

"The second block, which is also very important, concerns that water was actually supplied from the Kakhovsky driver to provide irrigation about 600,000 hectares of land," he added.

Read also: [Ukraine may lose several million tons(<https://www.ukrinform.ua/rubric-economy/3720061-ukraina-moze-vtratiti-dekilka-miljoniv-tonn-vrozau-cerez-pidriv-rosianami-kahovskoi-ges.html>)] Vysotsky explained that there is no direct damage from flooding on these lands, alabez of water supply will not be possible to grow full products.

"If we estimate how much it was grown on these lands, it is about 4 million tons of agricultural products. These volumes will be impossible, inaccessible to cultivation, "the First Deputy Minister said.

He noted that these lands were grown up to one and a half -carp.

Vysotsky added that significant losses will be in the fishery industry: "It is previously evaluated that the losses of aquaculture, fish industry are over 10 billion UAH." It is a direct loss in connection with the sea of fish, the destruction of sribrobory plants.

According to the official, it is impossible to quickly restore the losses, in the following years, the everyday fishing of fish in the volumes that were before Kakhovskaya's blast [HPP](#).

The First Deputy Minister assured that all the losses are recorded and in the future "will definitely take action to be compensated."

The film director Dmitry Sukholotsky-Somphchuk "Pomfir" has been included in the list of the most popular movie works this year according to The Guardian.

According to Ukrinform, the corresponding list of movies was published on [site edition](#).

A total of 37 films were made to the released list The Guardian. The list includes, for example, Stevene's work of Fabelmans and Martin Burbulona "Titimushketeers: D'Artagnan".

Read also: [in the Israeli city of Haifa will show the movie "pampir"](#) To each of the selected ribbons, the compilers of the list added a brief description of the plot of the tavlas assessment of the work. The Ukrainian film "Pomfir" was also evaluated by the publication.

"It(The plot of the movie "Pomfir" - ed.)It does not hint at Russia's war against Ukraine, but perhaps this conflict is subtext, in the sense of devotion of the kind, tradition of the milestone and a clear, almost occult attraction to the event, "the description said.

The plot of the film Sukholitsky-Sobchuk was described as "a rigid story of a Ukrainian smuggler attempt to return to family life after a dubious trip abroad." The list of the list also added that this picture is "dynamic but desperate."

Read also: ["pamphir" will be shown on the Netflix platform](#) As reported, in 2019, Pamfir became one of the winners of the 11-competition selection of Derzhkino and received state financial support. The tape was supported by the Polish Institute of Cinema(PISF), Swiss Foundation for Suds Sud Est, one of the most famous European funds that fund Hubert Bals Fund, French National Center for KinoCnC Aide Aux CíneMas Du Monde, International FoundBorg Film FUND, FILEBORG FUNDE.

Pomfir also became one of the winners of the 47th International Film Festival of Vrilland.

The premiere show of the Sukholitsky-Sobchuk movie took place in Kyiv on March 22 this year, and since June 22, the film will be available for viewing on the platform [netflix](#).

Type: Article

It is necessary to consolidate the world in order for Russia to be responsible for ecocide, and Ukraine is not alone with the tragedy.

Volodymyr Zelenskyy said this in [appeal](#) To the representatives of the world ecological community, reports Ukrinform.

Video: [Presidential Office](#)

Good day!

Congratulations to all of you!

All who did not remain indifferent to see this man -made disaster of the Nakakhovsky hydroelectric power station.

It is not a natural disaster or a manifestation of a climatic crisis, it is a disaster. What he will make. What he personally orders to do.

The situation is extremely difficult. Russian troops do not stop artillery for the territory where the evacuation of people is carried out.

Unfortunately, there are wounded from these terrorist shelling. People who rescue from Russian ecocide are forced to escape from the Russian fire! Just at evacuation points ... This Russian ecocid crime is the greatest decade in Europe, but, apparently, Russian invaders decide to worsen its consequences. In the occupied part of the territory, about a dozen settlements have been depopulated, novacuation is not carried out. People on the second day on the roofs, in a water trap, without drinking water, food or Twedic help. We do not know how many dead and victims are killed.

Just an hour is installed every hour - and we are installing - more and more details of what damage Russia has caused this disaster. In more than 30 inhabited pens of life is broken. For hundreds of thousands of people in many cities and villages, access to drinking water is much prepared.

Due to the destruction of the dam, flooded fuel storage facilities, warehouses with chemicals, warehouses, the burial grounds of animals, of which are at least two "anthrax burials", and lobidv - in the temporarily occupied territory. What is with them now, we are unknown. There, where there was no centralized sewage, sewage runoff is already in water, which is covered by everything ...

The number of ecosystems that are destroyed or put on the border of the extinction of this terrorist attack is already calculated by thousands. More than 50,000 hectares have been brought down, and at least half of them will die. Tens of thousands of birds are at least twenty thousand wild animals under the threat of death. Obviously, the Kkakhov reservoir has been transformed into a large grave for millions of living things. First. Of course, we will continue to do our best to save as much people. And we need support for the world. And not only to the rhetoric, but also actions. In the territories of the territory, international organizations were assisted. I thank. In the occupied territory - zero support. And every longer it lasts, moreover, unfortunately, there will be casualties.

There are no attention to international organizations to the occupied territory, which is flooded. And you need, in particular, your pressure on them - I ask!

Second. All this we encountered is a conscious crime of the occupier. Multiple about what happened. But it happened in the occupied territory. But we have warned the mining of the dams and other buildings. But Russian troops are now firing areas where evacuation is ongoing. It is obvious that it is Russia who is interested in a catastrophe.

Just as we have created special expert groups that are engaged in promoting sanctions and security guarantees for Ukraine, we also create an expert group, which will be primarily to engage in the consolidation of the world, so that the ecocide is full of Russian and that our country does not remain alone with this. I am sure that with sufficient leadership in the world, you can create.

Third. Any terrorist expects only a few forms of result for themselves: it is the suffering of people, it is intimidation of people and these are the ruins left after the sebeter. This is how Russia works in this.

Of course, we will do everything to guarantee people the basis for life even after this disaster. But it is necessary that no desert, or ruins, a mint area after this disaster. And this can be provided only by joint ventures, along with the eco -protection community of the world, along with Policy Makers, single -bearing leaders and states, together with international organizations.

Pollution and poison from the flood zone quickly enters groundwater, poisons rivers, and from there enters the Black Sea basin. That is, the nature of nature "somewhere" is not very interconnected in the world.

And so please spread the truth about this Russian ecocide. Please call the leaders, states and international organizations to act. It is no coincidence that we have a formula of peace, one of the key points is the anti -speaking. Please let's make it so that other ecocides are not more. Join our community that I said to our platform, to our experts. We are on constant contact.

Thank you for your attention!

Glory to Ukraine!

Type: Article

NATO's decisions in Vilnius to expand the Alliance and future membership of Ukraine are to be approved solely in the interests of all allies and Ukraine, without fear of Russia.

About this today during a virtual participation in a security conference, which was within the framework of the European Council of External Relations(ECFR)In Stockholm, Olga Stephanyshyn, Ukrinform

correspondent, said Viceremier-Minister for European and Euro-Atlantic Integration of Ukraine.

"Whatever the NATO Summit Decision on Ukraine's membership, it should meet the interests of the Allies and Ukraine. It should not be accepted by the scattering of the fear before Moscow or fear of its reaction to the return of the territories of Ukraine. We do not have to allow Russia to blackmail us," the Ukrainian official said.

Read also: [Commission **NATO** -Ukraine held a meeting of the Kakakhovsky Hydroe(<https://www.ukrinform.ua/rubric-politics/3720225-komisia-natoukraina-provela-zasidanna-sodo-kahovskoi-ges-domovilisa-operativnu-dopomogu.html>) She stressed that the decision of the summit in Vilnius will be an important signal for political leadership and for the people of Ukraine, which on the battlefield defends joint values, as well as its European and Euro -Atlantic future. Such solutions should not be limited to political declarations or memoranda, which, according to Stephanyshina, Ukraine has seen a lot over the past. These can be security guarantees, which are supported by specific administrative and military capabilities, specific obligations of the excavation of international organizations.

The Ukrainian viceremier recalled that granting Ukraine the status of a candidate country to entry into the EU has become a powerful incentive for the whole country in mobilization to reform even in war conditions, as well as an important factor in the implementation of an e-European path for other candidate countries, including Moldova and Georgia. The effect for Ukraine will also have a clear Euro -Atlantic perspective. **Read also:** [New European Security Architecture is impossible without integration of Ukraine](#)

[Stephanyshina](#) According to her, the Allies have no doubt that Ukraine will be a member of NATO. Ukraine has received enormous military assistance from NATO, it is moving to the full compatibility with the Alliance's troops and has powerful land forces that are most capable not only in Europe but in the world. Therefore, the Usuznikov has every reason to respond positively to the application of Ukraine on membership. At the same time, the "political choreography" of this process must still be worked out.

"My position may seem too radical or energetic. But it is worthwhile to get unique features of Ukrainian politics during a war, which is not always clear to others. Our armed forces and managers at local and central levels - we have become one. At some point, politicians began to think and evaluate the situation as the military. At the same time, our military, they know what we

need to do to bring the country closer to the EU and NATO, it is an investment in the future for which they are fighting, "Ukraine emphasized.

She stressed that during the year of the struggle, Ukrainians proved that Russia could not be in Ukraine by any of the military or political purposes. The war has left the unity of Ukrainian society in the fight against the enemy, as the question of survival and response to existential threats are higher than any political electoral processes or differences.

Read also: [Stefanyshyn And counts on the political decision on Ukraine's members of NATO at a summit in Vilnius](#) According to Stephanyshina, Russia has also received the opposite result in trying to understand the unity of the Allies and deny NATO expansion. Instead, it has received strong Euro - Atlantic solidarity and almost two thousand kilometers with the Alliance after Finland's entry and shortly - Sweden. It was reported that on July 11-12 in Vilnius there will be another NATO summit, which will consider the continuation of assistance to Ukraine in the fight against Russian aggression. President Volodymyr Zelenskyy expressed his intention to personally take part in this storage. At the same time, at all levels, the Ukrainian side emphasized that assurances about the fact that "Ukraine will become a member of the Alliance", which were made during the NATO time summit in 2008, is not enough. Instead, the Ukrainian will be about NATO allies to provide safety guarantees of a touching movement for full membership in the Alliance.

The United Kingdom has announced an additional IDACE funding of 750 000 fuments sterling(*nad 34.5 million UAH* _ - Ed.)to support the work of glow safety in Ukraine.

This is stated in [message](#) British government.

The United Kingdom has already provided £ 5 million in support of the Maga Commander in Ukraine after Russia's invasion of the country, as well as a year -old budget contribution to the IAEA.

Additional funds will help the IAEA continue its vital work in Ukraine, providing support and advice to the Ukrainian government on nuclear security.

Financing of the United Kingdom also contributes to the teaching of radiological materials and expert studies at nuclear power plants.

"Russia's barbaric attacks on Ukraine's civil infrastructure and its illegal control over the Zaporizhzhya nuclear power plant are contrary to all international nuclear security. She claims that she supports nuclear security standards, but her actions speak of another. I highly appreciate the work of the MAPEVA staff of Ukraine and the Council that additional funding for the United Kingdom will help you to help you see the vital work of the agency, especially given the additional riser associated with the destruction of the Kakhovsky dam, "the UK's constant representative in the IAEA Citsell said.

The presidential is convinced that with two -party support in Congress, Ukraine receives a new assistance, including in the long run.

He stated this during a joint press conference with Prime Minister Risha Sunak, Ukrinform correspondent reports.

"I believe we will have funding necessary to support Ukraine as much as it will be needed and I believe that this support is (In Congress - Ed.) Budreal, even though today you hear some votes in the Nakapitolian hill about whether we should continue to support Ukraine or how long we have to support them, "the White House Head said.

In this connection, he suggested that he would have happened if the United States stopped with the Ukrainians.

"Do you think that Russia will stop in Kiev? Do you think that everything is on this? I think no. I think the vast majority of my colleagues and even critics also believe that it will not happen, " Biden said.

Oleksiy Danilov does not exclude that Ukraine may have individual subtitlation agreements with NATO member countries regarding their presence of the alliance or in a different form.

According to Ukrinform, he stated this in [interview Ukrainian radio](#).

"As for Mr. Rasmussen's statement, we would very much like security guarantees(For Ukraine - ed.)They were not guarantees of the Budapest sample of 1994, but were guarantees effective and binding. When Putin was active in the war in February 2014, and then again in February 2022, he intended that NATO would in no way expand or approach the Russian borders. As a result, we see that today's Finland is almost members of the Alliance. Both one and the other are near the spray, and one at its border. And the fact that we will be members of the Alliance is a question of time. This is our norm of the Constitution, which no one will be cleaned from there. We will be sure to be there because we are worth being in a single family that supports democracy and meets NATO countries, " - said Danilov.

Read also: [Secretary of the NSDC compared Putin with Ben Laden: destroys everything he sees in his way](#) In addition, he commented [the statements of foreign minister Dmitry Kulebipro that NATO troops will not enter the territory of Ukraine](#) At least the dosing of this war, and the former NATO Secretary General of Rasmussen that certain certains can still take measures individually.

"Let's wait for more specific actions. I do not exclude such an option that bilateral agreements with certain countries that are members of NATO, alletreb will understand what these agreements should be. All agreements - according to the international law ... So let This will happen, whether there will be Ukraine that will agree. But I emphasize again - only very quality, issued relevant regulatory documents, "the Secretary of the NSDC said. **Read also:** [Danilov After the NSDC meeting: no Russian will not be released by Ukraine, which time has come](#) On July 11-12, another NATO summit will take place in Vilnius, which considers the benefits of assistance to Ukraine in the fight against Russian aggression. Presidential Divine Zelensky expressed his intention to take part in this meeting in person. At all levels, the Ukrainian side stressed that the assurances that "Ukraine will become a member of the Alliance", which were made during the Bucharest NATO, in 2008, is not enough. Instead, Ukraine raises NATO -universities about providing security guarantees and a clear perspective on full membership in the Alliance.

Oleksiy Danilov, Secretarrrno, stressed that Russian agent is eradicated both in Ukraine and in partner countries at a frantic pace.

According to Ukrinform, he told about it on the air [Ukrainian radio](#).

"I want to say that there are so many processes in recent times. In this Tszarin, more and more countries are found in their territory of so -called" agents of influence ", direct spies that worked for the Russian Federation.

Two or three years in the past and that is now, they are crazy shifts in this field. Recently, I am seeking the Security Service of Ukraine, military counterintelligence, counterintelligence, which are more and more finding more and more of those people who were in one time. We performed certain tasks, and we almost every day we have the report of the head of the Child General's Security Service with the results that the Security Service of Ukraine has, "Danilov said.

As for other countries, he said "the introduction of the Russian language of promotion of the so -called" Russian world "occurs under the cover of the Russian special services.

Read also: [since the beginning of the war Russia has made more(<https://www.ukrinform.ua/rubric-ato/3720279-z-pocatku-vijni-rosia-vcinila-ponad-desat-sprob-zamahu-na-budanova-gur.html>)"This is an influence. The Russian Church is a separate conversation in general. They work for the Russian FSB. Where they have that God, if their churchmen say that they must go and kill children, people. Nowadays you will find such things in the commandments of God, but those people who are aware that they are relevant to the church, they give direct instructions. It is the church of the Moscow Patriarchate, which has nothing to do. These are athletes and all other institutions. Some journalists do not row from the hands of the Russian agency in order to be certain narratives In the light of being about the lie that they spread relative to our country. We are now working out in these areas and we and partners, "the NSDC Secretary said.

With regard to specific names of spies and agents of Russian influence in Ukraine [Danilov](#) He noted that they are known."We do not have a single day so that Vasily the baby does not report to the president. . They understand what is threatening. You see how many diplomats and other Russians make non -grata persons in their Russian swamps are forbidden to enter their territory. This happens almost every day. But not always publicly, "he researched.

As reported by Ukrinform, Danilov does not exclude that in Ukraine there may be bilateral agreements with NATO member countries, regarding their adherence in our country as representatives of the Alliance or in other viewing

The UK Prime Minister Risha Sunak called the "decisive" contribution of the United States to the maintenance of Ukraine and assured that his country was committed to obligations to victory forces of democracy and freedom.

Sakak said this during a White House in common with the US President, Ukrinform correspondent reports.

"The United Kingdom is proud of our contribution, including tanks, long -range weapons and Ukrainian soldiers' training. But there should not be a decisive contribution that allows democracy and freedom to win, "Snak said.

In this connection, he expressed his gratitude to President Biden personally to the Taman, who continue to provide Ukraine with everything necessary.

At the same time, Snak emphasized the need for other countries to intensify and realize their part of the contribution to joint security in the context of Russian aggression.

Read also: [Snak : Legal Place of Ukraine - in NATO](#) "We were lucky enough to get America's investment in European security, but the army is to divide the burden together," the Prime Minister said.

According to him, the expenditures of the United Kingdom for defense have always been more than 2%, which is considered a "control" for NATO countries. "Miserable other countries to follow the example of the US and [Great Britain](#) because our safety is ecolective, "Snak emphasized.

He also agreed with Biden's opinion that it was first and foremost a containment of the Russian Federation.

In Ukraine, training seminars for administrators of administrative services are completed(CNAP)regarding the peculiarities of providing a proper and quality service to war veterans and their families.

About this joint project of the Ministry of Veterans of Ukraine Taves -Ukrainian Association of Administrative Services Centers, where 1015 CNAP administrators from all regions and city of Kyiv have passed within a month of study, [writes] [writes](#) Ministry of Veterans site.

The seminars were conducted in online and offline formats, and the speakers of the Taffasilitators were the leading specialists of the Ministry of Veterans, including the Deputy Minister of Affairs of Ukraine for digital development, digital transformations and digitalization of Tatiana Kalita, as well as the heads of the CEO

Thus, the students of the seminars got acquainted with the list of administrative services for veterans, practical cases on the peculiarities of interaction with veterans and veterans during the provision of services in CNAPs, received answers to the most common questions from the specialists of Ministry of Veterans and Psychologists. After training, a coordination meeting was also held for the Centers for Creation of the Single Way Siege on Veterans Services.

"CNAP experts provide a large list of administrative services to different persons. And those social instruments that are in the centers have become a key to mining. Provision of quality services to war veterans and family members through a CNAP network will be an effective tool for returning Ukrainian defenders and defenders and their families to a peaceful life, contributing to self -realization in society, "Svetlana Berezina stressed.

Chairman of the All -Ukrainian Association of Administrative Services Centers, Director of the Department(Center)Provision of administrative services of the executive organization of the Kyiv City Council(Kyiv City State Administration)Natalia Shamray noted that the proper maintenance of veterans and their families is an epiorities in the work of the CNAP.The Ministry of Justice reminded that it was already implementing individual partnerships jointly by the content authorities. In particular, in the territorial community of the city, the “veteran” administrative service works Zhytomyr. There the CNAP base opened a "single window" for veterans, involved in his work involved employees who have been trained and are well known in guarantees, rights and opportunities for veterans. And in Kryvyi the administrative service "I - Veteran" - thanks to the cooperation of the Ministry of Executives of Veterans of Ukraine, Kryvyi Rih City Council and the Dnipropetrovsk Regional Military Administration, 561 services are available to the defenders and their families in one place.

The presidential is convinced that with two -party support in Congress, Ukraine receives a new assistance, including in the long run.

He stated this during a joint press conference with Prime Minister Risha Sunak, Ukrinform correspondent reports.

"I believe we will have funding necessary to support Ukraine as much as it will be needed and I believe that this support is (In Congress - Ed.) Budreal, even though today you hear some votes in the Nakapitolian hill about whether we should continue to support Ukraine or how long we have to support them, "the White House Head said.

In this connection, he suggested that he would have happened if the United States stopped with the Ukrainians.

"Do you think that Russia will stop in Kiev? Do you think that everything is on this? I think no. I think the vast majority of my colleagues and even critics also believe that it will not happen, " Biden said.

"And we are moving to this goal by providing support that Ukraine needs now on the battlefield, as well as help them to strengthen their army in the long run," the US President said.

According to Ukrinform, on Thursday in the White House a meeting of Presidents Joe Biden with Prime Minister of Great Britain, Rice Sunak, took place. The questions of support of Ukraine and a joint answer to the aggression of the Russian Federation were one of the main negotiations in Washington.

Today, Military Media Center held a round table on "War of opposite souls. How to maintain the mental health of military personnel and all social

education. " The event was attended by Deputy Minister of Defense of Ukraine Hannamar.

It was impossible to prepare for the war of this scale, but in Ukraine there was a community that takes care of the mental health of the whole nation, the defense ministry was also involved in these processes. The Armed Forces of Ukraine, as part of Ukrainian society, need help in this area.

According to Anna Malyar, there are now several challenges before the department: a significant increase in the number of servicemen, a deficit of military psychologists with fading of stereotypes and stigmatization about the psychological assistance of media servants.

Due to the military specificity and security issues with servicemen, only military psychologists are currently working. According to the Deputy Minister of Defense of Ukraine, some steps have already been taken in the Armed Forces to resolve the problem.

-First, we carried out targeted mobilization for available vacancies and conducted appropriate training in working with the military. Secondly, civil organizations and civilian psychologists who have been working on this front since 2014 are already involved and carrying all this burden on themselves, "she said.

Anna Malyar also emphasized that a serious challenge remains the stigmatization of psychological problems. After all, psychological assistance is provided on voluntary basis, a person has the right not to consult a specialist, and stereotypes prevent people from admit that they need such help. Therefore, the primary task of the help of help remains an explanatory work. Now it is extremely necessary to translate psychological help on the usual thing. *Foto: Nazar Voloshin*

- The Ministry of Defense is an active participant in the All-Ukrainian Programming Health, and we all understand well that in the field of view of our specialists there are not only servicemen but also families of defenders, - said during the round table "War against our souls. How to maintain mental health servicemen and the whole society »Provisional Acting Director of the Department of Humanitarian Support of the Ministry of Defense Nazimagayev. - That is, we need to deal with the issues of preserving their mental health and psychosocial support. Considering the experience of US soldiers who fought in Vietnam, we will have problems with the diagnosis of stress-related disorder in about 8 years. So now we are working with servicemen who will return to the future life in the future. And our task is to

provide the defenders of quality assistance so that after demobilization they are mentally healthy and ready to build a country.

According to Nazim Asaphevich, the whole psychological component is concentrated in the head management of moral and psychological support of the Armed Forces. Structural changes have been made for a year, which everyone has been waiting for since 2014. The psychological assistance system has been formed and now acquires capacity. There is a deficiency of psychologists, but this issue is gradually resolved.

To date, one of the main tasks of the military department in terms of implementation of the Ukrainian Mental Health Program, according to Nazim Agayev, is a meter with public organizations that can provide psychological buildings, wellness institutions Nafront. *Foto: Nazar Voloshin*

Category: News

The state should be ready for a comprehensive approach to the restoration of the mental health of Ukrainians after the war. For this purpose, All -Ukrainian Programming Health is created, which will provide every citizen with a system of quality services and services and will help to restore the war damaged by the war, to turn to a fulfilling life. Oksana Zabitneva, the head of the Cabinet of Ministers of Ukraine, told this during the roundtable meeting at the Military Media Center on the theme "War Against our Souls. How to maintain the mental health of the military personnel of the society. "

According to her, aspects and components that are components of the mental health care are in every sector and in every industry. Therefore, relevant ministries need to unite, coordinate, and interact in order for their approved

decisions in this field to create a chain of services and services that support a person to support a person on the way to mental recovery.

According to the Head of the Coordination Center for Mental Health of the Cabinet of Ministers of Ukraine, the scale of the problem and the point of reference will now be estimated, which will be based on a state level plan.

On the recommendation of the World Health Organization, in your pyramid of services, which is an expert partner of creating an all -Ukrainian program of health health, you must first build a plan at the state level, provide services in communities and create a specialized assistance system. According to her, in the organization of the system of services, Ukraine faces descent and large - scale challenges: what should be the education, what should be the programming of specialists, whether they bring up new experience and new knowledge.

What the system of services and services should be after the war - how to properly organize it in order for a person not to lose in the era of post -war changes, the vibration cannot cope with new challenges.

It is necessary to decide how the training of specialists of specialized assistance will be prepared, who will determine their level of qualification and how they will ensure their installation in the system.

However, the state coordination system is built on the part of the state - each of the ministry presented its priority project. The Minister of Defense of Ukraine presented a large five -layer and multilayered restoration for armed forces. A system of regional coordination is created - every OVA has a deputy responsible for mental health, a system of services and services provided in the community is created.

But what is important: if this component is not built in defense, the tops of the military in civil life will not cope with these flows that have the unique combat experience and the traumatic events experienced, the military psychologists are able to work. Therefore, it is important here that they will be common and strong in it.

The strong flow of water, which was caused by the destruction of the Kakhovka hydroelectric power station, actually called the first line of Russian troops in the area. The water flooded the left coast and forced the invaders to move from 5 to 15 kilometers of rifled directions. The head of the United Press Center of Defense Forces of the South of Ukraine Humeniuk reported this on a live broadcast of the nationwide marathon "Yedinovina".

According to her, the number of shellings by the Zagarbnik has also decreased almost twice, as they are currently involved in issues related to the communication of the release of troops. In particular, the mortar -settings of

the Russians, which were felt by residents of Kherson, have decreased significantly.

The spokeswoman also drew attention to the situation in the region by buying objects. The fact is that during flooding the water is swollen mine fields of the enemy. Mines and other explosive objects that have flowed downstream pose a deadly danger to the civilian population.

She stressed that in the event of a mining, civilian population must be defined by defense forces, since the cases of mines in the water have already been recorded by our military.

Natalia Humeniuk also answered the questions of the leading "only news" of the protakotics of the Russian troops in the Black Sea.

"Ukrainians are not afraid of Kakhovskaya hydroelectric power plants. They are afraid of the destruction of the Dam of the Kyiv Aquarius. If something

happens to her - a large number of people will die. " The Russian propagandist stated in. Solovyov.

The Center for Combating Misinformation on its Official Facebook page [reports](#) that the inaccuracy of the Russian Federation before the blasting of the Dam of the Kakhovka Hydroelectric Power Plant is the main Narrative of Russian propaganda media.

The Putin propagandist also stated that the situation with the Kakhovka hydroelectric power station was not common with the interests of the Russian Federation.

"Despite the fact that the hydroelectric power plant has been replaced and undermined by the Russian accumulators, the Kremlin and the media under it continue to promote the narrative of the Russian Federation to blast the dam," the statement said.

In addition, in order to demoralize Ukrainian society and sow fear in the eyes of the people, propagandists began to mention in their conversations about the dam of the Kiev Damage.

Realizing the inevitability of its defeat, the Kremlin regime does not leave the attempt to simulate the Ukrainian authorities before negotiations under the terrorist conditions of the Russian Federation.

Type: Article

Oleksiy Danilov does not exclude that Ukraine may have individual subtitlation agreements with NATO member countries regarding their presence of the alliance or in a different form.

According to Ukrinform, he stated this in [interview Ukrainian radio](#).

"As for Mr. Rasmussen's statement, we would very much like security guarantees(For Ukraine - ed.)They were not guarantees of the Budapest sample of 1994, but were guarantees effective and binding. When Putin was active in the war in February 2014, and then again in February 2022, he intended that NATO would in no way expand or approach the Russian borders. As a result, we see that today's Finland is almost members of the Alliance. Both one and the other are near the spray, and one at its border. And the fact that we will be members of the Alliance is a question of time. This is our norm of the Constitution, which no one will be cleaned from there. We will be sure to be there because we are worth being in a single family that supports democracy and meets NATO countries, " - said Danilov.

Read also: [Secretary of the NSDC compared Putin with Ben Laden: destroys everything he sees in his way](#) In addition, he commented [the statements of foreign minister Dmitry Kulebipro that NATO troops will not enter the territory of Ukraine](#) At least the dosing of this war, and the former NATO Secretary General of Rasmussen that certain certains can still take measures individually.

"Let's wait for more specific actions. I do not exclude such an option that bilateral agreements with certain countries that are members of NATO, alletreb will understand what these agreements should be. All agreements - according to the international law ... So let This will happen, whether there will be Ukraine that will agree. But I emphasize again - only very quality, issued relevant regulatory documents, "the Secretary of the NSDC said. **Read also:** [Danilov After the NSDC meeting: no Russian will not be released by Ukraine, which time has come](#) On July 11-12, another NATO summit will take place in Vilnius, which considers the benefits of assistance to Ukraine in the fight against Russian aggression. Presidential Divine Zelensky expressed his intention to take part in this meeting in person. At all levels, the Ukrainian side stressed that the assurances that "Ukraine will become a member of the Alliance", which were made during the Bucharest NATO, in 2008, is not enough. Instead, Ukraine raises NATO -universities about providing security guarantees and a clear perspective on full membership in the Alliance.

DBR employees have completed pre -trial investigation into the State Council(№ 10)”. Following the dismissal of the couple, Russian passports were burned from the occupiers [reports](#) State Bureau of Investigation.

Bureau staff, together with the SBU and the National Police, exposed the husband and wife who worked as younger inspectors in the correctional facility and voluntarily crossing the enemy.

The fake institution worked under the laws of the aggressor country. The traitors follow the instructions of the invaders. It is known that they also provided Russian patriots, including ATO and OOS participants. They have removed the specimen of the Russian Federation, and the salary was paid in rubles.

During the sanctioned searches at the place of residence of the suspects, law enforcement officers found oaths of citizen of the Russian Federation, official

certificates, symbols of the Curf. Also withdrawn documents issued by the occupiers for unobstructed by checkpoints and permission to wear weapons.

According to prompt information, the defendants had received passports of the aggressor country. But after the release of Kherson, the couple's couple burned them, hoping to avoid responsibility. The suspects tried to hide, but they were exposed and detained during stabilization measures.

They are accused of committing a criminal offense - the state betrayed the conditions of martial law(Part 2 of Art. 111 of the Criminal Code of Ukraine). Санкція статті передбачає довічне позбавлення волі. Обвинувальні акти скеровані до суду.

There are now more than 8 million Ukrainians outside Ukraine. Unfortunately or honest, this is now our army of Ambassadors, from actions, words and from the behavior of us will be evaluated. Therefore, each of us should remember that in fact we all play a role and be responsible for the collective brand "Ukraine". About it was told by the head of the Center for Defense

Strategies, the head of the international director in the coalition of Rise-Ukraine, the head of the analytical direction of the Tastregical Advocacy . (<https://armyinform.com.ua/2023/06/07/dlya-nablyzhennya-peremogy-ukrayiny-potribno-vkladatysya-v-yiyi-vidbudovu-vzhe-sogodni-olesya-ogryzko/>).

— Тому те, що ми можемо всі робити, незалежно від того, чим ми займаємося, — це розповідати про наші реформи, про історії успіху. Навіть якщо це історія успіху маленької громади. До прикладу, громади Тростянця, там де люди простонеймовірні, які одразу ж після деокупації просто зібралися і, не чекаючи допомоги, в унісон працюють, як злагоджений вулик, і відбудовують себе. Так само, як жителі Ірпеня, Бучі, Гостомеля також почали латати свої будівлі. Тому, якщо складно говорити про реформи, про якісь трансформації, які відбулися за останніх 9 років після Революції Гідності, просто розповідайте історії про те, яке ми сильне суспільство, як ми боремося за всі ті цінності, за які стоїть весь цивілізований світ. Тим самим ми проявляємо себе і відкриваємо серця людей за кордоном, — зазначила Олеся Огризко.

APMIKINFORM

As part of the Metinvest Militar Front Initiative, the Metinvest Group of the Armed Forces of the Armed Forces of Ukraine 30 ambulances worth about 18 million hryvnias.

All cars are delivered from Italy. For their transfer, they attracted the carriers of Poland, then the ambulance volunteers were delivered to Ukraine.

[!\(Images/APMIKINFORM/2023-06-08T56-00-00-04-00/1-27-150x150.jpg\)](#)

He also said that nowadays, before the probable offensive of Ukraine's defense forces, it is important to provide ambulance military vehicles. Ukrainian -living people who live in Italy helped find these cars. In total, about 200 ambulances were purchased, overtaken and designed.

[!\(Images/APMIRINFORM/2023-06-08T56-00-00-04-00/5-18-150x150.jpg\)](#)

In the ambulance themselves, there are harvested places for oxygen, sub-select, and some of them can be independent generators.

The Coordination Headquarters took place an online meeting with the families of the National Guard of Ukraine, during which representatives of the staff and NSU answered the questions about the Big.

About it [reports](#) Coordination headquarters of inquiries for the treatment of prisoners of war.

The aggressor country is constantly working on creating social tension among families. It takes various measures and provocations for this purpose.

"For example, they can be given to the exchange of a guy who is only a month in captivity, when there are people who are already there for more than a year. We do not give up a nivid of whom. We do not have such moral law. We take away everyone, "the representative of the headquarters explained. - When we form a negotiation position, we give preference to the first place seriously wounded, seriously ill, and those who are the longest time. "

The headquarters also stressed that the main principle of work is an uniqueness.

"We will never put any part or unit above, but someone below. More in captivity in one place can be different defenders: there will be sitting in the chamber of both the Marines, the Guards, and the border guards," he said.

Some participants of the meeting were interested in why, when there is an official confirmation of the Polonivida of Russia through the International Committee of the Red Cross, the defenders are still non -existent.

"Unfortunately, confirmation of captivity is not a guarantee that a person is exchanged at the next time," said the headquarters. - The same can be said as a storage. Natives spend a lot of efforts to find the place of keeping their defenders in captivity. Their concern is clear, but while we are looking, they can move the person to another place. Moreover, when such information is in public space in public space. "

The staff representative also warned the scammers who are called volunteers and collect money for captured. The coordination headquarters must be reported about such cases.

Rosarmia, undermining the Kakhovsky Hydroelectric Prospection Dam, did not realize the full measure of this terrorist act.

On this emphasized Representative of the Main Department of Intelligence of the Ministry of Defense of Ukraine Andriy Yusov.

"They could count on other consequences, but the result for the whole world is obvious - it is another terrorist act of Russian invaders. For the secretary, they could not imagine or be aware of the scale, but the fact that these criminal acts were certainly well known to them, "Andriyus said.

According to him, the purpose of the Muscovites's actions is obvious: to stop and complicate the actions of Ukrainian defenders on the release of temporarily occupied Ukrainian territories in the south of Ukraine.

"Preparation for the terrorist attack actually began: in April last year, a message about the start of the mine, and then this information received new subordination and evidence. Therefore, the enemy replaced the hydroelectric power station and the dam, and eventually the controlled blast.

Understanding and fearing the offensive of the Ukrainian forces in this way, the enemy went to this barbaric crime, "explained the representative of the Ministry of Defense of Ukraine, adding that the situation could get out of control for the occupational occupiers.

Andriy Yusov also informed that part of the personnel was given the enemy to the enemy prepared positions for the commission of a terrorist attack, but some occupation units that were on the left bank of the Dnieper were not aware of the Podryvkakhovsky Hydroelectric Power Plant.

"For some occupation units, this information has not been proven because the operation of its criminal consequences. Accordingly, to abandon the origins, as well as there were no people who refuse the tasks, they simply did not inform some, " - said the representative of the Ministry of Defense of Ukraine, stating that at the time of the terrorist attack in the said direction, a small amount of hostile live power reinforced.

The undermining of the Kakhovskaya hydroelectric power station and the departure of the enemy away from the consequences of the catastrophe committed by them, and therefore - away from Kherson, does not mean the threat of shelling.

The temporarily seized Mariupol has a great increase in mortality.

About it in [telegram](#) Petro Andryushchenko reported by Advisor of Mariupol, Ukrinform reports.

"Mariupol mortality for" natural reasons "has crossed 400 people a week this week. In physical numbers, this is 2.6 times more than the pecuniary mortality. Then the marks in 150 deaths were almost reached, "Andryushchenko notes.

Read also: [in two settlements near Mariupol I hear explosions –](#)

[Andryushchenko](#) At the same time, he noted that if 150 deaths were recorded during the pandemic for 500,000 people, there are now 400 deaths for less than 1,100 thousand.

"If the genocide looks different, I do not know - how," Andryushchenko said.

According to Ukrinform, Russia's aggression has caused one of the most familiar humanitarian catastrophes in Mariupol. The city is almost 90% destroyed in the case.

From the beginning of a large -scale invasion, Ukraine has launched more than 20 new electronic services in the application "Action", in active work - the same amount of this year.

About this Prime Minister of Ukraine Denis Shmigal [reported](#) In the telegram.

According to him, the authorities are also working on the creation of the Government Center in order to remove the supply of functions at ministries. The HRMIS system will also develop, which will improve human resources management in government agencies.

The Prime Minister emphasized that digitalization would affect absolutely all areas.

"Our strategic goal is all top services for business and citizens must be digital. This will radically change the quality of our institutions and remove the space for abuse. And at the same time it will optimize the work of all authorities, "Denis Shmigal said.

He stressed that an effective digital state is one of the ten government priorities this year. In this context, there are three key areas: digitalization of services for citizens and business, an effective state apparatus that works on

modern models, as well as effective management of state property, which provides for the privatization and reform of corporate governance.

President of Ukraine Volodymyr Zelensky, while on a working trip to the Uherson region, held a coordination meeting to eliminate the consequences of the healing of the Kakhovka Hydroelectric Power Plant.

He reported this in [telegram](#). "Many important issues: the operational situation in the region, which is the result of a disaster, evacuation of the population

from potential zones of flooding, elimination of an emergency situation caused by the disorder of the dam, the organization of life -savings of flooded territories. Also, the prospects for the reconstruction of the region and the operational military situation in the zone of man -made katastrophe, "the head of state emphasized.

According to the President, it is important to calculate the losses and allocate funds for compensation to residents affected by the disaster, and to develop a program of compensation for losses or relaxation of enterprises within the Kherson region.

Also in Kherson, Volodymyr Zelenskyy visited the crossing, which is saving of the population from the flooded territories.

"Our task is to protect life and help people as much as possible. Thank you and volunteers! Thank you all those involved in this work!" -he said.

Foreign Minister of Ukraine Dmytro Kuleba and the UNU in Ukraine, the humanitarian coordinator Deniz Brown discussed the strengthening of the UN side assistance to overcome the humanitarian consequences of Russia's terrorist act.

This is stated in [statement](#) Foreign Ministry of Ukraine.

According to the results of the meeting, it is agreed that the **UN will immediately increase the volume of assistance** and send additional forces to Kherson and other victims.

In addition, it has been agreed that the UN will immediately form in Zaporizhzhya and Kherson groups, which will be sent to the occupied territories of the Left Bank for **providing humanitarian aid and evacuation of people**, provided that safely transportation to the occupied territories from the controlled government of Ukraine.

The Minister assured the UN that Ukraine provides all UN security guarantees to perform humanitarian operations throughout the defeat area.

The parties agreed that the UN units mentioned would go to the affected areas of the occupied territories from our territories as soon as Russia has given access to security guarantees. The United Nations is currently expending the assigned guarantees from the Russian side and access to the occupied territories affected by the Kakhovsky Hydroelectric Dam.

In the submerged territories of Kherson region there is a risk of infectious tail. It is a group of acute intestinal infections, including cholera. Unsecurity is associated with the quality of drinking water. After all, the flooding of such

objects, as possible, toilets, fields, landfills carry the risk of spreading viral hepatitis, helminthiasis and other acute infectious diseases.

About it [reports](#) The Ministry of Health of Ukraine.

"We have enough medicinal diagnostic products to prodiagnost any acute intestinal infections. We do not exclude that the average infectious diseases may occur after water with water. For our part, the appropriate control is increased and everything is done so that such cases do not happen. The health care system is ready for response, "said Deputy Minister, Chief State Sanitary Doctor Igor Kuzin.

Monitoring and epidemic supervision in the flooded territories carry out specialist of control and prevention of diseases. Currently, 84 groups of specialists in 6 areas for observation and control have been mobilized. In particular, specialists select water from rivers and wells, help with disinfection of wells, which have undergone flooding and inform the population about the ways of prevention of intestinal infections.

In the Kherson and Mykolaiv region, bactericidal tablets have already been redistributed to disinfect drinking water. The stock of bactericidal agents is sufficient for the provision of Kherson region for at least 2 months.

Specialists of the Center for Control and Prevention of Diseases will help the population to disinfect the water and surfaces of the surprised homes that have undergone flooding.

In general, the study of surface reservoirs and drinking water is carried out by several indicators: microbiological and virological, sanitary-chemical(Hardness, salts, minerals, etc.), toxicological(the content of chemicals, poisons), inherently petroleum products or surfactants.

In the waters of the Dnieper, near the Kherson village of Kizomis, the corpses of dead animals and a lot of different dirt began to appear as a result of Kakhovskaya Hins.

A tellinger serviceman of one of the brigades of territorial defense at the pseudo "Grandfather" about the current situation in the village.

"In our area, the water has risen somewhere 15-20 cm. This can lead to congestion on the ducts, which in its turn will prevent a sharp lifting of water. Considering that the ducts were substituted at one time, these traffic jams will also be mines that can explode in any moment and lead to another destruction and death of people, "-said the Vivkovsky.

A separate problem is the appearance of dead animals and fish in the water. Their bodies have already begun to decompose. In the future, it can lead to environmental catastrophe.

Deputy Minister of Defense Anna Malyar. Photo by Dmitry Yurchenko.

The influence of Russian occupation administrations in the temporarily occupied territory of Ukraine is rapidly reduced due to their inability to maintain an acceptable level of life support of the local population.

About this Deputy Minister of Defense of Ukraine Anna Malyar [wrote](#) In his telegram.

In particular, in a number of temporarily occupied settlements of Zaporizhzhya Icherson regions, local residents demonstrate neglect the orders of ocular administrations and express distrust of Russian propaganda.

According to Anna Malyar, the truthful information about the situation on the front and the loss of the consequences of the Russian occupation is increasing among the citizens, and the number of pro -Ukrainian -minded population is also increasing.

In order to counteract these trends, the command of the Russian occupation troops is held to rigid mass punitive actions.

"Last week, the settlement of Kirillovka of the temporarily occupied territory of Zaporozhye region was surrounded by Russian military, during which total filtration of the local population, a search at the objects of local infrastructure and premises of citizens," - said the Minister of Defense of Ukraine.

She added that the citizens who were collected by the FSB representatives of Russia were collecting information particularly careful inspection(brings)on maintaining industrial positions.

"In most cases, the occupiers were immediately detained and exported for interrogations. Some of them have returned to the places of permanent residence after interrogation, their fate is still unknown, "her post reads.

It was thanks to the successful defense operation that Ukrainian soldiers were able to neutralize and wounded at least 81,000 Wagner fighters.

As noted Deputy Minister of Defense of Ukraine, a spokesman for the Eastern Grouping of the Armed Forces of Ukraine Sergiyerievaty told about it.

He also said that the order to organize the defense of Bakhmut was signed by July 2022.

"During the battles for Lisichansk and Severodonetsk, the Luhansk region, the Armed Forces had already prepared a operation to defense Bakhmut. The order on the organization of defense of Bakhmutubuv was signed in July 2022. In July, the Bakhmut defense preparation was formed and signed, "the post reads.

The external and internal defense of the city, boundaries were also created. Trenches, fortifications were erected in the city, fortifications were built and the territory was replaced. Trench systems were involved in the training, which numbered almost 20 thousand meters. There were also many places for fire and other structures.

Sergey Cherevaty noted that units of defense forces, border service, regional military administrations were involved for this purpose.

"It was these things that were given in complex, plus used by our military engineers of the mine system. More than 5 thousand mines were installed. In addition, many barbed means were prepared: barbed wires more than 15 thousand meters, "he emphasized.

This was announced in online expertise by the Extraordinary and Plenipotentiary of the Republic of Valdemaras Sarappinas during the IV Cossack Military-Historical Conference, which took place today. It was

organized by representatives of the Ukrainian Cossack Movement to the Verkro -Russian aggressors and occupiers, the International Congress of Ukrainian Cossacks, the Melitopol State Pedagogical University named after B. Khmelnitsky Zaporizhzhya Regional Universal Scientific Library.

- The Russian Empire wants to pick up and enslave Ukraine again, firing its city, killing its inhabitants and kicking children. Especially many of these cases are in Zaporizhzhya region. I express my respect and admiration for the armed forces and the people of Ukraine, your unity and heroism in front of the hypocritical aggression. You create a story. You defended not only Kiev, Kharkiv, Zaporozhye and other cities of Ukraine from the occupier, but also forced the aggressor to retreat, undermining bridges and dams and threatening the world with famine and nuclear weapons. By protecting Ukraine, you protect Europe, Ukraine will win - we will win, " participants of the conference Lithuanian Ambassador.

ARMIA INFORM

During the event, scientists, historians, representatives of the Ukrainian Cossacks, TAGOSKIVE figures mentioned the great victories of the prominent Ukrainian commander-in-law Konstantin Ostrozky in the Lithuanian-Moscow wars, in particular the killing near Orsha.

Acting Chairman of Zaporizhzhia Anatoliy Kurtov during the event reported that a working group has already been created to implement a program of development of coincidence in the regional center.

Dmitry Sukhinin also reported that today, like 500 years ago, Ukrainian army

and people are actively opposed to the terrorist imperialism of the Russians, enriching the support of the civilized world. And this event was held in support of the e-Atlantic integration and in compliance with the requirements of state strategies of information security and national-patriotic education of youth of Ukraine.

The coordination headquarters took place an online meeting with the unification of families of brigadioperative purpose named after Hero of Ukraine Lieutenant Bohdan Zavada. The degeneration of prisoners and missing people of the National Guard communicated a representative of the Coordination Staff.

About it [reports](#) Coordination headquarters of inquiries for the treatment of prisoners of war.

The staff representative noted that all defenders and defenders were included in the unified register of defenders of the National Information Bureau. The category of accounting of a serviceman is a missing person, unconfirmed captivity or captivity, confirmed by the Ministry of Defense of the Russian Federation through the International Committee of the Red Cross - has no direct influence on the exchange processes.

As for the visit of prisoners of war, the representative of the Staff noted that the relevant mandate for this is the mission of the International Committee of the Red Cross. However, such visits can only occur with the consent of the country that holds prisoners. Information about the places of freedom that the ICCH representatives visited is not disclosed. Unfortunately, the aggressor country blocks a significant number of detention places that are located in its

territory, which is temporarily occupied by Ukrainian territories, which is a violation of the normally humanitarian law.

Colonel Sergey Cherevaty. Collage Armyinform

Near the city of Bakhmut, during the offensive actions, Ukrainian units went forward for 1600 meters. The enemy suffered significant losses from our

defense, but resists and actively applies artillery fire. Colonel Sergey Cherevaty, a spokesman for the East Group of the Armed Forces of Ukraine reported.

At the request of the journalists of the "only news" the officer told how the defense of Bakhmut began.

In particular, in July 2022 the plan was approved and the appropriate order of defense of the city was issued. For this purpose, more than 20,000 meters of trenches of tiocopes were dug, 15,000 meters of barbed wire barrels, which is more than 5 thousand mines installed.

Thanks to the joint efforts of the military and local authorities, 118 pretty metal barriers "Hedge" and 130 gabion barriers - metallic nets with stones were established. Therefore, the external and internal boundaries of the city were created.

According to Sergei Cherevatov, the complex of all these and other measures gave the most possible troops to conduct the defense of the city for such a long time. Despite the great concentration of hostile forces, the occupiers still have not been fully taken by Zabakhmut.

Ukraine has submitted a list of urgent humanitarian needs for the overcoming of the consequences of the Dam to the Kakhovska Hydroelectric Dam and in the near future as part of the Euro -Atlantic Response Coordination Center.

This was discussed during the participation of the Minister of Foreign Affairs of Ukraine Dmitry Kuleba as an urgent meeting of the Commission of Ukraine - NATO, which was convened by the Ukrainian side.

"Ukraine has submitted to the Euro -Atlantic Coordination Center for Response Agricultural Disaster and Catastrophe, which outlined the specific needs of the Ukrainian people. I am grateful to NATO and individual allies for their rapid readiness to help Ukraine to overcome the consequences of Russia's terrorist attack at the Kakhovka hydroelectric power station, "the minister said.

Dmytro Kuleba emphasized that the Kakhovska catastrophe demonstrates the absence of female limits in Russia's commission. According to him, as long as Russia occupies Ukrainian land, the threat of new Russian crimes will remain. That is why the help of NATO Allies for the release of the entire world of Ukraine is important.

"I urge partners to further strengthen Ukraine's defense capability, in particular to continue the supply of artillery ammunition and gun 155-caliber as soon as possible," the minister stressed.

The Ministry of Foreign Affairs of Ukraine also urged partners to approve NATO summit in Vilnius, which would bring Ukraine closer to the Alliance. In his opinion, NATO membership of Ukraine benefits the Alliance, as Ukraine today makes significant contributions to Euro -Atlantic security, operates according to NATO standards and uses weapons.

"Ukraine's membership will help prevent future wars after this war is victory for our country. Ukraine in the Alliance will be a reliable partner that will protect its eastern flank and be able to restrain the potential aggressor effectively. There is no doubt that Ukraine's membership will make it more powerful. In fact, we are already strengthening the Alliance, protecting its members from new waves of Russian aggression, as well as sharing military consciousness, "Dmytro Kuleba stressed.

In the settlements of the temporarily captured territory of the Kherson region, Russian invaders continue to use the consequences of their crime in their

purposes. In particular, people who were evacuated from flooded populated areas are displaced in boarding houses and recreation centers, where the Ukrainian units are already located. Thus, the invaders try to protect themselves, hiding themselves in the civilian population.

Also, according to available information, the Russian military leadership has significant problems with the material support of their troops. Soldiers who have differently signed a contract in military units stationed in Mystovlgograd, issued boots instead of boots with high berets. In addition, contractors are forced to buy a military uniform at their own expense.

The prosecutors of the Odessa Regional Prosecutor's Office of the Dnieper native of the Dnieper were found guilty of assisting a terrorist act. He was sentenced to 10 years of deprivation.

About it [reports](#) Office of the Prosecutor General of Ukraine.

The prosecutor in court proved that at the beginning of 2014, a man, being a supporter of Antimaidan, and disagreeing with the ideas of the Revolution of Dignity, left a residence in Russia. There he developed a further plan for the destabilization of the confidence in Ukraine and the creation of the so -called "Novorossiysk".

In April-June 2014, he recruited two residents of Odessa to commit terracts in the city. In particular, undermining the buildings of military commissariats, ATMs and Branches of PrivatBank, property of Roshen, PJSC "Odessa User Plant", State Enterprise "Odessa Regional Radio Television Center" and the Odessa Branch of the National Television Company of Ukraine.

At the task of the curator, the performers made photo-video fixation of the administrative building of the military commissariats, searching for explosives and devices for the study of explosions and arson.

In order to prepare for sabotage and terrorist actions in Odessa, they executed monetary rewards and laptops and flash drives with software for creating cryptographically encrypted compounds.

Thanks to operational measures, law enforcement officers warned the criminal activity of the groups.

Special pre -trial investigation was carried out by the SBU management in the Odessa region.

Under the procedural leadership of the Kherson Regional Prosecutor's Office, it was reported in absentia of the suspicion of the commander of the Marine Corps of the Black Sea Flot of the Navy of the Armed Forces of the Russian Federation in the State Treason and violation of the laws and customs of war.

According to the investigation, in 2014 after occupation by Russian troops of the Crimean of Ukraine voluntarily moved to the side of the enemy, received

the citizenship of RFTT joined the ranks of the Armed Forces of the state-aggressor.

Since March 2022, the suspect, together with his subordinates of the RFF, has been occupied by the settlements of Kherson region. At the captured, he organized and controlled the processes related to the suppression of the local population to implement the occupation policy of the Tasing of Ukrainian citizens before cooperation, and the implementation of filtration measures and more.

In April 2022, being in the village. True, together with the accomplices, the sub-seated detained the employees of the company who guarded the units near the serane-wearing units, as well as a minor girl. Six men of Tadivchyna were brought to a private house, where they were applied to them physical and shot. After that, the invaders undermined the house with killed.

In November, after the dismissal of the Armed Forces of the Armed Forces, prosecutors of the Prosecutor's Office of the Kherson region together with investigators of the police and experts conducted exhumation and inspection of the bodies of the dead in this house.

The inspection identified signs of violent death. Some of them are the harvesting of skulls as a result of bullet wounds. The wrists still have ropes.

The pre-trial investigation is carried out by the SUNP in the Kherson region.

Measures are being taken to establish other persons from the military involved in crimes against civilians.

Within a few hours after the destruction of the Kakhovka Hydroelectric Power Dam, the USAID Communitarian and Extraordinary Response Teams began

mobilizing resources to organize evacuation and provide humanitarian assistance to people affected by the flood.

About this USAID UKRAINE [reports](#) On Facebook.

“22 500,000 UAH(Aproximately \$ 608,000)More than 1,000 households affected by floods have been wandering. Each farm will receive UAH 2,200(\$ 60)per person for three months, in total, up to five people per household in the victims, ”the United States Agency for International Development said in a message(USAID).

Зазначається, що аварійні та гуманітарні групи Агенції в Україні у перші жгодини після підриву Каховської ГЕС розпочали надавати негайну допомогу в евакуації та гуманітарну допомогу цивільним.

Так, понад 14 тисяч людей у постраждалих районах були забезпечені питною водою, понад 7 тисяч людей у Херсоні та Миколаєві отримали гарячі обіди. Для підтримки рятувальних операцій на воді та розподілу екстреної допомоги було надано понад 10 тисяч літрів пального, а для забезпечення евакуації цивільних— пасажирські автобуси.

«Міжнародні неурядові організації-партнери надають грошову допомогу та гуманітарні набори евакуйованим. Ми зараз надаємо додаткові човни для підтримки рятувальних робіт. Наші партнери також розгорнули мобільні групи для підтримки евакуйованих дітей на вокзалах, під час транзиту та на станціях прийому», — підкреслили в Агенції.

Там додають, що Уряд США працює над планом доставки насосів для критичної інфраструктури міста Херсон.

APMIRINFORM

Every indifferent citizen can call a hot line for assistance to the victims of Kherson region - 0 800 101 102.

Alexander Proudin, Alexander Proudin, said this on the national telephone "Unified News".

The head of the Ova Alexander Proudin also stressed that at present to eliminate all the consequences caused by the undermining of the occupiers of the Kakhovka hydroelectric power station, the region needs additional resources - both in technology and in live power.

"In order to eliminate the consequences of this catastrophe, we need additional resources, asam - bottled water, things, furniture and clothing for people who are left. Special equipment is also needed now for elimination. These are designers, ATVs, dump trucks, loaders, buses, rescue velette everything that can be used to save a person in water, " - an emphasized emphasis.

He said that citizens can find up -to -date information on the needs of the region on the official website of the administration, or on Facebook or Telegram.

Oleksandr Proudin also said that Ova is currently needing people who are ready to work with this hotline operators.

Good day!

Congratulations to all of you!

All who did not remain indifferent to see this man -made disaster of the Nakakhovsky hydroelectric power station.

It is not a natural disaster or a manifestation of a climatic crisis, it is a disaster. What he will make. What he personally orders to do.

The situation is extremely difficult. Russian troops do not stop artillery for the territory where the evacuation of people is carried out.

Unfortunately, there are wounded from these terrorist shelling. People who rescue from Russian ecocide are forced to escape from the Russian fire! Just at evacuation points ... This Russian ecocid crime is the greatest decade in Europe, but, apparently, Russian invaders decide to worsen its consequences. In the occupied part of the territory, about a dozen settlements have been depopulated, novacuation is not carried out. People on the second day on the roofs, in a water trap, without drinking water, food or Twedic help. We do not know how many dead and victims are killed.

Just an hour is installed every hour - and we are installing - more and more details of what damage Russia has caused this disaster. In more than 30 inhabited pens of life is broken. For hundreds of thousands of people in many cities and villages, access to drinking water is much prepared.

Due to the destruction of the dam, flooded fuel storage facilities, warehouses with chemicals, warehouses, the burial grounds of animals, of which are at least two "anthrax burials", and Iobidv - in the temporarily occupied territory. What is with them now, we are unknown. There, where there was no centralized sewage, sewage runoff is already in water, which is covered by everything ...

The number of ecosystems that are destroyed or put on the border of the extinction of this terrorist attack is already calculated by thousands. More than 50,000 hectares have been brought down, and at least half of them will die. Tens of thousands of birds are at least twenty thousand wild animals under the threat of death. Obviously, the Kkakhov reservoir has been transformed into a large grave for millions of living things.

No people have to remain alone with such challenges! But there is no answer to how we can overcome it all. There are no attention to international organizations to the occupied territory, which is flooded. And you need, in particular, your pressure on them - I ask!

Second. All this we encountered is a conscious crime of the occupier. Multiple about what happened. But it happened in the occupied territory. But we have warned the mining of the dams and other buildings. But Russian troops are now firing areas where evacuation is ongoing. It is obvious that it is Russia who is interested in a catastrophe.

Just as we have created special expert groups that are engaged in promoting sanctions and security guarantees for Ukraine, we also create an expert group, which will be primarily to engage in the consolidation of the world, so that the ecocide is full of Russian and that our country does not remain alone with this. I am sure that with sufficient leadership in the world, you can create.

Third. Any terrorist expects only a few forms of result for themselves: it is the suffering of people, it is intimidation of people and these are the ruins left after the sebeter. This is how Russia works in this.

Of course, we will do everything to guarantee people the basis for life even after this disaster. But it is necessary that no desert, or ruins, a mint area after this disaster. And this can be provided only by joint ventures, along with the eco -protection community of the world, along with Policy Makers, single -bearing leaders and states, together with international organizations.

Pollution and poison from the flood zone quickly enters groundwater, poisons rivers, and from there enters the Black Sea basin. That is, the nature of nature "somewhere" is not very interconnected in the world.

And so please spread the truth about this Russian ecocide. Please call the leaders, states and international organizations to act. It is no coincidence that we have a formula of peace, one of the key points is the anti -speaking. Please let's make it so that other ecocides are not more. Join our community that I said to our platform, to our experts. We are on constant contact.

Thank you for your attention!

Glory to Ukraine!

The Kyiv region sent the first assistance batch for Kherson region, which is undergoing another terrorist act of Russia.

About this Kiev Regional State Administration [reports](#) On Facebook.

“Our region was also injured from the occupiers. We know how no one that is important is a help and support. Immediately after the tragedy, he instructed the profile services with the Kherson region and to form a register of the necessary priority, ”the message reads.

Already sent:

- 21 boats with volunteers who will provide prompt assistance;
- 6 engines;
- 2 water purification regeneration stations;
- 10 motor pump;
- 4 thermal guns;
- 200 liters of gasoline;
- 200 liters of diesel;

— 500 canister 10 liters for drinking water;

— 20 fire sleeves;

— 20 rescue vests;

Bo 150 pairs of rubber boots;

Вання several tons of food;

Ти 8 tons of drinking water

— Clothing. [/PLSHKA]

“The diving team will also go to Kherson region. Currently, from the representatives of the 19th communities of the Kyiv region we are completing a team of public utilities, electricians of and other specialists who, with all necessary equipment at the first demand, will leave the rebellious territories.

Do not forget about the most protected animals. In Kherson we will send 200 kg feed for them.

In Kyiv region, 3,000 places have already been prepared for compact residence of people who found themselves in flooded territories as a result of the blasting of the Kakhovsky Hydroelectric Power Plant by Russian terrorists.

You can contact the settlement questions on the phone:(099)510 72 12.

International partners are actively involved in assistance. In particular, they agreed that the UN program for the restoration and reconstruction of peace has allocated \$ 30,000. The United States has 26 inflatable boats, 100 solar accesses and 32 portable charging stations with solar panels for the request and transfer of Kherson region to Kherson region. Another 50 thousand. Dol. The USA is on motor pumps, chainsaws, hydrostrans and boots to provide terminal support to the State Emergency Service.

If necessary, we will expand the list of necessary assistance. The tragedy of Nakherson region is a common trouble of all of Ukraine. Kherson region - we are with you!Only to victory!” - noted in the Regional State Administration.

Two events took place in the Latvian capital, which covered the Temurosian-Ukrainian War: the premiere of the short-haired artistic film "Hope" and the exhibition of metal sculptures "Let's win!Steel is a heart."

This was reported by Ukrinform correspondent.

On Wednesday evening, the historic Riga Cinema of SPLENDID PALACE took place in the short -made feature film "Hope", shot in Latvia by the full Ukrainian creative figures who are currently in this Baltic country.

Director of the tape - Artem Kocharyan(For four years he was Ukrainian military, released after injury for health reasons when full -scale, he moved to Latvia with a pregnant wife). Продюсер – латвійськаактивістка Юлія Кабіцина-Каб'єр. В ролях - київський театральний та кіноактор Тимур Ібраімов (The father of the heroine), Marina Bilous(Kyiv Theater)and the debutant Ivanhorlachev.

The film tells the girl hope, who, after the start of full -scale, remained pregnant alone, losing all her loved ones. And then she lived with a little daughter to the victory of Ukraine. Viewers are warmly perceived.

A day earlier, on Tuesday, at the Atrium of the Latvian National Library, and the influx in front of it was an exhibition of metal sculptures and painting "Let's win!Steel is my heart. " From the beginning, it was conceived as a moving book, the purpose of which is to introduce society to the resistance of Ukraine to Russian aggression, as well as to raise funds for the Armed Forces.

UKRINFORM

For the first time, this collection, created by the Tigois Project Art Group, could be designed in April 2023 at the Lviv Palace of Arts. The initiative to bring the exhibition to Riga belongs to the commander of the medical corps of Lviv "Azov" Yaroslav Soloduku and the artist Roman Beardy. The authors of the works are sculptors Ilyrofimchuk(Group leader), Sergey Kravetsky, Anton Dvorak, Mykola Yurchak, Danilo Turii, Roman Turii, artist Vasyl Stepanov. The collection presented 60 works - above all metal sculptures, as well as painting. The exhibit will be exhibited by June 22.

Svetisaraz has no those who do not see that Russia is in charge of inhumans - who personally have the greatest catastrophe on the planet today.

Volodymyr Zelenskyy said this in [video closer](#), reports Ukrinform.

Video: [Presidential Office](#)

Dear Ukrainians, Ukrainians!

Today was a very long, hard day. Kherson and the region, Mykolaiv region, the cities of the Gromad of our Dniprovshchyna. Meetings, meetings, evacuation points, international recovery.

First. At all levels of the state and local authorities, we work to save as much people from flooded areas. The evacuation is ongoing. Everywhere we can pull people out of the flood area, we do it. SES, police, military - youth! Everyone and everyone who is involved - I want to thank you!

Second. In our free territory there is the presence of international organizations, specific assistance. In particular, it is the Ukrainian Red Cross and many others. Every organization, every volunteer, is for every company that has realized for a rescue operation.

And it is obvious that the absence of some international organizations in the disaster zone in the occupied territory - the same International Red Cross, is the union of their assistance to our people in the occupied territory for such organizations, it seems wrong and is simply self -destruction.

Third. Russian terrorists are trying to aggravate the situation they have caused their ecocid. Absolutely conscious. They continue the firing of the nih and communities of the region, already flooded by terrorists. They fireting even the evacuation points that are already such a manifestation of evil, which, apparently, no terrorists of the World, except Russian, have not gone.

The invaders completely threw people on the left -bank part of the Serson region. There, the second day is just expanding the catastrophe. And it is also a conscious choice of Russian leadership. There is no one in the world now who saw that Russia is in charge of Russia. Non -human, which is personally the most catastrophe on the planet today.

We have to do everything with our partners to make the world prove that it is able to cope with such catastrophes, with such terrorists. The situation with infrastructure, natural loss. It is a significant harm from the Russian terrorist attack, it is clear to everyone. But it should also be clear that there are no alternatives, except for maximum restoration and maximum reconstruction. It is possible that Russia will remain devastated after Putin, but not Ukraine.

And one more. Mandatory. Security. Constantly in communication with our military. Commander - Khortytsia, Tavriya, all those involved in the hottest. Donetsk is very rigid battles. But there is a result, and I am grateful to anyone who provides this result! Bakhmut - Well done. Step by step. Thank you every warrior! Avdiivka, Marinka, all over the East, the situation in the south, the situation after blasting the Russians of our native Kakhovka's dams - we see every detail. But to be published - not today.

Thanks to our people!

Glory to Ukraine!

The water level in the reservoir fell approximately 4.1 m after the dam and the reached point of 12.7 m at 18:00 today. The hourly rate of loss remains in the range of 4-7 cm/h.

About it [reports](#) The headquarters of the elimination of the Kakhovskaya hydroelectric power station by Russian terrorists.

ZaS has the ability to pump water from the tank even after its level falls below 12.7 m. Probably pumps can operate at a level of 11 m or below.

In these difficult circumstances, this gives extra time before the possible transition of a heater water supply, including a large consolidator pond nearby.

It is no less no less nuclear safety remains stupid and potentially dangerous.

To it is better to evaluate the situation, IAEA experts have invited access to the location of the water level in the reservoir and to the outlet of the ZTO, which is adjacent.
