About this Deputy Minister of Defense of Ukraine [wrote](#) In his telegram.

"The enemy will not take the position easily and we must set up to be a hard duel. Actually what is happening now. It is not necessary to measure the result of the work of the defense forces exclusively by settlements and informed kilometers. Because the criteria for the efficiency of hostilities are

much more. The ongoing surgery has several tasks and these tasks make these tasks. They move as they had to move. And the biggest blow to the first time, "the message reads.

Also, Anna Malyar noted that despite the fact that our troops are coming in the harsh directions of the south, the enemy concentrates a lot of efforts in the East, it continues to step there. Because for the enemy the main direction of the offensive is there, because the aggressor does not leave the purpose to reach the borders of Donetsk and Lugansk region. So, now hot in the east and south.

The Ministry of Community Development, Territories and Infrastructure of Ukraine and Japan Agency will be exchanged by the experience of eliminating the consequences of natural man -made catastrophes, as well as

providing consulting tacative support for the restoration of affected communities and territories.

The corresponding memorandum on cooperation and promotion of sustainable restoration of cities was signed by the Vice Prime Minister for the Restoration of Ukraine-Minister of Development of Communities, Territories and Infrastructure of Ukraine Oleksandr Kubrakov and Minister of Defense of Japan Hiromichi Vatanabe.

"The experience of the reconstruction agency in the restoration of infrastructure after the Grand Eastern Japanese Earthquake, the return of normality in the affected districts for the noun is invaluable. Especially now, when the terrorist act of the Russian Federation from the Podrivkakhovsky hydroelectric power station has led to one of the largest man -made disasters in Europe in recent decades.

The successful experience of our Japanese colleagues will avoid many mistakes in the planning and implementation of recovery projects, so we will be able to save time and do everything much faster and more efficiently.

I thank the Hiromichi Vatanabe Minister and the team of the Agency for Reconstruction of Care and Willingness to Start Practical Exchange of Experience as soon as possible, "Alexander Kubrakov reported.

According to the Minister of Japan's Restoration, Hiromichi Vatanabe, Japanese experience will show that before the start of full recovery, the key needs of the population of the affected communities are key. This is about housing, critical infrastructure(heat, water and power supply systems)Turvings of economic activity in communities.

The parties have agreed that it was in this direction of work of the Ministry of Infrastructure that the Taigality of Reconstruction has been activating the exchange of experience in the near future.

The exchange itself will be done through the organization of regular bilateral zooms, workshops and seminars.

The Reconstruction Agency, established in February 2012, is the main body of government responsible for the recovery process after the Great East Japanese Earths on March 11, 2011. He caused a triple catastrophe - a countryside, a tsunami and a nuclear accident at Fukushima NPP.

The agency was established directly under the Cabinet of Ministers of Ukraine for the Centralized Management of Reconstruction measures,

coordination of all those who have participated in it, and cooperation with local authorities.

NATO Secretary General Jens Stoltenberg expressed his belief that Ukraine would become a member of the Alliance. He said that a package of assistance would be approved at the enemy summit, which for several years would bring Ukraine closer to NATO standards. Stoltenberg also warned

against the hurry in peaceful communities between Ukraine and the Russian Federation and stressed that only Ukraine should determine the conditions for itself to end the war.

"Tell this to people in Bucha. I cannot tell them about non -violent resistance, tears of rage are converted to my eyes, " - so the German defense Minister Boryspistorius reacted to the proposal of Bishop Vicar Osnabryutsky Dioceseo Paul" to resist Russian aggression. "

The European Union intends to accelerate the supply of weapons to Ukraine to support the counter -offensive forces of defense, the European Commissioner for Internal Trade and Services Tierry Breton said.

UK Prime Minister Risha Sunak at Ukraine Recovery Conference Ollodoni will call for investors and business leaders to join the struggle of Ukraine. In his opinion, the financial struggle for Ukraine to be able to build and recover is a kind of counter -offensive for Russia. "Again, Ukraine demonstrates its ability to quickly use innovations, and I know that its restoration will be no exception. The illegalization to Ukraine destroyed business and livelihoods throughout the country, but it did not destroy the ingenuity and determination of the Ukrainian people. Financing, technologically developed Ukraine will strengthen its ability to displacement of its borders and build a bright future for the sovereign and modern Ukraine of the future, "Sunak said.

US President Joe Biden named Putin's statements about the placement of the first units of tactic nuclear weapons in Belarus "absolutely irresponsible."

The EU has condemned Russia's plans to hold elections on temporarily occupied territories of Ukraine. The Chief Spoor of the European Commission on Foreign Policy, Peter, the status of the Stamps that such intentions were a serious violation of the UN Charter, as well as non -volatility, sovereignty and territorial integrity of Ukraine.

In January-May 2023, the state budget expenditures amounted to 1.4 trillivations, which is almost 2 times higher than the volume in the same

period of 2022 is 3 times higher than the expenditures in 5 months of 2021. The Verkhovna Rada Committee on Roksolana Pidlas told about it.

"This year, more than every second hryvnia of the state budget is directed to the defense. It is UAH 745.4 billion or 52.9% of total expenditures," - emphasized Laroclaroclana Podlas.

Also, the deputy drew attention to the fact that before the large -scale intensification of the main items of expenditures of the state budget were social paid payments and expenditures on health care, as well as expenditures on support of economic activity, first of all(uncomplicated)road economy, tank financial support to local budgets. And now - expenditures on defense national security, social payments and elimination of the consequences of armed aggression.

With "If compared to the same period in the past years, the volume of the NABORON in the current year by more than 3 times exceeded the amount of such expenditures in 2022 and more than 16 times - in the pre -war 2021. However, the increase in defense expenditures did not prevent it from saving and even even To increase the state budget expenditures for social protection and social disabilities against the pre -war period, so in five months of this year, UAH 195.7 billion was directed, which is by 17.6% more than in the same period last year. Nevertheless, their share of the general volume has decreased significantly from 21.2% to 13.9%, "Roksolanidlas explained.

The Chairman of the Committee added that during a large -scale war, expenditures on public order and security border and fire protection were significantly increasing: for five months of this year, such a year increased 1.5 and 1.4 times, respectively, against the same period.

Bank of China has been restricted to the clients of Russian banks by Vuyani's clients to EU banks, USA, Switzerland and the United Kingdom since June 13.

The United Kingdom demands that the Russian billionaire Abramovich provide £ 2.3mlrd from the sale of Chelsea football club to help Ukraine.

Following the ban on the transit of Russian goods through the territory of the Lithuanian Litviangrad region, it loses 900-980 million rubles on a monthly basis: since 2022, Russia has lost its possibility to use the land transit of the Through the Republic of Philitov and should deliver the goods by the Baltic Sea on the vessels.

Moscow Sobiangin may have rejected the accusation that the capital of the Russian Federation was absorbing the finances of other regions of Russia, while stating that Moscow should be borrowed in 2025-2027, as it is "a phase of super high costs".

The head of the Central Bank Nabiullin stated that Russia is "there is a risk of returning the supplement economy."

I wish health, dear Ukrainians!

A brief report for this day.

First of all, I thank our air forces and all defenders of the sky from other defense for every confused Russian rocket and for every shotgun. Just last

night - more than 30 shotguns. These are hundreds of saved lives, this infrastructure. Thank you, warriors!

Second. Today in Kherson as a result of the shelling of the invaders victims ... They were engaged in the elimination of the consequences of the Russian terrorist attack by the Nakakhovsky hydroelectric power station and were fired by Russian artillery. Eight DSSNS employees were injured, one, unfortunately, died ... My condolences to their relatives and relatives!

Every such Russian blow, every Russian terrorist attack is an argument every time, and there will be no chance of staying on the Ukrainian land. There are no killers and terrorists here and will never be.

Now our warriors in the south, in the east are very actively destroying the enemy, physical purification of Ukraine. This will continue.

Terror protection is the destruction of terrorists. And this is a guarantee that the state-gun will never be able to bring evil to Ukraine. Actually about the cetretic point for today. The first meetings in London have already begun within a conference on the reconstruction of Ukraine, which we prepared with British dogs. Discussions in Switzerland and Germany, France and Italy have already taken place. There is a work of different levels for our restoration. And we direct this work that our reconstruction, our restoration becomes not only construction projects, but a global protection project.

Ukraine, transformed Ukraine, reinforced Ukraine is a security and security guarantor, it is a security against any form of Russian terror protection against any repetitions of Russian aggression.

Tomorrow at the London Conference I will present some of the aspects of our philosophy of Ukraine. The full meaning will be represented later this month. And in Ukraine.

Together with partners and all together here, at home, in Ukraine, we must guarantee that after us for Ukraine - only safety, only freedom, only peace.

I thank everyone who is fighting and working for Ukraine! I thank each of our warrior, who is now in battle, in combat posts and combat missions!

Zaporizhzhia, Donetsk - you are young guys! Glory to Ukraine!

The combination is advised not to trust Putin's words about his intentions to carry out "peaceful intervals" in Ukraine, instead to look at the direct actions of the Russian Federation, which prejudice his aggression, including against the Ukrainian civilian population of iinfrastucture.

This was commented on the deputy spokesman of the State Department Vedant Patel of the statement of the Zarkan side that the President of the

Russian Federation was given to a peaceful settlement, reports his own correspondent of Ukrinform.

"Actions say for themselves louder than words, and I just remarry that Tsisami African leaders spent time in a bomb shelter during their visit(DOKEVA - ed.)when they were in the city to promote and discuss peaceproofing, "Patel said.

Thus, the State Department representative commented on the statement [Putin](#) To the leaders of African countries, that is, that is, he never gave up peace talks and even showed them such a peace treaty on neutrality and guarantees of Ukraine's security.

"On the actions of Russia, which bombard Kiev, he curses civilian and energy infrastructure, in apartment buildings, hospitals, it is quite clear that they do not have a significant interest in establishing peace and cessation of this war," the Patel said.

He also emphasized that it is quite clear in this situation, who wants a solid peace, and who seeks to continue aggression against a neighboring state.

UN Non Grate: The Kremlin is artificially blocking the admission of the organization on the Left Bank.

About it on your Facebook page [writes](#) Center for Strategic Communications and Information Security.

There is also an interesting history with the prevention of the UN to the flooded territories of the occupied Kherson region. Gennady Gatilov, Post-Russian Post-income Headquarters of the UN, stressed that the organization "should not ignore the fact that the Kherson region is part of the Russian Federation, and accordingly, for its certification it is necessary to comply with Russian laws."

Peskov, in turn, put the usual smoke, saying that the Uonians were not allowed to the affected areas through shelling.

In fact, the coordinator of the UN Special Humanities Mission from Ukraine Denizbraun has issued a statement stating that Moscow refuses to organize admission to the left bank under the control of Russia.

Moscow may not like the definition of the UN: "Territories that are undergoing in Russia"(that is quite obvious because the international community does not recognize their "accession"). Тому росія пішла на принцип і не пустила гуманітарну місію, прикриваючись «турботою про її безпеку».

Зараз в українському місті Гола Пристань окупаційна влада оголосила карантин. Тобто нічого нового не відбувається. путін, як і раніше, нехтує життям людей заради власних цілей. Є що приховувати і кого ховати?

The Association "Ukrainian Club of Agrarian Business" together with the leading agrarian associations have converted to Prime Minister Denis Shmigal with a request to regulate the situation with the export of Ukrainian products, as well as to take a number of measures to support the agricultural consider.

According to Ukrinform, it reports [press service of UKBAB](#). It is noted that agrarians are asking the Government to abolish the European Union of restrictive measures implemented in relation to import of Ukrainian grain, generous on September 15, 2023 and prevent new and extension of existing restrictions.

The Government is also asked to take equivalent measures to import to Ukraine production from individual EU Member States, which have imposed restrictions on Ukrainian agricultural products and do not comply with their obligations in terms of removal of restrictions and ensuring its transit. In addition, the Associations urge the government to review the decision to ban sugar export.

Ukrainian agricultural producers propose to raise the issue of pre-elastic transit of the Ukrainian export by the territory of the EU Member States, as provided by the initiative of "pursuit" and on providing financial support to Ukrainian exporter-graining products affected by the prohibitions.

The Government is also asked to ensure the strengthening of control by the State Consumer Service with indicators of quality and safety of agro-food products, which is imported into Ukraine from individual EU Member States; and consider the expediency of delaying Ukrainian economic interests with the help of such instruments as an appeal to arbitration within the WTO and within the Association Agreement. Associations urge the Government to initiate investigations of the task of the harmonic economics of Ukraine within the General Agreement on Tariffs and Trade in 1994.

In particular, the European Commission's decision to continue the ban on the import of Ukrainian -aged(wheat, corn, rapeseed and sunflower)Not only exports of Ukrainian grain to these states but also its transit territory were exported to some Member States. According to the Association, not all states abolished their institutional decisions on a unilateral ban on import and transit of Ukrainian agro -products(For example, this has not yet been done by Hungary). Водночас, у травні 2023 року польські перевізники заблокували можливість перетину будь-яким вантажівками державного кордону України з Польщею з вимогою повернення для українських перевізників дозвільної процедури здійснення міжнародних вантажних автомобільних перевезень територією ЄС.

У зверненні наголошується, що поява у ЄС практик, що порушують умови угоди проасоціацію та є дискримінаційними по відношенню до України. Відповідно до угоди про асоціацію жодна сторона не повинна запроваджувати будь-які заборони чи обмеження щодо імпорту будь-якого товару іншої сторони. Крім цього, аграріїв бачать ризики у риториці європейських чиновників щодо подальшого введення квот і проведення розслідувань стосовно української агропродовольчої продукції.

At the same time, Ukrainian farmers oppose the introduction of a ban on the NAXport of Sugar. Thanks to this decision, the ban on the export of Ukrainian Grain EU grado was added to the ban on sugar exports. This step will lead to negative consequences for domestic producers and processors of agricultural products, media: failure to comply with foreign economic contracts, loss of solvent -external markets, acquisition of reputation of unreliable suppliers, financial services. At the same time, individual EU member states apply to the Ukrainian agro-food regime of increased control. In the last few months, shipments with Ukrainian agricultural products when crossing the border began to undergo interpretation of inspections by EU Member States. As a result, the resistance of cargoes increased and the number of cases(such as a broken glass container or the presence of some moldy elements in the meal).

"Істотне погіршення доступу на зовнішні ринки суттєво звужує можливості для фінансування відновлення аграрного сектору. Жодна держава-член ЄС незіткнулась з тим, з чим наразі доводиться мати справу українським аграріям. Наразі закриття з будь-яких причин кожного окремого зовнішнього ринку для нової товарної позиції має не менш руйнівні наслідки, ніж повномасштабна військова агресія російської федерації проти України", - підкреслюють асоціації у зверненні.

The Director -National Anti -Corruption Bureau Semen Krivonos assures that he does not have any influence on the part of officials.

He noted this in [interview Ukrinform](#) Answering the question of what relationship with the head of the office of the president Andriy Ermak.

“The National Anti -Corruption Bureau from Bug -Subsidy and individual officials has no influence on me. Everything else is conspiracy, which is

apparently on the posts of people I respect, but ... Well, what do we get here? " - he said.

"I was asked about it at the competition. I am with him(A. [Yermak](#) - order.)Indeed, he saw the meetings of the National Reform Council. At the time of election of the head of the diam, I did not have a personal communication with Yermak. I sat at one table with other experts and members of the government when I presented the concept of urban planning.

After my appointment, I was with him at a meeting of the OECD working group with him, there is no other communication.

But the question of independence is the question of choice. After the full - scale intensification of Russia to Ukraine, we, as a nation, had a choice - to give up to be aborted. We have chosen independence, "he added.

Krivonos also assured that he had "enough ambitions and tools to give any pressure and attempts to influence NABU independence."

The Presidential Lordir Zelensky commented on the words of Vladimir Putin in his address, who called him "the shame of the Jewish people", saying that the Russian leader was "the Second King of Anti -Semitism after Hitler."

Zelensky stated this in [BBC interview](#) , reports Ukrinform.

The journalist of the publication asked Zelensky about his reaction to words [Putin](#) At the St. Petersburg Economic Forum.

According to the BBC, Zelensky lost many of his relatives during the Holocaust, including his grandfather, and it was obvious that the issue had suddenly caught him.

In response, the Ukrainian president sighed deeply, lowered his head and said in a number of seconds that he was not quite sure how to answer the question.

"The impression that he(Putin - ed.)He does not fully understand his words. Sorry, but he seems to be the second king of anti -Semitism after Hitler. This is the president. The civilized world cannot speak so much, " - said Zelensky.

He thanked the world community for his support after Putin's words.

"It was important for me to hear the reaction of the world, and I am grateful for the support," the Ukrainian leader added.

The bill was relevant to the Anti -Corruption Committee of the Parliament, which provides for a gradual increase in the staffing of the department from 700 to 1 000 workers.

To do this, the budget for the next year requires additional funds. The Director of the National Anti -Corruption Bureau Semen Krivonos in [interview Ukrinform] reported

Prote.(<https://www.ukrinform.ua/rubric-economy/3725452-semen-krivonos->

[direktor-nacionalnogo-antikorupcijnogo-buro.html](#)) . "At the end of May, we sent a bill to the Anti -Corruption Committee. We are waiting for its registration and further discussion, promotion to the Verkhovna Rada, "Krivonos said.

He said that there was a need to increase the number of binding workers with the increase in the number of criminal cases in the bureau.

**Read also:** [Krivonos said what crimes will be in priority NABU](#) "From the moment of the Bureau in 2015 and to this day, the number of proceedings has increased significantly. At the beginning of the work there were about 250 -criminal cases. As of the end of 2022 - 716. These are complex provisions that relate to serious schemes of theft of budget funds, activities of criminal organizations and require the involvement of large number of participants. Therefore, the burden on investigative units is increasing significantly, "he argues.

Krivonos also draws attention to the fact that after our victory for post -war recovery, a considerable amount of money will be directed, and their distribution and use should be boldly accountable and transparent.

"We need to ensure effective monitoring and control of the process of restoration of Ukraine. And the burden on the bureau in this part will also grow, "he explains.

According to the NABU Director, to increase the number of employees, it is necessary to provide additional funds for the next year. The Bureau also counts on the support of international donors.

" According to the experience of the bureau, much of our material needs related to the training of personnel cover it. Therefore, financial loads will be distributed between the state budget and the help of international donors, "Krivonis said. He said that "tomorrow to increase the staff to 300 positions, we need more billion hryvnias."

"But by understanding the serious burden on the state budget, in the transitional provisions of the bill, we offered a gradual increase in the staffing number by typing since 2024. This will allow you to distribute expenditures more evenly and will not work excessive load on the state budget, "says the bureau director.

Krivonis noted that when assessing the funding of the bureau, it is necessary to take into account the economic effect of economic effect [NABU](#) And the SAP last year, which amounted to more than 3 mIrd UAH.

Also, over the last year, ₴ 1.7 billion was transferred to the Armed Forces, including about ₴ 700 million to the Drone Army.

So far, Putin's Russian dictator does not support the Russian dictator as he could, and that's good.

This opinion in a comment [Ukrainian radio](#) The spokesman of the European Union on Foreign and Security Policy of Peter said, reports Ukrinform.

In his opinion, China should play a role in relation to the Rosiyan -scale war against Ukraine.

"We click on China from the very beginning of the invasion to meet its actions. The China tries to submit itself as a defender of the modern world of the Ysvita order as a responsible permanent permanent member when he can confirm his statements by actions, "he said.

In general, as partner China is very opaque, the EU spokesman said.

"We do not know that China really thought. We can only assume Make it even more if it has potential and opportunity for it. However, it is just a reason. We are inclined to believe that, yes, China will play a role. And the longer the conflict will delay, the more Putin will show the real unit of aggression with all these atrocities, etc. , the more China will press it, "the EU spokesman added.

According to China, Ukraine is "a state that it can be said to be and abuse it at three levels."

" *First level* -their own, internal, related to Taiwan. So they prompt, as they react the world community to the possible decision of Beijing to be able to impose the current status quo on Taiwan, which they consider to be their part. And although everyone understands that the power association never It will work, there are ambitions, "the EU spokesman said.

**Read also:** [China Outraged by Biden's words about "dictator"](#)

And *Treti level* , considers it - is a common benefit that, thanks to Russia, receives from the current situation. "China can now use Russia. To use it and to abuse it. This applies not only to cheap roar, gas or oil. China invests considerable funds in renewable sources because the country is unrealistically contaminated. The Chinese understand that it is influential population. And Russia will perceive Rather, if they need natural resources, they know that Russia is weakening. It is reminiscent of a large geopolitical game in which China wins. It receives a loyal and dependent one that can be manipulated ... ", - the EU representative explained.

**Read also:** [USA concerned by military activity China in Cuba - Blinken](#) At the same time, he noted: "Ukraine is indifferent to them, but if they require their generation geopolitical plan, they will enter the game with more forces.(On April 26, this year, President of Ukraine Zelensky had a telephone conversation with the China's leader Xi Jinping - ed.), and Special Representative of China came(to Kiev - ed.). Вони намагаютьсябути помітнішими. Чи буде це ефективно, чи принесе результати, хто знає. Алезнову ж таки, поки вони не підтримують Путіна так, як могли б, це

добре. І той факт, що він програє, свідчить, що насправді китайська підтримка – це небільше, ніж реверанси на червоній доріжці".

Тому підхід ЄС до [Китаю](#) According to the state, the EU continues to press on the Chinese to fulfill their obligations. In his opinion, international pressure produces results.

"However, unfortunately, it does not produce results as quickly as you could be overwhelmed. All these processes take time, but in Ukraine now is timely measured by human lives. Levels and with partners such as China, Africa and Asian countries, "he summed up.

Basketball 3x3 of the Basketball Ukraine, Christina Filevich, shared the expectations of the recession at the European Games-2023.

She told this exclusively in a comment to Ukrinform correspondent.

“Poland, Estonia and Lithuania are good teams, so I think it is worth preparing to be advisory and intense games. In basketball 3x3 it is difficult to predict something. Litvabula is one of the top national teams in recent years, Estonia

and Poland are also quite interesting. This is a strong group, so we will try to show the maximum result, "she said.

The basketball player emphasized that the national team of Ukraine is accustomed to the stressful schedule of competitions, so the strength for the whole tournament would be enough.

"We hope that we will have the strength to undergo a busy schedule of games. For the first time, so we are used to. We are inspired by those who protect our country. They make it unrealistic and give us faith in ourselves, strength. Also, we thank you to our relatives, who believe in us despite everything. Of course, it is worth mentioning the funding, which in such a difficult time find the money to help us, "Filevich said.

Christina also emphasized that the atmosphere in the national team of Ukraine is good and girls support each other.

"Every competition, their organization is interesting in their own way. Now I like everything. The location is interesting, in the village in general everything is fine. They were only for one purpose: as much as possible to stand on the site. We mingle each other to maintain, keep our emotions in ourselves, " - summarizes a malobasquetball player.

The tough battles in different directions of the front with Russian invaders will be shift.

About it in your [appeal](#) President Volodymyr Zelenskyy said D-Ukrainians at the end of the 483rd War, Ukrinform reports.

\_ I wish health, dear Ukrainians!\_

First. Front. Hard fighting. South - destroy the enemy. Donetsk region is destroying the mold. The Kupyansky direction - at least that Russian terrorists plan, we will destroy the enemy.

In the south there is our movement forward. Thank you, warriors! In the east - we keep the defense. I am gratefully grateful, the guys, for each, a Russian helicopter. Each one is important.

Second. London. Today, our work with the British has started a special conference for Ukraine's restoration.

I thank you, Britain, for a new financial support package. Thank you, American, a suction of helping our infrastructure and energy. Thank you, the European Union, President of the European Commission Ursula von der Laien, a financial instrument for our reconstruction of 50 billion euros.

The meaning of this conference in London is not just to generate the efforts of our partners, but to support our transformation of the international business. The Ukrainian delegation is currently working in Britain - the government, office, Verkhovna Rada, and the Public Sector. Each aspect of the Ukrainian restoration of the more and more development of our country will be represented by those figures of the world by whose attention is directly needed by us: our industries, cities, communities, country as a whole. The task of Ukraine is to transform the moral leadership of the people into the economic leadership of our country. All the prerequisites for this are, first of all, in our people, in our wonderful sturdy.

Third. Finally, a new package of EU sanctions against Russia is approved. The part of its norms is prepared on the proposals of the International Sanction Group, which works under the chairmanship of Michael McFol and Andriy Ermak. This package will restrict Russia's profits that it has still received them in Europe, and will also overlap some of the ways of bypassing previously imposed sanctions. This is an instant from priority tasks.

All our partners are fully informed about how critically overlap all ways of bypassing sanctions. The terrorist state still has access to various products of components, technological and financial schemes created by those in the world, however, appreciates freedom and international law. And one more.

He accepted the certificates from the ambassadors of foreign states that came to Ukraine. New ambassadors. In total, more than 60 embassies and representations of states and more than 20 representations of international organizations have been working.

Working in Ukraine, working with Ukraine is to believe in Ukraine and in Ukrainians. Light with us despite everything that the state-zlo is trying to do. 483-day of a full-scale war. It is in our country that global hopes are focused. And our people justify these hopes. Freedom will win. Ukraine will win.

I thank everyone who is fighting and working for Ukraine!

Glory to all who strengthens freedom!

***Glory to Ukraine!***

Domestic robotics developers teach the military to work with ground -based.

The correspondent of the Armyinform has attended the first class, the main purpose of which is to acquaint the students with the training sets.

The whole learning process takes place on the Nanit Video-Book Autonomous Platform. This platform includes video tutorials, broken into modules, chatting and support, and homework.

- In the course, we teach all over from scratch: scheme, works with microcontrollers, programming and soldering so that people can connect all the components on their own how to prescribe the program. In the future, it will make it possible to competently arrange the equipment, and it will execute the commands you need, - said the head of the sales department Arsen Pasonov.

#### **The course program provides:**

- To acquire knowledge of physics and electronics;
- Learn how to collect simple schemes and complex ones;
- Search for documentation by devices and their properties;
- Learn how to program in Arduino IDE in C ++;

- Replenish the vocabulary of technical English.

The students use the training kit - a lark prototype designed to mine, intelligence or perform other tasks.

After graduation, a person will be an expert in the specialty "Terrhamodron", and will be able to work in the IT sphere or use skills in the performance of combat tasks. Also, the versatility of the equipment will allow you to work with the construction of equipment, in which similar mechanisms, even a foreign model.

- In military affairs, land drone is required to mine, intelligence or create a remotely controlled bomb. This equipment will help our soldiers find, neutralize and lay ammunition. The main advantage is that it is safe for the operator, because the drone is completely autonomous, your task is to program it right. When creating drones, we also took into account the different terrain, so the set is available both wheelbase and Igusenna, - said the senior teacher of the course Ivan Konechny.

The training kit used in the classes is practical from practical efficiency. However, even a training prototype can perform combat missions, despite the symbolic cost of 5 thousand UAH.

The peculiarity of the course is that each lesson in the course has a practical character. Students have the opportunity to combine offline and online training, while receiving constant support from qualified instructors.

Many military people are also involved in another developer program-the online courses "smart home", which allows you to become a specialist in security systems, land, air drones and robotics. After all, a programming algorithm, that is, spectrum and technique, is identical both in a smart home and in a ground drone.

Training occurs on an autonomous system with a minimum number of dachables of information input and information for regulating the main processes of the Ubstrone. In particular, imitation of access to the house, fire alarm, light, Internet, control with smartphone, engines, electricity. Teachers are higher technical education for the US and Ukraine universities.

All setting is printed on a 3D printer. And now the accent production on educational drones. The military who came to the courses said they wanted to become more versatile on the battlefield and to solve the issue of repairing

or improving the equipment on the spot, in the field, as it will save time to save time to the road in the rear units.

- I do not want to waste time until I have been treated after injury. For me, it seemed like the best option, it seems to me that until I recover, this is the best I can make a useful Tai -Victory for my brothers. Until I can run with a machine gun - I will solder!—Cloid the military with the call sign "account".

Most interesting thing is half an hour before( *subjugation* - ed . )On the radio network, they went to the unit that was Nakakhovskaya hydroelectric power station and said very quickly to leave the territory, " - said Budanov, adding that at the same time a group -based group of the Russian occupation army arrived in the hydroelectric power plant and made a blast.

According to the head of the GUR of the Ministry of Internal Affairs of Ukraine, all other units of the occupation military on the left bank of the Dnieper were not aware of the blast - committed by the aggressor catastrophas.

At the same time, the head of the GRU of Ukraine denied the information that the Russians had already placed their nuclear weapons in Belarus.

"The process of preparing for possible movement( *nuclear weapons from Russia to Belarus* - ed .)It actually continues, repositories are being prepared. As of the time the warhead has not yet been moved, "said the head of the GUR of the Ministry of Defense of Ukraine.

Among other things, Kirill Budanov noted the change of narratives of the Kremlin's propaganda - the vast bold bravado is increasingly displaced by the question "And what if Russia can win?" Or, "What happens if Russia is losing war?"

According to Cyril Budanov, Russian society is being prepared by the donovna reality, in which it was due to a criminal war against Ukraine.

The appropriate decision was made The Supreme Court is a complication of the court chamber for the protection(Case No. 560/8064/22).

Так, вищезгадана колегія суддів, переглядаючи таку справу в касаційному порядку відносно ветерана війни — особи з інвалідністю II групи внаслідок війни, дійшла висновку, що положення статті 13 Закону України «Про статус ветеранів війни, гарантії їх соціального захисту» необхідно застосовувати щодовиплати у розмірі 8 мінімальних пенсій за віком для даної категорії ветеранів.

Судова палата під час ухвалення рішення звернула увагу на те, що реалізація права на соціальний захист осіб, які перебувають на службі у ЗСУ та інших військових формуваннях, а також членів їхніх сімей потребує запровадження механізмів забезпечення їх державної підтримки. При цьому головну роль обороні України відіграють саме Збройні Сили України та інші військові формування, які своєю мужньюю боротьбою здійснюють ефективний захист Української держави та Українського народу. Відтак усебічна підтримка військовослужбовців та ветеранів війни є найвищим державним інтересом і однією з найбільш захищених конституційних цінностей України.

Відповідна постанова суду касаційної інстанції набирає законної сили з дати її ухвалення та не може бути оскаржена.

Раніше Велика Палата Верховного Суду вже розглядала аналогічну справу щодовиплати одноразової грошової допомоги до 5 травня за 2020 рік. Під час розгляду судді акцентували увагу на тому, що на момент отримання спірної разової грошової допомоги до 5 травня слід керуватися вимогами Закону України «Про статус ветеранів війни, гарантії їх соціального захисту», що передбачає виплату такої допомоги для учасників бойових дій у розмірі 5 мінімальних пенсій за віком, інвалідам війни 1 групи — 10 мінімальних пенсій за віком, 2 групи — 8 мінімальних пенсій за віком, 3 групи — 7 мінімальних пенсій за віком.

Отже, цьогорічним рішенням Верховний Суд підтвердив те, що одноразова грошова допомога до 5 травня за 2022 рік повинна виплачуватися відповідно до розмірів мінімальних пенсій за віком, навіть в умовах воєнного стану.

A documentary about the forced deportation and Russification of Ukrainian children "Malified Childhood" was published. The project was created by the team of Ukrainian media ONLINE.UA in 2023 before the Day of Protection of Children.

In it the children and their parents told the team online.ua their own stories. Some heroes were captured, someone was forcibly taken to a wellness

camp, and others were divorced with parents during so -called filtration measures. In these "camps", Russians usually engage in Russification of children, forbidding Ukrainian and calling home.

Since the beginning of a large -scale invasion, Russia has illegally exported more than 19,000 Ukrainian children, and now almost 400 has been returned to their homes.

"This is the study of the current situation and the evidence base for the abduction of Ukrainian children by Russia from the temporarily occupied territories of Ukraine. In the movie, children and their father told their own stories. Some of them were captured, someone was forced into a wellness camp, someone was separated from their parents during the so -called filtration activities. The "mutilated childhood" is documenting the testimonies of children's crimes against the Ukrainian people, "the founders of the Resectorate said.

Showed in the movie History illustrates that the abduction of children from Ukraine from Ukraine is a clearly planned and well -organized process for typical scenarios: deception or murder of parents, orphans, deportation for prime -help and filtration camps.

"The portions were very small, most could not eat it, and the cutlets, like a way. After them, it became very bad and began to get nauseated, it is safer to eat more than the godfather ... " - said the rescued children.

The film is available [in Ukrainian](#) and [in English](#) languages.

In the capital, the premiere of a documentary about the causes of Russian aggression and cruelty "Rashism. History of the disease. "

The author of the documentary was the Ukrainian journalist Akim Galimov, who, with a team of international experts, explored the historical preconditions that have found from the Russians the nation of executioners and looters.

- It seems to me that many people in the world who saw the frames from Bucha or Irpen, asked themselves how it became possible that the nation of monsters was in the 21st century? Our team has been exploring history for over 6 years, and it is obvious that the deep causes of Russia's aggression are hiding in their past. Having understood these reasons, Ukrainians and the world will be able to be more prepared by Russian aggression, - Akim Galimov expressed his opinion.

\*!Akima Galimov's films are collecting millions of views. The total cycle - document films "Ukraine. Returning History "has gained about 17 million YouTube views. The Real History YouTube channel has taken a few months to the top ten of the most popular Ukrainian historical blogs.

The team started working on the movie last year in April. The horrific information of the rolling and killing of people in the captured territories that opened the postcourse were the reason for the study of the nature of Rashism.

Фільм зроблений у форматі історії хвороби. Симптоми хвороби – основні риси російського суспільства: агресія, інфантильність, релігійна маячня, манія величини. Консультантами фільму були одразу кілька спеціалістів, що вивчають саме соціальну психологію. Тобто те як змінюється світогляд і поведінка людей в залежності від оточення.

- recently the Verkhovna Rada has legalized the concept of "Rashism", introduced it legally as the name of the regime that exists in Russia. Many may seem to many fundamentally new, so we call Russian politicianism, and the Russians by Rashists. However, this is a very important and necessary solution. First of all, to communicate with partners in the West, since now the signs of this ugly phenomenon are fixed. Therefore, it all goes into the legal plane.

Ще одним експертом став Пітер Померанцев – британський журналіст та письменник, який вивчає вплив пропаганди. Пітер – син десидентів з Києва, які змушені були тікати закордон від політичних репресій СРСР.

International experts have told what ancient traditions have caused a high level of domestic violence in Russia, as a "grandfather" in the army transformed a liaison into a cruel executioner, and the church brought up the humility of their believers. The film's head hero was the comic book character, which was created by artists special for the film. It is a collective image of a Russian named Ivan. All the thoughts of Ivan's Tarapeka were used in the movie - real phrases taken from Russian social networks.

The film also reveals the topic of Russian rulers who managed to blackmail people with food.

Ukrainian and international experts have joined the new documentary. Among them is historian Alexander Alfiorov, American historian, writer, laureate of the

Pulitzer Prize Anne Appelum, French historian and theologian, Doctor of History Antoine Azhakovsky. The shooting was in the US, France, Poland and Ukraine.

View Akima Galimov's new documentary "Rashism. History of the disease" will be possible on June 23 on 1+1 Ukraine.

The coordination headquarters took place an online meeting with the association of family servicemen of the Division of the Naval Navy of the Armed Forces. A representative of the coordination Staff communicated with degeneration and close prisoners of sailors.

About it [reports](#) Coordinating headquarters of inquiries for the treatment of prisoners of war.

Among other things, relatives of prisoners were interested in information about their loved ones. According to the headquarters, the aggressor country does not officially announce the location of prisoners of war: this applies to the places of freedom in the territory of the Russian Federation and in the temporary-occupied Ukrainian territories. There is no similar situation with information about the state of health of prisoners - there is no official information from the Russian side.

It should be noted that a considerable amount of important information is collected and transmitted to the coordination headquarters by relatives of missing persons and prisoners of servicemen. Valuable information about health and probable places of maintenance is transferred from captivity by defenders.

Separately, the staff representative drew attention to information security. He questioned the members of the prisoners of war to be vigilant, receiving information from doubtful unverified sources. Russia in any way tries to float into Ukrainian society, in particular, using the manipulation of information space.

The connection continues to monitor the development of events around the agreement of the Russian Federation and Belarus to proceed to tactical nuclear weapons and still do not see it must be necessary to establish the arrangement of their own nuclear forces in response.

This was stated on Wednesday during a press conference in Washington by US Deputy Assistant Secretary of State Vedant Patel, Ukrinform reports his own correspondent.

"We have seen reports of an agreement between Russia and Belarus and continue to actively monitor the situation, its development and consequences," - assured the State Department, commenting on the questions about the nuclear threat from the Russian Federation, as well as the existence of President Biden on this.

**Read also: no nuclear warhead of the Russian Federation has yet moved to Belarus - Budanov**

At the same time, the Patel emphasized: "We have not seen any reason to change the position of our own nuclear forces."

In addition, he reminded the US position, expressed, including President Biden that the Kremlin's rhetoric on nuclear weapons is a reckless camp.

"It also emphasizes the hypocrisy of President Putin in this matter," the US State Department spokesman.

During a multi -stage special operation, another FSB agent was exposed in different regions of Ukraine. At the instructions of the aggressor, he collected

information about the location of the clay electric substations in the territory of Kharkiv, Sumy, Poltava, Donetsk and Luhansk regions. The attacker is threatened with life imprisonment.

About it [reports](#) Security Service of Ukraine.

The Russian agent reported to the occupiers of the estimated voltage of energy objects, at the level of their damage after enemy shelling. The intelligence needed the aggressors to prepare new ones and to conduct repeated air strikes of power substations for complete disconnection of 5 regions of Ukraine.

The attacker was detained in Kharkiv during his reconnaissance task FSSB. According to the investigation, the hostile associate was the official of the regional unit of Ukrrenergo, who headed the group to optimize the and calculation of electricity losses.

It is established that the Russian intelligence service recruited it long before the large-scale invasion and transferred to the "sleeping regime". After February 24, 2022, the FSB "activated" its agent and identified the task of conducting intelligence and subversive activities against Ukraine.

Pre -closed closed duct communications were used for communication. The traitor was transmitted to the occupiers through the "liaison" who was in a temporarily occupied Gorlovka.

When searched at the place of residence of the detainee, a mobile phone, laptop and tablet with evidence of criminal acts were found. He was informed of suspicion of a pre -state betrayal, committed in the state of martial law.

He is now in custody. Investigation is ongoing to establish all the crime. The attacker is threatened with life imprisonment.

In the space of the exhibition "Ukraine-Crucifixion" of the National Museum of

History of Ukraine in the Second World War, the memory of the Hero of Ukraine Major Bogdanaracata from the 1st Presidential Brigade of Operations Name of HetmanApetra Doroshenko of the National Guard of Ukraine, which died on June 20, 2022, was held.

Recently, a new tradition was introduced at the Museum of War - meetings in honor of the exaggeration of Ukrainian heroes, during which relatives, brothers, colleagues, acquaint those who gave their lives for Ukraine.

According to the director of the museum Yuriy Savchuk, "not for ashes, so that they do not remain, but for fire, to remember always in our museum, in the world about our heroes. And this memory called for revenge, and the following generations remembered the names of the names. "

Hero of Ukraine Bogdan Karatko was born on January 6, 1994 in Vinnitsa. In 2010, he joined the Faculty of Internal Troops of the Educational and Scientific Institute of Training of Specialists for Public Security Police Departments of the Tavnny troops of the National Academy of Internal Affairs. Since July 2014, he served in the ranks of the National Guard of Ukraine at various respects.

[!\(Images/APMIRINFORM/2023-06-21T76-00-00-04-00/foto-1-13-150x150.jpg\)](#)

"Despite the huge loads of Bogdan always found time to engage in public activity. He organized the participation of more than 100 of our Uzabig servicemen for the Hero of Ukraine. He always had a lot of plans. Bogdan Neduvic athlete, but always found time to participate in competitions by professionals, " - told him a brother, a serviceman of the National Guard.

According to the rules of the run "Run for Hero of Ukraine", each participant receives the inscription of the hero for which he runs. Volodymyr promised that his next race will be with the name of Bohdan Karvatka.

For personal courage and heroism, revealed in the protection of state sovereignty of Taterorial integrity of Ukraine, loyalty to the military oath, on September 16, 20122, the President of Ukraine awarded the title of Hero of

Ukraine with awarding the Order of the Golden Star, Major Karvatya Bohdan Vladislavovich - posthumously.

The next day, on June 20, 2022, Bohdan Karvatka was instructed to occupy the border defense in the northern outskirts of Lisichansk and to make fire cover of the Severodonetsk and Bakhmut fire -heads - Bakhmut, which moved columns of a separate airmobile and a separate motor -infantry battalion. The armed shelling of the Guards positions for three hours kept the defense. When the protective structures were actually destroyed, the racists went on the offensive and there was a lacquer to be surrounded. Major Carvatko ordered the subordinates to depart the basement, and he remained to cover them with fire from the machine gun. The officer brought almost a dozen invaders until he was fatal.

The Museum of War of the Hero of Ukraine came to the mother, brother, wife, battle branch and friends.

The President of Ukraine thanked Rishi Sunak for his good words about

Ukraine, about our military, and the leadership and support that the kingdom provides Ukraine with Ukrainians.

\_ " \_ Thank you that we are really single in defense of freedom.

\_ Dear leaders of politics, business and public opinion!\_

\_ Dear Presidents, Prime Ministers, Ministers, Secretaries, Heads of Company and International Organizations!\_ \*\*

\_ and of course expensive journalists!\_

Speaking of recovery, we talk about millions of jobs, billions of companies and trillions of GDP. And not only for Ukraine, but for all our countries. Countries that want and will live freely despite any predation of different "Putin", whose brain is poisoned by dreams of war.

The basis of growth is always values. Both powerful investment is preceded by trust and the growth that we are preparing with you should precede the confidence that the built will not fall. And this is not about bricks, but about life in general.

The land around the world is littered with ruins that are reminiscent of the wars of the past. And, unfortunately, the policy of the inserted regions of the world is sown with painful ideas of hatred of the taretiment, which indicate the possible wars of the future.

Even though no one is given to purify the depths of human nature from the evil that, it happens, emerges to the surface and destroys and kills, but we are with you - and right now - are able to protect life and overcome the ruins after Russian aggression so as to transform the path for evil, That is, for any new aggression.

The eyes of the world look at us. And whether we will defeat the Russian aggression of Sametak, as freedom deserves to defeat, that is, without compromises about our values.

And this world looks, whether we will restore normal life so that our frequency formation to cause ideological defeat of the aggressor.

By defending Ukraine, we protect freedom, and when we build Ukraine, we will build freedom. Country, region, continent, world ... This is a global task.

I want to thank you. And, of course, I thank Switzerland, Germany, France, Italy - every country where we agreed the key principles for recovery. At this

conference we have to move from vision to agreements, and from agreements - relevant projects. **So, the first item: we strengthen unity .**

Ukraine has already managed to make the European Union as one that it has never been. It is a truly value unity, which is expressed in many political, economic, sanctions, humanitarian decisions. Ukraine has activated all that silverite, for which the European Union was conceived.

Ukraine also activates the moral force of NATO. This is important for all of us. What does Svetzaraz see? Does he recognize NATO's moral leadership in protecting peace? This is possible only in Ukraine in the Alliance.

Just as Ukraine already belongs to the EU valuable space, we are already owned by NATO's security space. De facto. Just as Ukraine is already a part of the EU -joint market and goes to full membership, we are already a harrowing space of freedom in the Alliance and await only for the courage of leader -of -law to recognize this reality politically.

Thanks to the same values, we develop strong bilateral alliances with such a democratic world as the United Kingdom, the United States, Canada, Japan, Australia, all EU members ... And this gives us a new power in defense, in the economy in global perspectives of democracy.

By building our alliances, we protect the level of freedom that people are more accustomed.

### **Second: We are enhancing stability.**

At least 600 million consumers in the world are directly dependent on our agricultural production. It is a tremendous potential for food security.

During this war, when Russia blocked our ports and destroyed freedom in the Black and Azov Seas, the world saw that the grain of Zuzraina was. Without it, there is a threat of price crises and social collapse in different countries.

We have now partially restored the movement of our food by the sea within two export initiatives. And it is a stability for a huge social taeconomic space from Morocco to Somalia, from China to Lebanon, the Fluce to India, from Spain to Pakistan ... Various aspects, various influences, Alaza - a contribution to stability.

Another similar sphere is energy.

I believe that there is no alternative to the "green" transformation of the economy, and Russian aggression has proved that in the "green" transformation - one of the key basics of security. The impact on our energy

and every manifestation of Russian blackmailing is completed. The whole regions of the world could depend on one supplier - such as Russia.

It is "green" energy that guarantees real energy stability. By building agricultural and energy capacity in Ukraine, we protect the world of PCChaos.

### **Third point: Increase growth .**

There is no such place in the world where it would be necessary to build and rebuild many objects as in Ukraine. Every new day of Russian aggression is novoirin. Thousands and thousands of destroyed houses, mutilated industries, burned life ... Russia has recently committed the largest ecocid crime in Europe, undermined by the Kakhovidambu and other structures of the Kakhovka hydroelectric power plant.

What does it mean? In Ukraine, the largest source of economic, industrial and technological growth in Europe in ten or ten years. And it is not only construct.

For example, the "green" transformation of energy logically stimulates the development of industries such as "green" metallurgy and "green" fertilizers.

Thanks to natural resources and industrial traditions, Ukraine can become one of the global centers of "green" metallurgy. Plus, we have significant deposits for the modern economy of resources as lithium.

By building with Ukraine and in Ukraine, we protect our countries and our companies from recessions.

### **Fourth item: Increase security .**

This war demonstrates that such effective protection against aggression in the modern world is needed. Weapons are needed and to what extent, what infrastructure is lacking, and what production is in priority, what technologies largely save lives and quality systems make it possible to make science fiction reality on the battlefield.

From the production of battle drones to habitual artillery. From the air shield that covers the whole country or even the region to shelters in each school. Infrastructure, which is built so that it is not destroyed by Iranian "Shahaned", to a cyberspace, which retains stability even in the conditions of constant cyberattacks.

We do all this in Ukraine, and in all this we need the experience of partners.

By building security together, we convince the world that democracy can not be overcome.

## **And finally, the fifth point is democracy .**

Russia has invaded Ukraine not only to steal our land, our resources and our people. It is obvious that without Ukraine there can be no Russian Empire.

And it is also obvious that the owners of Russia are very afraid of our democracy. What?

Because democracy paves the path of the rule of law, the clearing of corruption of the diligent principle of our countries with you: everyone matters. It is very important.

Of course, democracy is in the character of Ukrainians. And we would still strengthen it, it is important what they think or do in Russia. Even Russia's full -scale aggression has not stopped our internal reforms.

Ukraine will be associated with an honest court in the same way as it is now associated. Step by step we will come.

Thanks to digital transformation, we will show the world how the state can effectively function at all without contact between the official and the citizen of Chicania. All public services can and will be translated into online businesses or receiving social assistance to any other state service.

And, by the way, we are already exporting our digitalization to other regions and countries. We have learned such cooperation with Estonia, we will continue with Columbia and Zambia. And Yauna is just a beginning. Please be sure to ask our commissions, our government officials about this. This is really an example of social progress thanks to technologies.

By February 24, we began to dismantle the old oligarchic model of economic relations, which originated in the post -Soviet period. And it is not just something in the person of the oligarchs. This is about changing the approach to economic relations.

Transparency of finances and stability of the banking system, liberalization of the markets for competition, guaranteeing equal and legitimate conditions for each suburban entity are all areas in which we have made progress up to 24 worry and which are very important now. By building institutions and continuing reforms in Ukraine, we protect democracy and keep it as hope for everyone in our region that democracy will dominate.

***Ladies and Gentlemen!***

By building Ukraine, we build much more than one country. We build a world that it will be in the lives of our generation and after us. Is it peaceful? Clean? Is it democratic? It depends on everyone and everyone.

I invite you all to Ukraine! By the way, Mr. Prime Minister, Rishi, we have seen in Kiev.

***Thank you for attention! Thank you for your support!***

**\_ Thank you, the United Kingdom! \_**

**\_ Glory to Ukraine!", - said President of Ukraine. \_**

The evidence base was collected on the Podantok oligarch from the Russian Federation of Mikhail Shelkov, which is adverse to the schemes of hidden supply of Ukrainian titanium raw materials of the Ukrainian aggressor. For the realization of equipment, the Russian used the controlled LLC "Demurinsky Mining and Processing Plant" in the Dnipropetrovsk region.

About it [informs](#) Security Service of Ukraine.

Rare minerals from the deposits of the Ukrainian company are indispensable components in the production of high quality titanium. It was them that she was supplied to the Russian Federation by the naming of enterprises of the Russian military-industrial complex. Among them are **manufacturers of winged rockets "Caliber", MiG-35 and SU-35 combat aircraft, as well as KA-52.**

According to the materials of the SBU, in early February this year, the demurine mining and processing plant was transferred to the state property of Ukraine. However, Schiekovkovka has become the beneficial owner of the Ukrainian mining company still a damping invasion of the Russian Federation. The actual management of the enterprise has realized through the Russian monopolist for the production of titanium of PJSC "Corporation VMPO-AVISMA". He conducted this activity in conjunction with the adviser to the CEO of this company.

According to the investigation, it is part of the structure of the largest manufacturers armed for occupation groups of the Russian Federation, which are fighting against Ukraine.

At the same time, after February 24, 2022, Shelkov wanted to hide his attitude of pre -industrial assets in our country to avoid sanctions. For this purpose it was tried to convey the formal management of the Ukrainian mining enterprise under the control of commercial structure in Dnipropetrovsk region.

The SBU staff exposed the equipment, blocked it in a timely manner and initiated the transmission of 100% of Russian property into Ukraine's income.

On the basis of the evidence collected, Shiekov was informed of suspicion of financing, committed for the purpose of violent change or overthrow of the constitutional system or the seizure of state power, changes in the boundaries of the territory or state border of Ukraine.

Since the persons involved in Russia, complex proceedings continue to bring them accountable for crimes against our country.

The Armed Forces of the Armed Forces are conducting harsh battles in different directions of the front with Russian invaders.

About it in your [appeal](#) President Volodymyr Zelenskyy said D-Ukrainians at the end of the 483rd War, Ukrinform reports.

\_ I wish health, dear Ukrainians!\_

First. Front. Hard fighting. South - destroy the enemy. Donetsk region is destroying the mold. The Kupyansky direction - at least that Russian terrorists plan, we will destroy the enemy.

In the south there is our movement forward. Thank you, warriors! In the east - we keep the defense. I am gratefully grateful, the guys, for each, a Russian helicopter. Each one is important.

Second. London. Today, our work with the British has started a special conference for Ukraine's restoration.

I thank you, Britain, for a new financial support package. Thank you, American, a suction of helping our infrastructure and energy. Thank you, the European Union, President of the European Commission Ursula von der Laien, a financial instrument for our reconstruction of 50 billion euros.

The meaning of this conference in London is not just to generate the efforts of our partners, but to support our transformation of the international business. The Ukrainian delegation is currently working in Britain - the government, office, Verkhovna Rada, and the Public Sector. Each aspect of the Ukrainian restoration of the more and more development of our country will be represented by those figures of the world by whose attention is directly needed by us: our industries, cities, communities, country as a whole. The task of Ukraine is to transform the moral leadership of the people into the economic leadership of our country. All the prerequisites for this are, first of all, in our people, in our wonderful sturdy.

Third. Finally, a new package of EU sanctions against Russia is approved. The part of its norms is prepared on the proposals of the International Sanction Group, which works under the chairmanship of Michael McFol and Andriy Ermak. This package will restrict Russia's profits that it has still received them in Europe, and will also overlap some of the ways of bypassing previously imposed sanctions. This is an instant from priority tasks.

All our partners are fully informed about how critically overlap all ways of bypassing sanctions. The terrorist state still has access to various products of components, technological and financial schemes created by those in the world, however, appreciates freedom and international law. And one more.

He accepted the certificates from the ambassadors of foreign states that came to Ukraine. New ambassadors. In total, more than 60 embassies and representations of states and more than 20 representations of international organizations have been working.

Working in Ukraine, working with Ukraine is to believe in Ukraine and in Ukrainians. Light with us despite everything that the state-zlo is trying to do. 483-day of a full-scale war. It is in our country that global hopes are focused. And our people justify these hopes. Freedom will win. Ukraine will win.

I thank everyone who is fighting and working for Ukraine!

Glory to all who strengthens freedom!

***Glory to Ukraine!***

Since the beginning of a full -scale invasion, the Security Service has initiated

the pre -trial investigation in almost 92,000 criminal proceedings related to the Russian aggression of the Russian Federation against Ukraine. Of these, about 43,000 cases concerning Russia's violations of war laws are ongoing.

This was announced by the SBU Chairman Vasyl Malyuk during a meeting of the Interagency Working Group on the interaction of law enforcement and state bodies that took place by the Voice of the Prosecutor General.

He noted that the investigation of Russian crimes is extremely important for both Ukrainians and the whole world.

"To date, the SBU is investigating almost 43 thousand proceedings under Art. 438 - the offenses of the laws and customs of war. And we do not just record these crimes. We can afford all the necessary procedural actions within the framework of Ukrainian legislation. Sooner or later, all Russian criminals have arisen before the court, "Vasyl Malyuk said.

First of all, it concerns the supreme military-political leadership of the Russian Federation of the army.

According to Vasyl Malyuk, 448 military criminals of the Russian officials, including more than 25 commander of the separate families of troops and armies, have been reported to 448 military criminals.

Specific crimes are also established. For example, a proponent of a heavy bombing regiment, Colonel Timoshin, was announced. Investigation was found that he was responsible for missile strikes in the Udnipra dwelling house in January this year and at the Amstor shopping center in Kremenchuk in June 2022.

In total, 95 criminal proceedings were sent to the court against 142 persons of the Russian and political leadership of the Russian Federation, of which 22 have already been convicted.

"The decision of the International Criminal Court on the arrest of Putin and Lviv-Bielova is only a beginning. We have to provide a powerful evidence base to pass Tseshles completely, "Vasily Malyuk emphasized.

He added that international structures are also involved in this work, which are being investigated by both individual cases and the "main" proceedings about Russian aggression against Ukraine.

The intelligence service itself applies modern approaches to fixing the military crimes of the Russian Federation. This is not only inspections of crime places, but also an analysis of open data, the use of different software products, systemic interaction with military and office prosecutor.

As part of Ukraine Recovery Conference, the head of the State Agency for Recovery and Infrastructure Development Development of Ukraine Mustafa Nayem took part in the meeting of the Vice Prime Minister for the Restoration of Ukraine Oleksandr Kubrakov and the UN coordinator in Ukraine Deniz Brown. In the focus of the meeting - the implementation of a joint approach to the restoration of Ukraine at the community level. The parties have agreed for these needs of the Community Restoration Fund. About it [reports](#) State Agency for Recovery and Development of Infrastructure of Ukraine.

The Fund will promote long -term rehabilitation and sustainability of the communities, and its key areas will be the restoration of housing, critical, social infrastructure, as well as humanitarian demining and supporting local

business. It will be deducted from the experimental project of reconstruction of the settlements that were most affected by the Russian military invasion: Trostyanets, Circus, Borodyanka, Moshchun, Poskrovsky and Berry.

The Recovery Agency has already held the first meetings with the communities of berry and Pokrovsky and presented them with a general concept of villages.

“Our country is first encountered with such a scale of destruction and the need for complex reconstruction of part of the country. Now the restoration agency gives the priority to the implementation of which direction depends on the life of not only individual communities or territories, but the country as a whole. Recovery agencies.

Over the next 5 years, the Foundation's needs are planned to mobilize \$ 300 million. Started financing - \$ 50 million.

According to Deniz Brown, the United Nations and the Government of Ukraine will be overhauled by the success of a social -centric approach on the example of the restoration of Kharkiv region, including the cities of Kharkiv and Izium. The UN helps the communities to change, disassemble, restore housing, schools, medical institutions and communications by the Government to provide the basic services of those who have not left the areas.

The Ministry and the UN will work together to prioritize the projects that have been informed by communities and agreed within the framework of public consultations with their perpetrators.

It should be noted that in 2024 the UN plans to allocate more than \$ 1 billion in the end of Ukraine.

Volodymyr Zelenskyy About it [said](#) President of Ukraine Volodymyrzelensky in his video address to Ukrainians.

\_ "I wish health, dear Ukrainians!\_

First. Front. Hard fighting. South - destroy the enemy. Donetsk region is destroying the mold. The Kupjansky direction \_ -- at least that Russian terrorists will be planned there, we will destroy the enemy.

In the south there is our movement forward. Thank you, warriors!In the east - we keep the defense. I am gratefully grateful, the guys, for each, a Russian helicopter. Each one is important.

Second. London. Today, our work with the British has started a special conference for Ukraine's restoration.

I thank you, Britain, for a new financial support package. Thank you, American, a suction of helping our infrastructure and energy. Thank you, the European Union, President of the European Commission Ursula von der Liaien, a financial instrument for our reconstruction of 50 billion euros.

The meaning of this conference in London is not simply to generate the efforts of the states \_ -- *our partners, but to keep our transformation in international business. The Ukrainian delegation is currently in Britain* \_ -- government, office, Verkhovna Rada, Public Sector. Each aspect of the Ukrainian restoration of the further development of our country will be represented by those figures of the world business whose attention is directly needed by us: our industries, cities, communities, country as a whole. The task of Ukraine is to transform the moralization of our people into the economic leadership of our country. All the preconditions for this are, first of all, in our people, in our beautiful -sighted people.

Third. Finally, a new package of EU sanctions against Russia is approved. The part of its norms is prepared on the proposals of the International Sanction Group, which works under the chairmanship of Michael McFol and Andriy Ermak. This package will restrict Russia's profits that it has still received them in Europe, and will also overlap some of the ways of bypassing previously imposed sanctions. This is an instant from priority tasks.

All our partners are fully informed about how critically overlap all ways of bypassing sanctions. The terrorist state still has access to various products of components, technological and financial schemes created by those in the world, however, appreciates freedom and international law. And one more.

He accepted the certificates from the ambassadors of foreign states that came to Ukraine. New ambassadors. In total, more than 60 embassies and representations of states and more than 20 representations of international organizations have been working.

To work in Ukraine, to work with Ukraine \_ --\_ it is to believe in Ukraine and in Ukrainians. The world is with us despite everything that the state-gun is trying to do. 483th day of a full-scale war. It is in our country that focushygrophygrogal hopes. And our people will justify these hopes. Freedom will win. Ukraine will win.

I thank everyone who is fighting and working for Ukraine!

Glory to all who strengthens freedom!

*Slav Ukraine! \_ », - the President of Ukraine said.\_*

The British magazine The Economist posted [material](#) Kiril Budanov, and the role of the department headed by him during a full -scale war with Russia, about the head of the Main Directorate of the Intelligence of Ukraine.

The journalists of the publication spoke with the fighting brothers Kirill Budanov, his subordinate officers, as well as intelligence of the Western powers to open the character of the head of Ukrainian military intelligence.

Kirill Budanov himself was asked about bold special operations, directed by the anti-state aggressor, as well as about the nuclear threat from Russia.

"We are in the war. The Kremlin's drones have shown the world that Russian defense is just a Potemkin village," Cyril Kirill quoted The Economist, noting that Ukraine did not confirm its involvement in the special operations of the Russian scent.

The head of the GUR of the Ministry of Defense of Ukraine stressed that without the strategic defeat of Russia, there will be no transformation of power in it, and the risk of using a nuclear weapons aggressor is low.

"As a reconnaissance manager, I tell you straight - this will not be. With all my unfortunate Russian, there are not many idiots that govern the country," Kirilobudanov said.
