The signing of the Russian dictator by Putin's decree on calling for military assemblies in stock is a component of the information campaign to make Ukraine to negotiate.

About it stated Secretary of the Radinational Security and Defense of Ukraine Alexey Danilov.

According to him, Russia is injection of the situation because it seeks to set up Ukraine as soon as possible at the negotiation table. To do this, the aggressor country launched a large campaign.

Commenting on the latest statements of the leader of PEC "Wagner" Prigogine about the removal of his boyevik from Bakhmut due to lack of ammunition, Alexei Danilov noted that their true reason is the inability of the "Wagnerists" to take this small district center, since the armed forces defend Bakhmut and do not leave them.

"In the territory of Russia there is an intraspecific struggle, and then they will be able to find out the relationship," the NSDC Secretary of Ukraine summarized.

This was stated by Estonia Prime Minister Kai Callas during the opening of Lennart Mary's 16-conference, correspondent Armyinfor from Tallinn reports.

"There is no responsibility for making Russia about its neighbors. So, in a short perspective, we must create an international tribunal against Russia. It should not be forgotten that there is also a crime of the Russian leadership. In fact, it is very important to deal with the crime of aggression.

For small states, such as the Baltic countries, the war is always destruction, and for imperials it is a glory.

For a while, I studied the history of tribunals in Nuremberg and Tokyo. Only during the Sevnurnberg did the Germans find out about the crimes of the Nazis. Therefore, not only responsibility is important, but also to the future, "Kai Callas noted.

Lennart Mary Conference has been held annually in Estonia since 2007. Its organizer is the International Defense and Security Center(ICDS). Подія названа на честь міністра закордонних справ (1990–1992)and President of Estonia(1992–2001).

This was stated by the Director of the International Defense and Security

Center Indrek Kannik during the opening word at the opening of the 16th Lennart Mary Conference, the Army of Tallinn reports.

Indrek Kannik compared Ukraine a year ago and now, noting the strategic disaster of the Russians to destroy Ukrainian statehood.

"When we met a year ago at the 15th Lennart Mary Conference, large-scale Russian aggression against Ukraine was still quite early. Mennis three months from its beginning. But even then, there were signs that Russia had not yet been able to destroy Ukrainian statehood. The situation is unstable. Although Ukrainians were able to repel Russia's attack from the north, it was possible that Russia would regroup and return.

A year later, Ukraine liberated territories on the western bank of the Dnieper and most Kharkiv region. I am optimistic enough that Ukraine will free up more this summer. The situation is much better than it was a year ago. But it's not where we would like to be, "said Indrek Kannik.

The slogan of the conference was the quote of the Italian writer Dante Alighieri "Incipitvita Nova"(So the new life begins). У цьому аспекті, на думку Індрека Канніка, варто покарати росію через загарбницьку війну, щоб більше небуло воєн у Європі.

«Ми маємо зробити все, щоб зробити нове життя кращим, ніж нинішнє. Ми нехочемо війни на нашому континенті. Попереднє життя призвело нас до війни.

росія зараз, мабуть, найбільш слабка за останні 20 років. Будьмо чесними — мимаємо взяти перевагу в цій ситуації. росія розпочала загарбницьку війну. Вонавбила невинних людей, зруйнувала міста та села, знищила інфраструктуру та пам'ятки культури.

Нам не потрібно принижувати росію. Але ми маємо покарати її за те, що вонавчинила, — як карають злочинців. Кримінальні режими теж. Найкращим покаранням буде швидка та чітка поразка росії та звільнення всіх українських територій. Цей результат так само в наших руках, як і в руках України», — відзначив Індрек Каннік.

За його словами, нині головним завданням є надання всебічної підтримки Україні задля якнайшвидшої перемоги. Адже російсько-українська війна впливає не лише на Європу, але й решту світу.

«З нашою допомогою, з нашою зброєю, Україна зможе виграти в цій війні. Після війни безпека України та наша безпека мають бути

гарантовані українським членством у ЄС і НАТО, разом з іншими націями, які цього прагнуть.

We will remind, on May 12 in the capital of Estonia, Tallinna began its work 16-conference Lennart Mary-an annual event, where they discuss issues of international security. The correspondent of the Armyinforms exclusively reports the main discussions that are happening there. The Lennart Mary Conference is the International Defense and Security Center and the European Foundation for Lennart Mary.

I wish health, dear Ukrainians!

Today - in Rome. As always with such visits, there is a result. Today we are more consistent.

He met with the President of Italy and the Chairman of the Council of Ministers - a political level of meetings. He heard that Italy would continue the support of Ukraine - as much as we need to stand and protect our people, our territory.

We agree with George, Ms. Prime Minister, our new joint defense tracks. There are good things that we will do together to protect the sky. There are good things to do together for protection on Earth. They agreed on weapons and air defense. As George, she said, when we defend the freedom and our lives of sprout bombs and rockets in Ukraine, from terror, we are giving the war from the rest of Europe.

Today, Russian murderers took away the lives of another Ukrainian child - the girl, she was not 16 years old. Her name was Hope ... A man was also killed, 64 was killed. Just ordinary people from the ordinary city of Konstantinovka in the Donbass ... My condolences to their relatives and loved ones!

It was a Russian strike of jet artillery. Just on the streets - on houses, shops, pharmacy and warehouse. This is how Russia is fighting. Artillery against ordinary people, against any people-children or adults, men or women. And to stop only with strong weapons, which our warriors can expel evil. To expel that the Kremlin could not spread aggression to other peoples of Europe.

Today, I had the honor to personally thank Rome, all of Italy, Mrs. Meloni as well and everyone in the Italian political class, who honestly responds to the threat to all our European way of life.

He met the Pope Francis, and it was a conversation that could really influence history, can really help stop the evil of aggression.

I told about the crimes committed by Russian invaders against our people, the provision of Ukrainian children. Even the exact number, how many children stole from Ukraine and hides from relatives, from Ukraine somewhere there in a foreign country. He asked his holiness to help return our children home to Ukraine. In the evening, from Rome, I spoke with the President of the South African Republic. He spoke of the formula of peace, justice, that our light is united by the rules of international law. Anyone who assists a weapon will be an accomplice with all the consequences. He called on Panap President to join with other countries of the world, all continents, Africa jointly for the realization of our formula of peace.

By the way, Italy today clearly supported all the points of Ukrainian formula. I thank you for that.

There is also a joint declaration with Italy. All important things: the European Union-Italy supported the negotiations in the 23rd year, the correct and timely signals of Zamoto.

And one more. I am especially grateful to all those people who were on the streets of Rome are famous for Ukrainian flags who met a Ukrainian delegation with an open -hearth and a genuine good emotion ... Italy should always be on the side of good, so that remained in Europe!

Viva Italia!

"Putin must understand that the commitment of the democratic world to Ukraine will not be paid that his war is meaningless. Therefore, the heads of state and government of the countries They should support the safety pact and show the path to the Alliance membership. If they do it now, it will help the president Vladimir Zelensky to start the process of building a just Tatarist peace. On the other hand, the Kremlin will continue its illegitimate war, "he wrote.

Yermak noted that Ukraine's membership in NATO would ensure the absence of war. In words, the contribution of Ukraine to collective security can be one of the largest of all Member States at the expense of an experienced and motivated army, as well as the skillful use of NATO weapons.

"In the future, the Summit in Vilnius NATO leaders should send a clear signal that the game is over. That Ukraine is part of the event. It is time to determine the specific plans and prospects of Ukraine's accession to NATO. Finland Tashveti has shown that no action is required to join," Yermak emphasized.

Also, the head of the Presidential Office recalled that last year the developed security contract was determined, which defines a number of security guarantees for Ukraine from its allies. In particular, the indefinite obligation of the Garant States Group to provide weapons, joint military exercises under the EU Flags, the exchange of intelligence and the continuation of investments in the military-industrial complex of Ukraine. The implementation of these measures is the support that will ensure the winner in this war and eliminate further aggression of Russia.

"There is no safety in the gray zone between NATO and Russia. Finland and Sweden were recognized. We need clarity, not the repetition of the open door policy that has just repelled the gate for Russian aggression," Yermak stressed. At the same time, he stated that the supply of Leopard 2 tanks, Patriot Iiris-T missiles, provided by the Federal Government of Germany and Chancellor Olaf Soltz, significantly improved the situation at the front. Artillery against ordinary people, against any people-children or adults, men or women. And to stop only with strong weapons, which our warriors can expel evil. To expel that the Kremlin could not spread aggression to other peoples of Europe.

Today, I had the honor to personally thank Rome, all of Italy, Mrs. Meloni as well and everyone in the Italian political class, who honestly responds to the threat to all our European way of life.

When it is an offensive in almost all directions, and it will be quite powerful and quite rapid. Somewhere in the end of February, apparently, we have already exhausted all the possibilities from our imagination that could be made, "Valery Zaluzhny told.

This was stated by Estonian Foreign Minister Margus Tsakhkna during a

discussion on NATO Summit in Vilnius at the 16th Lennart Mary Conference, the Armyinfor from Tallinn reports.

The Estonian diplomat also expressed solidarity with the Ukrainian vision of the War.

Estonia will spend 3.2% of GDP for defense next year. We could have been expending funds for education, but Russian aggression caused our bigger defense, - Margus Tsakhkna stressed.

Estonian Foreign Minister Margus Tsakhkna told about his expectations of NATO summit in Vilnius, which will take place on July 11-12:

-First, it is a continuation of Ukraine's constant support. Secondly, the definition of a different path to Ukrainian membership in NATO after the war. NATO is a single security guarantee for Ukraine.

Third, the Alliance's defensive plans must be fulfilled because of realism. We must be clearly aware that we can protect all the territories of NATO countries. There is a need for greater investment in defense capacity.

Fourth, Sweden should become a NATO member. We hope that this will get at the summit in Vilnius, - said Margus Tsakhkna.

This was stated by NATO Secretary General for Table Safety Intelligence

David Cattler during a discussion on NATO Summit in Vilnius at the 16th Lennart Mary Conference, correspondent Armyinfor from Tallinn reports.

It is necessary to increase the mutual mutuality of Ukraine with NATO, as well as to ensure Ukrainian victory. The latter concerns justice and strong peace. It is only only with further military support for Ukraine, "Didwkattler said.

He noted that an increase in defense costs is a common task for the country. The need to spend a minimum of 2 % on the defense approved at the Wales alliance in 2014 is only an initial indicator, given the world's security.

"First of all, I want to thank for help in saving people's lives. Everything that we do for the sake of safety is something that protects Ukrainian families, protects, protects our civilians and the lives of our soldiers," the Glavs said.

Volodymyr Zelensky expressed his gratitude to George Meloni, as well as the former Italian Dragie's former Premier, for visiting Ukraine by youthfully seeing the destructive consequences of Russia's bloody war.

The head of the Ukrainian state also invited all political leaders of Tagician figures of Italy to visit our country, to communicate personally by extraordinarily Ukrainians and to see with his own eyes that he had done the regime of Vladimirputin.

The second topic of the conversation of the President of Ukraine and the Prime Minister of the Italian Republic was the implementation of the formula of peace, which is intended to stop Russian aggression and prevent its repetition in the future.

"Unfortunately, Russia responded to our formula of peace again with rockets and artillery. Her is interested in peace, we all have to realize it. They don't want peace. But peace is interested in us, Ukrainians, first and foremost. And our partners - I see it, - in the same way Italy. The Ukrainian peace formula is ten points that comprehend threats to peace. Ten very specific steps, " - said Volodymyr Zelensky. "This is an extremely sensitive topic for me, for us: thousands of Ukrainian children have taken to the territory of the aggressor state. It is known about 19 393 children - this is a specific name with names. They were stolen by Russia. But the real number can be much larger - at

least 200 thousand children were in the territories occupied by Russia, so we do not know about the fate of all these children, "the President of Ukraine said.

He emphasized the need to act as quickly as possible to restore little Ukrainians by Russia.

In addition, as the head of state noted, the countries of Europe should continue to reduce dependence on Russia, in particular on its energy, so that the aggressor may not be possible for manipulation.

"One of the elements of this is sanctions. I thank you for supporting sanctions against aggression, "he said.

In the context of European integration, the President of Ukraine noted that, despite the war, it is sure to implement the recommendations of the European Commission, which she followed last year.

"It is a great motivation for us - to be among equal, to become a member of the European Union. It will be right when the European Council will approve the decision on Ukraine's accession to the EU, "Vladimir Zelensky said.

With regard to the interaction of Ukraine with NATO, the Head of State emphasized the importance of coordinating political decisions with real cooperation.

"We are already more meaningful in defense and cooperation than political boundaries that exist for Ukraine and NATO. Ukraine is already protecting common freedom as any member of the Alliance is doing. So it will be right if political decisions are reality, "the President emphasized.

Volodymyr Zelensky stated that he expects from the NATO summit in Vilnius the definition of the algorithm of Ukraine's accession to the Alliance, as well as a clear understanding of guaranteeing security for our country at a time before NATO's accession.

"So, as a result of today's negotiations, it is first and foremost a great gratitude - my person and Ukrainian people - to you. Second, more safety, more safety, more opportunities to return peace, "the President of Ukraine said.

In the context of post-war reconstruction of Ukraine, the parties discussed the preparation of the soil for the participation of Ukrainian and Italian business in the projects of non-governmental. "We are very interested in this. This will give the well-being and strength to some Ukrainian and Italians, "the President said, and thanked George Meloni, which was held on April 26, a conference on Ukraine's reconstruction. George Meloni noted that Italy completely supports all the sanctions of the alliance to achieve a fair peace, and will also work together with partners to assist Ukraine with weapons.

"No unjust peace can be imposed on Ukraine, and any peaceful man must be supported by the Ukrainian people. We will only come to peace when Russia ceases to conduct hostilities and attack civilian goals, " - said Arctic.

The Prime Minister of the Italian Republic noted that Italy supports Formulmir proposed by the President of Ukraine.

George Meloni emphasized that today the struggle is underway in Ukraine, but in order to protect European values that are common to citizens of all Europe.

According to her, the cooperation of Ukraine with NATO should be strengthened, which will be discussed by the July Summit of the Alliance in Vilnius.

George Meloni has declared further support of the Black Sea grain to ensure world food security, as well as the restoration of the critical infrastructure of Ukraine, cooperation between the two countries in the medical sphere, the protection of Ukrainian cultural heritage.

This was stated by US ambassador to Estonia George Kent during a discussion at Lennart Mary's 16-conference, reports Armyinfor from Tallinn.

In general, the US is doing everything to ensure Ukrainian victory in the war (*Increasing. - Ed.*) . The war began in February 2014. I think that the idea that the United States would spend \$ 37 billion on military assistance for any country for 15 months could not imagine even those who supported Ukraine.

For example, the US has spent \$ 72 billion in Afghanistan for 20 years, assisting the Afghan security forces. And we gave half of this amount in 15 months (*large -scale Russian aggression against Ukraine. —The ed.*) , - said George Kent.

He assured that the support of the United States for Ukraine will continue both in the provision of security assistance and in condemning Russian military crimes in Ukraine. The diplomat also recalled that Ukrainians are fighting, quoting the Ukrainian poet Sergei Zhadan.

The Minister of Defense of Estonia Hanno Makur during the 16th conference Mary said this, reports the Armyinform Correspondent of Tallinn.

The event itself is named after the outstanding Estonian politician and diplomat Lennart Meri, who was Minister of Foreign Affairs (1990-1992) and Presidential Research (1992-2001).

— Президент Леннарт Мері відіграв величезну роль у поверненні Естонії до світу як незалежної держави. Майже 50 років ми, естонці, мовчали, бо були підрадянською окупацією. Ми знаємо, як важко повернути те, що колись відібрали. Так само й українці. Вони також знають ціну окупації і зроблять все, щоб її неприйняти. Давайте зробимо так, щоб жоден українець не зіткнувся з тим шляхом, який пройшов президент Мері. Тому ми всі знаємо, що можемо зробити більше для України, — відзначив Ханно Певкур.

_ I wish health, dear Ukrainians!

Today - in Rome. As always with such visits, there is a result. Today we are more consistent.

He met with the President of Italy and the Chairman of the Council of Ministers - a political level of meetings. He heard that Italy would continue the support of Ukraine - as much as we need to stand and protect our people, our territory.

We agree with George, Ms. Prime Minister, our new joint defense tracks. There are good things that we will do together to protect the sky. There are good things to do together for protection on Earth. They agreed on weapons and air defense. As George, she said, when we defend the freedom and our lives of sprout bombs and rockets in Ukraine, from terror, we are giving the war from the rest of Europe.

Today, Russian murderers took away the lives of another Ukrainian child - the girl, she was not 16 years old. Her name was Hope ... A man was also killed, 64 was killed. Just ordinary people from the ordinary city of Konstantinovka in the Donbass ... My condolences to their relatives and loved ones!

It was a Russian strike of jet artillery. Just on the streets - on houses, shops, pharmacy and warehouse. This is how Russia is fighting. Artillery against ordinary people, against any people-children or adults, men or women. And to stop only with strong weapons, which our warriors can expel evil. To expel that the Kremlin could not spread aggression to other peoples of Europe.

Today, I had the honor to personally thank Rome, all of Italy, Mrs. Meloni as well and everyone in the Italian political class, who honestly responds to the threat to all our European way of life.

He met the Pope Francis, and it was a conversation that could really influence history, can really help stop the evil of aggression.

I told about the crimes committed by Russian invaders against our people, the provision of Ukrainian children. Even the exact number, how many children stole from Ukraine and hides from relatives, from Ukraine somewhere there in a foreign country. He asked his holiness to help return our children home to Ukraine.

He also told about other points of our peace formula, except for the return of all deported and captives. And I believe that the will and sincerity of its holiness can not be the realization of our formula of peace, can bring a fair, honest, honest. By the way, Italy today clearly supported all the points of Ukrainian formula. I thank you for that.

There is also a joint declaration with Italy. All important things: the European Union-Italy maintained negotiations in the 23rd year, the correct and timely signals of Zamoto.

And one more. I am especially grateful to all those people who were on the streets of Rome are famous for Ukrainian flags who met a Ukrainian delegation with an open -hearth and genuine good emotion ... Italy should always be on the side of good to get ready in Europe!

Viva Italia!

Glory to our soldiers!

Thank you to our air forces and all air defense fighters of other types and families of troops!

Glory to Ukraine!
