Poland's justice reforms are contrary to the laws of the European Union.

This decision has been announced on Monday by the EU, given the complaint of the April 2021 on Polish judicial reform since 2019, Ukrinform correspondent reports.

During the reading of the sentence in court, it is emphasized, in particular, that the Earlier Chamber of the Supreme Court [Poland] was created(<https://www.ukrinform.ua/tag-polsa>)“Does not meet the requirements

of independence and impartiality." As prescribed, the "broad and inaccurate nature" of individual provisions allows you to use the disciplinary responsibility of judges for their substantiated punishment.

It is emphasized that certain provisions of the judicial reform of the RP "incompatible with the guarantee of the report to the independent and impartial court".

On the day of announcement of the sentence, the European Commission has suspended a definition of a daily fine for Poland, but emphasized the need for Warsaw to pay the financial punishment, which is the highest in EU history - about 550 mlneurov. These funds are automatically deducted by the European Commission from European Funds for Polish.

The decision of the EU Court is final and cannot be challenged. The court determined that the Polish should change the legislation in order to meet the European standards. Therefore, the European Commission gives time for Warsaw to change the legislation of the US. If Poland fails to enforce the decision of the EU Court, the Toevro Commission may initiate another case against Poland and in the case of a win by Poland may be a financial punishment again.

He stressed that this decision of the Court of Justice is contrary to the decision of the constitutional tribunal of Poland, which previously raised that the issue of the RP judicial system was not the subject of EU competence. It is known that earlier the European Commission has accused Poland that the amendments to the laws of prozoral courts, the Supreme Court and some other laws since 2019 are contrary to European law.

For example, today in the format, the government, office, NSDC discussed the energy industry in a broad sense - agricultural production. Not only the restoration of what Ukraine was, but the development and expansion, taking into account the global role of Ukraine in order to food and energy security of Europe and the world.

We will present all these details. Will be thorough. In particular, we will present at the London Medical Conference on the Reconstruction of Ukraine, which will take place this month.

And, of course, we do not stop our international work with partners a day.

There was a Minister of Foreign Affairs of the United Kingdom today in Kyiv. Good, useful negotiations and new strengthening of our countries, our safety.

I thanked for all the defense support provided to Ukraine, and especially for the Storm Shedou missiles, which have shown themselves extremely effective in the forefront. I have been talking about a new coalition for the protection of life - Petriots.

The Minister of Foreign Affairs of the United Kingdom and NATO's training in Vilnius were spoken with Mr. The summit should be meaningful. Then it will become a historical.

Thank you all who help Ukraine! Thank you to everyone who brings the defeat's terror closer!

In May 2023, the State Statistics Service of Ukraine exported about 9.76 thousand tons of dairy products, which is 29.78% more than in April this year in May 2023.

According to Ukrinform, it reports [the press service of the Association of Producers](#). It is noted that in May, Ukraine exported dairy products by 22.53 million, which is 16.05% more than in April this year. The main export - categories in monetary equivalent were: dry and condensed milk(The share

of the summary of the revenue is 25.57%), milk and cream are unnecessary(21,89%), thrush Sirovatka(16,75%)and ice cream(14,68%).

У травні Україна експортувала 2,14 тис. т [молока](#) and creamy cream, which is 22.37%more in a natural volume than in April. Export revenue at this position has set \$ 1.22 million, which is 19.27% more than the previous month. The main buyer of Ukrainian milk and cream was Moldova, where Ukrainian enterprises were shipped 93.2% of exports.

Exports of dry and condensed milk in May increased to 2.49 thousand tons(39.23%more than in April). Виручка від експорту цього виду продукції зросла до 6,03 млн дол. (+35,69%). Близько 62% експорту сухого і згущеного молока було відправлено в напрямку ЄС.

У травні Україна експортувала 321 т кисломолочних продуктів на суму 397 тис.дол., що на 37,59% більше в натуральних обсягах, і на 32,75% більше в грошовому еквіваленті. Близько 99,6% експортованого товару було відправлено в Молдову, ОАЕ і Вірменію.

Експорт молочної сироватки з України зріс на 36,64% до 1,63 тис. т. Виручка від експорту цього виду продукції становила 1,02 млн дол., що на 26,82% більше, ніж у квітні. Головними напрямками збути молочної сироватки в травні були Китай (30,6%), Poland(26%), as well as Malaysia, Jordan, Libya, Philippines, Vietnam, Saudi Arabia, Turkey, Lebanon and Moldova, where 44% of the product was released.

Exports of Ukrainian cheeses increased to 705 tons(+27,04%), and the revenue increased to \$ 3.24 million.(+20,66%). На частку Молдови і Казахстану прийшлося близько 80,38% сирного експорту України.

У травні Україна експортувала 1,43 тис. морозива, що на 62,78% більше, ніж у квітні. Виручка склала 4,52 млн дол., що на 62% більше порівняно з попереднім місяцем. Левова частина українського експорту морозива прийшла на ЄС (53%) і Moldov(30,42%).

The amount of case and casein exports last month amounted to 476 tons worth \$ 3.2 million. Natural exports of goods decreased by 23%, and reached by -39.54%. Processors reduce the production of technical codinin in the conditions of reduction of prices for goods.

AVM analyst Georgy Kukhalevshvili suggests that the probable reason for increasing the total exports of Ukrainian dairy products in May is the dissemination of the governments of Poland, Hungary, Slovakia and

Bulgarian prohibition of the introduction of agro -industrial products from Ukraine.

Most dairy products imported into the EU from Ukraine are subsequently placed in the markets of third countries through the Black Sea or Danube Porticarumunia or Baltic ports of Poland. Demand for dairy products in the market is persons, and Ukrainian products are not interesting to local consumers. In the warehouse of European countries, so many stock products have accumulated that they cover the domestic market. It is likely that an increase in the export of butter from Ukraine restrains too much supply for this product in Europe. The best European cheeses and butter are attractive to clients in foreign market and they create competition for Ukrainian exporters.

In May, Ukraine reduced the volume of dairy products to 4,97 thousand. (-4,2%). Скорочення відбулося переважно за рахунок зменшення поставок в Україну молока і вершків тривалого зберігання, сирів, згущеного молока з європейських країн.

Україна у травні не імпортувала казеїн та казеїнати. Однак європейські країни збільшили поставки в Україну вершкового масла до 74 т (+25,19%), dairy products - up to 829 tons(+11,37%) and whey - up to 567 tons(+7,14%).

The first - I am grateful to every warrior, all our defenders and defenders who gave for this day the news we expect. Bakhmut direction - youth, warriors!

We see how hysterically Russia perceives any of our step there, all our positions.

The enemy knows that Ukraine will win. They see it. They feel it thanks to the shocks, warriors, and in particular in the Donetsk region. Thank you for it!

Today I would like to point out some of our combat units. It is a 5-story storm brigade and a 57th separate infantry brigade, who are skillfully protecting our positions, destroying the occupiers and, most importantly, move forward.

Thank you, warriors!Thank you all!

Second, we continue our work on sanctions against Russia.

Although the global trend is already understood - Russia is losing this war, businessmen continue to deny reality. They continue to try to deceive, to bypass sanctions, to produce more weapons, to provide greater waste of people's resources for this aggression.

We are preparing our steps, new steps for even greater limitation of Russian - military potential. Everyone in the world who helps the terrorist state to circumstance sanctions, everyone in the world whom Russia uses for the supply of weapons, components, equipment-every such entity must feel the full power of the free world.

And we will provide it.

This is a common task in the world - to stop terror. And the main prerequisite for this task is to stop any paths that terrorists still try to keep something for themselves.

News - soon.

Third. Today he held a long and very meaningful meeting on the transformation of a country, our lives - now and after victory.

Objectively, there are fundamental security, economic, energy, technological and simply human issues that require complete and effective answers.A strong state, a free state, a modern state, a pleasant state.

We lay the basis for this. All who are fighting for the sake of Ukraine. All who work for the sake of Ukraine. Everyone who helps.

For example, today in the format, the government, office, NSDC discussed the energy industry in a broad sense - agricultural production. Not only the restoration of what Ukraine was, but the development and expansion, taking into account the global role of Ukraine in order to food and energy security of Europe and the world.

We will present all these details. Will be thorough. In particular, we will present at the London Medical Conference on the Reconstruction of Ukraine, which will take place this month.

And, of course, we do not stop our international work with partners a day.

There was a Minister of Foreign Affairs of the United Kingdom today in Kyiv. Good, useful negotiations and new strengthening of our countries, our safety.

I thanked for all the defense support provided to Ukraine, and especially for the Storm Shedou missiles, which have shown themselves extremely effective in the forefront. I have been talking about a new coalition for the protection of life - Petriots.

The Minister of Foreign Affairs of the United Kingdom and NATO's training in Vilnius were spoken with Mr. The summit should be meaningful. Then it will become a historical.

Thank you all who help Ukraine! Thank you to everyone who brings the defeat's terror closer!

Glory to our soldiers!

Poland's justice reforms are contrary to the laws of the European Union.

This decision has been announced on Monday by the EU, given the complaint of the April 2021 on Polish judicial reform since 2019, Ukrinform correspondent reports.

During the reading of the sentence in court, it is emphasized, in particular, that the Earlier Chamber of the Supreme Court [Poland] was created(<https://www.ukrinform.ua/tag-polsa>)“Does not meet the requirements

of independence and impartiality." As prescribed, the "broad and inaccurate nature" of individual provisions allows you to use the disciplinary responsibility of judges for their substantiated punishment.

It is emphasized that certain provisions of the judicial reform of the RP "incompatible with the guarantee of the report to the independent and impartial court".

On the day of announcement of the sentence, the European Commission has suspended a definition of a daily fine for Poland, but emphasized the need for Warsaw to pay the financial punishment, which is the highest in EU history - about 550 mlneurov. These funds are automatically deducted by the European Commission from European Funds for Polish.

The decision of the EU Court is final and cannot be challenged. The court determined that the Polish should change the legislation in order to meet the European standards. Therefore, the European Commission gives time for Warsaw to change the legislation of the US. If Poland fails to enforce the decision of the EU Court, the Toevro Commission may initiate another case against Poland and in the case of a win by Poland may be a financial punishment again.

Ten Ukrainian military chaplains have undergone a two -week preparation by the Zivova British colleagues in their first course.

This is stated in [message](#) British government.

Over the past two weeks, Ukrainian chaplains have been attached to the Britain's Royal Army Department to find out more about pastoral care, spiritual support and moral leadership during military personnel, as well as the post -war recovery period.

Now they will go to Russia's front in the war with Ukraine, where their task will lead to inspire hope and restore the spirit as the troops are fighting the return of the sovereign territory of Ukraine.

A course developed by the British military chaplains and supported by the UK armed units within [Orbital Operation](#), appeared in response to the Questionnaire of Ukraine, aimed at equipping the participants with religious tapractical resources necessary to support the staff through the most complex operations - from severe loss and to mental health problems.

"For me, it was the biggest privilege to work with our Ukrainian partners to develop an understanding of chaplains in high -intensity. Together, we looked at the central place of moral component power and the role of chaplains in its observation and support. They were able to teach us the same way as we were able to teach them. The ability to provide pastoral care, spiritual support and moral leadership has made a critical capacity for Ukrainian commanders. These ten capealities responded to the call of their people; They are no longer just our international partners, they are our colleagues and friends. I pray that God bless, protect and direct them after returning to Ukraine, "said Reverend Michael Parker.

Much of the program was devoted to chaplaincy in an operational context, while the participants supported the Ukrainian military, who are currently undergoing a willow training in Viltshire in the framework of training of Ukrainian recruits, which is being carried out by the United Kingdom.

Ukraine continues our work on sanctions against Russia.

President of Ukraine Volodymyr Zelenskyy [said](#) In the evening address.

“Although the global trend is already clear - Russia is a war, the owners of Russia continue to deny reality. They continue to try to conquer the world, to

bypass sanctions, to produce more weapons, to provide greater tracks and people for this aggression, "the Head of State said.

He added that Ukraine is preparing steps, new steps for even greater limitation of Russian military potential.

"Everyone in the world, who helps the state-terrorist state, everyone in the world whom Russia uses to supply weapons, components, equipment-every such entity must feel the full power of free world. And we will provide it.

This is a common task in the world - to stop terror. And the main prerequisite for this task is to stop any paths that terrorists still try to keep something for themselves, "the message reads.

Today he held a long and very meaningful meeting on the transformation of our country, our lives - now and after victory.

"Objectively, there are fundamental security, economic, energy, technological and simply human issues that require complete and effective answers.

It will depend on these answers what Ukraine will be and what the lives of Ukrainian children will be when they become adults and receive the state from now on.

A strong state, a free state, a modern state, a pleasant state for life, "the Head of State said.

For example, today in the format, the government, office, NSDC discussed the energy industry in a broad sense - agricultural production. Not only the restoration of what Ukraine was, but the development and expansion, taking into account the global role of Ukraine in order to food and energy security of Europe and the world.

"We will present all these details. Will be thorough. In particular, we will present the Holy International Conference on Reconstruction of Ukraine, which will take place already.

And, of course, we do not stop our international work with partners a day, "Volodymyr Zelenskyy researched.

But the problem is that none of these delegations will fit in existing buildings.

To date, the delegations of Finland, Sweden and other partner countries have been located the NATO Early Headquarters-an old complex built in the Cold War, on Leopold III Boulevard.

Since NATO diplomats and officials envisaged the expansion of the Alliance in the future, the overall idea was to build an additional wing in the new headquarters when the time would come.

However, Finland has already joined NATO, Sweden is now intending to become a member, and the potential entry of Ukraine and Georgia is not excluded in the near future.
