Today, the 74th anniversary of the North Atlantic Alliance, the Main and Political Union in the world, is marking the North Atlantic Alliance. NATO became the basis of a single system of Evro -Atlantic security from Canada to the Baltic countries. For Ukraine, membership of the Educational Alliance is one of the key goals of foreign policy. More about how NATO was created and about its present in the Army's Army.

After the end of World War II, Europe lay in ruins. The United States came out with a superpower, which created military bases on all continents. The warnings of the Western countries to take into account the lessons of the two world wars - that it was better to work with each other than to hostile, led to awareness of the most integration at the military level.

The initiative of the creation of a new union of states came from the United States and the United Kingdom. British Foreign Minister Ernest Bevin contributed to the signing of the Brussels Treaty in 1948. The document created the Defense Alliance of Benilux countries(Belgium, the Netherlands, Luxembourg), France and the United Kingdom of Great Britain and Northern Ireland.

After that, the conversations of the US, Canada and Britain began to create an Atlantic security system. The novelty of NATO was that the universal defense was committed by the US to the Allies in Europe. In the case of a conditional attack on France, US troops stationed by the Navara European Continent would come to the rescue.

Sinding the Vashington Agreement

On April 4, 1949, the Washington Agreement was signed in the US capital, which was consumed by a document that created the North Atlantic Alliance. However, active discussions between the three major countries - the United States, Great Britain and France - were foreseen.

Signing of Washington Agreement

Paris saw the future of NATO as a global organization, and Washington and London planned the Alliance as the only security system in the Euro -Atlantic. Excellent views between the Allies were also the inclusion of colonies in collective protection. Then, in the late 1940s, European states were still colonial empire(https://www.nato.int/cps/en/natohq/topics_67656.htm).

Belgium proposed to mention the Congo, and France Algeria. After all, Algeria remained.* "On the territory of any of the parties in Europe or North America, at the Algerian Departments of France, in Turkey, or on the islands under the jurisdiction of any of the parties in the North Atlantic area north of the Tropics of Cancer; * On the forces, vessels or planes of any side when they are in or above, or in any other zone in Europe, where the occupation forces of any of the parties were placed on the date when the contract was obtained validity, either in the Mediterranean, or the North Atlantic area north of the Cancer Tropics."

The solemn signing of the NATO Establishment in Washington was the initial military-political union. The then US President Harry Truman was among those who saw in the North Atlantic Alliance the future of the safety of and the

defense. Moreover, the Cold War began - a period of US struggle with a treacherous union. Europe was divided into opposing camps. By the way, Truminen was the author of the doctrine of restraint, which involved the active cooperation of the allies with the purpose of not widening communism in the world.

12 countries created the North Atlantic Alliance in 1949: the United States, Great Britain, Canada, Portugal, Denmark, Iceland, France, Belgium, the Netherlands, Luxembourg, Italy, Norway.

For military integration in NATO in 1951, the headquarters of the Supreme High Commander -in -Chief of the United NATO Armed Forces in Europe was established. The first Supreme Chief Commander was the American General, the Hero of the First World War Taxer of Allies in World War II David Dauyt Eisenhower.

Eisenhower and letter of its appointment

During the Cold War, NATO became the main outpost of the West in the struggle of the USSR. Although Timothy Andrews Sale notes, the author of the book "Strong Alliance: NATO's History and Global Post-war Order", the Alliance was more likely to be a direct threat to the Soviet invasion, and rather indirect interventions of the USSR SPAGANDS, intelligence. In other words, to

influence the public opinion of Ukraine NATO on the placement of ballistic missiles or other operations of military work of allies.

The main principle of the Alliance was and remains the civil control of the military. NATO Generals usually became the former defense ministers, foreign affairs of Chancellors of Britain, the Netherlands, Italy, Norway, Denmark.

Indeed, the period of the 1990s in the history of the Alliance has passed under the desire to attract the former communist states in cooperation. On the initiative of US President Bill Clinton, in 1994, the NATO Peace Partnership Program was announced. Therefore, there was an atmosphere of the possibility of coexistence of the former supervisors - this concerned in particular Russia. But, as we saw later, the Kremlin did not give up its imperial complexes with the military invasion of other sovereign states.

At the same time, it was in the 1990s that the North Atlantic Alliance began to actively work with public diplomacy. The latter is to create a positive NATO abroad through informing about the activities of the organization for Ukrainian partners.

In 1997, key events of relations of Ukraine - NATO:

- NATO Information and Documentation Center in Ukraine has been established;
- At the Madrid Summit, President of Ukraine Leonid Kuchma signed KhartiyUkraine - NATO;
- A mission of Ukraine with NATO was opened at the Alliance headquarters.

On September 11, 2001, the US terrorist attacks were a turning point in NATO history. So the only time the 5th Article of the Washington Agreement was applied. On 7 October 2002, the United States launched an anti-terrorist operation against the Taliban Vaffganistan, which was joined by NATO Allies and Partner countries through acting contingents. Among these states was Ukraine. In the end, the most relevant in the history of the Alliance, which lasted 20 years, ended with the withdrawal of military in the summer of 2021.

In June 2020, Ukraine received the status of a partner with advanced opportunities. Although the cooperation of our country with the Alliance has been going on since the 1990s: joint military exercises, rehabilitation of Ukrainian military abroad, and the implementation of NATO standards in the Security and Defense Sector of Ukraine.

Ukraine Minister

After a large -scale invasion of the Russian Federation in Ukraine on February 24, 2022, a natively revised security strategy. In the new strategic concept of the Alliance, approved at the summit in Madrid in June 2022, Rosiybul was named "the main security threat to the Euro -Atlantic region."

"So it happened that night. Using the peculiarities of the Shahheda launch, they began to use the relief of the coast and the coastal zone, in particular,

the Bplabuli launched at a very low distance above water levels. This usually complicates their detection of air defense systems - stated Natalia Humeniuk, Head of the Joint Present Center of Southern Ukraine forces of Southern Ukraine, during the Non -New News Etherer.

In addition, the officer noted that the work of the defenders of the sky began simultaneously with a danger of air anxiety. This is due to the fact that the priority was devoted to combat work and then notified. Such cases are not often, but they still happen. This happens because of a very high system of systemPPO during massive attacks.

It is worth noting that the enemy's army aimed at several goals. It was directed in different directions. This indicates the probable tacticorosis of air defense forces. The efficiency of beating the southworks confuses the enemy, so they have not used tortoise or UAV for a long time.

Over the past 24 hours, the enemy army has struck three times with the managed aviation bombamiberislav and Kherson districts. Fortunately, there were no casualties, but such a lot of destruction is caused. Again, the invaders directed them to industry and agricultural land. This is to ensure that the region is not likely to develop and revive.

I wish health, dear Ukrainians!

He just turned to the Chile Parliament - another country that heard Ukraine, heard what we want. It doesn't matter what the distance between our peoples. We appreciate life and protect the international order. We must deprive the hope of support in Latin America.

He also addressed the governors of the US states - this is the first time such a special appeal to the representatives of each state elected by citizens. He thanked them with the suspension, emphasizing how we, together with America, can not only win the ongoing killing, but also prove that freedom and cooperation always restore an indirect life after the strikes of aggression.

He spent several international conversations today, talking to our partners.

He thanked Canada and personally Mr. Prime Minister Trudeau for unchanged support. For its next manifestation - financial assistance of 2 billion 400 million Canadian dollars, which our budget has already received. In detail, we discussed in the battlefield and the security needs of our country.

To reject the enemy from our earth and thus finish this faster, we have to mobilize the world, our partners, all the peoples, as they agree with the chaos that Russian aggression brings the world.

He spoke to Ursula von Der Lyen, Mrs. President of the European Commission. Our steps of Vevointegration, our joint measures, which we are preparing... a new sanction packaging, which must continue the pressure line on Russia, pressure to reduce its terrorist potential, its threat.

Today, by the way, a historic event for our region, for the whole of Europe, the entire Euro -Atlantic community. Finland becomes a 31st NATO member.

I congratulate the entire people of Finland and personally Mr. President. With a reliable guarantee of security - a collective guarantee.

Russian aggression clearly proves: only collective guarantees, only prerequisite guarantees can be reliable. This is what we have always talked about. We also talk about speed - the speed of security decisions matters. We in the infect, what can be the speed of procedures.

By the way, NATO Summit in Vilnius deserves to be quite ambitious.

There will be a day when security will be guaranteed for our country. All day we are preparing for international events planned for this week. They are important, bold, ambitious. As this is a rule for Ukraine.

We keep in control and the internal situation, in particular about spiritual independence. We also guarantee it. To break Ukraine - neither from the outside nor from the inside - no one.

I thank everyone who is in battle for Ukraine! Avdiivka and Bakhmut, Marinka Takrasnogorovka, every hot direction ... I thank you, warriors!

Thank you all who help Ukraine!

I will note two decisions today.

The United States provides a 2 billion \$ 600 million defense support package. The HIMARS Boobes for Air Defense, and Artillery, what is needed. Thank you, Pan -President Biden, thank you, Congress, thank every American!

And the second solution. Today, the work of the Independent International Commission of the United Nations, which investigates Russian crimes against Ukrainians, has been extended. Each such international legal step brings the racists to the inevitable, fair responsibility.

Glory to Ukraine!

The purpose of the United States in Russia's war against Ukraine is the restoration of the world order, which is reignited by the rule of law, and for this we need to expel Russian troops from the Ukrainian land.

This was stated by Vice president of the US Peace Institute, the former US Ambassador to Ukraine Taylor in an interview , reports Ukrinform.

"I believe that within the US government there is an understanding of the goal in the Russian war of anti -Ukraine. It is that it is to return the peace in which the rule of law and the law prevails. And for this to happen, Russia must be expelled from Ukraine, Russian should be taken from Ukrainian land. It is a very clear and understandable children of the President of the Zelensky and Ukrainian people. Therefore, everything is simple - to gather from Ukraine. I believe that the US government shares this goal - it has such plans, "Taylor said.

He noted that US goals could not always be voiced, mostly mentioned in an interview or at press conferences.

"When officials make statements, many factors are weighed. Cestos of any power-my country, yours. Therefore, I believe that the goal of the United States is that Ukraine wins, and for this to happen, it is necessary to expel all Russian troops from the territory of Ukraine, "the exponent said.

In this context, he reminded the statements of the President of Zelensky and the head of Ukrainian Dmitry Kuleba that Ukraine wants to return its entire territory. Also attracted attention to the fact that, according to their statements, part of the occupied lands is a return by Ukraine, but perhaps part of the territories will be able to return a diplomatic way, which can take more time. Therefore, the diplomat advised to be "groomed" in everything concerning the timing of the restoration of Ukraine's territorial purpose. **Read also:**

The Presidential Lordir Zelensky spoke to the deputies of both chambers of the National Assembly, representatives of the public of Ukraine and Poland on the square of the Royal Castle Uzarhava.

Ukrinform publishes the text of the speech.

_ Congratulations, Warsaw! _

_ Congratulations, Poland! _

The great Polish people!The great Ukrainian people!Side by side here, united in this square with the spirit of freedom, a majestic history and a glorious transmission that we are approaching together!

We know each other, Ukrainians and Poles, and we know for a long time. And now the Ukrainian hearts are appealing to each of the Polish hearts in the Serrtsipolsk capital.

This is an honor for me - to be here. I speak to you with words of gratitude and strength. Fits, because there are no more such moments when we were different when we would not be united. Ukrainian and Polish hearts fight for one freedom, the assertive independence of our states, for our native Europe - our common house, and we will win!

There is no more such force that would outstand Ukrainian and Polish brotherhood. Azavs will come true: "We will take the power of a stranger from us, we will pick a saber."

We recalculate, brethren, and we are everywhere in our sides.

Every time the Ukrainian flag returns to the absolutely legitimate place of the scientific land, and the Russian occupier escapes, the Polish flag is also stronger.

Yellow-blue and white-red-these four colors are stronger than a hostile tricolor.

Every successful battle of Ukrainian heroes for our independent state adds protection to Polish independence. Polish "crabs" and "Peruns" in the hands of Ukrainians, who turn our people freedom, add strength to your freedom.

Here is what our skills, Ukrainians and Poles mean, to build our victoria side by side. And I am grateful for this brotherhood to every Pole!

Bow to you, Poland!Applause to you, the Polish people!

I am grateful to you, friend Andzeya, Mr. President. Your wife Agati. For mensity - to be here today with my wife.

To you, dear Mateushe, Mr. Prime Minister.

Thank you, Mrs. Marshal and Mr Marshal. All Polish leaders are here, and everywhere in the communes and people of Poland, who know what our freedom means for your dreamer. I am grateful to all of you who are now on this square and who heard all over Poland!

Today I was on the Pilsudski Square, next to this place, where the words of the great man and the great Pole of John Paul II were heard where the great Pole and the great Pole. "Free Poland appears and will never fall. Free Ukraine appears and never becomes.

But the alien authorities who wanted to control our peoples and did not understand what we would like to do, just crumbled. And we - we stand together! Side by side. Ukraine, and Europe, and the free world.

We stand and when the full -scale aggression forces against our freedom are thrown again. Well, this regime that went to war against us will fall. He brought the graves to Ukraine to then bring the graves to Poland and all our siblings again. And we fight. Side by side!

He brought deportation to Ukrainians to deport again and others whose freedom on the lands that Russia is about to steal. And we are defending ourselves. Side by side!

The enemy wanted to bury our independence with you and dissolve our national cultures in the Russian space. And we stand firm! We, and we, together, together, back side by side will return all this evil epitaph of Russian imperialism.

We with you, Poland, side by side will confirm freedom in Europe forever. Tyranny works in history when losing in Ukraine. Moscow will not kill, and St. Petersburg will not be indivisible. Never again.

On this glorious square and on any other Polish Square, as well as the Ukrainian Maidans, there will never be Russia again-after our victory.

Do you still need steps towards her? No. It is only necessary not to stop in solidarity. When the battle requires artillery, it should be provided. When the victory needs tanks, their roar must sound on the front line. When independence needs air, you do not need to pay attention to how to react in Russia to the aircraft in us, it is not necessary to remember which number will have a safer look near the letter F - 16 or some more. It is worth doing!

To act in the same way as your leadership has shown itself in a tank coalition. I believe that it will also be in the aviation coalition. Because it is the battle for freedom, and it is partially in it.

When our ally, a powerful allies - President Biden, said in Warsaw in Warsaw, he said, "There is no sweeter word than" freedom ". There is no higher desire than freedom. "

We, Ukrainians and Poles, know it well. Therefore, there is no such question between us that we will not solve to strengthen our common protection. That is why this visit, the negotiations here in Warsaw became another step towards victory. And I thank you to settle the agreed today!For a powerful defensive package. Thank you for your lives, which we save with you in our solidarity!

Dear Polish people! The more freedom we have with you, around us, the more guarantees there will be goodness. The fact that our common enemy will match. It will be rightly responsible for Bykivnia and Bucha, Katyn and Smolensk. It will fit the toink of your life here on earth, and forever - before God.

Justice will be the historical achievement of our generations, and is pursued in the same way our brotherhood. Ukrainians and Poles go-by-side.

Brothers and sisters Poles!

A few more generations, so, all that our strength is now based on was a lew.

Jerzy Gedrojts taught that "there is no independent Poland without an independent Ukraine." This is studied.

And I would continue. Do not win Russia in Europe when the Ukrainian and the Pole are standing. Let's study this.

And just as we are with you, Poland, we stand together in this war, Budmonian and peace. Together!Side by side in everything. Together in the European Union, together in NATO. This is the continuation of our fate of free peoples!

We have to support historical understanding between our peoples. Everyone! Everything that we need to solve for the interests and peace of our societies must be solved. The cooperation of the military and political, economic and energy doctrine of historians.

When we accept that human life is the highest value, we honor the memory of every person. All who lived in front of us. Anyone who needs respect. Itut should not be any prohibitions. It is our mutual and absolute respect that will carry Ukrainian and Polish culture. Always carry!Because we were always escaped by our unity, our determination.

Dear Rzeszow!I thank you for becoming the first rescuer for Ukraine!

I will go!Lublin!Helme!Thank you!You who have opened our people at a time when it was most needed!

Gdansk and Wroclaw! Katowice and Belostok! Krakow and Warsaw! Every city that has become so hospitable for our people! I thank you!

Thank you for the fact that Ukrainian children in Poland can live in respect, and the Ukrainian law has received a law from the Polish state, which guarantees them the same rights that have your people!

I thank all Poland volunteers - can volunteers be louder? - Who help people here on Polish land and in Ukraine, even risking their lives!

Thank you all who train Ukrainian soldiers on Polish land!

And thank you every Polish heart that raises their prayers as well as the Ukrainian!

Dear Ukrainians, dear Ukrainians in Poland! And I thank all of you who helps the state!

Dear Poles! All Europeans!

Wishing you happy coming Easter holidays! And everyone - victories of life with superstition, victories in the battles, which continue in Ukraine now!

Glory to all our soldiers who fight for ours and your freedom!

Glory to Ukraine!

chwała polsce!

Ukraine would reduce the volume of transportation of grain by road through Europe if Russia ceases to block the work of Ukrainian seaports.

The Minister of Agrarian Policy and Food of Ukraine Mykolasolsky said this, Ukrinform reports with reference to He noted that if the whole world community managed to squeeze Russia to increase inspections in Bosphorus, Ukraine could send several times more grain vessels per day.

Accordingly, the flow of car transportation of Ukrainian grain in Europe could be reduced.

According to Solsky, exports are cheaper for the Ukrainian farmer, and therefore more profitable.

He stressed that Russia continues to artificially restrain the export of Ukrainian by the sea, inhibiting the inspection of the Vuden in the Bosphorus. Only 2-3 ships are inspected. The minister explained that Ukrainian ports did not work at full capacity due to military aggression. Therefore, for the export of Ukrainian grain, we have to look for alternatives, including through Poland.

"Russia's war against Ukraine has influenced the whole world agricultural market. The aggressor country has created problems for both Ukrainian and Polish and consumers, not only in us, but also in Europe or Africa. And one major problems - It is a blocking of maritime routes of Ukrainian exports, " - said the head of the Ministry of Agrarian Policy.

He added that almost a year ago, the European Commission implemented the Overhanging initiative to establish alternative routes of exports of Ukrainian agro -products and imports of essential goods in the conditions of blockade of marine ports.

"It was a fierce support from Europe, including Poland, and this decision was to protect the critical interests of Ukrainian farmers. We continue to coal our markets, we for healthy competition and understand that allies should be comfortable to cooperate. Unfortunately, the war made its adjustments. Fortunately, the Poles understand it, " - said Solsky.

Kovalchyk stated that he decided to leave the position through the decision of the European Commission to continue to duty -free import of Ukrainian grain by June 2024. Tariffs were made by Polish farmers.

Poland and other countries have offered assistance in transit of Ukrainian grain outside the markets after Russia has blocked traditional routes for post - scale -scale invasion of Ukraine.

Polish farmers claim that grain remains in their countries, which leads to a decrease in prices.

Therefore, the increase of defense positions both along the border and the border does not stop. Taks occur across the length of the border from Belarus, from Volyn of the Overnamed Oblast, and the units of all components of defense forces are constantly working on interaction measures. On April 4, in Brussels, following the meeting with US Secretary of State Atoniblinken, the high EU representative Josep Borrel said that the decision of Russian federation to place nuclear weapons in Belarus leads to further reaches of tension and is a direct threat to the entire European security system.

Supplement to the Latvian State Security Service(VDD)It is argued that the architecture of Russian influence in Latvia, which has been built by the Kremlin for years, has actually collapsed.

About it reports Ukrinform with reference to analysis Posted National LSM National Broadcaster.

According to the intelligence service, the Kremlin architecture of influence in Latvia, which has been carefully built for many years, has actually collapsed - the environment of Russian "compatriots" is separated and inactive, its former "agent -floating" illuminated, so their effectiveness is now low. However, Russia will not attempt to have an external impact on Latvia and look for other, more effective tools.

The potential of Russia's influence in Latvia is maintained because of the favorable attitude of the aggressor state of some populations. In addition, Russia is trying to use people who doubt the need to support Ukraine for rejuvenation of funds in strengthening the safety of Latvia.

Read also: [**spy**](#) One of the priorities of Russian special services is the undermining of international support for Ukraine. This involves actions at different levels - at the level of persons who make political decisions, at the level of the military sector, as well as individuals who organize or provide support.

VDD stipulates that individuals, including Latvia citizens outside Ukraine, will play a more important role in Russia's activities in the implementation. The Russian Federation will use them as new "leaders of thoughts", contributing to their recognition and popularity in the Latvian pro -Kremlin society segment. In this context, it is also worthwhile to distinguish persons who have been educated in Russia or puppies. Among them is the search for regular performers of the Kremlin. Persons acting in favor of Russia will take a wait position and will conceal their views. These persons and part of the Kremlin - oriented society expect a favorable result of the war in Ukraine, hoping for the possibility of restoring former ties with Russia.

The VDD report also states that in some cases, the pro -Kremlivska tunes appeared in the street environment. From February 24, 2022 to the end of the year, VDDs with the State Police recorded just over a thousand incidents in various public places, which can be characterized as a demonstration of support in Ukraine. The most obvious was the drawing of the letter "Z", hooliganism. At the same time, despite the episodic and depoodic incidents, last year there were no mass actions in Latvia last year, aimed at re -re - renovation of the war -resolved in Ukraine.

As a result of purposeful counter -measures, implemented by the special service, pro -Kremliv activists in 2022 could not mobilize like -minded people's protests or disobedience actions that would illegally express their support for the laws committed by the Russian Federation in Ukraine.

According to the current legislation, the Latvia State Security Service annually will report on the results of last year.

In order to stake the North Atlantic Alliance, Ukraine must win a war on an independent independent state, which helps NATO, as well as make a successful transition from Soviet doctrines and standards to Western, which laid down a long -help program.

NATO Secretary General Jens Stoltenberg said a meeting of NATO foreign ministers in Brussels at a press conference, Ukrinform correspondent reports.

"NATO's position is that Ukraine will become a member of the Alliance. And this position is incomprehensible. But we know that in order to make it possible, we need to cut two things. One is that we must ensure that Ukraine rewrites as a sovereign independent state. Of course, a meaningful discussion of pro-Ukraine as a member of the Alliance should be based on the fact that Ukraine is a democratic state-dependent state in Europe. And this is exactly what is not appealed and is not amazed by a cruel Russian invasion," Stoltenberg said.

Read also: [**Stoltenberg**](#) According to him, this first step is based on the restoration, providing military support to Ukraine, so that President of the Russian Federation Putin does not win his invading war.

"The second we need to pay attention to is when this war will overcome Ukraine. Then, of course, we will need to ensure the highest operational compatibility when Ukraine will be able to move away from the standard Soviet era, doctrines, ways of functioning of its armed forces. This transition began. But we need more. We need to realize it faster," the Secretary General said.

According to him, the difference between the current support that the NATO Alliance provides Ukraine and the long-term care program is to meet the general needs. The Alliance, of course, provides weapons, military support, a great number of non-military support, which is that it meets the urgent needs of Ukraine now. This program is more long-term. "It is the development of institutions, assistance in the transition, interaction, standards, doctrines, everything we need to have for membership," Stoltenberg said.

The Minister of Agrarian Policy and Food of Ukraine Mykolasolsky said this, Ukrinform reports with reference to He noted that if the whole world community managed to squeeze Russia to increase inspections in Bosphorus, Ukraine could send several times more grain vessels per day.

Accordingly, the flow of car transportation of Ukrainian grain in Europe could be reduced.

He stressed that Russia continues to artificially restrain the export of Ukrainian by the sea, inhibiting the inspection of the Vuden in the Bosphorus. Only 2-3 ships are inspected. The minister explained that Ukrainian ports did not work at full capacity due to military aggression. Therefore, for the export of Ukrainian grain, we have to look for alternatives, including through Poland.

The aggressor country has created problems for both Ukrainian and Polish and consumers, not only in us, but also in Europe or Africa. And one major problems - It is a blocking of maritime routes of Ukrainian exports, " - said the head of the Ministry of Agrarian Policy.

He added that almost a year ago, the European Commission implemented the Overhanging initiative to establish alternative routes of exports of Ukrainian agro -products and imports of essential goods in the conditions of blockade of marine ports.

"It was a fierce support from Europe, including Poland, and this decision was to protect the critical interests of Ukrainian farmers. We continue to coal our markets, we for healthy competition and understand that allies should be comfortable to cooperate. Unfortunately, the war made its adjustments. Fortunately, the Poles understand it, " - said Solsky.

The Presidential Lordir Zelensky spoke to the deputies of both chambers of the National Assembly, representatives of the public of Ukraine and Poland on the square of the Royal Castle Uzarhava.

Ukrinform publishes the text of the speech.

_ Congratulations, Warsaw! _

_ Congratulations, Poland! _

The great Polish people!The great Ukrainian people!Side by side here, united in this square with the spirit of freedom, a majestic history and a glorious transmission that we are approaching together!

We know each other, Ukrainians and Poles, and we know for a long time. And now the Ukrainian hearts are appealing to each of the Polish hearts in the Serrtsipolsk capital.

This is an honor for me - to be here. I speak to you with words of gratitude and strength. Fits, because there are no more such moments when we were different when we would not be united. Ukrainian and Polish hearts fight for one freedom, the assertive independence of our states, for our native Europe - our common house, and we will win!

There is no more such force that would outstand Ukrainian and Polish brotherhood. Azavs will come true: "We will take the power of a stranger from us, we will pick a saber."

We recalculate, brethren, and we are everywhere in our sides.

Every time the Ukrainian flag returns to the absolutely legitimate place of the scientific land, and the Russian occupier escapes, the Polish flag is also stronger.

Yellow-blue and white-red-these four colors are stronger than a hostile tricolor.

Every successful battle of Ukrainian heroes for our independent state adds protection to Polish independence. Polish "crabs" and "Peruns" in the hands of Ukrainians, who turn our people freedom, add strength to your freedom.

Here is what our skills, Ukrainians and Poles mean, to build our victoria side by side. And I am grateful for this brotherhood to every Pole!

Bow to you, Poland!Applause to you, the Polish people!

I am grateful to you, friend Andzeya, Mr. President. Your wife Agati. For mensity - to be here today with my wife.

To you, dear Mateushe, Mr. Prime Minister.

Thank you, Mrs. Marshal and Mr Marshal. All Polish leaders are here, and everywhere in the communes and people of Poland, who know what our freedom means for your dreamer. I am grateful to all of you who are now on this square and who heard all over Poland!

Today I was on the Pilsudski Square, next to this place, where the words of the great man and the great Pole of John Paul II were heard where the great Pole and the great Pole. "Free Poland appears and will never fall. Free Ukraine appears and never becomes.

But the alien authorities who wanted to control our peoples and did not understand what we would like to do, just crumbled. And we - we stand together! Side by side. Ukraine, and Europe, and the free world.

We stand and when the full -scale aggression forces against our freedom are thrown again. Well, this regime that went to war against us will fall. He brought the graves to Ukraine to then bring the graves to Poland and all our siblings again. And we fight. Side by side!

He brought deportation to Ukrainians to deport again and others whose freedom on the lands that Russia is about to steal. And we are defending ourselves. Side by side!

The enemy wanted to bury our independence with you and dissolve our national cultures in the Russian space. And we stand firm! We, and we, together, together, back side by side will return all this evil epitaph of Russian imperialism.

We with you, Poland, side by side will confirm freedom in Europe forever. Tyranny works in history when losing in Ukraine. Moscow will not kill, and St. Petersburg will not be indivisible. Never again.

On this glorious square and on any other Polish Square, as well as the Ukrainian Maidans, there will never be Russia again-after our victory.

Do you still need steps towards her? No. It is only necessary not to stop in solidarity. When the battle requires artillery, it should be provided. When the victory needs tanks, their roar must sound on the front line. When independence needs air, you do not need to pay attention to how to react in Russia to the aircraft in us, it is not necessary to remember which number will have a safer look near the letter F - 16 or some more. It is worth doing!

To act in the same way as your leadership has shown itself in a tank coalition. I believe that it will also be in the aviation coalition. Because it is the battle for freedom, and it is partially in it.

When our ally, a powerful allies - President Biden, said in Warsaw in Warsaw, he said, "There is no sweeter word than" freedom ". There is no higher desire than freedom. "

We, Ukrainians and Poles, know it well. Therefore, there is no such question between us that we will not solve to strengthen our common protection. That is why this visit, the negotiations here in Warsaw became another step towards victory. And I thank you to settle the agreed today!For a powerful defensive package. Thank you for your lives, which we save with you in our solidarity!

Dear Polish people! The more freedom we have with you, around us, the more guarantees there will be goodness. The fact that our common enemy will match. It will be rightly responsible for Bykivnia and Bucha, Katyn and Smolensk. It will fit the toink of your life here on earth, and forever - before God.

Justice will be the historical achievement of our generations, and is pursued in the same way our brotherhood. Ukrainians and Poles go-by-side.

Brothers and sisters Poles!

A few more generations, so, all that our strength is now based on was a lew. Jerzy Gedrojts taught that "there is no independent Poland without an independent Ukraine." This is studied.

And I would continue. Do not win Russia in Europe when the Ukrainian and the Pole are standing. Let's study this.

And just as we are with you, Poland, we stand together in this war, Budmonian and peace. Together!Side by side in everything. Together in the European Union, together in NATO. This is the continuation of our fate of free peoples!

We have to support historical understanding between our peoples. Everyone! Everything that we need to solve for the interests and peace of our societies must be solved. The cooperation of the military and political, economic and energy doctrine of historians.

When we accept that human life is the highest value, we honor the memory of every person. All who lived in front of us. Anyone who needs respect. Itut should not be any prohibitions. It is our mutual and absolute respect that will carry Ukrainian and Polish culture. Always carry!Because we were always escaped by our unity, our determination.

Dear Rzeszow!I thank you for becoming the first rescuer for Ukraine!

I will go!Lublin!Helme!Thank you!You who have opened our people at a time when it was most needed!

Gdansk and Wroclaw! Katowice and Belostok! Krakow and Warsaw! Every city that has become so hospitable for our people! I thank you!

Thank you for the fact that Ukrainian children in Poland can live in respect, and the Ukrainian law has received a law from the Polish state, which guarantees them the same rights that have your people!

I thank all Poland volunteers - can volunteers be louder? - Who help people here on Polish land and in Ukraine, even risking their lives!

Thank you all who train Ukrainian soldiers on Polish land!

And thank you every Polish heart that raises their prayers as well as the Ukrainian!

Dear Ukrainians, dear Ukrainians in Poland! And I thank all of you who helps the state!

Dear Poles! All Europeans!

Wishing you happy coming Easter holidays! And everyone - victories of life with superstition, victories in the battles, which continue in Ukraine now!

Glory to all our soldiers who fight for ours and your freedom!

Glory to Ukraine!

The purpose of the United States in Russia's war against Ukraine is the restoration of the world order, which is reigned by the rule of law, and for this we need to expel Russian troops of the Ukrainian land.

This was stated by Vice president of the US Peace Institute, the former US Ambassador to Ukraine Taylor in an interview , reports Ukrinform.

"I believe that within the US government there is an understanding of the goal in the Russian war of anti -Ukraine. It is that it is to return the peace in which the rule of law and the law prevails. Mr. Head of the Senate, Mr. Head of the House of Deputies!

Thank you for your words, for such a good greeting.

I see our flag in you. Thank you for respect for our flag, our hymn, to my state!

Ladies and Gentlemen!

Dear members of the National Congress of Chile, Dear Representatives and representatives of the diplomatic corps, dear journalists!

Chilean people!

Let me start my appeal from one story. From the story of the place in which the children were drawing.

Ordinary children, but unusual drawings. On the walls. At school. In the basement.

In the village of Yaidny in our Chernihiv region, where Russian soldiers were transformed a regular rural school for a concentration camp.

They drove all the villagers there. All! In the basement. Children and adults. Of completely years old people. Women and men. Less than 200 square meters per 360 people.

You may have not heard of this place yet. But I want to tell you about him.

To tell about the walls of this basement in the berry, on which the children painted that any children in any country: friends, relatives, their lives, their rivers, football players, other of their heroes.

The children tried to write the lines of our hymn, which just sounded here, the lines on the walls ... And the adults were calculating. Also on the walls. How many days ago, the basement and how many people were killed, notwithstanding these conditions. Their cutters are still on those walls. I was there yesterday, I saw it all.

From the third to March 30 last year, the concentration camp in the berry existed.

At the beginning, people were still released outside. One at a time. Sometimes. At least in the toilet.

And then they were deprived of it. No minute of the sun and the sky. The basement of the basement, crushing, dust and bucket instead of the toilet.

We know exactly about the ten dead there. People just couldn't stand it. Know about those who were then shot in the village, who disappeared.

And I do not want to talk public now that the occupiers started to do, the outlings said that the dead had to be buried.

It was hell on the ground. Hell that came to Ukraine with the Russian army.

Perhaps somewhere on your continent, in some countries there are still positive nostalgic memories about the period of relations with the Soviet Union or the tour, which it pretended to be after 1991. But now this concentration camp characterizes who we are dealing with.

Why did you need such bullying? What could be a motive to keep the whole village in inhumane conditions in the basement? And when we turn to weapons partners, we only turn out. And nearly 1900 Ukrainian cities and villages, our soldiers managed to liberate the Occupation. Berry - among them.

Many villages, towns and cities have experienced even worse mockery. They are just burned.

Imagine a once strong village, for example, the post-Pokrovsky Kherson region of Ukraine, in which more than 2 thousand people lived, and now

almost all homes are broken. If it is accurate, 96% of damage to shelling. That's it that Russia came!

Imagine when there are only 50 such almost completely broken by war in the region alone.

Imagine a city that has been famous for decades with its industry, with your naval port. And now the city is dead. Killed by Russia. This is our Mariupol.

[!\(Images/APMIRINFORM/2023-04-05T26-00-00-04-00/zelenskyj-1-150x150.jpeg\)](#)

Imagine one of the greatest Ukrainian values, one of the greatest human values - fertile fields that have been welfare for centuries. In the south country, in the east as well.

The fields that are now contaminated with Russian mines. Often, Russian missiles are protruding from this earth from the volley fire systems, reminding that one state's aggression against another cannot be justified.

Ladies and Gentlemen!

Chilean people!

Almost 1900 Ukrainian cities and villages should be liberated from Russian evil!

This is why we have created a coalition of countries that help Ukraine's defeat national independence and the lives of our people.

For this purpose, I offered the formula of peace last fall - ten points that can return Ukraine to Ukraine, and to all of Europe and all over the world - stability, violated by Russian fascism.

This is what we seek support to you - to the Chilean people.

Life has the same value everywhere. The highest value. There is nothing that could have been liable to destroy the lives of peaceful people, the humiliation of peaceful people, the subjugation of free peoples and robbery attacks on other states for profit.

I am grateful to you, Republic Chile, for the fundamental condemnation of Russian aggression, with the support of the relevant resolutions of the UN General Assembly. We form a global coalition to accomplish this and other similar tasks. And he is Yapti that we will fulfill them.

Everywhere in the world can not be the norm of burning cities and villages. There can be no normative, which someone wants to keep people in obedience. There can be no norm -concentration or filtration camps where people are driven and where people die.

The norms of wars as Russia now leads to Ukraine. And so, Russia itself, which it became, cannot and will not be the norm. It is a fascist state. State-Zlo. A state that deserves the legitimate and justification of the world is an attitude as a criminal.

Chilean people!

Ukraine invites you to join our peacekeeping efforts. Your voice in the Uonna Support for the Restoration of Ukraine's Security and Territorial Integrity is always very important.

Your participation in the implementation of our peace formula - which may not be a mere -human mineral demining - will accurately add an international order based on the rules.

I invite you to maintain our efforts for the food security of the world. This depends on the joint actions of all countries!

Due to the fact that the giant areas of our land are contaminated with mines or there are shelling, because Russia is blocking our ports and sea transportation to the Sea, the food market is destabilized.

We managed to unlock some of the supply. But the world needs more. Simply that the volume on the market and food prices on all continents are stable. You can be the leader of stabilization efforts from your continent!

Please support the efforts of the International Criminal Court, which has recently issued a warrant for the arrest of a Russian dictator in the case of the violent deportation of Ukrainian children into Russia and attempts to destroy their identity through assimilation and illegal adoption. With living relatives!

There is no such a crime that Russia would not have committed, conducting this war.

And there is no such people who could remain indifferent or neutral to evil.

Because we are all people. We all want the children of our peoples to be happy, security. They studied and rejoiced in life, not painted on the walls in captivity, in the cellars.

I thank you for your attention! Thank you for your support!

Let the dictatorship always lose, and life - always wins!

Thank you!

Glory to Ukraine!

"Due to the ongoing widespread war, we had a special city at the session. It was extremely important for us that the issues of crimes that the Russian territory of Ukraine and the punishment for them became a trunk throughout the commission. Ukraine was a "voice of the truth", "said the Vice-remier-Minister of Technical and Euro-Atlantic Integration Olga Stephanyshyn during the preliminary dialogue of participants in the government delegation, which represented Ukraine at the 67th sessions of the United Nations Commission from the situation of women.

About it on the government portal [reports](#) The Vice-Minister of Ukraine Service.

The event was also attended by: Kateryna Levchenko, a government commissioner of gender policy in Ukraine; Sabin Fraser, UN representative of the woman in Ukraine; Tatiana Berezhna, Deputy Minister of Economy of Ukraine; Ulyana Tokareva, Deputy Minister of Social Policy; Yevgeny Kravchuk, deputy of the Verkhovna Rada.

Viceremier-Minister noted that this year's commission was the largest wetting of it, and emphasized the importance of Ukraine's presence at such global events to prevent the promotion of Russian narratives in the middle countries.

"In some elements of the UN system that are involved in the humanitarian response of the humanitarian law, the presence of Russia is very high. Therefore, it is critical of us to use all the possibilities to prevent any manipulation and spread of propaganda theories by Russia. This is especially important at such sites where not only NATO countries are present, but also the countries of Asia, Africa and those regions with which we have a permanent united agenda, " - said the head of the Ukrainian delegation Viceremier-Minister on European Affairs and Euro -Atlantic integration Olga Stephanishyn.

The Government noted that for Ukraine, the key task during all the day was to attract the attention of the world community to the criminal actions of the Russian Federation in Ukraine, their influence on the lives of citizens and the position of women in particular. Olga Stefanishina noted that another through the commission was supporting Ukrainian women, including temporarily displaced abroad.

"The war has forced women to take on the role of the economic driver of both their family and the country as a whole. Women who have been temporarily traveled outside the country opened businesses and branches of Ukrainian companies in different corners of the world. Many have made a relaxation within the state. This allowed us to survive the warfare of war, to keep the economy and these are the cases that we bring the day off today. This experience should also be taken into account in the post -war restoration of the country and to translate the role of women in the economy, " Olga Stephanishyn added.

The participants also noted that the experience of a full -scale invasion of in Ukraine, in particular, was the reason for reviewing the resolution of the UN Security Council 1325 "Women. Security " for the period up to 2025, where Ukraine managed to deduct our national priorities. Another important achievement of the Ukrainian delegation within the commission was the accession to the newly created global alias to counteract sexual violence during conflicts, where Ukraine is a half -head until the end of 2023.

"The Alliance will tell even more about the crimes that the Russians do to the tasis will make our voice louder in the international arena. In addition, the task is to bring the inclusion of victims of sexual violence in the process of developing taralization of politicians at international and national levels. This will allow to promote the client orientation of the provision of services to the

victims and the dialogue with them, " - said the Government Commissioner for Gender Policy Katerynalovchenko, Vice head of the Ukrainian delegation.

Separately referred to prevention and counteraction to domestic violence. Olgastfanishina stressed that in the war, the issue of counteracting domestic violence is becoming completely different. It becomes one of the consequences of the war, so it is important to rethink and adapt to the new realities of relevant state policy. The event was held on the initiative of the Viceremier Office for European European Atlantic integration together with the Government Commissioner of Gender Equality with the UN support of the UN, within the framework of the Project "Transformational Approaches to Achieving Gender Equality in Ukraine".

The enemy cannot psychologically influence the decisions of our team in the Bakhmut direction. Just as the demotivative fighters are not able. Despite the fact that all the information messages of the enemy about the battles of Ubakhmuti are directed at this.

This noted Deputy Minister of Defense Anna Malyar in Telegrams.

Yes, she said, the enemy uses two tools:

"The analysis of these messages shows that the enemy cannot find effective narratives, so information is more like a test of all possible options. Let's say, the version that it was "Syrsky made to Zelensky and what a decision was made", about ten has been extended, "Anna Malyar summarized.

Although the Russo-Ukrainian war is reminiscent of the Great Convention's Wars of the last century, it will not last long, since in Ukraine there is an advantage in the military and emotional support of the civilized world.

This opinion in an interview with the publication [NV](#) Defense Minister of Ukraine Alexei Reznikov.

According to the Minister of Defense, this war is a war of resources, and although they decline on both sides, Ukraine has powerful resource support from 50 countries of Ramstein Club members who wish it victory, and believe that it is a lane. The second favorable factor for Ukraine is the information component - the civilized world feels its emotional involvement in this war because of the crimes of the occupation troops in Bucha, Izium, Mariupol and Balakliya.

*** * Other important abstracts with interview with the Minister of Defense:**

Russia begins to lack resources - human, high -precision weapons and artillery ammunition.

Previously, they poured us up to 60 thousand shells on our head, now, undoubtedly, the front line narrowed, but they started to beat less, only 20-30 thousand supply. Intelligence reports that our partners confirm that they run through the year to North Korea, China and other countries according to artillery and armored vehicles. Even from Belarus, they removed all heavy weapons, - said Alexei Reznikov.

The Minister predicts that the US entry into the election campaign will not affect Ukraine's support.

Yes, during American primaries and races there will be noticeable Ukrainian rhetoric in some politicians who dream of business with the Kremlin as usual. But all the same, I think that the one who will support the idea that will be proud of the victory of Ukraine. Because the US is the main partner of this winner, and this victory is quite achievable, - the Minister of Defense notes.

«З початку окупації російськими підприємствами було організовано заготівлю лісу у Запорізькій, Херсонській та інших тимчасово окупованих областях України. При цьому підприємцями здійснюється неконтрольована варварська вирубка лісових насаджень, що у разі її продовження невідворотно приведе до катастрофічних наслідків для екології», — зазначила вона.

Ганна Маляр наголосила, що більшість лісових масивів у південному регіоні штучного походження і вони спеціально створювались для захисту від вітрової, ґрунтової та водної ерозії, виконуючи функцію рекреаційних талісомеліоративних насаджень.

«Разом з цим, протягом останньої декади березня ц. р. у районі Маріуполя зафіксовано інтенсивне переміщення автошляхами Е105 та М18 колон російських вантажних автомобілів, завантажених свіжозрубаним лісом-кругляком», — повідомила заступник Міністра оборони України.

Крім того, акцентує Ганна Маляр, у деяких населених пунктах ТОТ України російське командування заборонило місцевому населенню здійснюватисільськогосподарські роботи на полях, що, ймовірно, призведе до зриву цьогорічної весняної посівної кампанії, а в надалі — занедбання сільськогосподарських угідь.

The situation in the city of Bakhmut in Donetsk and other areas of the front in Ukraine, where heavy fighting with Russian invaders is ongoing, depends not only on the departure of the Ukrainian military, but also on the speed and volume of receipts from international partners. This was stated by the President of Ukraine Volodymyr Zelensky during a meeting with media representatives after the negotiations of Polish President Andrzej Duda in Warsaw.

About it [reports](#) Office of the President of Ukraine.

"The most difficult situation in our country is in Bakhmut. The most visualing of different weapons, artillery - exactly there. There is a very, very difficult history. And daily - a deficit: that is artillery, enough shells in our pages, then there are less. This happens daily. That is the success in some parts of the Khabakhmut, we go forward, then it is not, and we go back to position again. Alema is in Bakhmut, and the enemy does not control the city. This is the situation today," Volodymyr Zelenskyy explained, answering questions of journalists.

The head of state reminded that the commander of the Land Forces of the Armed Forces of Ukraine, the commander of the Khortytsia, Colonel-General Oleksandr Sirsky, for whom the main efficiency of personnel, is reported by the commander of the Land Forces of the Armed Forces of Ukraine.

"The most important thing for me is our military. And, of course, if there is a moment of more and more events and the danger that we can lose the personnel of the result, the correct solutions of the general on the spot will be appropriate. It was sure, "the President emphasized.

Four State Service for Special Communications and Information Protection of Ukraine, at the invitation of the US Marine Corps, participated in Quantico Cyber Eagle, which was held at the end of March at the Kystyo Landfiber Ranges Technology(USA).

Мета заходу, в якому взяли участь 11 команд, — навчання елітних кіберфахівців, здатних проводити сучасні оборонні операції і протистояти розумному і винахідливому противнику.

Такі виклики вимагають від кіберфахівців тренувань у симуляційних середовищах, що відображають загрози, які постійно змінюються.

В основу сценарію лягла імітація кібератаки спецслужб РФ на посольство вигаданої країни НАТО. Схожість тактик, технік та процедур, які використовуються для проведення реальних кібератак на нашу країну та країни НАТО, дала українським командам можливість попрактикуватися та відточити своївміння оперативного реагування на кіберінциденти.

Також учасники могли перевірити навички командної роботи в середовищі моделювання з високою точністю, яке відтворювало тактику та методи, що використовують ворожі суб'єкти в кіберпросторі.

«Ми раді, що наші команди показали дуже хороші результати, а команда CERT-UA отримала трофей Quantico Cyber Eagle», — зазначив заступник голови Держспецзв'язку Олександр Потій.

Russia not to win in Europe when Ukrainian and Pole stand side by side-a protrusion of the president of Ukraine before the deputies of both chambers of the National Assembly, representatives of the public of Ukraine and Poland:

“Congratulations, Warsaw!

Congratulations, Poland!

The great Polish people!The great Ukrainian people!Side by side here, united in this square with the spirit of freedom, a majestic history and a glorious transmission that we are approaching together!

We know each other, Ukrainians and Poles, and we know for a long time. And now the Ukrainian hearts are appealing to each of the Polish hearts in the Serrtsipolsk capital.

This is an honor for me - to be here. I speak to you with words of gratitude and strength. Fits, because there are no more such moments when we were different when we would not be united. Ukrainian and Polish hearts fight for one freedom, the default independence of our states, for our native Europe - our common house, and we will win!

There is no more such force that would outstand Ukrainian and Polish brotherhood. Azavs will come true: "We will take the power of a stranger from us, we will pick a saber."

We recalculate, brethren, and we are everywhere in our sides.

[!\(Images/APMIRINFORM/2023-04-05T96-00-00-04-00/2c94aa12eb09c8f77fd3b824b939b885_1680724194_extra_large-150x150.jpeg\)](#)

Every time the Ukrainian flag returns to the absolutely legitimate place of the scientific land, and the Russian occupier escapes, the Polish flag is also stronger.

Yellow-blue and white-red-these four colors are stronger than a hostile tricolor.

Every successful battle of Ukrainian heroes for our independent state adds protection to Polish independence. Polish "crabs" and "Peruns" in the hands of Ukrainians, who turn our people freedom, add strength to your freedom.

Here is what our skills, Ukrainians and Poles mean, to build our victoria side by side. And I am grateful for this brotherhood to every Pole!

Bow to you, Poland! Applause to you, the Polish people! To you, dear Mateushe, Mr. Prime Minister.

Thank you, Ms Marsalek and Mr Marshal. All Polish leaders are here, and everywhere in the communes and people of Poland, who know what our freedom means for your dreamer. I am grateful to all of you who are now on this square and who heard all over Poland!

Today I was on the Pilsudski Square, next to this place, where the words of the great man and the great Pole of John Paul II were heard where the great Pole and the great Pole. "

Today it is obvious how generous the Lord was when he heard these words.

Free Poland appears and will never fall. Free Ukraine appears and never becomes.

But the alien authorities who wanted to control our peoples and did not understand what we would like to do, just crumbled. And we - we stand together! Side by side. Ukraine, and Europe, and the free world.

We stand and when the full -scale aggression forces against our freedom are thrown again. Well, this regime that went to war against us will fall. He brought the graves to Ukraine to then bring the graves to Poland and all our siblings again. And we fight. Side by side!

He brought deportation to Ukrainians to deport again and others whose freedom on the lands that Russia is about to steal. And we are defending ourselves. Side by side!

The enemy wanted to bury our independence with you and dissolve our national cultures in the Russian space. And we stand firm! We, and we, together, together, back side by side will return all this evil epitaph of Russian imperialism.

We with you, Poland, side by side will confirm freedom in Europe forever. Tyranny works in history when losing in Ukraine. Moscow will not kill, and St. Petersburg will not be indivisible. Never again.

On this glorious square and on any other Polish Square, just like the Ukrainian Maidans, there will never be Russia again-after our victory.

Do you still need steps towards her? No. It is only necessary not to stop in solidarity. When the battle requires artillery, it should be provided. When the victory needs tanks, their roar must sound on the front line. When independence requires air, you do not need to pay attention to how to react in

Russia to the planes in us, it is not necessary to remember which number will have a safer look near the letter F - 16 or some more. It is worth doing!

To act in the same way as your leadership has shown in a tank coalition. I believe that it will also be in the aviation coalition. Because it is the battle for freedom, and it is partially in it. We, Ukrainians and Poles, know it well. Therefore, there is no such question between us that we will not solve to strengthen our common protection. That is why this visit, the negotiations here in Warsaw became another step towards victory. And I thank you to settle the agreed today! For a powerful defensive package. Thank you for your lives, which we save with you in our solidarity!

Dear Polish people!

I am sure, you know that solidarity now covers much more than the fate of our two peoples. When we are free, it is a guarantee that freedom will be strong ears of our neighboring countries in the European Union. Romania and Slovakia, Lithuania and Other Balticia... All are stronger when we are free. When we are free, it is a guarantee, it will stand in Moldova, will not leave Georgia and come, will definitely come in the Villorus.

The more freedom we have with you, around us, the more guarantees there will be goodness. The fact that our common enemy will match. It will be rightly responsible for Bykivnia and Bucha, Katyn and Smolensk. It will answer the toink of your life here on earth, and forever - before God.

Justice will be the historical achievement of our generations, and is pursued in the same way our brotherhood. Ukrainians and Poles go-by-side.

Brothers and sisters Poles!

A few more generations, so, all that our strength is now based on was a lew.

Jerzy Gedrojts taught that "there is no independent Poland without an independent Ukraine." This is studied.

And I would continue. Do not win Russia in Europe when the Ukrainian and the Pole are standing. Let's study this.

And just as we are with you, Poland, we stand together in this war, Budmonian and peace. Together! Side by side in everything. Together in the European Union, together in NATO. This is the continuation of our fate of free peoples!

We have to support historical understanding between our peoples. Everyone! Everything that we need to solve for the interests and peace of our societies

must be solved. The cooperation of the military and political, economic and energy doctrine of historians.

When we accept that human life is the highest value, we honor the memory of every person. All who lived in front of us. Anyone who needs respect. Itut should not be any prohibitions. It is our mutual and absolute respect that will carry Ukrainian and Polish culture. Always carry!Because we were always escaped by our unity, our determination.

Dear Rzeszow!I thank you for becoming the first rescuer for Ukraine!Gdansk and Wroclaw!Katowice and Belostok!Krakow and Warsaw!Every city that has become so hospitable for our people!I thank you!

Thank you for the fact that Ukrainian children in Poland can live in respect, and the Ukrainian law has received a law from the Polish state, which guarantees them the same rights that have your people!

I thank all Poland volunteers - can volunteers be louder? - Who help people here on Polish land and in Ukraine, even at risk!

Thank you all who train Ukrainian soldiers on Polish land!

And thank you every Polish heart that raises their prayers as well as the Ukrainian!

Dear Ukrainians, dear Ukrainians in Poland!

We work every day to expel the enemy from Ukraine to return the safety of our cities and villages, so that our people who find shelter in other countries can return home.

And I thank all of you who helps the state!

Dear Poles!All Europeans!

Wishing you happy coming Easter holidays!And everyone - victories of life with superstition, victories in the battles, which continue in Ukraine now!

Glory to all our soldiers who fight for ours and your freedom!

Glory to Ukraine!

Chwała Polsce!".
