The State Bureau continues to systematically identify and terminate the activities of organized groups that establish illegal schemes of crossing the border of conscript age in martial law.

In cooperation with the National Police, the DBR workers exposed another group in Transcarpathia, which transported the military across the border. It included residents of Zakarpattya, former and existing law enforcement.

About it [reports](#) State Bureau Investigations.

The civilian members of the group were looking for those who wanted to get abroad illegally. The "customers" were taken to a stipulated place near the border, and they were further transferred to the trails bypassing the checkpoints by other accomplices.

Special costumes and nation devices were used to mask the persons. Law enforcement officers who were part of the group helped to avoid border

outfits. They had access to information about the border guards and the time of their guard.

Prices for "services" from one person ranged from \$ 5 to \$ 10 thousand. Sumozalezhal from the "length of the chain" involved in the equipment of the intermediaries.

On June 28, two participants of the organized group - father and son, were law enforcement, while attempting to illegally transfer to Hungary of three men of prison age. For organizing one of them the malefactors received \$ 8,000 on a bank card. The money of the denial of two more in the amount of \$ 11,000 had to come after a successful interpretation of the "customers" of the border.

Investigative actions were carried out at the place of residence and in vehicles. Almost \$ 40,000, more than 15 thousand, were seized during the searches. Euro, 5 cars, night vision devices, radio stations, camouflage, phones and bank cards.

Two detainees have already been informed of suspicion of illegally crossing the persons of the state border of Ukraine(Part 3 of Art. 332 of the Criminal Code of Ukraine).

Санкція статті передбачає покарання у вигляді позбавлення волі на строк до 9 років

Готуються підозри й іншим учасникам злочинної групи.

Процесуальне керівництво здійснює Закарпатська спеціалізована прокуратура усфері оборони Західного регіону.

Russia has completely stopped the registration of the new fleet from June 26, which testifies to the pro -the same to disrupt food supply to the world markets.

About it [reports](#) Ministry of Community Development, Territories and Infrastructure of Ukraine.

29 ships that have to export 1.4 million tons of food mainly for the 5 countries of Asia and Africa, including China, Egypt, Bangladesh, Turkey, blocked by Russia in Turkey's territorial waters.

In June, only 2 million tons were exported from Ukrainian ports. Another 1 million tons of food will either load or have already been partially loaded on 13 ships - the last registered in the initiative. If you do not restore the registration, the grain agreement will be completely stopped.

In 11 months, 45 countries received 32.5 million tons of food. An additional 25 million tons of tonnes did not receive the world due to sabotage. But even with these indicators, according to the UN, it was possible to reduce the world prices for food by 22%. This is a direct evidence that the grain agreement is needed by the world.

We support a statement of the Joint Coordination Center that all parties should be adequately accessed by vessels for food export, because it is a food danger to the entire world market. Only joint guns is able to stop Russia's food.

We urge partners under the agreement and all countries of the civilized world to defend the right to food. Ukraine, for its part, will also defend the right of a prominent trade navigation, which is recorded in international conventions.

The Zagreb took a two-day training for Ukrainian investigators and prosecutors. General Andrey Kostin thanked the Minister of Justice and the Prime Minister of Ukraine for this opportunity.

Knowledge and practices of the Croatian side are extremely relevant to us because of historical circumstances and, unfortunately, the specifics of the crimes that have been committed. We are trying to the ACA group for making this study trip possible.

Croatia has considerable experience in the field of investigation and judicial prosecution. Therefore, this training is, first and foremost, a practical workshop. The focus is practical issues: collecting and preserving evidence, specializing units, investigating the crimes of sexual violence related to conflict, prosecuting command, examination, electronic documentation, as well as the experience Andriy Kostin.

Participants - 30 representatives of Ukrainian criminal justice institutions: investigators of the SBU and National Police and prosecutors specializing in military races; Prosecutors of the juvenile direction, the ecological prosecutor's office, the coordination center of support of victims and witnesses.

Last December, the Prosecutor General's Office has already participated in a similar educational visit dedicated to a model of support of victims and witnesses focused on the needs of the victims. This knowledge helped in the development of the Concept of the Victims and Witness Supporting Center, which has already started their work.

Prosecutors visited the city of Vukovar, which became a symbol of Croatia's struggle in the 1990s. At one time, this city was so self-focus on the attention of the world community as now Ukrainian Bucha, Irpin Chimariupol. The experience and methods of investigation of horrific war crimes committed in Croatia are invaluable for the search and punishment of the perpetrators, which has been solved by the Russian Federation in Ukraine.

Vadim Kabanchuk, the deputy commander of the Belarusian Regiment of Kalinovsky, believes that after the placement of about 8,000 "Wagnerivtsi" in Belarus, there could be a formed group to invade Ukraine through the accession to Ukraine.

Kabanchuk expressed this opinion at a press conference on "Situation in Belarus: Military and Political Challenges", Ukrinform correspondent reports.

He noted that there is always a threat to Ukraine by Belarus, and they always plan their actions based on the worst scenario.

"The worst scenario for Ukraine was in February 2022, when the columns of Novostomel and Kiev were going. This can be repeated if the grouping group is created. When "Wagnerivtsi" will be concentrated there (In Belarus. - Ed.) In the amount they call - about 8,000 people, they can be added to them several tens of thousands of military Russian army, 10,000 people from the Belarusian army - and the track of a group for invasion of Ukraine. And this is a permanent threat, "Kabanchuk said.

He also noted that for some reason, the potential threat of nuclear weapons, which Russia plans to place in Belarus, is not discussed in Ukraine.

In the case of the most horrifying scenario when a nuclear weapon is ordered, it will be written off on (self - proclaimed President of Belarus. - Ed.) Lukashenko and PEC "Wagner" Prigogine. It is absolutely obvious to me, but for some reason in your media field they are almost not paid attention to it, " - stated the deputy commander of the Kastus Kalinowski Regiment.

As it was reported, the spokesman of the State Border Service Colonel Andriy Demchenko on July 1 was that Belarus could accommodate up to 8,000 Russian Wagner PECs in his territory. According to him, in the territory of Belarus the offensive groups of Russia is not observed, the forces of defense are conscious of the additional potential threat and are in constant combat readiness.

_ I wish health, dear Ukrainians and Ukrainians! _

First of all, I congratulate our anti -aircraft missile warriors of Ukrainian Air Force, they celebrate their day today.

I thank you for every goal killed, warriors!More than three thousand such targets have already been: more than 180 aircraft, more than 130 helicopters, almost 40 ballistic and infant winged Russian missiles, more than 1600 drones of different types ... All - thousands and thousands of life saved, hundreds of objects of critical infrastructure that you have preserved.

During this war, eight anti -aircraft missile brigades were honored with "Message and Courage". More than 1100 joint-stock soldiers received state awards, and eight of them were awarded the highest title-Hero of Ukraine. This is Colonel Sergeyaremenko, Lieutenant Colonel Volodymyr Vesnin, Andriy Kruglov, Sergey Porezets, Artem Sharkov, Dmitry Shumakov, Major Yaroslav Melnyk and Senior Lieutenant Artemsarchuk - he was posthumous to him. By the way, he spoke with Mr. Chancellor Scholtz today. Germany was very powerful to Ukraine with air defense. The brilliant German systems "Iris-T" have shown well in protecting our sky. We have the American "Petriots" and are very effective in Germany. Ukraine is grateful for them, as well as for all other vital help!

In today's conversation with Mr. Chancellor, we focused, of course, on further cooperation, as well as on strategic issues in the protection of our Europe -

Europe, which can only be peaceful when peace will be guaranteed for it with complete security. There may be no security deficit in Europe that will provoke Russian tyranny and aggression. Russia will try to bite one or another piece of Europe only when it will see the other security uncertainty. When everything is defined and obvious, Russian-sized does not dare to break security.

Obviously, it is possible to protect Europe from any aggression only together with Zauzina and only with Ukraine in NATO. That is why there should be a safety certainty about our future in the Alliance. Then Russia will be able to refocus on its own statehood-to finally do themselves, not any expansions.

We are very actively preparing for the summit, and we expect from our partners exactly the most visibility that this historical moment requires.

And necessarily - our active actions. Advanced.

Heroic 35th and 36th separate brigades of the Marines-thank you, warriors! The famous 55th separate artillery brigade "Zaporizhzhya Sich"-thank you, warriors!128 Separate Brigade of Territorial Defense-Thank you!

It is especially worth noting today the junior lieutenant Alexander Pavlov, commander of the Marine infantry platoon of the 36th Brigade of Marines. His confident trick actions, skillful management in battle give good results to the state. Thank you!

The crew of the T-80 tank under the command of the junior sergeant Andrei Marchuk-thankmed and courage!This is the 36th brigade of the Marines.

And from the 35th brigade I will note today the commander of the tank, the junior sergeant Artmamatobrazka-thank you for the true Ukrainian courage and skill in the possession of the settlement Makarivka. Thank you, Artem!

Senior soldier Eugene Poddubny, sapper of the 47th mechanized brigade. It operates on a very hot direction and performs its tasks very effectively. Thank you, Eugene!The Mariinsky Direction ... Artillery Division under the command of Lieutenant Lukjanova does not give the occupiers a single minute of rest. Your combatants are really significant!Thank you!

Thank you all who are in battle now, at combat posts and positions!Thank you everyone who helps!

And one more.

The world today saw the Kremlin - unfortunately, by the hands of the current power of Georgia - kills a citizen of Ukraine Mikhail Saakashvili. Human life is

the highest value and cannot be allowed to destroy Michael. Ukraine has urged the power of Georgia to stop this demonstrative execution. Both we and the skipartners offered various rescue options of Michael. Today, I am the Minister of Foreign Affairs of Ukraine to summon Ambassador of Georgia to Ukraine, expressed in a protest and propose to leave Ukraine for the next 48 hours for consultation with my capital. Once again I urge the Georgian power to convey to Ukraine a citizen of Ukraine Mikhail Saakashvili for necessary treatment and care. And I urge our partners to turn, not to ignore the cavity and save this person. No authorities in Europe have the right to execute people, life is a basic European value.

_ Glory to Ukraine! _

Arms of Ukraine in a month can halve the artillery potential.

He told about it [Ukrainian radio](#) Military expert Alexeygetman, Ukrinform reports.

According to him, during the passing week, the situation on the front was significantly invariable. But this does not mean that the offensive of the Armed Forces has been suspended or does not have any successes.

"The Armed Forces of the Armed Forces are enemy rear, destroying up to 30 enemy artillery per day. With such a rate per month of the Armed Forces can reduce the possibility of an enemy in artillery per month. Not from the point of view of the number of scales, but with respect to the number of artisms," the hetman said.

Read also: [defense forces with battles moving on the southern flank of the mite - painter](#) According to him, this is only the first phase of Ukrainian offensive actions.

"So far, the main forces we planned to apply in this operation are unburdened. We bleed the enemy rear, destroy its warehouses, infrastructure, various logistics routes, and destroy high -artillery systems in the counter -battery struggle - up to 30 units of their artillery. They use artillery systems, then with such temples, we can at least a few weeks or a month in half their opportunities in artillery. Not from the point of view of the number of shots, because they remain shells, but in relation to the number of artillery systems from which they can fire " , - the hetman explained.

However, the expert noted that the defensive structures of the invaders are more powerful than during the Second World War. In addition, the enemy has the ability to replace them with differential. **Read also:** [About 180 thousand Russian soldiers are concentrated in eastern Ukraine - Cleam](#) The enemy intensified the Swatov Front for distraction, adds a military expert. A similar situation in the Lyman and Kupyansk directions.

"Overseas and Ukrainian analysts suggest that the main directions of our complementary actions should be in the south, so that we have taken to the coast of the Azov Sea through Melitopol Tatyansk and were able to cut the temporary-heated Crimea and those enemy groups from Federation. That is, on the land, then, which they punched at the beginning of a full -scale invasion, "hetman emphasized.

At the same time, the analyst is convinced that the Russians have no strength and means for recent promotion.

"When we say that they are throwing certain reserves, we need to understand that in the middle of Russia, they have no second army in the rear, there are no reserves that they can attach to strengthen their defense or in some areas of the counter -offensive.97% Front. They are moving their troops along the front and in the hottest destinations. Hetman.

At the same time, the Armed Forces occupied a certain bridgehead on the left bank of the Dnieper and kept it.

Round table "Legal and Social Fundamentals of Formation of Motivation to Protect Motherland"

In Kiev there was a round table "Legal and social foundations of formation of motivation for protection of the Motherland". It was initiated by the public organization "Center for Legal and Social Protection of Citizens of Ukraine".

People's deputies of Ukraine, leading lawyers and experts on social protection of the Ministry of Defense of Ukraine and the Armed Forces, the Ministry of Internal Affairs, Ministry of Veterans, teachers of the Department of Legal Support of the Humanitarian Institute of the National University of Defense of Ukraine, participants of the public and representatives of the Russian-Ukrainian-Ukrainian people were invited to participate in the roundtable.

The participants of the discussion discussed a lot of problematic issues regarding the implementation of Ukraine, which came to the surface in connection with the introduction of martial law.

In particular, the state of enforcement of the provisions of the laws on the implementation of citizens involved in the country's armed protection was analyzed for a decent isment and reimbursement by the state.

The chairman of the Center for Legal and Social Protection of Citizens of Ukraine Sergey Lysenko

Head of NGO "Center for Legal and Social Protection of Citizens of Ukraine", Candidate Factory, Associate Professor, Retirement Colonel Sergey Lysenko reported the Armyinform correspondent that special attention was paid protection.

The imperative of the formation of positive motivation, the participants of the round table, in addition to patriotism and public respect, called decent financial support during the service and after retirement, which should fully compensate for the military service, the risk to life and health, to guarantee their health and health. psychological expenditures and ensure proper maintenance of families.

It was also about eliminating the dissatisfaction of servicemen with residential, medical and material support and efficiency of functioning of the adaptation of military personnel dismissed or resignation. In such conditions, it is necessary to review the legislative framework, first of all, its ability to attend directly in the field of social protection of servicemen and members of their families.

It is Ukrainian to determine how to conduct a counter -offensive.

This was announced at a meeting with journalists at the Brussels Headquarters of NATO by NATO Military Committee Admiral Rob Bauer, Correspondenttukinform reports.

“Counter -offensive is very difficult. People do not have to think it's just a walk. So we have to support Ukraine because it is a very difficult time for them. We are innocent to say that they should move faster, or that we are disappointed.

This kind of operations are extremely difficult, and the path they do is deserved support, "Bauer emphasized.

These troops have created kilometers, sometimes tens of kilometers, minefields and engineering barriers that are very difficult to overcome.

"We saw a similar in Normandy during World War II, it took 7-9 weeks to break through the defensive structures of the Germans. So it is not surprising that the contradiction does not go quickly ... The most important for Ukraine is that we will maintain as long as it will be necessary, "said NATO military committee chairman.

He noted that the war was unpredictable. Although NATO is not a party to the war, Member States provide assistance to Ukraine, including weapons, ammunition with a tailed training for military personnel.

"What we see now is the heroic struggle of Ukrainians. They know what they do, "Bauer said.

According to ashtastics, most hostile rocket strokes in Ukraine are at night because it complicates air defense.

About it at the Media Center Ukraine - Ukrinform was informed by a spokesman for the Armed Forces of the Armed Forces Yuri Ignat.

"According to statistics, most enemy rocket blows It is done at night because it complicates the work of air defense. For us to have quite a lot of problems, they are launched from different directions, different routes, which

complicates the work of the air defense and disperses the attention of our anti-aircraft and other specialists who are killed, "he added.

Other components of defense forces work: large -caliber machine guns, anti -aircraft guns, and MAZRK. The role of air defense is played by fighters.

However, Ignati noted that if it were F-16 and not MiG-29, the efficiency would have increased many times.

He also noted that there was a short -lived absence of shelling of the capital, probably, can be related to both the plans of the enemy and the fact that the reserves of rockets and drones of the recipients are not endless.

"There are days when more, there are days when less. If we have not died for three days, it does not mean that we need to relax, and they have changed, "he stressed.

German Ministry Boris Pistorius during a joint press conference on Monday by the Polish colleague, Marius Blackha, called Turkey to allow Sweden to NATO "soon".

As Ukrinform reports, it reports [CNN](#).

"Considering the war in Ukraine, the new situation we are experiencing, the situation of barrier makes us talking again about restraint and defense, and

Sweden soon becomes a member [NATO](#) For Turkey to stop resistance, "said Pistorius.

It is generally recognized that the armed forces of Sweden are compatible with other NATO countries. Sweden has a permanent representation in NATO and is considered a close partner of the Alliance, that is, the country's accession to the organization should be relatively simple.

But Turkey - the second largest armed forces, the Alliance's military force - blocks Sweden's entry for a number of reasons.

Among them is the statement that Sweden allows members of Kurdish terrorist groups to operate in the country, especially the militant workers' Party of Kurdistan(RPK).

Раніше цього року Швеція змінила закони про боротьбу з тероризмом, зробивши участь у цих групах злочином, але незрозуміло, чи переконає це Туреччину дозволити країні приєднатися до НАТО.

Indian oil refineries began to pay for some imported raw oil imports by Chinese yuan.

About it with reference to the famous issues of interlocutors in the Indian regime reports [Reuters](#) , reports Ukrinform.

After the Sanctions imposed by the Western states against Russia for its invasion of Moscow in Ukraine, it was forced to redirect exports of its energy to the east, and India became the largest buyer of maritime Russian [oil](#) .

However, the question of calculations that became problematic in the conditions of rigid anti -Russian restrictions.

The US dollar for a long time has been the main currency in the world oil market, including for the procurement of India, but now for the operations of Island suppliers, Yuan is increasingly important, the role of which has increased rapidly after the deprivation of Moscow's access to the dollar.

Read also: [**India increased Import Russian oil 10 times - media**](#) China is also calculated by yangs for most of the imports of irrigation energy, which, having set the lowest prices for its raw materials, ahead of Saudi Arabia and became the largest supplier of crude oil to China in the first time this year.

The interlocutors of the publication said that in June, the largest buyer of Russian Syroinraft in the country of Indian Oil became the first state oil refinery to pay for some parties of Russian oil in Yuan.

At least two of the three large private refineries of India are also paid for part of Russian imports in Yuan.

At the same time, none of India's private refineries - Reliance Industries, supported by Russia by Nayara Energy and HPCI Mittal Energy, were not answered to the Reuters about comments. Indian Oil also ignored the comment request.

The increase in payments in Yuan has pushed Beijing's efforts to internationalize the currency, since Chinese banks lobby for its use almost exclusively for Russian oil trade. The import of Russian crude oil in India has grown to record indicators in May, with Russian raw materials 40% of the total import of oil in India comparable to 16.5% earlier. Due to the cheaper oil from the Russian Federation, India decreases from Iraq and Saudi Arabia.

While Western sanctions against Moscow do not recognize, and the purchase of non -non -non -disruption may not be violated, Indian banks are cautious about such import payments.

In May, the State Bank of India, the main lender of the country and the key banker for the state oil refineries, rejected the request of Indian Oil on the payment of the cargo for the cargo delivered by "Rosneftia".

Read also: [**Oil Expensive on background Reduction production**](#) The cargo was loaded on the NS Bora tanker, which was in the order of Sun Sun Ship Management, connected with the largest Russian state -owned shipping company Sovcomflot, which is under Western critics.

In June, Indian Oil took advantage of the services of the private Indian Creditor Bank to regulate trade with "Rosneft" by paying the supplier of the Uhayani Yuan. Some private Indian oil refineries also use a similar mechanism for calculations for Russian oil.

It is expected that the scheme of payments with Russian suppliers in Yuan will continue to be used.

As reported by Ukrinform, the United States believes that the establishment of a margin for Russian oil in the international market works effectively and expects [India will continue to buy energy from Russians accordingly(<https://www.ukrinform.ua/rubric-economy/3725520-ssa-ocikuut-so-india-prodovzit-zakupati-rosijsku-naftu-za-obmezenimi-cinami.html>).

NATO Allies take on some risks, supplying weapons and ammunition to Ukraine, but this help is important not to allow Russia to win its aggressive against Ukraine and prevent the spread of war to other European European.

This was announced at a meeting with journalists at the Brussels Headquarters of NATO by NATO Military Committee Admiral Rob Bauer, Correspondentukinform reports.

"As the NATO Secretary General said, we have the risk of a special land space. If Ukraine loses this war, it will only be a greater instability. The Russians want to return(its influence - ed.)Back to the 1997 borders, which includes three Baltic countries, Poland, Slovakia, Hungary, Romania, Bulgaria. This is unacceptable to us. We need to realize that this war is not just about Ukraine. It is a lot more. Therefore, we must be able to support Ukraine for as long as it will be necessary, as we will be able to win Russia,"Bauer said.

Their replenishment is a responsibility, above all, NATO member states, which should evaluate their own and take into account the volume of order in industry.

At the same time, according to the head of the NATO Military Committee, it is not necessary to underestimate the Russian potential of Russia, which it is able to restore and cause a new attack.

"The Russian army, especially its land troops, is now 90% involved in the wars of Ukraine. I don't think they have enough strength for something else. But Mandican that the Russians will be able to recover, so all our plans are based on the state of the state of the Russian army, which he was before Russia's attack against Ukraine. The same, they(Russians)They will take lessons from this war as well. Therefore, we continue to consider Russia as a serious threat to marine and especially in the air components. They also have great space in space and nuclear forces, "the Admiral said.He added that Russia is currently cautious about NATO, as it is "very, very busy" in Ukraine. Therefore, it will take the Russian army, probably several years to restore their offensive potential. Sometimes the Alliance and Union countries should be used to determine the more detachment of defense capabilities and positioning of forces.

The norm for the display of English -language films with Ukrainian subtitles may lead to the closure of cinemas in the draft law on the use of English in Ukraine in Ukraine.

This opinion in [interview Ukrinform](#) The director, writer, musician, volunteer Ruslan Gorovy expressed.

"If you do it to the end, then the movie theaters will die. The Internet will not die, it will do what it generates income. The income is now generating Ukrainian dub, the Katsapsky does not listen, everyone is looking for Ukrainian -language sites and they will get on them, and they will earn even more. The industry will not die, but cinemas, which are now forced to rotate the movie for one viewer from time to time, will be drunk. It will come to the fact that Konotop will die in cinemas, then to the carbon, and then in Kiev," Gorovy said.

According to him, now a huge number of people look Ukrainian, about the flowering of this content.

Japan stands for softer rules for regulating the use of artificial intelligence (Thor) than the European Union, hoping that this technology will accelerate economic growth and make it a leader in the field of advanced chips.

According to Ukrinform, it reports [Reuters](#). "The goal is to develop an AI approach by the end of the year, which is likely to be closer to the US than the stringent rules that the EU upholds," said the source source.

It is not noted what the Japanese rules may differ from the rules. However, according to the source, the softer approach of Japan can overshadow the efforts aimed at setting their rules as a world standard.

This week, the European Commissar, Tierry Breton will visit Tokyo to promote an approach to developing the rules in the field of AI, as well as to deepen cooperation in industry.

Instead, Professor of the University of Tokyo and the head of the government council of the Strategia, Shi Yutaka Matsuo, called the EU rules "too strict."

The future cannot be imagined without Ukraine, Moldova and the Western Balkans, although it is likely that further EU enlargement will require institutional reforms in the European Union itself.

This was announced in Madrid today, during a press conference as a result of a visit to the College of the EU chairman of Spain, the President of the

European Commission Fon Der Lyen said the President of the European Commission, Ukrinform correspondent reports.

"Let's look forward for years, and let's try to imagine what Europe will look like. We can imagine that the European Union will be without Ukraine, without Moldova, the unknown Balkans, and that these parts of Europe will be influenced by Russia or China? It is impossible. So, the direction of our movement is clear. We now need to start what Europe will be when these countries will become part of the European Union, "said Ursula von Der Lyen.

She noted that Europeans have to find the answer to the principles: what will look like the decision -making process and use joint financing, how the directions of common policy will be formed, and what the power that its citizens want to see in Europe should be. All these changes will need time, so you need to consider them now.

In turn, the Prime Minister of the Presiding in the EU of Spain Pedro Sanchez noted that the issue of EU enlargement is currently on the table. The processes will have discussions on institutional reforms, joint resources, common -agricultural policy, regional development, the function of the European Commission and the number of places in the European Parliament. The Zaporizhzhya Atomic power plant was again connected to a single available backup line for the first time in four months, but the situation on the facility remains "extremely vulnerable" and unstable.

This was reported(<https://www.iaea.org/newscenter/pressreleases/update-169-iaea-director-general-statement-on-situation-in-ukraine-0>)From July 3, Ukrinform reports.

"Although the reconstruction of the spare transmission line is positive, the situation with the external power supply of the station remains very vulnerable, which emphasizes the unreliable situation with nuclear security and safety on the facility," Grossi said.

The connection of the nuclear power plant in Zaporozhye to a single line of transmission of 330 kV was interrupted on March 1 due to damage to another Berezidvipr. The connection was restored only on the evening of July 1.

"Reconnecting line 330kv is important because in the last few months [ZPES](#) It relied on a single main line of 750 kV for submission from external electricity required for cooling the reactor and other important functions of nuclear safety, "the statement said.

On July 1 and 2, Vedterdam took place a two-day Ukrainian cultural event "Fair.elements", which presented the works of Ukrainian Tanverland artists, brands of clothing, accessories, and design products for home.

It is reported by Ukrinform correspondent in the Hague.

At the food, visitors could be eaten by Ukrainian flavors, which were sold in the first hours after the discovery.

The atmosphere of the event was created by Ukrainian and Dutch DJs. Documentary films about Ukraine were also presented, which aroused many emotions.

Children were entertained by games and creative workshops teachers and

educators of the Ukrainian Children's School "Gerlo".

The main purpose of the event is to build a bridge between Ukrainian and Dutch cultures and create a common space for the arts and interaction of both communities.

At the end of the first day of the event, there was a panel discussion between the leaders of public thought on the topic of culture, national identity, social development and the influence of war.

"The war is not part of Ukrainian identity. But freedom is a value that is part of Ukrainian identity. History often demonstrates that if someone wants to maintain their freedom, then at some points it is forced to go for it. There are some nations that have a war in their essence, but it is not a pro -Ukraine and Ukrainians - we have never colonized anything or the Great Wars. For most of their history, Ukrainians wanted to live a passionate state, to lead their own way of life, to have their own values and their gravity in their own hands. The wars were because someone wanted to take it all away, "Oleksandr Tomashchuk, a member of the Board of the Board of the Ukrainian Vnierland Foundation, emphasized in the framework of the discussion.

Riga Martinsh, Statis, resigns because of differences in the coalition and the loss in the Riga Duma.

The question is currently resolved whether to reform the coalition in order to prevent the departure choice that could increase the representation of pro-Russian forces of consciousness, Ukrinform reports with reference to [Delfi](#).

He reported his decision in the morning publication on social networks, and later he gave an explanation at a press conference. The acting chairman of

the Riga Dumomy has been three of his deputies who represent partners in the coalition, the fatigue that they actually began to form another ruling coalition behind his back.

In turn, three deputies also held [press conference](#), on which the accusations of Statis were rejected and gave their version of current events.

The current coalition came to power in the fall of 2020 on the wave of criticism of Nilauskov, who headed the pro-Russian party "Saskana/Zlagoda" and was the mayor of Rigo in 2009-2019. Ruling in [Riga](#) Coalition-Block "For!"-"Progressive"(He is represented by Statis), "New unity"(Viter Vilnis Kirsis), National Association Block-"Lviv Association of Regions"(Vieseer Edwards Ratnex), "Riga code"(Linda Ozol)- recognized as a co -operation with the parties for which the pro -Russian electorate voted("Clause", "Honor to serve Riga", the Russian Union of Latvia).

Проте в партіях правлячої коаліції почали накопичуватися суперечності. Різкезагострення, котре призвело то нинішньої кризи, сталося в середині червняпісля усунення з посади в.о. директора Департаменту сполучення Ризької думиЯніса Вайводса, а також суперечок, хто має вести розслідування через можливізловживання – бюро виконавчого директора Риги чи спеціальна слідча комісія.

Станом на понеділок відомо, що Статіс йде з посади, але залишається депутатомРизької думи та говорить про готовність до ведення переговорів. Водночас "Новаєдність" заявила, що готова взяти на себе відповідальність за створення новоїкоаліції, але чекає на вибачення від партії "Прогресивні" за різкізвинувачення на адресу колег.

On Monday, the Ministry of Foreign Affairs of Georgia has called for a temporary -pronounced Alexander Shulga in connection with the introduction of agencies against the Georgian Airways Georgian Air carrier.

As Ukrinform reports, it reports [Georgia Online](#) .

"In the Ministry of Foreign Affairs [Georgia](#) There is a meeting with a temporary attorney for Ukraine's affairs by Oleksandr Shulga, " - the message reads.

It is noted that the call of the temporary attorney to the Foreign Ministry of Georgia is related to the implementation of sanctions on Georgian Airways by the Ukrainian side.

Commenting on the sanctions imposed by Ukraine against Georgian Airways, Georgia's Ministry of Economy and Sustainable Development, Levan Davitashvili called them "political order."

Read also: [Saakashvili made in court online and showed in what Vasnan](#) "It should be said unequivocally that it was a really politically conditioned decision, because we see that many airlines fly in Russia, and a response or decision by the Ukrainian authorities in other cases," Davitashvili said.

He also saw in this decision of the Ukrainian authorities the influence of the Georgian Opposition.

"It is sad to say that we have seen another extremely unfriendly decision by Vladys. Such facts were in our previous cases where several citizens of the community were under the so -called sanctions of the authorities of Ukraine," the official added.

Georgia Minister of Economy and Sustainable Development has believed that Kiev's interruption does not fit into those standards of relations between the countries that are of Ukraine and Ukraine.

From the beginning of the full -scale Russian invasion of Ukraine, Finnish companies have groomed at least EUR 1.5 billion.

This is stated in the editorial investigation [Yle](#) The MOT, based on customs statistics received from the Trade Register, reports.

In fact, investigators say, this amount is much higher, since only part of Finnish companies that trade with [Russia] are

sampled.(<https://www.ukrinform.ua/tag-rosia>). Also, the data is not comprehensive because of their information on import and export after 2022.

It is emphasized that some of these funds have come to the accounts of companies, whose owners are under sanctions and are part of the near circle of President of RFPutin.

According to the investigation, during the war the goods were delivered from Finland, for example, to large mines in Russia.

Many Finnish companies, such as Neste and Metsouttec, continued to trade with Russia after the start of the war in Ukraine. Many companies explain the renewal of business in Russia with the difficulties of selling their assets and the execution of contracts concluded before the war.

For example, Metso Outtec, which provides technologies and equipment for Girchnykhone, processing and metalworking industry, has announced a little more than a week after the Russian invasion of stopping Dorosis.

In practice, the company continued to trade in Russia at least several more times afterwards. It exported to Russia, in particular, the spare parts of the tadethali for the equipment. The clients of the company were numerous Russian enterprises owned by sub -pod -oligarchs. The largest client of the company was the Thaiset aluminum plant related to the oligarchmoleh Deripaska.

*!(<https://www.ukrinform.ua/rubric-economy/3730827-nazk-vneslo-kompaniu-unilever-do-spisku-miznarodnih-sponsoriv-vijni.html>)Metso Outtec also supplied products to the UDOKAN Copper enterprise - one of the world's largest copper producers, and Mikhailovskaya Iron -Driving, owned by Metaloinvest, which is one of the largest copper producers in Russia. Their largest owner is Alisher Usmanov, who, according to the list of EU sanctions, is closely linked to Putin.However, despite the fact that the oligarchs are under sanctions, trade with companies they possess can be legal, Yle writes. According to Pius Sarivaara, who is responsible for sanctions in Finland, trade with the company is allowed if the part of the Russian who has been sanctioned is up to 50%. If the company has several sub -owners, their shares in total should increase 50%.

It is possible to protect the europe from any aggression only with Ukraine and only together with NATO in Ukraine, so the security certainty of our state in the Alliance must be achieved.

President Volodymyr Zelenskyy said this in the evening [video message](#), reports Ukrinform.

"There may be no security deficit in Europe, which provoke member tyranny and aggression. Russia will try to bite one or another of Europe only when it sees one or another security uncertainty. When everything is determined and obviously, Russian tyranny does not dare to violate. It is obvious that it is possible to protect Europe from any aggression only together from Ukraine and only with Ukraine in **NATO**. That is why security certainty should be achieved in the Alliance," Zelensky said.

According to him, then Russia will have to refocus on its own statehood—"to do themselves, finally, not any expansions."

He also spoke about a telephone conversation with German Chancellor Olaf Scholtz, during which they "focused on further defensive cooperation, on strategic issues of protection of our Europe - Europe, which can be peaceful only then, if it will be guaranteed for it by full security."

Zelensky stressed that Germany helped Ukraine with air defense very powerfully.

"The brilliant German systems of Iris-T have shown themselves well in the protection of our nob. We have the American "Patriots" and are very efficient," the President said in Germany.

Arms of Ukraine in a month can halve the artillery potential.

He told about it [Ukrainian radio](#) Military expert Alexeygetman, Ukrinform reports.

According to him, during the passing week, the situation on the front was significantly invariable. But this does not mean that the offensive of the Armed Forces has been suspended or does not have any successes.

"The Armed Forces of the Armed Forces are enemy rear, destroying up to 30 enemy artillery per day. With such a rate per month of the Armed Forces can reduce the possibility of an enemy in artillery per month. Not from the point of view of the number of scales, but with respect to the number of artisms," the hetman said.

Read also: [defense forces with battles moving on the southern flank of the mite - painter](#) According to him, this is only the first phase of Ukrainian offensive actions.

"So far, the main forces we planned to apply in this operation are unburdened. We bleed the enemy rear, destroy its warehouses, infrastructure, various logistics routes, and destroy high -artillery systems in the counter -battery struggle - up to 30 units of their artillery. They use artillery systems, then with such temples, we can at least a few weeks or a month in half their opportunities in artillery. Not from the point of view of the number of shots, because they remain shells, but in relation to the number of artillery systems from which they can fire " , - the hetman explained.

However, the expert noted that the defensive structures of the invaders are more powerful than during the Second World War. In addition, the enemy has the ability to replace them with differential. **Read also:** [About 180 thousand Russian soldiers are concentrated in eastern Ukraine - Cleam](#) The enemy intensified the Swatov Front for distraction, adds a military expert. A similar situation in the Lyman and Kupyansk directions.

"Overseas and Ukrainian analysts suggest that the main directions of our complementary actions should be in the south, so that we have taken to the coast of the Azov Sea through Melitopol Tatyansk and were able to cut the temporary-heated Crimea and those enemy groups from Federation. That is, on the land, then, which they punched at the beginning of a full -scale invasion, "hetman emphasized.

At the same time, the analyst is convinced that the Russians have no strength and means for recent promotion.

"When we say that they are throwing certain reserves, we need to understand that in the middle of Russia, they have no second army in the rear, there are no reserves that they can attach to strengthen their defense or in some areas of the counter -offensive.97% Front. They are moving their troops along the front and in the hottest destinations. Hetman.

At the same time, the Armed Forces occupied a certain bridgehead on the left bank of the Dnieper and kept it.

_ I wish health, dear Ukrainians and Ukrainians! _

First of all, I congratulate our anti -aircraft missile warriors of Ukrainian Air Force, they celebrate their day today.

I thank you for every goal killed, warriors!More than three thousand such targets have already been: more than 180 aircraft, more than 130 helicopters, almost 40 ballistic and infant winged Russian missiles, more than 1600 drones of different types ... All - thousands and thousands of life saved, hundreds of objects of critical infrastructure that you have preserved.

During this war, eight anti -aircraft missile brigades were honored with "Message and Courage". More than 1100 joint-stock soldiers received state awards, and eight of them were awarded the highest title-Hero of Ukraine. This is Colonel Sergeyaremenko, Lieutenant Colonel Volodymyr Vesnin, Andriy Kruglov, Sergey Porezets, Artem Sharkov, Dmitry Shumakov, Major Yaroslav Melnyk and Senior Lieutenant Artemsarchuk - he was posthumous to him. By the way, he spoke with Mr. Chancellor Scholtz today. Germany was very powerful to Ukraine with air defense. The brilliant German systems "Iris-T" have shown well in protecting our sky. We have the American "Petriots" and are very effective in Germany. Ukraine is grateful for them, as well as for all other vital help!

In today's conversation with Mr. Chancellor, we focused, of course, on further cooperation, as well as on strategic issues in the protection of our Europe -

Europe, which can only be peaceful when peace will be guaranteed for it with complete security. There may be no security deficit in Europe that will provoke Russian tyranny and aggression. Russia will try to bite one or another piece of Europe only when it will see the other security uncertainty. When everything is defined and obvious, Russian-sized does not dare to break security.

Obviously, it is possible to protect Europe from any aggression only together with Zauzina and only with Ukraine in NATO. That is why there should be a safety certainty about our future in the Alliance. Then Russia will be able to refocus on its own statehood-to finally do themselves, not any expansions.

We are very actively preparing for the summit, and we expect from our partners exactly the most visibility that this historical moment requires.

And necessarily - our active actions. Advanced.

Heroic 35th and 36th separate brigades of the Marines-thank you, warriors! The famous 55th separate artillery brigade "Zaporizhzhya Sich"-thank you, warriors!128 Separate Brigade of Territorial Defense-Thank you!

It is especially worth noting today the junior lieutenant Alexander Pavlov, commander of the Marine infantry platoon of the 36th Brigade of Marines. His confident trick actions, skillful management in battle give good results to the state. Thank you!

The crew of the T-80 tank under the command of the junior sergeant Andrei Marchuk-thankmed and courage!This is the 36th brigade of the Marines.

And from the 35th brigade I will note today the commander of the tank, the junior sergeant Artmamatobrazka-thank you for the true Ukrainian courage and skill in the possession of the settlement Makarivka. Thank you, Artem!

Senior soldier Eugene Poddubny, sapper of the 47th mechanized brigade. It operates on a very hot direction and performs its tasks very effectively. Thank you, Eugene!The Mariinsky Direction ... Artillery Division under the command of Lieutenant Lukjanova does not give the occupiers a single minute of rest. Your combatants are really significant!Thank you!

Thank you all who are in battle now, at combat posts and positions!Thank you everyone who helps!

And one more.

The world today saw the Kremlin - unfortunately, by the hands of the current power of Georgia - kills a citizen of Ukraine Mikhail Saakashvili. Human life is

the highest value and cannot be allowed to destroy Michael. Ukraine has urged the power of Georgia to stop this demonstrative execution. Both we and the skipartners offered various rescue options of Michael. Today, I am the Minister of Foreign Affairs of Ukraine to summon Ambassador of Georgia to Ukraine, expressed in a protest and propose to leave Ukraine for the next 48 hours for consultation with my capital. Once again I urge the Georgian power to convey to Ukraine a citizen of Ukraine Mikhail Saakashvili for necessary treatment and care. And I urge our partners to turn, not to ignore the cavity and save this person. No authorities in Europe have the right to execute people, life is a basic European value.

_ Glory to Ukraine! _

It is possible to protect Europe from any aggression only with Ukraine and Ukraine with Ukraine in NATO, so security should be achieved by the definition of our country in the Alliance.

President Volodymyr Zelenskyy said this in the evening [video message](#), reports Ukrinform.

"There may be no security deficit in Europe, which provoke member tyranny and aggression. Russia will try to bite one or another of Europe only when it sees one or another security uncertainty. When everything is determined and obviously, Russian tyranny does not dare to violate. It is obvious that it is possible to protect Europe from any aggression only together from Ukraine and only with Ukraine in **NATO**. That is why security certainty should be achieved in the Alliance," Zelensky said.

According to him, then Russia will have to refocus on its own statehood—"to do themselves, finally, not any expansions."

He also spoke about a telephone conversation with German Chancellor Olaf Scholtz, during which they "focused on further defensive cooperation, on strategic issues of protection of our Europe - Europe, which can be peaceful only then, if it will be guaranteed for it by full security."

Zelensky stressed that Germany helped Ukraine with air defense very powerfully.

"The brilliant German systems of Iris-T have shown themselves well in the protection of our nob. We have the American "Patriots" and are very efficient," the President said in Germany.

Advocacy of the International Deputy of Ukraine Sergey Alekseev, who today, according to the decision of the Lviv court of Lviv, was sent to the pre -trial detention center for 60 days, and the appeal will be submitted to the case in the capital.

The lawyer Alekseevaevgeny Sweet informed about it in a comment to Ukrinform correspondent.

"Of course, we will appeal and ask that the case is heard to Kiev, because now it is in violation of the legislation, since according to the resolution of the Deputy Prosecutor General Voitenko, the pre -trial investigation has been conducted by the GSU of the DBR in Kiev, and the court should have taken place there," - said.

During [judicial](#) The meeting of a lawyer made his remarks for several hours.

"Everyone understands that these interrogations of the victim and a statement from a German citizen who does not possess Russian, someone did, and even without any initial data. We understand that it is a falsification. Those documents provided by the prosecutor's prosecutor for detention are not given to Alekseev " - said Sweet.

At the beginning of the court hearing, the defense counsel filed a petition for the consideration of the case, as the defense sent to the Court of Appeal of Lviv an application to the Supreme Court to transfer the case to the court.

Read also: [in the case Alekseev And there are no other persons involved - office prosecutor](#) Judge Rudakov announced a technical break, but after the request to the Court of Appeal of Lviv, there was no registered statement from Alekseev there.

The court then heard the prosecutor who persuaded the judge to choose Aleksevzhzhzhzhias. The prosecutor noted that such a measure is necessary because the sub -person has considerable lawyer's experience, including pre -trial investigations, is a People's Deputy, has direct and indirect ties to the right protection authorities, as well as because of the severity of the crime, namely, seizure of US \$ 50,000.(1.8 million hryvnias)German citizen.

According to the prosecutor Jacob Slyzarenko, Alekseev allegedly promised the foreigner Kevinustestklov to obtain a Ukrainian passport, to assist in the avoidance of extradition. He "guaranteed" to use his own connections. The defendant noted that the German repeatedly called after he was called law enforcement officers in Ukraine, and transferred funds for lawyers who worked on his case for almost two years.

"Kevin was simply used to bring me money at the time, as if a bribe was home. Another interesting fact is that his statement is written in a legally correct Russian language, which he does not speak... I ask the judge to be fair to reap that this case is fake. I ask not to choose a precautionary measure to get me to the bail of colleagues, "Alekseev said during the hearing.

Read also: [Alekseev masked and afraid of listening -prosecutor told how the evidence was collected against the deputy](#) The meeting was attended by the People's Deputies of Ukraine, seven from the EU party Tamagoritarians, they filed statements in court that Alekseev was ready to take on bail.

After the decision of the court on the election of a preventive measure, Alekseev was further broken down that the case was fabricated, and the affected citizen of Germany, who is in the search of Interpol, through the sale of drugs in large volumes, is the "nasty" of the Ukrainian law enforcement agencies.

The People's Deputy gave the phone and personal belongings to the advocacy, asked for the escorts, so that they had handcuffed on him, because it "humiliates a lawyer with many years of conscious."

Alekseev will spend this night in the Lviv pre -trial detention center, because even if he gathered the sum of money - more than 2 million UAH, after 18:00 no bank will accept payment.

As reported [Ukrinform](#) , The Lychakiv District Court of Lviv has chosen a precautionary from the Verkhovna Rada from the European Solidarity Party Sergiyalekseev, who is suspected of fraud - 60 days of detention, or 2 million UAH 264 thousand.

The Prosecutor General's office informed Alekseev of suspicion under Part 4 of Art. 190(fraud)Criminal Code of Ukraine. He can threaten 5 to 12 years of confiscation of property.

According to the investigation, the deputy took possession of the money of the citizen. It is \$ 50,000.(1.8 million UAH).

The money of Victoria Amelinino Syndrome will be sent to Victoria's syndrome to the New York Literary Festival, so that the writer was composed by the writer.

This was reported in [Facebook](#) Director of Kharkiv Publishing House "Vivat" Yulia Orlova, reports Ukrinform.

"In 2015 we issued [book](#) Vikameline "November Syndrome". As Yuri Makarov rightly said: "This is a very young text written by a very young woman." But Vika knew, writing "November syndrome" that he would ever turn into a ferocious syndrome ... And the one will take her life from her life ... We now have 390 copies of her wonderful book. Previously, it cost 80 hryvnias, but made a decision to raise the price to 200 hryvnias in order to give absolutely all about the sale of the NGO "New York Literary Festival", which was passed and lived. And to make this money more, "Orlova said.

In the next post, the director of the publishing house informed that within six hours the books were bought out.

The future cannot be imagined without Ukraine, Moldova and the Western Balkans, although it is likely that further EU enlargement will require institutional reforms in the European Union itself.

This was announced in Madrid today, during a press conference as a result of a visit to the College of the EU chairman of Spain, the President of the

European Commission Fon Der Lyen said the President of the European Commission, Ukrinform correspondent reports.

"Let's look forward for years, and let's try to imagine what Europe will look like. We can imagine that the European Union will be without Ukraine, without Moldova, the unknown Balkans, and that these parts of Europe will be influenced by Russia or China? It is impossible. So, the direction of our movement is clear. We now need to start what Europe will be when these countries will become part of the European Union, "said Ursula von Der Lyen.

Advocacy of the International Deputy of Ukraine Sergey Alekseev, who today, according to the decision of the Lviv court of Lviv, was sent to the pre -trial detention center for 60 days, and the appeal will be submitted to the case in the capital.

The lawyer Alekseevaevgeny Sweet informed about it in a comment to Ukrinform correspondent.

"Of course, we will appeal and ask that the case is heard to Kiev, because now it is in violation of the legislation, since according to the resolution of the Deputy Prosecutor General Voitenko, the pre -trial investigation has been conducted by the GSU of the DBR in Kiev, and the court should have taken place there," - said.

During [judicial](#) The meeting of a lawyer made his remarks for several hours.

"Everyone understands that these interrogations of the victim and a statement from a German citizen who does not possess Russian, someone did, and even without any initial data. We understand that it is a falsification. Those documents provided by the prosecutor's prosecutor for detention are not given to Alekseev " - said Sweet.

At the beginning of the court hearing, the defense counsel filed a petition for the consideration of the case, as the defense sent to the Court of Appeal of Lviv an application to the Supreme Court to transfer the case to the court.

The court then heard the prosecutor who persuaded the judge to choose Aleksevzhzhzhzhias. The prosecutor noted that such a measure is necessary because the sub -person has considerable lawyer's experience, including pre -trial investigations, is a People's Deputy, has direct and indirect ties to the right protection authorities, as well as because of the severity of the crime, namely, seizure of US \$ 50,000.(1.8 million hryvnias)German citizen.

According to the prosecutor Jacob Slyzarenko, Alekseev allegedly promised the foreigner Kevinustestklov to obtain a Ukrainian passport, to assist in the avoidance of extradition. He "guaranteed" to use his own connections. The defendant noted that the German repeatedly called after he was called law enforcement officers in Ukraine, and transferred funds for lawyers who worked on his case for almost two years.

"Kevin was simply used to bring me money at the time, as if a bribe was home. Another interesting fact is that his statement is written in a legally correct Russian language, which he does not speak... I ask the judge to be fair to reap that this case is fake. I ask not to choose a precautionary measure to get me to the bail of colleagues, "Alekseev said during the hearing.

Read also: [Alekseev masked and afraid of listening -prosecutor told how the evidence was collected against the deputy](#) The meeting was attended by the People's Deputies of Ukraine, seven from the EU party Tamagoritarians, they filed statements in court that Alekseev was ready to take on bail.

After the decision of the court on the election of a preventive measure, Alekseev was further broken down that the case was fabricated, and the affected citizen of Germany, who is in the search of Interpol, through the sale of drugs in large volumes, is the "nasty" of the Ukrainian law enforcement agencies.

The People's Deputy gave the phone and personal belongings to the advocacy, asked for the escorts, so that they had handcuffed on him, because it "humiliates a lawyer with many years of conscious."

Alekseev will spend this night in the Lviv pre -trial detention center, because even if he gathered the sum of money - more than 2 million UAH, after 18:00 no bank will accept payment.

As reported [Ukrinform](#) , The Lychakiv District Court of Lviv has chosen a precautionary from the Verkhovna Rada from the European Solidarity Party Sergiyalekseev, who is suspected of fraud - 60 days of detention, or 2 million UAH 264 thousand.

The Prosecutor General's office informed Alekseev of suspicion under Part 4 of Art. 190(fraud)Criminal Code of Ukraine. He can threaten 5 to 12 years of confiscation of property.

According to the investigation, the deputy took possession of the money of the citizen. It is \$ 50,000.(1.8 million UAH).

Colonel Yuri Ignat

The enemy does not give up the terrorist method of fighting-the Ukrainian cities of rockets, including C-300 and UAVs, are inhabiting. The spokesman of the Air Forces of the Armed Forces of Ukraine was announced during

today's briefing conducted in Ukrinform, on the topic: "Protection of the Ukrainian sky: the current situation is likely intentions of the enemy."

He noted that for the most part, strokes were struck at night to complicate the work of a re -empty defense due to the lack of visual attachment.

-Today, the enemy attacked Kamikadze drones both at night and day. Unfortunately, we see that it was not without hits. It is difficult to deal with such goals, because it is the enemy tolerates the ammunition from different directions, each drone is programmed to be exposed to a particular route, which disperses the attention of our experts. Unfortunately, it is extremely difficult to cover the whole territory of Ukraine with air defense, so it is almost impossible to overlap the most important state objects and directions.

Yuri Ignat noted that they provide air protection not for the state, but also mobile fire groups, fighter aviation.

-Of course, if we had already used the F-16 instead of the MiG-29, the efficiency was higher. Every day of delay is the life of our patriots, defenders of the pelvicate, we want to start the process of preparing pilots as soon as possible.

At the checkpoint "Ustilug" the participants of the marathon "I raise the flag for Ukraine" were handed over to the Lithuanian athletes by a Ukrainian flag, which was previously held from the military from Bakhmut.

-On the Ukrainian-Polish border, the border guards met the participants of the subtramarane, which on June 25 started in Kiev. Athletes overcame the route with Ukraine, which received from the Ukrainian soldiers from Bakhmut. In particular, the route ran across the Kyiv region, Zhytomyr, Rivne and Volyn, - the message said.

According to the State Tax Service, a team of Ukrainian runners passed to friends from Lithuania near the checkpoint "Ustilug". They will deliver the Ukrainian flag to Vilnius, where they plan to raise it to the NATO Summit, which should take place on July 11.

In the Hague, the International Center for Investigation of Crimes of Russia's Aggression Code of Ukraine has started work(ICPA). Новостворений центр стане ключовим для розслідування злочину агресії РФ проти України та

сприятиме створенню справ для майбутніх судових процесів. Він забезпечить структуру для підтримки та посилення поточних і майбутніх розслідувань злочину агресії та сприятиме обміну та аналізу доказів, зібраних з початку російської агресії.

Про це йдеться у [повідомленні](#) EU press service.

The Center, created with the support of the European Commission, consists of the selected national prosecutors who are already involved in the joint investigative group, with which the Central Committee is related in its activities. Participants will be able to work daily, share evidence quickly and reconcile a common strategy. Eurostan will provide operational, legal, financial and logistical support, in particular for the preservation, storage and analysis of evidence. This work has an important thing to prepare for future lawsuits, whether in national or international courts, including a possible tribunal for aggression crimes by an international criminal court(MKS)for crimes that fall under the youth.

“Russia's invasion of Ukraine continues to bring unspeakable horrors every day. The deep -life news of deliberate attacks on civilians, including children, became a daily reminder of the bloodshed, which Putin returned to the continent. Evidence of innumerable international crimes committed by Russia is accumulated. The new International Center will play a key role in the prosecution of the perpetrators, in particular for crime. We will not leave the stone on the stone until we attract Putin and his strings to justice,” [noted](#) The President of the European Commission Ursula von der Lien.

Zaporizhzhya Nuclear Station(Rabbit)For the first time in four months, it was possible to connect the pre-access to the available backup transmission line.

This was reported by the press service [IAEA](#). "The Zaporizhzhya Nuclear Power Plant was again connected to a single accessible disposable power line after four months after its loss, and the energy supply is extremely fragile

during the ongoing military conflict on the site," the General Director General of Atomic Energy said(IDA)Raphael Marianne Grossi.

According to him, the reconstruction of the 330 kV line is important, since the course of the last few months has relied on a single trunk line 750 kV for external electricity required to cool the reactor of the more important functions of nuclear safety. Before the conflict began in February 2022, it had four lines of 750 square meters.

Currently, the 330 kV line is under voltage and is stored as a backup Tagotov to NPPs if the 750 kV line becomes unavailable or damaged.

During the conflict, it has lost its power supply to the site of seven times outside the site, which causes it to temporarily use emergency diesel generators.

"Although the reconstruction of the power line is positive, the situation with the external power supply of the station remains very vulnerable, which emphasizes the unreliable situation with nuclear safety and security of the ground," said IAEA head.

Today, Ukrinform opened a photo exhibition "Armed Forces of Ukraine". The

event is referred to within the national project "Unconquered Nation. The National Liberation War of Ukraine against Russia(2013–2023)".

The exhibition presents 36 photo collages representing all the subdivisions of Ukraine(Land Forces, Air Force, Navy, Airborne Assault Troops, Special Operations Forces, Silatorical Defense). Відвідувачі можуть побачити зброю Перемоги, а такожфото Президента України, Верховного Головнокомандувача ЗСУ Володимира Зеленського, Головнокомандувача ЗСУ Валерія Залужного, всіх командувачівпідрозділів ЗСУ та архівні світини, починаючи від Євромайдану і Революції Гідності, коли, на переконання авторів проєкту, розпочинався сучасний етапросійсько-українського протистояння.

- These photos tell our power as a nation, about our ability to support each other at the most difficult moments. This exhibition is the embodiment of our respect and gratitude to all men and women who serve in the Armed Forces of Ukraine, - said the head of the information agency Lieutenant Colonel Vitalisarantsev. -Each photography here is not only a creative expression, but a certificate of life that flows in the conditions of the Russian-Ukrainian war. It shows the world the price that the Ukrainian people pay for their freedom Imir demonstrates that the protection of independence requires sacrifice, courage of tavidag.

In the Bakhmut direction, the situation has aggravated again, there is a duel of the initiative.

About it [reported](#) Deputy Minister of Defense of Ukraine Anna Malyar.

"In the Bakhmut direction, the situation has aggravated again. There is a duel of the initiative. Today, the enemy tried to advance on this way, but unsuccessfully. And our defense forces have had some success.

However, the situation is changing very rapidly. Control over the same positions can be lost twice a day. The enemy actively responds to all -actions and creates three lines of defense in threatening directions.

On the southern flank in the area of Klicshchiivka, our troops with battles, but are being released. Instead, battles continue on the northern flank.

In Bakhmut herself is also restless. The enemy in the city is constantly fire, trying to break our logistics and cause us maximum losses. At the same time, the defenders do not allow the enemy to move around the city and affect the fire of the position, "Anna Malyar said.

The North Atlantic Alliance has undergone a certain evolution in the

understanding of what is a defense, restraint, and how to respond to security challenges. The beginning of the Russian aggression against Ukraine in 2014 from the occupation of Crimea and the beginning of hostilities, Nadonbass led to conceptual changes in NATO.

More about NATO changing its approaches to security, said a tribal interview for the ArmyInform CEO of Rasmussen Globalfabris, which previously formed the Alliance Development Strategy. The first part of the NATO summit in Wales 2014 and whether 2 %of GDP costs are enough.

*!Saint-Kanen-Ivelin, Versel University of Versel University and Metropolitenlondon University. In 2007-2010 he was the founding director Carnegie Europe. In 2010-2016-the head of the NATO Secretary General Planning Office. Since 2016 - CEO of Rasmussen Global.____

- What do you think about NATO transformations during Russian large - scale coordination of Russia to Ukraine? How did the war change alliance?

- I think there were two speakers. First, when NATO for the first time in the latest history began to revise their concept of nuclear restraint. This was really a reversible moment. When I joined NATO in 2010, there was an analysis of defense and nuclear restraint, but very few people were ready to talk about nuclear restraint as such.

NATO leaders at Chicago Summit 2012

In 2014, there was a moment when NATO had to rethink these terms to re - reinstall them. So, I think, in the conceptual, intellectual development, it was the discovery of the concept of nuclear restraint. NATO had to defile its

position in the European territory against what it has argued as a greater threat to Russia.

And the second dynamics is that, apparently, a much minority was carried out, which were needed to restrain Putin. As we are unfortunately the field in 2022, eight years he made it again (_ stopped on Ukraine. —The ed.)_.

And that means that in some way NATO's restraint and defense measures have been partially seized. Yes, the Alliance managed to protect its territory, but the plans of holding were failed, including sanctions that did not change the behavior of the putin. Therefore, I think it was an important lesson in 2014. - If you look at [the strategic concept of 2010](#), it was a truly attempt to find a balance between three main tasks. Namely collective defense, foreign missions and new security threats. But very quickly, since 2014, the concept of 2010 was crossed out by the first Russian aggression against Ukraine.

Active Engagement, Modern Defence

Strategic Concept

for the Defence and Security
of the Members of the North
Atlantic Treaty Organization

Adopted by Heads of State and Government
at the NATO Summit in Lisbon
19–20 November 2010

And I started editing a strategic concept. You know when a Word is viewed to

see what can be changed, which is completely complete. And how NATO characterized relations with Russia, obviously, it was more strategic partnership.

I think that the balance between the above three main tasks was also impossible.

The main task was the collective defense of the Alliance. And then we began to combine other activities around the defense, including new threats.

- Why NATO Wales Summit in 2014 became historical?

- I think it was the first point when NATO returned to Europe both as a waoperative and philosophical sense. It was the first summit to which it was considering its main mission in Europe. The value of the latter was not the main among the priorities of the Alliance.

And I remember the meeting in the North Atlantic Council (*NATO's main political organ. - Ed.*) , on which we discussed how to build a territorial defense and what weapons need to have. But then new gaps emerged strategic planning, such as mobility.

NATO had a new brilliant solution after Wales _ --_ a plan of readiness. The Equati argued that more than 40,000 NATO forces would be almost

constantly being deployed on the eastern flank. But for a short time, they had to be deposited with additional alliance forces.

We have realized that there were no legal arrangements to quickly overwhelm NATO forces.

Part, if you want, rethink an alliance called "Readiness Action Plan", agreed at the Summit in Newport(Wales)In the United Kingdom, which became a truly molding summit. Because at that time, NATO allies discussed the teaching of foreign forces about Afghanistan. Instead, the Alliance did not speak prokelive defense and nuclear restraint in the European territory.

The summit in Wales was the first of a series of summits, where the topics of discussion are collective defense, nuclear restraint and Russia. And the trend persists. - Yes, it was a heavy battle. I prepared the initial Atlantic Declaration. The intervals were difficult, especially with Canada and Germany. The then Canadian Prime Minister, Stephen Harper, was a fiscal hawk, which was compounded for money for 2 % of GDP for defense. And then many other countries hid the borrowing of Canada and Germany, because it was convenient.

As a result, we received a text with a typical diplomatic language where there were many of the magnitude.

However, we can call it success. Why? Because for the first time, such a requirement was presented for approval to the heads of state.

Саміт НАТО в Уельсі

- Затверджено План дій готовності НАТО
- Створено ініціативу НАТО з розвитку потенціалу безпеки
- Орієнтир витрачати мінімум 2% ВВП на оборону за період до 2024 року

АРМІЯ INFORM

The main results of the NATO summit in Wales/ Army Infographic

And that was my initial idea when Anders Fog Rasmussen (*NATO Secretary General U2009-2014. - Ed.*) announced her. In fact, 2 % of the cost of defending in the past, and even 3 % during the Cold War.

- What is the result of this obligation now?

- first, there are two people who have forced to increase NATO's costs for defense _ --_ Vladimir Putin and Donald Trump. In a crazy way but trigger became(aggressive)Putin's actions against Ukraine. Therefore, many European countries have acknowledged that they need to increase defense and ability.

And then Donald Trump (*In 2016. - Ed.*) was elected President of the United States. He began to distort the idea that the US obligation to NATO - is the investment in defense. And it caused another shock in the Alliance.

NATO countries are still not achieving the goal, so now we can only talk about the seven units that have 2 %. I think there are ten countries that are close to this purpose or reach it by 2024.

When you look at the overall situation, you can give the argument a projection already 3 %. And I know that on the eve of the Vilnius Summit in NATO there were disclosures to have a target of 2.5 % as new 2 %.

This is a discussion to have 2 % not as a maximum but a minimum. NATO has the opportunity to go beyond the boundaries of 2 %. But the Alliance countries do not yet have the necessary expenses. And this is evidence that Europeans have not yet set defense on the first plane of their priorities, knowing the world we live in.

I wish health, dear Ukrainians and Ukrainian women!

First of all, I congratulate our anti-aircraft missile warriors of Ukrainian Air Force, they celebrate their day today.

I thank you for every goal killed, warriors! More than three thousand such targets have already been: over 180 aircraft, more than 130 helicopters, almost 40 ballistic and a hundred winged Russian missiles, more than 1600 drones of different types ... All - thousands and thousands of life saved, hundreds of objects of critical infrastructure that you have preserved.

During this war, eight anti-aircraft missile brigades were honored with "Message and Courage". More than 1100 joint-stock soldiers received state awards, and eight of them were awarded the highest title-Hero of Ukraine. This is Colonel Sergeyaremenko, Lieutenant Colonel Volodymyr Vesnin, Andriy Kruglov, Sergey Porezets, Artem Sharkov, Dmitry Shumakov, Major Yaroslav Melnyk and Senior Lieutenant Artemsarchuk - he was assigned to him posthumously.

Unfortunately, our state does not yet have enough quality air defense systems to protect our entire territory and knock down all hostile goals. The enemy is used as it is today - by inflicting another terrorist strike on the town of Iranian drone, in particular on residential buildings, as well as on the building of the Security Service of Ukraine. As a result of these blows, there are wounded, there are dead ... My condolences! We will make everything possible and impossible to make our air defense the strongest. Today, General Oleshchuk, Commander of the Air Force, reported on our actions. In order for the Ukrainian airboard to be able to close the entire territory from the Russian terror, and in the future - to become the basis for the European air shield. It is absolutely necessary and absolutely possible.

By the way, he spoke with Mr. Chancellor Scholtz today. Germany was very powerful to Ukraine with air defense. The brilliant German systems "Iris-T" have shown well in protecting our sky. We have the American "Petriots" and are very effective in Germany. Ukraine is grateful for them, as well as for all other vital help! Obviously, it is possible to protect Europe from any aggression only together with Zauzina and only with Ukraine in NATO. That is why there should be a safety certainty about our future in the Alliance. Then Russia will be able to refocus on its own statehood-to finally do themselves, not any expansions.

We are very actively preparing for the summit, and we expect from our partners exactly the most visibility that this historical moment requires.

And necessarily - our active actions. Advanced.

Heroic 35th and 36th separate brigades of the Marines-thank you, warriors! The famous 55th separate artillery brigade "Zaporizhzhya Sich"-thank you, warriors!128 Separate Brigade of Territorial Defense-Thank you!

It is especially worth noting today the junior lieutenant Alexander Pavlov, commander of the Marine infantry platoon of the 36th Brigade of Marines. His confident trick actions, skillful management in battle give good results to the state. Thank you!

The T-80 tank crew under the command of the junior sergeant Andrei Marchuk-Thankme Accuracy and Courage!This is the 36th brigade of the Marines.

And from the 35th brigade, I will celebrate the tank commander, junior sergeant Artmatobrazka today-thank you for the true Ukrainian courage and skill in the possession of the settlement of Makarivka. Thank you, Artem!

Senior soldier Eugene Poddubny, sapper of the 47th mechanized brigade. It operates on a very hot direction and performs its tasks very effectively. Thank you, Eugene!

Captain Ivan Ogurtsov. Acting in the Avdeevsky direction, our fireartilery under its command very effectively destroy the enclosures and warehouses. Thank you, warrior!

The Mariinsky Direction ... Artillery Division under the command of Lieutenant Lukjanova does not give the occupiers a single minute of rest. Your combatants are really significant!Thank you!

Thank you all who are in battle now, at combat posts and positions!Thank you everyone who helps!

And one more. ***Glory to Ukraine!***

Today, the Hague has announced the creation of an International Center for

Investigation for Crime Agression against Ukraine. In general, the issue of bringing the reference of Russian military criminals is among the main priorities of Ukraine and foreign partners. Therefore, it is important to understand the legal mechanisms of the process.

The Armyinform correspondent, while in Brussels as part of the EU response in Ukraine, recorded an exclusive interview with the European Commissariat Didie Raineneds about the Roman Statute and Ukraine and how Russian military criminals can be built.

- Why is the ratification of the Roman Statute by Ukraine is crucial for investigating Russian military crimes? **

And this is very important for all participants in the process. This is the first reason for such a reclamation country as Ukraine, as a candidate country for entrance to the EU, very importantly participate.

I repeat all the time that the Verkhovna Rada of Ukraine has come time to ratify the Roman Statute (*Ukraine has signed in 2000, but not yet ratified. - Ed.*) .

The second reason why it is important to do because if you ask to apply_(against Russia. - Ed.)_ International rules, you also need to eat with them in Ukraine. I know that military crimes in Ukraine have been committed by the Russians.

The International Criminal Court

The first permanent court set up to try those accused of:

- War crimes
- Crimes against humanity
- Genocide

123 member countries

Created

- July 2002
Entry into force of the Rome Statute, the founding treaty
- January 2003
The court begins its work

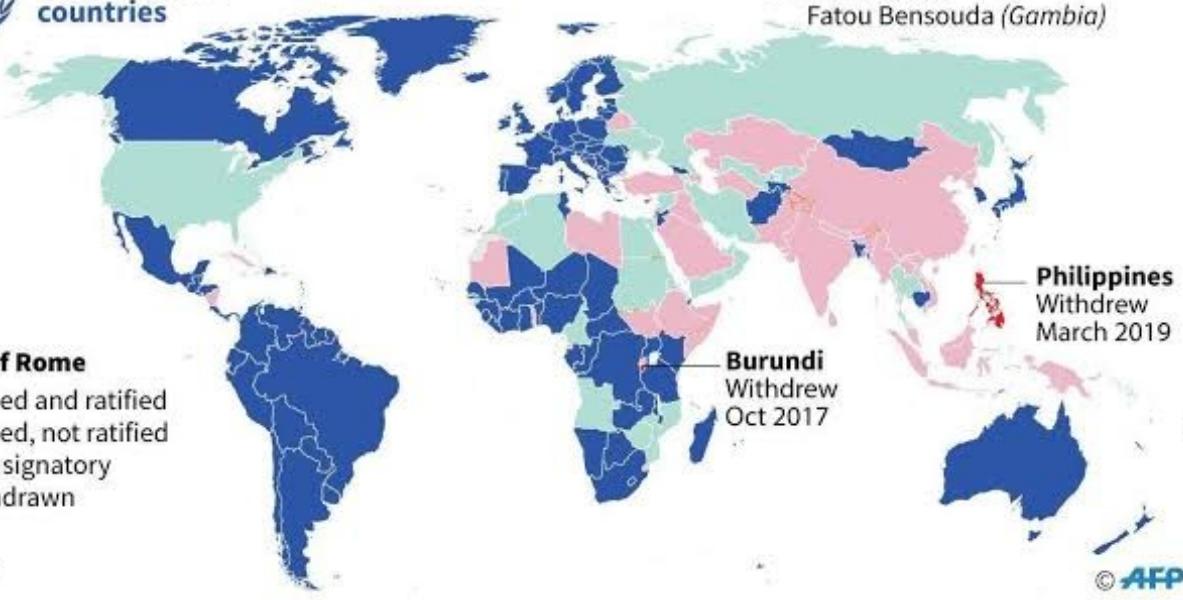

Organisation

- Based: The Hague (Netherlands)
- 18 judges
- President: Chile Eboe-Osuji (Nigeria)
- Prosecutor: Fatou Bensouda (Gambia)

Treaty of Rome

- Signed and ratified
- Signed, not ratified
- Non signatory
- Withdrawn

The world map showing the status of the Roman Statute

I cited an example when they send the UN peacekeeping mission to another country and is shaking war. And then it is worth making sure that persons who committed war crimes, for example, will be punished against women and children.

Because if the country is involved in the international process, international jurisdiction, it is easier to come to court with more and more countries that we need to support Ukraine. In this way, a tribunal will be created on the crime of aggression.

Therefore, the ratification of the Roman Statute by Ukraine will, of course, help organize investigation, persecution and condemnation of Russians responsible for these crimes.- Starting from February 24, 2022, Euras (*The European Union Agency for Criminal Justice Salvation. - Ed.*) tried to create a duplicate mechanism based on existing tools. Eurosta plays the role of intermediary between prosecutors of different countries. So two things were done.

You know that because of Russian aggression in Ukraine it was difficult to obtain digital division. So, we changed the position in euro. Now Euras has

created the Basudans to collect all evidence and exchange them between prosecutors of different EU Member States, the International Criminal Court in Ukraine-everywhere. This is the first step.

[As the International Criminal Court arrests Putin](#) The next is the organization of skillful coordination of actions. So, we have a joint investigation, that is, a specific team with prosecutors of the EU Member States, Ukraine, the International Criminal Court. There is a good cooperation with our American colleagues for data exchange, investigation and judicial reversal of war crimes. A joint investigative group - the third part - will now be the International Center for Pursuing Crime Aggression against Ukraine.

It is not only about war crimes, crimes against humanity or genocide, but also a crime of aggression. There is an opportunity to gather evidence and prepare the prosecution research group. Such a role is given to European.

In addition, Eurasa gives the ability to work together. We have meetings of prosecutors between participants from different countries of the world and, of course, from Europe.

Eurost plays a central role in the development of the process, as there is a collection of collection and organized coordination between prosecutors.

- What is your position on the chances of bringing Russia to justice comprehensive violations of international law?

That is why we try to work on a crime of aggression separately. But now the ICS will talk hard about specific violations of certain conventions. We try to give all the support to get more evidence of a violation.

My work is to provide all opportunities and tools to the prosecutors with judges to perform their work, investigate, pursue and judge military warriors. - **What is your position on investigating the crime of Russia's genocide anti -Ukraine?**

It is clear that they do everything possible in the ISS for investigation.

**PROSECUTE
#RussianWarCrimes**

Що таке воєнні злочини?

Це порушення законів та звичаїв війни (серйозні порушення міжнародного гуманітарного права)

Щодо цивільних осіб:

- ▶ поранення чи вбивство
- ▶ катування, фізичне насилля, згвалтування, нелюдське поводження чи позбавлення волі
- ▶ взяття в заручники
- ▶ насилия щодо медичного персоналу
- ▶ використання для прикриття військових (живі щити)
- ▶ депортації та незаконне переміщення
- ▶ примушування громадян до участі у військових діях проти власної держави

Щодо невійськових інфраструктурних об'єктів:

- ▶ пошкодження або знищенння цивільної інфраструктури
- ▶ знищенння культурних та освітніх закладів
- ▶ пошкодження медичних установ, транспорту, обладнання
- ▶ пошкодження/знищенння культових споруд (храмів, мечетей, синагог тощо)

Щодо гуманітарної допомоги:

- ▶ відмова чи позбавлення доступу до медичної допомоги
- ▶ умисне нанесення ударів по персоналу, транспорту, обладненню пов'язаному з наданням гуманітарної допомоги

А також:

- ▶ використання окупантами цивільного одягу, однострою ЗСУ, емблем гуманітарних та медичних установ під час військових дій

Of course, when you talk about genocide, it is more difficult to investigate in comparison with military crimes or crimes against humanity. But in the hands of the ISS this is possible, because in the Roman statute there is the ability to work on various crimes.

Yes, it is a crime of aggression under the Roman statute. But this situation cannot be put into effect, I explained because of the specific situation of Russia (*The Russian Federation signed, but was unattractive, and in 2016 Moscow withdrew the signature of the document. –Aut.*).

Але можливе і розслідування справи про геноцид. Я не випадково сказав, що ми почали дискусію на початку березня минулого року з Євроюстом і «Мережею геноциду» (*Eurovist network for investigation and judicial persecution of genocide, crimes against humanity and war crimes. - Ed.*) . We want all available tools.

I just want to be sure that all the prosecutors responsible for the formation of the position could go to the court where they already have to make a decision.

You know that in the past it was the most sufficient decision in the event of investigation of the crime of genocide in Rwanda and former Yugoslavia. In Ukraine, Eco -Comand of the ISS.

Even during the war, we intend to create a reliable decision to be sure that during life, military criminals should know that there is a risk to be a court or a tribunal.

- What are your impressions of cooperation with Ukrainian colleagues?

If, exactly a year ago, when Ukraine was in service with only anti -aircraft missile complexes of Soviet production, the Officer of the Air Force Command Considenis Druzhny explained that "the problem of air defense is one more

serious, it is necessary to be re -armed, there is no other way out," today the firing is commenting on the state of Ukraine. He notes that the number one is currently increasing the number of recent weapons.

Denis Rozzhny shares that at dawn on February 24, 22, firmly approved to destroy everything they saw in the air. However, now this decision is supported by a serious argument in the form of powerful air defense complexes.

-If at the beginning of the war we knocked a third of the calibers and the X-101 missiles, then it was considered a great success at that time. Today we destroy from 80 percent of such goals, and in some cases we demonstrate a 100 % result. This is the merit of not only anti -aircraft fires, but also mobile fire groups, fighter aviation and other structures and troops. We all work together!

And although now the experts are not for celebrations, and to relax through constant nighttime attacks, the anti -aircraft attacks rarely succeed, Denis Pasti promised: "Let's win! And then we will rest! And we celebrate!".

Ukrainian prosecutors and investigators of the National Police have been

trained in Paris withdrawing war crimes against children. They took place at the Basinational School of Judges of the French Republic, [reports](#) Office of the Prosecutor General.

For five days, French experts - investigators, judges, lawyers, forensic experts, criminals and psychologists - shared their own experience of investigating the investigation of patient crimes in the context of their commission for children.

During the training they discussed the issues of international legal cooperation during the investigation of war crimes, features of conducting investigative actions with children, methods of collecting digital evidence.

They also paid attention to working with open sources and interaction with non-governmental organizations.

Deputy Prosecutor General Victoria Litvinov, who led the delegation of prosecutors, emphasized the importance of documenting each military crime.

She also noted the need to work out practices with this particularly vulnerable category of victims and witnesses to protect their right to punish the perpetrators.

Participants of the training visit - 20 prosecutors and investigators of the police from Donetsk, Zaporizhzhya, Kyiv, Kharkiv, Kherson and Autonomous Republicikim.

Exchange of experience with foreign colleagues will help to increase the institutional expression of Ukrainian law enforcement agencies in investigating military crimes and strengthening of international cooperation.

All this for one goal is to bring the guilty and international levels responsible.
