Today, members of the City Coordinating Council on reintegration and the

support of Kyivans-defenders were presented to the new service that creates the capital-the Electronic Cabinet of the Defender.

About this Kyiv Mayor Vitaliy Klitschko wrote In the telegram.

"When our defenders return home, everyone talks about one of the main problems: to confirm their status, they need to collect many documents together.

That is why Kyiv, as a modern digital city, develops and implements the "electronics of the defender".

It can quickly order and issue about 45 municipal service more than 140 - state. From social and medical - to educational and help.

The service will allow you to receive services on the principle of "single window". In the smartphone, without leaving home, it will be possible to order all available services at the same time, to find out information about the status of the application, to receive feedback after consideration, "the statement said.

The city plans to launch the work of the e -cabinet of the defender by the end of 2023.

President of Ukraine Volodymyr Zelenskyy

Russian terrorists are trying to aggravate the situation that they have caused an ecocid. Absolutely conscious.

President of Ukraine Volodymyr Zelenskyy [wrote] about it(https://t.me/V_Zelenskiy_official/6524)In the telegram.

"They continue to fire Kherson and the communities of the region - already flooded terrorists. They even fire the evacuation points that are already such a manifestation, which, apparently, no terrorists in the world, except for the Russian ones, have left. There, the second day is just expanding the catastrophe - and it is also an absolutely conscious choice of Russian leadership.

There is no one in the world now who would not see Russia's inhuman. Non-human, which is personally the largest catastrophe on the planet today.

We must do everything with our partners to prove the world that he can cope with such disasters - with such terrorists, "the head of state emphasized.

One of the consequences of undermining the occupying troops of the Kakhovka hydroelectric power station will be increased by the fact

About it [reports](#) Center for National Resistance.

Thus, the guerrillas report that on the eve of the blast of the Dams of the Kakhovsky Gesevis, the enemy has actively changed the left bank of the Dnieper over the last months and in particular with the use of anchor river

mines(Next - the yoke)and others, which under the pressure of water began to wash off and demolish in the direction of movement of the flow.

In view of this, it is important to remember that the yoke looks like a three liter gas balloon of gray and has a crosspiece in its design, carries 2.5 kgrotille and works with a contact method of 0.6 - 0.9 kg. It becomes very dangerous because of the PES, especially in view of the impact and corrosion.

In case of identification of similar objects, not to touch and report on the finding of the National Police of Ukraine and the Civil Service of Ukraine of the extraordinary situations.

For the public prosecution of Ivano-Frankivsk and Vinnytsia regional proceedings, seven deputies of the State Duma of the Federal Assembly of Russian Federation were found guilty of encroachment on the territorial

integrity of Ukraine's invetotor. The sentences of the courts were sentenced - 15 years of imposing freedom with confiscation of property.

About it [reports](#) Office of the Prosecutor General of Ukraine.

Prosecutors in court proved that the accused on February 15, 2022, the support of the resolution to appeal to the President of the Russian Federation to recognize the "independence" of self -proclaimed "Donetsk and Luhansk People's Republics" as independent, sovereign and independent states.

On February 22, 2022, deputies supported the ratification of friendship, cooperation and mutual assistance between the Russian Federation and the so -called "DNR" and "LNR".

Thus, they committed deliberate actions in order to change the boundaries of the territory and the State Border of Ukraine for violation of the order established by the Constitution of Ukraine, which brought to the death of people and other serious consequences.

Special pre -trial investigations in criminal proceedings were carried out by the SBU.

The water level in the reservoir fell approximately 4.1 m after the dam and the reached point of 12.7 m at 18:00 today. The hourly rate of loss remains in the range of 4-7 cm/h.

About it [reports](#) The headquarters of the elimination of the Kakhovskaya hydroelectric power station by Russian terrorists.

ZaS has the ability to pump water from the tank even after its level falls below 12.7 m. Probably pumps can operate at a level of 11 m or below.

In these difficult circumstances, this gives extra time before the possible transition of a heater water supply, including a large consolidator pond nearby.

It is no less no less nuclear safety remains stupid and potentially dangerous.

To it is better to evaluate the situation, IAEA experts have invited access to the location of the water level in the reservoir and to the outlet of the ZTO, which is adjacent.

The Security Service has collected evidence of another participant in the DNR terrorist organization, which fought on the side of the aggressor country and committed the crimes of the counter-residents of Kherson region.

Together with the Russian troops, he actively participated in the captured kakhovka and robbing of local dwellings in 2022. During robbery, he used weapons and threatened murder in the event of resistance.

In this way, the racists "brought out" from the premises of citizens everything - from household appliances to money and other valuable things.

The attacker was captured by Ukrainian defenders last December during the Kherson direction.

According to the materials of the Ukrainian special service, the court appointed him 15 years in prison.

As the investigation was established, a fighter was a resident of Donetsk, who at the beginning of a full-scale invasion initiative joined the ranks of the 9th Regiment of the Marine Infantry of the 1st Army Corps of the Russian Federation.

While in the post of Senior Sagittarius of the enemy unit, he fired the defense forces on the Eastern Front.

He was later transferred to a temporarily captured part of Kherson region.

On the basis of the evidence collected, the court found the attacker guilty of three articles of the Criminal Code of Ukraine:

Служба безпеки наголошує на невідворотності покарання за злочини проти нашої держави.

Комплексні заходи проводили співробітники СБУ в Херсонській області узваємодії з підрозділами Збройних Сил України за процесуального керівництва Херсонської обласної прокуратури.

«США не дають завершити конфлікт в Україні мирними переговорами»

м. патрушев,
секретар ради безпеки рф

Center for Combating Misinformation in NSPO of Ukraine [report](#) It is that the Russian media is spreading narratives, which is declared by the Security Council of Rfnikola Patrushev, saying "the United States does not allow the conflict in Ukraine to be completed with peaceful intervals."

Patrushev also stated that "the peoples of Ukraine and Russia are not interested in the conflict."

The power of the terrorist country continues to exist in parallel reality and to submit a narrative, as if Ukrainians and Russians—"brotherly peoples" who want to be in peace.

In addition, this narrative is sometimes transformed into a "single people".

Such statements of the Russian Federation continue to deny the existence of Ukraine as a separate subject and to offset Ukrainian statehood.

In Ukraine, the first payments for housing repair within the program of renewal have started. It will be received by 8 applicants from two communities in Kyiv and Donetsk. The total amount of accrued funds is over UAH 847 thousand.

About it [reports](#) Ministry of Community Development, Territories and Infrastructure on Facebook.

“8 applicants of the Starpine community of Kyiv region and the Selidovsky community of Donetsk region will receive monetary assistance for small repair of their own housing. The total amount of accrued funds is over UAH 847 thousand.

One of the applicants who will receive financial assistance will be a 78-year-old resident of the Caselidov community of Donetsk region. She applied for assistance through the application.

This story is a testament to the success of digitalization of services for the population of the service of the service is a renewal in action, "the message reads.

The Ministry notes that since the launch of the program, 17 374 applications have been submitted on 10th 374 applications, as well as 444 commissions.

It is also noted that the start of payments is possible only after the creation of commissions of communities and promptly considered applications. But there is a list of communities, delayed work on consideration of applications has almost not begun.

“We urge local government bodies that have not started to work for compensation applications for housing recovery, and accelerate their work. It depends on whether Ukrainians will be able to get help in the shortfall for preparing their home for autumn-winterfields, "the ministry said.

The Minister of Defense of Ukraine Oleksiy Reznikov signed an order for the formation of an aclector of innovative development. The same order approved the consulting and advisory body.

Innovative development accelerator is a permanent advisory and advisory organ, designed to organize and implement projects in the field of scientific and technical activity of the department.

The newly formed structure will implement and implement strategies, programs, projects and processes, "accelerate" the development of innovative capabilities of the units of the Ministry of Defense and the Armed

Forces of Ukraine. In addition, the accelerator is a standmaid site for the search for modern new samples of weapons and military equipment, information and communication technologies. One of the directions of its activity provides for the improvement of mechanisms for providing goods, works, and defense services. The accelerator is primarily directed by Ukrainian manufacturers and developers.

According to the minister, the organizational accelerator of the Ministry of Defense is modern administrative methods and IT solutions. It will accelerate the work on processing from the developers of technical innovations, their evaluation and further promotion of the path of admission to operation. The composition of the advisory and advisory body is 13 people. He will be headed by his Deputy Defense Minister of Ukraine Volodymyr Gavrilov. The work will be coordinated by Sergiloboyko, the State Expert of the Directorate of Digitalization, Digital Development, Digital Transformations and Cybersecurity in the Field of Defense of the Ministry of Defense of Ukraine.

The accelerator of innovative development and the Ministry of Defense invites to cooperates of OVT developers, which have samples of high level of technological readiness.

The most relevant for the Armed Forces today, in particular, are unmanned systems, communication systems, intelligence and analytics of the data collected. Also necessary innovations in the direction of modernization and improvement of the efficiency of боев and samples of OVT, weapons on new principles of action.

The Ministry of Defense of Ukraine may be offered by the Ministry of Defense of Ukraine, as well as enterprises of private or state ownership.

Those who want to join the innovative development team of the Ministry of Defense of Ukraine should fill in the corresponding [questionnaire](#).

Category: News

In May this year, Deputy Minister of Defense of Ukraine Volodymyr Gavrilov during the launch of the Brave1 platform declared that Ukraine will win a numerous enemy of the war of war thanks to technology.

_ "Ukrainians who have unique ideas that could significantly strengthen the domestic defense sector are not always well informed. In combination with

bureaucracy, this leads to the use of our resources at a minimum, "said then the office.

Pramena stubbornness in the introduction of the latest developments is a problem that exists not only in Ukraine. As a tool for accelerating the corresponding processes, our Western partners have organized in their countries accelerator innovations.

We have to create a Ukrainian account for the present challenges and threats. Because we need to accelerate in technological development, __ accelerate the introduction of _orobon innovation._

_ What will work **accelerator of innovative development of the Ministry of Defense of Ukraine** , read in our material._

"We will convince the skeptics that they broke the bureaucratic barriers of the erection of technical innovation movement to the army"

The accelerator is the process of processes in the Ministry of Defense system. Will create a "single entrance window" for anyone who wants to offer an important, useful - weapons and military equipment(OVT. - Ed.), interesting technical solutions. The defense department is open not only for the development of OWT, but in general for enterprises, specialists, investors, for anyone who is desirable to work with the Ministry of Defense, to

strengthen their defense capability, to offer innovative solutions, not only technical, for technical ones, for technical solutions Victory of Ukraine.

The Ministry of Defense team is ready to cooperate with technical communities, associations of enterprises, clusters, volunteer movements.

The skeptics who claim that in the current environment it is unrealistic to accelerate: register and see how the new system works. There are already twenty enterprises that have passed all the stages - from the submission of the project to the introduction of explanation - in fact in record time. A few dozen companies are in the process. All applications are currently being considered very quickly. If the enterprise proposes the development of a high degree of readiness, then the MOU is invested in the claimermina.

What are the terms? In some cases, additional tests may need to be conducted, then it will take more time.

For comparison, before this process lasted about 2 years.

The accelerator team states that all stages of the above processes are now on - automated and transparent, easily track the course of documents or at what stage the process has slowed down.

The complete implementation of the concept of the "single window" created by the accelerator will make the revolution in the processes of prompt implementation of new OVT samples for our Army.

With the help of an accelerator, the Defense Ministry plans to involve specialists in its command.

Call will be announced for anyone who has serious experience in the management of projects, who has serious analytical competencies, perhaps communication competencies. They will call for such specialists to submit a summary. If it is a mobilized carrier, they will consider the possibility of transferring it to the MOU team.

It should also be reported that the accelerator of innovative development of the Ministry of Defense of Ukraine is establishing cooperation with the accelerator of defensive innovations as of the North Atlantic(DIANA).

У квітні цього року під час зустрічі заступника Міністра оборони України Володимира Гавrilova з помічником Генсека НАТО Девідом Ван Вілем сторони домовились про продовження діалогу щодо практичного співробітництва, зокрема йу контексті можливого залучення DIANA до спільної діяльності.

Українська команда також комунікує з британським Акселератором (DASA). Ведуться перемовини з Францією та скандинавськими країнами. Планується активна співпраця з американськими колегами.

«Акселератор Міноборони залучатиме інвесторів»

Акселератор Міноборони співпрацюватиме й з інвесторами. Якщо вони зацікавлені у якісних проєктах, їм надаватиметься інформація про те, що ту чи іншую інноваційну пропозицію оборонне відомство оцінило позитивно і, відповідно, з таким проєктом можна вести мову про вигідні інвестиції для налагодження виробництва.

Серед підприємств, які вже співпрацюють із Міноборони, є велика активність у сфері переспеціалізації для розроблення нових проєктів. Наразі значна частина приватних підприємств, з яких близько 75 % вкладають у проєкти власні кошти, не розраховуючи тільки на бюджетне фінансування.

The Verkhovnaraad adopted the bill "On Amendments to Certain Legislative Acts of Ukraine on Clarification of the Provisions for Competitive Selection of Candidates of the Constitutional Court of Ukraine" as a basis.

As Ukrinform reports, he reported this in [telegram](#) People's Deputy Yaroslav Zheleznyak.

For the bill [No. 9322](#) 248 deputies cast their votes with a permanent reading, Zheleznyak said.

Read also: [BP has supported the draft law on the temporary ban on the sale of the selling in Dutay-Frey](#) In particular, the document proposes to determine that the Supreme Court as a court of first -instance defendants to appeal against decisions, actions or omissions of the appointment of judges of the CCU in the process of competitive selection of candidates, decisions, actions or omissions of bodies that evaluate the candidates.

The document also proposes to increase the deadlines for submission of documents to the documents who apply for participation in the competitive selection for the position of judge of the CCU.

The bill provides for the possibility of persons who have intended to occupy a judge of the CCU and meet the requirements, but have not filled all the necessary documents or submitted them with errors and inaccuracies, submit or correct documents within an additional term.

Read also: [Parliament has approved a new version(<https://www.ukrinform.ua/rubric-society/3721117-parlament-uhvaliv-novu-redakciu-zakonu-pro-zahist-prav-spozivaciv.html>)In addition, it is proposed to determine that during the period of martial law against persons applying for a judge, a judge of the CCU, a member of the High Council of Justice, a member qualification committee of judges, a special inspection is carried out, an inspection is carried out by the Law "On Purification of Power".

It is envisaged that according to the criteria of high moral qualities and recognized level competence in the field of law, candidates will receive only 2 estimates - "responsible" or "not responsible".

From the candidates who received the "reply", the advisory group of experts forming a general list, and after that - the rating, where the candidates will be displaced depending on the number of votes for their support.The advisory group of experts makes at least four votes of its members, of which at least two are proposed by the international organizations or the European Commission for Democracy through Right. If, due to the same number of voices for "and" against ", an advisory group of experts cannot make a decision, re -vote is held. If the number of votes in favor of again, the votes of three members of the advisory group are decisive, of which it is at least proposed by the International Organizations or the Venice Commission.

According to the document, the advisory group publishes a decision on candidates who have received the assessment of "not responsible" according to the criteria of high moral qualities or recognized level of competence in the field of law, without motives. The decision with motivation is published only at the request of the candidate who has received such assessment.

It is also proposed to increase the terms for the appointment of persons to the first assembly group of experts.

Read also: [Kakhovskaya hydroelectric power station: Council adopted a resolution of the UN request](#) At the same time, it is envisaged that from the date of entry into force of the law, all processes of selection of candidates for the position of Judge of the CCU on a competitive basis, started by the subjects of appointment and not completed as of the day of the entry intoment of him, are considered terminated without a separate decision of the subjects of destination, and are announced.

According to Ukrinform, 13 judges remain in the Constitutional Court. The quorum requires the presence of 12 judges, and to make a decision –10. In total, there should be 18 judges in the COP.

The Ministry of Health of Ukraine with the participation of the World Bank has launched a project to modernize health care facilities in each region.

About it reports [press service](#) The Ministry of Health, reports Ukrinform.

“Strengthening the Health Care System and Preservation of Life”(HEAL Ukraine)- The current infrastructure project, which the Ministry of Health

implements in cooperation with the World Bank, "said Deputy Minister, Chief State Sanitary Doctor Igor Kuzin.

He reported that at the Ministry of Health a projected renewal office has been created to receive infrastructure proposals for healthcare facilities, among which projects will be selected for implementation.

It is noted that the project is aimed at increasing provision of medical institutions, in particular recovery, update and modernization of infrastructure. It is about the reconstruction of damages of medical infrastructure, renovation of premises and buildings tamodernization of medical institutions with modern equipment to strengthen energy independence.

"Medical institutions of all regions can apply and receive funding infrastructure projects and projects for the installation of solar panels," - proclaim in the ministry.

At the same time, it is noted that infrastructure projects relate to the restoration of tamodernization damaged as a result of hostilities of state or communal services, as well as improving the energy efficiency of ensuring access of subacte energy sources.

In addition, it is reported that primary care medical facilities can apply for solar energy equipment - solar panels, battery and inverter, so establishing solar energy as an autonomous power source, accumulating it and reducing electricity costs.

Post -exploring by the Russian troops of the Kakhovskaya hydroelectric power station, the local reservoir has practically imbued.

According to Ukrinform, the corresponding video is presented in [telegram](#). Famous blogger Igor Lachenkov (TG channel "LACHEN WRISH").

Раніше еколог, експерт з управління природоохоронною діяльністю, екологічної політики та моніторингу стану і якості довкілля, кандидат

технічних наук Максим Сорока на своїй сторінці у Фейсбуці, відповідаючи на запитання українців, прогнозував, що Каховське [водосховище не зникне, але перетвориться на болото](#).

Read also: [through the blasting of the Russians of the Kakhovskaya hydroelectric power station missing 29 people](#)

"The water will not disappear. However, there will now be a temporary swamp in this city. And then the nature will come up with what to do with this territory.

We need to understand that in our climatic conditions a reservoir (of this size of tangotropogenic load) It should be a depth of at least 8 m. This is due to the third factors. First, in order not to freeze in winter (this is important to recover biota). По-друге, для підтримки кисневого режиму влітку. Якщо перегріти стоячі води, то згідно з законом Дальтона, кисень почне випаровуватися, що призведе до мору риби. Третє. Для

нейтралізування зворотних/очищених стічних вод та подальшого біологічного доочищення – у водосховищі має бути достатній об'єм води. Нагадую, заводи та ЖКГ Запоріжжя беруть воду вище запорізької греблі, а скидають стічні води у Каховське водосховище. Й інші міста так само", - написав він.

Своєю чергою інші науковці зазначають, що після підриву дамби розпочалося обміння водосховища і його глибина зараз становить трохи більш як 10 метрів. Тобто зараз неможливий забір води для побутових споживачів та на Запорізькій АЕС.

Type: Article

The Ukrainian military reviews are very positive about the German weapons, and they make up to 20,000 scales, although the barrel is recommended to be changed after 4,500 shots.

According to Ukrinform, this has stated in an interview [RND](#) RheinMetall's RheinMetall Head Defense Concern Armin Papperger.

"Ukrainians' feedback about German weapons is very positive. Take at least self -propelled Pzh2000, chassis and weapons systems of which were delivered by Rheinmetall. In general, we say that the trunk needs to be changed after about 4,500 shots. But Ukrainians shoot up to 20,000 shots. They would have been cracked for a long time, " - commented Pappergering about how German technique showed herself in the battlefield in Ukraine.

According to him, Russian war Against Ukraine, she played a major role in the current growth of rheinmetall. "Most of our growth is connected with the terrible war in Ukraine. No country in Europe is well -prepared in the case of an aggressor invasion. Governments have understood it, so the demand for our products is growing," said.

Read also: [in Ukrboronprom told about creating a joint venture with rheinmetall](#) Papperger noted that in 2023, the concern awaits many contracts: "Now we are talking about several very large contracts: tanks, ammunition, receptive defense - and planes. We are talking about long time and multibilliards euros."

RheinMetall is also engaged in expanding its production capacity. Commenting on the question of whether the EU's promise will be fulfilled to Ukraine with millionaire guns during the year, Papperger stated that "Ukraine will receive a million artillery boobs only if the European armies provide their reserves."

At the factory production of the main combat tanks Panther("Panther"), which is planned to build in Ukraine, will be mainly local specialists.

According to Ukrinform, this has stated in an interview [RND](#) RheinMetall's RheinMetall Head Defense Concern Armin Papperger.

"If you want to bring a new product to the market, you have to start with something. We are working on the preparation of" Panther "for serial

production that it will be ready for take -off in 15-20 months," - commented on the intention of building a tank plant in Ukraine. .

He added that in Ukraine there are now factories for the production of weapons and can be protected. "There are weapons in Ukraine today. Such objects can be protected. Come from what Ukrainians know how to do it," - commented Rheinmetall, the question of whether this tank plant will become in the Ukrainian target for Russian missiles.

*!(<https://www.ukrinform.ua/rubric-ato/3720993-glava-rheinmetall-rozgoviv-ak-nimecka-tehnika-pokazala-sebe-na-poli-bou-v-ukraini.html>)Papperger also reported that there is no need to send workers from the plant in Germany to Ukraine. "We would mostly increase the qualification of local workers, and sometimes we would bring them to study Donimich.

In an interview, Papperger also expressed doubts that the Panther competitor - the Franco -German project MGCS - will be implemented in general.

"German and French partners have been discussing it for three years and not made significant progress. On the other hand, with" Panther "we have all the technology of a lot of production - from armor to the fire management system. The only prosecutor, all pursue one goal. Leopard 2 is already very good The main footer tank. Panther will be lighter and more mobile, with the best protection of IOGNEVER, and will be completely digital and cheaper, "he said. It was reported that the German defense concern Rheinmetall is in talks to Zkaiv on the creation of production Panther tanks .

The nearest changes of the Artek-Bukovel camp will be formed from the pupils of orphanages of the family type of Kherson region, which suffered due to the undermining of the Russian hydroelectric power station.

Presidential wife Olena Zelenska reported this in [telegram](#), transmits Ukrinform.

"What is your mind?" - asks the social network. And the whole country has been in line with one day: "[Kherson](#)!". Kherson is salvation, " - said.

In particular, the first lady mentioned a woman who knee in the water of Vyaslasidia dog, boats with rescuers of the State Service for Emergency Situation and Volunteers from all over the country, a drone with drinking water for a boy of Uwki and made in the hands of the elderly - peers of World War II.

"It is a humanitarian aid collected by residents of all cities and villages of the country, egolas:" I have a home for the victims in Kherson region - free!Path, because real help is always for anyone who needs it, "Zelenska added.

Read also: [for residents Kherson in the Evacuation March - Ministry of Reintegration](#) As she noted, the country once again shows how it can save and how valuable Ukrainian is for each other.

The president's wife stressed that Olena Zelenska Foundation could not stand.

"There are family -type orphanages in the disaster area(Dbst), helping which priority is. Therefore, the closest changes of the Artek-Bukovel camp will be formed from the children and DBST of Kherson region. We have to do everything to have the best summer, a tender that they have just seen, "the first lady said.

She added that the work on the help is ongoing. She also called on the national authorities and organizations, emphasizing that, like all the war, the destruction of the Kakhovka hydroelectric power station has caused the consequences not only for Ukraine."What do you think?" That water falls. And what we win, " - summed up.

As reported by Ukrinform, on the night of June 6, the Russian army [blowing up the Greblyukakhov hydroelectric power station](#). Even before lunch, almost all of the station was discharged underwater, it is not recoverable.

As of June 10 in the Kherson region [actually flooded](#) 47 settlements. Family people were killed, 27 are considered missing. 2620 people were evacuated from the zone.

The invaders open the humanitarian corridors to help people who, due to flooding, are in danger.

This was reported by Viceremier-Minister-Minister of Reintegration of the Occupied Territories Irina Vereshchuk on the air of the tele earrhophone "Unin", Ukrinform reports.

"Almost 35 settlements in the temporarily occupied territory remain in the sake. It is a naked pier, Oleshko and the rest of the settlements, " - said.

Vereshchuk thanked all volunteers from different regions of Ukraine and international organizations and partners from Japan, the USA, Poland, Finland, Austria, the Czech Republic, who responded and directly assisted the victims in the Kherson region.

At the same time, she noted that, unfortunately, because of certain circumstances, people remain places, decide not to evacuate.

Read also: [for residents of Kherson region organized **evacu** on the sight of(<https://www.ukrinform.ua/rubric-regions/3720985-dla-ziteliv-hersonsini-organizuvali-evakuacijni-marsruti-minreintegracji.html>)“Taking the opportunity, I want to turn to such people. Please do not insure yourself to danger, evacuate, because in addition to high water, which will accurately over time, there is a fight against consequences, ”the minister emphasized.

According to her, in addition, there is minna Danger, because in the water, mines are drifting, and it is impossible to predict where they can damage the harm and health of people.

Vereshchuk assured that people can turn to ova, call Hotcholinium, turn to volunteers and say about the intention to evacuate from the region, move to Ivano-Frankivsk, Vinnytsia, Khmelnytskyi, Nakirovograd.

“We have where people to place. They will receive free housing, food, which is related to normal life, ”she added.

The minister said that he would also be provided with cash assistance at the moment of a clot or bus. It is noted that the amount of payment is 3 thousand per child, 2 thousand per adult.

“We need time to master the situation and overcome the consequences given by Takaui water. Now the area of natural disaster is estimated at 600 square kilometers, it can be compared to Singapore area, ”Vereshchuk emphasized. She said that today it is unknown how much the territory is not possible to restore. However, she said, the authorities will do everything possible to distinguish as many areas as possible, including damaged, destroyed, submerged housing.

“President of Ukraine Volodymyr Zelensky gave a clear instruction and clear instructions to develop the necessary legislation as soon as possible to provide people with a compensation for the destroyed, flooded housing,” she summarized.

As reported by Ukrinform, on the night of June 6 [the Russian army undermined the Greblyukakhov Hydroelectric Power Plant](#). The evacuation of people in the flooded territory continues.

On the fact of undermining the occupiers of the Kakhovka hydroelectric power station, law enforcement officers began investigation under the article "Ecocid".

He expressed his hope that "colleagues think about how to accelerate Ukraine's accession to NATO." "Or not. Let's look," the President said.

He thanked Canada Prime Minister for the "strategic partner's position".

"For us, of course, it is very important to be future NATO members. This is for Ukrainian the best guarantee(safety. - Ed.). Але, тим не менш, ми розуміємо, що сьогодні у час війни Україна не може стати членом НАТО - це суперечить(charter)Alliance ... But on the way to NATO we need legal guarantees of security, "the President emphasized.

Read also: [Justin Trudeau arrived in Kiev](#) He recalled that they were already prepared by the Ukrainian side.

"We talk about it with our partners, and there is also one of the main roles in Canada - we want Canada to be one of the guarantors with whom it has a long way to the future," Zelensky said.

It was reported that French President Emmanuel Macron, Federal Chancellor Frnolaf Scholz and Polish President Andrzej Duda will discuss on June 12 in Paris, the format of the Weimar Triangle Aggressive War of the Russian Federation against Ukraine and further support of the Ukrainian people.

Type: Article

The Bronze Pressorr of the Olympic Games in Tokyo Daria Bilodid condemned the decision of the International Federation of Judo(IJF)At the expense of the admission of Russians and Belarus to the competition.

She told this exclusively in a comment to Ukrinform correspondent.

"I condemn the decision of the International Judo Federation. I sincerely don't understand him. There is a full -scale war during which Russians kill

Ukrainians, including athletes. The International Federation instead allows Russian military servicemen to perform at high levels. In my opinion, it is a parallel reality. I hope they realize that they allow a roofing room, "Bilodid said.

The judoist also stressed that the uncertainty with the possible performance of the Olympiad in Paris has a negative effect on its motivation.

"Thoughts about the possible pass of the Olympiad, if there are Russians and Belarusians, upset and adversely affect motivation, because it is difficult to look in the dog in such conditions. In the near future, we will understand if they will participate in the Vollympiad. Ukraine, together with athletes, does everything to ensure that the representatives of Russia and Belarus were not in the games. I hope everything will succeed, "Daria said.

Finally, she expressed her hope that she would be able to speak in Paris in Paris in the best condition.

"I already feel better. To get off and dial the necessary condition, the minimizer has taken a year. I feel it is not my maximum. We hope that I will come to the peak of my shape, "the athlete summed up.

Type: Article

During the day meeting in Kyiv, President of Ukraine Volodymyr Zelensky and Premier-Canada Justin Trudeau adopted a joint declaration.

According to Ukrinform, the press service [Presidential Office](#). The President of Ukraine and the Prime Minister of Canada confirmed the condemnation of Russia's armed aggression against Ukraine and noted that Ukraine demonstrated the unusual determination in exercising its inalienable right to self-defense. They stated that Russia should immediately, completely and

unconditionally withdraw the Army from Ukraine limits of its internationally recognized borders.

Canada remains a dedicated independence, sovereignty and territorial purpose of Ukraine within its internationally recognized borders, highly evaluating the richness and courage of the Ukrainian people and the armed forces in defense.

At the same time, the people of Ukraine can expect that Canada will continue political, financial, humanitarian and military support as much as it will be necessary-both individually and through international cooperation within the G7, NATO, United Nations and any other format, Where Canadamae make a significant contribution.

Read also: [Canada And imposes sanctions against the involvement of Ukrainian cultural monuments](#) The document states that since February 2022, Canada has allocated more than \$ 8 billion to help Ukraine, provides military support, including seizures, air defense systems and artillery, and continues to develop any help measures based on Ukraine's needs.

In addition, Canada provides civilian assistance to Ukraine, including financial, humanitarian and emergency support. In several areas, Canada is a leader, for example, in the world of Ukraine's sovereignty bonds.Ukraine and Canada undertake to work to mitigate the effects of the global energy and food crises, in particular by interacting with partners from the Global South. Both countries confirm the decisive role -Sea grain initiative to fight famine in the world and the need to ensure its functioning.

Ukraine and Canada emphasize the commitment to those who are guilty of war crimes and other crimes committed in connection with irrigated armed aggression.

Ukraine and Canada confirm the support of investigations of the International Criminal Court prosecutor, which is a step towards liability, and take the domestations issued by the court orders for arrest. Canada was among the countries that were the first to prove Russia's actions in Ukraine to the court in March 2022, and sent a group of investigators to support its work.

Read also: [Canada And began confiscation of Russian aircraft of Ukraine](#) Ukraine and Canada are in favor of collective pressure on Russia due to further universities to weaken Russia's ability to continue the war.

Ukraine and Canada will continue to work together with other partners to over -development mechanisms to ensure compensation for losses, damage and

losses caused by Russian aggression. Canada was the first country to start the arrest and confiscation of assets belonging to persons and organizations that have been submitted under sanctions, in order to further use the received funds to support Ukraine's restoration and to pay compensation to victims , created by the Council of Europe, as an associate founding member on May 17, 2023.

Canada, together with international organizations and international partners, participates in the restoration and reconstruction of Ukraine.

Description: The Ukrainian meaning for international relations is that we must always take care of each other. - Ukrinform.

Images: ['[630_360_16864...](#)']

Tags: ['Звернення', 'Зеленський', 'Війна з Росією']

Type: Article

The Ukrainian meaning for international relations is that we always have a care about one.

According to Ukrinform, about it in his [traditional treatment](#) President of Ukraine Vladimir Zelensky said.

[Viso: op](#) I wish health, dear Ukrainians! _

Report for this day. The first is negotiations with Canada Prime Minister Justin Trudeau.

Weapons and shells. There is a defensive package, including the 155th caliber. Coalition of modern fighters and training of our pilots is obvious progress. The Unato Movement - this is also the result today.

I am grateful and personally to Mr. Prime Minister, and all Canadians for the constant iodine support for our freedom.

The consequences of the Russian terrorist attack on the Kakhovsky hydroelectric power station were discussed in detail. Canadas who can help us recover from this disaster. We understand one in the steps they need. And it is necessary very promptly.

Of course, we will not stay away and the element through which the canada now passes.

Large -scale forest fires, tremendous natural losses and threat to people ... Ukraine preparation to help with fire extinguishing if Canada requires such international assistance.

Our Ukrainian meaning for international relations is that we should always be able to can be about each other when support is needed. And really help.

I am sure it will become global principles. Mutual action, mutual support, mutual force.

Now, unfortunately, we see that at some levels in the world there is simply a shadebnabisage for ecocide and human tragedy caused by the Russian terrorist attack of the Nakakhovsky Hydroelectric Power Plant.

When international organizations that should protect life on a global scale, even a week do not have time to form and send a rescue mission to a nailed territory when some world entities do not dare to get out even with clear and strong statements that would condemn this next Russian war, terrorists simply terrorists They are fueled by this weakness of the world, with this carelessness - it encourages them. And we have to overcome it. And we will overcome.

We click and encourage that international organizations, international support in the part of Kherson, where occupiers are now.

As of this time, more than 3,000 people have already been eachamed in the Kherson and Mykolaiv region. But again, it is only free-controlled, controlled by us.All this should be a separate fair and rigid responsibility of the Russian state and the Russian leadership.

And international organizations must work where we have not yet deduced our territories. Every life is important - all of Kherson, all south. Every city is Yelselo. We will do our best and impossible to help all people.

I thank each of our rescuer, military and police, local communities and international organizations that are currently operating in the Kherson region of Tamikolaevshchina, all our volunteers - everyone who helps to save the catastrophe zone, and animals and life in general ... and tell the world of the people who suffered.

I thank everyone who helps people after the strikes of Russian rockets and Iranian Shahaneda. Odesa... My condolences to the native those whose lives were taken last by Russian terror... More than 20 wounded. Everyone is assisted.

Like every day, gratitude is our soldiers. Everyone and everyone who is in front of the forefront, at combat posts and combat missions. Who destroys the enemy on the earth protects our sky. Thank you all who keep the position and who moves forward. "Khortytsia", "Tavriya" - thank you to each of our hero!

Maximum efforts to return peace to our country, every city, every village, every corner of Ukraine.

_ Glory to Ukraine! _

Prosecutor General Andriy Kostin in Kherson held a meeting with representatives of the Sigh Agency on the investigation of the Kakhovka hydroelectric power station.

He reported this in [Facebook](#), reports Ukrinform.

"He held a meeting with the management of the profile units of the Prosecutor General's Office, regional prosecutors, the management of the central office and the regional management of the Security Service of Ukraine. The priorities were determined: investigation of military gap -an attack on an object protected by the Geneva Conventions -and the ecocide, "the Prosecutor General said.

According to him, the mission of the International Criminal Court also came to Kherson region.

"Colleagues arrived in [Kherson region](#) To prepare for investigative actions to blame the Kakhovka hydroelectric power station. They will see everything with their own eyes and make their own conclusions. The world has to know the truth about the horrific crimes that Russia commits in Ukraine, " - said Kakostin.

He added that the scale of this crime of the Russian Federation is catastrophic. Only on the control of the right bank of the Dnieper, 58,000 civilians found themselves in the flood zone. Even worse is the situation on the temporarily occupied left bank.

Description: The Ukrainian sailing championship was held this year on Lake Sirko in the Yavoriv district of Lviv region. - Ukrinform.

Images: ['[630_360_16864...](#)']

Tags: ['Львівщина', 'Спорт', 'Змагання']

Type: Article

The Ukrainian sailing championship was held this year on Lake Sirka to the Kazovgovsky District of Lviv Oblast.

According to the correspondent of Ukrinform, through the occupation of Crimea, the danger of shelling of Mykolaiv, Odessa, Zaporizhzhya regions for the first time Lviv region is accepting the masters of sailing sports.

“The geography of sailing sports is such that it is the south and the center of Ukraine, since the championships were previously happening there. But we

were lucky that there is a strong -headed team that is supported by the business and the dream of holding the Ukrainian Championships here. I hope that in the near future we will open school sports here, " - said the head of the youth and sports department Roman Khimak.

The Championship of Ukraine on Lake Sirka was held on June 1 - 10 in two stages. About 80 athletes from different regions of Ukraine took part in 11 age -olds. They presented their skills in 4 types of ILCA and Ultra programs, and the assembly of the competition consisted of 12 fleet races. On the last day of the competition, the youngest participants of the competition, in the age categories from 7 to 12 years, class "Terra" showed.

The head of the Galician sailing Association Myron Humenetsky said that for children who seek yachting, the opportunities are now very limited. The number of participants of the Ukrainian Championship has decreased almost 10 times with relatively upstanding competitions.

*!(<https://www.ukrinform.ua/rubric-sports/3720954-u-singapuri-rozpocinaetsa-etap-svitovoi-serii-z-plaznoi-borotbi.html>) "There are many problems at this time, because children need not lose skills, move out the boats. There are participants who have gone abroad and train there, Eperesetans, such as Mariupols who live in Kiev, but stand for [Mariupol](#) . This regatta is not only a event for Ukraine, but also an opportunity for us to develop a sailing of Uregion, and the Yavoriv Sea is quite suitable for this, " - said Gumenetsky.

The partner of the Galician sailing Association Oksana Novikova noted that Tsuvodoim was chosen because she is the largest in the Lviv region - about three kilometers, up to 70 meters.

"It was a sulfur quarry and the water is very clean here. The dance is not surrounded by the forest of the chizabudo, and for sailing sports the main thing is that the wind has a wind. Isudi and participants are satisfied, "she said.

After the awarding of the participants, a concert with the participation of Solomiya Chubai, the Inso-Lviv Orchestra and the Miklukho Maklay ethno-group, as well as treating Ukrainian Cossacks, were treated.

As reported by Ukrinform, the International Federation of Sailing(World Sailing)left valid [removal of Russian and Belarusian athletes](#) By April 20124.

The Verkhovnaraad adopted the bill "On Amendments to Certain Legislative Acts of Ukraine on Clarification of the Provisions for Competitive Selection of Candidates of the Constitutional Court of Ukraine" as a basis.

As Ukrinform reports, he reported this in [telegram](#) People's Deputy Yaroslav Zheleznyak.

For the bill [No. 9322](#) 248 deputies cast their votes with a permanent reading, Zheleznyak said.

Read also: [BP has supported the draft law on the temporary ban on the sale of the selling in Dutay-Frey](#) In particular, the document proposes to determine that the Supreme Court as a court of first -instance defendants to appeal against decisions, actions or omissions of the appointment of judges of the CCU in the process of competitive selection of candidates, decisions, actions or omissions of bodies that evaluate the candidates.

The document also proposes to increase the deadlines for submission of documents to the documents who apply for participation in the competitive selection for the position of judge of the CCU.

The bill provides for the possibility of persons who have intended to occupy a judge of the CCU and meet the requirements, but have not filled all the necessary documents or submitted them with errors and inaccuracies, submit or correct documents within an additional term.

Read also: [Parliament has approved a new version(<https://www.ukrinform.ua/rubric-society/3721117-parlament-uhvaliv-novu-redakciu-zakonu-pro-zahist-prav-spozivaciv.html>)In addition, it is proposed to determine that during the period of martial law against persons applying for a judge, a judge of the CCU, a member of the High Council of Justice, a member qualification committee of judges, a special inspection is carried out, an inspection is carried out by the Law "On Purification of Power".

It is envisaged that according to the criteria of high moral qualities and recognized level competence in the field of law, candidates will receive only 2 estimates - "responsible" or "not responsible".

From the candidates who received the "reply", the advisory group of experts forming a general list, and after that - the rating, where the candidates will be displaced depending on the number of votes for their support.The advisory group of experts makes at least four votes of its members, of which at least two are proposed by the international organizations or the European Commission for Democracy through Right. If, due to the same number of voices for "and" against ", an advisory group of experts cannot make a decision, re -vote is held. If the number of votes in favor of again, the votes of three members of the advisory group are decisive, of which it is at least proposed by the International Organizations or the Venice Commission.

According to the document, the advisory group publishes a decision on candidates who have received the assessment of "not responsible" according to the criteria of high moral qualities or recognized level of competence in the field of law, without motives. The decision with motivation is published only at the request of the candidate who has received such assessment.

It is also proposed to increase the terms for the appointment of persons to the first assembly group of experts.

Read also: [Kakhovskaya hydroelectric power station: Council adopted a resolution of the UN request](#) At the same time, it is envisaged that from the date of entry into force of the law, all processes of selection of candidates for the position of Judge of the CCU on a competitive basis, started by the subjects of appointment and not completed as of the day of the entry intoment of him, are considered terminated without a separate decision of the subjects of destination, and are announced.

According to Ukrinform, 13 judges remain in the Constitutional Court. The quorum requires the presence of 12 judges, and to make a decision –10. In total, there should be 18 judges in the COP.

Post -exploring by the Russian troops of the Kakhovskaya hydroelectric power station, the local reservoir has practically imbued.

According to Ukrinform, the corresponding video is presented in [telegram](#). Famous blogger Igor Lachenkov (TG channel "LACHEN WRISH").

Раніше еколог, експерт з управління природоохоронною діяльністю, екологічної політики та моніторингу стану і якості довкілля, кандидат

технічних наук Максим Сорока на своїй сторінці у Фейсбуці, відповідаючи на запитання українців, прогнозував, що Каховське [водосховище не зникне, але перетвориться на болото](#).

Read also: [through the blasting of the Russians of the Kakhovskaya hydroelectric power station missing 29 people](#)

"The water will not disappear. However, there will now be a temporary swamp in this city. And then the nature will come up with what to do with this territory.

We need to understand that in our climatic conditions a reservoir (of this size of tangotropogenic load) It should be a depth of at least 8 m. This is due to the third factors. First, in order not to freeze in winter (this is important to recover biota). По-друге, для підтримки кисневого режиму влітку. Якщо перегріти стоячі води, то згідно з законом Дальтона, кисень почне випаровуватися, що призведе до мору риби. Третє. Для нейтралізування зворотних/очищених стічних вод та подальшого біологічного доочищення – у водосховищі має бути достатній об'єм води. Нагадую, заводи та ЖКГ Запоріжжя беруть воду вище запорізької греблі, а скидають стічні води у Каховське водосховище. Й інші міста так само", - написав він.

Своєю чергою інші науковці зазначають, що після підриву дамби розпочалося обміння водосховища і його глибина зараз становить трохи більш як 10 метрів. Тобто зараз неможливий забір води для побутових споживачів та на Запорізькій АЕС.

The other day, Ukraine has agreed with the World Bank to rapidly evaluate the losses of rollbacks together with international partners. The assessment will be conducted by analogue with a quick assessment of the damage

caused and recovery needs(RDNA).Про це [зазначив](#) Prime Minister Denis Shmigal during a government meeting on June 9.

According to him, undermining the Kakhovka hydroelectric power station will have long -term consequences. According to Mindovquil, environmental losses are calculated in the amount of UAH 55 billion.

“Huge arrays of agricultural land are also flooded. Under the Agrarian Policy Ministry, 10 thousand hectares are only on the Right Bank. After the ascent of water, soils and more than 30 irrigation systems should be restored.

Only the restoration of hydroelectric power plants, according to preliminary data of Ukrhydroenergo, costs 1 billion euros. Other related work will be the same.

“These are the challenges to which Ukraine and partners should respond synchronously. We will not be about the loss of Ukraine, we are talking about the loss of Europe. The echoes of the therum on the Kakhovskaya hydroelectric power station will be reached to all corners of the continent. Therefore, common-ages need joint action, ”the Prime Minister stressed.

The Cabinet of Ministers of Ukraine adopted a resolution "Some issues of the functioning of the system of catastrophe", which determines the priorities of the development of catastrophe medicine services. The most important thing is that the document clearly defines the distribution and interaction of all units

of catastrophe medicine, which gives new possibility to change and improve work in wartime and in case of extraordinary situations.

About it [reports](#) Government portal.

The resolution stipulates that emergency medical services and medical crash at the national level will be coordinated by the Ministry of Health, and at the regional - regional centers of emergency medical care and disaster medicine.

"We have received a very important document that will give our teams a substance for further development in accordance with the latest standards and taking into account the complicated challenges of the full -scale war. I am sure that such changes will allow heroic doctors to work even more efficiently and rescue more life, "the Minister of Health Viktor Lyashko emphasized.

In addition, the resolution describes the new concept of "catastrophe medical team" in accordance with the international classification of WHO and a group of doctors of different specialties, which are involved in providing various types of medical care as a result of emergencies, including hostilities, as well as allowing to use modern telemedicine technologies.

In particular, catastrophe medicine teams will be divided into 3 types. Mobile teams of type I will provide medical assistance to the victims at the scene of Taevakuya to medical institutions. Type II mobile commands will be a medical assistance to the place of residence or residence. In turn, type III mobile teams will be able to assist the victims at the place of stay using tents or stationary buildings.

The aforementioned changes will allow you to immediately make a mobile team of the desired type, depending on the difficulty of the case.

After evacuating from the flooded neighborhood, many families have been hearded all property with children, now they without any means of existence. About it [reports](#) The headquarters of the consequences of the Kakhovskaya hydroelectric power station by Russian terrorists.

Their homes and apartments are flooded with water, so they are not suitable for living.

Everything that people worked for years have been destroyed. Russia has left these people with no.

The victims could not bring many things or heavy -duty to the evacuation boats, so most only took documents.

[!\(Images/APMIRINFORM/2023-06-10T50-00-00-04-00/photo_2023-06-09_20-08-23-150x150.jpg\)](#)

Now these families are in relative safety, but need more necessary: clothing, food, including baby, diapers for the smallest, bedding, medicines and more.

Thanks to volunteer organizations and indifferent citizens from all over the country, Vherson receives assistance that the workers of juvenile prevention are transferred to the resort.

Today, the targets were taken away by the families with the children with the necessary help.

Currently, police officers collect information for each family about their needs, in order to further convey exactly what people need at some point.

In a comment to Military Media Center Vladimir Gavrilov noted that in the last months of the mood in this region "is very positive in our favor."

"This applies to Japan first and foremost, it was very open to us," said Volodymyr Gavrilov. According to him, South Korea also becomes more prone to Ukraine.

"Countries such as Vietnam, Malaysia, they are already looking more boldly to communicate with us," the Deputy Minister added.

"Everyone understands that aggression has taken place. But in that region the influence of the Soviet Union, and later Russia, is traditionally great. "

"But Russia is simply incapable of keeping some filters in conditions where there are many negatives around the world," Vladimirgavrilov said.

- a year later [Denis continue](#) , he could not be abandoned. And even after the news that he will become a father, the desire to frequently liberate Ukraine from the invaders became only stronger. Like any girl, she used to rush about romantic moments, but during the war everything is not always paused. So the pregnancy had to be reported by the phone when the man barely caught the connection while kneeling in the mud. And the big gender party was abolished in a few days, because even the day could not escape even the day. So we learned the gender of the little one when I was a pink -colored screwdriver. But it's all the little things ... Denis start with me with such tenderness and care that you do not in any movie ... He would be a wonderful dad of his daughter - he was tingled, braid, but I was fishing and football, obviously, took with him ...

Anna painter

Information on the course of hostilities is an element of the operation plan and performing tasks.

About this Deputy Minister of Defense of Ukraine Anna Malyar [wrote](#) On Telegram and showed a photo with Tavriya and Khortytsya presoffers-operational-strategic groups of troops, which are now fighting on the hottest and south of East and South of Ukraine.

As Anna Malyar emphasized, these officers "will find out that there is a Nabakhmut or Zaporizhzhya directions."

According to her, "Information on the course of hostilities is an element of the operation plan and performs military tasks. We develop after consultation with the Glavkom Tafahivtsi, the General Staff of Information Security Strategic Information line during certain military action, and then in 24/7 mode coordinate and correctively with the press services of the Osv and the Armed Forces, depending on the needs of the front."

"That's right now," the Deputy Minister emphasized, "with the Khortytsia and Tavriya press services we work on the scene. We work out what you won't do online."

She stated that the main customer of what and how to submit during the war is the Armed Forces of Ukraine, which form their need - "what tasks they are important to solve with the help of information instruments, and the Ministry of Defense of the Ministry of Defense is put into life by media units of the Armed Forces."

"Our task is to fight information within the plans and tasks that are facing the army," Anna Malyar emphasized.

So she noted during the war, consuming information “worth knowing:

As Anna Malyar assured, "we do not hide from you our victories and the fact of liberation of territories"

She noted that "we have a strong professional team. The Ministry of Defense and the Armed Forces - Severers promptly inform you daily in direct inclusions on TV, induce under fire. We are informed around the clock on the pages of the Ikanals of the Ministry of Defense and the Armed Forces, genera/types of troops and brigades. "

After blasting the rashists of the Kakhovski hydroelectric power station from the Dnieper to the Black Sea, it carries a considerable devastation of the devastation caused by the rashists.

In some places, even houses and fragments, furniture, floating parts of detached sushi with vegetation, as well as things that were used for a variety of activities and did not have in any case to get into water, such as cars, tubes with lubricants, refrigerators, boilers, and more, can be seen in the water.

About it [reports](#) State Border Service of Ukraine.

In Odessa, border guards, patrolling the Black Sea coast, watch that they turn into a landfill and an animal cemetery. The fish begins. Ecocide seeds are horrible.

“At the same time, many mines, ammunition and other extinguished objects are being thrown into the sea, which it throws on the coastal strip. We urge citizens not to neglect their own safety.

If explosive and suspicious items are detected, immediately restriction on them and inform the competent services. Take care of yourself and others!”
—This in the message.

Let these frames be an additional motivation that the civilized world has to make efforts to stop Rashism that bears death, destruction, and Igolod.

The coordination headquarters took place an online meeting with family servicemen of the 44th separate artillery brigade.

About it [reports](#) Coordination headquarters of inquiries for the treatment of prisoners of war.

Representatives of the Coordination Headquarters of the Tamzhi International Committee of the Red Cross answered to the questions of loved ones(ICCН). Серед іншого обговорили питання комунікації працівників Міжнародного комітету Червоного Хреста з родинами.

«Коли ми відвідуємо людину в місці утримання або російська сторона офіційнопідтверджує полон – одразу повідомляємо рідним, – зазначила представниця МКЧХ.– Однак у випадках, коли отримуємо відомості про полонених від звільнених, неповідомляємо про це близьким. Бо такі дані не є перевіреними».

Координаційний штаб не заперечує, щоб Захисники, які повернулися, повідомляли рідним про тих, кого бачили в полоні.

«Навіть даємо їм контакти родичів. Але близькі не повинні розголосувати інформацію про місце утримання своїх Оборонців. Це може нашкодити і їм, і перемовинам про обмін», – застеріг представник Штабу.

Також він підкреслив, що військова частина має повноваження проводити службоверозслідування стосовно зникнення військовослужбовця й надання йому облікової категорії, але не вповноважена займатися пошуком, перемовинами та визволенням з полону.

More than three years of work, the Ministry of Defense has shown that digitalization is one of the most effective tools for anti -corruption. Only in

2020-2021, the economic tant-corruption effects of online services amount to over UAH 16.3 billion.

Creating an interagency working group that will introduce anticorruption digital products will enhance this effect. It is headed by the Viceremier-Minister of Zinnovations, the development of education, science and technology-Minister of Digital Transformation Mikhail Fedorov and NAPC Chairman Alexander Novikov.

About it [reports](#) Minorifra.

According to the State Anti -Corruption Program, 63 digital products are planned to be implemented in two years. In particular, digitors of different areas to resist corruption schemes and fraud:

The Interagency Group will plan and control the introduction of these digital reforms. The group will include representatives of the Ministry of Justice, the Ministry of Justice and the Ministry of Finance. Sometimes representatives of programs and projects that help the Government of Ukraine to reform the public sector.

Together we build a transparent digital state!

АРМІЯINFORM

- They say that the wounded scream, but in fact it is one. Pain shock, manifestation, too, says the fiction of Soviet medicine. It is not. The person,

when injured, feels pain, but not acute. The organism turns on their reserves, and therefore the wounded mostly do not scream. They are scraping, oying, angry. I remember one platoon commander - multiple -lounge wounds, blood loss, fracture. It was at night, we worked with subtle lanterns, I checked the imposed turnstiles, tamming. It is dark, my face is not visible, I work without painkillers, this guy hurts and he says, "Survise - I will give you a muzzle!" And then, already at the stabbon, he saw me, recognized and said: "Sorry, Doc" ... And I, "I have not heard that about myself." He survived, is now recovering.

АРМІЯ INFORM

Deputy Minister of Defense of Ukraine Anna Malyar handed over to the commander of the 5th Separate School Brigade and the deputy commander of the 35th Separate Brigade of the Marine Corps of the Run-Admiral Mikhail Ostrogradsky, the letters were written by the President of Ukraine.

In letters, the President of Ukraine thanked the brigades for the achievements on the battlefield:

-Thank you to every warrior of our 5th separate assault brigade for your power, for how you protect your positions and positions of all Ukraine. To Bakhmut forever in the history of our people's protection and freedom in the world. And I thank everyone for your victory!

-I thank all the soldiers of our glorious 35th Separate Marine Infantry Brigade named after Mikhail Ostrogradsky. You so strongly beat the Russian -host in your directions - Mykolaiv region, Kherson region, and now you are beating in Nadonechyna that on your actions, on your stability, your habitat will study in the future warriors of Ukraine, warriors of free and independent Ukraine!

The Minister of Defense of Ukraine Alexei Reznikov presented departmental awards to representatives of the Community Union "All -Ukrainian Agrarian Council". According to him, representatives of agricultural business, private companies and associations of Ukraine have put a reliable shoulder of Sylaborons from the beginning of the rose -component invasion of Russia into Ukraine.

- You are also the forces of Ukraine's defense and our victory also depends on you. I want to thank you pleasant and honest. Despite the fact that the wedbusiness has stopped many, that the fields are replaced, you have not stopped. You want to do your business, sow fields, harvest and use the country's defense forces. At different international sites, I will always tell you: every Ukrainian will fight, and not as everyone thought that the Great Soviet Army would fight the small Soviet army. We are not the army and the non - Soviet country for a long time. We are others, we are free. We are ready to risk our lives, health, property, property, anything. The main thing is to preserve the gap, our freedom. We will definitely not leave this war to our grandchildren and have been able to win it, - said the Minister of Defense of Ukraine.

[!\(Images/APMIRINFORM/2023-06-10T85-00-00-04-00/nazar_result_2-150x150.jpg\)](!Images/APMIRINFORM/2023-06-10T85-00-00-04-00/nazar_result_2-150x150.jpg)

Alexei Reznikov thanked the farmers from the sector of security and defense forces - not only from the Ministry of Defense and the Armed Forces, but also the National Guard, the National Police, the Border Service, the Security Service and the Main Intelligence Directorate. I also made the belief that we would all "celebrate our victory with you."

Canadian Prime Minister Justin Trudeau announced in Kiev to provide \$ 500 million in new funding for military assistance.

About this [it is referred](#) on the site of the official website of the President of Ukraine.

The Prime Minister also announced the continuation of the agreement on the preparation of Ukrainian military and Canada's participation in multinational exercises of foreign production aircraft and tanks.

In addition, Canada will also hand over the rockets and rockets to protect the Ukrainian sky. Also, according to Justin Trudeau, Canada supports the use of aggressions and other economic measures.

"Canada was the first G7 countries to approve legislation to allow us to ensure the confiscation of Russian assets. Last spring, Antonov landed at the Pearson Airport in Toronto. As soon as he argued, we immediately detained it, "he said, adding that thanks to the legislation, this aircraft was confiscated and now the process of transferring this asset to Ukraine is now being constantly forming so that he was not used by Russia to support her war.

Kakhovskaya hydroelectric power station, the head of the Government of Canada, called the direct result of Russia against Ukraine, which became catastrophic for tens of thousands.

Canadian Prime Minister also spoke about launching a program of psychological support for Ukrainians.

Justin Trudeau thanked Vladimir Zelensky for today's meeting and was supported by further support from Canada.

"The Ukrainian people are inspiration for Canada, Canadians and the world. The tsemment that affects the whole of Ukraine and the whole world. You fight for your country and values such as democracy, freedom, respect, dignity. But, defending Ukraine, you also fight for the future of all of us. Canada will continue to stand with Ukraine and democracies around the world. Thank you, "the Prime Minister said, addressing the President of Ukraine.

I wish health _ ' _ i _ , _ dear _ Ukrainians _ _ ! _

Report for this day. The first is negotiations with Canada Prime Minister Justin Trudeau.

Weapons and shells. There is a defensive package, including the 155th caliber. Coalition of modern fighters and training of our pilots is obvious progress. Unato Movement - There is also a result today.

I am grateful and personally to Mr. Prime Minister, and all Canadians for the constant iodine support for our freedom.

The consequences of the Russian terrorist attack on the Kakhovsky hydroelectric power station were discussed in detail. Canadas who can help us recover from this disaster. We understand one in the steps they need. And it is necessary very promptly.

Of course, we will not stay away and the element through which the canada now passes.

Large -scale forest fires, tremendous natural losses and threat to people ... Ukraine preparation to help with fire extinguishing if Canada requires such international assistance.

Our Ukrainian meaning for international relations is that we should always be able to can be about each other when support is needed. And really help.

I am sure it will become global principles. Mutual action, mutual support, mutual force.

Now, unfortunately, we see that at some levels in the world there is simply a shadebnabisage for ecocide and human tragedy caused by the Russian terrorist attack of the Nakakhovsky Hydroelectric Power Plant.

When international organizations that should protect life on a global scale, even a week do not have time to form and send a rescue mission to a nailed territory when some world entities do not dare to get out even with clear and strong statements that would condemn this next Russian war, terrorists simply terrorists They are fueled by this weakness of the world, with this carelessness - it encourages them. And we have to overcome it. And we will overcome.

We click and encourage that international organizations, international support in the part of Kherson, where occupiers are now.

As of this time, more than 3,000 people have already been eachamed in the Kherson and Mykolaiv region. But again, it is only free-controlled, controlled by us.All this should be a separate fair and rigid responsibility of the Russian state and the Russian leadership.

And international organizations must work where we have not yet deduced our territories. Every life is important - all of Kherson, all south. Every city is Yelselo. We will do our best and impossible to help all people.

I thank each of our rescuer, military and police, local communities and international organizations that are currently operating in the Kherson region of Tamikolaevshchina, all our volunteers - everyone who helps to save the catastrophe zone and animals, animals and life in general ... and tell the world of the people who suffered.

I thank everyone who helps people after the strikes of Russian rockets and Iranian Shahaneda. Odesa... My condolences to the native those whose lives were taken last by Russian terror... More than 20 wounded. Everyone is assisted.

Like every day, gratitude is our soldiers. Everyone and everyone who is in front of the forefront, at combat posts and combat missions. Who destroys the enemy on the earth protects our sky. Thank you all who hold the position and who moves forward. "Khortytsia", "Tavriya" - thank you to each of our hero!

Maximum efforts to return peace to our country, every city, every village, every corner of Ukraine.

Glory to Ukraine!

This week, the official visit of the UK Prime Minister Rishsunak to Washington

took place. The issues of strengthening economic cooperation and the United States, as well as international security were discussed. The main result of the meeting of leaders is the signed Atlantic Declaration. Which means for Ukraine to comprehend the strategic partnership between London and Washington further by the ArmyInform.

The Union of Britain and the United States, better known as "special relations", was formed during the Second World War due to the efforts of Winston Churchill Franklin Delano Roosevelt. At that time, the purpose of the unification was a joint struggle of nobility.

And now, in the face of Russian aggression against Ukraine, strengthening the role of China and Cybersecurity, the US and Britain's partnership for future international relations. First of all, it is the basis of NATO-the main military-political alliance of the West, which realizes the connection of European and Asian security.

Recall that it was Risha Snak's first visit during his premiere to the United States.(Union of Britain, Australia and USA)and artificial intelligence.

The main goal of Snak was to restart "special relations" on the background of the world. Namely: Britain left the EU, three premiere in 2022, a Russian invasion of Ukraine, security threats to the side of Iran.

The main theme, which is at the same time teasing and important not only for Britain, but also US Allies as a whole, is the exchange of the latest defense technologies. Recall that Washington's closest allies, such as Great, Taiwan or Israel, in fact, buy weapons, but according to a simplified procedure. Therefore, there is a need to reduce bureaucratic moments about the rapid access to technology."Collaboration with ancient allies and partners is crucial for the achievements of the United States in the fight against the more dynamic threat from their opponents," the next conclusion makes Deborah Cherton.

Why Technologies are important

The essence of Snak's visit to the United States is to strengthen the economic security of bilateral trade. The United States and Britain have signed an Atlantic, the text of which was published on [Bigolot's site](#) .

JUNE 08, 2023

The Atlantic Declaration: A Framework for a Twenty-First Century U.S.-UK Economic Partnership

BRIEFING ROOM STATEMENTS AND RELEASES

D
Tr

Today the United States and the United Kingdom are announcing the Atlantic Declaration for a Twenty-First Century U.S.-UK Economic Partnership to ensure that our unique alliance is adapted, reinforced, and reimaged for the challenges of this moment.

It is noted that the new partnership will be based on 5 topics:

Provision of US and UK leadership in critical and new technologies * ; Failure to collaborate on economic security and supply and supply chains; * partnership in inclusive and responsible digital digital partnership Transformations ; Creating the Economy of Pure Energy of the Future; Further Strengthening the Alliance in Defense, Health and Space.

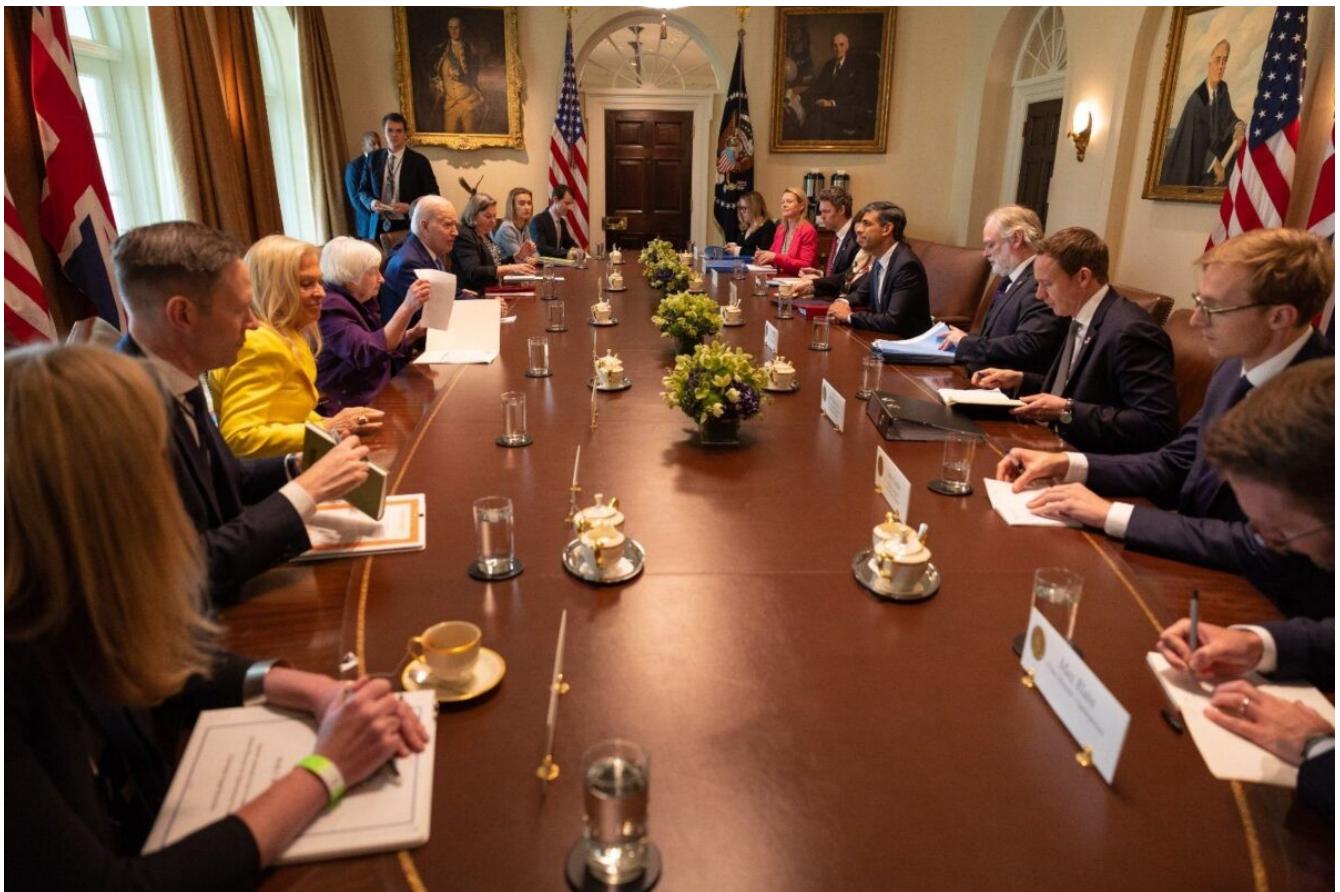

At the end of 2023, a summit on the safety of an artificial intelligence will be held in the United Kingdom. In general, everything goes to the fact that such technologies will be cooked by international efforts to protect against threats.

Separately, two leaders discussed the New Civil Nuclear Partnership. It is especially important as a prerequisite for the sanctions of the US and Britain against Rosatom.

Joe Biden said during the stay of Rice Snak in the White House that "there was no country closer to the United States than Britain." And that's really.

Both leaders have expressed their readiness to support Ukraine in its struggle of anti -Russian aggression. "Together, we provide economic and humanitarian assistance to Ukraine's security trials in its fight against the cruel invasion of Russia," Joe Biden said.

The US President and the British Prime Minister, having signed the Atlantic, confirmed their determination to strengthen the transatlantic security. Especially within joint actions within NATO.

Although there are complex moments, especially economical, between Britain and the US.

Yes, the countries did not sign the Free Trade Agreement - mostly because of political moments to regulate further trade between Northern Ireland Ireland. Recall that Joe Bayden Irishman is in origin and therefore it is personal.

However, the parties agreed to the disappearance of obstacles that affect the nationality of the battery for electric vehicles from Britain to the United States.

The Atlantic Declaration also mentioned the creation of a "new British British-SSE bridge". This means that the British business will be able to transmit information to certified organizations in the US without paying a fee.

What Snak's visit to the US means for Ukraine

First of all, it is about the possibility of prompt access to the latest technologies. For an effective reflection of modern security threats, which relate not only to the conservation confrontation on the battlefield, but also to cyberspace, it is worth establishing a careful exchange of technologies with allies of Ukraine. It is primarily about the US Ibritan.

Providing military assistance, that is, weapons of Ukraine, it is necessary to strengthen production. Simply put, the joint production of weapons will

accelerate our victory and at the same time translate Ukraine's defense complex to NATO standards.

And secondly, the future development of the United States and Britain depends on the further unification of countries for which the main values of Edemocratia, freedom and human rights. And the victory of Ukraine in the war, which was made by Russia in 2014, will mean strengthening of democratic processes, an important part of which is Britain and the USA. We need to do everything in order to punish the aggressor that is a threat to Europe and the world.

The Crimean Korolator blogger Oleksandr Talipov revealed details of the preparation by the occupiers of Kakhovskaya HEPs in his telegram.

About it [reports](#) MOV Intelligence Directorate.

In particular, Talipov was indignant with the posts of the so -called Russian "military bloggers", who reported that the personnel of the invaders were thrown on the islands of Ivona "in critical condition almost on trees." In fact, as explained by the Taulipov, this is all the fake: "I contacted our boys. Everyone came out of the islands. There was no one else's night. There are no losses. Therefore, all the information that is supplemented in this way is a brazen lie."

This is a direct evidence that the Russian military knew about the future terrorist attack and had declared evacuation.

There is a high likelihood that after the wide publicity of this information, the allyraditiously will try to declare the "enemy of the people" or "agent of the Ukrainian Special services". However, the number of such evidence is increasing. They will all become an additional evidence in the future tribunal.

The SBU reported suspicion to 8 more collaborators, including the "Minister of Transport" in Crimea and Gaulayter Severodonetsk.

About it [reports](#) Security Service of Ukraine.

One of the malefactors is the newly appointed "Minister of Transport of the Republic of Crimea", who headed the pseudo -instruction in April this year on the protection of the traitor Aksonov.

According to Moscow, the collaborator provides logistics to the transfer of Russian from the territory of the peninsula to the Southern Front.

In Luhansk region:

Gaulayter Severodonetsk will also be judged for voluntary cooperation with the enemy.

It was found that during Yanukovych's time, the person involved was a mayor of Bryanka and remained in a timely occupied territory. Since 2014, he has headed the occupation administration of Bryanka. After a full -scale invasion of the Russian Federation, he agreed to a new appointment.

The SBU also exposed the former police officer, who after the release in November 2014 joined the LNR terrorist group.

In March 2022, he headed the Police Department in the occupied Novoaydar, delayed the suppression of the resistance movement and the planting of the Kremlin regime.

The attacker has been reported suspicion under two articles of the Criminal Code:

Ще однією ворожою поплічницею виявилась мешканка тимчасово окупованого Троїцького Луганської області.

Під час захоплення селища вона добровільно погодилася очолити « управління бухгалтерського обліку та фінансового забезпечення » у складі місцевої окупаційної адміністрації РФ.

На цій « посаді » вона формує кошторис « бюджетних » видатків для матеріально-технічного забезпечення окупантів.

У Херсонській області:

викрито трьох мешканців обласного центру, які у період окупації міста обійняликерівні « посади » у створеній загарбниками « виборчій комісії ».

Вони організовували проведення фейкового плебісциту щодо приєднання регіону до РФ.

Для цього колаборанти відкрили «виборчі дільниці» у декількох місцевих школах і лікарнях. Далі вони «накручували» голоси на користь країни-агресора.

Під час звільнення Херсона колаборанти втекли на тимчасово захоплену частину регіону і наразі переховуються від правосуддя.

In all exposed facts, comprehensive measures are underway to bring notaries to justice for crimes against Ukraine.

Currently, the UN continues to refuse access to the occupied territory to assist those who suffer from flood.

This was written by a permanent representative of Ukraine at the UN Sergey Kyslytsia in [Twitter](#), reports Ukrinform.

“I and my colleagues in New York have urged Russia to give access to the UN.(UN Humanitarian Gensk Martin)Griffiths says that he did not receive a

positive reaction from the Russian ambassador to the UN, which he met, "he said.

Kyslytsia also noted that the issue of sanctions against the aggressor and his deprivation of the UN member is in the hands of the Council **UN** and its members. The General Assembly, "which is determined on the side of Ukraine", cannot make a corresponding decision without the sanction of Radbeza, where Russia enjoys the veto right, Kyslytsia explained.

This procedure is stipulated by the UN Charter, signed by permanent members of the RB in 1945.
