The Security Service of Ukraine detained the pro-Russian propagandist in the Khmelnitsky pro-Russian propagandist, who assisted the aggressor in the war against Ukraine.

About it [reports](#) SBU press service.

"Even before the full -scale invasion, it was part of the pool of political pioneers who worked for Medvedchuk. It was found that the person involved in the "reputation of" the media image of the Kremlin's associate as a "peacemaker", which is "heard" in Moscow. For this purpose he regularly published his posts on propaganda pre-platforms, "the message reads.

In addition, in early 2020, he voluntarily began to work for the Russian Information "News-Front", which was registered in the temporarily occupied Crimea.

After the commencement of full -scale aggression of the Russian Federation, the person involved in Khmelnytsky has repeatedly spread publications, which called into question the existence of Ukrainian statehood in internationally recognized borders.

He also disseminated the defense forces and spread fakes with a proportional policy situation in Ukraine. The Linguistic Experts initiated by the SBU confirmed the facts of the subversive activity of the person.

President of Ukraine Volodymyr Zelensky spoke at the third meeting of the round table [World Bank](#) on Ukraine's support.

_Text of the speech: _

_ President Malass, thank you for your support. Ms. Director-Managor Crystalina, Mr. Vice president Dombrovskis .

_ ladies and gentlemen ministers, secretaries, heads of international financial institutions... _

Thank you all for this meeting, for your work in this format.

Now Ukraine is experiencing special emotions. Yesterday, Russian sources were widespread on the Internet video of the animal murder of our soldier by the occupiers.

They, in the video, boast about their ability to kill. Apparently, you have all seen what is being said. And you know that this level of violence, this level of destruction, the Russian army tries to make a routine everywhere on Ukrainian lands.

You cannot get used to it. Every time shock as they first do something.

The death of Russia should not become a routine! The long history of Russian freeness should finally stop.

I thank everyone in the world, thank everyone and every one of you who helps Ukrainian to play! But every day ... Every day we lose our people - men and women, adults and children who die from Russian hands ...

I ask you now to pay a moment of silence to the memory of this Ukrainian, whose death saw yesterday, and the memory of all our people whose lives were worn by Russian invasion.

Thank you. This is very important for all of us.

Dear present!

Ukraine will win this war. Only the question of the time when Russian aggression is illuminated.

But the state-zla should not remain a chance to defeat the ruins.

What is the purpose of the terrorist always? To break life. If you do not kill, then cripple. If it is destroyed, then make it suffer.

Any aggressor that hates life-whether it acts at the state level, Yakovia, whether at the level of terrorist group, or at the level of one degraded personality ... The aggressor always enjoys when it destroys. And when the

ruins of after aggression have to overcome for decades. Supporting rapid recovery is literally part of the anti -terrorist work. Cleaning what has been destroyed, we win the main target - we return a normal life.

The second point is assets of the state.

For the first time in history, the world has such a large -scale opportunity to harvest losses from an uncontrollable and illegal war on the aggressor - to be guilty of war.

For example, the World Bank has given a new estimate of the losses and needs of Ukraine with a volume of \$ 411 million. Every day Russia increases this account. The world has Russian jacobes of different species that cover this level of losses!

Potential aggressors in the world are now looking at whether you are doing the right one. Conflicting Russian assets, as well as assets of persons related to the governing building of the state, real. Confiscate and direct that the life of in Ukraine could recover. Russia should feel the full price of its aggression.

Ladies and Gentlemen!

Ukraine appeals to you with two calls. The first: priority needs.

I thank you for the new IMF cooperation program, which is a significant stabilization process for Ukraine. This will help us to fight. But in order for people to turn to Ukraine so that the aggressor will lose not only on the battlefield, but literally, we need the approval of the support program to cover the first -time prospects of rapid recovery. The total volume of such projects is \$ 14.1 billion. Our government officials, who are now in Washington, are presenting.

And second. It is already necessary to work on specific mechanisms of directing the frozen Russian assets to compensate for the losses caused by Russia. Treachitko declare that assets, including the assets of the Russian Central Bank, will be confiscated. It will be the peacekeeping act - an inflammatory scale. Potential aggressors should see it. And remember that the world can be strong.

There may be different formats of decisions, but the faster and more effective decisions will be, the more to the more will be peace after this war.

Ladies and Gentlemen!

There are no minor fronts in the war. Everyone needs attention and strength. Financial front - especially. We do our part of the work and I am grateful to everyone who helps. But fundamental solutions depend on you.

I believe they will be approved!

Thank you for your attention! Glory to all who are now in battle for life and freedom for our people!

Glory to Ukraine!

The invaders in the Donetsk region. Illustrative photo

The enemy exports documentation from pension funds on temporarily occupied territories(THAT).

Про це [повідомляє](#) The Center for National Resistance to Special Forces.

"In particular, from Donetsk to the Russian Federation, pension affairs are taken from all major populated points that are temporarily captured by the enemy. At the same time, Moscow set the task to take all the cases by August.

At the same time, this is presented, as if because of the technical inability to process the information on the Tot, as well as to "facilitate the evacuation of" retirement age ", - the message reads.

The National Resistance Center reminds that since March 1, the payment of pensions for Tott is available in the presence of an enemy passport. At the same time, the certification in the region is slow, and a large number of population ignores the receipt of the passport.

ПРО ЩО СВІДЧАТЬ НОВІ ПРАВИЛА ПРИЗОВУ ТА ВРУЧЕННЯ ПОВІСТОК У РФ?

Under the cover of the conscription in the Russian Federation is gaining momentum. In addition, unlike the first part of partial mobilization, even Moscow and St. Petersburg joined the necessary indicators, in addition to depressive regions of the Russian Federation.

On March 30, Putin signed a decree on the six -year spring conscription military service from April 1 to July 15, during which 147,000 Russians between the ages of 18 and 27 will be drafted. Russia conducts two calls a year, during the spring call is usually called 134 thousand Russians. At the same time, according to British intelligence, the Russian authorities are preparing to develop a large campaign for a set of additional 400 thousand servicemen.

And in order for the Russians to be left with a chance to avoid conscription, the State Duma would accept a series of laws on the creation of a Unified Register of Military Treatment of Electronic Tales on April 11.

The adopted package of laws is as rigid as possible and actually introduces the preinterpretation of guilt. It equates electronic reports to paper and a closing visit abroad to citizens who will fall into the register. The introduced electronic statement will be considered as prescribed from the moment of placement in the personal office of the state service "State Services"(The only platform of public and municipal services of the Russian Federation). Тобто чоловік може не знати, що йому виписана повістка, але через 7 днів післяїї формування він автоматично стає злочинцем. Нові правила торкнуться як строковиків, так і всіх військовозобов'язаних, а за їх ігнорування ухилянням загрожує низка покарань. Серед обмежень: заборона на реєстрацію індивідуального підприємця, на державну реєстрацію транспортних засобів, водіння, відмова в укладенні кредитного договору та договору позики.

Звичні схеми ухилення за такого механізму неможливі, як неможливо і легальнозмінити військову службу на альтернативну, тобто росіян поставили у безвихід, якої не було з часів радянського союзу.

Характерно, що влада продовжує наполягати, що нововведення не пов'язані з мобілізацією, а лише поліпшують процедуру вручення повісток і військового обліку, а проведення мобілізації зараз в країні нібито не планується.

До чого може привести новий призов і чи посилить він військовий потенціал зсрф?

Secondly, Putin is unlikely to decide to use the recently called troops in Ukraine. In addition, the chairman of the State Duma Committee of Rfartpolov emphasized that during the spring conscript cycle of 2023, the prisoners will not go to Ukraine. Against the backdrop of social tension of tamas protest shares due to the departure to the front of recruits, the winter and spring prison of 2022, it is doubtful that Putin will risk repeating a mistake due to the stability of his regime.

Third, the use of innovations will predict a sharp burst and provokes a new wave of emigration and other methods of boycotters. The Levada survey shows an increase in the "request for peace" in Russian society. If in the first months for the "war before victory" and for "peaceful interpretations" was expressed an equal number of citizens(approximately 44%), then after the

first wave of mobilization - already 60% for peace, and only a third - for the continuation. In the Russian segment of the Steam Game Platform, even the viral distribution of the computer game "Simulator Escape from the military enlistment office", the character of which the youth Russian is doing everything to avoid the call.

Therefore, conducting hidden mobilization under the guise of "Putin's call" of Taurus of digital authoritarian tools will not help the Kremlin achieve goals in Ukraine and consolidate power within Russia.

The same "Neptune" rockets of Ukrainian missiles were affected by the same "Russian ship" - the flagship of the Black Sea Fleet of the Russian Moscow missile cruiser, which drown the next day.

Mood of annual antiquity [remembered](#) Minister of Defense of Ukraine Alexei Reznikov.

"The event was so inspiring and incredible at the same time that many seemed to be true. After all, Russia has lost its flagship of overpayment ago, "he said.

Our warriors, according to Alexei Reznikov, made it seemingly impossible. It changed the course of history. Because the chain reaction began. It was the last day of the Russian fleet on the Black Sea.

" **first** , the successful use of Ukrainian missiles at such a distance has convinced partners that there is no point in delaying the transfer of Harpoon missiles.

*!As a result, this led to the escape invaders from the island of Snake, which they called "a gesture of goodwill."

Third , the release of the snake made it possible to open a "grain corridor". Our products were worldy supported, Ukraine has received resources for defense. If it was not possible to make Moscow, it would be impossible to achieve this result.

As a result, the Russian fleet is forced to hide south and east of the Crimea. Kremliv's dreams of landing in Odessa remained in the past. Now the Russians can be cowardly firing civilians from the air, " - said the Glava of the Defense Office of Ukraine.

Alexei Reznikov summed up: the main conclusion from this story is our country and to decide how to protect it. Even if someone still cares about Kreml's face.

"It is proven in combat that Made in Ukraine weapons are able to cope with more acquired tasks and protect on level with the best partner development. The development of the Ukrainian MIC is a priority because it is an element of our respectiveness.

Our success on the battlefield is the key to what they will support us, " - he is convinced.

So now the most important thing, as the head of the Ministry of Defense of Ukraine noted, is to support our defenders and defenders, to maintain unity, step by step to the goal. Victory is inevitable.

As a result of a large -scale war, resolved by Russia against Ukraine, the UOC IPShzczko loses authority in the midst of Ukrainians, but tries to stop this process by aggressive actions.

About it in an interview with the Armyinform told Head of the Department of Religious Studies of the GS Skovorodyan of Ukraine, Doctor of Philosophy, Professor Alexander Sagan.

“Large -scale invasion and missiles that fall into our cities and villages, the preaching of the Moscow Patriarch Kirill, in which he not only supported but also urges to destroy Ukrainians.(For that he even promises "release of sins" and get into paradise), суттєво змінили ставлення багатьох українських віруючих до московського патріархату. Соціологи стверджують, що рівень підтримки УПЦ МП зменшився з 15% (to a large -scale invasion) to 4% (As of April 2022), - he said.

According to him, at the same time in Ukraine significantly increased supporters of the idea of connection of the UOC -MP with the Moscow Patriarchate. Thus, in March 2022 it was supported by 63% of respondents, and in April this year-already 74%(Sociological Research of the Rating Group).

«Керівництво УПЦ МП намагається компенсувати таке катастрофічне падіння рейтингу церкви своєю агресивною поведінкою та звинуваченням держави Україна внібіто „рейдерських захопленнях“ храмів. Робиться багато заяв, особливо для іноземних ЗМІ, в яких перекручують очевидні факти чи маніпулюють ними», —сказав Олександр Саган.

The secretary of the National Security and Defense Council of Ukraine Alexei Danilov acted that Ukraine is currently receiving more weapons from partners, but to say that it is enough, the Ukrainian military cannot.

He stated this on the national telephone "Unified News".

"Today we are getting more and more help from our partners. But what is enough or not enough of these weapons, I will tell you that it will never be enough. There is no such phrase as "sufficient arms" in the war. Our military has a great desire to have weapons as soon as possible in order to destroy those terrorists who have invaded our territory as soon as possible, "the NSDC secretary stressed.

He also noted that there were "certain delays" in the supply of weapons, which partners of Ukraine were referred to.

"I want to pay attention to the President's words that we are waiting for the promised help of our partners. I can note that, unfortunately, not all partners have gone over. Supply is going now - I cannot say that it is not - but there are delays on certain issues. We will assume that this is a temporary -maturity that will be worked out, "Alexei Danilov said.

He also stressed that Ukraine rests not only on partners, but also on "many other channels" that allow you to buy weapons for defense forces, the process continues daily.

At the same time, the NSDC secretary did not specify what kind of weapons it was.

She told about it exclusively in a comment to Ukrinform correspondent after the trainery at the Ukrainian Fencing Championship.

"We cannot participate in competitions with athletes from Russia and Belarus, so if they come, we will not compete. The decision of the Ministry of Sports of Sports is very difficult, which is probably both the President of Ukraine and the Ministry of Justice. I cannot say that it will all be supported by 100 percent. We have one enemy, Russia, which is now on our earth, to do everything that is not allowed. If they are allowed, for sports, including fencing, very difficult times will come, "she said.

Harlan also emphasized that it was necessary to do everything to keep Russians and Belarus not to the Olympics.

"I would say a lot(President and Mok Thomasu Bachu - Red.), but, I think, all athletes, in particular I, we make comments to foreign media, in which we express my opinion. It is very difficult to hold back emotions, but we need to convey to the world what is happening, and why the Russians should not be at the Olympics, " - said.

Today, on April 14, Olga Harlan took part in the Ukrainian Failure Championship in Kiev, where she took first place.

"I missed Kiev very much, for Ukraine. At home is always good. It is even better. I evaluate my physical condition well. It is more difficult about psychological, moral state to speak. I train regularly, get ready for the Olympic selection. Since the situation is very difficult with everything, the big question is whether we can get to the competition, "the Olympic fencing champion said.

I wish health, dear Ukrainians!

He spoke with Rice Sunak today, Prime Minister of Great Britain.

First of all, I am grateful to him and all the leaders of the world who have condemned the brutal murder of a more soldier, the murder to whom the invaders swayed.

The invaders feel what it means when the world is condemned.

We discussed with Prime Minister Sunak's weapons for our soldiers-we were about to speak with Britain, what will help our active actions, quite fair actions. Discussed the acceleration of supply...

The more farm the Ukrainian actions, the faster the Russian relations will end.

Of course, we continue our work on the aviation coalition for Ukraine, the preparation of various international events that will give us all in Europe more and protection. It is obvious that the place of Ukraine is in NATO, a legitimate place. And we do not want to have the same illusions, which still held back our accession to the Alliance, and also aumed time to take time from Ukraine and partners. We develop correspondence.

Today, however, he held a meeting on the restoration of our country - the restoration of post -fighting. First Vice Prime Minister Yulia Sviridenko, Vice Prime Minister and Ministry of Recovery ...

They discussed what is concerned with infrastructure, economy and many other questions that need answers, very costly answers. We work in the countries of the country, and with partners for the sake of the systematic

restoration, for the kind, that the result meets the expectations of our society - quite highly. I am sure we will do everything.

During the day he was in touch with the military, held a meeting with the head of the Service of Ukraine of Ukraine, he held a meeting with the head of GUR Budanov.

The key is the constant destruction of the invaders, it is the "minus" of their logistics and any potential in the occupied territories, it is the preparation of our active events, it is countercurrent work. And I thank all our warrior soldiers, who remember that for every Russian blow to our cities, in our positions, for every murder of Ukrainians, the occupier must suggest their maximum loss. Each meter of Ukrainian land should be determined for the occupier by the inevitability of the loss of Russia in this war, the inevitable that there will be no prospect for the enemy on the land of Ukraine.

by a spokesman for the Eastern Grouping of the Armed Forces of Ukraine Colonel Cherevaty.

The main shock force of the enemy is the mercenaries with the Wagner PEC, who will be attacking the attack under the fear of execution. At the same time, due to the great loss of the management of this terrorist company, it is forced to involve in its formations to support the regulatory landing units of the Armed Forces of Russia, which we will also successfully.

"The heroic actions of our defenders are the enemy," said the spokesman. - And it has been around for about nine months. Such actions do not only significantly reduce the potential of our enemy, but also to win the time to prepare our troops for offensive actions. Also, the Russians try to dacha in the Kupyansk-Liman direction. However, there is a significant development of the activity of their actions. There were two fighting collisions a day. At this time, 413 shellings of different artillery, seven aircraft were recorded there during this time. Ukrainians destroyed 35 invaders and 68 wounded. The T-72 Tratan, three infantry vehicles, including BMP-1, were also destroyed.

-It was on the destruction of BMP-1 that you would like to focus on,-the officer added. The year is that the leadership of the Russian Armed Forces at one time was redeveloped that it had re-equipped its troops and completely reduced from the armament of BMP-1. But now we see that this does not match the realization.

With regard to the possible mass production of Russia, the winged rockets of the type X-50, Colonel Yuri Ignat noted:

According to the officer, the statement of the Russian leadership to restore the production of vascular missiles X-50, which were developed in the Soviet Union, is due to the fact that our enemy has more resources to produce this kind of preference.

"This is a rush rocket winged at a speed of 850-900 kilometers per hour," he said. - And the fact that Russia has declared the intentions of its production, only a blank statement. Because it is not so easy to start such production in the conditions of sanctions.

Today, hostile IPSOs were again concentrated on the topic of Bakhmut and launched all the narratives - allegedly Ukrainian military command does not spare the life of the Vivkov - [noted](#) на сторінці у FB Ганна Маляр. — Це вже не вперше, коли ворог забирає собі наші тексти про них і видає за власні.

Мета таких ворожих вкідів — підірвати довіру до рішень нашого військового командування та спровокувати невдоволення українського суспільства.

Насправді ж, цифри і факти говорять самі за себе. Втрати ворога у Бахмуті врази вищі. Бувають дні коли різниця сягає 10-ти разів.

Не шкодують людей ті, хто дає команду наступати на нашу землю і хтось концентрував у Бахмуті найбільші свої зусилля аби будь-якою ціною взяти містопід контроль.

Ми ж натомість обороняємося і зупиняємо ворога від просування вглиб території. На жаль — це війна, і без втрат оборона неможлива.

Збереження життя наших бійців — приоритет військового командування, чим військові не раз пояснювали прийняті рішення під час публічних комунікацій.

President of Ukraine Volodymyr Zelenskyy said During his video address:

“I wish health, dear Ukrainians!

He spoke with Rice Sunak today, Prime Minister of Great Britain.

First of all, I am grateful to him and all the leaders of the world who have condemned the brutal murder of a more soldier, the murder to whom the invaders swayed.

The invaders feel what it means when the world is condemned.

We discussed with Prime Minister Sunak's weapons for our soldiers-we were about to speak with Britain, what will help our active actions, quite fair actions. Discussed the acceleration of supply...

The more farm the Ukrainian actions, the faster the Russian relations will end.

Of course, we continue our work on the aviation coalition for Ukraine, the preparation of various international events that will give us all in Europe more and protection.

He held a meeting today on Euro -Atlantic integration, on the inevitability of building potentials of Ukraine and NATO. Substantive meeting: Chairman of the Verkhovna Rada, officials-profile Vice Prime Minister and Foreign Minister,-Outdoor Political Block of the Office, Head of the Office.

It is obvious that the place of Ukraine is in NATO, a legitimate place. And we do not want to have the same illusions, which still held back our accession to the Alliance, and also aumed time to take time from Ukraine and partners. We develop correspondence.

Today, however, he held a meeting on the restoration of our country - the restoration of post -combat actions. First Vice Prime Minister Yulia Sviridenko, Vice Prime Minister and Ministry of Recovery ...

They discussed what is concerned with infrastructure, economy and many other questions that need answers, very costly answers. We work in the countries of the country, and with partners for the sake of the systematic restoration, for the kind, that the result meets the expectations of our society - quite highly. I am sure we will do everything.

During the day he was in touch with the military, held a meeting with the head of the Service of Ukraine of Ukraine, he held a meeting with the head of GUR Budanov. The 14th Brigade and the 1st Presidential Brigade of Operations Guard-Thank you guys for stability! 54th Separate Mechanical Variat named after Hetman Ivan Mazepa, 5th Separate Storm Brigade, 77-MOROCE APPRY BRANCE-Well done, warriors! Keeping defense on Donetskinarase is the hardest. But it gives life to Ukraine.

Rescue work is now underway in the Slovian Donetsk region. Another strike of terrorists. C-300 rockets in residential quarters, on ordinary civilian. There are people under the rubble. Everything is done to save them, everything is done to save the wounded. There are first data on the dead. My condolences to the herself, he wrapped my relatives.

One hour this week was not without Russian murder of Irotera. This is a zlo state, and it loses. To win is our duty as a pre -humanity as such. And we will win!

And one more. What has long been needed for a solution for a long time. The life of Mikhail Saakashvilism does not depend now not on the political, not a personal but purely devastated solution ... which has a clean and significant legal framework. If a person is needed for help, if life depends on it, then this step is needed. I know that Michael's lawyers have now submitted an urgent appeal to the ECtHR to ensure that he or she has proper treatment. And it seems to be the only way to keep life.

Thank you all who oppose evil with Ukraine! Glory to all our soldiers who are now in battle for the state and people!

Glory to Ukraine!".
