Russia prepares a man -made catastrophe in Crimea, in particular, in the territory of the temporary -heated Armenian Rosarmia changes the shops of Crimean Titan, which uses technological ammonia.

About it [reports](#) MOV Intelligence Directorate.

"Due to the enemy, a terrorist attack on the Kakhovka hydroelectric power station and, as a consequence, the absences in the North-Crimean Canal Production processes at the Crimean Titan plant in Armenian violated to a critical level.

To restore work in the minimum proper mode, the Russians consider it impossible. On the territory of the temporarily occupied Armenian circulate information about the probable drill of "Crimean titanium", - the message reads.

At the same time, the engineering units of the Occupation Army of Muscovy have been changing the workshops of the enterprise for the last days, which are currently continuing to work, as well as laying explosives in the factory and adjacent territory.

GUR MOU emphasized that the terrorist attack at the enterprise "Crimean Titan" means a means of a technogenic catastrophe that will have horrible consequences. After all, about 200 tonnetechnological ammonia is used by the heart -making equipment of Crimean Titan.

"In the case of an explosion at the plant, the ammonia cloud, depending on the wind direction, is covered with adjacent areas for half an hour.

Okupovannarmen, Krasnoperekop district and southern districts of Kherson region will be threatened, "said Ukrainian intelligence.

Also in the temporarily occupied Armenian in the north of the Crimean peninsulas prepare for evacuation both representatives of the occupation administration, and the impr.

In Kherson, the curfew's extension was initiated in order to promptly eliminate all the subsequent consequences of the hydroelectric power station.

The Minister of Internal Affairs, the Head of Works on the Elimination of the Consequences(<https://www.kmu.gov.ua/news/budemo-initsiuvaty-podovzhennia-komendantskoi-hodynny-u-khersoni-dlia-toho-shchob-my-mohly-operatyvno-likviduvaty-vsi-podalshi-naslidky-pidryvu-hes-ihor-klymenko>)During the headquarters in Kherson.

Before the meeting, the minister visited the city's ship Square and the Odiv Od district, from which the water gradually leaves. Utilities were already working on the streets that were heated a few days ago.

"The water level falls, quite rapidly. There will be a lot of work for utilities, because the roofs of cars, trees, metal structures, garbage are already appearing. We have a task to remove everything quickly, "Igor Klimenko said.

In order to accelerate the process of eliminating the consequences of the hydroelectric power station, the nearby days of the city are sent additional forces of public utilities from other regions, as well as specialized equipment. One of the main issues is the safety situation in the zoning situation.

"I gave an order to strengthen security measures in the territories - to injure the injury of locals and looting. Today, we will initiate the extension of the curfew for us to be able to eliminate all the further consequences of the hydroelectric power station, "the Minister of Internal Affairs of Ukraine reported.

The participants of the staff heard the report of the Deputy Minister of Health Igorakuzin.

According to him, today there are no outbreaks of infectious diseases, centralized water meets the standards. However, the residents of the victims will not be used to use water from wells, it is necessary to disinfect the drinking water. Bathing in reservoirs is strictly forbidden.

Daily in the areas affected by the Kakhovka hydroelectric power station, almost 150 samples of water and river water are selected. In addition, specialized laboratories of the Center for Control of Diseases of the Ministry of Health of Ukraine will be launched in the Kherson region.

In Vinnitsa, a powerful bot farm that worked in favor of the aggressor country was blocked. As a result of complex measures, three organizers were detained.

About it [reports](#) Security Service of Ukraine.

Specialized equipment allowed the attackers to register up to 500anonymoon accounts daily on different social networks, including the prohibited in Ukraine.

"Ready-made" bots "of the persons who were sold or leased to Russian SMM agencies that work under the roof of the special services of the Russian Federation. Only for the "lease" of one -account of the dealership every day earned up to 20 UAH. Money was received both through their own and bank cards, "the message reads.

According to the case file, Russian clients of the bottlefare used fakeails for the mass "acceleration" of pro-Kremlovsky narratives on the situation of Nafronto and the socio-political situation in Ukraine.

Also, Russian online agitators justified armed aggression against Ukraine to support the racists, in particular in the international arena.

According to the investigation, the organizers of the Botoferma were three inhabitants of Vinnytsia. They installed specialized equipment in the rented garage.

The defendants are currently planned to report suspicion of unauthorized operations in the operation of electronic computers(computers), automated systems, computer networks or telecommunication networks.

The attackers are threatened with up to 15 years in prison.

Despite the fact that Russian propagandists are constantly expressing on the air the desire to undermine the dam of Kiev hydroelectric power station, it is almost impossible to do so.

This was emphasized by the First Deputy Minister of Defense of Ukraine Lieutenant General Oleksandr Pavlyuk in Televahorfon "["Edininovy"](#)" In an interview with journalist Andriy Tsaplienko.

It is possible to destroy the dam of the Kiev hydroelectric power station only by blasting the inside, as it was made by the Russians with the Kakhovka hydroelectric power plant, or through the use of nuclear weapons.

Instead, it is impossible to cause critical damage to the Kiev hydroelectric power station with rocket strokes.

Today, on June 12, the first medical association of Lviv presented the results of osteointegration prosthetics in the history of Ukrainian medicine. The first

patient who was performed in our country was a stable defender who lost both feet in the war.

About it [reports](#) Ministry of Health of Ukraine.

Osteointegration is the latest technique for our country: during surgery, prosthesis is implanted directly into the bone. And after healing and recovery, the artificial foot is precipitate.

The first patient with osteointegrating prostheses was the 57-year-old captain of the Armed Forces Igorkronov. A man from the Dnieper. He is a Afghan veteran. In 2022, to voluntarily go to Ukraine. The extremities lost in the fall as a result of blasting the machine on a mini.

Now - more than six months after the loss of the limbs - the Ukrainian warrior already goes without a wheel chair. Wash and brushes his teeth, standing on artificial foams, walking and even steering the car.

The unbreakable defender shared the first impressions of walking on osteointere -giving prosthesis: "I go more and more confident and it is very pleased. Next - socialization, work, assistance of the front. Because the war is not over. It is very upset that many people have already ended. And you need to play long and get a nursing!".

Currently, Igor Krupnova's rehabilitation is ongoing and he is engaged in physical therapists daily.

It should be noted that this recent technique has its restrictions:

Recall that in April this year Igor Krupnov [used](#) Implants. The first osteointegration in Ukraine, together with Lviv surgeons, performed the gurus of this name-the Australian orthopedist-traumatologist Muned Al Muderis.

In the Council of Europe Parliamentary Assembly(PACE)They also approved the Declaration of the International Committee of the Red Cross and the international community to demand that the Russian Federation comply with the rules of international humanitarian law on Ukrainian prisoners of war.

About it [reports](#) Coordination headquarters of inquiries for the treatment of prisoners of war.

The PACE written declaration, in particular, states that the Russian invading war of Ukraine is extremely cruel, and Russia violates all possible normative law.

“Disrespect for international humanitarian law, in particular the worthy treatment of closed-toned ones, is another systematic failure to comply with the Russian Federation of international legal obligations. The aggressor country is systematically refusing the International Committee of the Red Cross in access to prisoners of war, ”the message goes.

It is noted that the written declaration was signed, in addition to Ukraine, by representatives of the Liton, the United Kingdom, Iceland, Estonia, France, Poland, the Netherlands, Lithuania and Sweden.

All these countries called on the Russian Federation to respect and promote access to the ICRC.

"Although we appreciate the efforts made by the ICRC to obtain access to Ukrainian -bearing, the current negotiation strategy has not brought the necessary results. Therefore, we urge the ICRC to revise our policy - confidentiality, to mobilize third parties and, after all, publicly condemned the violation of the Russian Federation of International Humanitarian Law by the Russian Federation. There should be objective limits when it becomes obvious that silence no longer brings useful, "the signatories said.

The criminal activity of another occupier is documented-the head of the group about work with the personnel of the 376th separate battalion of operational purpose of Russia Konstantin Yudin. He demanded that the Ukrainian prisoners respond to his question exclusively in Russian, and disappeared.

About it [reports](#) Security Service of Ukraine.

In early April 2023, in performing the duties of one of the leaders of this military part, he arrived at the place of deployment of the Russian checkpoint.

Then on the territory of this checkpoint of the Russian Federation were Ukrainian-willed, whom the occupiers wanted to involve in the dismantling of fortifications.

However, Yudin gave another order - to lift prisoners of Ukraine's defenders for demand. First of all, he was interested in the personal data of the defenders of our country and prisoners of captivity. At the same time, Yudin demanded to respond to his question exclusively in Russian.

According to the investigation, one of the prisoners answered him in Ukrainian. After that, the rasher took the man to an outbuilding on the territory of the checkpoint and, threatening with weapons, ordered to become face to the wall.

Then Yudin fired from the gun into the right leg of the victim, as a result of the prisoner he received a gunshot crown of the knee joint. Rashi said his demand to talk to him only in Russian, but the Ukrainian refused to follow the enemy instruction.

Then Yudin fired another shot near the head of the prisoner, but it also unmanded the Ukrainian. After that, the malefactor dropped the victim to the other prisoners and threatened that he would shoot them, when he will hear the Ukrainian language.

On the basis of the evidence collected, the investigators of the security services informed Yudin proading in violation of the laws and customs of war. Complex measures are underway to punish the attacker for his crimes.

In an exclusive comment on the correspondent of Armyainform Manuel Joannnomnz reported that she has more(PTSR)It has been seven years old. This concentrated practical work was mainly aimed at overcoming PTSD from Canadian servicemen who participated in peacekeeping missions, in particular in Afghanistan, police, firefighters. In total, more than 800 people have passed through the program.

The course of lectures began with a moment of silence for the dead as a result of armed aggression of the Russian Federation against Ukraine. In her introductory speech, Manuel John said that it is a great honor for her to speak to those who heroically defend her father.

The head of the Humanities Institute, Professor, Colonel Vasyl Osodlo, congratulating a foreign lecturer, noted that the topic of these lessons is extremely valuable, because the uncontrollable war that the Russian federation has begun is very cruel.

The Canadian psychiatrist offered 6 training modules. During the first student, they will find out what PTSD is, moral and institutional injuries, which are related to each other. The second module will be devoted to the study of problem depression, anxiety and dissociation. The third is to overcome suicidal moods. The fourth will determine the methods of early intervention, which will be useful for the development of PTSD development after traumatic incidents: diffusion and debting. Two modules will consider ways to increase the resistance to PTSD tamorial trauma, and the problems From mental health and psychologists.

Russia has been getting components to produce missiles from companies in the world, including partner countries of Ukraine.

Ukrainian representatives met with diplomats of these states, informed President Volodymyr Zelenskyy in the evening [video message](#), reports Ukrinform.

"Unfortunately, Russia is still able to receive critical components for production [missiles](#) which are created by companies of slim countries, including companies from some partner countries. These components are then supplied to Russia by different units. If we take, for example, one rocket that hit the crooked horn today, then about 50 components in it - mainly microelectronics - produced in other countries, "he said.

The President said that on Tuesday there was a meeting of representatives of Ukraine with reports of the respective states.

According to him, there is a list of companies that supply Russia's components for guns, and there is an understanding of how Russian terrorists try to deceive the world.

"We are waiting for conclusions and quick actions that will stop Russian rocket terror," Zelensky emphasized.

He recalled that Ukraine has applied for all companies in Russia, which is being issued rockets, emphasizing that such complete sanction restrictions should be at global level against all of them.

The head of state also insists that every way of bypassing sanctions should also be patronized at the global level and should be as exacerbated by exported control over critical components.

"If someone is a mediator or works with Russia to terrorist and continue to blow up dwellings and kill people, then such entities - business or state - deserve the reaction of the world. Hard reaction. There is information about this with partners. It is definitely cheaper - once to block the ways of supplying components for terror to terrorists, it is always possible to spend new and new air defense for aircraft, "the President added.

Next week, the European Commission may activate the mechanism of providing direct help by European farmers to "suffered" from excess grain import of Zauzraina, to counteract the crisis, triggered by the war of the Russian Federation, and to respond.

The European Commissioner for the Polish farm Janusz Wojciechovsky said this in Stockholm today in Stockholm, following this in Stockholm, in

Stockholm, in Stockholm, in Stockholm, in Stockholm, in Stockholm, in Stockholm, in Stockholm, as a result of the informal meeting of the EU, EU, the EU for the village farm, correspondent.

"To activate these payments is necessary" Green Light "from the President [European Commission](#) . We adhere to some additional information from Member States. There were some problem border between Poland and Ukraine, now, according to my information, they are rested, and there are no problems in the transit of goods between Poland and Ukraine. We need information from 22 Member States with the justification of their queries. I hope this decision will be made next week. The main reason for the use of the crisis reserve is that we have a crisis, "the European Commissioner has taken up.

He recalled that the European Commission has done everything necessary to make it possible to use an extraordinary EU agricultural reserve. From the beginning, this fund was 450 million euros a year, and has already been partially used. The first payments of 44 million euros were made for Poland and Italy to respond to the results of the Ptx flu, another 56 million euros are directed to Romania, Bulgaria and Poland as the first response of the EC to the crisis of grain import of Zauzraina. Later, the European Commission proposed payments to another 100 million euros of five neighboring countries with Ukraine whose farmers were "injured" by agricultural imports from Ukraine.

Based on the current situation, the EU has decided to increase the reserve fund to 530 million euros a year and make direct payments for farmers to the remaining 22 countries, which also experience the consequences of Russian aggression against Ukraine, including growth of energy prices, fertilizers and increased production costs, along with climate impact factors, in anticipation of the large -scale drought already. **Read also:** [that won't kill us, will make it stronger: lessons grain Crisis for Ukraine and the EU](#) On May 25, the EU Council approved the Regulations on the continuation of the EU and Ukraine regimen trade, which continues to suspend all customs records, quotas and trade protection measures for Ukrainian exports to the ESRS for a year, until June 2024. These regulatory rules came into force on June 6 this year.

At the same time, the blockade of the Black Sea ports by the Russian Federation has led to a slim increase in the volume of transportation of Ukrainian grain and other farm goods with land, due to the "corridors of

solidarity" on the border with neighboring countries, which significantly affected the domestic market of these countries and caused protests from local farmers.

On April 28, the European Commission agreed with the four neighboring countries of Ukraine - Bulgaria, Hungary, Poland and Slovakia - a package of measures that the mangiest after the mentioned countries have abolished their sole actions of anti -agrarian imports from Ukraine. This package limits imports into the territory of the aforementioned countries, as well as Romania, four key products from Ukraine - wheat, corn, rapeseed and sunflower seeds, although it preserves the possibility of transit of goods to other EU countries and the world market.

These restrictions were extended within the framework of the already updated duty -free trade between the EU and Ukraine, which provides for such precautionary measures of rebellious circumstances and will be effective until September 15, 2023.

In 2015-2019, Volodymyr Yelchenko stated that the UN 2015-2019 Ukraine stated that he had been rebellious from the UN of another reaction to the dismantling of the Russians of the Kakhovsk Hydroelectric Power Plant, as the bureaucratic structure that makes the decision for a very long time.

According to the Ukrinform correspondent, the diplomat said this in the Eviritelvahorphone "One News" in response to the question of how adequate the UN reaction was.

"I did not expect another reaction to be honestly, because [UN](#) -It is a very bureaucratic structure where the praise of decisions, and even more so difficult, even catastrophic issues, as the undermining of Kakovsky hydroelectric power station, sometimes not even days, but weeks and months, "Yelchenko said.

According to him, this means that the UN is actually behind the time we are wearing.

"It seems to me that this is the main defect in the organization. That is, the system that was created with the signing of the UN Charter in 1945 may have been in time for several decades. But when we have moved to the so-called technological age we live now, when some questions are expedited for even minutes, and seconds, and the mechanism of approval of the UN decision remains the same as it was 80 from something years ago, of course, it cannot suit it Not only Ukraine, "Yelchenko said.

He added that the same dissatisfied countries can be found in Africa and Asia, Ina of the Middle East.

"That is, everyone always criticizes the UN and dissatisfied, although, in principle, all the Crains form the same UN," - stated the former post of Ukraine.

Commenting on the Humanitarian Coordinator of the United Nations in Ukraine that Russia did not provide safety guarantees for the UN team crossing the occupied left -bearer .In his opinion, it is normal that the UN Secretariat is concerned about the life and safety of employees.

"But the question arises, which then requires such an organization that can not be done without the consent of the parties who are fighting each other," - said Dymplomat.

The situation is heterogeneous on different fies, so the defense forces carry out both sensitive and defensive actions.

This was reported by Deputy Minister of Defense Anna Malyar in the Ephryizhadational Telernahon "Unified News", correspondent.

"As of now, there are on several directions offensive actions are ongoing. With that we also have defensive actions, since the enemy comes in several ways. Therefore, the situation is heterogeneous. Where we are coming, it is a Bakhmut stream, and everyone knows that the East is the epicenter of hostilities - there is a promotion on the Bakhmut bundle. At the same time, there are fierce fighting there, it should be understood that the enemy simply does not surrender the positions that they took at one time, so he is a heavy fighting, "the painter said.

In addition, she said, there are other factors that affect the situation, including meteorological. "Speaking of the weather now, it really does some things. In addition, the enemies have increased artillery and mortar shelling. That is, they try to slow down the movement of our forces and use other persons," said Deputy Minister.

According to her, in the southern direction of defense forces are faced with densely substituting fields, with anti-tank ditches and constant counterattacks of the enemy, who massively uses actors and drones-Kamikadze.

"In some sections we are coming and moving, in other areas, if we domese about the Liman direction or about Avdiivka, Marinka, there is a void to counteract and tries to step, but he fails. Therefore, the situation is dynamic and active both in terms of defense and from the point of skeleton, "the painter said.

The deputies of the European Parliament called on NATO Allies to provide Ukraine with a clear personality of membership during a summit in Vilnius in July.

This position was expressed by European politicians at the plenary session of the EP during the hearing on the humanitarian consequences and consequences for the environment for the destruction of the Gykhkhhkhkha, the Ukrinform correspondent reports.

"We have to take decisive steps to a sustainable peace in Europe for the next guys. It requires even more courage than we have already demonstrated. Putin likes when he is afraid of the world. Fear prevented some union countries during a summit in Bucharest to provide a plan for membership for Ukraine. We now have a chance to correct our mistakes," - said a representative of the political group of the European People's Party Ras Yuknyavichen.

She reminded that their political group recently approved the drinking of Ukraine's membership in [NATO](#) immediately after the end of the war.

According to her, this should be done from four causes. First, the preservation of "gray zones" of safety between the West and Russia is a constant voltage. Secondly, trained and equipped armed forces will be a significant added value for Europe. At the same time, Ukraine's integration to Euro-Atlantic structures guarantees a constant peace of Ukraine, and will prevent any attempts by Russia to be revealed to the intestinal and stop its imperial expansionism.

"" Don't be afraid, "said Pope John Paul II in the Soviet times. Ukrainian is not afraid. We also have no decisive steps today. Putin dictatorship has no power, because freedom is power, "the Lithuanian deputation said.

In turn, the Polish representative Anna Fotiga stressed that undermining the Damikhov hydroelectric power station once again demonstrated the demonic face of the Russian Federation and the need for significant strengthening of assistance to Ukraine.

"We have to respond positively to the will of the Ukrainian people who want to join NATO and the EU, and do it as quickly as possible. Not only for their safety, it is important for the safety of all of us, "the European Parliamentary.

Her compatriot Radoslav Sikorsky noted that the crime of the Russians in Novikakhovka should be included in the long list of accusations against the Russian Vlad during the International Tribunal. This crime denies any possibility of interruptions with Putin and is the best answer to those who offer them to resolve them. **Read also:** [Duda: Summit NATO has to bring clear decisions of Ukraine's pursuit in the Alliance](#) At the same time, Estonian MP Sven Mixer expressed the opinion that Ukraine's restoration will be long, and this issue cannot wait until the end of the war.

"This process should start now. Russia has to pay for all the damage it has been. Before that, we need to find the legal path how to use the frozen financial assets of the aggressor to partially cover the cost of these efforts.

This does not distract us from providing Ukraine with military assistance, as during the time of contrast and the liberation of the occupied territories will grow ... eventually, we have to move quickly and decisively with European and Euro -Atlantic integration of Ukraine. This is the only way to guarantee both Ukrainian and Jewish security, "the Estonian politician said.

MP Andrus Kublyus stressed that one of the factors why the war was agreed is that Europeans made a great geopolitical mistake for their years held Ukraine in the "gray zone" of European security, without a clear perspective on joining the EU or NATO. Because of this, Putin believed in the weakness of the agreement and in his ability to capture Ukraine.

"It is time to correct our mistakes that have already cost Ukrainians of thousands of lives. Ukraine should get an invitation to join NATO during a summit in Vilniusii should become a member of the Alliance after the war. Ukraine needs to start negotiating for EU membership by the end of the year in order to complete them by the end of this decade. The teddy path to the sustainable peace we need all on the European continent, "Kubilus said.

US Secretary of State, Anthony Blinken, is convinced of the need to strengthen partnerships in the North Atlantic Alliance and the Indo-Pacific Region, which cross the expansions of China.

He stated this on Tuesday before meeting in Washington with NATO Secretary General Jens Stoltenberg, Ukrinform correspondent reports.

"We look forward to further strengthening our partnership with the countries of the Indo -Pacific region," the State Department head said.

He also noted that this issue is relevant before holding a summit [NATO](#) In Vilnius, which will discuss, in particular, the topic of strengthening the Alliance.

"You will see how we will fulfill our obligation to increase the investments of the Vaboron, further increase the restraint and defense of the Alliance, to also put into life many plans and programs," Blinken said.

He also said that during the Vilnius Summit, a powerful package of political and practical support was built in Ukraine.

In addition, the US Secretary of State stressed the need to accelerate the decision to expand: "We believe that it is time to greet Sweden as a successful member of the Alliance."

In this context, he noted that in the process of making this decision, the issues that were concerned about other allies were examined.

"So there is a wide and deep agenda. But, of course, the details are important. We have been working on them over the next weeks, "said the head of American diplomacy.

The Presidential Division of Zelensky has instructed the project of the General Assembly resolution on the creation of a special international tribunal to bring the reference of the Russian military-political leadership for crime against Ukraine.

This was discussed at a meeting under the chairmanship(<http://www.president.gov.ua/news/prezident-obgovoriv-mozhlivi-scenariyi-stvorennya-specialnog-83577>).

Zelensky He emphasized that Russian -shaped troops in Ukraine resort to the most difficult forms of aggression: illegal annexation of territories, murder, torture, rape of civilians, genocide, destruction of civil infrastructure and more.

"The tribunal is necessary to punish the aggressor who has begun a war against our country, and thus restore the fairness," the President emphasized.

According to him, without the punishment of the Russian Federation for the crime of aggression, the world architectural safety will be destroyed and no one will feel protected.

The President has instructed to develop a report of the UN General Assembly resolution on the need to create a special international tribunal, which was bidding with the position of Ukraine's partners.

The meeting also decided to analyze the mechanism of forming a tribunal by signing a number of partner countries of the respective international order. At the same time, the rest of the states will remain the opportunity without being the founders of the tribunal, to support its activities and to recognize the decision.

For his part, the deputy head of the OP Andriy Smirnov stated that the cruelty of this war by the Russian leadership and the military passed the comprehensive limits.

President Volodymyr Putin signed a law that provides for the removal of foreign passports from conscripts.

About it reports Ukrinform with a reference [official portal of legal information of the Russian Federation](#) According to the document called to the army or for an alternative civilian service, persons will have to pass foreign [passports](#) for storage to the migration department of the Ministry of Internal Affairs or the Center for the provision of state and municipal services. It is necessary to

hand over the passport within five days of the outset. It will be returned after the service is completed.

If the Russian, whose right to leave the country is restricted, does not hand over the passport for storage without a valid reason, the document is declared invalid.

The law on passports will come into force in 180 days.

The corresponding amendments were entered in the State Duma in August 2021. Prodeputats approved the document in the second and third reading only in May 20123. On June 7, it was approved by the Federation Council.

Military counterintelligence was questioned at the same time by two Russian prisoners. Single is a machine gunner of a separate company of the FSB commandant, which headed the raising detachment, and the second was a ripboard who was afraid that he was being killed.

About it [reports](#) Security Service of Ukraine.

The FSBSHNER tells about his military responsibilities in briefly: "They stood on the routine and did not allow the Store Z. The order was in their release. "

And the second is the same "Storm Zorovik", who was afraid that he would be killed by his own, a printed line. Therefore, he was captured by Ukrainian defenders.

"After to arrive(on the position - note.), I did not explain, we were drained and said they would go straight from Pichk. This is quadcopters. In the servants, we were told that the muds stands... they were struck by everything, the float will be kept, "he tells about his short military experience.

The practice of use by the Russians of barrier units once again confirmed the interception obtained by the SBU.

"Defense is tight: all pulets, grenade launchers ... Monometov doon. "Smails" will be fed into the air. How did you take? "Z" you are full ofness, in your resolution. The Minister of Energy of Ukraine Herman Galushchenko met with the Director General of the International Atomic Energy Agency Raphael Grosssey and discussed the visit of the IAEA representatives to the Zaporozhye atomic power plant with him.

According to Ukrinform, the Ministry of Energy reported on [Facebook](#).

Під час зустрічі Галущенко заявив, що очікує від експертів агентства оцінки реальної ситуації на Запорізький AEC, including the state of equipment and station management systems.

"The Situation of the ZPP is a matter of nuclear and radiation safety not only of Ukraine but the entire continent. It is very important to ensure the safety of the NPP after de -occupation. Therefore, we welcome your mission that can help us to keep an objective assessment of what is happening at the ZPP , and the timing when we put it into work again, "he emphasized.

The minister stressed that as of today the situation in the power system is not easy, in particular because of the Russians arranged by the Russians at the Kakhovka Hydroelectro power plant.

According to him, he undermined the Russian troops of the dam and, as a consequence, significantly imported water levels in the Kakhovka reservoir is not only additional threw in Zaporizhzhya NPP, but also affected the work of hydrogeneration as a whole, because hydroelectric power plants operate with low power.

The return of the Zaporizhzhya NPP to the control of Ukraine and the work of at least one unit of the station to the Ukrainian energy system will allow to stabilize a situation that will become of particular importance in the autumn and winter.

The Minister has hoped that the IAEA mission would be a real assessment of the consequences of the Kakhovsk Hydroelectric Power Rus and help Ukraine in the development of measures to compete on this catastrophe.

A conscious Russian blow to the ordinary city only once again proves the simple truth: we have to ensure that Russian terror becomes impossible with our partners.

This was stated in the evening [video closer](#) President Volodymyr Zelenskyy, reports Ukrinform.

_ Dear Ukrainians and Ukrainians! _

This afternoon rescue work and parsing in Kryvyi Rih, a rocket attack of terrorists were completed. Unfortunately, 11 people were killed, among them di -evvitin ... My condolences to my relatives and loved ones. There are only more than 30 people injured. They are given the necessary help.

I want to thank everyone and everyone who participated in the rescue operation: SES rescuers, doctors, police, volunteers, local authorities, ordinary people. Thank you for every saved life!Thank you for every person whom they have been now.

This conscious Russian blow to the ordinary city only once again proves the prostitical one: we have to ensure that the Russian terror becomes impossible with our partners.

The first is our air shield. Sufficient number of air defense systems. Plus modern fighters. When the Russian ability to beat in our cities and villages is physically limited by our air shield, only then the terrorist-terrorist will understand that there will be alternatives for all Ukrainians and the loss for all Ukrainians and the loss for Russian.

The second is the destruction of the basis for terror, for the production of terrorist rockets by the state. Unfortunately, Russia is still able to obtain critical components for the production of missiles created by companies from around the world, such as companies from some partner countries. In different ways, these components are then supplemented in Russia. If we take, for example, one of the missiles that hit the Cryvyi Rih now, then about 50 components in it - predominant -electronics - produced in other countries.

And today a meeting of representatives of our country with diplomats of corresponding countries took place. The list of companies that supply Russia for killer components has all partners. There is this list. The understanding of how Russian terrorist is deceiving the world is also in the world. And we are waiting for the conclusions of the fatty actions that will stop Russian rocket terror. It is definitely cheaper - once and for all to block the components for terrorists for terrorists for terror than to constantly spend new and new air defense tracks.

Today, there was a meeting on the preparation of the inevitable, legitimately fair responsibility of Russia for this aggression. We work out several X -molds for the creation of a special tribunal for the crime of aggression. The crime

must be corresponded to the highest Russian leadership. A crime that is born other crimes of this war. And such responsibility will definitely be. In fact, this is not an easy task. But the Ukrainians have done so much difficult to do so that they will not only do it, but will be fulfilled with pleasure. The tribunal will be.

He met today with the CEO of IAEA Grossi. We are very active to prevent any incidents from the occupied Russian nuclear power plant. While the invaders are there, there is a risk for the world, and this is obvious. Only the complete de -occupation of the station and its return Podu -Ukrainian control can guarantee safety. And we will do everything for that.

It is good that the IAEA proposes to send to us, to Ukraine, a group of experts, which appreciate the consequences of the destruction of the dam and other structures of the Kakhovka hydroelectric power station. Sleepy to know in all the details of what is happening and what crime against the nature of the music was committed by Russia. I hope the IAEA experts will work in the near future.

And necessarily - our warriors, our characters. Thank you all who are in battle now, who protects and promotes our positions.

For example, the Bakhmut direction-which is, in particular, warriors of the 80th separate brigadidshv ... There is a forward movement in different areas. I thank you!Thank you for the extraordinary hardship!

The units of Tavriya dawn - in the conditions of extremely cruel battles, in the conditions of aviation and artillery advantage of the invaders there is a forward movement!Thank you, warriors!Thank you for every step and for every meter of Ukrainian land that is released by the Edental Evil. Marines of the 35th and 36th separate brigades, the 110th separately mechanized brigade, a 128th separate mountain-assault brigade, paratroopers of our seventystyevatyka, artillerymen of the 55th separate brigade "Zaporizhzhya Sich". Thank you for your strength!

And thank you all in our society, who understands that the liberation of our land then requires difficult, heroic and intense actions that give the back, step by step the necessary power by our offensives!

Glory to Ukrainian heroes!Glory to all in the world who helps! ***Glory to Ukraine!***

The President said that on Tuesday there was a meeting of representatives of Ukraine with reports of the respective states.

According to him, there is a list of companies that supply Russia's components for guns, and there is an understanding of how Russian terrorists try to deceive the world.

"We are waiting for conclusions and quick actions that will stop Russian rocket terror," Zelensky emphasized.

He recalled that Ukraine has applied for all companies in Russia, which is being issued rockets, emphasizing that such complete sanction restrictions should be at global level against all of them.

The head of state also insists that every way of bypassing sanctions should also be patronized at the global level and should be as exacerbated by exported control over critical components.

"If someone is a mediator or works with Russia to terrorist and continue to blow up dwellings and kill people, then such entities - business or state - deserve the reaction of the world. Hard reaction. There is information about this with partners. It is definitely cheaper - once to block the ways of supplying components for terror to terrorists, it is always possible to spend new and new air defense for aircraft, "the President added.

In particular, since the beginning of 2023, the coordination headquarters to the ICRC sent a number of Ukrainian servicemen whose names were confirmed directly by the Ministry of the Russian Federation. Also in his letter to the coordination plant, the Red Cross confirmed the receipt of requests for Ukrainian Nav's Guards, who were captured during the Chernobyl NPP protection, as well as other numerous places of freedom in Russia, where Ukrainian protectors and defenders are detained.

The International Red Cross also confirmed that he received a request from the headquarters to organize correspondence between prisoners of war and their families. Unfortunately, most of the Ukrainian defenders in the captivity of the enemy are not able to get a news home for many months.

The Coordination Headquarters also officially invited the ICCH experts to participate in the work of Ukrainian teams for the search for missing persons and to promote their activity.

Coordination experts in cooperation with the Presidential Office and the Ukrainian agencies do everything possible to improve the conditions of temporary stay of Ukrainian combatants and civilians in captivity, find and return home and everyone.

This has already been done by the hundreds, who came from the EU territory to fight Putin's regime. And about non-existent for Ukraine and some counterintelligence measures(As for recruits), of course, they are conducted, "said Andrei Yusov.

The representative of the GUR of the Ministry of Defense of Ukraine noted that **Our state supports all people of good will who condemn Putin's shameful war, honor international right and Ukrainian sovereignty, but participation in hostilities in the territory of Russia does not lead.** **

"The Ukrainian security and defense forces are focused on the release of their own territories. What is happening "behind the priest" is a matter of Russians, "Andrei Yusov emphasized.

In the Taurian direction, the enemy continues to focus on the main efforts to take offensive actions in the area of Marinka and Avdiivka.

A spokesman for the united press censors of the Tavriya defense forces Valery Shershne said about it in the Evil of the Tele scale.

The speaker noted that in this direction the enemy throws strengthening from Kherson region, and the movement of Chechen detachments "Akhmad-UG" and "Akhmad-Sever" is also noticed here.

Also, according to the officer, it became known that because of the night enemy shelling in the gully, one civilian was killed in Gulyaypole, and the destructive farms were destroyed. There are casualties among the local population and in Orikhiv - as a result of the impact of managed airbombs, one person was killed, the other was injured, and twenty homes of the private sector were damaged.

According to Bohdan Shershne, the enemy also carried out offensive actions on the direction of Novopavlivka, Vremivka and Grace - to no avail. Under the constant ties and air strikes are minersk, Golden Niva, Velikanovosilka, Krasnogorovka and Staromikhailivka, Bogoyavlenka, Khaledar, Prychistivka, Grigorivka, Maximilyanivka.

The spokesman of the united Press Center of Defense forces of the Tavriysk direction Valeriyshchn added that the defense forces of Tavriysk were given a decent answer, constantly carrying out a counter-battery struggle for planned purposes, which was destroyed by the Anti-aircraft missile complex of Buk-M2.

Colonel Yuri Ignat Air Force Command of the Air Force of Ukraine.

At night, Russia committed another terrorist act-hit the territory of the Ukrainian and X-555 air base, released from the Caspian district. Colonel Yuriy Ignat, a spokesman for the Army of the Armed Forces of the Armed

Forces of the Armed Forces of the Armed Forces of the Armed Forces, said in the Evil.

The officer emphasized that by their tactics the Russians try to exhaust the Ukrainian air defense:

-In some sections of the front, they launch drones-Kamikadze to spend relatively cheap air targets. In addition, in this way, they try to identify the location of our air defense products to adjust their actions and lay other marrows at the subsequent blows. At the same time, the question of the price of knocking down drones is not worth it, the main thing is to protect Ukrainian cities. But the rationality also needs to be thought-Puniter-Kamikadze is already on the approaches to the Ukrainian borders by those means that require less costs and which, first of all, should be more in our arms today.

Also, a spokesman for the Air Force Command stressed that Tehran did not stop the Shahhedov's "Shahanedov" resettles, and the leadership of the terrorist country announced the mass production of Dronov-Kamikadze Dronov.

In addition, the officer stressed that modern aircraft-fighters can change the supply on the front line in favor of Ukraine.

The most important threat from the effects of flood is the pollution of water, which has occurred in the case of fuel and lubricants and toxic chemicals.

About it in the Military Media Center during the round table "Earth, Salthenia: How to restore soils after fighting and catastrophe for Kakhovskaya Hins?" reported the head of the Division Division(control)Oleg Pavlenko, land resources of the State Ecological Inspectorate of Ukraine.

He also emphasized that after flooding, wells can only be used after their careful cleaning and additional laboratory tests of water quality.

We will remind that yesterday a working meeting in the State Environmental Inspectorate of the South County with the participation of a temporary acting authority Igor Zubovich and Deputy Minister of Environmental Protection and Natural Resources of Ukraine Elena Kramarenko in Kherson took place.

The main topic of discussion was the organization of systematic sampling of water samples of the Dnieper star in order to fix and calculate the damage caused, which became a consequence of the undermining of the Kakhovka hydroelectric power plant. This serious natural and ecological disaster has serious consequences for the river ecosystem and adjacent- stated in the State Environmental Inspectorate of Ukraine.

The Minister of Energy of Ukraine Herman Galushchenko met with the Director General of the International Atomic Energy Agency Raphael Grosssey and discussed the visit of the IAEA representatives to the Zaporozhye atomic power plant with him.

According to Ukrinform, the Ministry of Energy reported on [Facebook](#).

Під час зустрічі Галущенко заявив, що очікує від експертів агентства оцінки реальної ситуації на Запорізький AEC, including the state of equipment and station management systems.

"The Situation of the ZPP is a matter of nuclear and radiation safety not only of Ukraine but the entire continent. It is very important to ensure the safety of the NPP after de -occupation. Therefore, we welcome your mission that can help us to keep an objective assessment of what is happening at the ZPP , and the timing when we put it into work again, "he emphasized.

The minister stressed that as of today the situation in the power system is not easy, in particular because of the Russians arranged by the Russians at the Kakhovka Hydroelectro power plant.

According to him, he undermined the Russian troops of the dam and, as a consequence, significantly imported water levels in the Kakhovka reservoir is not only additional threw in Zaporizhzhya NPP, but also affected the work of hydrogeneration as a whole, because hydroelectric power plants operate with low power.

The return of the Zaporizhzhya NPP to the control of Ukraine and the work of at least one unit of the station to the Ukrainian energy system will allow to stabilize a situation that will become of particular importance in the autumn and winter.

The Minister has hoped that the IAEA mission would be a real assessment of the consequences of the Kakhovsk Hydroelectric Power Rus and help Ukraine in the development of measures to compete on this catastrophe.

President of Ukraine Volodymyr Zelensky held a meeting on the creation of a

special international tribunal, which will judge the Russian military-political leadership for crime of aggression against Ukraine.

The head of state emphasized that occupation Russian troops in Ukraine resort to the most difficult forms of aggression: illegal annexation of territories, murder, torture, rape of civilians, genocide, destruction of civil infrastructure objects, etc.

"The tribunal is necessary to punish the aggressor who has begun a war against our country, and thus restore the fairness," the President of Ukraine said.

According to him, without the punishment of the Russian Federation for the crime of aggression, the world architectural safety will be destroyed and no one will feel protected.

For his part, the deputy head of the Presidential Office Andriy Smirnov stated that the assignment of this war on the part of the Russian leadership and the military passes all acceptable limits.

"It is the largest war in Europe since the Second World War, and the reactions of the international community to it should be appropriate," he said.

Volodymyr Zelensky instructed the draft resolution of the General Assembly on the need to create a special international tribunal, which was coordinated with the position of partners of Ukraine.

The meeting also decided to analyze the mechanism of forming a tribunal by signing a number of partner countries of the respective international order. At the same time, the rest of the states will remain the opportunity without being the founders of the tribunal, to support its activities and to recognize the decision.

This was stated by US Secretary of State Anthony Blinken during the publication of jointly with NATO Secretary General Jens Stoltenberg at the US State Department.

Jens Stoltenberg is on a visit to the United States on June 12-13, during which he was founded with State Secretary Anthony Blinken and US President Joe Biden.(Lithuania)that will take place on July 11-12.

"We had an opportunity today with Secretary General and President(Jobiden. - Ed.)To talk about our next Vilnius Summit of the next month. It will be a very important milestone for the whole alliance. This is a belief, ask at the summit.

Of course, the Alliance confirms its commitment to Article 5. The latter will see how our obligation to strengthen our defense investments in order to strengthen the restraint and defense capability of the Alliance, "Blinken emphasized.

The US Secretary of State thanked NATO Secretary General for his leadership in the world. At the same time, the high -ranking official stressed that Ukraine will continue to support NATO allies.

"I thank the Secretary General of Stoltenberg for his friendship and partnership. It is also for leadership in one of the most difficult times that I remember in history. The work of its strong and firm hand our alliance is stronger and more united as it is. I expect that you will see a powerful package of practical support for Ukraine at the summit, "the US Secretary of State said.

Another issue that will be resolved at the NATO summit in Vilnius is the Schwedia membership in the Alliance. Due to political issues from Turkey, this issue has not been regulated since last year. On April 4 this year, Finland became the 31st country. Another relevant aspect for the Alliance is to increase cooperation with the lasium, taking into account the China's factor.

"We also believe that it is time to become Sweden as the next member of the Alliance. We also look forward to further strengthening our partnership with the Indo-Pacific region, "Anthony Blinken summarized.

A conscious Russian blow to the ordinary city only once again proves the simple truth: we have to ensure that Russian terror becomes impossible with our partners.

This was stated in the evening [video closer](#) President Volodymyr Zelenskyy, reports Ukrinform.

_ Dear Ukrainians and Ukrainians! _

This afternoon rescue work and parsing in Kryvyi Rih, a rocket attack of terrorists were completed. Unfortunately, 11 people were killed, among them di -evvitin ... My condolences to my relatives and loved ones. There are only more than 30 people injured. They are given the necessary help.

I want to thank everyone and everyone who participated in the rescue operation: SES rescuers, doctors, police, volunteers, local authorities, ordinary people. Thank you for every saved life!Thank you for every person whom they have been now.

This conscious Russian blow to the ordinary city only once again proves the prostitical one: we have to ensure that the Russian terror becomes impossible with our partners.

The first is our air shield. Sufficient number of air defense systems. Plus modern fighters. When the Russian ability to beat in our cities and villages is physically limited by our air shield, only then the terrorist-terrorist will understand that there will be alternatives for all Ukrainians and the loss for all Ukrainians and the loss for Russian.

The second is the destruction of the basis for terror, for the production of terrorist rockets by the state. Unfortunately, Russia is still able to obtain critical components for the production of missiles created by companies from around the world, such as companies from some partner countries. In different ways, these components are then supplemented in Russia. If we take, for example, one of the missiles that hit the Cryvyi Rih now, then about 50 components in it - predominant -electronics - produced in other countries.

And today a meeting of representatives of our country with diplomats of corresponding countries took place. The list of companies that supply Russia for killer components has all partners. There is this list. The understanding of how Russian terrorist is deceiving the world is also in the world. And we are waiting for the conclusions of the fatty actions that will stop Russian rocket terror. It is definitely cheaper - once and for all to block the components for terrorists for terrorists for terror than to constantly spend new and new air defense tracks.

Today, there was a meeting on the preparation of the inevitable, legitimately fair responsibility of Russia for this aggression. We work out several X -molds for the creation of a special tribunal for the crime of aggression. The crime

must be corresponded to the highest Russian leadership. A crime that is born other crimes of this war. And such responsibility will definitely be. In fact, this is not an easy task. But the Ukrainians have done so much difficult to do so that they will not only do it, but will be fulfilled with pleasure. The tribunal will be.

He met today with the CEO of IAEA Grossi. We are very active to prevent any incidents from the occupied Russian nuclear power plant. While the invaders are there, there is a risk for the world, and this is obvious. Only the complete de -occupation of the station and its return Podu -Ukrainian control can guarantee safety. And we will do everything for that.

It is good that the IAEA proposes to send to us, to Ukraine, a group of experts, which appreciate the consequences of the destruction of the dam and other structures of the Kakhovka hydroelectric power station. Sleepy to know in all the details of what is happening and what crime against the nature of the music was committed by Russia. I hope the IAEA experts will work in the near future.

And necessarily - our warriors, our characters. Thank you all who are in battle now, who protects and promotes our positions.

For example, the Bakhmut direction-which is, in particular, warriors of the 80th separate brigadidshv ... There is a forward movement in different areas. I thank you!Thank you for the extraordinary hardship!

The units of Tavriya dawn - in the conditions of extremely cruel battles, in the conditions of aviation and artillery advantage of the invaders there is a forward movement!Thank you, warriors!Thank you for every step and for every meter of Ukrainian land that is released by the Edental Evil. Marines of the 35th and 36th separate brigades, the 110th separately mechanized brigade, a 128th separate mountain-assault brigade, paratroopers of our seventystyevatyka, artillerymen of the 55th separate brigade "Zaporizhzhya Sich". Thank you for your strength!

And thank you all in our society, who understands that the liberation of our land then requires difficult, heroic and intense actions that give the back, step by step the necessary power by our offensives!

Glory to Ukrainian heroes!Glory to all in the world who helps! ***Glory to Ukraine!***

In Dnipropetrovsk, a single Russian agent was detained as a result of countertoing measures. He turned out to be a 42-year-old resident who was

recruited by the Russian special service. The attacker is threatened with lifelong involvement.

About this [informs](#) Security Service of Ukraine.

At the instruction of the FSB, he collected intelligence on the places of deployment of defense forces of the Dnieper, Kamiansky and Novomoskovsk. His main task was to find information about military landfills and training centers, where the preparation of the Armed Forces is being prepared.

The attacker tried to establish an indicative number of personnel of the Tavian technique of Ukrainian troops, which were preparing for the possible transfer of the front.

In order to fulfill the tasks of the FSB, the traitor independently went to the terrain and hidden observance at the places of defense forces.

For each task, the enemy associate received from his "curator" ZFSB a monetary "reward", which came to the bank card of the person involved.

Investigators of security services informed him of the suspicion of treason, committed by the conditions of martial law. He is now in custody.

NATO Allies Support for Ukraine changes the situation on the battlefield - Jens Stoltenberg

This was stated by NATO Secretary General Stoltenberg during the announcement of joint statements with US Secretary of State Anthony Blinken at the US State Department.

On June 12-13, a visit to Jes Stoltenberg to the United States was made, in which the leader of the novice Atlantic Alliance discussed in Washington the issue of the future summit in Vilnius.

NATO Secretary General has praised the support of allies on the Alliance to strengthen Ukraine's compliance in counteracting Russian aggression.

"I want to thank the United States and President Biden for everything you do to strengthen the transatlantic ties. And, of course, the support you perch Ukraine. European allies also contribute to Ukraine, tens of billions of economic and military support.

The support of NATO allies and partners is changing the situation on the battlefield as Ukrainian Ukrainians have launched an offensive. They move and conquer positions. We know that the more Ukrainians are ready to release the land, the stronger they will be during the negotiations. And it is more likely that President Putin will realize that he will never win the invading war on the battlefield, "Yinstoltenberg stressed.

On February 24, 2022, the large -scale invasion of Russia into Ukraine replaced NATO on February 24, 2022. Alliance countries have begun to spend more on defense, strengthening security in the Euro -Atlantic region.

Even the share of 2% of GDP for defense, which was announced at the NATO summit in Walesiu in 2014 is not enough to effectively counteract modern threats, says Jens Stoltenberg. It was planned that by 2024 the countries would not spend a minimum of 2% on defense costs.

"We are preparing for the next NATO summit in Vilnius. There we will agree to increase and strengthen support for Ukraine, then strengthen our nuclear restraint and defense, which includes clearer obligations to increase defense costs.

I expect that the Alliance members agree that 2% of GDP should be a minimum and that the Mipovin is all investing in our defense and collective security, "Yinstoltenberg summarized.

Dear Ukrainians and Ukrainians!

This afternoon rescue work and parsing in Kryvyi Rih, a rocket attack of terrorists were completed. Unfortunately, 11 people were killed, among them di -evvitin ... My condolences to my relatives and loved ones. There are only more than 30 people injured. They are given the necessary help.

I want to thank everyone and everyone who participated in the rescue operation: SES rescuers, doctors, police, volunteers, local authorities, ordinary people. Thank you for every saved life!Thank you for every person whom they have been now.

This conscious Russian blow to the ordinary city only once again proves the prostitical one: we have to ensure that the Russian terror becomes impossible with our partners.

The first is our air shield. Sufficient number of air defense systems. Plus modern fighters. When the Russian ability to beat in our cities and villages is physically limited by our air shield, only then the terrorist-terrorist will understand that there will be alternatives for all Ukrainians and in Russia.

The second is the destruction of the basis for terror, for the production of terrorist rockets by the state. Unfortunately, Russia is still able to obtain

critical components for the production of missiles created by companies from around the world, such as companies from some partner countries. In different ways, these components are then supplemented in Russia. If you take, for example, one of the missiles that hit the Cryvyi Rih, then about 50 components in it - predominant -electronics - produced in other countries.

And today a meeting of representatives of our country with diplomats of corresponding countries took place. The list of companies that supply Russia for killer components has all partners. There is this list. The understanding of how Russian terrorist is deceiving the world is also in the world. And we are waiting for the conclusions of the fatty actions that will stop Russian rocket terror. It is definitely cheaper - once and for all to block the components for terrorists for terrorists for terror than to constantly spend new and new air defense tracks.

Today, there was a meeting on the preparation of the inevitable, legitimately fair responsibility of Russia for this aggression. We work out several X -molds for the creation of a special tribunal for the crime of aggression. The crime must be corresponded to the highest Russian leadership. A crime that is born other crimes of this war. And such responsibility will definitely be. In fact, this is not an easy task. But the Ukrainians have done so much difficult to do so that they will not only do it, but will be fulfilled with pleasure. The tribunal will be.

He met today with the CEO of IAEA Grossi. We are very active to prevent any incidents from the occupied Russian nuclear power plant. While the invaders are there, there is a risk for the world, and this is obvious. Only the complete de -occupation of the station and its return Podu -Ukrainian control can guarantee safety. And we will do everything for that.

It is good that the IAEA proposes to send to us, to Ukraine, a group of experts, which appreciate the consequences of the destruction of the dam and other structures of the Kakhovka hydroelectric power station. Sleepy to know in all the details of what is happening and what crime against the nature of the music was committed by Russia. I hope the IAEA experts will work in the near future.

And necessarily - our warriors, our characters. Thank you all who are in battle now, who protects and promotes our positions.

For example, the Bakhmut direction-which is, in particular, warriors of the 80th separate brigadidshv ... There is a forward movement in different areas. I thank you!Thank you for the extraordinary hardship!

The units of Tavriya dawn - in the conditions of extremely cruel battles, in the conditions of aviation and artillery advantage of the invaders there is a forward movement! Thank you, warriors! Thank you for every step and for every meter of Ukrainian land that is released by the Edental Evil. Marines of the 35th and 36th separate brigades, the 110th separately mechanized brigade, a 128th separate mountain-assault brigade, paratroopers of our seventystyevatyka, artillerymen of the 55th separate brigade "Zaporizhzhya Sich". Thank you for your strength!

And thank you all in our society, who understands that the liberation of our land then requires difficult, heroic and intense actions that give the back, step by step the necessary power by our offensives!

Glory to Ukrainian heroes! Glory to all in the world who helps! ***Glory to Ukraine!***

On the initiative of the NGO "On those whom they are silent", an online meeting with the families of the defenders of Ostrovasmina was held.

About it [reports](#) Coordinating headquarters for the issue of prisoners of war.

Representatives of the coordination headquarters, the Office of the Verkhovna Rada for Human Rights, the State Border Guard Service of the

Tamzhizh International Committee of the Red Cross were answered by the loved ones.(ICCH).

Представник штабу запевнив, що робота зі звільнення прикордонників іЗахисників Зміїного ведеться щоденно:

«Це показав обмін 11 червня. Ми завжди працюємо, щоби визволити всіх. У нас нема улюблених підрозділів чи неулюблених. Тим більше, усі наші Оборонці в колоніях уже перемішані й ворог за великим рахунком теж не ділить їх запідрозділами».

Також він зауважив, що планова робота зі звільнення вдається не завжди:

«Так, краще би був план — кожна мати знала б, коли повернути її сина і скільки треба чекати. Була б визначеність. Але росіянам байдуже. Хочуть завдати рідним якомога більше болю. Це їхня політика. Тому кожен обмін — не схожий напопередній. Проте коли відбуваються контрнаступальні операції — обміничастішають».

Представниці Міжнародного комітету Червоного Хреста наголосили, що неприпиняють роботу для відвідин наших бранців:

«Колеги з МКЧХ, які працюють у РФ, постійно намагаються переконати російську сторону надати доступ до полонених і підтвердити полон тих, кого утримують росіяни і про кого немає інформації. На жаль, це забирає час. Але результатимаємо».

Представник Офісу Уповноваженого Верховної Ради з прав людини застеріг від пропозицій невідомих осіб «викупити з полону» родичів.

«У більшості випадків це шахрайство. Просто заберуть гроші. Також такі пропозиції мають посіяти недовіру до органів нашої державної влади. Крім того, ті, хто ризикне погодитися, можуть потрапити на гачок російських спецслужб», — сказав він.

Координаційний штаб радить повідомляти про такі випадки за контактними телефонами та звертатися до правоохоронних структур.
