The other day, Ukraine has agreed with the World Bank to rapidly evaluate the losses of rollbacks together with international partners. The assessment will be conducted by analogue with a quick assessment of the damage

caused and recovery needs(RDNA).Про це [зазначив](#) Prime Minister Denis Shmigal during a government meeting on June 9.

According to him, undermining the Kakhovka hydroelectric power station will have long -term consequences. According to Mindovquil, environmental losses are calculated in the amount of UAH 55 billion.

“Huge arrays of agricultural land are also flooded. Under the Agrarian Policy Ministry, 10 thousand hectares are only on the Right Bank. After the ascent of water, soils and more than 30 irrigation systems should be restored.

Only the restoration of hydroelectric power plants, according to preliminary data of Ukrhydroenergo, costs 1 billion euros. Other related work will be the same.

“These are the challenges to which Ukraine and partners should respond synchronously. We will not be about the loss of Ukraine, we are talking about the loss of Europe. The echoes of the therum on the Kakhovskaya hydroelectric power station will be reached to all corners of the continent. Therefore, common-ages need joint action, ”the Prime Minister stressed.

The Cabinet of Ministers of Ukraine adopted a resolution "Some issues of the functioning of the system of catastrophe", which determines the priorities of the development of catastrophe medicine services. The most important thing is that the document clearly defines the distribution and interaction of all units

of catastrophe medicine, which gives new possibility to change and improve work in wartime and in case of extraordinary situations.

About it [reports](#) Government portal.

The resolution stipulates that emergency medical services and medical crash at the national level will be coordinated by the Ministry of Health, and at the regional - regional centers of emergency medical care and disaster medicine.

"We have received a very important document that will give our teams a substance for further development in accordance with the latest standards and taking into account the complicated challenges of the full -scale war. I am sure that such changes will allow heroic doctors to work even more efficiently and rescue more life, "the Minister of Health Viktor Lyashko emphasized.

In addition, the resolution describes the new concept of "catastrophe medical team" in accordance with the international classification of WHO and a group of doctors of different specialties, which are involved in providing various types of medical care as a result of emergencies, including hostilities, as well as allowing to use modern telemedicine technologies.

In particular, catastrophe medicine teams will be divided into 3 types. Mobile teams of type I will provide medical assistance to the victims at the scene of Taevakuya to medical institutions. Type II mobile commands will be a medical assistance to the place of residence or residence. In turn, type III mobile teams will be able to assist the victims at the place of stay using tents or stationary buildings.

The aforementioned changes will allow you to immediately make a mobile team of the desired type, depending on the difficulty of the case.

*I wish health \_ ' \_ i \_ , \_ dear \_ Ukrainians \_ \_ ! \_*

Report for this day. The first is negotiations with Canada Prime Minister Justin Trudeau.

Weapons and shells. There is a defensive package, including the 155th caliber. Coalition of modern fighters and training of our pilots is obvious progress. Unato Movement - There is also a result today.

I am grateful and personally to Mr. Prime Minister, and all Canadians for the constant iodine support for our freedom.

The consequences of the Russian terrorist attack on the Kakhovsky hydroelectric power station were discussed in detail. Canadas who can help us recover from this disaster. We understand one in the steps they need. And it is necessary very promptly.

Of course, we will not stay away and the element through which the canada now passes.

Large -scale forest fires, tremendous natural losses and threat to people ... Ukraine preparation to help with fire extinguishing if Canada requires such international assistance.

Our Ukrainian meaning for international relations is that we should always be able to can be about each other when support is needed. And really help.

I am sure it will become global principles. Mutual action, mutual support, mutual force.

Now, unfortunately, we see that at some levels in the world there is simply a shadebnabisage for ecocide and human tragedy caused by the Russian terrorist attack of the Nakakhovsky Hydroelectric Power Plant.

When international organizations that should protect life on a global scale, even a week do not have time to form and send a rescue mission to a nailed territory when some world entities do not dare to get out even with clear and strong statements that would condemn this next Russian war, terrorists simply terrorists They are fueled by this weakness of the world, with this carelessness - it encourages them. And we have to overcome it. And we will overcome.

We click and encourage that international organizations, international support in the part of Kherson, where occupiers are now.

As of this time, more than 3,000 people have already been eachamed in the Kherson and Mykolaiv region. But again, it is only free-controlled, controlled by us.All this should be a separate fair and rigid responsibility of the Russian state and the Russian leadership.

And international organizations must work where we have not yet deduced our territories. Every life is important - all of Kherson, all south. Every city is Yelselo. We will do our best and impossible to help all people.

I thank each of our rescuer, military and police, local communities and international organizations that are currently operating in the Kherson region of Tamikolaevshchina, all our volunteers - everyone who helps to save the catastrophe zone and animals, animals and life in general ... and tell the world of the people who suffered.

I thank everyone who helps people after the strikes of Russian rockets and Iranian Shahaneda. Odesa... My condolences to the native those whose lives were taken last by Russian terror... More than 20 wounded. Everyone is assisted.

Like every day, gratitude is our soldiers. Everyone and everyone who is in front of the forefront, at combat posts and combat missions. Who destroys the enemy on the earth protects our sky. Thank you all who hold the position and who moves forward. "Khortytsia", "Tavriya" - thank you to each of our hero!

Maximum efforts to return peace to our country, every city, every village, every corner of Ukraine.

***Glory to Ukraine!***

The Crimean Korolator blogger Oleksandr Talipov revealed details of the preparation by the occupiers of Kakhovskaya HEPs in his telegram.

About it [reports](#) MOV Intelligence Directorate.

In particular, Talipov was indignant with the posts of so -called Russian military bloggers who reported that the personnel of the invaders were thrown on the islands and they were "not on trees on trees". In fact, as Talipov explained, this is a fake: "I contacted our boys. Everyone came out of the islands. At the third night there was no one. There are no losses. Therefore, all the information that is published in this keys is a brazen lie. "

This is a direct evidence that the Russian military knew about the future terrorist attack and had declared evacuation.

There is a high likelihood that after the wide publicity of this information, they will try to declare the "enemy of the people" or "agent of the Ukrainian Special services". However, the number of such evidence is increasing. They will all become an additional evidence in the future tribunal.

As a result of Kakhovskaya hydroelectric power plant, mass death of fish is observed, so it is worthwhile to get rid of river fish and products from it now to prevent botulism.

This was emphasized in an interview with Ukrinform by infectious disease doctor Yevgeny Dubrovsky.

"We all know about the total morta of fish, especially in the territories where the water is frozen - the fish remained there and died. And it is likely that some grief-businessmen, or ordinary people who see that big carp and thick-headed fall, they want to do something with them quickly. It is very dangerous, "he said.

The doctor explained that the bacterium Clostridium botulinum, which causes botulism, lived the soil, but it is not dangerous not by itself, but the toxin it can produce. The gastrointestinal tract of fish, where there are residues of silt, usually there is also this bacterium. When the fish begins to rot, Clostridium spreads lightly from its intestinal and gastrointestinal tract further into all muscles.

"This is one of the worst poisons in the world! Botulism requires specific storage treatment - serum. It is necessary to refrain from fish products at all. Even if someone says: it can be treated with industrial power - you can not risk it. It's very dangerous!" - Observed infectionist.

The threat of infection with leptospirosis becomes especially relevant during the time of man-made disasters, and rescuers are first and foremost at risk.

This was emphasized in an interview with Ukrinform by infectious disease doctor Yevgeny Dubrovsky.

He recalled that leptospirosis is a dangerous disease, a source of contamination of any rodents: mice, rats, rats, etc. However, infection

requires several conditions: standing water in which a rodent lives, and a person who causes this water should have damage to the skin - scratches, cuts.

"If you look critically at all these conditions, then it is really possible, especially with rescuers who get people from hard -to -reach places. It is just a private sector where water can be infected - some standing places, smooth, bay . And rescuers, of course, have scratches, injuries, because their work is difficult and dangerous, they may become infected, " - said the expert.

At the same time, he emphasized that leptospirosis is well treated, because the factor is very sensitive to antibacterial drugs, most importantly - to quickly determine the disease.

"He(Leptospirosis - ed.)There are two symptoms that not all sometimes combine. This is a pronounced weakness, fatigue and very high temperature - 39-40. But you can think that a person swims in the water and simply becomes difficult ... The second symptom is muscle pain, especially in the calf or steps. And you can also think that the rescuer pulled something, carried out, tired, overloaded ... Therefore, these two symptoms should be combined. And if a rapist without cough, without a runny nose, without any catarrhal phenomena(occur)High -fueling and muscle pain cannot be delayed. Literally 4-6 days - and can be late, " - warned the infectious disease specialist.

He added that timely administration of antibacterial drugs instantly reduces the risk of severe disease.

The expert also specified that leptospirosis is not transmitted from humans to humans, so the epidemic of the disease will not cause.

The Russians increase false information about the number of losses of the Armed Forces of Ukraine to the Nazapochi direction.

According to Ukrinform, GeoconfirMed - the GEOCONFIRMED - the global geolocation platform, focused on the war in Ukraine, which is quoted [Stratko of the Armed Forces] in its analysis.(<https://t.me/AFUStratCom/18387>).

As stated in the message [GeoconfirMed](#), for the third night in a row, Russian chats are spreading about the restoration of the offensive of Ukrainians at night in the Zaporozhye direction.

However, the platform notes, "almost all footage spread Russian sources that are, of course, focused on Ukrainian losses. Most losses have been a few days or some are already known losses, demonstrated from a different point. It was tempted. Where the audience see one damaged car, they were more and who were not injured ...".

The report also states that on June 10, Ukraine has published several quadrants from both southern directions: in the last 3 days, Ukraine has been able to destroy the two tons-1A, one in the Great Novosilka and one in the Bakhmut direction. There was no more than this war. It helps to determine that Ukrainians are tiring about OPPEC(Publication of materials in view of the safety of military operations), but those infrequent footage that have been published show that "something is happening."

Regarding the number of geoconfirMed destroyed cars, Ukraine has more than a thousand units for new units for new Brigades.

This is a war against echelored defense. The Armed Forces will lose a lot of equipment. It is a part of the state. The numbers that the Russians show, nothing compared to volumes(techniques -ed.)What Ukraine has an offensive for this.

The Susiers of the Holy Church in the Kiev-Pechersk Lavra on the occasion of the 325th anniversary of the consecration of the prayer service for Hetman Ivan Mazepa, which was built by the temple.

This was reported by Ukrinform correspondent.

Father Georgy Kovalenko recalled that the Church of All Saints was built in 1698. And in 1708, the Russian Church imposed anathema on Hetman Mazepa. However, no one recognized the church curse.

"Mazepa sang priests of Constantinople Church in Bender(Moldova - order.)where he was buried. Ukrainians prayed for Mazepa in the early 20th century. In particular, the memory of the hetman was honored at Sofia Square. Mazepa's commemoration took place to the independence of Ukraine - when the Ukrainian Autocephalous Orthodox Church was revived, and then, during independence, "the priest said.

Acting Viceroy of the Holy Dormition Kyiv-Pechersk Lavryarchimandrite Abrahamii emphasized that the prayer for Mazepa is historical for Lavriopodia.

"Due to the restoration of historical justice in the walls of the Holy Dormition of the Kiev-Pechersk Lavra with the blessing of our Primate, Metropolitan of Kiev and All Ukraine Epiphany, a prayer for the compassionate Ktitor-Hetman Ivan Mazepa will sound. The laurels were being erected, "he said.

UKRINFORM

In his turn, the Minister of Culture and Information Policy Alexander Tkachenkota also emphasized the importance of preserving the memory of a historical figure, as a lot not only for the Lavra but also for the Sophia Cathedral.

"And in my opinion, honoring the memory of a person who has kept the Ukrainian heritage is surprisingly important," said the MKIP head.

[Arab emirates](#) led by the Minister for Climate and Environment of the United Arab Emirates, the head of the International Affairs Office under the UAE President Mariam Almhayry.

Mashovets informed the Emirate side about the situation on the forefront and general safe situation in Ukraine, in particular about the continuation of the strikes of Tairan drones throughout Ukraine. Also, almhayry and delegation were introduced to the consequences of the exclusion by Russian invaders of the Damshovsky Hydroelectric Power Plant.

The UAE delegation was informed of the needs of the Ukrainian energy system to restore after Russian rocket strokes and preparation for the autumn and winter period.

Separately during the meeting it was emphasized that the military-industrial complex of RFPPPE is to produce high-precision means of damage, which is facilitated by the fact that international students do not work as necessary. Sanctions should be extended to the abyssal capabilities of Russia's MFC, in particular, it concerns the sale of children's products.

The adviser to the head of the OP Vladislav Vlasyuk shared with the Emirate side of information on bypassing Russia with international sanctions. In particular, it is about companies that supply microelectronics to Russia, contribute to financial transactions, carry oil in violation of the entered print - ownership.

"Russia's assistance to avoid sanctions will not help restore peace. To circumvent sanctions - is to be at risk, and at least 10 companies with the UAE have been aged because of it. We ask us to study the information that worries us and take the right measures, "Vlasyuk stressed.

The Verkhovna Rada Commissioner for Human Rights Dmitry Lubinets stressed that a total number of Ukrainians was forced to go abroad, as well as many internally displaced persons.

According to him, the situation of human rights is very difficult to protect the territories, so only the liberation of all Ukrainian territories will protect the people who live there. Klimenko noted that law enforcement officers exhibit additional observation posts to prevent entering the dangerous territories of people, especially children.

In addition, reporting on the sixth day of elimination of the consequences of the Russian terrorist attack, Klimenko said that work is done in Kherson, Mykolaiv, Dnipropetrovsk, Odessa and Zaporizhzhya regions. In the Kherson region, purposeful precipitation, the coastline retains-already 350-400 m.

At the moment, the issue of providing the population with drinking and technical water is resolved. Problems with wells, drilling of new artesian - hardlies, as well as transportation of technical and drinking water to citizens' homes are studied. The first stage of the water will be a prize. Water is operating stationary and mobile donations. Within a few weeks, the technical supplements of water in each individual community will be resolved.

"Currently, experts are studying the behavior of the Dnieper River and other rivers, which were heated in the 1950s, when the Kakhovka hydroelectric power station was launched," - informed Klimenko.

The headquarters also examines the issues of reclamation, keeping cattle at home.

"Large areas of agricultural enterprises have lost or lose water for irrigation areas. Therefore, it is a government priority for today. To make every settlement provided with water," Klimenko said.

The court's verdict does not indicate the name of the person, but the LETA agency found out about the theater director Sergiy Pititsyn from St. Petersburg, which is being placed in Latvian and Russian theaters.

On November 15, 2022, Plipitsyn appealed to the State Border Border with a statement of a refugee status or alternative status in Latvia. In April this year, the Latvian Citizenship and Migration Directorate(PMLP)Approval of the transfer of a man's request to France. The decision was made by the regulation of the European Parliament.

Disagreeing with the decision of the administration, the Russian appealed to the district administrative court. He claimed in court that he did not have a Russian passport because he was left in the State Border Service. And instead of a passport he was given a certificate of a person who seeks asylum in Latvia.

Sergey Pmipitsin disagreed with the PMLP decision also because it has the ability to work in Latvia. He is a director, earlier worked in Latvian theater: in 2009 - in Riga, in 2017 - in Valmierrie, in 2019 - Uliepai. And on May 18 this year, the premiere of the play "Rebellion" took place at the Cesizian Theater. In the Cesesky Theater they want to continue cooperation with the director.

In addition, Plipicin is currently negotiating with the Joriks research Theater, and Deu September this year envisages a new performance. In addition, there are intervals with representatives of the Riga Russian Theater named after M. Chekhov, as well as the Zlyypay and Valmiere theaters.

Dilipicin states that he is where to live in Latvia, he studies Latvian and the Tagotok language to pass the state language.According to the director, he cannot return to the Russian Federation for political reasons because he does not support Moscow's war against Ukraine. That is why the applicant left the Russian Federation on August 29, 2022.

Another reason why the director cannot return to the Russian Federation is specific professional activity. According to Prypitsyn, in the Russian Federation he will not be able to realize in his profession, since the authorities

will persecute it, he will not have the cost of existence, perhaps he may find repression or imprisonment.

Despite the evidence of the applicant, the Latvian court rejected the statement of the Russian theater register to cancel the PMLP decision.

The court noted that France, as a member of the EU, is generally able to protect human rights in its territory: France is considered a safe country and can be possible political asylum. It follows from the case file that the PMLP received a response from a competent French body that assumed a responsibility for consideration of the applicant's request for asylum.

Due to Kakhovka hydroelectric power station, the residents of Kryvyi Rih need to reduce consumption by 40%.

About it in [telegram](#) Alexander Vilkul, the head of the Kryvyi Rih, reported, Ukrinform reports.

"Industrial enterprises have already minimized consumption, in the villages next to which [water](#) Prescharivvodvodokanal, water is served four hours a day. But the main consumer is the population of the city. And it is very

important for everyone to reduce water consumption by 40%. This is to do, "he said.

According to the head of the city military administration, a year ago, the Ukrainian Civa began to prepare for such scenarios. Thanks to large -scale work, water in the Southern and Karachuniv reservoirs was pumped into a domaximal level, which now enabled the citywater to operate in actually in a large mode, and the water in the city is, its quality is controlled.

Vilkul assured that a plan that included technical tanorganization measures was immediately put into operation. There is a stock of time - about a month, if without savings, Table one and a half months - if with savings.

"Those technical solutions that will have to be implemented for water lifting, no one has done in such a short time. During this time, we need to implement serious projects in order for the city to continue with water," - wrote.

Vilkul stated that if the population is not saving, a month later, 70% of the water will be without water. These 70% include - Ternovsky, Pokrovsky, Ingulets, Dovgintsev districts, part of Saksagansky(from mc..evileyna and further)Taspine metallurgical. To the Central City District and partly tentalurgic, Dovgintsev and Saksagan districts-water is supplied by the Razhachuniv Reservoir. There are no risks with water supply in this part of the city.

Earlier it was reported that today the level of Kakhovka reservoir in Rynikinikopol is already 9.35 meters at a rate of 16.8 meters. During the day, the water level lowered more than a meter, and from the moment of blasting - more than 7 meters. Swived from the shores for hundreds of meters.

On the first day after the catastrophe at the Kakhovskaya hydroelectric power station, the Prosecutor General sent a prosecutor of the International Criminal Court to an appropriate appeal regarding the investigation of this catastrophe. The work that all Ukrainian law enforcement officers and other institutions are attached to the maximum.

About it in your [appeal](#) At the end of the 473rd of the war, President Volodymyr Zelenskyy said, reports Ukrinform.

### **Dear Ukrainians, Ukrainians!**

Today, 95 more of our people were returned from Russian captivity, 31 of them were Mariupol's defender. Most are ordinary and sergeants, two officers. Arms, National Guard, border guards. I thank our team: Budanov, Yermak, baby, lubin, who is engaged in exchanges, thank you for this result. Well done guys! Every Ukrainian, we have to pull every Ukrainian from Russian.

We continue our rescue operation in the south of Ukraine, and about 4 thousand people have been evacuated. Dozens of cities and villages remain flooded, the worst situation, as before, on a temporarily occupied part of Kherson region.

Again and again we thank our people: military, police officers, rescuers. I thank separately to volunteers, doctors, local authorities - to anyone who helps to infect people after a catastrophe at the Kakhovskaya Hydroelectric Power Plant, and especially thanks to those who help to get people, in particular, from the occupied territories. It is extremely difficult, dangerous, it is a special heroism. Thank you for every saved life!

Russian terrorists continue to fire evacuation routes, punctures, boats on which people are taken out ... Today, three people were killed as a result of one of the same. It was an evacuation from Kardashinka, villages on the Left Bank of Kherson region ... The invaders created this disaster, undermined the Swing, threw people in the flooded cities and villages, and they still set up boats after which people try to take away ... even more innicated than you, the Russian state.

Representatives of the International Criminal Court visited the Kherson region these days. The first day after the disaster, the Prosecutor General sent a corresponding appeal to the Office of the International Criminal Court to the Office of the International Criminal Court to investigate this disaster, and the work has already begun. The full and fair responsibility of Russian terrorists and the terrorist state itself is a prerequisite that there will be no more repetition of such evil in the world.

Today, our state has taken another sanctional step. Against those who will serve the evil that the Russian state became. Against those who have helped to destroy the diligence in Russia and play one of the key roles in repression

by natively occupied our territory and in the territory of Russia itself. 178 of the samists were added to our sanctions lists on the submission of the Security Service of Ukraine. And we will do our best and every one of this list of assistants of the Russian dictatorship is true of everything they had done against people and freedom. For every broken fate and for every criminal decision, which helps to turn into a terrorist state.

And one more. Of course, I am grateful to our soldiers for this day. Each of our battle, each of our division. Khortytsya, Tavriya, all who are contagious, all who are in positions, everyone who helps ... I thank you! Thank you for every book, for every battle, for every destroyed occupier!

Glory to our heroes! Glory to all who protect the life of Ukraine and Ukrainians!

We will win!

**Glory to Ukraine!**

Due to Kakhovka hydroelectric power station, the residents of Kryvyi Rih need to reduce consumption by 40%.

About it in [telegram](#) Alexander Vilkul, the head of the Kryvyi Rih, reported, Ukrinform reports.

"Industrial enterprises have already minimized consumption, in the villages next to which [water](#) Prescharivvodvodokanal, water is served four hours a day. But the main consumer is the population of the city. And it is very

important for everyone to reduce water consumption by 40%. This is to do, "he said.

According to the head of the city military administration, a year ago, the Ukrainian Civa began to prepare for such scenarios. Thanks to large -scale work, water in the Southern and Karachuniv reservoirs was pumped into a domaximal level, which now enabled the citywater to operate in actually in a large mode, and the water in the city is, its quality is controlled.

Vilkul assured that a plan that included technical tanorganization measures was immediately put into operation. There is a stock of time - about a month, if without savings, Table one and a half months - if with savings.

"Those technical solutions that will have to be implemented for water lifting, no one has done in such a short time. During this time, we need to implement serious projects in order for the city to continue with water," - wrote.

Vilkul stated that if the population is not saving, a month later, 70% of the water will be without water. These 70% include - Ternovsky, Pokrovsky, Ingulets, Dovgintsev districts, part of Saksagansky(from mc..evileyna and further)Taspine metallurgical. To the Central City District and partly tentalurgic, Dovgintsev and Saksagan districts-water is supplied by the Razhachuniv Reservoir. There are no risks with water supply in this part of the city.

Earlier it was reported that today the level of Kakhovka reservoir in Rynikinikopol is already 9.35 meters at a rate of 16.8 meters. During the day, the water level lowered more than a meter, and from the moment of blasting - more than 7 meters. Swived from the shores for hundreds of meters.

The Security Service systematically exposes the channels of illegal crossing of conscripts. During complex events in several areas of Ukraine, 8 new

schemes were eliminated and 15 organizers of illegal "traffic" were detained. They promised their clients to take them outside our country to drink counterfeit documents or bypassing checkpoints. The cost of such "services" was evaluated differently. The maximum amount was \$ 12 thousand.

About it [reports](#) Security Service of Ukraine.

**\* Yes, in Kiev:**

The suspicion of the capital's lawyer was informed. For money, he offered fictitious work on the unfit for military service for health reasons, which is due to the registration of the "disability group".

Another channel of illegal migration in the capital was blocked by staff of the Security Service of Internal Security. Its functioning is more than 10 people. The attackers suggested potential recruits to leave Ukraine under the guise of volunteers. To do this, the dealers registered the charitable organization, which was used to implement the "scheme".

SBU staff detained one of the organizers of the equipment on the received 10 thousand Yeuro for a package of fictitious documents for departure to the EU.

In the first gender after the catastrophe at the Kakhovskaya hydroelectric power station, the Prosecutor General sent an appropriate appeal to the International Criminal Court to the Office of the International Criminal Court to investigate this disaster. The work that all Ukrainian law enforcement officers and other institutions are attached to the maximum.

About it in your [appeal](#) At the end of the 473rd of the war, President Volodymyr Zelenskyy said, reports Ukrinform.

### **Dear Ukrainians, Ukrainians!**

Today, 95 more of our people were returned from Russian captivity, 31 of them were Mariupol's defender. Most are ordinary and sergeants, two officers. Arms, National Guard, border guards. I thank our team: Budanov, Yermak, baby, lubin, who is engaged in exchanges, thank you for this result. Well done guys! Every Ukrainian, we have to pull every Ukrainian from Russian.

We continue our rescue operation in the south of Ukraine, and about 4 thousand people have been evacuated. Dozens of cities and villages remain flooded, the worst situation, as before, on a temporarily occupied part of Kherson region.

Again and again we thank our people: military, police officers, rescuers. I thank separately to volunteers, doctors, local authorities - to anyone who helps to infect people after a catastrophe at the Kakhovskaya Hydroelectric Power Plant, and especially thanks to those who help to get people, in particular, from the occupied territories. It is extremely difficult, dangerous, it is a special heroism. Thank you for every saved life!

Russian terrorists continue to fire evacuation routes, punctures, boats on which people are taken out ... Today, three people were killed as a result of one of the same. It was an evacuation from Kardashinka, villages on the Left Bank of Kherson region ... The invaders created this disaster, undermined the Swing, threw people in the flooded cities and villages, and they still set up boats after which people try to take away ... even more innicated than you, the Russian state.

Representatives of the International Criminal Court visited the Kherson region these days. The first day after the disaster, the Prosecutor General sent a corresponding appeal to the Office of the International Criminal Court to the Office of the International Criminal Court to investigate this disaster, and the work has already begun. The full and fair responsibility of Russian terrorists and the terrorist state itself is a prerequisite that there will be no more repetition of such evil in the world.

Today, our state has taken another sanctional step. Against those who will serve the evil that the Russian state became. Against those who have helped to destroy the diligence in Russia and play one of the key roles in repression

by natively occupied our territory and in the territory of Russia itself. 178 of the samists were added to our sanctions lists on the submission of the Security Service of Ukraine. And we will do our best and every one of this list of assistants of the Russian dictatorship is true of everything they had done against people and freedom. For every broken fate and for every criminal decision, which helps to turn into a terrorist state.

And one more. Of course, I am grateful to our soldiers for this day. Each of our battle, each of our division. Khortytsya, Tavriya, all who are contagious, all who are in positions, everyone who helps ... I thank you! Thank you for every book, for every battle, for every destroyed occupier!

Glory to our heroes! Glory to all who protect the life of Ukraine and Ukrainians!

We will win!

**Glory to Ukraine!**

Viktor anti-aircraft complexes are easy to maintain and maneuverable. They are easily hidden in a firing position, and the pace of firing about 600 shots of the rockwill allows you to reliably hit the air targets at great distances. The union with the thermal imaging sight and the collimator target is a very powerful weapon against the Shahaneda.

This was announced during the tactical-special classes at one of the landfills of the northern operating zone, the commander of the Joint Forces of the Armed Forces of Ukraine said Lieutenant General Sergey Naev.

[!\(Images/APMIRINFORM/2023-06-11T66-00-00-04-00/347241795\\_650515773771145\\_8161588064988534608\\_n-150x150.jpg\)](#)

According to the commander this year, the equipment of mobile groups has begun with new anti -aircraft installations of Czech production. The first samples of "Viktor" are already carrying a combat duty in the north and demonstrate the removal results for the beat of drones-Kamikadze.

The anti -aircraft complex is "made for people". It is easier to aim and lead with a modern sighting complex.

-Subsequently, in order to increase the ability of mobile fire groups in general, it is planned to strengthen them with radar intelligence,-said Lieutenant General Sergey Naev.

The commander personally protested a new installation in action and communicated with landscapes.

About this [it is referred](#) In the message of the MMILITARY MEDIA CENTER.

«Colonel Edwardpisotsky Colonel of the Training Center of the TRI Armed Forces Command:

The Training Center of the Armed Forces of the Armed Forces, though recently created, but we will quickly adapt and develop. Everyone who passes through our training center will gain new knowledge, skills and will continue to be implemented during the preparation of their units that stand on the line of contact.

The first direction of training of our center is the training of the commanders of the departments. We will sober so that each of them understands their level of responsibility. The sergeant is one of the key battles. It is they who control the battlefield. So, we are studying according to NATO armies.

The second direction is the training of platoon officers. Good experts - instructors who fought in different units. They studied both in Ukraine and abroad.

The third direction is a mouthpiece of the mouth - the commanders of the mouth and the management of Battalions. Also, all by NATO standards, the program is adapted to the real-Ukrainian war. Previously, the lieutenant has been taught four to five, now it takes eight weeks.

Our instructors are ready for all 100 percent and treat their responsibilities responsibly, because each of them has combat experience.

The war is not delayed. We must be determined and confident in our actions to convey this confidence together with the knowledge of our graduates. Victory will build us!".

National Georgian Legion, Institute of Problems of Education of the National Academy of Pedagogical Sciences(NGO "Federation of Women for Peace throughout the world", a school of equal opportunities), a number of public organizations of military-patriotic direction: "Association of war veterans, ATO participants(Sistereer), members of families of dead(the dead)Talica with war "organized for children aged 10 to 14 years of practical training on the project" we learn to protect, protect and win, broke responsibility for ourselves and those who near the program "Train as a military" program.

The event was attended by Hero of Ukraine Lieutenant General Igor Gordiychuk, Commander of the Georgian Legion Mamuka Malashvili, Director of the KSCA Youth Sports Department Yulia Khan, Head of NGO "Association of War Veterans, ATO Participants(Sistereer), members of families of dead(the dead)and war invalids "Oleksandrushinsky, Chairman of the Committee of Military-Patriotic Education of KODA, representative" All-Ukrainian Movement for the Future "Natalia Brunko, head of the sports department of the national Georgian Legion Kaha Basil, from the parental public-Valery Zaika.

Each of the invited guests personally turned to the children and noted their patriotism and a great thirst for knowledge.

According to the commander of the national Georgian Legion, it is vital to understand that Ukraine needs to be protected from invaders today and to transmit the protection of our borders to future generations. The Legion from the averse -made invasion has taught more than 20,000 civilian citizens how to defend themselves in military aggression.

- Today, our instructors and those who studied in the Georgian Legion will demonstrate demonstration performances for children. This is a kind of preparing pre -superstition so that children understand what, how and when to do. These are the basics, medicine, hand -to -hand combat, etc., - said the commander, master's degree, translator.

Also, one of the organizers of the event and the presenter, the cavalier of the Order of Princess Olga Zinstitu, the problems of education of NAPNA Tatiana Tarasova stressed that the name is projected in two main words - to protect and defend ourselves, because in modern speeches we must be responsible for both ourselves and for ourselves and for our neighboring. helping yourself and others, approaching the expected victory.

The head of the Ivan Bohun Military Lyceum, Hero of Ukraine Lieutenant, Igor Gordiychuk, noted the need for the young generation of such events.

The emotional support of the event and the competition of modern patriotic song is a perpetrator of the Military Orchestra of the National University of Defense of Ukraine Lumbyl Zamkin.

After the solemn part of the event, the attendees demonstrated the shows of the members of the legion. The children were then divided into several groups by age -encyagonia. Young people were able to learn new ones and take over the knowledge of the audited instructors. In particular, there were several locations: NATO's initial specialtactic training, tactical medicine, engineering and melee.

According to one of the instructors, such interest of young Ukrainians is not possible not to please. Children treat everything consciously and try to take out a close location as much as possible for themselves.

One of the teenagers Andrew says that military topics are interested in him with the abilities of his childhood.

Upon completion of the event, the guests were presented to each participant with diplomas, and the regulation of groups and instructors - certificates from the national Georgian legalon.

Canada imposes additional sanctions against 24 physical and 17 organizations in Ukraine within the framework of the Regulations on Special

*Economic Measures(Ukraine)* . Price measures are a direct answer to Russia's attempts to destroy cultural objects, institutions and identity of Ukraine.

About it [reports](#) The Canadian Government site.

In addition to significant damage and complete destruction of a number of Ukrainian cultural objects, thousands of Ukrainian cultural artifacts were found missing or, as reported, stolen by Russian troops in temporary - occupied territories after a full -scale invasion of Russia in Ukraine in 2022 year. In its efforts, the identity of Ukraine, Russia, is reported that illegally exported Ukraine and caused harm to cultural heritage objects.

"With today's announcement, Canada imposes sanctions against persons associated with Russian cultural objects by Russia to resist Kremlin's attempts to "Russify" Ukrainian culture. There are Ukrainians who work in museums and other cultural centers in the list of persons who have been submitted to the sub -centers. It also includes the newly created structures of the occupied territories of Ukraine, such as the so -called ministries of education, as well as natural and legal persons related to private military companies that have arisen in Ukraine and fight on the side of Russia, "the message goes.

In addition, since Russia is trying to force its culture and the education of temporarily occupied territories of Ukraine, these sanctions will lead to further expenditure on the so -called power in the regions of Ukraine illegally occupied by Russian military in order to protect Ukrainian culture and identity.

With these sanctions, Canada confirms its unwavering devotion to the support of the people against the aggressive war of Russia, continuing to increase the pressure on Russia, who cooperate with the Russian administration in Ukraine as they stop these unjustified attacks.

The first devastating consequences of the exploration of the Russians of the Kakhovsky Dam were felt on a disaster of the regions of Ukraine. Among them are Mykolaiv region. High water, including the villages of Novovasilovka Taafanasiyivka, Snigurov district, located on the bank of the Ingulets River, also came to some of its inhabited points.

But no inhabitant was left alone, and the help in the half -heated village of village almost immediately. The evacuation was carried out by the SES, the Armed Forces of Ukraine, local departments and volunteers.

The settlements are located on the bank of the Ingulets River, and for the usual conditions -made water landscapes were only in joy. Now, according to local men, more than one hundred homes have been flooded. People try to save at least something of their property and farms, but they do not lose hopes-most importantly they are alive.

[!\(Images/APMIRINFORM/2023-06-11T87-00-00-04-00/1-3-2-150x150.jpg\)](Images/APMIRINFORM/2023-06-11T87-00-00-04-00/1-3-2-150x150.jpg)

The crossing, which is about to move, is also waiting for volunteers who responded and came to the rescue almost instantly. There are many inhabitants here. This is the David Selodlia, as if he is native, because he often happens here.

[!\(Images/APMIRINFORM/2023-06-11T87-00-00-04-00/4-24-150x150.jpg\)](Images/APMIRINFORM/2023-06-11T87-00-00-04-00/4-24-150x150.jpg)

Nowadays, the urgent need for these settlements is water, because they will not be able to evacuate. Volunteers bring with them, of course, and food, medicine clothing.

Under normal conditions, it would not be difficult to get to the village, especially having a Plivzasib, but now is too strong current, and without the help of the military - in no way. The military was completed, the military began to assist in evacuations.

People in Ukraine are indomitable, and watching how they united in this difficult -minute, you realize that neither the Great War nor the Great Water will take us.

The journalistic protocol obliges leading international media and news agencies, such as Bloomberg and Reuters, who wrote about the undermining of the Kakhovski HPP dam, to give the word and the Russian side. However,

the European community has clearly expressed that the culprit of the catastrophe can be only the Russian Federation.

According to Ukrinform, this is in an interview with the channel [Freedom](#) The EU Ambassador, the head of the EU Delegation Matti Maasikas, said.

"This is a terrible tragedy that followed [explosion](#) But the destruction of the dam in Nova Kakhovka is in fact a good example. Yes, there is a journalistic protocol that is obliged to give the word to the opposite side. But you see how a few policies such as the President of the European Council Charlmicell, the high representative of the EU on Foreign Policy and Security Policy, Josepborrell, said only Russia, "Maasikas said.

He added that international publications, in addition to the comments of the parties, also take into account the experts.

"There are also several different experts who say that in all logic, only Russia will be. And this is obvious, since this dam is a nad -Russian occupation. They in any case bear for this responsibility, "he said.

**Read also:** [EU Delegation already cooperates with partners for Kakhovskaya Hydroment Highways - Maasikas](#) In an interview, Maasikas also noted that the Ukrainians had no motivation to blow up the dam.

As reported [Ukrinform](#) , at night, on June 6, the Russian army blown up the dam of Kakhovka hydroelectric power station.

In the Kherson region, the evacuation of the population from dangerous places for which Yerizik flooding as a result of the blasting of the Kakhovka hydroelectric power station began.

About this it is referred Presidential Office Celebration:

"It happens - and with journalists especially - when life puts a preying choice: to become a hero? It happens that it is much easier to bypass such a choice and stay somewhere in the gray area between good and evil - in the zinosajuneutrality. But anyone who does not pass it and resists evil, who is inheritance of things by their names and spreads the truth - can become a hero not only for a day. We live at a time when our freedom depends on all of us, when the world has to know the full truth about every crime against freedom in one world so that freedom is preserved everywhere. Evil now claims not only the country or another country, but on values. Our values with you. To be cut. And I thank you - and all Canada - for not joking with evil. I am for the support of our struggle for freedom!"

Volodymyr Zelensky, together with Justin Trudeau, addressed the Canadian journalists within the Press Gallery Dinner, which is held in Ottawa by the Gallery of the Channel Parliamentary Press. About it the President of Ukraine [said](#) In its conclusion at the end of the 473rd day of the war.

"Today, 95 more of our people have been returned from Russian captivity, 31 of them were Mariupol's defender. Most are ordinary and sergeants, two officers. Arms, National Guard, border guards. I thank our team: Budanov, Yermak, baby, lubin, who is engaged in exchanges, thank you for this result. Well done guys! Every Ukrainian, we have to pull every Ukrainian from Russian.

We continue our rescue operation in the south of Ukraine, and about 4 thousand people have been evacuated. Dozens of cities and villages remain flooded, the worst situation, as before, on a temporarily occupied part of Kherson region.

Again and again we thank our people: military, police officers, rescuers. I thank separately to volunteers, doctors, local authorities - to all who help to reflect people after a catastrophe at the Kakhovka hydroelectric power station, and especially thanks to those who help to get people, in particular, from the occupied territories. It is extremely difficult, dangerous, it is a special heroism. Thank you for every saved life!

Russian terrorists continue to fire evacuation routes, punctures, boats on which people are taken out ... Today, three people were killed as a result of one of the same. It was an evacuation from Kardashinka, villages on the Left Bank of Kherson region ... The invaders created this disaster, undermined the Swing, threw people in the flooded cities and villages, and they still set up boats after which people try to take away ... even more innicated than you, the Russian state.

Representatives of the International Criminal Court visited the Kherson region these days. The first day after the disaster, the Prosecutor General sent a corresponding appeal to the Office of the International Criminal Court to the Office of the International Criminal Court to investigate this disaster, and the work has already begun. The full and fair responsibility of Russian terrorists and the terrorist state itself is a prerequisite that there will be no more repetition of such evil in the world.

Today, our state has taken another sanctional step. Against those who will serve the evil that the Russian state became. Against those who have helped to destroy the diligence in Russia and play one of the key roles in repression by natively occupied our territory and in the territory of Russia itself. 178 of the samists were added to our sanctions lists on the submission of the Security Service of Ukraine. And we will do our best and every one of this list of assistants of the Russian dictatorship is true of everything they had done

against people and freedom. For every broken fate and for every criminal decision, which helps to turn into a terrorist state.

And one more. Of course, I am grateful to our soldiers for this day. Each of our battle, each of our division. Khortytsya, Tavriya - all who are contagious, all who are in positions, everyone who helps ... I thank you! Thank you for every book, for every battle, for every destroyed occupier!

Glory to our heroes! Glory to all who protect the life of Ukraine and Ukrainians!

We will win!

Glory to Ukraine!", - the address reads.
