In particular, since the beginning of 2023, the coordination headquarters to the ICRC sent a number of Ukrainian servicemen whose names were confirmed directly by the Ministry of the Russian Federation. Also in his letter to the coordination plant, the Red Cross confirmed the receipt of requests for Ukrainian Nav's Guards, who were captured during the Chernobyl NPP protection, as well as other numerous places of freedom in Russia, where Ukrainian protectors and defenders are detained.

The International Red Cross also confirmed that he received a request from the headquarters to organize correspondence between prisoners of war and their families. Unfortunately, most of the Ukrainian defenders in the captivity of the enemy are not able to get a news home for many months.

The Coordination Headquarters also officially invited the ICCH experts to participate in the work of Ukrainian teams for the search for missing persons and to promote their activity.

Coordination experts in cooperation with the Presidential Office and the Ukrainian agencies do everything possible to improve the conditions of temporary stay of Ukrainian combatants and civilians in captivity, find and return home and everyone.

This was stated by NATO Secretary General Stoltenberg during the announcement of joint statements with US Secretary of State Anthony Blinken at the US State Department.

On June 12-13, a visit to Jes Stoltenberg to the United States was made, in which the leader of the novice Atlantic Alliance discussed in Washington the issue of the future summit in Vilnius.

NATO Secretary General has praised the support of allies on the Alliance to strengthen Ukraine's compliance in counteracting Russian aggression.

"I want to thank the United States and President Biden for everything you do to strengthen the transatlantic ties. And, of course, the support you perch Ukraine. European allies also contribute to Ukraine, tens of billions of economic and military support.

The support of NATO allies and partners is changing the situation on the battlefield as Ukrainian Ukrainians have launched an offensive. They move and conquer positions. We know that the more Ukrainians are ready to release the land, the stronger they will be during the negotiations. And it is more likely that President Putin will realize that he will never win the invading war on the battlefield, "Yinstoltenberg stressed.

On February 24, 2022, the large -scale invasion of Russia into Ukraine replaced NATO on February 24, 2022. Alliance countries have begun to spend more on defense, strengthening security in the Euro -Atlantic region.

Even the share of 2% of GDP for defense, which was announced at the NATO summit in Walesiu in 2014 is not enough to effectively counteract modern threats, says Jens Stoltenberg. It was planned that by 2024 the countries would not spend a minimum of 2% on defense costs.

"We are preparing for the next NATO summit in Vilnius. There we will agree to increase and strengthen support for Ukraine, then strengthen our nuclear restraint and defense, which includes clearer obligations to increase defense costs.

I expect that the Alliance members agree that 2% of GDP should be a minimum and that the Mipovin is all investing in our defense and collective security, "Yinstoltenberg summarized.

The postponement of the implementation of the Law on Education is the preparation of the Ukrainian interpretation for the Vilnius Summit.

About it in [interview Ukrinform](#) Dmitry Tuzhansky, Director of the Institute Central European Strategy, Analyst, Analyst, Expert on Hungarian Question.

"The bill was registered at the end of May and it is very important to see who did: Arshamia and Kornienko among the authors, that is, this law is a clear

political step, agreed at the highest level. It was ashamed, it was also done in Hungary as well, "Tuzhansky said.

"This is a smart, right step in this situation. It usually does not solve problems, it is simply a postponement. I do not see any reaction of officials in Hungary to this law," he said.

"Another thing is that the blocking of Hungary in the EU and NATO is not only the issue of the Hungarian national minority in Transcarpathia. Ukrainian - Hungarian relations are catastrophic already. And this is just an excuse for Hungary to block, play, do well to the Russians - let The opinion of Hungary on Sweden is also thought, because Sweden has no Hungarian minority, " - emphasizes Tuzhansky.

We will all restore, we will restore everything, and we already know exactly what steps in which timing to be done to defeat Russian aggression and our buildings. When the ruins disappear, it loses not just the aggressor, but the idea of aggression.

On this he emphasized in the evening [video](#). President Volodymyr Zelenskyy, reports Ukrinform.

*Vido: Presidential Office, Telegrams*

**\_ I wish health, dear Ukrainians! \_**

He just spoke with President of Poland Andrzej Duda - an hour conversation, first and foremost. The situation on the battlefield now, weapons for our soldiers, shells. Thanked for the implementation of previous defense arrangements.

Of course, in each conversation we pay considerable attention to long -term safety of peace tharants, and not just for us. And always effective.

Poland quite realistically perceives the need for Ukraine's membership in NATO. And this objective need. Together, we develop a specific content for the Vilnius Alliance summit. This is exactly the moment when the Russian assumptions should be completely broken that someone in NATO is still afraid of Russia. Such assumptions feed Russian aggressive ambitions. We have and can neutralize them. Thank you for the support of Ukraine and the real strengthening of NATO.

Not only today, but also throughout the week, we are preparing for the restoration of Ukraine, which will take place next week. It will be a significant event, a very representative, which will unite the hypolitical, and business efforts to restore our country and the normal life of our people. The key Ukrainian principle is simple and fair, asam: no ruins in Ukraine will remain. We will rebuild everything, we will restore everything, and we know exactly what steps in what timing and what strength should be done to defeat Russian aggression and our reconstruction. When the ruins disappear, not just the aggressor, but the very idea of aggression. And it will be.

Every day, when preparing for this London Conference, we hold long and deep preparatory meetings - all the necessary state institutions are involved, different levels. And we do everything to our vision, the Ukrainian vision - as always, meaningful - the corresponding level of international arrangements has been prepared. Today he has signed new decrees on the celebration of our warriors by state -owned Air Force, our air defense, those heroes who save our people every day. Our intelligence officers and servicemen of the Armed Forces - a combat brigade of units were also awards. A total of 331 warriors. 331 Heroic life.

Please, always remember that we are all obliged in Ukraine to protect our people's lives and independence. Respect for our military, respect for our relatives of our soldiers, respect for the wives and men of all those who stood

up for the state is certainly. Thanks to these people is a good thing. Ukraine is grateful, and it is worth showing daily.

Thank you all who are fighting and working for our victory! I especially thank everyone who is now in the battles in the east and south of our country opens the Ukrainian Strategic Space, the Space of Movement to Victory. I thank everyone who is now both in the footpath and in defense, who storms the positions of the invaders and who reflects their tours - thank you all, warriors, for bravery, for durability and for each meter!

In times of the Russians, the explosion at the Zaporozhye NPPs will be more terrible than the nuclear bombing of Japanese cities of Hiroshima and Nagasaki during the Second World War.

This opinion was expressed by the former Minister of Environmental and Nuclear Security Yuriy Kostenko on the air [Ukrainian radio](#), reports Ukrinform.

"Russia has not yet moved nuclear warheads, because the United States fully track of nuclear warrior storage facilities from Russian storage.(<https://www.ukrinform.ua/tag-zaporizka-aes>)- It's not even Hiroshima Ynagasaki. It is a much more frightening and large -scale nuclear accident that can lead to the conditions of such a war to unpredictable consequences, "Kostenko said.

According to him, none of the analysts will be taken to evaluate what and how to do when active fighting is underway in the territory of the Zaporozhye region and a sudden reactor or a storage facility of the waste nuclear fuel.

The external, is convinced that the catastrophe on the Kakhovsky hydroelectric power station is the forerunner, which can take place at a much larger and more terrible scale.

"I would recommend to the highest Ukrainian leadership to sit down and negotiate with the event to prevent the most terrifying scenario for the ZPP. Adzheal of tactical nuclear weapons into Belarus - these are quite theoretical threats for NATO safety and the beginning of nuclear war. that now Ukrainian troops continue the offensive for the purpose of liberation of both Zaporizhzhya region and Energodar - becomes the nuclear danger of numbers not only for Ukraine, but for the whole world, "the expireowner said.

According to the former head of Mindovquil, against the background of the total failure of such a special military operation, the political and military leadership of the Russia has no idea how to proceed. According to Kostenko, there are events at the Zaporizhzhya NPP, where the invaders begin to prepare a heavy accident, which is one of the elements of the nuclear war.

The chairman of the Board of the Confederation of Ukrainian Societies Oksana Sichko noted that usually the collection of cargo takes several weeks. And the cargo of this convoy was erected when the news of a terrible terrorist attack came - undermining the aggressor of the Greblykakhov HPP. Therefore, it was decided to urgently collect assistance for the residents of Kherson region.

"What happened to the Kakhovsky hydroelectric power station is a terrorist attack and ecocide. Such terrible crimes committed by the Russian aggressor in Ukraine once again prove that Russia is a absolute evil. I am sincerely grateful to the friendly Latvian people, Latvian entrepreneurs, volunteers, organizations for your help, for being with this evil, tirelessly standing with us," Ambassador of Ukraine to Latvia Anatoly Kutsevol said on his departure.

Indeed, a large number of Latvian activists' organizations took part in the assembly.

In particular, Laivu Depo provided a boat for evacuation of the local population for the victims of the Russian terract hydroelectun. Another boat was donated by Kalkai stores.

Ziedot.lv Charitable Foundation opened a donation to help Ukrainians affected by catastrophic flooding. 90 thousand euros were rapidly assembled. Part of this amount was used for the purchase of linas for pumping water, generators, tents, spruce, flashlights, respirators, protective gloves, rubber boots, chainsaws and other tools, gas portable tiles, shovels and axes, animal.

Some assistance, which is part of the humanitarian part of the cargo, is also built for the Ukrainian military in the area of fighting.

This escort will also be assisted for three demining groups that make the way for the counter -offensive of the Armed Forces of Ukraine. Thanks to the initiative, they will receive two powerful and reliable Volkswagenamarok SUVs filled with various equipment, including metal detectors. Also, thanks to this charity platform, Ukrainian defenders will receive eightyrons, tablets, thermal imagers, rangefinders, binoculars, charging stations and boat motor.

Initially, this convoy was prepared for the 47th Brigade of the Armed Forces, the State Service of Kusway Situations of Ukraine, the Engineering-Sacre Battalion of the Armed Forces, the 36-Brigade of the Marines, the 21st Brigade, the units of the National Police "Lyuta", 110 and 10 brigade, the intelligence of the Ministry of Ministry. Description: The emergence of a large number of "interpretations" of Ukraine by Russia and a number of well-known world brands causes a split in the public perception of Europeans of Ukraine, and this must be combated at the state level. - Ukrinform.

The appearance of the "interpretations" of the map of Ukraine by Russia and a number of well-known brands causes a split in the public perception of Europeans, and it must be combated at the state level.

This was discussed at [meeting](#) round table in Ukrinform on "Territorial integrity VS Cartographic propaganda".

A representative of the Center for Strategic Communications and Information Security Maximayorov noted that after occupation by Russia, part of the territory of Ukraine appeared cards, on which they were not marked as Ukrainian territories. Moreover, they will be supplied by large international publications and companies whose governments support Ukraine's territorial integrity.

"Initially, these were outlines, that is, contours, maps of Ukraine on the Internet, VmassMedia, in electronic publications, on television. Subsequently, in the West, these territories were not denoted in the West in accordance with the position of the territorial integrity of Ukraine, but as the territorial integrity of Ukraine, but as the territorial integrity of Ukraine, or controversial or uncertain," he said.

The founder of the public initiative "STOP MAPAGANDA!Information de - occupation of Ukraine" Mykola Golubey noted that not only Russia is engaged in Mapoganda, but among large Western brands are those that print and spread it.

"For example, National Geographic allegedly only depicts geographical controversy, but ... in the flagship atlas of National Geographic, there is an order that Crimea is part. At the end of the atlas there is also additional material about it," Golubey said.

He explained that so soft propaganda, placed in printed products of well-known brands, is perceived as a fact.

"The result of" Mapogangs "is that due to the large number of interpretations of Ukraine, there is a split in the public perception of Europeans," the founder of the public initiative.

According to him, the consequences of such influence include counteraction to decision-making governments on the supply of weapons for Ukraine, promotion of the idea of "cutting" of Ukraine, as well as motivation of citizens to violate the border crossing.

"The seizure of the territory, or occupation, or annexation is not a reason to change the state border. Therefore, in such cases, we cannot transfer the state border. The state border ... must be shown(So)as it is recorded in accordance with the international treaty, but it should be made that it is a temporarily occupied territory and, of course, about the ownership of DUNMENT," Sossa stressed.

He also noted that there is a concept of border delimitation, the border line of the map, and demarcation, that is, taking this line to the terrain. According to its words, in Ukraine with Russia the land plot of the border is only delimited. "Cybots were completed in 2003. In 2006, even the Decree of the President of Ukraine was established a demarcation commission. But the Russian side was ignored, did not create any commissions, and the demarcation of the border landowner was not carried out. The same story with delimitation in the aquatoria and the Black Seas, "the scientist added.

**Read also:** [Foreign Ministry contributed to the correction of 20 cases of incorrect imposition of borders of Ukraine](#) According to the founder of the public initiative "STOP MAPAGANDA!Information Production of Ukraine ", the task of the state should be to consolidate in the minds of the Ukrainian ideas that the only borders of Ukraine are determined as of 1991, and the only image of the map of Ukraine is the official image of the UN. He also called the stages of this work.

"It is first and foremost to stop the sale of fake products, to conduct investigations within companies or to change the policy of companies. Official letters from companies with recognition of fake products, as well as compulsory funding by companies by violators of measures of Ukraine, depending on the information damage they caused, "said Golubey.

The postponement of the implementation of the Law on Education is the preparation of the Ukrainian interpretation for the Vilnius Summit.

About it in [interview Ukrinform](#) Dmitry Tuzhansky, Director of the Institute Central European Strategy, Analyst, Analyst, Expert on Hungarian Question.

"The bill was registered at the end of May and it is very important to see who did: Arshamia and Kornienko among the authors, that is, this law is a clear

political step, agreed at the highest level. It was ashamed, it was also done in Hungary as well, "Tuzhansky said.

"This is a smart, right step in this situation. It usually does not solve problems, it is simply a postponement. I do not see any reaction of officials in Hungary to this law," he said.

"Another thing is that the blocking of Hungary in the EU and NATO is not only the issue of the Hungarian national minority in Transcarpathia. Ukrainian - Hungarian relations are catastrophic already. And this is just an excuse for Hungary to block, play, do well to the Russians - let The opinion of Hungary on Sweden is also thought, because Sweden has no Hungarian minority, " - emphasizes Tuzhansky.

The procedure of procurement of food for the Armed Forces of Ukraine is open and compliance with all procedures. Anyone can track it on the website.

About it [reports](#) Ministry of Defence Ukraine.

At the same time, on June 12, several people spread unreliable and incorrect information on the purchase of food of the Ministry of Defense.

Therefore, as for "not publishing information on which, allegedly, the collegial body made a decision on Friday, June 9", then the collegial organ of the Ministry of Defense of Ukraine on Defense Procurement, and by the way, there is a representative of the Anti -Corruption Council at the Ministry of Defense Ministry , On June 9, he made only a decision to reject participants in some procedures, which MUS immediately published in the electronic system of ProZorro on June 9.

The decision to recognize the winners was transferred by the collegial body to June 12, after which IUU on the same day - June 12 - immediately published them by the ProZorro procurement system. It is about 8 procurement procedures. This information is open. In addition, on June 13, another 8 procedures were announced and winners.

In total, the Ministry of Defense has announced 22 procedures for the purchase of food for the Armed Forces. Currently, 16 of them have results and the winners have been announced. The winners have not yet been determined by 4 processes; Another 2 procedures were rejected by all times, and on June 13, these 2 procedures were repeated.

"Unfortunately, people who have distributed information that the publications of trading are not being delayed and not published. These "data" is not true. This is easily checked both in the ProZorro system, so it is idle at the expense of public control - a representative of the anti -correal counterparts is a part of the collegial body of the Ministry of Defense on Defense Procurement.

Actually, information about this "fact" has already been deleted by authors from publications. What do we have in reality? Purchases are ongoing, everything happens to all procedures and without violation of no terms, which are defined by the Law on Public Procurement, - said Deputy Minister of Defense Denisssharapov.In addition, during the period of clarifications from the participants for each procedure, a secondary average of 40 appeals - that is, 22 procedures more than 850 appeals. The Ministry of Defense is obliged to publish appropriate explanations within one working day from the date of receipt of the receipt.

"Given that all this could have caused the disruption of the personal composition, the MOU took into account these risks and proposed the corresponding changes to the CMUN335 resolution. Important: These

changes did not oblige the MOU to continue the current agreements of the year, but only gave the right to amend the time, sufficient for the procurement procedure. We cannot allow our military to eat. The reaction to such threats is obvious - it is impossible to make a lot of inspection on the nutrition of military unscrupulous participants. Currently, the post -publication of the results of bidding, that is, when we are sure that the auction has taken place, that there will be no disruption of food supplies to our defenders and rags, we have applied to leave these changes without consideration without consideration, "Denis Sharapov added.

Israeli artist and writer Alexander Halytsky presented a unique course in providing emotional and psychological assistance to elderly during the war.

The presentation of the course was held at the Media Center Ukraine-Ukrinform.

"From the very beginning of the war, Israel helps Ukraine in various fields. And, in particular, in the field of psychological and physical rehabilitation. We

even organized a such special conference in [Lviv](#) regarding rehabilitation issues. And today we continue to work in this way. Of course, different segments of the population suffer from this situation. Children, women, military, civilians, as well as the elderly. And today we are weaving how to help these people, and what can be done, " - said the Ambassador of Israel to Ukraine Michael Brodsky during the event.

The course is called "Elderly people: life and communication in stormy times. How to help a rich person to overcome stress and injury, while not getting crazy. " It aims to help the elderly overcome the stresses and injuries caused by war and improve the quality of life.

"Older people are different from us, so we need to be careful very carefully. I have learned a lot from my students, one of whom for 102 years," Halytsky said.

NATO Allies have already made fundamental decisions concerning the future membership of Ukraine in the Alliance, but continue consultations on ways to realize them.

This was stated today in Brussels during a press conference by General Jens Stoltenberg, Ukrinform correspondent reports.

"Our consultations(On NATO membership in NATO - Ed.)Simple zaraz continue. I could only complicate these consultations if I tell the cut elements or predict conclusions in advance. But what I can say is that the allies have already agreed and approved when it comes to NATO's membership, "the Alliance head said.

**Read also:** [Reznikov will discuss with NATO allies many years of help - Stoltenberg](#) He noted that the Allies agree with the Open Door Policy, and Tsebulo was demonstrated when in Madrid Finland and Sweden were invited to join the Alliance.

The second fundamental achievement-all the allies agree that Ukrainian-Pannah NATO member, which has been repeatedly emphasized at all NATO levels, Tacraine-Member, Stoltenberg emphasized.

The third point, which is important for all allies, is that the decision is the right time when Ukraine will be joined by NATO, Ukraine and the Member States will be made, and no one else, he said.

In the new gas season, Ukraine offers more than 10 billion cubic meters of underground gas storage facilities (PGS) and a flexible gas transportation system that supplies more than 100 transportation routes between PGS and European border.

According to Ukrinform, the press service reports [LLC "GTSUkraine Operator"](#).

"We have analyzed various gas transportation routes between Ukrainian storage facilities and European borders. The reliability of each route is guaranteed by the large number of connections between the PG and the gas transportation system, as well as the presence of at least two pipelines with each adjacent GTS operator, "the CEO Dmitry Lippa said.

He recalled that in 2022-2023 OGTSU worked hard on expanding the possibility of cross-border trade. This allowed to offer now 54 billions per day of guaranteed capacities at the entrance to Ukrainian GTS which can be used to gaspread in Ukrainian storage.

At the same time, the output that can be used for re -export is more than 200 million cubic meters.

"Ukrtransgaz has enough capacity to select large volumes of gas in the peak periods of the heating season. The capacity of interbounding points of connection is now being able to import millions of cubic meters in Ukraine a day, and Ukrtransgaz continues to keep customers the opportunity to keep its customs warehouse mode for 1,095 days without payment of taxes and customs payments, " - added Ukrtransgaz.

The parliamentary parliament was sentenced to blast the dams of the Kakhovskaya hydroelectric power station, the fault for which the fair majority of the Bundestag members put on Russia and demands the punishment of responsible ones.

The situation was discussed on Wednesday, Ukrinform correspondent reports.

The deputy from the Union of the Union of 90- "Green" Robin Vagain called the conscious blasting of the dam "the most terrible man-made disaster, which has been in recent decades." Tens of thousands of people were in the area of disaster, and from left to the shore the invaders also hindered evacuation. Water supply has been affected for 700,000 Ukrainians, the World Health Organization prevents cholera burning, and the crop reduction will be felt in many corners of the world. "Intention of nature is nothing more than an ecocid," the politician emphasized.

He also spoke for emergency emergency assistance to Ukraine and assistance to the reconstruction, as well as support on the EU's journey to Ukraine. In addition, the perpetrators of this crime should be held accountable, and Ukraine should hold even more weapons to win the war and release their territories.

His one -party officer Jurgen Trittin called the blasting of the dams another crime, Inagada was that it was Russia's first attack on a hydraulic company. "We have to put the end of the statement of avoiding responsibility," he urged. What happened, the expected deficit of grain, should be a signal for all those who say, "This is a non -war."

"We condemn this way of warfare. It is clear to us that Ukraine's support in this new dimension is more urgent than ever. We continue to help Ukraine, including weapons, "said Niels Schmid, a representative of the ruling social - democratic party. He advocated the recognition of an ecocid during the war criminal offense in international criminal law, there is no need to be persecuted as a military crime. Schmidta also emphasized the need to pay more attention to the safety of such sensitive objects as nuclear power plants.

The representative of the Agnes Strak-Zimmermannaskaya Frace of the Free Democratic Party was a tragedy of water use as weapons. "It shows what cruelty Putin is leading this war. He should be responsible for this in the Hague, "she said, and Putin said that Putin with her imperial ambitions and the desire to make Ukraine to close her way to the West," will not be able to prevent this even with the help of 80 billion liters of water. "

Yes, Johann David Vadeful called the destruction of the dam "crime against humanity", as a crime against plants and animals. "To ensure that such catastrophes are unique, the German government must support Ukraine so quickly and so vigorously that it can win this war," Vadeful said. His one -party officer Knutabraggs noted that the fact that Russia is successful in showing its weakness. "Russia acts as a terrorist country. It is a war crime, it is terror, "he said.

Left and right "alternative for [Germany](#) "On the one hand, they expressed their condolences to the victims, but they were also insisting on the cessation of supply of weapons to Ukraine, which, they say, did not contribute to the war, but only leads to escalation. We will all restore, we will restore everything, and we already know exactly what steps in which timing to be done to defeat Russian aggression and our buildings. When the ruins disappear, it loses not just the aggressor, but the idea of aggression.

He emphasized this in the evening [video message](#) President Volodymyr Zelenskyy, reports Ukrinform.

*Vido: Presidential Office, Telegrams*

**\_ I wish health, dear Ukrainians! \_**

He just spoke with President of Poland Andrzej Duda - an hour conversation, first and foremost. The situation on the battlefield now, weapons for our soldiers, shells. Thanked for the implementation of previous defense arrangements.

Of course, in each conversation we pay considerable attention to long -term safety of peace tharants, and not just for us. And always effective.

Poland quite realistically perceives the need for Ukraine's membership in NATO. And this objective need. Together, we develop a specific content for the Vilnius Alliance summit. This is exactly the moment when the Russian assumptions should be completely broken that someone in NATO is still afraid of Russia. Such assumptions feed Russian aggressive ambitions. We have and can neutralize them. Thank you for the support of Ukraine and the real strengthening of NATO.

Not only today, but also throughout the week, we are preparing for the restoration of Ukraine, which will take place next week. It will be a significant event, a very representative, which will unite the hypolitical, and business efforts to restore our country and the normal life of our people. The key Ukrainian principle is simple and fair, asam: no ruins in Ukraine will remain. We will rebuild everything, we will restore everything, and we know exactly what steps in what timing and what strength should be done to defeat Russian aggression and our reconstruction. When the ruins disappear, not just the aggressor, but the very idea of aggression. And it will be.

Every day, when preparing for this London Conference, we hold long and deep preparatory meetings - all the necessary state institutions are involved, different levels. And we do everything to our vision, the Ukrainian vision - as always, meaningful - the corresponding level of international arrangements has been prepared. Today he has signed new decrees on the celebration of our warriors by state -owned Air Force, our air defense, those heroes who save our people every day. Our intelligence officers and servicemen of the Armed Forces - a combat brigade of units were also awards. A total of 331 warriors. 331 Heroic life.

Please, always remember that we are all obliged in Ukraine to protect our people's lives and independence. Respect for our military, respect for our relatives of our soldiers, respect for the wives and men of all those who stood

up for the state is certainly. Thanks to these people is a good thing. Ukraine is grateful, and it is worth showing daily.

Thank you all who are fighting and working for our victory! I especially thank everyone who is now in the battles in the east and south of our country opens the Ukrainian Strategic Space, the Space of Movement to Victory. I thank everyone who is now both in the footpath and in defense, who storms the positions of the invaders and who reflects their tours - thank you all, warriors, for bravery, for durability and for each meter!

About it [reports](#) Coordinating headquarters for the issue of prisoners of war.

Representatives of the coordination headquarters, the Office of the Verkhovna Rada for Human Rights, the State Border Guard Service of the

Tamzhizh International Committee of the Red Cross were answered by the loved ones.(ICCH).

Представник штабу запевнив, що робота зі звільнення прикордонників іЗахисників Зміїного ведеться щоденно:

«Це показав обмін 11 червня. Ми завжди працюємо, щоби визволити всіх. У нас нема улюблених підрозділів чи неулюблених. Тим більше, усі наші Оборонці в колоніях уже перемішані й ворог за великим рахунком теж не ділить їх запідрозділами».

Також він зауважив, що планова робота зі звільнення вдається не завжди:

«Так, краще би був план — кожна мати знала б, коли повернути її сина і скільки треба чекати. Була б визначеність. Але росіянам байдуже. Хочуть завдати рідним якомога більше болю. Це їхня політика. Тому кожен обмін — не схожий напопередній. Проте коли відбуваються контрнаступальні операції — обміничастішають».

Представниці Міжнародного комітету Червоного Хреста наголосили, що неприпиняють роботу для відвідин наших бранців:

«Колеги з МКЧХ, які працюють у РФ, постійно намагаються переконати російську сторону надати доступ до полонених і підтвердити полон тих, кого утримують росіяни і про кого немає інформації. На жаль, це забирає час. Але результатимаємо».

Представник Офісу Уповноваженого Верховної Ради з прав людини застеріг від пропозицій невідомих осіб «викупити з полону» родичів.

«У більшості випадків це шахрайство. Просто заберуть гроші. Також такі пропозиції мають посіяти недовіру до органів нашої державної влади. Крім того, ті, хто ризикне погодитися, можуть потрапити на гачок російських спецслужб», — сказав він.

Координаційний штаб радить повідомляти про такі випадки за контактними телефонами та звертатися до правоохранних структур.

At this time, 16 EU Member States have been assisted in Ukraine to overcome the Kakhovsky Hydroelectric Power Exploration.

About this [it is referred](#) On the European Commission's website.

"After blasting the dam in Nova Kakhovka last week and the call of Ukrainian power for help now the EU will mobilize its strategic reserves from the powersceu capacity," the statement said.

As noted in the European Commission, 16 European countries - Austria, Belgium, Bulgaria, Czech Republic, Denmark, Estonia, Finland, France, Germany, Latvia, Lithuania, Netherlands, Norway, Poland, Spain and Sweden - have offered assistance through the EU's Civilian Protection.

Among the help, in particular, water tanks, water pumps, boats, rescue equipment, generators and other necessary assistance for the affected areas.

Ukraine has also received three mobile water treatment plants from the EU, which can produce 120,000 liters of clean water per day and thus help to help get the problem of access to drinking water.

In order to further support humanitarian operations on the EU, 500,000 euros were also mobilized to solve immediate needs that arose from the Choice of the Kakhovka Dam. This assistance supplements 200 million Euro - humanitarian assistance that have already been allocated to Ukraine in 2023.

Step by step demining the State Special Defense Transport Service of Ukraine cleans their native land from artillery shells, various mines, aviation and other explosive "gifts" left by Russian invaders during retreat.

The correspondent of the Armyinform witnessed one of the stages of demining nearby entertainment of the Vyshgorod district, in the Kyiv region.

[!\(Images/APMIRINFORM/2023-06-14T66-00-00-04-00/dsst\\_01-150x150.jpg\)](#)

After the de -occupation, the process of restoring the destroyed infrastructure began. One stages of which was the restoration of movement across the River of Zhrev, which divides the village of Slazvrav and Zherevpillya. At all stages of the builders are accompanied by changes of variations, including representatives of the State Special Transport Service of the Ministry of Defense of Ukraine.

The State Special Transport Service is a specialized military formation, which is part of the Ministry of Defense of Ukraine system, intended to ensure the sustainable functioning of transport in peacetime and in a special period.

[!/\(Images/APMIRINFORM/2023-06-14T66-00-00-04-00/dsst\\_05-150x150.jpg\)](!/(Images/APMIRINFORM/2023-06-14T66-00-00-04-00/dsst_05-150x150.jpg))

- We are not working on this facility for the first time. The first time they cleared the territory in the beginning of the construction of the temporary bridge. Now the builders have come to the erection of a new bridge. During the work, they found ammunition that were detonated, and called our group to mine the construction site,-says the commander of the engineering-sapper group of DSST Alexander Przhikov. - It is very difficult to work in this area, because the soil remains the same concrete elements of the structure of the old bridge, which significantly complicates the use of the ministry.

Of course, the sappers of the State Support Service were not only demining the adjacent destroyed bridge of the territory. The local residents asked the

military to inspect the land and other territories near the village, and they were never denied.

[!\(Images/APMIRINFORM/2023-06-14T66-00-00-04-00/dsst\\_09-150x150.jpg\)](#)

The sappers argue that the land around the bridge hides many "orkivski-surprises", because during the blasting of the structure, the Russians used an unsecured amount of ammunition, namely, anti-tank mines TM-62 and 82-mmminometric mines. The use of so many ammunition can only be explained that the invaders needed to release a place for washing machines that they selected from local residents.

[!\(Images/APMIRINFORM/2023-06-14T66-00-00-04-00/dsst\\_11-150x150.jpg\)](#)

In total, 22 explosive objects were identified and disposed of this time, including three anti-tank mines of TM-62 and nineteen mortar mines. Due to the fact that the detected ammunition cannot be transported, the sappers decided to destroy them on the spot.

In the city of Kharkiv, persons with the status of combatants will be able to obtain a cost -free loan for a home for up to 15 years.

Such a norm is contained in the decision to amend the city target program of construction(acquisition)Available housing for 2021–2030, adopted on June 13 during an extraordinary session of Kharkiv City Council.

In this way, the deputies took care of our military and law enforcement officers who participated in the measures necessary to ensure the defense of

Ukraine, protection of the security of the population and the interests of the state in connection with Russian aggression.

In addition, by voting, other changes have been made to this program, and will be able to remain in the queue to receive a preferential lever with the preservation of the order in the Register.

The initiators of these important decisions were a deputy group of numerous protectives of Ukraine, headed by a representative of the Kharkiv Regional Public Organization "Union of ATO Veterans" Yuri Korsunov.

He said that on the basis of the last decision of the City Council the mechanism of providing interest -free loans is being worked out, specific housing facilities, state financial institutions and more are selected. Therefore, there is a little more to work on bringing this issue to the finish line. However, in his thought, the hardest thing is behind.

By the way, at the same time in Kharkiv region a regional program for supporting ATO/OOS participants for construction or purchase of housing in the Kharkiv region for 2022-2025 is being implemented. This social project, better known as "60%by 40%", stipulates that the participants of the program from the regional budget compensate for 40%of the cost of the home they buy. The rest of the money is paid by ATO/OOS. Among the criteria for determining the priority of candidates for housing is the multidimensionality, injuries, disability, etc.

Servicemen who were called to the ranks of the maritime border guard on mobilization but did not have experience of service, were trained at one of the training centers of the SSSU.

About it [reports](#) State Border Service of Ukraine.

More than thirty defenders and one defender in the framework of preparation have acquired practical skills in marine, fire, tactical and intelligence training. The newly minted border guards practiced in shooting, throwing, developed endurance, checking the ability to overcome difficulties, heavy physical and psychological loads related to tasks, expanded their knowledge, courageously and steadily overcome their own fears.

[!\(Images/APMIRINFORM/2023-06-14T6-00-00-04-00/news\\_20230613\\_151405\\_16866584452-150x150.jpg\)](#)

The lion's part of the course took place in the field, during which the border guards studied and performed actions in the group, department, platoon.

"My decision was unambiguous - today I have to get involved in the protection of Ukraine. We will win, but not desired enough, we must act. A person is afraid of what he does not know. I think knowledge will overcome all fears. There is still a lot of work work, but the base is stuck - strong, " - summed up the maritime border guard Alla Skazkevich.

The practical highlight of the course was the struggle for the survivability of the ship, which was bully in conditions as close as possible to emergency. Practice defenders improved the coordinated crew actions using emergency

rescue property while combating local fire and training the skills of counteracting the volumetric fire development.

In addition to the struggle for the survivability of the ship, they studied the mobilized and the basics of tactical medical.

Prepared, motivated and inspired by the first successes, border guards were released to staff units, where they will hone the skills in the crew.

Russia urged the UN International Court of Ukraine to reject Ukraine's requirements in the case of Russia's violation of two conventions - on the fight against terrorism financing and the ban on all forms of racial discrimination.

It is reported by Ukrinform correspondent in the Hague.

"The Russian Federation asks the Court to reject all the requirements of Ukraine on the International Convention for the Financing of Terrorism and the International Convention on the Liquidation of Forms of Racial Discrimination," Alexander Shulgin said in his speech by Russian Ambassador of Russia.

This is the usual task of the infantrymen at zero - to go out to a pre -explored and prepared fire position to burn with a gunner and grenade launcher, a technique or a living power of the enemy.

At the same time, the battalion commander gives command to the operators of antitronne rifles to "close" the sky above the route and the position of infantry.

After the "antidronshitors" have reported work, grenade launchers are jogging, aiming and making shots. This is all the underpass whistle of mines in the air and explosions on the ground.

After successful distance from the firing position, infantrymen soothe breathing and again can speak.

At that moment, the invaders begin to intensively fire the area from which oatmeal. This is a reason to accelerate again.

For the first time, the German government approved the National Security Strategy and called Russia a greater threat.

About this [it is referred](#) on the site of the German government.

"For the first time in the history of our country, we have developed a national security strategy," Germany's Federal Chancellor Olaf Scholtz.

According to him, this strategy is an important contribution to the safety of people in Germany.

"Without security, there is neither freedom nor stability, nor prosperity," - said the German Chancellor.

Olaf Scholtz added that the country's political environment has changed in the last one and a half years, in particular, it meant a large-scale invasion of Russia and attack on the Nord Stream gas pipelines.

"Security in the 21st century is more than hostilities and diplomacy. The Russian Aggressive War against Ukraine has shown that peace and freedom do not fall from the sky. This applies to, for example, medicines, as well as cyberspace and cleanliness of water," Germany's Minister of Law Berbb said.

The strategy is based on three "central dimensions" of security policy: defense, stability and stability. It states that "today's Russia is the greatest threat to peace and security in the Euro-Atlantic region.

The parliamentary parliament was sentenced to blast the dams of the Kakhovskaya hydroelectric power station, the fault for which the fair majority of the Bundestag members put on Russia and demands the punishment of responsible ones.

The situation was discussed on Wednesday, Ukrinform correspondent reports.

The deputy from the Union of the Union of 90- "Green" Robin Vagain called the conscious blasting of the dam "the most terrible man-made disaster, which has been in recent decades." Tens of thousands of people were in the area of disaster, and from left to the shore the invaders also hindered evacuation. Water supply has been affected for 700,000 Ukrainians, the World Health Organization prevents cholera burning, and the crop reduction will be felt in many corners of the world. "Intention of nature is nothing more than an ecocid," the politician emphasized.

He also spoke for emergency emergency assistance to Ukraine and assistance to the reconstruction, as well as support on the EU's journey to Ukraine. In addition, the perpetrators of this crime should be held accountable, and Ukraine should hold even more weapons to win the war and release their territories.

His one -party officer Jurgen Trittin called the blasting of the dams another crime, Inagada was that it was Russia's first attack on a hydraulic company. "We have to put the end of the statement of avoiding responsibility," he urged. What happened, the expected deficit of grain, should be a signal for all those who say, "This is a non -war."

"We condemn this way of warfare. It is clear to us that Ukraine's support in this new dimension is more urgent than ever. We continue to help Ukraine, including weapons, "said Niels Schmid, a representative of the ruling social - democratic party. He advocated the recognition of an ecocid during the war criminal offense in international criminal law, there is no need to be persecuted as a military crime. Schmidta also emphasized the need to pay more attention to the safety of such sensitive objects as nuclear power plants.

The representative of the Agnes Strak-Zimmermannaskaya Frace of the Free Democratic Party was a tragedy of water use as weapons. "It shows what cruelty Putin is leading this war. He should be responsible for this in the Hague, "she said, and Putin said that Putin with her imperial ambitions and the desire to make Ukraine to close her way to the West," will not be able to prevent this even with the help of 80 billion liters of water. Yes, Johann David Vadeful called the destruction of the dam "crime against humanity", as a crime against plants and animals. "To ensure that such catastrophes are unique, the German government must support Ukraine so quickly and so vigorously that it can win this war," Vadeful said. His one -party officer Knutabraggs noted that the fact that Russia is successful in showing its weakness. "Russia acts as a terrorist country. It is a war crime, it is terror, "he said.

A powerful evidence was collected on another Russian associate, which after

cooperation with an enemy in the Donetsk region fled from the region and wanted to avoid justice. He judged the attacker 13 years in prison.

As informs The Security Service of Ukraine, at the beginning of a large -scale interference of Russia, was handed over to the occupiers of the location of the defense forces on the Liman Napryamka.

He conveyed the reconnaissance in the "liaison" - the DNR, which was in the temporarily captured part of the region.

At the same time, after the liberation of the region from the Russian invaders, their informatics fled to Lviv, where as a displaced person wanted to "hide" the mid -city residents.

The SBU staff found that the defendant planned to restore their contacts by the residents, in particular, to transfer to them intelligence from the territory of the Western Region of Ukraine. The collaborator was detained at the end of December last year.

On the basis of the evidence collected, the court found the attacker guilty of collaboration.

Alexander Dugin, the head of the pro -Kremliv International Organization "Eurasian Movement", was collected. The person involved is one of the key

ideologues of the Russian people and genocide of the Ukrainian people. In its numerous stakes, printed publications and publications, it has already translated the existence of Ukraine as a sovereign state for more than 10 years and calls for its armed capture by Russian troops.

About it [reports](#) Security Service of Ukraine.

At the beginning of a large-scale invasion of the Russian Federation, Dugin was one of the first publicly supported occupation groups of the aggressor country and justified their military rooms against Ukraine. The attacker openly promoted the ideas of mass physical destruction of Ukrainians, as well as the civil infrastructure of our country.

Linguistic and linguistic expertise confirmed the facts of the criminal activity of the Russian citizen Dugin. On the basis of the evidence collected, he was notified to him by two articles of the Criminal Code of Ukraine:

Since the attacker is hiding from justice in the territory of Russia, SBBA is comprehensive measures to hold him responsibility against Ukraine.

During the last meeting of the government, an order was made to create commissions in every community that was affected by the emergency caused by the undermining of the Kakhovsky Hydroelectric Power Dam. The commissions will capture the factual and destroyed property in Kherson region.

This was stated by Viceremier-Minister Irina Vereshchuk, reports Ministry of Reintegration of the Temporarily Coopered Territories of Ukraine.

Commissions should appear immediately. Their creation will be controlled by the Kherson regional military administration.

"The government adopted provides that local governments are obliged to create such commissions as soon as possible. They should function with a permanent settlement, every territorial community affected by the result of flooding. Their task is to record the facts of damage to the property. Their work will depend on the speed of preparation of acts, entering the data in the registry and receiving compensation, " - summarized the re -ancase.

US Secretary of State, Anthony Blinken, during a visit to China, discussing the aggressive war of the Russian Federation against Ukraine, including such "Peaceful Proposals" by Beijing, as well as preventing military support for Russian forces.

This was reported on Wednesday during a briefing in Washington by a spokesman for US State Department Matthew Miller, Ukrinform reports his own correspondent.

"I hope that this topic will be part of the discussions during the Vise," the State Department spokesman said whether the potential support of Russia from China will be discussed.

**Read also:** [Blinken on Sunday plans to visit China](#) In this context, Miller recalled that the United States has repeatedly warned the side of a similar step, and as of today, there is no need for Russia to supply Russia with any weapons.

With regard to the "peace plan" of the PRC of 12 points, the representative of the American department has argued that the United States welcome any proposals that will provide "fair and strong" peace in Ukraine.

"China stated that he was interested in peace, but it was also closely related to Russia since the beginning of this war. So, if China is seriously arranged for the achievement of peace, which respects Ukraine's sovereignty, which respect Ukraine's respect, of course, it would be important, and it was sideways, "the State Department representative emphasized.

Undermining the Kakhovskaya hydroelectric power station is a terrorist act that creates a food security of the world, the Committee on Agrarian Land Policy said.

About it [reports](#) Verkhovna Rada of Ukraine.

Thus, according to the Ministry of Agrarian Policy, the losses of state property of reclamation systems and channels as a result of the blasting of the

Kakhovka hydroelectric power station make up 150-160 billion UAH. Accurate data can be determined after the de -occupation of the territories. There is a probability that the systems will be destroyed or dismantled by the occupiers.

Without restoring the source of water supply, it is impossible to talk about irrigated agriculture in the near future.

It should be reminded that the Kakhovsky reservoir was a source of irrigation for 94% of Ucherson systems, 74% - in Zaporizhzhia and 30% - in the Dnipropetrovsk regions. The Kakhovka reservoir was a source of nutrition for 584 thousand hectares of land, water was supplied for irrigation. In particular, the Kakhovsky main channel service served 326 thousand hectares, North Krymesky - 39.7 thousand casters. In addition, a number of systems in Zaporizhzhya, Kherson and Dnipropetrovsk regions carried out a separate water intake of the armor on the total area of irrigation 218.3 thousand hectares.

President of Ukraine Volodymyr Zelenskyy

He just spoke with President of Poland Andrzej Duda - an hourly conversation, first and foremost. The situation on the battlefield now, weapons for our soldiers, shells. Thanked for the implementation of previous defense arrangements.

Of course, in each conversation we pay considerable attention to long -term safety of peace tharants, and not just for us. And always effective.

Poland quite realistically perceives the need for Ukraine's membership in NATO. And this objective need. Together, we develop a specific content for the Vilnius Alliance summit. This is exactly the moment when the Russian assumptions should be completely broken that someone in NATO is still afraid of Russia. Such assumptions feed Russian aggressive ambitions. We have and can neutralize them. Thank you for the support of Ukraine and the real strengthening of NATO.

Not only today, but also throughout the week, we are preparing for the restoration of Ukraine, which will take place next week. It will be a significant event, a very representative, which will unite the hypolitical, and business efforts to restore our country and the normal life of our people. The key Ukrainian principle is simple and fair, asam: no ruins in Ukraine will remain.

We will rebuild everything, we will restore everything, and we know exactly what steps in what timing and what strength should be done to defeat Russian aggression and our reconstruction. When the ruins disappear, not just the aggressor, but the very idea of aggression. And it will be.

Every day, when preparing for this London Conference, we hold long and profound preparatory meetings - all the necessary state institutions are involved, different levels. And we do everything to our vision, the Ukrainian vision - as always, meaningful - the appropriate level of international arrangements has been prepared.

We continue our communication with partners on Russian rocket production. Today, Russian inhumans have inflicted on another rocket launcher in the Odessa - from "calibers". Dozens of components of these "calibers" are placed in Russia. Obviously, every such path of supply is the way to strengthen the terror. The world has tools to block all such paths - from each country, from every company whose components are used by Russian missiles. Please, always remember that we are all obliged in Ukraine to protect our people's lives and independence. Respect for our military, respect for our relatives of our soldiers, respect for the wives and men of all those who stood up for the state is certainly. Thanks to these people is a good thing. Ukraine is grateful, and it is worth showing daily.

Thank you all who are fighting and working for our victory! I especially thank everyone who is now in the battles in the east and south of our country opens the Ukrainian Strategic Space, the Space of Movement to Victory. I thank everyone who is now both in the footpath and in defense, who storms the positions of the invaders and who reflects their tours - thank you all, warriors, for bravery, for durability and for each metr.
