Volodymyr Zelenskyy

President of Ukraine Volodymyr Zelensky addressed the daily message of the D -Ukrainian people:

The other two sanctions lists are natural and legal persons that help sanctions against Russia, hold the property of military criminals and involve the reduction of freedom both in the territory of Russia itself and in our land.

Our sanction packages are elaborated in detail, and in particular - for synchronization from partners. This is one of our common tasks - absolutely everyone who will end the faster end of the war, faster than our victory. The task is to remove any opportunities for Russia to circumvent sanctions. Each Russian scheme that allows you to bypass sanctions, adds time to this war, adds opportunities to the aggressor.

Accordingly, the sanction regime against Russia, which is more restricted in front of the terrorist state and all related persons, against the whole Russian economic economy of war, will be more likely to complete aggression. And I thank everyone in the world who understands it.

Glory to all our soldiers! Glory to all our heroes of different times who fought for the independence! Ukraine will always be free! Glory to Ukraine!

“The tactics and nature of the enemy's actions in our direction have changed somewhat intensity and effort in the Avdeevsky, Mariinsky Tawgledar directions. The purpose is to displace, capture and create such conditions

that will allow them to enter the administrative borders of Donetsk region. A characteristic feature is a constant rotation, systematic regrouping, non - nonsense of units in order to morally influence our troops. Aviation ravines, trying to force our units to depart and take measures of the emeis, "Dmitrashkivsky said.

President of the Hockey Federation of Ukraine Georgy Zubko evaluated the performance of the national team of Ukraine in the first match of the World Cup in the Division of IPs against China (4: 5).

Він розповів про це ексклюзивно в коментарі Укрінформу.

«Сьогодні була дуже видовищна гра. Хочу подякувати їм. Ми могли взяти більше, але за всіма показниками ми маємо можливість цю групу вигравати. Наскільки вдається це реалізувати - зовсім інше питання. У нас є хороша воротарська лінія, якісних нападників. Вперше за три роки ми сформували фактично ідеальний склад, щоб грати й перемагати. Не виділятиму нікого, адже вся команда грає гідно. Ми зберігаємо оптимізм на рахунок майбутнього», - сказав він.

Зубко також наголосив, що федерація поставила перед тренерським штабом збірної одне завдання - виграти групу.

«Команда має малюнок, забивних хлопців. Ми маємо всі складові для того, щоб перемагати в цьому дивізіоні. Залишаємо за собою всі шанси на перемогу в групі. Тренерський штаб отримав від федерації єдине завдання - виходити далі. Сьогоднішня поразка в овертаймі жодним чином не змінює наші плани. Вимога довсіх: і до спортсменів, і до керівництва команди - перемагати в наступних чотирьох матчах, щоб не дивитися на результати інших поєдинків. Ми хочемо чути гімн після кожної гри. Сьогодні не вдалося, адже Україні потрібні перемоги», - пояснив президент ФХУ.

Окрім того, він подякував партнерам за допомогу в підготовці збірних України до змагань.

«Тренерський штаб зробив велику роботу під час зборів. Хочу подякувати нашим партнерам, які допомагають готоватися до змагань в складних умовах всім збірним. Дякую вболівальникам в Таллінні й по всьому світі. Ми відчуваємо підтримку від усього світу», - підсумував Зубко.

This is stated in the guest article by the Minister of Foreign Affairs of Ukraine Dmitrykuleb for the German edition , reports Ukrinform.

"The territorial integrity of Ukraine needs to be restored, a compromise with Moscow would be fatal consequences for the future world order," - a confident Kuleba.

He draws attention to the fact that, against the background of the weakening of Russia's offensive in eastern Ukraine, the expected Ukrainian offensive voices from all over the world call for peaceful interpretations between the Russian Federation and Ukraine, to the immediate ceasefire. These voices are the fact that Russia has not demonstrated the real interest of the pre - core negotiations or termination of hostilities, the minister said. Vinuuly is that the words of Moscow are worth nothing and it will still continue to furnish Ukraine to kill more people and seize more territories.

"No country in the world seeks peace like Ukraine. But we also know that a truly peace must be fair and strong. The vision of Ukraine is realistic and concrete, "the Foreign Minister emphasized. He reminded the proformula of President Vladimir Zelensky's peace and urged all the nations to support it.

Read also: Kyiv carefully examines all proposals and welcomes any initiative that respects the territorial integrity of Ukraine, the principles of the UN Charter and the relevant operations of the General Assembly, the diplomat added. But, he noted, any proposition of Ukraine will be rejected to territorial concessions.

"We never wanted this war and we do not want more than what belongs to the international law and the UN Charter. It is a realistic and legal requirement, which is not a maximalist. We have never attacked anyone and did not have no territorial claims. We just want Russia to return what it stole from us. And I mean not only the Ukrainian territory. Also Russian stole peace in Europe and stability in the world, "the General Foreign Ministry wrote. Kuleba expressed his deep gratitude to all allies and partners, including Znimenchyna, for tireless support since February 2022. This help saved many lives and helped Ukrainians survive, he emphasized.

Read also: [Dmitry CULEBA](#) "The future of Euro -Atlantic security will be decided on the battlefield in Ukraine. If we make a mistake now and decide to reward Putin for his aggression in a different form, not to win him as a lesson for all other potential aggressors, the future of Ukraine, Europe and the world will be in danger, "Kuleb wrote.

He stressed that true peace means the restoration of international recognized border of Ukraine. True peace means a safe homeland for the Crimean Tatar people in Ukrainian Crimea. True peace means grain, not warships in the

Black Sea. A true peace means a world united under the rule of international law.

President of the Hockey Federation of Ukraine Georgy Zubko evaluated the performance of the national team of Ukraine in the first match of the World Cup in the Division of IPs against China (4: 5).

Він розповів про це ексклюзивно в коментарі Укрінформу.

«Сьогодні була дуже видовищна гра. Хочу подякувати їм. Ми могли взяти більше, але за всіма показниками ми маємо можливість цю групу вигравати. Наскільки вдається це реалізувати - зовсім інше питання. У нас є хороша воротарська лінія, якісних нападників. Вперше за три роки ми сформували фактично ідеальний склад, щоб грати й перемагати. Не виділятиму нікого, адже вся команда грає гідно. Ми зберігаємо оптимізм на рахунок майбутнього», - сказав він.

Зубко також наголосив, що федерація поставила перед тренерським штабом збірної одне завдання - виграти групу.

«Команда має малюнок, забивних хлопців. Ми маємо всі складові для того, щоб перемагати в цьому дивізіоні. Залишаємо за собою всі шанси на перемогу в групі. Тренерський штаб отримав від федерації єдине завдання - виходити далі. Сьогоднішня поразка в овертаймі жодним чином не змінює наші плани. Вимога довсіх: і до спортсменів, і до керівництва команди - перемагати в наступних чотирьох матчах, щоб не дивитися на результати інших поєдинків. Ми хочемо чути гімн після кожної гри. Сьогодні не вдалося, адже Україні потрібні перемоги», - пояснив президент ФХУ.

Окрім того, він подякував партнерам за допомогу в підготовці збірних України до змагань.

«Тренерський штаб зробив велику роботу під час зборів. Хочу подякувати нашим партнерам, які допомагають готоватися до змагань в складних умовах всім збірним. Дякую вболівальникам в Таллінні й по всьому світі. Ми відчуваємо підтримку від усього світу», - підсумував Зубко.

“The tactics and nature of the enemy's actions in our direction have changed somewhat intensity and effort in the Avdeevsky, Mariinsky Tawgledar directions. The purpose is to displace, capture and create such conditions

that will allow them to enter the administrative borders of Donetsk region. A characteristic feature is a constant rotation, systematic regrouping, non-nonsense of units in order to morally influence our troops. Aviation ravines, trying to force our units to depart and take measures of the emeis, "Dmitrashkivsky said.

The enemy's army began to fully adopt the experience of Wagner PEC to tanabati into their ranks of people with a criminal past. "There are certain instructions that have been drawn to us together with the captives, which clearly states that the soldiers of this unit during the fighting are not provided medical care on the polyb and the wounded is not evacuated until the position is taken or this team is not taken to retreat." , - he said.

Earlier, he suggested that having lost a lot of personnel of the Baby and Marinsky directions, can focus on the coal direction. On the Saturday, the Russian Aenglain was performed by 6 aircraft, which resulted in the destruction of the civilian population. "What does it do? Now in Bakhmut is such an eating. They are called the house on the floor, so that other soldiers were not able to equip at least any position for reflection or for rest. Therefore, in my opinion, they are firing carbonaries trying to succeed. Perhaps this is the reason that they will try to storm in the coal in the near future, "Dmytrashkivsky said.

Members of the US Congress at a meeting of the Committee on Foreign Affairs condemned the deportation of Ukrainian children and submitted a relevant resolution to the Senate's gates. They emphasized that such hearings help to find the levers and ways to hold the perpetrators responsible, [reports](#) Ministry of Reintegration of Temporarily Occupied Territories of Ukraine.

The participants of the meeting gave the facts when the invaders literally torn children from the families, were taken to the camps where they live in inhumane conditions. In places of intervening, they are pressed by Russian propaganda. In this way, they try to re -educate and make obedience. It is not

only a war crime, it is a sign of the agenocide and an attempt to erase the very identity of the nation.

Congressmen noted that the International Criminal Court of Putin's International Criminal Court on this accusation is the first of many important steps to bring Russia's senior political leadership.

This resolution should demonstrate that the American people support Ukrainian aspirations to fight for their democracy and the return of these children to their homes.

The Kremlin came up with a method of replenishing the ranks of the Armed Forces of the Russian Federation and reducing the level of voltage, [reports](#) Center of National Establishment.

In Russia, migrants from Central Asia began to be pressed and demanded in the war against Ukraine. The Russians go two ways.

The first is through military enlistment offices, and this applies to migrants who are the owners of the Russian passport. Almost immediately, they receive a summons and during the communication with the excommunication, they will receive threats that they will be deprived of citizenship if they will be mobilized.

The second applies to those who have not yet received the passport. They are promised to receive a citizen in the shortest possible time, if they go to the ranks of the Armed Forces of the Russian Federation. In the case of their reflection, they are threatened with deportation.

One of the reasons for this decision is the dissatisfaction with the families of Russian servicemen on delays in payments for the dead. The mobilization of migrant has been concerned with the reassurance of ethnic Russians about new waves of mobilization. In such a way, the Kremlin continues the strategy of use as cannon meat inhabitants and less secured people as opposed to Muscovites.

Valentyn Ogirenko, Pool (Reuters)

Foreign Minister of Ukraine Dmitry Kuleba is convinced that the votes of the Debt between Ukraine and the Russian Federation, which are heard from different parts of the world, do not take into account the fact that Moscow

does not demonstrate the slightest readiness for peace. About this it is referred in the column of the Ministry of Ministry of German edition Die Welt.

Kuleba emphasized that Russia continues to exert brutal attacks by the Ukrainian villages and cities in order to kill more people and seize more land, and it is not like the desire to negotiate, stop aggression and restore peace.

"There will be no real peace for Ukraine or the rest of the world, if Russia is not fully responsible for all its crimes, including crime against Ukraine and all subsequent war crimes, the crime of humanity and genocide," Kuleba emphasized.

According to him, the future of Euro -Atlantic security is decided on the battlefield of the in Ukraine.

"A true peace is the restoration of internationally recognized borders of Ukraine. A true peace is a safe homeland for the Crimean Tatar people in Ukrainian Crimea. True peace is grain ships, not military encryption in the Black Sea. A true peace is a world united by the rule of international law. This is what we fight for - not only for victory in the war, but also for a real, long - term peace, "the Minister of Foreign Affairs of Ukraine explained.

Colonel Yuri Ignat, a spokesman for the Air Force, told about the group strike

of Russian aircraft in Kherson region and the protection of the Ukrainian non - ela "The only news.

According to him, the Armed Forces Command has been informed by the Armed Forces for almost a month, however, that we have new threats from enemy aviation. The enemy fighter-bombers Su-35, Su-34 are attacked by managed aircraft.

- This ammunition is not a new invention. This is that they use a miserable amount of rocket weapons. Therefore, they began to modernize the bombs. To make them with JDAM analogues, that is, planning high -precision ammunition. Examine them without entering the area of lesions of our air defense. That is, unpacked areas that they can affect up to 70 kilometers. Unfortunately it is a serious call. The bomb has 500 kilograms. Similar ammunition was dropped on their own Belgorod. And everyone saw what it had a consequence. The enemy does it to beat our frontline cities, in a residential area. It is difficult for him. But we will intensify by getting new systems to counteract these new threats, - Yuri Ignat.

He also noted that the Russian Federation uses up to 40 airports to attack Ukraine. This is the airfields in the occupied Crimea, and the airfields in the aggressor country in the near, far and medium approaches to our borders. And about 20 aircraft from cyaerodromes are in the air in the light of the day.

Colonel Yuri Ignat also showed a selfie with Patriot air defense system and said that one of the divisions, armed with this air defense system, has already receded for combat -fighting for the protection of Ukraine's airspace.

According to him, the Commander of the Armed Forces personally visited the combat position of the division to thank the personnel warehouse, which was prepared early in Germany and returned faster to intercede for the protection of the air borders of Ukraine.

- Other samples of air defense systems that we promised to pass Western partners, are already a path to our combat positions. We will wait for positive results. In particular, against Rushist aircraft, - Yuri Ignat.
