President of Ukraine Volodymyr Zelensky explained that the counter - offensive of the Ukrainian Yavsk sometimes goes not as quickly as they wanted, because the Ukrainian military lives.

This was said in [interview with Spanish journalists]]([https://t.me/V\\_Zelenskiy\\_official/6795](https://t.me/V_Zelenskiy_official/6795))President Volodymyr Zelenskyy, reports Ukrinform.

"Every meter, every kilometer costs people's lives and you can't send people died . Because it is necessary to get rich before the summit, because one of the partners lacks information and confidence that he supports Ukraine in vain. This is a policy, and we are in real life. And, unfortunately, in our lives it is a real war. And, unfortunately, such a cockroach, "the President said.

He noted that there are things that can be done very quickly, "but the field is replaced. You can't send people to die. " Ukraine does not treat its people as a resource, so it does relative to its Russian Federation, the President added.

"We are our treasure and therefore we are very careful. We will definitely win. Sometimes the weather also does not contribute, there were heavy, long rains and these are slowing processes. Sometimes the partners who support us pass something slower than we were expecting. And you can't take risks and go forward until everything is not worth it, "Zelensky said.

\*!(<https://www.ukrinform.ua/rubric-ato/3725818-kontrnastup-jde-nelegko-bo-rf-zaminuvala-200-tisac-km-zelenskij.html>)He stressed that the most important thing is that our military is going forward. "Not as fast as someone wanted. But if they were asked about the deadlines, these are two and thousands of people, or three months and will die less. I would ask about 4-5 months and a minimum of losses. Because people are more important in time," states.

.How reported Ukrinform, the commander -in -chief of the Armed Forces of Ukraine Valeryzaluzhny criticized external comments that the counter - offensive was more slow than expected, since each meter of liberated territory was given by the more blood.

The Republic of the Republic of Ichkeria, in exile, processes the possibility of creating a sapecific tribunal on the current head of Chechnya Ramzan Kadyrov for the creation of a religious extremist unit "Akhmat", which committed the crimes of maltism in the territory of Ukraine.

In a comment to Ukrinform, a member of the Ichkeria Government in exile Inalsherip reported this in a comment.

"We are working on the possibility of creating a separate tribunal through Ramzan Cadirov's religious, extremely radical sect" Akhmat, "the politician said.

The Ichkeria government in exile believes that the ideology professed by the Akhmat unit, justifying its participation in the war against Ukraine and murder of Ukrainians, gives reason to consider it a religious extremist sect, which provides a generic for the peoples of the Caucasus, Europe and Ukraine.

"This religious sect has committed crimes against humanity in Europe. Religiousness launches roots both in Chechnya and in the North Caucasus and all over the world. Therefore, the creation of a special journey on Kadyrov and Akhmatat is very important for Chechnya and Ukraine, "Serip said.

According to him, a large group of religious managers of ripe thousand people was created in Chechnya, many of them have been educated at Damascus University in Syria.

"It is no secret for experts that virtually all graduates of the Sharia Branch University of Damascus from the post -Soviet countries are controlled by the Russian GRU. The Russian Secret Service has long been specializing in a religious topic. Therefore, it is important to display all those involved in the creation of Akhmat's unit inside the dew and its possessions, "said Ichkeria's government member in exile.

\*!(<https://www.ukrinform.ua/rubric-world/3675183-glava-uradu-ickerii-zaklikav-narodi-kavkazu-zrivati-mobilizaciu-v-rosii.html>) He informed that he represented the idea of creating a special about a special about Kadyrov with a nail level in the United States, it was also discussed with members of the inter -factional association "For decolonization and dismantling of the Russian Empire" in the Verkhovna Rada.

According to Serip, consultations on the mechanism of creation of this tribunal continue, as there were no such precedents.

"If we manage to create a special tribunal on Kadyrov, qualifying Ahmat as a religious extremist sectarian group that poses a threat, it is evident that we will destroy the structure they created and which today is justified by the murder of the Ukrainian people," the politician said. As it was reported, "Akhmat" is a special unit within the troops of the National Guard of Russia, which is stationed in the Chechen Republic and which commanded Kadyrov.

This detachment is involved in the invasion of Russia into Ukraine. The Ukrainian Cavorus suspects servicemen and the unit commander in the involvement of the civilians of Ukraine.

During his visit to the Kremlin in March 2022, the Chechen leader told Putin that his forces in Ukraine would help Russia to "fight to the victorious end."

In Ukrainiancoronavirus, he caused 300,000 deaths until he became a common disease.

About it on air [Ukrainian radio](#) Pavel Kovtonyuk told the co -founder of the Ukrainian Health Center, Ukrinform reports.

"Although people continue to get sick, [coronavirus](#) becomes a routine disease. It will be included in the set of all viral diseases that circulate in our population. In winter, it will be put more, in the summer - less. That is, Kovid

will become something like influenza. Recall that the Grip also once caused pandemics and great mortality. Strains mutate, people get used to them and viruses get used to people, and over time we learn to live. While coronavirus became similar to a routine viral disease, 300,000 people were swept. This is the price we paid for the period, the collar -cavirus from the new virus has become something familiar to us, "Kovtonyuk said.

He also emphasized the problems of vaccination. According to him, about a third of the population was made in the Ukrainiancheper from the coronavirus, and this is not necessary for collective protection.

"Vaccination is a thing where or everyone or no one. We needed to provoke a minimum of three-quarters of the population-any other result gave anything. And about a third of the population was drawn, so we are not very prepared for a united response to such Threats, as Pandemia. 38% of vaccinated do not give collective protection against the virus. These individual people have these people, but the collective - no, " - said the expert.

\*!(<https://www.ukrinform.ua/rubric-society/3729520-lasko-koronavirus-ne-znik-ale-vin-vtracae-agresivnist.html>)According to him, the reasons for the unwillingness of the population to do vaccinations are the extramongs of medicine and health. "It is a matter of respect, people were not getting forced, they did not trust the state, did not trust the medical system, someone is just poorly educated and informed. These problems need a very serious analysis. Because new pandemics will be definitely established by public health experts," added Kovtonyuk.Photo: Evgeniy Maloletka

Oleksandrkhachenko and Vladimir Radchenko continue to talk about music integration

Last time in [cycle of podcasts](#) We have begun a journey with musical stories, exploring how the musical cultures of different countries are influenced by one and one and what interesting phenomena it sometimes gives rise to. We will expand our geography of the goodness of countries - from south of Europe to its western and northern boundaries. As always, music will give you a lot of surprises, paradoxes and unusual storylights.

In Georgia, you will hear a wonderful composition that combines traditional Georgian male singing and French chanson.

In Belgium, a classic American black blues will be woven to chanson, and Vandinavia is awaited by an exotic, as one of the presenters, a complete level: Norwegian hip-hop says.

In Turkey, you are waiting, guess, Muslim rock, but do not be mistaken, minutely American sound, well, a little, of course, Japanese influences.

The Lithuanians will offer fed pop-rhythms combined with exquisite electronics, and the Spaniards (In one composition)- rattling mixture of rap, hip-hop, regime, Latin ...

When ethnic Portuguese will offer you somewhat in the style of Clezmer, or a clergy- a strange mixture of Jewish, Balkan and Eastern European tunes, laid on a jazz basis, you will simply plunge into our new music history, Jesami will not notice how it will come. During the time of reconstruction of Ukrainian cities, it is necessary to overcome the existing soviet architecture of Soviet aggression.

About this [Ukrainian radio](#) Architect Oleg Grechukh said, analyzing how best to reject the postwar homes, Ukrinform reports.

He noted that more foreign specialists should be involved in order to change the Soviet architectural paradigm.

"The experience of English industrial cities and Ukrainian is different, because Ukraine 300 years colonized and industrialized by the Soviet authorities. Very many cities were focused on the Soviet military industry and the actual moment there was how they would [live] there live people. After all, the task of those people was to go and produce weapons, which is why our cities were formed quite rigidly. Plus it is unesthetic. There was a Soviet utopian idea that it was a lot of trees to worry, and there are many trees and there were houses between them and the streets were there. But we know: they are wide because tanks had to pass there," the expert said.

According to him, to process this aggression, which has been built in the architecture of cities for many years and is aimed at resisting, for a completely different philosophy, the direction of development is difficult for both us and Western architects.

"But we have to attract more Western experiences to change our paradigm. It is enough to hold on to the Soviet School of Architecture," he said.

For the murder of seven civilians in the village of Pravdine in Kherson region, the commander of the Marine Corps of the Black Sea Fleet of the Navy of the Armed Forces of the Russian Federation will be tried, [reports](#) Office of the Prosecutor General.

«Prosecutors of the Kherson Regional Prosecutor's Office have been sent to court by an indictment against the commander of the Marine Corps of the Black Sea Fleet of the Navy of the Department of State(Part 1, 2 Article 111,

Part 2 of Art. 28, Part 2 of Art. 438 of the Criminal Code of Ukraine). Слідством встановлено, що у 2014році після окупації російськими військами АР Крим громадянин України добровільно перейшов на бік ворога, отримав громадянство РФ та вступив до лав збройних сил держави-агресора. З березня 2022 року обвинувачений разом з підлеглими військовими РФ забезпечував окупацію населених пунктів Херсонської області.

На захопленій території він організовував та контролював процеси, пов'язані з придушенням опору місцевого населення щодо реалізації політики окупаційної влади та схиляння громадян України до співпраці.

У квітні 2022 року, знаходячись у с. Правдине, разом із спільниками обвинувачений затримав працівників фірми, які охороняли поблизу села зрошувальні агрегати, а також неповнолітню дівчину.

Шістьох чоловіків та дівчину привезли до приватного будинку, де застосували фізичне насилля — вбили. Потім підрвали будинок із загблими» — повідомляють правоохоронці.

Спеціальне досудове розслідування здійснювалось ГУНП в Херсонській області.

Нагадаємо, у листопаді 2022 року після звільнення населеного пункту ЗСУ прокурори органів прокуратури Херсонської області спільно зі слідчими поліції та експертами провели ексгумацію та огляд тіл загиблих.

При огляді було встановлено ознаки насильницької смерті. Деякі з них — зрушеннем черепів внаслідок кульових поранень. На зап'ястях ще у двох виявлено мотузки.

During the time of reconstruction of Ukrainian cities, it is necessary to overcome the existing soviet architecture of Soviet aggression.

About this [Ukrainian radio](#) Architect Oleg Grechukh said, analyzing how best to reject the postwar homes, Ukrinform reports.

He noted that more foreign specialists should be involved in order to change the Soviet architectural paradigm.

"The experience of English industrial cities and Ukrainian is different, because Ukraine 300 years colonized and industrialized by the Soviet authorities. Very many cities were focused on the Soviet military industry and the actual moment there was how they would [live] there live people. After all, the task of those people was to go and produce weapons, which is why our cities were formed quite rigidly. Plus it is unesthetic. There was a Soviet utopian idea that it was a lot of trees to worry, and there are many trees and there were houses between them and the streets were there. But we know: they are wide because tanks had to pass there," the expert said.

According to him, to process this aggression, which has been built in the architecture of cities for many years and is aimed at resisting, for a completely different philosophy, the direction of development is difficult for both us and Western architects.

"But we have to attract more Western experiences to change our paradigm. It is enough to hold on to the Soviet School of Architecture," he said.

It is also for this visit for this visit, "said Volodymyr Zelenskyy during the election with media representatives as a result of negotiations with Pedro Sanchev.

During the meeting, the leaders discussed a number of issues, especially those concerning defense against Russian aggression.

"I am grateful to Spain and you, Mr. Sanchez, Mr. Prime Minister, for assistance, including security, to protect the lives of Ukrainians of Out-Russian Terror. I am grateful for giving shelter in Spain for about 180 thousand Ukrainians immediately after the start of a full -scale invasion of Russia. We appreciate it and never forget it, "the President said.

He also thanked for the support of common European decisions on sanctions and other fair pressure on Russia, which helps limit the powerful terrorist potential.

The Head of State emphasized that Pedro Sanchez fundamentally and very promptly condemned Russia's structures of the Kakhovka hydroelectric power station, which led to the destruction of one acquiring reservoirs in Europe and the largest ecocide of the content ecocide.

"Unfortunately, there is an even more terrible threat - it is the preparation of the Russian terrorist scenario of the radiation disaster at the largest in the European Naporozhzhzhzhia Nuclear Station, which Russia has occupied and fully controls a year. The attention of the world - every country, every leader - and a specific, significant pressure on Russia - is all a complex of very necessary things to prevent radiation incidents at the Zaporizhzhia NPP, "the President of Ukraine emphasized.

According to him, it is necessary to start work immediately on the 12th package of sanctioning for the Russian Federation. He also thanked Spain for the decision to refuse to issue visas to Russian Ibilorus athletes for the European Championships in sports, which is being held in this country.

Ukraine is grateful for the intermediate oral evaluation of our progress and is expecting to report this year in October, and by the end of the year, in December, to the decision of the European Council to start negotiations. All this is very important for us. The imprisonment of Ukraine is extremely motivated by our defenders of the EU, because it convinces that Europe sees at what price our people defend the same values that are already protected for each country in the warehouse," Vladimir Zelensky said.

He also noted the support from Spain of the Euro -Atlantic Movement of Ukraine.

"This is now an obvious fact: the broader in Europe, the broader in Europe, the space, the space of protection. Our joint with Mr. Prime Minister's

"They are convinced that today there are every reason to give Ukraine a request to NATO membership. This will be a signal that peace and security in Europe are not available and will never have alternatives. They also discussed security guarantees for Ukraine, which are required at the time before joining the Alliance. We invite Spain to discuss such guarantees," the President said.

Separately, the Head of State emphasized the joint work with Spain to attract support for peace and thanked for the support of the Ukrainian formula peace, whose points are able to protect against aggression and its consequences.

"The formula of peace is based on the principles of the UN Charter and is supported by the UN Genuses. We prepare the global peace of peace and expect Spain's effective participation in it. Such a summit will unite the efforts

of Europe and the Global South in order to bring peace to Ukraine, it will be naked, in Europe and the whole world," said Volodymyr Zelenskyy. "But for this, our cooperation and our alliances should only become stronger," the President has.

For his part, Pedro Sanchez expressed his belief that during the presidency of the EU Council, progress will be made in matters that are important for the EU to the EU, and, of course, Ukraine will be at the center of all debates.

He stressed that today Ukrainians protect the most important international precursts: sovereignty, independence and territorial integrity.

According to Pedro Sanchez, Spain continues active cooperation with Ukraine by the Vocaboron sphere and will pass new heavy equipment in the near future, including tanks and armored personnel carriers. The Spanish side will also transmit a field housing with surgical equipment, which will strengthen the ability of Ukraine to give assistance to the wounded military and civilian near the front line. Pedrosanchez has announced another 55 million euros for Spain to restore Ukraine.

The head of the Spanish government noted that at the EU level, coordination is also underway to respond to Ukraine's defense needs, including important boobs and weapons through the European Peace Fund.

In the context of the European integration of our country, Pedro Sanchez noted that the interim evaluation of the European Commission on the status of Ukraine as a candidate for entry into the EU is a positive one and testifies to significant progress.

"I would like to congratulate Ukraine and encourage the reform path. We will wait for a written report of the European Commission in the fall. It will be the basis for the more steps and decisions," he said.

According to the Prime Minister of Spain, a lot of work is carried out in the direction of the mechanisms of bringing to justice perpetrators in the military rates committed in Ukraine. In addition, there is a search for ways to solve a question with frozen Russian assets in Europe, which requires certain legal decisions.

Spain's Prime Minister wished Ukraine success in its counter-offensive operations and expressed his hope that this would provide a fair elastic peace.

About what prospects for creating a special international tribunale by the leader of the criminal Russian Federation Vladimir Putin, the Armyinform [told](#) Director of the Research Institute of Lawmaking and Research and Legal Expertise of the National Academy of Law of Ukraine(Eg), Doctor of Laws, Professor, Corresponding Member of the National Academy of Sciences of Ukraine, Honored Lawyer of Ukraine Alexei Kot.

The correspondent of the information agency of the Ministry of Defense of Ukraine was the hope that in respect of Putin, according to the results of joint work of the Armed Forces, international partners, politicians, lawyers, representatives of the public, the pity will still adhere to the main principle of criminal law - inevitability of punishment.

Another thing, how to provide it? To continue your [interview](#) Our agency Alexei Kot reported that in theory there are such possible models of prosecution of the Russian authorities of the Russian authorities:

Director of the Research Institute of Lawmaking and Scientific and Legal Expertise of the National Academy of Sciences of Ukraine Alexei Kot. Photo of Vladimir Polishchuk

According to the well-known lawyer, the first scenario with the involvement of Putin and his widowers by the courts of Russia is now absolutely unrealistic or even fantastic. Our national courts will also not be able to investigate Putin's military room, which has judicial immunity.

The last model of attraction of an international criminal, according to Professor, is a national special tribunal - can have certain varieties: such as the Nurneberg or Tokyo Process, in the form of an internationalized or hybrid tribunal on the basis of the Ukrainian Court with the participation of international security officers. United Nations. But in the last case, Russia will undoubtedly vet such a decision of the Council.

The reason for the creation of the tribunal could be the resolution of the General Assembly, however, in view of its charter, neither in the General Assembly, nor such powers in the Secretary General. Therefore, it can question the authority of such a tribunal.

-Speaking of a more or less real option, at least as I see it with my colleagues discussed it at various conferences-it should be a "criminal ramsttin". In the end, there is a coalition of our disadvantages, so partners, so I think it would be quite reasonable to ask about the creation of a special International Criminal Court of AD HOC (*letters. For a specific case. - Ed.*) To consider exclusively military crimes committed by the Russian criminal leadership in our country of anti -Ukrainian citizens, Ukrainian cities and towns, Ukrainian nature, - says Alexei Kot. - The agreement on the creation of such a tribunal must be imposed on its powers, procedural aspects, the possibility of joining the signatures of other countries. We know that defeat is always an orphan, and there are always many parents. When we still get our dream trainery, there will be many countries in the hesitation, but later with the fair -to -face "pick up this deck" and join this tribunal. The possible way to join such an agreement should be provided in advance. Photo by the author, collage of the Inform Army

АРМІЯ INFORM

Today, Kharkiv volunteers from the Charitable Foundation "Your Step" have

transferred a special unit of the Main Directorate of Intelligence of the Ministry of Defense "Kraken" an unusual car - a car workshop on wheels.

Read also:

[Kharkiv volunteers created a dock workshop for forces](#) The idea of creating a mobile car workshop originated in Kharkiv volunteer entrepreneurs last fall. The team of like-minded people who were engaged in the manufacture of professional tools and equipment for the car service, as well as its import from abroad, with the beginning of the Great War began to supply their products to the security and defense forces.

[!\(Images/APMIRINFORM/2023-07-01T82-00-00-04-00/img\\_8875-150x150.jpg\)](#)

- Communicating with our defenders, including guys who are engaged in repairing and maintaining equipment, we realized that in the modern warfare the mobile service station is needed, which can quickly be sent to a certain place, unfolding in minutes and performing works that are usually impossible to do in field conditions. This machine is already fifth in its series, so most of the decisions have already been worked out in accordance with the wishes of customers. For example, here we added a machine and a compartment for storage of technical liquids of 80 liters, - says the curator of the Projects Dmytryvchinsky.

This is no longer the first aid that Kharkiv volunteers provide Kraken. For his part, by passing the keys to the automobile workshop, the head of the healthy fund "Your Step" Sergey Alfyorov thanked the boys for the efficiency of Kharkiv and Ukraine as a whole, as well as to all who, with his donate or work, joined this project.

President Volodymyr Zelensky believes that Russia can resort to a terrorist act at the occupied Zaporizhzhya NPP to frighten the world with the possible consequences of this aggression against Ukraine and to create a political influence on the contradiction of the Ukrainian army. The Head of State stated this during a meeting with media offers after negotiation with Prime Minister of Spain Pedrosanchez in Kiev.

"We have long been saying that there is a serious threat. Because Russia is technically ready for it to provoke a local explosion at the station, which can lead to the nutrient of dangerous substances into the air. We are very clearly communicated. We all think with partners so that everyone understands what Russia is doing it for, they have been politically politically on the Russian Federation, so that they do not even think about it, " - said Volodymyr Zelensky, answering journalists' questions.

According to the President, Russian invaders resort to terrorist actions because of their army during the year demonstrates weakness on the battlefield. Thus, the rowing of the Kakhovskaya hydroelectric power station or a possible local therunch at the Russian -nuclear power plant is trying to stop the Defense forces of Ukraine.

In addition, Volodymyr Zelenskyy is convinced that the Russian Federation wants to show that its aggressive war against Ukraine is dangerous to the

world. "To make people be afraid of this. To then certain partners, especially those who are skeptics, began to political Ukraine, our counter -offensive actions," he explained.

The head of state stressed that Ukraine has been saying that the Zaporozhye NPP should be returned under the full control of the Ukrainian authorities. It is very important that, at the time of transition of control over the station to Ukraine, independent experts are all provoked. According to the President, the IAEA, which is a mediator and can attract other states, should be a role in this.

"Because there may be a remote mining. To say then that under the controlmarks everything was fine, and now there is an ejection. This is a very important point, "Volodymyr Zelenskyy said.

Answering journalists' questions about the prospects of obtaining the F-16 Ukrainian Hellos, the President recalled that agreements on the creation of coalition of countries that are ready to start the relevant training for Ukrainian pilots were reached. Despite the fact that the fighting in Ukraine is ongoing, it is time to start thinking about the post -war rebuilding of the country. And it should also be noted that the most active countries of Ukraine - first of all, the United States and the European Union - have already begun to plan that it will probably be the most ambitious post -war reconstruction in the modern history.

Experts believe that Ukraine's efforts will be significantly different in recent post-war reconstruction initiatives in Iraq and Afghanistan. This extraction will resemble the situation in Western Europe after World War II, as well as Eastern Europe after the Cold War and Western Balkans after the disintegration. The lessons of these episodes should be a source of information for Ukraine. Their basic and successful formula was created earlier. Thus, at that time, they provided money and safety, and Europeans provided the main part of financial and advanced the historical process of European integration.

And security will be as important as the reconstruction of Ukraine, since the safety of tarestructure mutually reinforce each other. Reliable safety mechanisms increase confidence in order to risk and take on long-term obligations.

However, Ukraine's growth prospects will need a powerful component. Ukraine will need to manage large-scale funding, and the trust of the Donea will be the focus. Accordingly, Ukraine and its donors will need a powerful inspector and effective monitoring and evaluation. The Ukrainian will have a call - but will also be able to make up for 30 years in a non-core economic and political development.

The reconstruction should be organized around several simple principles: Ukraine has to identify priorities, while the United States should lead security and the EU to manage economic reforms and restoration.

Let us mention historical parallels: in order to control the reconstruction of Eastern Europe after the cold war, Congress gave one senior coordinator wide supervisor. The reproduction of this approach for Ukraine will strengthen the US contribution: a collective event should have high-ranking officials in Ukraine who are in contact with the Ukrainian authorities, there are not enough periodic donor conferences.

Private investments are likely to provide the main part of the funding of Ukraine's restoration. And frozen Russian assets, both official and private, can make a significant contribution to this process, but they will use serious legal justification.

Today, Ukraine has urgent needs for both economic and security assistance, they will not end after the termination of hostilities. Ukraine's restoration can take decades, and constant public support will be vital. The reconstruction of Ukraine will be a long difficult business. But the event should decide the following:

The challenge of reforming and reconstruction of Ukraine should be considered through the prism of post-war reinforcement and reintegration of Europe, as well as 75 years of security and economic policy. Safety and reconstruction will be a way. A safe, economically prosperous Ukraine, which is fully integrated by the European institutions, will be a significant achievement that will lead to the implementation of a European projection of many generations, which is supported by a strong transatlantic partnership.

On July 1, quarantine is completed in Ukraine in connection with pandemic coronaryavirus. This decision has recently made [the Cabinet of Ministers of Ukraine](#).

Раніше заяву про те, що пандемія COVID-19 більше не є надзвичайною ситуацією оприлюднила Всесвітня організація охорони здоров'я.

Висновок зробили на основі світової тенденції до зниження рівнів смертності від COVID-19, загальної кількості госпіталізацій та госпіталізацій до відділень інтенсивної терапії, пов'язаних із COVID-19, а також високий рівень імунітету населення до SARS-CoV-2, який виник здебільшого завдяки масовій вакцинації.

Водночас важливо пам'ятати, що COVID-19 нікуди не зникає, а SARS-CoV-2 циркулюватиме надалі. Проте хвороба перейшла до групи сезонних захворювань, як грип. Отже, скасування карантину не скасовує вакцинацію – вона залишається єдиним способом запобігти тяжкому перебігу захворювання, ускладнень і смерті. В Україні щеплення проти COVID-19 залишаються рекомендованими і безоплатними. Країна забезпечена вакциною в межах програми COVAX на 2024 рік.

Карантин в Україні тривав понад три роки – від березня 2020. Скільки українців мали підтверджений діагноз «коронавірусна інфекція», скільки змогли побороти від і скільки – ні – дивіться у нашій інфографіці.

## **I wish health, dear Ukrainians, dear Ukrainian women!**

We complete this day in the Rivne region - I spent another outbound rate. All that concerns both the border and our forces, the North, I -Ukrainian Strategic Objects, such as the Rivne Nuclear Station, which was actually a rate.

There were reports of intelligence, the head, the commander of the North, the head of the border service, the Minister of Internal Affairs, the head of the regional state administration of Rivne region on social issues and needs of people. Also, the head of the head of "Energoatom" Kotin, director of Rivne NPP.

In general, not only worked in detail about the physical safety of most strategic objects and northern regions, but also such sensitive issues as cybersecurity.

I thank everyone and everyone in the Rivne region and here at the Rivne NPP, and the entire perimeter of our northern border, who care about the safety of Ukraine of drowned people.

Today, the next package of sanctions of Ukraine against those who helps Russia to wage this terrorist war. In particular, there are sanctions against nearly 300 legal entities and almost 200 individuals. And these are not only

Russian citizens. All who will help the aggressor in the world will receive a response to Ukraine and the world.

Today, the Prime Minister of Spain Sanchez was a visit to Ukraine. It is strongly - on the first day of the beginning of the Spanish presidency in the Council of the European Union. This is clearly indicative of a new reality. Our joint European Dimony could not be imagined without Ukraine. And now we have achieved the political level that European affairs without Ukraine are already not considered.

This visit of Mr. Prime Minister Sanchez talks about the priorities of Spanish Chairman and our cooperation. I thank you, Spain, for the support of - opposite, political, economic! I would like to thank for the respect and help people who found shelter in Spain, escaping from the fighting in Ukraine. I believe that soon we can provide all the necessary conditions for our people to turn home to Ukraine. I am also grateful to those countries with which we have not yet such jointly signed and declared declarations, but which clearly support Ukraine on the path of Vinto, and therefore support the approach of real peace throughout Europe. Thank you!

And one more.

The National Commission for Energy and Utility Services on Water tariffs has emerged today. To put it mildly, a shameful solution. Not agreed with the government. We cannot and will not perceive such decisions. The government is instructed to submit a decision. And they will be.

**Glory to Ukraine!**
