Live broadcast [TEMACHORFON](#) The only news spokesman for the Air

Forces of Ukraine Colonel Yuri Ignatius reported about the current situation in the sky of Ukraine, as well as how much the air forces of anti -aircraft managed missiles are in the Air Force.

Colonel Yuri Ignat notes that recently there is an activation of the enemy of unmanned aviation for intelligence purposes: at the beginning of the Ukrainian counter -offensive, and even earlier, in his anticipation - the war increases the pace of use of reconnaissance UAVs above the line of collision. They will be beaten in the future.

However, the Head of the Command of the Command of Air Forces emphasizes, it is always necessary to remember at what price of Ukrainian prototypical defense these whipped UAVs, missiles and other aircraft are given. This is the main thing, it is about the number of anti -aircraft managed missiles, which are used to destroy these air goals. Their consumption, reminiscent of Yurignat, on average for two for each goal, so that there is a confidence in its destruction. So Ukraine requires a huge number of not only modern Western anti -aircraft missile complexes, but also an extremely large number of ammunition for them. West, according to Colonel Yuri Ignat. He was not ready for such large -scale fighting in Ukraine. However, the shock has passed, the production of the means of the impression is growing, and partner countries are actively helping Ukraine, continuing to supplement weapons and ammunition.

Last week, the National Guards performed certain tasks as part of the Defense of Ukraine with consistently high combat efficiency.

About this during a briefing in Military Media Center [reported](#) Colonel Mykola Urshalovych, Deputy Director of Planning for the Application of the Main Directorate of the National Guard.

Colonel Mykola Urshalovich also told about the success of the NSU in the offensive events:

Last week, more than 80 invaders were harmed by the National Guards of the National Guard, of which 42 were irreversible losses; They destroyed combat and automobile equipment, artillery systems and mortars.

Also actively destroyed by the invaders of NSU intelligence officers, who found 371 targets, some of the enemy forces were destroyed by interaction with the units of the Armed Forces.

Unit of unmanned aviation in Zaporizhzhya and Kherson directions reached 21 departments to perform intelligence tasks, which were shown: 2 tanks. SAU, cannon, 7 combat armored vehicles, 11 unified vehicles and coordinates for their fire damage were provided.

-An example of the coordinated work of the NSU and Armed Forces units can be the destruction of the significant flamethrower system of the voluntary fire of the SOLNPENCECE in the Zaporizhzhkovka Nampryamka on June 9, 2023. The fighters of the Air Intelligence of the Haubician Artillery Division of the 3rd Brigade of Operational Purpose "Spartan" discovered the hostile-1A "SolnPepke" and adjusted the fire of artillery,-said the Colonel Urshalovich.

During a briefing of representatives of the Security and Defense Forces of Ukraine in Military Mediаcenter, Deputy Minister of Defense of Ukraine Anna Malyar said that the Ministry of Defense monitors how the enemy fights

against Ukraine in the information field, and in real examples, unto the two main theses that are trying to give up Russian propaganda:

"Now the Russians are spreading two main theses. The first is about the allegedly large losses of the personal staff of the Armed Forces of Ukraine. Such information is aimed at demoralizing the Ukrainian army from one way, and on the other, on the contrary, to raise a spiritual army. Therefore, in this situation, it can be noted that, first, during the war, the same of the parties does not publish accurate data of its losses, because the enemy is nigger and can adjust its plans, including to assume and calculate our plans. Now we can talk only about the ratio, which at the beginning of the 2014 and a large -scale invasion of 2022, brief: the number of dead on the Ukrainian side is much or much or more than times lower than the loss of the enemy.

Yesterday we published these figures. If we talk about last week, in the area of operational responsibility of the operative-strategic groups of the Khortytsia troops, enemies were killed almost more times more than our servicemen. Speaking of the pronounced direction, the enemies were killed 5.3 times more than the Ukrainian people. The life of our warriors is the most valuable for us and is a priority in the time of planning military operations.

The second narrative, spread by the Russians to discredit military aid, refers to Bradley armored vehicles that partners provide us. " During the time briefing, Anna Malyar demonstrated a photo of Bradley BMP(M2 Bradley), in which the shell of the RSZV "Grad" was combined. In the first photo - the machine immediately after the direct number, on the second - a crew, which was successfully evacuated and continues to fulfill the tasks on other technique.

Russia throws the remains of ZEK-occupiers from the so-called assault mouth "Z" to the so-called "volunteer corps".

About it [reports](#) MOV Intelligence Directorate.

"For the regrouping and completion of the so -called volunteer corps" convicted persons, the military leadership of the Russian Federation formed a special commission, " - said the message.

This commission was headed by the Deputy Chief of Staff of the Russian occupation troops in Ukraine Major General Oleg Polgaev.

The GUR added that the members of the Special Commission of Polguyev on the temporarily occupied territories of Ukraine have enhanced security.

According to intelligence, the commission issued an order to select about 2,000 people who were prisoners, conducting training with them at landfills located at a time of occupied Ukrainian territories, and transfer to the war zone.

The discipline among the volunteers will be monitored by groups of military police of the Russian Federation.

It is noted that by order of Russian dictator Vladimir Putin, assault companies "Z" from convicted persons were formed to conduct offensive acts of city battles during the war against Ukraine.

"In practice, the occupation units, completed in prisoners, showed extremely combat capability. Among the bugs, alcoholism, looting, and desertion, including catastrophic losses, are flourishing, "the renovation said.

During the coordination headquarters and the Ombudsman's office, civilians who are hostage to the aggressor state and the Ombudsman's office were not considered to be considered to be consistent with international law.

International humanitarian law implies the unconditional perpetrator of such persons. However, the terrorist state despises any international mining and holds civilians near prisoners of war.

About it [reports](#) Coordinating headquarters of inquiries for the treatment of prisoners of war.

"Despite the fact that our headquarters is dealing with the liberation of prisoners of war, we also try to forget from Russian captivity and our civilian citizens, using our exchange fund for this purpose," the Ombudsman's representative is explained.

According to him, the search and liberation of such persons is complicated by the fact that the Russian notes do not confirm the maintenance on their or temporarily occupied territories of civilian citizens, because it is an international crime. Nevertheless, Ukraine has an effort to make an effort to press on Russia at the international level and to require a non -civilian return to the Motherland.

Also, families were interested in hostages of civilians whether they were threatened with criminal responsibility after returning home. The representative of the ex -inspiring was that civilians were not threatened with criminal liability, even if they were forced to receive Russian passports: "We understand that it is often the emphasis on survival. Therefore, of course, such persons will not bear the responsibility for it."

At the same time, the expert noted that almost all civilian hostages of the special service offer cooperation in favor of the aggressor state.

According to a coordination representative, after returning home, Ukrainian services carry out a number of inspections of liberated persons. If it is possible that one or the other person has agreed to cooperate with the enemy and already manage to harm our country, such person will be held accountable.

Representatives of the coordination, the United SBU Center and the rehabilitation team, presented the existing order of work and highlighted current problems.

The representative of the Air Force presented the methodology of the disseminated survey, which gives the opportunity to systematize data, draw conclusions, learn lessons.

During the meeting, they also discussed important methods and practices of the work of Zaporizhia servants who have experienced captivity, as well as the stages of their reintegration.

Experts from the United States noted that it is very important and necessary for the training of each serviceman for survival in case of possible time in captivity. American experts got acquainted with the methods of work of Ukrainians with prisoners of war and recognized them as optimal in such quantities and available resources: material base and specialists, in particular prepared psychologists.

Important stages in working with defenders and defenders who have experiences were named at the meeting:

The main focus of the reintegration program is the restoration of physical and psychological state starting from the first minutes after returning. In the United States, reintegration groups can conduct a serviceman with experience of Polonivida 24 hours to 5 years after his release.

Ukraine is currently introducing new training programs for staff. It is important that they are ready, because the release of captivity occurs regularly and the time will come when we release all the prisoners. So now you need to increase the professional team.

Alexei Danilov

Ukraine should stand in the position of rejection of any nuclear blackmail. This emphasized Secretary of the National Security and Defense Council of Ukraine Alexey Danilov.

He noted the increased mention of the threat of nuclear war and called the "manipulative" formulation of the question of the threat of Putin's use of nuclear weapons.

"The thesis that, in my opinion, will now actively move to the Kremlin(Yunovorskaya key to the fundamental Western Phobias)that the presence of a nuclear bomb should automatically exclude the resistance of a country that has no such weapons. The country is the object of an attack of a nuclear state, if you go proposed by logic, provokes the threat of nuclear apocalypse. And in such a sequence the object of condemnation becomes not the aggressor, but the victim

We want to tell us: give up and do not resist? We do not need your freedom, we need our comfort and safety? This opinion will be tried to form in the world to refuse to support Ukraine, which by its actions, it turns out, "provokes" Russia ", - said Alexei Danilov.

According to the NSDC Secretary, in order for this false and deceptive logic not to become, we must not tired firmly and consistently in the position of not receiving any nuclear blackmail.

"We are not afraid of the so -called" second army of the world "nor the first in size of existing Russia, nor Putin's bunker rats and his nuclear bunk. Let us only be one - to lose freedom and in the struggle for it we will go to the end, "he added.

The problem of the Kremlin's nuclear madness, Oleksiy Danilov, is a non - violent exclusively Ukraine, it is the problem of the world.

"The world has long watched and if it did not knowingly help, then it did not interfere with the growth of the Russian monster. It was when Ukraine was forced to pass the second largest arsenal to the Russian nuclear arsenal, to equip the Russian Army Army with our winged rockets, when the world was a donor of modern technologies, a buyer of oil and gas, which became the basis for the financing of construction. When the international elites were corrupted and the Russian oligarchy was opened.

This is the cause of the enemy's air strikes in the Dnipropetrovsk, Odessa Tamikolaev regions, the head of the united coordination of the forces of defense of southern Ukraine. Attacking the rear, they try to relieve us, deprive us of the opportunity to attack, and at the same time - to distract the consolidation of the population. But it is not possible for the enemy, because, first, it involves not on the reserves of defense forces, but on civilian objects, reaching the opposite effect-even greater hatred of Ukrainians as a whole and defenders of Ukraine, in particular to everything related to the country of aggressor, and even greater in the counter -offensive.

Yes, the officer reported that in the Bakhmut front of the front is currently underway.

-Remembering that over the past two weeks we used any opportunity to counter-attack, and released about 16 square kilometers of our territory, the enemy, despite a significant advantage in the personal staff of the tactics, works very carefully,-says Colonel Sergey Cherevaty. —To, in the Bakhmut direction, there were only two combatants. The active efficiency was in terms of the use of artillery: 285 times struck the trunk with jet artillery. Made 3 aircraft. During the battles, 67 samples were destroyed, 110 were injured, 4 were captured.

In addition, according to the officer, the Ukrainian defenders destroyed the self -propeller, anti -tank rocket complex, as well as the modern stations of the Triad radio. Two hostile field warehouses with ammunition were destroyed. The enemy used artillery in the Limano-Kupyansk direction-here the enemy was fired at the position of our Vivsk from various artillery systems 502 times. Seven times the Russians tried to attack our positions on the front of the front, made 9 aircraft. However, all that was brought to the enemy of any benefit, because all hostile attacks were reflected - Ukrainian defenders do not give the Muscovites a chance to advance on this way or at least shake our defense. During the fighting, 31 the occupier was reduced, 62 were injured. Also, as a result of strokes on the positions, the Voicebulo set the complex of visual observation "Mur-M" was destroyed.

The European Parliament has approved a resolution aimed at supporting Ukraine's restoration of its integration into the Alliance.

About this [it is referred](#) on the site of the European Parliament.

It is noted that **425** deputies were made "for" , **38** "against" ** and 42 abstained.

"The MEPs are calling on NATO allies to fulfill their obligations to the pre - Ukraine and to pave the way to invite Kiev to join the defense alliance," the statement said.

The resolution states that the MEPs expect the process of accession to develop after the end of the war and end as soon as possible.

The report also emphasizes that until the membership is reached, by the Esar with NATO allies and like-minded partners, they should "work closely with Ukraine in order to develop temporary security guarantees." Everoduta insist that they should be introduced immediately after the war.

"Parliament emphasizes that Ukraine's integration into both NATO and the EU will strengthen regional and global security and strengthen the tie between Ukraine's Taiurotlantic community," the message said.

Parliament is called for a comprehensive and adequate package of EU renewal measures for Ukraine, which should be focused on immediate, medium-and long-term assistance, reconstruction and restoration of the country.

"They are looking forward to the future review of the current long -term financial program and the proposed mechanism of Rebuild Ukraine Facility, which will cover the financing of the need for Ukraine in the coming years," the statement reads.

Live broadcast [TEMACHORFON](#) "The only news" of the Deputy Minister of Defense of Ukraine Anna Malyar explained that both defense and offensive actions are conducted by the day of defense forces of Ukraine.

Yes, the enemy resists the forces of Ukraine's defense forces. Accordingly, the number of rocket and aviation strikes in the territory of Ukraine, and the number of artillery and mortar shelling of our troops. The enemy is all SIGHAMAK to stop the Ukrainian counter -offensive.

In the East, according to Anna Malyar, Rosarmia concentrates a huge amount of force. In particular, there is also a movement to the Bakhmut area of backup units and parts from other directions. Bakhmut's fighting is currently ongoing.

In the south, according to the Deputy Minister of Defense, our offensive is in several directions. But Ukrainian troops meet with the enemy's powerful.

Currently, the Zaporizhzhya NPP units are safe and stable and are in a cold stop. The pumping of water from the Kakhovsky Drug to the Zaporizhzhya NPP cooler is stopped due to low water in the reservoir. Water level of the cooler pond stable tasnan 16.67 m and at the present time the water to cool the reactors is enough, but in the future the cooler pond will require additional

pumping of water. Colonel Ruslan Beregul, Head of Ecological Safety Department and Mine Activity, reported about this during a briefing at Military Media Center.

As reported by the ArmyInform, due to the complete destruction of the Russian samples of the Kakhovka hydroelectric power station, the drainage of water from the Kakhovka reservoir is predicted by 80 % of the total water volume of the reservoir of the reservoir(The total volume of water is 18.18 km³).

The soldier Vladimir serves in one of the parts of the Kharkiv garrison. In the

middle of June, he came to the Military Medical Officer, located in the Narobozhanshchyna to pass the Military Medical Commission.

He chose the time of visit himself, based on his official employment and state of health, with the help of special software "E-Merga".

Visitor of the NMCC PNR Soldier's Lordimir

According to the command of the military-medical institution, the first version of the e-n-monk was introduced in February 2023.

-Four months ago, we used our own technological development to record and pass the Military Medical Commission,-explains the head of the departmental medical staff. - The results were quite significant then. In May, we will establish a better version of "E-Berg". I note that we have successfully implemented other technological innovations, namely: MIS MISTS SMART, specialized ER Hospital software, Tracker software and others.

By the way, from the beginning of a large-scale invasion of occupiers in this medical facility has increased the number of visitors among the defenders and defenders of Ukraine. Of course, the burden on all doctors increased proportionally, working with visitors in the clinic.

[!\(Images/APMIRINFORM/2023-06-15T92-00-00-04-00/harkiv-gospital-5-150x150.jpg\)](!Images/APMIRINFORM/2023-06-15T92-00-00-04-00/harkiv-gospital-5-150x150.jpg)

The temporary executor of the chief of the clinic explained that through professional features, queues sometimes occur near the offices of such doctors as: neuropathologist, traumatologist or psychiatrist. She added that quite often they come to them boys and girls of the spare registration in the E-Brga system. For various reasons, some units of units do not yet enjoy the possibilities of innovation. Therefore, the warriors are divided by the corresponding paper documents for the VLK.

-Of course, we do not refuse to anyone and accept everyone without records in "E-Berg". However, it should be understood that in such cases there is some correction of schedules of visiting doctors. There is another point here. Yes, if one is a well -deserved person after injury on crutches comes to us, then we somehow go to help her. But what do we do when such soldiers in one day do not get one or two? As a practitioner, E-Merga is a very efficiency in terms of the VLK. I believe that everything will gradually work out and all the employees will send people to us only after electronic registration, - said the military doctor.

According to this military medical institution, they do not hide problematic questions and are constantly working on their solution.

The UN International Court of Justice has completed public hearings in the Ukraine Anti-Protection Case on the violation of the two conventions by the occupying country-on the struggle of terrorism and the elimination of all forms of racial discrimination. This is the first case of Ukraine against the Russian Federation in international judicial institutions, which was heard.

Olga Kurishko was present at the hearings as an expert from the Ukrainian delegation. The delegation was headed by the Ambassador of the Foreign Ministry of Ukraine, the agent of Ukraine in court Anton Korinevich, and the representation of the President of Ukraine to the Autonomous Republic of Crimea and others also entrusted.

According to the representative office, two rounds of speeches of the parties took place in the Hague: on June 12, the legal team of Ukraine performed, and on June 8 and 14 - Russia. Listeners were devoted to the consideration of the case, so after the court heard to have a decision.

We will remind, Ukraine on January 16, 2017 filed a lawsuit in the International Court of Justice in front of the Russian Federation on violation of the Convention on the Prohibition of Financing of Terrorism of Taxism on

Prohibition of Racial Discrimination. The United Nations International Court of Justice recognized its legal one in the case of violation of these two conventions on November 8, 2019.

The accusations, nominated The activities of the Majlisukrim Tatar people, a wave of violent disappearances, murders, illegal and arrests in the occupied Crimea, as well as restrictions on teaching Ukrainian and Crimean Tatar languages in Crimean educational institutions.

ARMIA INFORM

The Drone Army Academy launched the second stage of UAV operators. Another 10,000 soldiers are mastering drone management and joined for the forces of defense with new effective skills. The ArmyInform correspondents visited one of the polygons of Kyiv region and learned about the stages of training of drones, their preparation process in special schools and who will be able to use future experts this time.

Reference . *armia drones are a joint project of the General Staff of the Armed Forces, the State Secretariat of Communications and the Ministry of Digital Transformation, the Ministry of Defense. During the over11 months of the Army of Drones, 3864 complexes were purchased at the United24 expense. The total amount of contracts concluded is over UAH 4.3 billion.*

- In the first stage of the training project, 10,000 operators passed. There is now a launch phase, within which another 10,000 soldiers are masked by driving drones. I explain that in the next six months we will be able to achieve this goal. It is to effectively perform tasks on the front, to reduce the loss of drones of Tanayalore - to save the life of as many defenders as possible, - said the Minister of Digital Transformation Mikhail Fedorov.

In total, the drone army has signed a memorandum with 26 schools that teach UAV operators. Some of them were present at today's event. The schools have renovated different types of unmanned aerial vehicles and showed how these "birds" work in combat.

[!/\(Images/APMIRINFORM/2023-06-15T95-00-00-04-00/1h9a7234-150x150.jpg\)](!/(Images/APMIRINFORM/2023-06-15T95-00-00-04-00/1h9a7234-150x150.jpg))

- We come to study motivated boys and girls. And even if they never kept drone in their hands, two to three weeks, each becomes a professional user. Our instructors have many years of experience in robotiza drones, so we know all the nuances in preparation and try to make everyone after these exercises a specialist in this case, - says Vyacheslav Ponomarev, instructor of the Center of UAV Kokrok.

This time, the training will be held not only on copter, but also on FPV-ames and diggitacles. In total, the drone army plans to release 7 600 operators, 2,000 FPV-pilots and 400 UAV operators of the aircraft type.

The instructors also added that during training, all cadets first undergo the theoretical part, where they study the technical parameters of drones, maintenance of equipment, cartography, tactics of flights in the conditions of EWS, masking, demanding factors of the enemy, etc. And the practical part of the sprouts on landfills and missions that are as close as possible to real - wrote.

[!/\(Images/APMIRINFORM/2023-06-15T95-00-00-04-00/1h9a7114-150x150.jpg\)](!/(Images/APMIRINFORM/2023-06-15T95-00-00-04-00/1h9a7114-150x150.jpg))

- Our school teaches us usually operating military people who are only planning to go to Naphront. We have many directions: we teach to fly both civilian drones and fpvrons, we have courses on radio electronic intelligence, radio communications and others. We have a powerful theoretical base, which is supported as powerful practical training. Now the war of technology is ongoing, accordingly, the better you have technologies and more promptly you respond to some danger, the more you have to stay alive, - says the head instructor of the school Bury Vierolexander Sky.

Training in these schools is free of charge for current representatives of the Defense Forces of Ukraine. The completion of the course will receive a

school certificate, which confirms their readiness to apply developed skills at the front.

I wish health, dear Ukrainians!

Report for this day. The first is that we have significant international steps that enhance our position in several directions.

The European Parliament has adopted a powerful resolution to support the European Taiuro -Atlantic aspirations of our people. There is a specific call for a leadership euro union to define a clear way of acquiring our state membership in the EU.

And in the issue of the Alliance, the European Parliament captures the meaning of our Ukrainian universal in Euro -Atlantic security, which stipulates that the path of Ukraine in NATO is a state -of -the -art invitation to entry in the context of the preparation for the Alliance Summit in Vilnius. Time for integration and security is obviously came, and I thank you for the actual statement of this to all members of the European Parliament and Ms. President of the European Parliament Roberti Metzoli, as well as the head of the Verkhovna Rada of Ukraine Ruslan Stefanchuk for constant irregular work with the parliament.

The second important international step for today is the bill on confiscation and transfer of our state as a reparation of the Russian state-the terrorist state. I thank the US senators who have a biparty support for this issue for justice for Ukraine's Tavi victims of Russian terror.

In dictatorships such as Russian, money is the highest value. And even more of persons who serve the management regime or are actually owners of state structures.

When the state-terrorist and all Russian persons whose labeling with the Kremlin loses its money with the Kremlin created the conditions for Russian aggression or which are an inviocean cover for Russian corrupt officials, then a very important goal will be achieved-they will feel what loss is. They do not respect life and are notable when human lives are lost. The Russian dominant class does not appreciate the people and is ready to spend human lives for hundreds of thousands. But they regret the money - those who have appropriated by the way. They value their assets. They should be lost, and in favor of those who suffered from their aggression, from this terrorist war in favor of our country, our people.

Today he continued to appeal to the parliaments of our partners. He also spent telephone conversations with representatives of the two countries-Belize and Costa Rica. We build new partnerships for Ukraine-to support the formula of peace and our resolution in the UN in defense of the UN Charter and international law as a whole. The discussion of Mr. Costa Rica and Mr. Prime Minister Belize is the opportunity to organize a meeting of Ukraine-Latin America. We can together give much more protection for freedom and equality of nations in the modern world.

An important report was today on the situation in Kherson region and in general, half -day countries, in our Dnieper after the Russian terrorist attack on Kakhovskaya HEP. Elimination of the consequences of catastrophe, assistance to people, providing drinking and all other sensitive and important issues. Government Schmigal, Klimenko Minister of Internal Affairs, Profile Deputy Head of the Kuleb Office, representatives of local authorities. Another report is the situation in Kryvyyi Rih Taodes after recent strikes of terrorists.

And, of course, the front. I thank all our soldiers, every unit, every boost brigade for today - for today's fighting.

I will note especially six units. The Khortytsia fell-paratroopers of our powerful 80th Separate Brigade of DShV. "Tavriya"-warriors of our 23rd separate mechanized brigade, Marines of the 35th and 37th separate brigades, warriors of the 128th-equally mountain-assault Transcarpathian brigade and the 128th separate brigade of Silro ... !For strength, courage, but that you return to Ukraine the Ukrainian land and strengthen our Ukrainian will.

Glory to everyone and everyone who is now in battle, at combat posts and at combat operations! Glory to all who train our warriors! Who treats and rehabilitates defects and defenders after injuries!

Thank you all in the world who helps. And, by the way, the next "Ramstein" today has been quite effective. We are still strong!

Glory to Ukraine!

General View of Themeting

In Brussels, the next, thirteenth meeting of the contact group on the Defense of Ukraine in Ramstein format took place. She, according to the Minister of Defense Shatloid Austin, took place "at a critical and historical moment" - against the backdrop of Ukraine on the liberation of its territories from Russian ash.

The ministers of defense agencies have agreed on more than 50 countries, which have been brought into the meeting - in the article by the Army.

Allies of Ukraine have agreed new military assistance for defense forces

Pentagon Head Lloyd Austin at a briefing following the meeting of the contact group on Defense of Ukraine in Ramstein format on June 15 [declared](#) that the Union countries of Ukraine have agreed on new military assistance for the defense forces.

Yes, a number of countries have reported training plans for Ukrainian military and support for Ukrainian equipment. Germany and Poland reported support for Ukrainian Leopard tanks. And the Netherlands and Denmark - about progress to train Ukrainian pilots.

Canada [declared](#) On the allocation of the package for \$ 500 million to support Ukraine. 288 AIM-7 missiles will be awarded to Ukraine's Armed Forces to protect the sky. Also Canada:

Canadian Defense Minister Anita Anand said 116 of 200 armored machines that promised Ukraine have already been delivered, and 18 more have to deliver a tank week.

6750 assault rifles will also be delivered in the coming days; 1.1 million of cartridges 7.62 mm; 250 000 caliber cartridges 5.56 mm; 70 000 Sniper ammunition. Lloyd Austin noted that **Italy** also announced the provision of new, critical need for Ukraine. And several partners consider Ukraine support in the long run.

Norway and **Germany** announced packages for several years, and **Denmark** announced its package for about \$ 2.6 billion for military assistance for 20124.

Lloyd Austin also recalled that the equipment received by Ukraine and weapons are consumed by Ukrainians withstand and bring victory closer.

"Patriot, Iris-T and Nasams have saved the lives of Ukrainians," the minister emphasized, and urged the group members to continue to provide NAPPO and ammunition systems.

Mr Austin also assured that partners will provide Ukraine with this stage of assistance, but also one that the state will need a long run so that Ukraine can protect itself from further possible aggression by Russia.

In particular, as he explained, it is about plans to prepare the military. In his opinion, this will establish the foundations of future cooperations and the Armed Forces.

The head of the US defense agency also mentioned the announced new package of the United States worth more than \$ 2 billion, which includes additional tubes for Patriot and HAWK systems, missiles, 105- and 203 mm. In addition, he noted that Biden President approved the transfer of the next \$ 25 million benefit, which includes Nasams and HIMARS, additional Bradley, anti -tank weapons and more.

The Pentagon Head also emphasized the recent missile attacks of the Russians with a cover horn and flooding of large territories of Kherson region through the destruction of Kakhovskaya hydroelectric power station. He noted that they are another reminder of the devastating innocent of Russian aggression for innocent civilians.

At the same time, Mr Austin noted that Ukrainians continue to inspire all the luminosity and resistance of the aggressor, the efforts to liberate their own territories and the restoration of the sovereignty of the state, and the Armed Forces by showing the extraordinary courage and skill.

He thanked all the participants in the Ramstein format for their support for Ukraine.

But once again he said that Russian President Putin, when starting his great war on Ukraine more than a year ago, thought he would easily win - he was wrong.### **Fighters for Ukraine**

The closure of the Ukrainian sky, in particular, the need to provide Ukraine with fighter generation was not for the first time voiced by the Ukrainian side, and the universities concentrated their efforts on strengthening the air defense systems for Ukraine, stating that giving fighters it is a long -term process.

However, today at the 13th meeting of the Contact Group on Assistance to Ukraine, Ramstein, Brussels, except the closure of the Ukrainian sky with the help of the Ukrainian air defense(Pentagon's head noted that strengthening the Ukrainian PPO is necessary for the protection of the civilian population and the critical infrastructure)Ukraine also received assurances from partners

to start pilot training on modern fighters.

According to the Minister of Defense of Ukraine Alexei Reznikov after the meeting, he also wandered about the clear intention of the Allies to build a "fighter coalition".

According to the Minister of Defense, the Ukrainians will first begin training exercises of F-16 led by the Netherlands and Denmark. And then othericraines join.

Earlier it became known that Ukrainians will go to study at the F-16. The pilots were selected, they had a number of requirements. The Ministry of Defense also named the required F-16 for Ukraine, in particular, Ukraine hopes to receive from the Winning partners about 40-50 F-16 fighters and form three or four-levels for protecting the sky.

Recall that a few weeks ago, US President Joe Biden gave good to training Ukrainian pilots to work at the F-16, and the subsequent transfer of these fighters to the Ukrainian side. The United States was categorically opposed to conversations about modern -year -olds for the Armed Forces. Also, the other day Alexei Reznikov reported that it is possible to receive from the Allies not F-16, but fighters of another type.

New IT Coalition for Ukraine “Today, my colleagues Luxembourg François Bausha and Estonia Minister Khan Hannovurus have supported my idea of creating an IT Coalition of Ramstein. They are ready to take the leadership role in creating this group, ”he wrote.

Austin commented on the Russian statements about the Russian Allies Technology

US Secretary of Defense Lloyd Austin during a meeting of the Ramstein contact group stated that the Russians show the same tuning equipment from different angles.

The head of the Pentagon noted that damage to military equipment on the field is fighting, but the Russian side is distributing photos and videos, depicting "those self -apple cars almost a thousand times from ten different angles."

“As for the loss of technique: this is war. Yes, we know that the damage of Napoli battle will be on both sides. But it is important that Ukrainians have the opportunity to display damaged equipment, to repair where possible, and return this technique to the battle. And also that they have means to continue to move forward, ”Austin said at a briefing after meeting the contact group from Ukraine's defense in Brussels.

He stressed that the damage to military equipment will continue, but "if not, Ukrainians still have many combat capabilities." Lloyd Austin also asserted that, as expected, it was a "difficult battle", but he believes in the victory of Ukraine.

Ukraine is capable of freeing its territories

NATO Secretary General Jens Stoltenberg at the Ramstein Meeting Pressing Form, said that NATO representatives have decided today "how to protect and strengthen Ukraine's support. After all, Ukraine has become a counter - offensive assistance to NATO countries is important for success in the battlefield.

He noted that these successes are due to the courage and skills of Ukrainian soldiers, but they also demonstrate that the support of NATO countries as they attach Ukraine to Ukraine "actually relevant on the battlefield." We will remind, the day before, on June 14, Ukraine gave a clear signal to read the invitation to NATO membership during the July Summit of the Alliance.

Reference. The meeting of the contact group for assisting Ukraine in Ramstein format was founded in the spring of 2022 after the large -scale invasion of the Russian Federation in Ukraine. On April 26, Ramstein Air Force Air Force in Germany took place a first -time consultative group. The Minister of Defense of Ukraine Oleksiy Reznikov after the meeting stated that there were "tectonic changes" in the philosophy of partners on the transmission of weapons. Since then, meetings of the advisory group have decided to conduct a month.

The previous 12th meeting took place on May 25. It discussed the strengthening of Ukrainian air defense, strengthening of "armored fist", repair production of military equipment.

On June 12, the Minister of Defense of Ukraine Alexei Reznikov spoke about expectations from the future meeting in Ramstein format. .

According to the minister, these issues will be discussed during the Ramstein's Ramstein from the Netherlands, Denmark, USA and other countries of the Defense Commander. That is why, as Alexei Reznikov noted, representatives of the Air Force of the UKRAINE took part in the Ukrainian delegation at this meeting.

In the city of Dnipro, the first veteran development center in Ukraine was opened at the Basun University of Customs and Finance(UrSF). Він забезпечуватиме створення сприятливих умов для реінтеграції ветеранів та членів їхніх сімей у суспільнежиття за допомогою розвитку професійних навичок, перекваліфікації, сприяння занятості ветеранів та підготовки майбутніх помічників ветеранів.

Про це йдеться у [повідомленні](#) Ministry of Affairs of Veterans of Ukraine.

The creation of a veteran development center is a project of Ministry of Veterans to implement the plan of events for 2023–2024 on the implementation of the National Strategy for the Construction of Barrier -Dear Space for the Period up to 2030, which is realized by the first lady of Ukraine Elena Zelenskaya.

The opening ceremony in the Dnieper was attended by Minister of Veterans of Ukraine Yulia Laputina, head of Dnipropetrovsk Ova Ova Sergei Lisak, Embssonic Republic of Germany in Ukraine Anka Felguzen, the leadership of the UMSF's Tyaster.

"Ukrainian defenders and defenders are the color of our nation. And while they are protecting Ukraine on the front, we must do our best to reintegrate them in civil life in communities after victory. And proper education is one of the important tools of success for them, - Yulia Laputina emphasized. — Some for this we open the first center of veterans development at the Basilic University in the Dnieper, which will become a platform for civil education veterans of their families. "

In addition to educational programs for veterans and veterans, the center will also undergo specialized training of future veteran assistants - those who will meet the warriors after victory, and on the principle of "equal - equal" will contribute to the return of protectives and defenders to civilian life, said the head of the mine.

"Together with the Ministry of Education and Science, we have developed a training module for veterans. By the end of the month, we will start recruiting veterans, and in July there will already be their training," the minister said. "I am glad to participate in the opening ceremony of the center, I am proud that we have made our own in the implementation of this project. Germany is the closest partner in the struggle of Ukraine against the aggression of the Russian Federation. We need to strengthen this cooperation. This is just the beginning. Every Navovun, every new step, every meter liberated from the enemy of Ukrainian land is the most important.

As Ukrinform reports, about it in [evening address](#) President of Ukraine Vladimirzelensky said.

[Video: OP _ Dear Ukrainians, dear Ukrainians! _](#)

Today was a long day. Many events, many news. Meeting in a special format - Ukraine plus the country of Africa. Prolonged discussions ... Peace formula,

security issues, grain, our common opportunities to protect the principles and usals of the UN, to protect the nation from aggression. He called on the leaders and states of Africa to participate in the global peace we are preparing. Ukraine will be heard by the world, and the whole world will be attracted to the realization of the formula of peace. It's not easy, but we work.

There was also a course issue at the National University of Defense of Ukraine. I was honored to congratulate our officers. Very nice.

It is especially grateful to our aircraft forces - everyone who protects Ukrainian. The Russian rockets, including six ballistic, are knocked down today - it is very important and symbolic. Russia is not intimidated.

And today there was another event, another point of my graph, which was not yet reported. This is a military office. Our commanders are Syrsky, Tarnavsky, Zaluzhni, and Shaptal Generals. And our commanders in specific directions of active actions - I do not call names, my time. Our movement forward is more important. Each of our warrior, every new step of our new step, every meter of the liberated lapel of the Ukrainian land is the most important. And there was a Budanov... separate steps.

Thank you all who are in battle for Ukraine now!

Thank you all who are preparing to go into battle!

And thank you to everyone who so much helps us!

_ Glory to Ukraine! _

In Lviv, Ivan Gavrilko presented an exhibition of his paintings "Flashbeky".

According to the Ukrinform correspondent, for three times the wounded military importance became psychotherapy and the ability to help the brothers.

"Many began to draw after the second wound in July. There was a large fragment of the rush. After the operation, he had a vacation and two months for rehabilitation, start with art therapy, and that was captured. At first he

painted for himself, then the printed auctions - my first painting for UAH 7 thousand was sold by volunteers, and we were able to fill the cars that brought to the front for that money. And I realized that not only that my drawing helps me, then in a benefit to others. And then friends say, "Do not give, let's make an exhibition." I first hesitated, but they insisted, " - said Gavrilko.

The Flashbeky exhibition consists of paintings on different topics. They are caused by war-related gave, which often come to the artist in dreams. Protevin uses psychologists' recommendations to get rid of injury.

"It is important for the military to turn to psychologists, because PTSR alone is not in itself ... I know many people who, to get out of this state, are engaged in a background, it helps well. Someone is embroidered with beads, I - I draw. Now I study painting, consult with professional artists and teachers, "Gavrilko added.

Volodymyr Putyin demonstrated the lack of any desire for peace in Ukraine and receiving a very indicative "greeting" in the form of shelling for seven African leaders who arrived in Kiev and at the end of the week intend to visit Moscow with peaceful proposals.

This was stated today in Brussels during a briefing for the press by the EU Peterstan spokesman, Ukrinform correspondent reports.

"African leaders attend not only Moscow at the end of the week, they now interfere in Kiev, and they received a very specific greeting - in the form of a large number of missile attacks - from [Putin](#). I am sure, it will allow them to be aware of who is the aggressor, and how this aggressor behaves, what his realinators are, "he said.

He stressed that the European Union congratulates any meaningful and serious one for peace, as no one wants peace more than Ukrainians. But for this we need to really speak with the victim of aggression.

"So it was a very good idea when African leaders arrived in Kiev, 1 year and four months after a full -scale invasion. It will be an opportunity to listen to the first hand of the position, prospects, to see the situation with your own eyes, "the EU spokesman said.

He recalled that Putin had prepared for the African delegation "greetings", which he used repeatedly during other foreign visits to Kiev. In addition, in April 2022, the UN Secretary General Antonu Guttheresh was UKIEV, and then, Kiev was fired again with rockets and drones. that was used by the Kremlin.

"Peace will come immediately when Putin ceased to terrorize people in Ukraine, from the territory of Ukraine, all their troops that are killed, torture are robbed. I hope African leaders know that they see. What happened today makes it very obvious to African leaders, how sincere Putin is about the conflict stopping, and how he perceives all the national efforts to stop this conflict, "the spokesman added.

The comment, in response to the question of the press, made a spokesman for the European Commission Erikmame.*!(<https://www.ukrinform.ua/rubric-politics/3723700-raketnij-obstril-e-signalom-afrikanskim-lideram-pro-spravzni-namiri-rosii-dmitro-kuleba.html>) He stressed that probably no one wants peace more than the European Union, since the war unfolds on its borders, there are 4 million refugees on its territory, and serious problems in spheres of economic and energy were created. Therefore, the EU continues to make every effort to achieve a permanent and fair peace.

As it was reported, a delegation of leaders of several African countries arrived in Kyiv, representing Ukraine's leadership with their peaceful proposals. These are the leading intention to visit Moscow.

This was assured of a briefing at the Media Center Ukraine - Ukrinform member of the NBuvasil Furman Council.

Answering the question of the correspondent of Ukrinform, he predicted, for a long time exchange The market to work as it was a few months ago, and asked people not to worry.

According to Furman, many myths have been associated with this issue, the main of which is the alleged ban on the exchange of notes in 1996.

"I called many banks - public and private, large and medium -sized banks - accepted and accepted such banknotes. There are no problems in this matter. Instead, the issues of interpretation of the degree of wear and tear are now actively working. This week, the NBU representatives talked to this week with the heads of non -bank financial institutions and banks. According to the results of the discussions, the conclusion was that this issue will be resolved in the near future. People should not worry, "Furman assured.

Whereas from a decade ago, it could be earned, because the rate of return on dollar deposits exceeded 10%. Now the situation is different.

"There will be no such as it was. The profitability of dollar deposits in large - scale Banking institutions is less than 1%, in average banks - 1-3%. And now on the first-emk hryvnia deposits, the rate of which reaches 15-30%, and the bonds of the internal state loan(The long -term return on the FEurates - under 20%). Тому громадяnam нині набагато вигідніше користуватися саме цими інструментами збереження та прямноження грошей. Але й за свої доларові заощадження переживати не варто", - ще раз наголосив член Ради Національного банку.

The National Agency for the Prevention of Corruption has excluded the first company from the list of international sponsors - the Irish Peninsula Petroleumlimited, which is the world supplier of ship fuel.

This was reported [NAPC](#) , reports Ukrinform.

"For the first time since the start of the list of international sponsors of war - a powerful reptile pressure tool on companies that continue to work with the RFSA of a large -scale invasion, it was excluded from the first company," the agency was expelled.

It is noted that Peninsula Petroleum Limited sent to the NAPC a letter with the following conditions that allow it to be excluded from the mentioned list.

The company stopped supplying bunker not only to ships belonging to Russian or walking under the Russian flag, but also for those that carry Russian Nafta. These steps were taken as a sign of condemning Russian aggression.

Thus, Peninsula Petroleum Limited fulfilled all the necessary conditions, the wrath of socially responsible business.

"The first exception to the list of international sponsors of war is the best evidence that this tool is really working. We want this list to be reduced, not the other way around," - said NAPC chairman Alexander Novikov.

At the same time, he emphasized that the exception from the list is possible exclusively by the time, if the companies are eliminated by the "light side" for the sake of common values of democracy, integrity and peace and fulfill the necessary conditions, tore the ligaments with the Russian Federation.

Novikov thanked Peninsula Petroleum Limited for the demonstrated position that had the hope that her solution would be an example for other companies that value their reputation and do not want to be related to the bloody Putin - Register.

UNESCO's security area was expanded to Odessa, but the port from it was excluded.

About it in [Facebook](#) The Director of the Department of Culture, International Cooperation of Taiuro Integration in the Odessa City Council Ivan Liptug, Ukrinform reports.

This decision was made at a meeting of the Scientific and Methodological Council for the Protection of Cultural Heritage of the Ministry of Culture and Information Policy of Ukraine.

"The Council has decided to exclude the port from the main object and the expansion zone(Blue line)deep from the sea in the north and southern directions of the leading quarters, including the territory of Shevchenko Park. There was also an expansion zone [UNESCO](#) (Violettohine)which outlines the boundaries of existing historical habitats of the city, "the testimony reads.

Leptuga noted that such changes were recommended by the UNESCO Committee. The final order of new boundaries will be accepted by the UNESCO Committee in Paris in the fall of this year.

“At the meeting of the Commission, Ukraine-NATO was the key to two issues. The first -time is all that concerns the preparation for Vilnius Sumitunato, which will be held in July. We had the opportunity to convey our position, and

we have been considering that at the Vilnius Summit Ukraine would have a clear understanding: how and when we can become a member of the Alliance. We also discussed how to help us to establish medical rehabilitation of wounded soldiers who are now rotating from the battlefield and who need to go a very serious way to turn to a full life, "Reznikov said.

[Ukraine in NATO](#) According to him, another important direction is NATO assistance in defensive procurement. Ukraine expects that NATO Procurement Agency will help to build an efficient and transparent procurement system that will allow you to use each hryvnia effectively. These are very practical things, and we can now state that at the moment we have prepared a very serious package of practical quotes that will be presented at the Vilnius Summit by the leaders of the member states, added Reznikov.

The Minister of Defense also reported that the second issue was concerned with the future - what to do to guarantee the security of Ukraine and all Europe all victory, as well as joint defense planning.

"In real time, our defense planners are working on NATO planners working on models of the future. In short, doing everything possible for the fastest victory in the war now, we work as well, and in this future Ukraine will be a member of NATO and continue to make a huge contribution to the European Security System and will have a very strong powerful system Peace and successful development. This means a security guarantee and yes, it means full membership in the Alliance, "the minister stressed. Reznikov also reported that working on the launch of a joint center of education and training, which will become a kind of center of lessons in Russia.

"The idea is that we can share the difficult price of the lessons of this war and use Western experience to become stronger. Our goal is to make Ukraine strong and capable of protecting itself after winning. And that means - a strong army, which we call the army of the material. The Ukrainian army is the army of the future. And now we will go for it with partners, about long -term plans for the development of the Ukrainian military, "Reznikov said.

As it was reported earlier, the day before in Brussels within the framework of the first day of the Works at the level of defense ministers a meeting of the NATO-Ukraine Commission and a meeting of the contact group on defense of Ukraine under the aid of Sussh took place. The Minister of Defense of Ukraine Oleksiy Reznikov took part in these events. The participants considered the ways of continuing and accelerating the provision of Ukrainian

assistance for the offensive against Russian invaders and for the release of terminals, as well as the issue of the prospects of Ukraine's membership in NATO's TAVANCE OF TAVORATION OF SECURITIES for the period. These most important issues about the Alliance will be discussed during the NATO-NATO Previshansky Summit on July 11-12 this year.

Commenting on NATO Strategy Rennikov noted that the main threat to the Alliance is the Russian Federation for the future 10 years.

"Ukraine is the only country in the world that has practical experience of resistance and winners, using technologies, weapons of Nativ standard. Therefore, it is a part of interest with Ukraine into this collective security architecture. Our experience of application, their technologies, their training systems, and all that is part of the word "interoperability". It is beneficial to both parties to the safety sense, "the minister said. Reznikov also noted that Ukraine should now create an army ash.

"When we become a member of the Alliance, it is one story, and the army of the future is a cephahparallel but a little different story. We need to develop our army for the future today, to think about what it will be tomorrow. The fact that we will win in this kind, I have no doubt, I believe in it. My faith is put on facts as a wiurist. I understand our partners. This war is a war, a war war. Today we have allies in the form of clubstein with their capabilities, resources, so we will definitely defeat, "the minister said.

He added that Russia will be a unfriendly neighbor for a long time, and in order to be tempted on revenge after defeat, Ukraine should develop defense forces.

"We need to prepare for the upcoming war, which we will not allow. Our task is to ensure that the future war does not happen so that they are scared to attack. And I am convinced that our advantage will remain precisely that we have washing today - we have compatibility, participation, inferior, but already by the collective security system. Collective safety prefers. Therefore, I believe that the Ukrainian army of the future will be part of the civilized world, the European and Euro -Atlantic community," Reznikov stressed.

Every Navovun, every new step, every meter liberated from the enemy of Ukrainian land is the most important.

As Ukrinform reports, about it in [evening address](#) President of Ukraine Vladimirzelensky said.

[Video: OP _ Dear Ukrainians, dear Ukrainians! _](#)

Today was a long day. Many events, many news. Meeting in a special format - Ukraine plus the country of Africa. Prolonged discussions ... Peace formula,

security issues, grain, our common opportunities to protect the principles and usals of the UN, to protect the nation from aggression. He called on the leaders and states of Africa to participate in the global peace we are preparing. Ukraine will be heard by the world, and the whole world will be attracted to the realization of the formula of peace. It's not easy, but we work.

There was also a course issue at the National University of Defense of Ukraine. I was honored to congratulate our officers. Very nice.

It is especially grateful to our aircraft forces - everyone who protects Ukrainian. The Russian rockets, including six ballistic, are knocked down today - it is very important and symbolic. Russia is not intimidated.

And today there was another event, another point of my graph, which was not yet reported. This is a military office. Our commanders are Syrsky, Tarnavsky, Zaluzhni, and Shaptal Generals. And our commanders in specific directions of active actions - I do not call names, my time. Our movement forward is more important. Each of our warrior, every new step of our new step, every meter of the liberated lapel of the Ukrainian land is the most important. And there was a Budanov... separate steps.

Thank you all who are in battle for Ukraine now!

Thank you all who are preparing to go into battle!

And thank you to everyone who so much helps us!

_ Glory to Ukraine! _

_ We will all win! _

"They have (In Russia) There is a Satanic logic. They show that they have no rules, " said Military analyst Petro Chernik in a comment to Military Media Center.

A number of African leaders have arrived in the capital of Ukraine today.

As it was reported, the purpose of the visit is to offer a plan to end the war.

According to the analyst, *Moskva believes that in this way it can force African leaders to press more on Ukraine in order to start negotiations.*

The leaders of African countries are in Kiev, they begin to fly ballistic rocks - and they have human fear of death, says Petro Chernyk. _ "It causes a very simple reaction - it is necessary to negotiate and finally this horror is stopped."

ВИРОК

According to the materials of the SBU up to 10 years, prisons were sentenced by an "expert" from TV channels, which called for "dismantling" of Ukraine

On the basis of the evidence, which was collected by the Security Service of Ukraine, it was possible to condemn the Pro -Kremlivsky propagandist Mikhail Spir. About it [reports](#) SBU press service.

The attacker praised the aggressive policy of Russian military and political leadership justified the temporary occupation of our country.

He also agitated for physical massacre on Ukrainian military, ideated one of the religious denominations in our country.

Prior to the beginning of a large -scale invasion, the man regularly spoke on Medvedchuk's Media Holding and positioned himself as an expert.

In order to avoid justice, the Spirus fled to Moscow in 2020, and after the beginning of the full -scale invasion of the Russian Federation was one of the first propagandists of the Kremlin, who supported the actions of the Russian occupiers.

According to the SBU, the court appointed him 10 years in prison in confiscation of property.

The person involved was found guilty of three articles of the Criminal Code of Ukraine:

Срок відбуття покарання обчислюватиметься з моменту його фактичного затримання.

Розслідування проводили співробітники СБУ в Івано-Франківській області за процесуального керівництва обласної прокуратури.

The Security Service and the National Police detained two more collaborators who have been able to avoid justice after cooperation with the enemy in Kherson region.

This is stated in [message](#) Ukrainian Special Service.

To "hide" from the SBU, one of the persons involved even mobilized to the Lawning Guard. However, the staff of the Ukrainian special service in timely spoiled malefactors, established their location and detained.

According to the investigation, the collaborators turned out to be two former workers in Kherson. During the occupation of the city, they voluntarily work to work for the prison aggressor.

They were appointed "junior inspectors" captured at that time by the Northern Colony No. 90. In this institution, the racists kept the stolen local residents massively, especially the participants in the resistance movement in the region.

The task of both collaborators was to protect the prison cameras where the victims were kept. During the release of Kherson, the attackers went to the neighboring pile, where they tried to hide from justice.

Subsequently, one of the persons moved to his parents to the city of Yuzhnoukrainsk, Naikolaiv region and from there he mobilized to one of the military units of the National Guard of Ukraine.

During the searches at the places of residence of the detainees, the "certificate" of the occupying body of the Russian Federation and financial "information" about receiving the "salary" of Urosian rubles were revealed.

During the contradictory special operation in Vinnitsa, the FSB agent was detained, which was drawn to the preparation of a new Russian air attack on

the city. It was the hostile associate from the Russian special service in early June. The attacker is threatened with life imprisonment.

About it [reports](#) Security Service of Ukraine.

To accomplish the task, the attacker bypassed the streets of the regional center daily, and in a hidely recorded location of the base of defense forces. First of all, it was necessary to identify locations with the greatest concentration of military equipment of the arms of the Armed Forces of the Armed Forces, which are being prepared for the possible transfer of Nafrorot.

The Russian agent also explored the terrain around industrial sites to determine the level of their protection and the presence of Ukrainian defenders there. In addition, the person involved "prompted" the "priority" of the objects through which the air stroke with the use of winged or ballistic missiles of Idronov-Kamikadze.

The FSB agent was exposed in a timely manner, his criminal acts were documented during the enemy task.

According to the investigation, the traitor is a 30-year-old resident of Vinnitsa, who supported the armed aggression of the Russian Federation. Due to his pro-Kremlin views, he got into the field of view of FSB, which remotely recruited him for reconnaissance and subversion against Ukraine.

According to the "instruction" of the Russian intelligence service, the traitor had to ship them intelligence in the form of electronic cards and photos. During the search search, a mobile phone that he used to accomplish a warship tasks was discovered.

On the basis of the evidence of the person, the person was informed of the suspicion of the state -owned state, committed in the state of martial law. He is now in custody. Long investigation to establish all the circumstances of the crime.

_Marina, the paramedic of the battalion of the mechanized brigade "Cold Yar", from February 2022 to export the wounded from the battlefield on its already third ml-TB. The driver of them died during evacuation in the Kharkiv

operation, the girl herself was only "only" with six contusions. He says everyone reacts in different ways: "One has torn off his leg, and he also calms me down, and some crying from scratch ricochet."

During our meeting, it turns out that calm and reasonable Feldhdhler has a formidable call sign "witch". In fact, he comes to the name with his name, and in general, the boys of the motor infantry battalion warmly speak about his combat physician warmly.

The name "combat physician" in relation to Marina is not for the red word. She worked on the evacuation of the wounded from the hell of the battles - from Izium Dovkhmut.

Girl is a local one from the typical mining city Dimitrov (*Today, the Pokrovsky district of Donetsk region. - Ed.*) . The father was killed in the mine, the mother died before the war, a son, who lives in the city, a nearby renovated brigade. Maryna of her time was the Lavastiantyniv Medical School, so her knowledge was needed in the armed forces. After the beginning of Russian aggression, she concluded a contract and served as a nurse in the resuscitation of the Mariupol military hospital for two years. Clinics. Then it happened on December 24, 2022.

-Familiar guys were invited to the Mariupol Brigade, I came to them, and already on the 25th day she was mobilized,-Marina recalls. - Despite the fact that I was nursing, anesthesiology and intensive care, I worked as a prostimitarian instructor.

Marina spent the first 11 months of continuous battles in the district in the district, Trostyanets, Izium, then Bakhmut. He says that although the first wounded in 2016, he had to learn a lot during a large-scale invasion during a large-scale invasion."She handled," the boys tell us next to us. - Up to hundreds of people moved on herself.

According to Marina, she tried to do her work, no matter what: "It was so that they carry a wounded without half of the head, but he is still breathing - reanimation. I provide first aid, bring to a safe place from where others are erected and taken to a stabilization point. And then I know that he still dies... As the doctor you understand that he will not survive, he is already in agony, the plane is simply incompatible with life, but I perform my task in any way, my business is to keep them life on the field battle. After all, many of the guys are still "scraped"-they are taken out, connected to the IVL (*apparatus ventilation of the lungs. - Ed.*) , resuscitated, treated, put on their feet... "

Usually, evacuation physicians themselves work literally under the bullets of shells. Marina shows her "Motoliga", which is hidden in the landlash of the oilmed point: "I already have two MT-LBs. Two mehvods (*mechanic-driver. – Aut.*) - wounded, one - died under raisins. I was lucky, it took place only with contusions. "

ARMIA INFORM

Marina near the MT-LB sanitary machine: "In May they received, the cellar smelled. And now all in fragments, his tanks are punched ... "

-In August, we came out of Izium to Bakhmut, closed the exit as doctors, and apparently the Russians listened to our "rapeseed" (radio station. - Ed.), - mentioned. - They heard that we had to pick up the guys and at this time cover. There was a specific shelling. In the Motolizi hole is terrible, Mehvodu was ... I was lucky that I had time to hide in the dugout. Behu was faded, Nani was evacuated under fire. They thought they would now "disassemble" us. Alevives. I am told: "Marina, don't worry, it's just a small shrapnel, the elasticity of Mehvod will be good." But the artery interrupted ...

In general, during our conversation, Marina is not very eager to mention the moments of the service: "What can be found in the war? - Yes, everyone has their own pain threshold, but there are really boys patient, - Marina says. - Someone breaks his hand, a leg, a stopped belly, and he is "all right", he tries

to reassure you .. And there is a scratch or a shrapnel out - he will cut a half car so that you have a skull - more than a helmet.

Now Marina is a paramedic of a mechanized battalion, a sergeant. She continues to quench the wounded, "intercepts" them literally on the forefront, but when the brigade is from the position of recovery, the doctor also has enough work.

-First, we work not only with our unit, we help everyone,-says Marina. - Our stABPNT works on a bunch of crews. If I open my journal where I write the wounded, then I don't even know half the brigades. And not only from the armed forces, there are border guards and others.

In addition, the battalion's medical center takes somatic patients("The back hurts, coughing-grows"-calls it Marina)and provides daily training in the field. Training, too, is accompanied by injuries or solic strokes and more.

I ask farewell, isn't it scary? "How scary?!Of course, scary ... - says Marina. - But the boys need to help. Well, who will do it!"

During the year of the large -scale invasion of Russia into the territory of Ukraine for our country and the whole world, the forces of defense and security have become a symbol of the copies and professionalism. And even in the context of combat, military formations are to hone the skills of fighting. After all, the counter -offensive of the Ukrainian troops continues in the frontalidinamically and needs new knowledge and skills: in some areas, the counter -offensive of the Ukrainian troops is released - the town of Taselisch is released, and therefore fights in the urbanized area are ongoing, breakthroughs of the well -prepared defense of a well -prepared defense occur; Somewhere units are retaining active defense and destroying Russian invaders on the approaches to the position. Improve knowledge and skills to Ukrainian servicemen help the Western brothers.

Yes, in Kharkiv, Ukrainian military training is conducted(TDI). Організація була заснована незабаром після великої навали московитів в Україну. Її очільник — колишній рядовий одного збатальонів Королівського полку Великої Британії Деніел Рідлі.

The man has lived in Ukraine since 2018, has served in a separate battalion's infantry, participating in the OOS in eastern Ukraine. At the time of the cosrobial invasion, the serviceman was on vacation tanking in the occupied Russians, where he assisted the population and the trainees to provide domedic assistance. Daniel was already not turned into military service - he was defended by Mariupol, he could not restore the connection with his unit, and his contract with the Armed Forces soon ended.

Today, classes in the training camp are held at several training points: tactical medicine, tactics of combat in field and hubbanized area. In addition, foreign instructors teach the heads of operations planning. Rescue fighters instructors teach the ASM protocol(All Service MembersCourse)the CLS(Combat Lifesavior Course)- how it is true to act in the "red" and "yellow" zone of hostilities, methods of evacuation of the wounded.

The head of the National Security and Defense Council of Ukraine Andriy

Zuzuzer was a meeting with a delegation of the European Union, headed by a special EU representative for sanctions, David O'Sullivan.

During the meeting, among other things, the issue of strengthening Ukraine and international partners of sanctions against Russia was discussed.

Andriy Zyuz thanked the countries of the European Union for the active and consistent support of Ukraine, noting that the EU sanction packages against the Russian Federation are bringing our country's winner in the war.

The head of the apparatus emphasized that after a large -scale military invasion of Russian in our country by the decisions of the NSDC of Ukraine, which were introduced by the Decree of the President of Ukraine, the sanctions were applied to 11 072 persons.

At the same time, David O'Sullivan stressed that democratic values and strong -state institutions are important factors in the future development of Ukraine. He admitted that the EU would support our country on the way to these aspirations.

The parties have agreed to synchronize sanctions against the Russian Federation and to strengthen the exchange on cases of bypassing sanctions applied, in particular in areas related to the production of weapons and military equipment. It also provides for the strengthening of provisions against

the bypass of sanctions, including the application of government sanctions to persons who help them to bypass them.

How declared ** The UN Special Rapporteur on Torture Helly Gieldvards, Russia is massively used against Ukrainians by cruel torture, including electric shock, beating, strangles, imitation executions and other deaths. About it reports the coordination headquarters on the management

Occupational Russian forces hold prisoners of war and civilian prisoners and torture to knock out intelligence, forced confessions, or consistent with the likely support of their country by Ukrainians.

UN experts emphasize that mass torture leads to damage to the internal organs, cracks or fractures of bones and mental injuries. In particular, it may be "On direct permission, purposeful policy or official tonelets on the part of the higher power of the Russian Federation" .

UN Special Rapader Elis Jill Edwards addressed the Russian Federation with a corresponding letter from the presentation of mass torture of Ukrainians.

"Torture is a war crime, and systematic or widespread practicing is a crime against humanity", - said Edwards, adding that the order or instructions of the senior boss cannot be justified.

Within its mandate, the UN special speaker will arrive in Ukraine for a better investigation in the military crimes of Russian invaders in order to bring persons involved in torture.

Welcoming the delegation of Africa in Ukraine, Volodymyr Zelenskyy [noted](#) that the voice of the African continent is to hear the world, in particular, when it comes to the fundamental security issues of the restoration of the real force of the UN Charter and the entire system of international law.

"Unfortunately, this day began with another Russian terrorist attack of anti - Ukraine. The winged and ballistic Russian missiles today showed Russia's real important attitude towards the restoration of peace, and to the world - leaders of the world trying to protect the world from aggression. Russia is a unified war and the only reason why the consequences of this war are harmful to the world, different peoples on all continents. No one can feel that their borders are protected, and the safety of their people is guaranteed until the Russians are being aggressive and theft of other people's lands with a global norm, "the head of the Ukrainian state proclaimed.

He emphasized that the termination of Russian terror and the withdrawal of Russian troops throughout Ukraine is the only thing that can stop this war.

"Ukraine and the world need neither" frozen "conflicts nor wars. Peace is needed, "Volodymyr Zelenskyy is convinced.

In particular, during a meeting in Kiev, he presented to the leaders of the African country the Ukrainian formula of peace and informed about how specific points will lead to the restoration of full security for Ukraine and all other countries of dissatisfaction, which in one way or another suffer from the consequences of Russian aggression.

"Food safety, radiation safety, safety of navigation, stability of the global markets and social peace in the world - all this is possible only when aggression will not be and when the formula of peace will be realized. All nations of the world have been imprisoned to live freely, without the imposition of another's will by military Chipolitical way, "the Head of State said.

He thanked all the participants of the meeting for supporting the principal integrity of states and the protection of nations from aggression.

The head of the Ukrainian state also noted that today the presidents, the leadership and the high representatives of African states visited Bucha in the Kyiv region and the consequences of the Russian occupation.

"Today, I urged the participants of our meeting to present my vision of how it is possible to overcome the consequences of Russia's crimes and prevent their repetition. In particular, it is a crime of mass deportation of Ukrainian children - they are presented from the occupied areas, they are kept in Russia, "the President of Ukraine said.

During the negotiations, it was a Russian terrorist attack on the Kakhovsky Hydroelectric Power Plant for people, the environment and infrastructure objects, in particular for the Zaporozhye Nuclear Power Plant, which Russian troops occupy already a lot and use as a cover for shelling of Ukrainian cities.

"Radiation does not know the borders between states and can reach any continent. It is more than the de-occupation of the Zaporozhye NPP and its return under Ukrainian control can guarantee reliable protection against radiation incidents at the station. Calling the participants of our meeting to present their vision of how to achieve this, the alien, which is interested in Russia, is an increase in the production of rockets for terror and novat against

people and international order, against nature and the UN Charter, "Vladimir Zelensky said.

He emphasized that any negotiations of Russia's leadership perceives the possible way to accumulate power and expand aggression, and Ukraine has already convinced it.

"I will point out again: a real peace is needed, and therefore, the real withdrawal of Russian from all our independent territory," the President said.

In addition, during the meeting, the parties discussed the food security of the world, in which Ukraine has already demonstrated its global power.

Volodymyr Zelensky presented to the participants of the negotiations the results of two export -initiatives: the Black Sea Grain Initiative and the Humanitarian Program "Grain of Zokraine".

"We really help the world and specifically - many peoples of Africa, Asia, Europe to maintain social stability and price predictability of the export market through our exports. Together with our partners we work as a bubble in Africa. The supply of food must be securely guaranteed, and every person's right to food should be provided despite any states such as Russia, to use the threat of hunger and social instability to blackmail peoples, "the President said.

Also, according to the Head of State, Ukraine has specific proposals for the

development of human capital of partner countries, primarily due to digital sustaination and state institutions.

"We are ready to significantly expand educational programs for students, in particular from the country of Farican continent," said Volodymyr Zelenskyy.

"But first of all, we have to restore the full force of the UN Charter and stop the Russian aggression and liberate our land, our people of the Over - Russian Imperial Evil. This requires global efforts, and I thank you who is capable of such efforts and helps Ukraine, and therefore, to myself, their own safety, "the president said.

Vice Prime Minister-Minister for Reintegration

Citizens of foreign countries, especially children, should leave the temporarily occupied territories of Ukraine. With this call, the Vice-Prime Minister-Minister of Railway Reintegration of Temporarily Occupied Territories of Ukraine Irina Vereshchuk appealed to the governments of foreign states on one of the Ukrainian TV channels.

This is stated in [message](#) Government got.

According to her, Russians want to use foreigners, especially children, as a living during a Ukrainian offensive. This applies to all temporarily occupied territories, including Crimea.

"We have serious grounds for such an appeal. This is especially true of tubular who, because of Russian propaganda, do not have complete information about what is happening. Our army has started offensive. Therefore, please make sure that foreign citizens in temporarily occupied territories, especially in Ukrainian Crimea, have: neither adults nor children. Because the invaders will use them as a live shield or sacred casualties, "the Vice Prime Minister summarized.

The work of the Council of Ukraine certifies that Ukraine is already becoming a member of the Pact.

According to Ukrinform, Alexei Reznikov, a defense of Ukraine, commentary on the topic of work of the future council of Ukraine-Ukraine-Nato

“At the table today, 31 Member States of the Alliance, Finland has been added. I hope that there will be Sweden in Vilnius - there will be 32 countries. So, if, and I believe that the Ukraine -Ukraine Council, it means 33 countries

at the table: 32 NATO members and a member of the Council - Ukraine, who has the right to violate, discuss, include, involve in various subcommittees. That is, it is practically what I say: we are not yet agent, but we become de facto, "Reznikov stressed.

He also noted that today there was a tectonic shift in the attitude of international partners to Ukraine.

"We are already perceived as a full -fledged subject participant in European politics at least by Euro -Atlantic policy at least. Today we have a language subject, "Reznikov noted, adding that today with Ukraine they are united not just as with equal, but with some respect, because it will inspire the world with their resistance.

Commenting on NATO Strategy Rennikov noted that the main threat to the Alliance is the Russian Federation for the future 10 years.

"Ukraine is the only country in the world that has practical experience of resistance and winners, using technologies, weapons of Nativ standard. Therefore, it is a part of interest with Ukraine into this collective security architecture. Our experience of application, their technologies, their training systems, and all that is part of the word "interoperability". It is beneficial to both parties to the safety sense, "the minister said. Reznikov also noted that Ukraine should now create an army ash.

"When we become a member of the Alliance, it is one story, and the army of the future is a cephahparallel but a little different story. We need to develop our army for the future today, to think about what it will be tomorrow. The fact that we will win in this kind, I have no doubt, I believe in it. My faith is put on facts as a wiurist. I understand our partners. This war is a war, a war war. Today we have allies in the form of clubstein with their capabilities, resources, so we will definitely defeat, "the minister said.

He added that Russia will be a unfriendly neighbor for a long time, and in order to be tempted on revenge after defeat, Ukraine should develop defense forces.

"We need to prepare for the upcoming war, which we will not allow. Our task is to ensure that the future war does not happen so that they are scared to attack. And I am convinced that our advantage will remain precisely that we have washing today - we have compatibility, participation, inferior, but already by the collective security system. Collective safety prefers. Therefore, I believe that the Ukrainian army of the future will be part of the civilized world, the European and Euro -Atlantic community," Reznikov stressed.

Yesterday in Brussels was a long, important and valuable day for our victory.

About it on Facebook [reported](#) Minister of Defense of Ukraine Alexei Reznikov.

"Key-" Aircraft Coalition "formed-Denmark and the Netherlands will provide the preparation of our pilots on F-16 fighters. By July, a program will be ready, which will provide for a consistent training plan for our military. This is only the first one. Very soon we will see other countries that will join the coalition, "the head of the Defense Office reported.

According to him, in addition to the "aircraft coalition" the issues of air defense, ammunition shells, artillery were discussed.

"Also important is my colleagues of Defense Minister of the Grand Duchy of Luxembourgfransua Baush and the Minister of Defense of the Estonian Republic Hanno, Phonocvo, supported the idea of creating an IT Calioral. They are ready to take on the leadership role of creating this group. So, there is a new coalition on the horizon to ensure the winner of Ukraine, "Oleksi Reznikov emphasized.

Another important solution is to repair Leopard tanks. A wonderful joint presentation and Germany to create a tank repair system in Poland.

[!\(Images/APMIRINFORM/2023-06-16T91-00-00-04-00/352219771_707290961407258_552002173239204262_n-150x150.jpg\)](#)

And of course - new unions. The declaration of intentions in the field of procurement of the BMP with the Czech and Slovak republics was signed. Details later. However, a step in cooperation between our countries is important.

"As a summary in the Ramstein format: today more than 50 countries are standing side by side with Ukraine, and I am grateful to Lloyd Austin for his leadership, as well as thank all our friends and partners for unspecified support," the Minister of Defense of Ukraine wrote.

According to him, the meeting of the Ukraine-Ukraine commission at the defense ministers is very important for us. "Now about the agenda. At the meeting of the Commission, Ukraine-NATO was key to the issue.

The first short -term is all that concerns the preparation for Vilnius' NATO's Summit, which will be held in July.

We had the opportunity to convey our position and we expect that Ukraine would have a clear understanding of the Vilnius Summit: how and when we can become a member of the Alliance.

We also discussed how NATO can help us to establish medical rehabilitation of wounded soldiers who are now returning from the battlefield and who continue to go through a very serious way to return to a full life, "the head of the Defense Department is reported.

According to Alexei Reznikov, another important area is the help of NATO defense purchases in Ukraine. We expect that the procurement agency will be able to help us build an effective and transparent procurement system that will allow you to use each hryvnia effectively. These are very practical things, we can now state that at this point we have prepared a very serious packet of practical steps, which will be presented at the Vilnius Sumiliders of NATO Member States.

"The second question was a further future: what to do to do, to abyigrand the security of Ukraine and all Europe after victory," - continues the Defense Minister of Ukraine.

Another direction of our work is joint defense planning. NATO's language will be a important tool that allows you to model the future:

Now, in real time, our defense planners together with NATO defense planners are working on models of the future.

[!\(Images/APMIRINFORM/2023-06-16T91-00-00-04-00/354431640_707290984740589_8060309358063863608_n-150x150.jpg\)](#)

According to him, we are already thinking about very practical tools that will help you become such a state in the future. For example, we are now coming to start a joint education and training center. I would call it the center of war

with Russia. The idea is that we will share the difficult cost of the lessons from this war and use winged experience in order to become stronger.

“Our goal is to make Ukraine strong and be able to protect itself after winning. And that means - a strong army, which we call the army of the material. The Ukrainian army is the army of the future. And now we will go for it with partners, about long -term plans for the development of Ukrainian -military, ” - summed up the Minister of Defense of Ukraine.

The Russian information operation was aimed at precipitating and distrust of prisoners of war. About it [reports](#) The headquarters service in the telegram.

Since the beginning of the week, the communities of prisoners of war have spread the leaf from the alleged SE "Ukrainian National Peace Center", addressed to the Secretary of the Coordination Staff on the behavior of the Warning. It applies to the recommendations for the exchange of prisoners in

the specialties, military units and titles, in particular the officer warehouse. The document contains grammatical errors that show that it was transformed from Russian.

In the press service of SE "Ukrainian National Center for Peace Development", journalists reported that such a letter never existed:

"We checked all the original numbers of documents, such a letter has never been existed," - commented in a state -owned enterprise.

In addition, the representative of the coordination headquarters informed that the letter is another Russian information attack:

"This is a fake, another example of a Russian information operation. In the document it is possible to even see mistakes, the letters are written in Russian. It is an enemy that is comprehensive to sow distrust of the public to be indignant. "

The coordination noted that for Ukraine all prisoners of war are important and converting to release all:

"The enemy throws such fabrics in the community of prisoners of war in order to cause conflict and distrust. This is no longer the first -fake document we face. The coordination headquarters is released from a ground, not taking into account the title or military specialties, without any preferences. It is easy to check the statistics of released pelvic protection defenders. "

Deterous Ukrainians, dear Ukrainians!

Today was a long day. Many events, many news. Meeting in a special format - Ukraine plus the country of Africa. Prolonged discussions... Peace formula, security issues, grain, our common opportunities to protect the principles and usals of the UN, to protect nations from aggression. He called on the leaders and states of Africa to participate in the global peace we are preparing. Ukraine will be heard by the world, and the whole world will be attracted to the realization of the formula of peace. It's not easy, but we work.

There was also a course issue at the National University of Defense of Ukraine. I was honored to congratulate our officers. Very nice.

It is especially grateful to our aircraft forces - everyone who protects Ukrainian. The Russian rockets, including six ballistic, are knocked down today, it is very important and symbolic. Russia is not intimidated.

And today there was another event, another point of my graph, which was not yet reported. This is a military office. Our commanders are Syrsky, Tarnavsky, Zaluzhny, and Shaptal Generals. And our commanders in specific directions of active actions - I do not call the names, all my time. Our movement forward is more important. Each of our warrior, every new step, every meter of

liberated lapel of Ukrainian land is the most important. And there was a Budanov... separate steps.

Thank you all who are in battle for Ukraine now!

Thank you all who are preparing to go into battle!

And thank you to everyone who so much helps us!
