НАРАТИВ ДНЯ РФ

“

«Конкретно зараз українці – вороги. Братами вони, можливо, знову стануть після того, як ми здобудемо перемогу і будемо «лікувати» їх»

**т.кеосаян,
пропагандист РФ**

About it [reported](#) On the page of the Center for Combating Misinformation:

“The propagandist Keosyan stated that with the phrase of the “brotherly people ”about the Ukrainians to“ tie ”. She seems to confuse people.

He also added that the Russians were fighting in the fields of "their" Ukraine with "Ecumenical Evil".

In these words, Keosan destroyed the long -standing narrative of Rospropaganda about the "brother -in -law of Ukraine".

The disgraced propagandist also began to justify the murders of peaceful Ukrainian terrorists of the Wagner PEC, although earlier all Putin media stated that Russian was not able to commit such crimes

The birth of new narratives indicates that all the previous ones are not justified by the Kremlin. Also, it is likely to be evidence that Russia is trying to create a new occasion for large -scale mobilization of Russia. "

"This is another clear signal of unchanged support from the US. Launching this international center is an important prerequisite for creating a special *tidus* for a crime of aggression," he added.

At the same time, as reported In the press service of the US Ministry of Justice, the prosecutor will be based on the HAZEV Euras - the Agency of the European Union for cooperation in the field of justice.

The Ministry of Justice also plans to send a permanent legal advisor to the US Embassy in Kiev this summer. This adviser will work with Ukrainian partners on a number of difficult issues of the justice sector.

Prosecutors who work with a group of investigation of the US Department of Justice, continue to cooperate closely with colleagues at the Office Prosecutor of Ukraine to investigate specific crimes committed by Russian troops, including illegal attacks on civilians.

The US Congress has recently expanded the powers of the Ministry of Justice on judicial reversal of likely war criminals, which were found in the United States. This means that in the coming years and decades, Russian warriors who have been in the United States should expect that they will find themselves in the USA.

In addition, the US Ministry of Justice applies new powers given to the US Congress to transfer certain assets that have confiscated from Russian oligarchs to use Ukraine.

"We will do our best to help Ukraine achieve justice for their people. And we will work as much as we need to be held responsible for those who are responsible for the cruel crimes of the Russian regime," said US Attorney General Merrick Garland.

Пресофіцер 112 бригади ТРО ЗСУ, кандидат політичних наук Андрій Ковальов зазначив, що у процесі збереження пам'яті про осіб, які відстоювали незалежність України, держава має також опікуватися перенесенням поховань українських геройів із-за кордону.

За його словами, законодавства низки країн, зокрема, Німеччини, Бельгії, Нідерландів, передбачають, що могила існує доти, доки є ті, хто оплачує її оренду. Без продовження оренди пам'ятник зносять, тіло екстремумують, кістки переносять до братської могили, а місце знову передають в оренду. «Таких могил великих українців тисячі, і Українська держава має їх врятувати. Це другий виклик: зберігаючи могили сучасних геройів російсько-української війни, ми втрачаємо могили та пам'ять про геройів попередніх російсько-українських воєнів», - сказав він.

The issue of suspension of imports of Ukrainian grain by its European neighbors should be resolved at the EU level, but it in no way testifies to the "fatigue" by the event or from NATO member states from Ukraine.

But this is not a natable. This was discussed in the European Union and in some European countries, "he said .

He expressed his belief that ways to solve such calls would be found, since Ukraine's support in Europe will remain at a very high -communicate one. When a sovereign and independent European country resists the brutal war on the part of another country, it is moral to support the country to be against aggression.

When Europeans and people all over the whole, in North America and the whole world see my peacekeeping, how women rape women and kidnap children, forcibly take away their forcibans - then they really care about it, "Jens Stoltenberg added. He noted that the "grain" problem should find its solution, but it is not aware of any lack of will and the readiness of the Allies to continue supporting Ukraine.

In the Armed Forces of Ukraine, a fair system of payments should be operated, which does not increase the prerequisites for social tension in combat units and will be heard to those soldiers who risk their own lives and health.

On this emphasized In the General Staff, commenting on the discussions on the decision of the Parliament to repay the payments to the military 30 thousand hryvnias.

"Society is discussing a rather sensitive issue, namely: the decision of the parliament to declare an additional monetary remuneration for servicemen in the amount of 30 thousand UAH.

A soldier who serves and protects the country from the aggressor, risking his own life and health, performs tasks in difficult conditions, should be highly motivated. Remember what a coal, Marinka or Avdiivka look like. Each day of Ukraine's defense is given to us at a very high price. The cost of life and healthy defenders, "the message reads.

Therefore, the additional monetary reward is accrued depending on the districts and the complexity of the tasks performed by fighters.

The General Staff of the Armed Forces noted that **100 thousand hryvnias** per month, as before, are preserved to defenders who are fighting directly at the front country.

30 thousand are paid to the military who perform tasks in the areas of combatants but do not directly participate in the fighting with the enemy, proportional to the time of completion task.

If servicemen are out of the war zone, in the rear, then the sub -tax payments to them **are not accrued** .

At the same time, as of February 1, 2023, all servicemen have been raised by the minimum amount of monetary support to 20100.

"We ask you to stop engaging in populism and concentrate on the defense of our state," - called on the General Staff of the Armed Forces.

It is important to understand that there will not be such a day when the Armed Forces of Ukraine will be told - tomorrow we begin a counter -offensive. In war, this is secret information. The bricks of the Armed Forces of Ukraine, which we do not have the right to discuss in the public space - there is Anna Malyar, on the air of the Unified Information TV, empire.

At the same time, it is not necessary to reduce a counter -offensive only to some actively -comprehensive actions. Because it is a strategic goal - to stop the enemy of this offensive actions and to release all our territories.

Therefore, to speak in a highlight of a counter -offensive is incorrect, because it is a huge set of actions of and event actions that are currently carrying out the armed forces, - said Anna Malyar. - The formation of certain tactics for plans "A", "B", "B" ... because one can not be more than one option, because the enemy also reacts. It should be understood that such decisions are made in a very short time, not in a month, two or half a year. The plan is chosen so that the enemy does not have time to react to it.

According to her, the Armed Forces do not prepare one thing at this time - in a specific time in any Krette direction. The Armed Forces prepare the whole complex of defense of tutorial measures daily.

Thanks to the Air Defense/AB systems provided by Ukraine partners, last winter we managed to stand up in the fight against a brutal aggressor, but now our priority is the construction of the air defense system/About in the shortest possible time.

This is stated in [post](#) Minister of Defense of Ukraine Alexei Reznikov, located on Facebook:

"Construction of a multi -level air defense system/about in the shortest possible time is our priority. It is the protection of peaceful cities, critical infrastructure, our people in the rear and Nafronto.

Patriot systems form the ability that has not been used before - impressing the legal goals.

Another IRIS-T installation for which we thank the German partners for the possible way to fight winged missiles. Irisa, like Nasamsa, was well - recommended.

Migs from Polish and Slovak friends will strengthen the protection from both Russian row and Iranian drones.

All these are fresh revenues that are already in the benches of the Defense Forces. To be continued.

Given the Kremlin's barbaric tactics, we need more platforms of different levels and ammunition. We need more MAZRC.

Western aircraft are the top of this pyramid.

As for each platform, we first heard "no, it is impossible." Now they are defending the sky. We consistently work for the result.

The stronger the air protection, the more resources Ukraine will be able to victory, the faster our people will return home.

I am grateful to all partners for invaluable help.

We will never forget that the light and warmth in our homes last winter managed to protect in many respects thanks to the support of friends who have provided us with a means of defense. "

On April 10, Russia has stopped registering a new entrance fleet to participate in a vines and refused to work on the plans of Ukrainian ports. This is made by the assembly of inspection plans and actually stopped the entry of new vessels with the framework of the grain initiative.

It is known that in the last two days, on April 17-18, no inspection was drawn up and no inspection was carried out in Turkey's territorial waters. The 18th Ukrainian side suggested to carry out at least 2 inspections of the output 2 inspection of the entrance fleet. Foreign Intelligence Service of Ukraine [continues to tell](#) on the sanctions and other actions of the international community against the terrorist country.

Situation as of April 19 2023

G7 foreign ministers have warned that those who help Russia are vicious against Ukraine will pay a high price.

Russia should be restrained that it does not decide on further aggression, - said US Secretary of State Anthony Blinken after meeting the foreign ministers of Japan G7. "This includes increased sanctions and export control measures, which will pressure the pressure on Russia, limiting its ability to wage war, persecution of sanctions, wherever they are hidden, the rejection of nuclear blackmail is a mosquito for prosecution for war crimes", - said Blinken.

Poland presented a proposal for a new package of sanctions against Russia because of the invading war against Ukraine. The proposal of Warsaw includes stopping imports of Russian oil through the northern part of the Donimichy Friendship oil pipeline. It also envisages the cessation of imports of Russian diamonds and natural gas, including LNG, and limitation of cooperation in nuclear energy.

Наслідки дій рф можуть спостерігати і жителі Болгарії та Туреччини, дефіксується масова загибель дельфінів. Лише в українській частині Чорного моря зафіксовано 150 смертей дельфінів. Відомо про 3 види сімейства дельфінів, які зараз перебувають на межі вимирання.

Ще один кричущий факт, який свідчить про масштаби трагедії у сфері захисту дикої природи — під загрозою опинилися всі 28 видів кажанів, зареєстрованих в Україні та занесених до Червоної книги. Це одна з груп тварин, які дуже болісно реагують на зміни довкілля.

«Своїми діями росія порушує Статут ООН, нехтує резолюціями Генеральної Асамблеї, знищує види та середовища проживання рослин і тварин. У тому числі, захищені на міжнародному рівні. Європейський парламент визнав росію державою, яка підтримує тероризм. І ми наполягаємо на тому, щоб участь росії у прийнятті рішень на міжнародних майданчиках була обмежена», — зазначив Євгеній Федоренко.
