Canada imposes additional sanctions against 24 physical and 17 organizations in Ukraine within the framework of the Regulations on Special

*Economic Measures(Ukraine)* . Price measures are a direct answer to Russia's attempts to destroy cultural objects, institutions and identity of Ukraine.

About it [reports](#) The Canadian Government site.

In addition to significant damage and complete destruction of a number of Ukrainian cultural objects, thousands of Ukrainian cultural artifacts were found missing or, as reported, stolen by Russian troops in temporary - occupied territories after a full -scale invasion of Russia in Ukraine in 2022 year. In its efforts, the identity of Ukraine, Russia, is reported that illegally exported Ukraine and caused harm to cultural heritage objects.

"With today's announcement, Canada imposes sanctions against persons associated with Russian cultural objects by Russia to resist Kremlin's attempts to "Russify" Ukrainian culture. There are Ukrainians who work in museums and other cultural centers in the list of persons who have been submitted to the sub -centers. It also includes the newly created structures of the occupied territories of Ukraine, such as the so -called ministries of education, as well as natural and legal persons related to private military companies that have arisen in Ukraine and fight on the side of Russia, "the message goes.

In addition, since Russia is trying to force its culture and the education of temporarily occupied territories of Ukraine, these sanctions will lead to further expenditure on the so -called power in the regions of Ukraine illegally occupied by Russian military in order to protect Ukrainian culture and identity.

With these sanctions, Canada confirms its unwavering devotion to the support of the people against the aggressive war of Russia, continuing to increase the pressure on Russia, who cooperate with the Russian administration in Ukraine as they stop these unjustified attacks.

In the Council of Europe Parliamentary Assembly(PACE)They also approved the Declaration of the International Committee of the Red Cross and the international community to demand that the Russian Federation comply with the rules of international humanitarian law on Ukrainian prisoners of war.

About it [reports](#) Coordination headquarters of inquiries for the treatment of prisoners of war.

The PACE written declaration, in particular, states that the Russian invading war of Ukraine is extremely cruel, and Russia violates all possible normative law.

“Disrespect for international humanitarian law, in particular the worthy treatment of closed-toned ones, is another systematic failure to comply with the Russian Federation of international legal obligations. The aggressor country is systematically refusing the International Committee of the Red Cross in access to prisoners of war, ”the message goes.

It is noted that the written declaration was signed, in addition to Ukraine, by representatives of the Liton, the United Kingdom, Iceland, Estonia, France, Poland, the Netherlands, Lithuania and Sweden.

All these countries called on the Russian Federation to respect and promote access to the ICRC.

"Although we appreciate the efforts made by the ICRC to obtain access to Ukrainian -bearing, the current negotiation strategy has not brought the necessary results. Therefore, we urge the ICRC to revise our policy - confidentiality, to mobilize third parties and, after all, publicly condemned the violation of the Russian Federation of International Humanitarian Law by the Russian Federation. There should be objective limits when it becomes obvious that silence no longer brings useful, "the signatories said.
