The collaborator also stated that the Kyiv regime is not the subject of other decisions.

Talking about the "normal settlement of the conflict", the Kremlin and its departure are to leave the occupied territories of Ukraine under their control, which is interrupted by the interests of our country.

As previously reported, our warriors destroyed another precious hostile helicopter KA-52, known as the "alligator". With the assistance of the United

Tavriya defense forces, the Armyonform became known to be famous for how the analogue "alligator" followed the Russian military ship.

The pilot of the Russian helicopter quietly controlled the combat car. It was very confident that it was moving above the temporarily occupied territory of thawing below twenty meters, and the distance to Ukrainian positions was overwhelming. Performing the maneuvers at such a distance, the "Putin - screenwriting" felt almost invulnerable.

The Ukrainian Marines, near the positions of which, had a Russian helicopter, were otherwise thought. The sub-air defense of a separate Marine Corps named after the counter-Admiralhail of Bilinsky performed the task of covering during counter-offensive. Marpitch with a call sign "Summer" visually determined the target that was identified as a "Russian shock helicopter KA-52".

The missile, launched from Igla MSrk, hit the tail of the helicopter. Further, "summer", along with the brothers, watched a picturesque picture: praised "alligator", leaving behind the fatty thick smoke, began to lose its height sharply and disappeared from the field of view for a few seconds.

Subsequently, the observers who were in the infantry units of the brigade received confirmation of the affected target. The Alligator has fallen in a territory that is still under the control of the occupiers. So, another praised Russian "alligator" has turned into scrap, which spoils the amazing landscapes of the Ukrainian nature. "But this is a temporary phenomenon," our Marines say.

Edgargdosis, who for three years headed the Shakhtar Academy, has gone out.

This was reported [Maisfutebol](#), reports Ukrinform.

Recently, the Portuguese was in Croatia, where he worked with the club youth teams.

Edgar agreed with the Miners' management on the termination of the contract, since Shakhtar decided to return youth teams to Kiev.

"From the very beginning, I told the club that I would never return to Ukraine, and the war is in touch. The club, apparently, understood, made my decision and wanted to continue working with me on these conditions. My responsibilities were accompanied by all the teams that were in Croatia, and every time the team under 19 years or the main team went to European competitions or internships, in the summer or Christmas, I came from Croatia and accompanied them, "Cardoza said.

He also noted that he decided not to return to Ukraine together with the Miners Academy.

"Two weeks ago, the club decided that all players and all teams would return in Ukraine, because the championships will start in September for all age groups, so despite having a current contract with Shakhtar until December 31, it is decided to return to Ukraine. Because it is dangerous. I want to be near the rise of the family again. My life credo - wherever I work, should be my deed, and it would be impossible in Ukraine. This is not my will, not the will of the club, but unfortunately, we have to go different ways. They are returning to Ukraine, and I do a new project, "explained the former director of the Miners Academy.

The Ukrainian Ukrainian continues to promote the front: the position on the position, the step of the power of defense goes forward.

Volodymyr Zelenskyy said this in [video closer](#), reports Ukrinform.

Video: [Presidential Office](#)

I wish health, dear Ukrainians!

This week ends - it is very important to us all the week: for our defense, for our steps forward - for our offensive actions. And it is the time to see all our soldiers, those who distinguished themselves this week.

The Tavria direction is the harshest. Marines of the 35th Separate Brigade-thank you!Seventystyevika paratroopers - thank you!130th separate reconnaissance-thank you!68 Separate Eger Brigade-Thank you!23 Separate mechanized brigade-I am!Artillerymen of the 44th Brigade-I am grateful to you!

I will especially note the mouth of the percussion drones of the 47th separate mechanized Brigade, headed by the chief sergeant Rustam Mustafayev. Thank you for the result, warriors!The crew of the armored car demining the 70th Separate Support Regiment is the eldest sergeant Mykola Nikandrov and the junior sergeant Roman Lisin. Well done guys!

Our National Guard - Thank you all!And especially I will note Chief Sergeantvasil Kovilin and platoon commander Denis Zeleny, 4th Battalioperative Purpose, 1st Presidential Brigade of the National Guard. Thank you!The guys will be tasked with Luhansk region, under Bigorivka.

Our border guards... I will note especially Lutsk and Lviv borderlines. Senior Soldier Vasily Kutsyk, Avdiivskyi Direction - is very effective in picking the storms. Thank you!Sergeant Vadim wife, Siverskyi direction - successfully "minus" soldiers and equipment of the enemy. Thank you!

And of course, our defenders of the sky. In a week, more than a hundred group aviaries on the positions and rear of the enemy. Thank you, our pilots! In seven days, three dozen rockets and about fifty shock drones are destroyed. And separately celebrate the boobs of the sky of Kyiv region. 96th Kiev anti-aircraft missile brigade of the Air Force-thank you!All "calibers" and "daggers" were destroyed during these attacks, and therefore the lives of our people were saved.

And besides I want to say about a few things. First. No matter who, in Russia, he said that our "Petriots" are destroyed, they are all, they all work, the ADIns are knocking down Russian missiles. And knock down as efficiently as possible. No "Patriot" is destroyed!Third. As for the terrorist state, the only thing that has to worry them now is how to prepare their society, Russian society, to the fact that they will repay all that they will destroy their country's future. The enthusiastic territories of Russia will lose. There are no steps from de -occupation and will not be an alternative.

Our military is moving: position by position, step by step.

It was Ramstein this week, and most importantly, it is the speed of delivery. The next week there will be new important communications with partners -

just for the sake of our Gourukh, just for the sake of weapons, just for the sake of our soldiers to be all -necessary.

I thank everyone and everyone who is now in battle, on positions and on battlefields!

I thank everyone who helps!

Glory to Ukraine!

The Kremlin will be held on June 17, meeting with African leaders and their rhetorics to slow down Western aid to Ukraine.

As Ukrinform reports, it reports [Institute of War Study](#) (Isw).

Зазначається, що у російському Санкт-Петербурзі пройшла зустріч лідерів семиафриканських країн з президентом [Путіним](#) that took place after the official visit of the delegation to Kiev.

For the main purpose of both visits, African leaders set a "peace planned to restore international trade", which calls for termination of fighting and peaceful settlement through negotiations.

During a meeting with Putin, talking about the war in Ukraine, the President of the Komorkihostrov and the current head of the African Union of Azali Azumani used, similar to the favorite Kremlin rhetoric of the Russian Peace.

Read also: [Africans their leaders consider it possible to dialogue with ZI Ukraine and Russian Federation on children, prisoners and grain exports](#)

He stated that stability in Eastern Europe, Africa and the world depends on "brotherly relations between neighboring Slavic friendly peoples."

Asumani also stressed that peace in Ukraine is important for providing international food and energy security.

"The delegation probably seeks to balance Ukraine and Russia to maintain ancient relations with Russia, without diplomatically associated with the Kremlin's war," the report reads.

In his turn, Putin stated that the Kremlin welcomes the "balanced" approach of the Aphricity states to resolve the issue of war in Ukraine.

Analysts emphasize that the Kremlin is likely to take advantage of this proposal for the promotion of Russian information operations aimed at slowing down western assistance to Ukraine in the sphere of security, at the same time did not show the intent of the intent to participate in any peace process. ISW has already evaluated that the Kremlin regularly signals the fake readiness to regulate the settlement to encourage the event to be concerned and refuse more support for Ukraine.

The Kremlin has already taken advantage of the same "fuzzy peace plan", represented by Chinese in 2023, and tried to use the declared Chinese interest in the reverses in the settlement of war in Ukraine to achieve the desired closer communications with China.

According to Ukrinform, the most fierce fighting on the line of clashes in the course of Ukrainian counter -offensive is observed in three sections. Russian -shaped losses.

These funds remain in a frozen bank account in the United Kingdom owned by Fordstam, controlled Abramovich, and the British Foreign Ministry gave green light to transfer this money.

My responsibilities were accompanied by all the teams that were in Croatia, and every time the team under 19 years or the main team went to European competitions or internships, in the summer or Christmas, I came from Croatia and accompanied them, "Cardoza said.

He also noted that he decided not to return to Ukraine together with the Miners Academy.

"Two weeks ago, the club decided that all players and all teams would return in Ukraine, because the championships will start in September for all age groups, so despite having a current contract with Shakhtar until December 31, it is decided to return to Ukraine. Because it is dangerous. I want to be near the rise of the family again. My life credo - wherever I work, should be my deed, and it would be impossible in Ukraine. This is not my will, not the will of the club, but unfortunately, we have to go different ways. They are returning to Ukraine, and I do a new project, "explained the former director of the Miners Academy.

"The United States, as well as some other countries, will do everything possible to help Ukraine protect itself after it will win the victory of the hypersonics and the occupier will leave the territory of Ukraine," the ex-commander of the troops said in Europe.

The TF-1 French TV channel showed a report filmed in the occupied Russian military territories of Ukraine. It does not say that Russia is the aggressor entered.

About it [reports](#) On its official Facebook page the Center for Combating Misinformation.

The plot shows the positions of the Russian military. They comment on ammunition and drones, as well as telling how these means of impressions are used against the Armed Forces.

The French report showed an unsuccessful example of "neutral journalism" as it is not in this war, where it is clearly clear who is the aggressor and the terrorist.

Thus, the TF1 TV channel deliberately promotes the narrative about the "power of Russian army" and discredits Ukraine, showing that it is possible to bypass the Ukrainian -law on the side of the enemy, - summarized in the CPD.

The youngest aircraft in the air forces of the Armed Forces of Ukraine is the Su-27 of 1991. All the rest is the technique of the Soviet times of the development of the seventies-eighties years. We are not manufacturers of these aircraft, and we are largely dependent on the availability of quiet parts that cannot be manufactured. However, it was thanks to our defense-

industrial complex that we could maintain in a normal state this Soviet technology, which is fighting today.

Colonel Yuri Ignatius spoke about this spokesman for the Air Force of Ukraine on the air of the television marathon "One News".

Therefore, the leadership of the state, the Ministry of Defense, the Armed Forces of Ukraine, including the Air Force - all work in close consultations with our Western partners to update the aviation component. The officer said that there is now a clear understanding of what we need when it is necessary, who will give it, at whose expense, how it will be serviced and what weapons will be provided at the same time.

He also emphasized that together with Western aircraft we will also receive the entirely necessary logistics infrastructure for their maintenance and maintenance.

The spokesman for the Air Force Command of the Armed Forces of Ukraine reported that the decision of pilot preparation has already been adopted, but the pilots for training have not yet left. Different options are studied to carry out such training quickly. Other aviation experts have been studying abroad for some time.

"Everyone knows that the best security guarantee for Ukraine is its membership, and I hope it will happen soon. I hope that the Volnya Summit will be announced specific steps that will give everyone understand that the future of Ukraine is in NATO. Even if they do not name this planning about membership, I think we will hear a few specific steps that will give this understanding," Gors said.

In his opinion, the Vilnius Summit will be unsuccessful if this does not happen, and NATO's copies are well understood.

"The United States, as well as some other countries, will do everything possible to help Ukraine protect itself after it will win the victory of the hypersonics and the occupier will leave the territory of Ukraine," the ex-commander of the troops said in Europe.

Aggressive Muscovy continues the tactics of nuclear blackmail, using an occupied Zaporizhzhya Nuclear Power Plant, as well as the territory of Belarus, the dreadful placement of Russian nuclear weapons.

This was stated by a representative of the Main Directorate of Intelligence of the Ministry of Defense of Ukraine Andriy Yusov during an interview with Anastasia Katerynchuk.

"A number of norms and standards of nuclear safety at the NPP is no longer provided by the current authorities. The fact that they are constantly producing with our Zaporizhzhya atomic station is a nuclear blackmail: it is also the placement of forces and means, weapons there; This is the implementation of shelling by rashists from the territory and in the territory of the lands; It is the terror of the power plant staff and many other factors," - said the representative of Ukraine's military intelligence.

According to Andriy Yusov, the blackmail on the ZPP and other occupied objects of critical infrastructure is related to the Russian awareness that the occupied territories of Ukraine will have to get out sooner or later.

"The main thing that every Ukrainian and the whole world must understand - in Kakhovka, named" Crimean Titan "and all over Ukraine, and environmental safety at these objects, will be guaranteed when they return under the control of Ukraine and legal power. While Russian terrorists are there, it will be threatened to preserve," - said the representative of the GUR of the Ministry of Defense of Ukraine.

Andriy Yusov noted that the enemy's statements about the possible placement of nuclear weapons of Belarus is also an element of Moscow blackmail. At the same time, the aniblorrian dictator Lukashenko, nor any other in that country is able to influence the placement, use or fate of Russian nuclear weapons.

"Of course, the people of Belarus once again are hostages, now an additional element of nuclear argument, nuclear blackmail. Something additional for NATO, for Ukraine, is not threatened. But Putin shows, they say, she will take some steps on the chessboard," Andrei Yusov explained, adding that the dances of Russians with nuclear tambourine in Belarus are expected.

"Despite all the dances with the tambourine, now the nuclear tambourine, for Ukraine, the important factor remains that Belarus is not drawn into full -scale terrestrial Russia against Ukraine, and this is not observed. They want to cover, wave their fists, threaten someone, threateningly move your mustache? - Well, Bellas, " - summed up a representative of the GUR of the Ministry of Defense of Ukraine.

The ArmyInform was addressed to the Dnieper office by a military psychologist of one Zbrygadi, who now destroys the enemy near Bakhmut. The officer asked to assist in the constant campaign "support their own" to gather a variety of souvenirs of and joint bracelets and charms for their

cooperations. According to the officer, such things, made by the hands of ordinary Ukrainians, are very motivated and needed by people on the front.

Volunteers from the Dnieper, Zaporizhzhia, Vinnitsa, Lviv, Ivano-Frankivsk, Yaremcha responded to the call of military journalists ... In a matter of days we gathered a considerable package with various souvenirs, charms and bracelets with patriotic symbols. Bracelets, yellow-blue hearts and even special drawings for psychological unloading-all this is already heading for the military unit. Also, with these souvenirs, journalists received a considerable amount of wicker zbabovovna and wool of special connections for fighters who lost their limbs as a result of Napoli's wounds. These things were transferred to the Lviv City City Center for Assistance to ATO/OOS participants.

Recall that the "support of your" action, which was initiated by military journalists, has been operating since 2018. It can be a participant who wants to express moral support to our defenders at the front. Sign the flags with support for support, make postcards or amulets - and journalists Armyinformforming information groups working on the front will gladly transfer them to the outlive of fire, where our warriors defend their homeland from the enemy.

And once again we thank all the indifferent Ukrainians who continue to support the Armored Forces of Ukraine!Let's win together!

This week ends - very important to us all the week: for our defense, for our steps forward - for our offensive actions. And it is the time to see all our soldiers, those who distinguished themselves this week.

The Tavria direction is the harshest. Marines of the 35th Separate Brigade-thank you!Seventystyevika paratroopers - thank you!130th separate reconnaissance-thank you!68 Separate Eger Brigade-Thank you!23 Separate Mechanized Brigade-I am a thank you!Artillerymen of the 44th Brigade-I am grateful to you!

I will especially note the mouth of the percussion drones of the 47th separate mechanized Brigade, headed by the chief sergeant Rustam Mustafayev. Thank you for the result, warriors!The crew of the armored car demining the 70th separate regiment of support-the old sergeant Mykola Nikandrov and the junior sergeant Roman Lisin. Well done guys!

Our National Guard - Thank you all!And especially I will note Chief Sergeantvasil Kovilin and platoon commander Denis Zeleny, 4th Battalioperative Purpose, 1st Presidential Brigade of the National Guard. Thank you!The guys will be tasked with Luhansk region, under Bigorivka.

Our border guards... I will note especially Lutsk and Lviv borderlines. Senior Soldier Vasily Kutsyk, Avdiivskyi Direction - is very effective in the assault. Thank you!Sergeant Vadim wife, Siverskyi direction - successfully "minus" soldiers and equipment of the enemy. Thank you!

And of course, our defenders of the sky. In a week, more than a hundred group aviaries on the positions and rear of the enemy. Thank you, our pilots! In seven days, three dozen rockets and about fifty shock drones are destroyed. And separately celebrate the boobs of the sky of Kyiv region. 96th Kiev Air Force Anti-aircraft missile brigade-thank you!All "calibers" and "daggers" were destroyed during these attacks, and therefore the lives of our people were saved.

And besides I want to say about a few things. First. No matter who, in Russia, he said that our "Petriots" are destroyed, they are all, they all work, the ADIns are knocking down Russian missiles. And knock down as efficiently as possible. No "Petro" is destroyed!Third. As for the terrorist state, the only thing that has to worry them now is how to prepare their society, Russian society, to the fact that they will interact all that they will destroy the future of their state. The enthusiastic territories of Russia will lose. There are no steps from de -occupation and will not be an alternative.

Our military is moving: position by position, step by step.

It was Ramstein this week, and the main thing is the speed of delivery. The next week will be new important communications with partners - just for the sake of our governors, just for the sake of weapons, just for the sake of our soldiers to be all -necessary.

I thank everyone and everyone who is now in battle, positions and combat posts!

I thank everyone who helps!

Glory to Ukraine!
