President of Ukraine Volodymyr Zelensky is convinced that the current leader

of the aggressor state Vladimir Putin with his residence as the president with his policy is increasingly isolating the Russian Federation of the Required World. The head of the Ukrainian state said this in interviewing the representatives of the Italian media during an official visit to Italy.

"It is right now from the Russia that had ties with the civilized world. It is isolated today. With his presence in the Kremlin, he isolates people, his economy, his history, his language. Everything that was accumulated in them is Winter. And it erased our relationship, because he came to us with his aggression, unprovoked war, "Volodymyr Zelenskyy said.

The President of Ukraine expressed his belief that the Russian leader is indifferent to people - not only Ukrainians, but also citizens of his country - that is why Russian troops who have come to Ukrainian land have been demanding since the beginning of this Zaporbnitsa.

"He does not have a strong army. He has millions of people he throws up. And he had a lot of Soviet technology, "the Head of State said.

Volodymyr Zelensky noted that the Kremlin head has less justification for his actions in Ukraine. The current President of Russia is less believed to be a society, business and even environment.

"He promised them a quick victory, and there was no victory. Everything is comprehensive, no one communicates with these people, serious business comes from the Russian Federation, businesses in Europe and the world where there is a partnership of Russia, do not want to have joint contracts. All this affects a large number of people, and they do not want it, because they have difficulty every day ... This is isolation, " - said state.

At the same time, according to Vladimir Zelensky, Russian society is contagious as it was under the Soviet Union, and it is not ready to live visuals again, so it will press on the President of the Russian Federation.

"Every day the mood there, within the state, is deteriorating. They will press it, "the President of Ukraine said.

The Head of State stressed that Ukraine is approaching victory, while pushing the enemy from its territory. In particular, he noted that our country is extremely thoroughly preparing for a counter -offensive.

"We are preparing very seriously. And very serious steps will be a must. I know that we are all motivated - not only those who know all this idea, but our people, "Volodymyr Zelenskyy added. The President emphasized that the

Ukrainian people believed in victory, and the first important quotes will be soon.

Victory for Ukraine is not only the liberation from the Russian invaders of all

territories, but also to bring a crime of aggression against our country to just responsibility of all guilty. This was stated by President Vladimir Zelensky in an interview with the representatives of the Italian media during the official business card of Italy.

Answering the question, the head of the Ukrainian state noted that one of the only pacification of the Ukrainian territories will be not enough for those citizens, which have lost their children.

"I know the people who said, addressing me," I awarded their children in a way ... They said: "We are very much asking you: not only our native land. Improve. Those who gave orders should answer. We want the court. It was designed by the court - we want real justice. We demand it, we will not sleep. " These are the old people who hid their young children who went over and died for the sake of the state, "he said.

Therefore, according to Vladimir Zelensky, both for these people and for him as a president of Ukraine, victory is not only a return of territories.

"We are a civilized state and we want peace, but just peace. Is the right, honest sentences to the killers, "the President emphasized.

He also noted that aggression from the Russian Federation may be different - not only in appearance, but also blackmail, including energy. The Head of State expresses that in the case of losing Ukraine in the war, Russian aggression will continue to be resolved to NATO and the European Union, and then the public states will have to send their children and parents to the war.

"I am ready for a pragmatic conversation. I think your society should be ready to know: it is better to help Ukraine, "said Volodymyr Zelenskyy.

Отримати довідку ВПО та подати заяву на виплату грошової допомоги напроявлення можна за допомогою застосунку «Дія». Також внутрішньо переміщені особи можуть звертатися до органів соцзахисту населення, в ЦНАП або до уповноваженої особи виконавчого органу сільської, селищної, міської ради.

Today, on May 14, in Vinnitsa, on the Walk of Glory of the Central Cemetery, the hero of Ukraine, Sergei Parkhomenko, was opened by the hero of Ukraine, who was killed exactly a year ago. On it-a young smiling pilot near the Su-25 aircraft, on Yakakovin made more than 40 combat departments in difficult conditions to counteract the hostile goods and fighter aviation of the invaders ... And this is the most modest calculations-dozens of destroyed hostile tanks, more than half a hundred. Hundreds of invaders, and most importantly - thousands of lives of Ukrainians ...

Fighting pilots were opened - the father and younger brother of the dead hero. When Sergei entered the school in 2014, his father performed combat missions in the ATO. When in 2022 the young pilot destroyed on the "drying" enemy equipment, Dad flew nearby ... The youth also went in the footsteps of his relatives ...

[!/\(Images/APMIRINFORM/2023-05-14T78-00-00-04-00/5z3a9984-1-150x150.jpg\)](!/(Images/APMIRINFORM/2023-05-14T78-00-00-04-00/5z3a9984-1-150x150.jpg))

To honor the memory of the pilot gathered relatives, commanders and mentors of the pilot. They remembered how a 25-year-old pilot made combat departures from time to time, as he was the vinyl soul of the aviation unit and accurately worthy of his father Tadidus.

Sergiy Parkhomenko, who only graduated from KNUPS a few years ago, repeatedly removed Ukrainian aviation from under the missile strokes of the enemy and rushed into the fighting stubborn, who was surprised even by experienced brothers ... And he was a loving man and his father.

"It's your dad! He is a real hero!" - Sergiy's baby friends say. Khlopchik, who knows only from photos, looks carefully at the ceiling. Although it is not fully

aware of how brave his young father was. The child tries to hold on and dreams that his son takes away from his father...

The European Union sets solidarity with Ukraine, and this in turn consolidates and strengthens the unity of the EU itself and provides new opportunities for candidate countries for entry.

This was announced during the discussion under the Analytical Center of European Politics by the high representative of the EU Josep Borrel. transmits Ukrinform with reference .

This is exactly how he answered the question of Ukrinform correspondent if he would be able to take advantage of the time that Ukrainian defenders win on the battlefield, to be trained in future security challenges and to overcome fragmentation *EU defense.

"I hope - yes. Yes, we will be able to take this opportunity to scratch and consolidate our capabilities and become bigger. I have to say that the unity we have demonstrated is outstanding, despite all delays and discussions. Almost a year and a half after the beginning, this unity persists, although European society has passed through labor. You remember winter and electricity and food prices. In love with it,(European)Governments continued to support Ukraine and remain united," said the high representative of the EU.

He noted that he would like to complete the discussion on the optimistic note, including the integration of the Western Balkan countries, which have long been progress, and for which the situation in Ukraine can play a role -causing room in the process of entry into the European Community.

Read also: [**Borrel**](#) "I understand the disappointment that the peoples of the Western Balkans feel. But all the processes were long. In Spain, we were told: as soon as the military dictatorship is over, you will become EU members. Franco died in the 75th year. The EU members in the 86th, 11 years. Despite the fact that we were market economy and had many economic ties, "said Answering Macedonia's representative's questions about this country's chances of EU membership after almost 20 years of waiting. He acknowledged that the process of joining new countries is a challenge for the EU officials, who also have to do their homework, and the EU -expanded EU could work. After all, when six or even more states join the EU, it will make it a new reality to adapt all procedures to the Towy decision -making system.

Read also: [**Borrel**](#) As it was reported, in June 2022 the European Council granted Ukraine the status of a candidate for entry into the EU. The European Commission has developed a plan of action from sevenkroks that need to be successfully promoted to EU membership in Ukraine.

The European Commission is expected to publish a preliminary assessment of the efforts of Ukraine in June and will include the final conclusions about the progress made in the EU Extension, which will be formed by October.

Ukraine expects that the EU will be able to decide on the beginning of interstate references on Ukraine's membership in the EU before the end of this year.

This allows you to keep the situation under control and get those samples that are interesting for us. Some samples were caught in the Black Sea after their expression. Two trophy tanks reached the seven -meter depth from the Desna River in the Chernihiv region.

Some of the samples were obtained from the locations of Russian units of the named territories in Kharkiv and Kherson regions. The aggressor state of Russia forcibly exports civilian population from the occupied territories of Kherson and Zaporizhzhya regions, including the staff of the captured AAP in Enerгодар.

"It is about people who either deliberately worked on the aggressor or were forced to do. They are told that hostilities will soon begin, that this territory will be fired and bombed, so they will convince to leave and work with the Russians, "Andrey Chernyak said.

According to him, the so -called "evacuation" from the occupied territories of the south of Ukraine used as a screen for carrying out counterintelligence and).

"They(*Sorians — Ed .*)First, they do not want the population to observe their preparation for fighting—that is, these are some counterintelligence. It is also filtration, because, first of all, there is a forced export of the pro -Ukrainian population. And, thirdly, the Russians are afraid of passing in these territories of some guerrilla movement and internal respects, "said Andrey Chernyak.

"The study of their" famous "T-90 tank was amazed. Trophy samples are already armed with our units. It is called "Vladimir", and we will understand why so(Laughs. - at.). I коли ми його дослідили, зрозуміли, що фактично цей танк нічим не відрізняється від Т-72. Система управління, засоби зв'язку іноземного виробництва, запчастини — імпортовані росією. Після того як ми оприлюднили свої висновки й ця інформація отримала широкий розголос далеко за межами України, чимало закордонних компаній, які кладали договори з РФ на поставки Т-90, швидко поскасовували угоди з росією.

І ми, як ніхто інший, прекрасно розуміємо, чому це відбулося. Адже наші офіцери аргументовано виступили з приводу „начиння“ цього танка, показали доказову базу, що це далеко не найкращий танк у світі. Це просто така собікупа дещо облагородженого металу. Ворогу мати щось краще після наслідків дії західних санкцій просто неможливо. Анулювання контрактів для РФ означає втрату мільярдів доларів. Ці гроші не підуть на озброєння російського війська, азначить — не будуть вбивати наших воїнів на полі бою, наших громадян, небудуть руйнувати нашу країну. Здається, непоганий результат нашої діяльності».

За даними слідства, підозрюваний наприкінці 2021 року уклав із Міністерством оборони України договір, на підставі якого зобов'язувався виділити оборонному відомству 30 квартир у будинку в м. Коломия та до квітня наступного року передати для оформлення права власності. За це МОУ перерахувало підприємцю грошові кошти у вигляді авансового платежу.

Однак, підприємець не поспішав із виконанням зобов'язання та уклав додатковий договір про відтермінування до жовтня 2022 року.

Тим часом, після завершення будівництва та введення будинку у експлуатацію, **20 із 30** обіцянних квартир бізнесмен зареєстрував за власною будівельною фірмою, а з них **9** — розпродав приватним особам, отримавши надприбутки.

Встановлено, що внаслідок такої афери Міністерству оборони завдано шкоди намайже **7 мільйонів гривень**.

Наразі вирішується питання про обрання для вказаної особи міри запобіжного заходу.

Крім цього, спецпрокурори вживають заходів з метою відшкодування завданих державі збитків. Так, у ході досудового розслідування на 20 квартир накладено арешт.

За вчинене уродженцю Косівського району загрожує від 5 до 12 років позбавлення волі з конфіскацією майна.

Досудове розслідування здійснюють слідчі Головного управління Нацполіції у Івано-Франківській області за оперативного супроводу Управління СБУ у Франківській області.

Примітка: відповідно до ст.62 Конституції України особа вважається невинуватою у вчиненні злочину і не може бути піддана кримінальному покаранню, доки її вину не буде доведено в законному порядку і встановлено обвинувальним вироком суду.

Andres Fog Rasmusen

The founder of the Alliance of Democracies Foundation, the former NATO Secretary -General Anders Fagrmussen said that Ukraine should win the war because the appropriation of Rosiyia will create a dangerous precedent that China can take advantage of. About Tsevin said , відкриваючи Копенгагенський саміт демократії.

«Давайте подамо гучний і чіткий сигнал із цього саміту. Свобода переможе, босвобода є. Незважаючи на звірства самодержців, деспотизм диктаторів, тоталітаризм тиранів, ми все ще бачимо надію. Ми бачимо надію у героїзмі українського народу. Це боротьба за майбутнє своєї країни. В Україні питання для всього демократичного світу. Якщо росія зможе отримати територію та встановити новий статус-кво силою, це створить небезпечний прецедент. СіЦзіньпін дійде висновку, що він може просто захопити Тайвань. Лише явнадемонстрація рішучості стримує деспотів. Ось чому ми маємо зробити так, щоб Україна виграла війну, та забезпечити міцний мир», — сказав він.

Нагадаємо, Копенгагенський саміт демократії триватиме 15-16 травня. Головною метою саміту є обговорення стану демократії та сприяння більш тісним економічним, політичним і культурним зв'язкам між світовими демократіями.

" _ for health, dear Ukrainians!_

Three long days - and our warriors, our state become stronger. I am sure - significantly stronger.

We return home with new defensive packages: more new, more powerful weapons for the front, more protection for our people. More political support.

Italy is a good negotiation with George, Ms. Prime Minister. The meeting is quite encouraging. Meeting with the President of Italy.

Germany is Mr. President Steinmeier, a meeting with Mr. Chancellor Olaf Scholtz - especially meaningful for our defense.

In addition to Berlin, Aachen also visited. He was at the military base, inspected the "leopards", inspected "Marders", thanked our soldiers who train Nanimetskaya equipment.

On behalf and in honor of the Ukrainian people received a significant European name in Aachen named after Karl the Great. For the first time in the hall where the laureates are honored, the Ukrainian language sounds in speech. Ukrainian will be one of the official language union, I am sure of this.

France is a meeting with Mr. Macron President, long, useful negotiations. There is a new military package. Powerful. There are new political arrangements.

The United Kingdom is a meeting with Richa, Mr. Prime Minister Sunak. Defense is important British leadership in military coalitions.

Before the international measures, which are planned for the near future, are coordinated in the way: before G7, a summit in Vilnius.

All meetings discussed our formula of peace, and now there are more partners willing to go by the Ukrainian formula. There is more support for our ENV accession, more understanding that Ukraine's accession to NATO will be inevitable.

I thank Italy for its help in protecting the lives of our people - from protecting the sky for the preparation of full reconstruction of Ukraine after the fighting.

I thank Germany for the largest defense package - 2 billion 700 million euros. Iris Air Defense systems of various modifications, missiles for them - many, guns, shells, armored vehicles ...

In addition, Germany will support our country for a long time - there are 11 million euros, purely defense. Plus Germany is involved in the European Peace Fund, which enhances our protection. I thank Britain for the arrangement of our pilots. We create a coalition for training pilots on modern Western aircraft. Britain - yes, Poland - yes, and I am sure that France, other partners will connect. We continue to work on a coalition of fighters, we are actively moving. Of course, thank you for Long-Range opportunities for our warriors, for their range.

So, the main results for these days - a new weapon for Ukraine, honor of D - Ukrainians, our victory was made closer.

And we will add support! I know it. I believe in this.

Glory to all who are in battle for our country! Glory to all who help! Glove, who trains our fighters!

_ Glory to Ukraine!_ " - said the President of Ukraine.

Заяву про поставки Україні далекобійних ударних дронів прокоментував в ефірі телемарафону «Єдині новини» Юрій Ігнат, речник Командування Повітряних Сил. Він зауважив, що західні партнери надають інформацію дуже обережно, жодних подробиць не повідомляють, аби не дати

можливості ворогу зробити певний аналіз. Тож і українці повинні бути солідарними із такою позицією.

— Звичайно ударні дрони — це потрібна зброя. Без них в умовах сучасної війни — ніяк. Усі бачать, наскільки широко вони застосовуються і будуть застосовуватись. Окрім далекобійних дронів, нам необхідні далекобійні ракети, такі, як Storm Shadow, про які було заявлено напередодні.
