About it [informs](#) Coordination headquarters of prisoners of war.

Information on participation in any eye or correspondence events initiated by the Russian side, representatives of Ukraine is not true. Such anons and statements are intended to discredit Ukrainian officials.

Similar provocations are a form of enemy IPSO. Under the cover of a humane goal, they are really called to duplicate the work of international organizations that the aggressor country does not allow the places of keeping prisoners and civilian hostages, and the deported children.

We urge the Russian side to fulfill the Geneva Conventions, to ensure the refined and complete access of representatives of the International

Committee of the Chervonoro -Rrest to the places of detention, not to engage in pseudo -initiatives for the purpose of propaganda.

The work that the coordination headquarters conducts to liberate all our citizens of provocative captivity is carried out in a closed mode and does not involve the participation in this process of unparalleled persons.

The efforts of representatives of the aggressor state to attach Ukrainians to the so-called "humanitarian" measures or missions are only another act of Russian propaganda.

President Vladimir Zelensky notes that the fixation of the results of the aggressiveness, which Russia has solved against Ukraine, should take place in a diplomatic way, but only after the withdrawal of all Russian troops from the territory of Ukraine and the presentation of partner countries.

The Head of State stated this during a joint with the leaders of Moldova, Slovakia, Slovenia and Croatia of the press conference as a result of the Buchan Summit, which was in Kiev.

"It will be a fixation of the end of the war. But only at the big table will decent states and a representative of the Russian Federation. I am very strong to tell who at that time will be a representative of the Russian Federation, who without a fight will be released all troops from our territory. Then the diplomatic format begins. But by force we will knock them all to the end, then there is no such people to speak with such people. Because we will lose people will be a lot of casualties. About what then to talk to these people? They must be isolated, unclaimed, "the President said.

Volodymyr Zelensky recalled that Ukraine proposed the formula of peace with a superstily specific sequence of actions that would lead to the end of the war.

"Because we want peace. And all that we are talking about when we are going is Ukraine's support. We do not support the war, we support the victory, it is the result. We support peace," he said.

According to the Head of State, the statement that Russia intends to place nuclear in Belarus, indicate that the results of the Russian leadership with the leadership of China are unsuccessful for the Russian Federation.

"It was necessary to show some subjectivity that Russia, under the direction of Putin, has completely lost. The second is that the President of Russia needs to show a political steps or victory. And he could not do this on the battlefield. They started this bloody war, but it is clear what he would become," Volodymyr Zelenskyy explained.

Answering questions about the dialogue with the head of the Chinese People's Republic, Xi Jinping, the President noted that today it is important to attract as many countries as possible, including those who do not have a clear position on the support of Ukraine in the war.

"Україна є життєво важливим випробуванням нашої спільної рішучості протистояти неспровокованому залякуванню та агресії. Це також життєво важливе повідомлення для всього світу – далеко за межами безпеки Європи – де інші союзники та партнери стикаються з постійними, а іноді й екзистенційними загрозами з боку державних і недержавних учасників та прокси сил", - відзначив він під час Глобальної конференції командувачів повітряних та космічних сил, яка відбулася у 2022 році.

The present-day terrorist state began to preside in the UN Security Council, and yesterday the Russian Army appeared another Ukrainian child.

About it in your President of Ukraine Volodymyr Zelenskyy said, Ukrinform reports.

_ I wish health, dear Ukrainians! _

He signed two decrees on sanctions against those who work for Russian aggression.

These are officials of the aggressor state, its MIC-hundreds of companies-and collaborators. There is more than 650 new sanctions.

The NSDC will continue this work. And none of those who help terrorists work, supplies or produces weapons for terror - none of the responsibility.

Blocking of terror accomplices, isolation of a terrorist state, its defeat and judicial processes are what awaits everyone who has begun and wages a war against Ukraine in international order.

By the way, this week, Switzerland joined the tenth sanction packet.

This is important when the states that are neutral in the military-political sense, they still take a clear moral position to Russian terror, to the destruction of the Rosiyglobal Order based on the rules.

Only in unity can we maintain peace as the basis of international relations, and I thank Veszerland for the relevant decisions.

He spoke with French President Emmanuel Macron today. Very detailed, an hour. About the situation on the front, about our interaction political, about how we peace in the implementation of the Ukrainian formula of peace. I thank France for unchanged support.

In general, the week has given a number of positive news for Ukraine, for our protection to protect the normal life of all free nations.

Within the framework of the OSCE, work on the first separate international report began to be administered by the violent deportation of Russian children and attempts to be abused by our children.

This crime of Russia is one of the most cynical and anti-human crimes of our time.

Russia commits it systematically and calculated, at the state level. Systemic will be responsible for him. Responsibility of Russia as the state and all who are involved.

I thank Germany for the new steps in the defensive support that have been made this week.I thank Canada for financial support, the funds have already been received from the state budget of Ukraine.

I thank the IMF for the new program for Ukraine. The program has been approved. The volume is more than 15 billion. This will help us to protect social stability.

Unfortunately, we also have the news obviously absurd and destructive. Today, the terrorist state has begun to preserve the UN Security Council.

Yesterday, the Russian army killed another Ukrainian child - a five-month-old man, he was called Danilo. From Avdiivka, in the Donbass, with his parents. Parents. Russian artillery ... One of the hundreds of artillery shelling, as a terrorist-terrorist, performs daily.

And at the same time Russia presides in the UN Security Council.

It is difficult to imagine something that proves more fully bankruptcy of such institutions ...

There is no such form of terror that is not yet made by Russia. And there will be no such cause that will stop the reform of global institutions, in particular the UN Security Council, which is obviously ripe - that the terrorist state and any other state that wants to be a terrorist could not destroy peace.

Terrorists must lose, should be responsible for terror, not presented anywhere.

Glory to all who are in battle now!

I thank everyone who helps Ukraine. Who protects the international order based on the rules! Thank you all who save and help save our people after wounds from Russian shelling!

Eternal memory of all adults and children whose lives have taken away terror of Russia!

_ Glory to Ukraine! _

And in this "Livadia" there will still be a unit of the conspiracy name "Convoy". In my opinion, they anticipate the chaos that can cover Russia and those structures that control part of the occupied Ukrainian territory. And they think how the summit will keep their assets in this chaos. That is, such companies are created in the interests of the exclusively religious people who create them, "Chubarov said.

He also noted that the population of Crimea is under pressure from the FSB, which is impossible to weaken.

There is only a member of the OSCE. But there are no tools to force Russia at least to some extent to comply with international law. To speak very honestly, the only tool for influencing the aggressor country is victories on the front. I do not see other effective instruments of influence personally, "Chubarov said.

At the same time, he noted that the Russians who moved to the peninsula understand that Ukraine will be liberated by Ukraine. **Read also:** As reported by Ukrinform, in the intelligence of the Ministry of Defense of Ukraine recently they said that Russian invaders create a PVC in a temporarily occupied Crimea within the preparation for hostilities on the peninsula, but more - for the sake of personal safety and to ensure the inviolability of looted property.

The present-day terrorist state began to preside in the UN Security Council, and yesterday the Russian Army appeared another Ukrainian child.

About it in your President of Ukraine Volodymyr Zelenskyy said, Ukrinform reports.

_ I wish health, dear Ukrainians! _

He signed two decrees on sanctions against those who work for Russian aggression.

These are officials of the aggressor state, its MIC-hundreds of companies-and collaborators. There is more than 650 new sanctions.

The NSDC will continue this work. And none of those who help terrorists work, supplies or produces weapons for terror - none of the responsibility.

Blocking of terror accomplices, isolation of a terrorist state, its defeat and judicial processes are what awaits everyone who has begun and wages a war against Ukraine in international order.

By the way, this week, Switzerland joined the tenth sanction packet.

This is important when the states that are neutral in the military-political sense, they still take a clear moral position to Russian terror, to the destruction of the Rosiyglobal Order based on the rules.

Only in unity can we maintain peace as the basis of international relations, and I thank Veszerland for the relevant decisions.

He spoke with French President Emmanuel Macron today. Very detailed, an hour. About the situation on the front, about our interaction political, about how we peace in the implementation of the Ukrainian formula of peace. I thank France for unchanged support.

In general, the week has given a number of positive news for Ukraine, for our protection to protect the normal life of all free nations.

Within the framework of the OSCE, work on the first separate international report began to be administered by the violent deportation of Russian children and attempts to be abused by our children.

This crime of Russia is one of the most cynical and anti-human crimes of our time.

Russia commits it systematically and calculated, at the state level. Systemic will be responsible for him. Responsibility of Russia as the state and all who are involved.

I thank Germany for the new steps in the defensive support that have been made this week.I thank Canada for financial support, the funds have already been received from the state budget of Ukraine.

I thank the IMF for the new program for Ukraine. The program has been approved. The volume is more than 15 billion. This will help us to protect social stability.

Unfortunately, we also have the news obviously absurd and destructive. Today, the terrorist state has begun to preserve the UN Security Council.

Yesterday, the Russian army killed another Ukrainian child - a five-month-old man, he was called Danilo. From Avdiivka, in the Donbass, with his parents. Parents. Russian artillery ... One of the hundreds of artillery shelling, as a terrorist-terrorist, performs daily.

And at the same time Russia presides in the UN Security Council.

It is difficult to imagine something that proves more fully bankruptcy of such institutions ...

There is no such form of terror that is not yet made by Russia. And there will be no such cause that will stop the reform of global institutions, in particular the UN Security Council, which is obviously ripe - that the terrorist state and any other state that wants to be a terrorist could not destroy peace.

Terrorists must lose, should be responsible for terror, not presented anywhere.

Glory to all who are in battle now!

I thank everyone who helps Ukraine. Who protects the international order based on the rules! Thank you all who save and help save our people after wounds from Russian shelling!

Eternal memory of all adults and children whose lives have taken away terror of Russia!

_ Glory to Ukraine! _

About this Deputy Minister of Defense of Ukraine Anna Malyar [wrote](#) In Telegram:

“Finally, since 2014, Ukraine has raised a rigid and legally competent question of the correspondence of the Russian Federation for the war.

Yesterday, during the Buchan Summit of Faces of Justice, dedicated to the discussion of the prosecution of the aggressor state to the comprehensive responsibility of the Ukrainian people and humanity, President of Ukraine Volodymyr Zelensky clearly expressed our state position on this issue.

Three levels of court proceedings are the National, International Criminal Court of Ispets tribunal.

And most importantly, the responsibility of the Russian Federation should be carried out primarily for aggression - as an primary crime.

After all, the main crime committed by the Russian Federation since 2014 is the crime of aggression(Domestic - war).

А воєнні злочини, злочини проти людяності, геноцид — похідні наразі.

На жаль, попереднє керівництво України займало непробачно м'яку позицію щодопритягнення РФ до відповідальності і взагалі не подало нікуди жодного позову чи заяви щодо вчинення РФ саме агресії.

Влада і сама не називала це війною (ATO, OOS)Therefore, we were limited to the statements of the international institutions only on terrorism and war crimes.

In the end, we just spent a few years. And for the investigation of crimes - the cynodes are fatal.

The requirement of Ukraine to create a special priorbun on the crime of aggression of the Russian Federation is a very strong position. Very!

Because since the Nuremberg process, international courts have no longer expelled for aggression.

Only for the derivative of her crimes.

International law and international courts work so poor.

Of course, there has never been enough international political consolidation, and there is always war.

The only thing that was done since 2014 was the forces of brave Ukrainian judges to build 17 sentences for aggression within national justice.

The brave - because legally there was an ATO, and they wrote in the sentences - "aggression" was properly qualified.

At that time, I taught the qualification of crimes in the National School of Judges in zoning actions and was relevant to the development of this approach - how to qualify RFSAM actions under Article 437 of the Criminal Code "Planning, preparation, solving and maintaining an aggressive war".

I remember how many debates in the legal community that could not be contrary to the approaches of international humanitarian law that the subject of the crime is not. Moreover, our judges then made incredible and documented even information operations as one of the signs of war.

And finally, it is not a separate position of bold judges, but a clear and rigid state position of Ukraine.

It's a difficult way. But now he will show well - whether the world is ready to consolidate and punish wars for them. "

The Ukraine -Crucifixion exhibition turned out to be morally complex and honest. It shows the cruelty of the invaders and the destruction they bring. All exhibitors were collected just a few weeks before its opening.

She impressed the Ukrainians and guests of the country. And now it was opened in New York as a meters from the UN. The exhibits are presented on the eve of the UN consideration by the issue of an international tribunal, which will punish Russia for the crimes of aggression.

-It was important for us that the society would see the consequences of occupation, what the dog is "Russian measure", -says Sergey Sudinovich, an employee of the National Museum of Ukrainian History in the Second World War, the Museum of War of the Motherland. —All, on May 8, 2022, we opened an exhibition "Ukraine-Crucifixion" in Ukraine. The expeditions of the museum staff were organized to the liberated points-Irpen, Bucha, Borodyanka, Makarov, Gostomel, etc. The Russians left many personal belongings, shoes, broken equipment, ammunition, dry -ups ... Some exhibits were handed over by representatives of the main intelligence department.

[!\(Images/APMIRINFORM/2023-04-01T72-00-00-04-00/dsc01569-150x150.jpg\)](https://Images/APMIRINFORM/2023-04-01T72-00-00-04-00/dsc01569-150x150.jpg)

Sergey Svininovich shares that visitors could not contain emotions, considering the exhibits, many tears appeared in many minutes. However, this is the truth of today. Therefore, the fact that the exhibition is shown abroad is extremely important.

One of the key exhibits was the exact copy of the bomb shelter in Gostomel, and many locals, including children, were devoured. Thanks to the authentic vents, the atmosphere was restored as accurately as possible.

Nowadays, the museum staff are preparing new exhibitions dedicated to the heroes of Ukraine who have received their lives, protecting the country.

President of Ukraine Volodymyr Zelenskyy said During his video address:
“I wish health, dear Ukrainians!

He signed two decrees on sanctions against those who work for Russian aggression.

These are officials of the aggressor state, its MIC-hundreds of companies-and collaborators. There is more than 650 new sanctions.

The NSDC will continue this work. And none of those who help terrorists work, supplies or produces weapons for terror - none of the responsibility.

Blocking of terror accomplices, isolation of a terrorist state, its defeat and judicial processes are what expects everyone who has begun and wages a war against Ukraine in international order.

By the way, this week, Switzerland joined the tenth sanction packet.

This is important when the states that are neutral in the military-political sense, they still take a clear moral position to Russian terror, to the destruction of the Rosiyglobal Order based on the rules.

Only in unity can we maintain peace as the basis of international relations, and I thank Veszerland for the relevant decisions.

He spoke with French President Emmanuel Macron today. Very detailed, an hour. About the situation on the front, about our interaction political, about how we peace in the implementation of the Ukrainian formula of peace. I thank France for unchanged support.

In general, the week has given a number of positive news for Ukraine, for our protection to protect the normal life of all free nations.

Within the framework of the OSCE, work on the first separate international report began to be administered by the violent deportation of Russian children and attempts to be abused by our children.

This crime of Russia is one of the most cynical and anti-human crimes of our time.

Russia commits it systematically and calculated, at the state level. Systemic will be responsible for him. Responsibility of Russia as the state and all who are involved.

I thank Germany for the new steps in the defensive support that have been made this week.

I thank Croatia for the next military support package. I thank the Northern Management for the decisions on helicopters. Slovakia, Slovenia.

I thank Canada for financial support, the funds have already been received from the state budget of Ukraine.

I thank the IMF for the new program for Ukraine. The program has been approved. The volume is more than 15 billion. This will help us to protect social stability.

Unfortunately, we also have the news obviously absurd and destructive. Today, the terrorist state has begun to preserve the UN Security Council. And at the same time Russia presides in the UN Security Council.

It is difficult to imagine something that proves more fully bankruptcy of such institutions ...

There is no such form of terror that is not yet made by Russia. And there will be no such reason that will stop the reform of global institutions, in particular the UN Security Council, which is obviously ripe—that the terrorist state and any other state that wants to be a terrorist could not destroy peace.

Terrorists must lose, should be responsible for terror, not presented anywhere.

Glory to all who are in battle now!

I thank everyone who helps Ukraine. Who protects the international order based on the rules! Thank you all who save and help save our people after wounds from Russian shelling!

Eternal memory of all adults and children whose lives have taken away terror of Russia!

Glory to Ukraine!"

About it [reports](#) GUR of the Ministry of Defense of Ukraine.

The occupying troops of the Russian Federation were unable to achieve any of the strategic goals that were set in the Kremlin before. The representative of the GUR of the Ministry of Defense of Ukraine stated this in the air24 of the channel.

"Currently, Ukraine sees the apogee of this campaign, called" A New Russian Guard. " However, it is worth reminding Ukraine and the world that we have been wearing in a full -scale invasion of February 24, 2022. It is an attempt to demoralize Ukrainian society, as well as demoralize our partners and allies, they say, there is such an armada, which is for them more to assist, "Andrey Yusov said.

According to a representative of the military intelligence of Ukraine, within the framework of their so -called "big offensive" the Russians could not fulfill the task of Putin "take Donbas to the end of March."

"The regular terms and tasks that Putin set in front of the occupation building in Ukraine, in particular, before Valery Gerasimov after his appointment is responsible for the war in Ukraine," said a representative of GUR MUUKRA.

He also added that the results of the "big offensive" can be seen on the battlefield - the number of liquidated invaders and military equipment has increased.

"This means that none of the voiced strategic goals of this shameful war, which the Russians call their, has not been achieved and will be achieved," - emphasized the Pandius Yusov.
