The Minister of Defense of Ukraine Oleksiy Reznikov thanked Australia for military development for official Kiev and called on Canberre to join "tank coalition" .

Про це глава українського оборонного відомства написав Utwitter.

"Throughout history, you have repeatedly argued that the Australians are a nation of freedoms who always oppose the bully. You are 15 thousand kilometers, but are close to our common values and willingness to protect them. Therefore, in the first month of the Russian aggression, Australia was the largest contributor of Ukraine, "Alexei Reznikov said.

He added that Australian armored personnel carriers Bushmaster are incredible in real -like operations. However, the Ukrainian struggle for global freedom is still unfinished, and Kiev still needs Australia support.

"I urge you to join the international" tank coalition "today. In addition to the tanks, we would be honored to get Australian armored vehicles. They could be invaluable for our troops during the contrast, "said Alexei Reznikov.

At once, three army jumps in height started last evening on the more commercial competitions in athletics in the capital of Morocardabat: Yaroslav Maguchikh, Irina Gerashchenko and Yulia Levchenko.

Of course, the main favorite of the start was Yaroslav Maguchikh, who today is a world rating and the author of the best result of the season in the world.

Competition to Ukrainian army in the sector for jumps made Angelina Topichz Serbia, Nadezhda Dubovitskaya from Kazakhstan.

Yaroslav Maguchich missed the starting height - 1.81 m. Irina Gerashchenko took her first attempt, Yulia Levchenko - from the second. The next one - 1.87 m - Gerashchenko and on the first attempt, but Levchenko did not obey, and Julia cease to be aware.

When the judges raised the bar to a height of 1.91 m, the sector appeared in the sector. And the rest of the participants did not cope with this height, and it became clear that the Ukrainian nitrogen would play with each other "gold" and "silver".

The next height of 1.95 m Maguchi took on the second attempt, Gerashchenko failed to submit it at all. So, Yaroslav became the winner, but not stopped. Staying in the sector in solitude, Maguchi declared herself a height of 2.01 M. from the first attempt of Yaroslav easily flew over the bar, which caused the swallows of the audience. Satisfied with the result, the army stopped performances.

Winning the stage of the Diamond League, Yaroslav Maguchi shows the outstanding result of the season in the world. Yaroslav remains the only athlete of the Svita, who jumped 2 meters and higher in 2023.

By the way, last year the army also won the stage of the Diamond League in Rabat.

The FSB agent was detained during a special operation in Zaporozhye. Under his aiming, the Music invaders made a series of rocket strokes around the city in April Tatrava of this year. Then 3 locals were killed as a result of

enemy shelling. 30 private homes were also destroyed and one non-industrial enterprises of the region were damaged. The attacker is threatened with life imprisonment.

About it [reports](#) Security Service of Ukraine.

According to the investigation, the hostile associate was a passionate supporter of communism, who in 2001 received 6 years in prison for planning the coup of the state in Ukraine.

After his release, he entered the local branch of the forbidden Communist Party and in 2015 was a deputy of the Zaporizhzhya City Council for almost half a year. He was also a one-time participant in the Protective Organizations of the Union of Soviet Officers and the Immortal Regiment.

At the end of 2022, he was recruited by the FSB personnel employee for exploration and subversive activities against Ukraine. For the execution of hostile goods, the Russian agent has formed its own informational network. It was stored for the former "one-party" person who lives in Zaporozhye. Through it "in the dark" he received information about the current industrial enterprises and technical condition of critical infrastructure.

Then the traitor personally went to the terrain and conducted a hidden photo and ideo-fixation of Ukrainian objects. The received information transmitted the Russian Federation for the preparation of air attacks in the territory of the region. After the enemy, the nobleman "reported" on their consequences to the FSB.

During searches at the place of residence of the detainee, mobile phones, which he used to communicate with the Russian special service, were found. He also has a large number of prohibited communist symbolism.

On the basis of the evidence of the person, the person was informed of the suspicion of the state-owned state, committed in the state of martial law. He is currently in custody. The investigation is being investigated to establish all the circumstances of the crime.

Last Sunday, the traditional 20km de bruxelles ranks took place in the Belgium capital, which was attended by thousands of running supporters.

Representatives of Ukraine-veterans of the Russo-Ukrainian war Roman Kashpur and two Yuri-Kozlovsky and Cintilevich-were also the middle of the marathon river.

In 2019, a serviceman Roman Kashpur lost his leg on the front, but did not lose his desire to live, despite the war caused by war, a fulfilling life. He was

helped by sports. "Don't give up, don't lower your hands! Get up, find yourself, search is a rehab, " is a veteran's life credo.

Kashpur-a participant and winner of the All-Ukrainian competitions of the Project "Game of Heroes" in 2021, the record holder of Ukraine in the nomination "Drawing of the An-26 aircraft(16 tons)a person with disabilities. " This year, Roman was already running a full marathon distance. On April 23, he defeated 42 kilometers of London Marathon. Kashpur became the first in the war -meter of war to run this marathon.

Another participant in the Brussels race, Yuri Kozlovsky lost his foot in 2016. He also a participant in the competition of Invictus Games, Hero Games, Murf Challenge, was elected to the Ukrainian national team of the US Marine Corps.

In 2014, the third participant in the 20-kilometer race was in 2014, defending the Lugansk airport. He worked a lot and fruitfully to recover, and he succeeded because of his annoying nature.

At the 20KM de Bruxelles press conference, our veterans have given hope that they will inspire other defenders who are in a similar situation in the Brussels marathon.

"We thank the veterans who selflessly defend Ukraine and Europe from the over Russian aggression," said the volunteer of Promote Ukraine and the initiator of the visit of Ukrainian veterans to Brussels Jan Brovdi. "We are trying to provide them with support and the help needed to return to civilian life the difficulties they face during their service."

Funds from the participation of Ukrainian veterans in the Brussels race will receive a supportive Foundation "Citizen", which helps military personnel in Ukraine, organizes their prosthetics.

The Russians also wage a psychological war, whose task is to undermine the psychological stability of Ukrainians and unity, since these two factors of resistance are important.

On this emphasizes Deputy Minister of Defense of Ukraine Anna Malyar.

She explains that the Russians do it military and information methods.

"For example, launching rockets in civilian sites in the center of Kiev is a weapon used for psychological purposes. First of all, to intimidate. Kiev for Ukrainian is not just the capital, but a symbol of indomitability and resistance. Therefore, to hit Lyev for the enemy is to show the vulnerability of our symbol of stability. The enemy is subconsciously the impression of the defenselessness of the capital, "Anna Malyar said.

She also added that a few hours before the next missile attack on Ukraine, the invaders launched an information and psychological attack for the next discrediting of Ukraine.

"The enemy beats those who have the trust of citizens. For what? Just like with rockets in Kiev - to sow a sense of defenselessness, "Hannamaars said.

According to the Deputy Minister of Defense of Ukraine, a large -scale war shows a funny property(uncomplicated)They have no fear.

Ukraine, in her opinion, has already proven to the world, which she can win in this case with the support of the Transatlantic Family.

According to Kai Callas, the sooner Putin understands that he does not reach his goals, the sooner this war will end.

Our power is unity, and Russia's strategy is to destroy this unity. It has to make a cycle of Russian aggression. To do this, we need to exhaust the Russian car and support Ukraine to win. For long-term Vevropy peace, we should end the gray zones in European safety and NATO-NATO-NATO-NATO-NATO,-said Estonia Prime Minister.

I thank Ms. Kaja Kallas, with whom I was able to personally meet the support of Ukraine during a visit to Estonia, for her leadership, advocacy and perseverance in the approach of victory and implementation of the Euro - Atlantic work of the Ukrainian people, - said Elena Kondratyuk.

The Rivne Regional Prosecutor's Office sent an indictment to the court for two residents of Donetsk region. One of them is charged with state treason and the other is the expansion of information on the location of the Armed Forces units committed in the conditions (Part 2 of Art. 111, Part 2 of Art. 114-2 of the Criminal Code of Ukraine).

Слідством встановлено, що жительку Краматорська завербував представник спецслужб РФ. На виконання завдань свого куратора жінка коригувала вогоньокупантів. Вона регулярно через месенджер повідомляла співробітнику сил спеціальних операцій головного управління генерального штабу ЗС РФ інформацію щодо результатів та місця ракетних ударів, завданих ворогом по населених пунктах Донеччини.

Вона також передавала дані про місця дислокації, рух, кількість особового складу та техніки ЗСУ для подальшого їх артилерійського обстрілу.

Обвинувачена усвідомлювала, що ця інформація буде використана ворогом для подальшого проведення розвідувально-підривної діяльності на шкоду інтересам тадержавній безпеці України. За це агресор, у разі захоплення регіону, гарантував їй керівну посаду в окупаційній адміністрації.

У цій діяльності обвинувачені допомагала подруга, теж жителька Краматорська, яка в силу своєї професійної діяльності володіла інформацією про місця дислокації ЗСУ.

Обидві прихильниці «руського міра» наразі перебувають під вартою.

The CEO Rafael Grosssey has formulated five nuclear security principles, which, he said, will help guarantee the nuclear security of the Nazaposhi NPP.

According to Ukrinform in New York, he announced their insertion during a meeting of the UN Security Council on the ZPP situation.

According to Grossi, he defined these principles on the basis of "intensive consultations" with the leadership of Ukraine and the Russian Federation.

First of all, "there should be no attacks of any kind from the territory of the station, in particular, aimed at the reactor fuel storage," he said.

Estonia Prime Minister Kai Callas, at a meeting with the Ministry of Foreign Affairs of the UK, James-Markleverli in Tallinn, discussed Russia and its reference for aggression and war crimes, expectations from NATO's summit, and bilateral cooperation.

About it reports Ukrinform with reference to the Estonian broadcaster [ERR](#) .

"A stable world is impossible without a world order, which is based on respect for territorial integrity and sovereignty. Also in order to interrupt cyclicals by [Russia](#) , it is necessary to bring the country's management responsible for the crime of aggression. No one is uninvited, "said the head of the Estonian government.

She stressed at the meeting that the war unleashed by Russia should end with the impression of the aggressor. At the same time, the best factor in Russia's restraint is strong and membership in the Alliance. "Our region - there is a confirmation. In order to take care of gray zones in Europe, which are constantly serving a source of conflict, it is necessary that Ukraine joins NATO after the war. In Vilnius, Ukraine needs a positive signal in this direction, "Kallas said.

According to her, real collective safety means that the contribution of all allies to their defense capability should increase to a level that allows the effective consumption of defense and restraint throughout the Alliance and the opposition of dangers. "In order to put into place agreed steps to strengthen and continue to support Ukraine, it is very important to carry out in Vilnius an agreement that the costs of all allies for defense will immediately grow up to 2% of GDP and continue to increase to 2.5% by 2030. Estonia has already decided to raise its investments in state defense to 3% of GDP, "said Pryemier -Minister.

Ukraine is certainly not related to the attacks of drones on Moscow, because our country does not need to be done.

The adviser to the head of the office of the Office President Mikhail Podolyak informed about it in the only newsphone, answering the question whether these blows can have strategic importance, Ukrinform correspondent reports.

“Of course, Ukraine is not relevant. We do not need to do this, we have enough important tasks for drawing large -scale blows, using scarce weapons, including rockets and drones, in the occupation. Secondly, we are

much more concerned about the blows that Russian -bearing in our capital, "he said.

According to him, any strokes, the number of which is significantly increased in the internal space of the Russian Federation, are not strategic for Ukraine. "But this is of strategic importance for other purposes. And I will say that these attacks drones, especially rubles, showed several things," - said the adviser to the head of the OP.

He noted that these drones are small, and they would fly a short distance.

"I will remind you that on May 9 were(Accepted - ed.)Some decisions to ban the use of drones, drones in the Central Federal District. But forgive that they are quietly from the Moscow region or from any other Bolsoma Muscov region and went quietly to Moscow. And what(They are the ed.)They showed - absolute technical clumsiness of Russia today, "Podolyak said.

According to him, neither the "shell" nor the rebuke - nothing works, and it is a shocklose political elite in particular.

Answering the question of what in the political context can lead to the Russian oligarchs and deputies saw this technical clumsiness, he expressed a thought that, rather(For all - order.), this will accelerate the final depositization of the President of the Russian Federation Vladimir Putin and his immediate surroundings, which for some time for this elite seemed like the titans on which everything is held."Because mobilized understand that even if nothing is unconscious in the center of Russia, it is certainly in the war that they just live meat that will be used to delay the advance of Ukrainians for a while," the Podolyak said.

He said that a few things are obvious to Russia's political elite, and one of them is that no one controls anything.

According to him, representatives of the political elite of the Russian Federation will not return in the pre -war and will not be able to come to the

award of the Grammy Prize and, as if it were unprecedented, sit next to representatives of the global cultural elite, will not be able to buy assets in other countries and so on.

"But at least they now think about how to protect yourself from the absolute obvious, which will be in a very nearby future, you know, this is a" crazy Russian rebellion, " - said the adviser to the head of the OP.

The University of Hague, the Zorgvliet residential district, conducted a support for Ukraine - a pedestrian and bicycle area near the buildings of the Russian Embassy in the Netherlands "Glory to Ukraine".

According to the Ukrinform correspondent in the Hague, therefore the Dutch is to demonstrate their solidarity and support for Ukraine, where everything brings up a cruel full -scale military invasion of the Russian Federation.

"As you can see, there are buildings of the official representation of the vibrant regime, which is the Embassy of the Russian Federation. And we thought that it would be good in solidarity and support to name this small lane, located next to the Russian Embassy, which has no name now -to predict it to the Glory to Ukraine lane. Laantje in the Dutch means a lap, a small lane. So it was our main idea. We are a Hague city, but we are also the Netherlands citizens. And as you know, the Netherlands is actively supporting, let's call it the Anti -Putin Alliance. And they were aware that it could be a good gesture right now, after a visit to the Netherlands. We are proud of what they have done. I mean it is a sign of support for Ukraine and its people and, if you say, its armed forces. This is very important," said in a comment to Ukrinform Dutch Dzheims de Buh, one of the initiators of the action. "Hundreds of children go this little street every day, as there are many schools. They go bicycles and walk this lane to schools and sports sites. And we would like to be reminded of them every time, however, that they and we are privileged to live here, in the Netherlands, where there is no war," the activist said.

Two Ukrainian women were invited to the opening of the name "Glory of Ukraine".

"When there is a Glory of Ukraine Sign in Hague, it is a very large signs of solidarity, a sign of support. Of course, it would be best if the Russian police

received a mail or ordered something to "Glory to Ukraine" - a Tsebul would be perfect, but this is the next step, "Bun said.

In her turn, the Ukrainian Olga King, who was in Ukraine in Ukraine in Ukraine, said that for Ukrainians who were forced to leave their own homes, the Glory of Ukraine is a small victory.

"I think I will now say from tens of thousands of Ukrainians who are now in the Netherlands because of the war, that it is a small victory. Seeing Russian Glory to Ukraine is a sense of filling and inspiration. Mandicity with gratitude to the Dutch community that supports us. It is necessary for "Glory to Ukraine" to sound everywhere with the words "We won", -the king added in a comment to Ukrinform.

The Glory of Ukraine Sign was established within the framework of the action organized by the residential area of the Zorgvliet. There is no guarantee that the Glory of Ukraine will remain after the action, as the city authorities are considering such requests by the requests who hope that their initiative is supported at the official level.

"We have received permission to hold this event, but we do not have the official permission of the street. And for that I will speak the representatives of the city authorities, "said Dutchman James de Buh, one of the rally.As reported by Ukrinform, in 14 countries in solidarity with Ukraine, they have pronounced or named in honor of our country a total of about 20 streets of Ipoloshch.

China believes that Russia did not win the war, so it was playing a game on Russian aggression in Ukraine.

This opinion was expressed by the Russian opposition politician Harry Kasparov in [interviewed](#).

He noted that the PRC has ancient territorial claims to Russia, so the Bezzakin in the light of the defeat of Russia in Ukraine opens "much interesting perpetrator".

"As for me, China He plays a game that brings with him a historical perspective. Of course, in the initial stage, the mitigates would be interested in the victory of Putin, as it would open the way to Dalavan, and would be the defeat of the event and the success of the forces of totalitarianism and tyranny.(China leader - ed.)We have been aware that Russia did not win the war, and any other result opens other opportunities before, "Kasparov said.

According to the chess world exchmpion, China is interested in the conflict today, as it weakens both Russia and the West.

According to him, China is the only country that has territorial printing in Russia, based on treaties of the XVII and XIX centuries.

"Chinese historiography has always argued that the Russian Empire has selected 1.5 million km km in the territory, which in area as two and a half of Ukraine - cetering from Vladivostok to Baikal. Unlike Putin's fantasies pro - Ukraine, these are real maps, contracts signed between China and Russian kingdom in 1689(Nerchinsky Treaty - Ed.)and later - in 1860(Beijing Treaty - Ed.)", - Kasparov emphasized.

He added that from the point of view of Xi Jinping, perhaps the collapse of Russia in a protracted war "opens the way to much more interesting prospects than the war for Taiwan."

Concerning the issues of peacekeeping efforts of others in the Russian-friendly Ukrainians-Hungary and Brazil-Kasparov expressed the opinion that in the first case there would be corruption, and in the second-anti-Americanism, which is common in the countries of the called global south.

The MVFF mission of the expectation of a more powerful economic recovery in Ukraine has improved the forecast of the Ukrainian GDP of Ukraine to "plus" 1-3% in the conditions of war.

This is stated in the first viewing of the EFF program for Ukraine, which has received on its disposal.

"A more powerful recovery is expected(in Ukraine - ed.)because the economy adapts to the conditions of war. IMF experts have increased the ratio of realistic GDP for 2023 to the range of 1-3% (The previous range fluctuated 3% to 1% from the minus, "the document noted.

At the same time, it is noted that the forecast remains very indefinitely due to the fighting.

However, serious problems remain.

In particular, the budget deficit still has a very high level, which entails reservation needs for significant funding, which is still covered by foreign grants and very preferential loans. At the same time, providing the main function of the state in financial restrictions will require complex political compromises from the authorities. "It will be crucial to cancel the amendments to the legislation for the promotion of revenue in connection with martial law- if it is appropriate- with a recent avoidance of new measures that can reduce taxation," the fund said.

At the same time, it is stated that despite Russia's firing critically important infrastructure, the Ukrainian economy has demonstrated extraordinary sustainability.

"Economic activity in the first quarter has recovered significantly, since the energy system was quickly restored after attacks," the IMF said, in addition, it is noted that Ukraine stabilized in Ukraine, A inflation has begun to decline significantly.

"In accordance with the goals set out in the first stage of the EFF program, the authorities use the important steps to strengthen fiscal, external and financial resistance," the IMF emphasized. "The constant implementation of structural reforms within the program(Eff - order.), including the state administration, the fight against corruption and the management of state investments, will strengthen the institutions and will lay the basis for a powerful and sustainable growth, "the fund emphasized.

More than 15,000 applications have already been entered in the registration and destroyed property.

About this Prime Minister of Ukraine Denis Shmigal [said](#) At a government meeting, Ukrinform reports.

"We are continuing the Program for the repair of damaged property is a resolution. Today, more than 15,000 applications have been submitted today,

the regions are actively creating the commission to consider applications from the owners of damaged real estate. Therefore, we refine the details for the program to act as effectively as possible for our citizens, "said [Shmigal](#) .

According to him, now those who do not have an action or smartphone will be able to receive a application for repair work. It will be necessary to contact the CNAPABO to the body of social protection in their community, and there will help fill in the application.

"We detail the question of challenging the actions or omissions of the commissions, which, in fact, are engaged in examination of damaged property. Also, for consultation, the programs can be renewed for a government hotline at 15-45, "the head of government emphasized.

He recalled that the authorities promised that helping to 200 thousand hryvnias to repair damaged property would only be the first step in a major housing recovery program. "After all, thousands of Ukrainian families have completely lost their days. There are many cases when there is simply nothing to repair. Therefore, the second stage of the program is a restoration. This is compensation for the destroyed housing. Now we approve the resolution and the formula for which the corresponding compensation will be paid, "he emphasized.

The Prime Minister said that the money can be spent on the construction. In this case, the payment of funds will take place directly to the account. Also for the purchase of an apartment, other housing with a housing certificate.

"The amount of compensation will be calculated by a special formula commission, how to calculate the region of the location of the destroyed object, the year of construction, the object of the object, etc. We also provide for the principle that the amount of compensation is not less than the cost of housing construction of the corresponding area according to its location, "the Prime Minister said.

The Ministry of Infrastructure is explaining all the details and payments. As reported by Ukrinform, on May 19, Shmigal stated that the Cabinet of Ministers was preparing for the stage of payment of compensation to Ukrainians for destroyed housing, which is not repaired.

Currently, the visas are undergoing physical and psychological rehabilitation by several dozen Ukrainians, but the main goal of Israeli specialists is to convey the experience that all the necessary assistance could be received from the war in Ukraine.

The Ambassador of the State of Israel to Ukraine in Ukraine Brodsky said this in a comment to the correspondent of Ukrinform during the Ukrainian-Israeli Rehabilitation Summit to Lviv.

"We have accepted several dozen Ukrainian for psychological and physical rehabilitation, including military and civilians. In addition, we gave free training courses for hundreds of doctors, rehabilitators, social workers and psychologists from Ukraine. And thousands of specialists in these people were able to get training online. After all, our main goal is to not get everyone who needs rehabilitation to [Israel](#), and teach to do it here. We have a mod, which is not yet in Ukraine, but it is a matter of time," - said Bredrodsky.

One of the Ukrainian defenders who received the assistance from the rehabilitation of Vizrael is the volunteer from Odessa Oleg Vozhik, who served in the 72th Brigade of the Black Country. He was injured in Bakhmut in July last year, when he dizzy rescued his brothers.

"The leg was amputated immediately in Bakhmut, because it was no longer possible to save. Subsequently, he was in the Lviv Rehabilitation Center and I was already informed here that Ezmog to go to Israel. And I agreed. Because I have a very high amputation and Tutmeni could install a rather heavy prosthesis, which is not conveniently attached, but tamped a special option for me, which is easy, quickly attached and echoed," Vozhik said.

The Ukrainian Casteron considers the wrong decision of the EU to introduce a ban on the import of Ukrainian agricultural products to five EU countries, which are the neighbors of Ukraine, and proposes to seek market solutions for this problem.

The Minister of Agrarian Policy and Food of Ukraine Mykola Solsky stated this in Brussels in Brussels during the communication with the press in the results

of the non -formal working lunch within the EU Council of Ministers for Agricultural Economy and Fisheries.

"Today we had a meeting with many ministers and representatives [European Commission](#) . We have outlined the prohibition of import of Ukrainian agricultural products after June 5. We are against it, this is not a good way, "the Ukrainian government officer said.

Read also: [Solsk D discussed with the Croatian Minister of Exports of Ukrainian Agro -Production](#) He noted that within a few weeks after the prohibition on imported EU countries, there were huge difficulties with the functioning of the Black Sea Grain Corridor caused by Russia's actions, due to its Ukrainian side could not load the vessels with grain for decades.

"We are very grateful to our Turkish partners and united nations, as well as to all partners for the opportunity to continue this corridor for another few months. At the same time, we understand that the Russians carefully monitor the situation, they try to take advantage of it. We do not want to give them can use this, "Solsky said.

Answering the question of Ukrinform correspondent, the Minister explained that there will be no existing restrictions on Ukrainian agrarian imports until at least 5th, and this will not be a good idea to continue them in the future. This applies to the first place, such crops as sunflower seeds, corn, wheat and rapeseed. The Minister recalled that Ukraine actively traded rapeseed seeds with EU seed . At the same time, Solsky emphasized that the Ukrainian side is as interested in finding a constructive solution."Countries that have introduced these restrictions(Poland, Slovakia, Hungary, Bulgaria Irumunia - ed.), they are our partners as much as possible, so we try to find the right solutions. We understand this pressure on farmers last year. There is no ideal decision, but the decision to continue this ban is a tsenigri decision that may be, so we need to look for other options ... Prohibition will only be an increase in problems, because it will try to use Russian in their interests, To provoke a weakening of unity in Europe. It cannot be allowed. We will let us know as frankly as possible about each other, "the Ukrainian official said.

As it was reported, the EU Council has just approved the continuation of the duty -free trade between the EU and Ukraine for another year, until June 2024. These regulatory rulers come into force on June 6 this year.

At the same time, the blockade of the Black Sea ports by the Russian Federation has led to a slim increase in the volume of transportation of Ukrainian grain and other farm goods with land, due to the "corridors of

solidarity" on the border with neighboring countries, which significantly affected the domestic market of these countries and caused protests from local farmers.

On April 28, the European Commission agreed with the four neighboring countries of Ukraine - Bulgaria, Hungary, Poland and Slovakia - a package of measures that the avanged after the mentioned countries have abolished their sole actions of anti -agrarian imports from Ukraine. This package limits imports into the territory of the aforementioned countries, as well as Romania, four key products from Ukraine - wheat, corn, rapeseed and sunflower seeds, although it preserves the possibility of transit of goods to other EU countries and the world market.

Former Ukrainian football player and coach Andriy Shevchenko organized personal meetings and charity evenings in support of Ukraine within the framework of ambassadoring at United24.

In May 2022, President of Ukraine Volodymyr Zelensky announced the First Ambassador of the Fandering Platform United24 - he became a legendary Ukrainian football player and coach Andriy Shevchenko, Ukrinform reports.

During the year of activity, Shevchenko has attracted tens of millions of UAH, gave hundreds of interviews, conducted and participated in a number of charitable events, almost all the UNITED24 fees: from ambulance machines for hospitals.

"I saw how much money was transferred by foreigners in the first days of the war and what percent of them reached Ukraine. Through United24, charitable contributions from all over the world immediately get to Ukraine, and this is the most important. For me, the ambassador is, above all, responsibility and pride. And also daily work. During this year, I visited several dozen countries and met a thousand people. They all have different positions: someone supports Ukraine openly, someone makes donations anonymously, someone only reflects on their first contribution and public position. My task is to make all the heels with our country and stay with it for victory and many and many years after, "Andrey Shevchenko stressed.

According to the coordinator of the platform Yaroslav Gres, Shevchenko actually caught ambassadoring in United24.

"At the beginning of the United24, we sent more than a thousand letters to potential ambassadors. However, they received only a few answers - and they are all bewildered. After all, the USBassador United24 is not a one-time post on social networks, apostular work, personal responsibility for meetings,

communication with the press, a large number of events. Shevchenko became the first to answer "yes". He drew the gates of Ambassadorism, and followed by Imagine Dragons, Balenciaga, Mark Hemill and other people who support Ukraine daily in the way of victory. So we are grateful to Andrew for every gathering, every event and a tuelic love for Ukraine, which we feel every day, "Yaroslavagres explained.

During the ambassadorism in United24 Shevchenko helped with the purchase of medical equipment, anti -exterior agents, the restoration of damaged object -infrastructure.In addition to Andrei Shevchenko, Alexander Usik and Elina Svitolina became the Ambassadors of the Platform from the Sports Industry.

Ukraine is certainly not related to the attacks of drones on Moscow, because our country does not need to be done.

The adviser to the head of the office of the Office President Mikhail Podolyak informed about it in the only newsphone, answering the question whether these blows can have strategic importance, Ukrinform correspondent reports.

“Of course, Ukraine is not relevant. We do not need to do this, we have enough important tasks for drawing large-scale blows, using scarce weapons, including rockets and drones, in the occupation. Secondly, we are

much more concerned about the blows that Russian -bearing in our capital, "he said.

According to him, any strokes, the number of which is significantly increased in the internal space of the Russian Federation, are not strategic for Ukraine. "But this is of strategic importance for other purposes. And I will say that these attacks drones, especially rubles, showed several things," - said the adviser to the head of the OP.

He noted that these drones are small, and they would fly a short distance.

"I will remind you that on May 9 were(Accepted - ed.)Some decisions to ban the use of drones, drones in the Central Federal District. The Russian terror should lose daily and every night, in each of our region, in the sky of every Ukrainian city and village, because when any attack of terrorists to build a failure for them, their defeat will become a source of our long-term safety.

About it in your [appeal](#) At the end of the 461st Day, President of Ukraine Volodymyr Zelenskyy said, Ukrinform reports.

I wish health, dear Ukrainians!

A brief report for this day. A fairly loud day.

The first is to thank our air forces and all defenders and defenders of the sky of the other night bloom of Russian drones.

Again and again thank our warriors for every shotgun, for every Zabu - Russian missile. Because it is always - saved lives of people, always saved infrastructure.

Secondly - unfortunately, there were a hit, unfortunately, there were a falling of debris with the appropriate consequences, unfortunately, there were losses ... My condolences!

It is very, very important to consider air alarm and not treat it.

And I want me to be heard by all representatives of local authorities, which are heard for specific communities, for a specific territory.

City shelters should be available. People need to understand when and how the number and availability of shelters will increase.

It is the responsibility of specific officials, and specific responsibility.

Third, we continue the consolidation of partners in order for the Ukrainian air defense to be becomes becomes effective. Russian terror should lose daily and every night, in our region, in the sky of every Ukrainian city and village. When any attack of Russian terrorists end with a failure for terrorists, their defeat will be a source of our safety-long-term.

He spoke with German Chancellor today, including air defense.

He thanked the air defense systems already provided to Ukraine, that is, for our people already rescued by Germany. They also discussed in general the defense situation, our security service.

Important international measures that will happen very soon, there are common positions, to common decisions. And I thank Olaf, Mr. Chancellor, a personal determination, who is in many ways the determination of all Europe. We work on the creation of a proper base for production and repair in Ukraine. There is a wide range of weapons: from tanks to artillery.

We will provide Ukraine, and therefore, all of Europe is such a new foundation for strength.

Fifth - has met today with the delegation of one of the leading world - analytical centers, the American Atlantic Council. A good, useful conversation to protect our common values, all in the world who value freedom.

He informed the representatives of the Atlantic Council about our basic defensive needs for now, now in confrontation. We discussed the steps that bring the creation of a new aviation coalition. We are invariably approaching this result - to receive our warriors of modern fighters. And I thank the people of the United States, everyone and everyone in the political community, who supports, thank President Biden personally and both parties of Congress.

Now, in Ukraine, on our earth, in our sky it is decided whether the conservation and civilization will be preserved - global leadership in this century. It is decided, together with America, together with Europe, together with all our allies by partners. Thank you all in the world who helps!

And, of course, today, as always, I thank our soldiers. All those who are now for the sake of Ukraine. To all who are on combat missions. At combat posts. Thank you to everyone who protects our positions in Luhansk and Kharkiv region. Thank everyone and everyone who defends Zaporozhye, Kherson. Thank you all who keep our border.

Our brigades who are fighting. Our crews who are ready to go forward. And laying. Our security forces. At all directions and at all levels, the enemy should feel that Ukraine has strengthened.

Glory to our heroes!

Glory to Ukraine!

Estonia Prime Minister Kai Callas, at a meeting with the Ministry of Foreign Affairs of the UK, James-Markleverli in Tallinn, discussed Russia and its reference for aggression and war crimes, expectations from NATO's summit, and bilateral cooperation.

About it reports Ukrinform with reference to the Estonian broadcaster [ERR](#) .

"A stable world is impossible without a world order, which is based on respect for territorial integrity and sovereignty. Also in order to interrupt cyclicals by [Russia](#) , it is necessary to bring the country's management responsible for the crime of aggression. No one is uninvited, "said the head of the Estonian government.

She stressed at the meeting that the war unleashed by Russia should end with the impression of the aggressor. At the same time, the best factor in Russia's restraint is strong and membership in the Alliance. "Our region - there is a confirmation. In order to take care of gray zones in Europe, which are constantly serving a source of conflict, it is necessary that Ukraine joins NATO after the war. In Vilnius, Ukraine needs a positive signal in this direction, "Kallas said.

According to her, real collective safety means that the contribution of all allies to their defense capability should increase to a level that allows the effective consumption of defense and restraint throughout the Alliance and the opposition of dangers. "In order to put into place agreed steps to strengthen and continue to support Ukraine, it is very important to carry out in Vilnius an agreement that the costs of all allies for defense will immediately grow up to 2% of GDP and continue to increase to 2.5% by 2030. Estonia has already decided to raise its investments in state defense to 3% of GDP, "said Pryemier -Minister.

The CEO Rafael Grosssey has formulated five nuclear security principles, which, he said, will help guarantee the nuclear security of the Nazaposhi NPP.

According to Ukrinform in New York, he announced their insertion during a meeting of the UN Security Council on the ZPP situation.

According to Grossi, he defined these principles on the basis of "intensive consultations" with the leadership of Ukraine and the Russian Federation.

First of all, "there should be no attacks of any kind from the territory of the station, in particular, aimed at the reactor fuel storage," he said.

The NPP infrastructure should not be used as a repository or base for weapons, such as rocket launchers, artillery systems and ammunition, as well as tanks or military personnel that can be used for attack.

Cannot be exposed to electricity supply with **power plant** outside the object. To this end, it is necessary to make every effort to ensure that external electropoles remain accessible and safe at any time.

All structures, systems and components required for the safe operation of the object must be protected from attacks or sabotage.

You should not take any actions that would undermine these principles.

Grossi stressed that compliance with these principles is intended to prevent nuclear avalas and ensure the integrity of the station.

"I consider these obligations necessary to avoid a threat to the incident," he added.

According to her, the experience of operating modular towns for IDPs is showing. First, they cannot be built quickly and largely. In the 25 -building modular towns, only about 5 thousand intercesses live, which is discontent with the total number of IDPs, which require high -time housing. Secondly, the maintenance of modular towns is quite costly for local budgets.

At the same time, there are a large number of hostel objects in Ukraine. They could be repaired or converted to temporary housing for displaced persons.

"This is a simple mathematics. In my opinion, it is more profitable to invest in repair hostels. We have enough objects of this type, " - summarized Irina Vereshchuk.

Досудовим розслідуванням встановлено, що з вересня по листопад 2022 року жінка добровільно надавала допомогу двом учасникам нзф «днр» у веденні бойових дій проти Збройних Сил України.

Вона збирала й передавала їм через месенджер «Telegram» дані промісцевознаходження українських бійців у населених пунктах Краматорського й Покровського районів. При цьому відправляла як текстові повідомлення, так іскріншоти «Google Maps». На них відмічала точки зосередження особового складу спеціального військового обладнання ЗСУ.

Окупанти дізнавались від неї про прольоти української військової авіації, пункти розвантаження ешелонів військової техніки, місця випробування безпілотних летальних апаратів і розташування комплексів ППО.

Крім того, «спостерігачка» акцентувала увагу співрозмовників на часі доби, уякий, на її погляд, краще наносити удари по цих об'єктах. Загалом жінка передала близько 50 таких повідомлень.

For the European Union, the priority of providing Ukraine with the military support it needs to protect it.

On this emphasized The high representative of the EU on Foreign Affairs and Security Policy Josep Borrel.

"With the invasion of Russia into Ukraine, the usual high -intensity land war came to our borders. We have not seen the war between the nations of such intensity for decades in Europe. And this war continues much more than someone could expect, including Putin. The European Union supports Ukraine in confrontation between Russia's aggression, but Europeans also have to understand the fundamentally changed landscape of security and new threats with which we are coating, and draw the right conclusions about the military resources we needed, "said Josep Borrel.

He noted that one of the greatest lessons that the EU can take out of the war is the wonderful ability of the Ukrainian army to successfully adapt, opposing one of the largest armies in the world.

"This once again shows how much success in the battlefield depends on the motivation of training training. Only a highly prepared staffing staff can conduct combined operations, based on all opportunities, including infantry, artillery and aviation support. We have seen how Russian commanders have failed effectively to coordinate their prevailing in number. The professional, educated and trained officers' composition is what a military manner is called a true "enlightenment of power", - the European Diplomat emphasized.

Josep Borrel noted the high innovativeness and success of Ukrainian in command and management.

"Every day it is becoming more understandable how successfully Ukraine is using the highradioelectronic struggle to deteriorate radio signals and radars of enemy failure of drones and missiles. Electronic struggle, including a cyber sector, but not limited to it, are becoming more relevant, "said Josep Borrel.

The Office of the Prosecutor General, together with leading national experts in international humanitarian law, developed and presented methodological guides on standards of investigation of war crimes for investigators and prosecutors.

About it [reports](#) Office of the Prosecutor General of Ukraine.

The team of experts and practitioners worked at once two parts of methodological recommendations. The first of these is "**Standards for the Investigation of Military Crimes. General part**" - considers all major military crimes that are recorded in Ukraine and offers clear algorithms for procedural actions in these cases.

A set of standards concerning a specific type of crime - ** "illegal imprisonment and torture" is also developed. It considers in detail the specificity of such crimes and the rules of work for investigators and prosecutors in accordance with modern world approaches are proposed.

"It is one of the first products of this scale and quality in the field of international crimes, developed together with practitioners. Each style of development was accompanied by testing among colleagues who work daily with excise proceedings of this category. I am convinced that these documents will become a non -numerical tool for spreading the best approaches in all the system of law enforcement and prosecutor's office, "said the Prosecutor General of Ukraine by the Prosecutor of Ukraine.

Working on the standards of investigation of other types of military rates is currently underway - the publication of manuals on "Deportation" and "Attacks on Civil Objects" is continued.

На Донеччині затримано ще одного інформатора головного управління генерального штабу зс рф (better known as a game). Ворожим поплічником виявився мешканець звільненого Лиману, якого дистанційно завербувала російська воєнна розвідка.

Він збирав для окупантів розвіддані про місця дислокації та шляхи переміщення Сил оборони в районах Слов'янська, Лиману та Миколаївки.

Особливу увагу приділяв маршрутам руху українських військових колон, які переправлялись через р. Сіверський Донець у напрямку Бахмута.

Також зловмисник передавав агресору координати місцевих заводів та залізничної інфраструктури.

Розвідувальна інформація потрібна була загарбникам для підготовки повітряних ударів по українських об'єктах, зокрема із використанням дронів.

Для передачі розвідданих він перебував «на зв'язку» з розвідником штурмового батальону спецназу гру та навідником танкової роти ворожої тактичної групи «Купол».

Встановлено, що комунікацію підтримували через заборонену соцмережу «однокласники».

Затриманому повідомлено про підозру за вчинений злочин. Фігурант перебуває під вартою. Триває розслідування для встановлення всіх обставин злочину.

Ukrainian children are painfully experiencing a war in the country, even the smallest you notice what is happening around them. According to a survey conducted by the Sociological Group "Rating", among mothers of Ukrainian

children aged 3 to 16 years, 60% of Ukrainian children were witnesses or participants of certain events related to war.

The large-scale invasion of Russia also had a negative impact on the health of the baby's parents who were born in the days of the Russian-Ukrainian war.

Stress, malnutrition, dehydration, stay in harmful conditions, such as such or cellars - all this often has a negative impact on the course. As a result, some children are born prematurely and/or have diseases.

As [reported](#) On the official Facebook page of the Ministry of Health, within the framework of medical guarantees, the state guarantees packages of free services for rehabilitation of children and babies:

"Medical rehabilitation of infants who were born prematurely and/or sick during the first three years of life";

"Rehabilitation assistance to adults and children in hospital";

"Rehabilitation assistance to adults and children in outpatient conditions".

Since the beginning of the year, more than 14 thousand Ukrainian children have passed such rehabilitation. More than 2.5 thousand of them - under the package "Medical rehabilitation of infants, have been prematurely and/or patients, during the first three years of life."

As part of this package, assistance is provided not only for babies. Parents or children of children under the age of three can also receive a number of services free of charge, including:

- Psychological support;
- Training on the peculiarities of baby care and development;
- Selection, adaptation of special equipment and means of alternative communication for the child and training for their use.

To get children rehabilitation services, parents are enough to have:

- Refusion of the primary care physician with whom the declaration is concluded;
- Direction from a treating doctor;
- Direction to transfer from another medical institution or a hospital unit.

For children **older than three years** a prerequisite for providing such a service with a multidisciplinary rehabilitation team of a pediatrician is a compulsory service. *Prepared Lesia Medvedenko*

Міністр соціальної політики України Оксана Жолнович та Міністр праці, солідарності та соціального захисту Португалії Ана Мендес Годіньо уклали Меморандум про взаєморозуміння між урядами Португалії та України щодоспівпраці у сфері соціальної політики, [повідомляє](#) Government portal.

The memorandum involves the exchange of knowledge and experience in the fields of social protection groups, providing them with social assistance, in the direction of early childhood, as well as in general in the reform of the social action system.

During the meeting, the parties were subject to the directions in which Ukraine and Portugal will interact more closely in the social sphere, in particular, it concerns the social support of children and people with disabilities.

Anah Mendes Godinho reported that Portugal is working on a "national plan of a child", which has three aspects. The first is the social transfer, which is automatically given to children who are at risk of poverty. The second is robotascular local teams that control that children are provided with all necessary. These children and their parents have priority in accessing services, such as supporting, employment, and more. The third aspect is a special program for children who do not have parents or who are in a bug.

In addition, the Minister of Labor, Solidarity and Social Protection of Portugal has been dealing with a project for people with disabilities, which is aimed at identifying disability and timely connecting a specialist in time.

Anaees Godinho noted that Portugal has centuries -old experience, in particular, in social support for children. She stressed that her country is ready to help with all the directions outlined. The parties have agreed in the near future to coordinate the interaction for the implementation of common initiatives.

The Coordination Headquarters on the Defense of Prisoners of Pursuing took place with the families of defenders of the 36th Separate Brigade of the Marine Infantry Nam Dradmiral Mikhail Bilynsky.

Asked by relatives of the captives of Marines answered the representative of the coordination headquarters.

One of the questions that was raised during the meeting was to be performed(<https://koordshtab.gov.ua/archive/1626>)Coordination headquarters of inquiries for the treatment of prisoners of war.

According to the headquarters, the Russian Federation does not provide official information about the conditions of detention or the places of maintenance of the military and in the territory of Russia and in the temporarily occupied Ukrainian territories.

A similar situation with the provision of medical care and correspondence of captives with their relatives-the aggressor country does not fulfill their obligations, as provided for by the rules of international humanitarian law.

It should be noted that the relevant mandate for visits to the places of freedom, derivative of prisoners of war, has the mission of the International Committee of the Chervonolas. However, it can only be implemented if the country that holds the people gives permission.

Among other things, they discussed issues concerning the safety in the information space. As the headquarters representative noted, relatives should be careful, giving the commentary or spreading information about the captive defender. Such information can be used by fraudsters, in particular for extorting money or other manipulations.

Persons of two more Russian officials who are involved in reconnaissance and subversive activities against Ukraine are established. One of them is the head of the International Military Cooperation of the Ministry of Defense of the RFPOCLOVER Dmitry Guli. Another Russian spy was the Deputy Director of the Legal Department of the Ministry of Economic Development of the aggressor country Vitaliy Textelev.

It was found that at the beginning of a large -scale invasion, they remotely - converted a resident of Kiev. Soon the man got the task of them - to set up in one of the defensive companies in the capital region. The ultimate metati agent is to collect and transfer in the Russian Federation intelligence.

In this way, Russian officials tried to obtain secret information of pronal Ukrainian weapons that came to the Front forces.

In addition, they were interested in data on the consequences of Russian rocket strokes of the cover infrastructure of Kiev.

In February 2023, the Security Service detained the enemy agent and informed him about the state treason.

During the investigation, the staff of the Ukrainian special service "split" the detainee - he provided personal data of his "curators" from the Russian Federation.

In the case of the capture of Kiev, they promised their agent a loyal attitude from the governors.

On the basis of the evidence collected, both Russians were reported suspicion of sandstone committed by prior conspiracy by a group of persons.

Investigation is ongoing to establish all the circumstances of the crime and prosecute.

The Verkhovna Rada of Ukraine approved amendments to the Law of Ukraine "On Military Occupation and Military Service" and reduced the limit age(Bill [No. 9281](#)).

Про це [повідомляє](#) press service of the Verkhovna Rada of Ukraine.

In case of reduction of marginal conscript age to 25 years conscription will be enough time(1-3 years)for the realization of the performance of Ukrainian duty by citizens and conscription for conscript military service.

At the same time, the stay of citizens in the military registration of conscripts up to 27 years the need for annual arrival of them to the territorial centers of staffing and social support in order to confirm the right to defer from the call, as well as undergo medical examinations(surveys)leads to significant financial and material costs.

"The long -term stay of citizens on military registration of conscripts in the event of a state of war is inappropriate, given that a considerable number of suitable military service of citizens who do not have the status of military service is not possible to be involved in military service during the conscript during mobilization," - noted in the Verkhovna Rada.

Thus, the law regulates the replenishment of a mobilization reserve as an integral part of the military reserve of human resources, the structure of which was approved by the Cabinet of Ministers of Ukraine dated November 12, 2014 No. 607, by taking on military accounting for military conscripts, which have reached the age of 25 years of age. military accounting of conscripts.

After the failure of the rocket blitz in the winter and early spring, when the Russian ones tried to destroy Ukraine's energy infrastructure and sowing among society, the aggressor state changed tactics.

About it told Representative of the Main Directorate of Intelligence of Defense of Ukraine Andriy Yusov.

"Missile tactics(Russians - ed.)changed. For the most part, it is void to complicate or disrupt the plans of the Ukrainian security forces for further release of the occupied territories, "Andriyus explained.

He added that for terrorist Muscovy remains a priority lesion.

"Kiev, which resists that has dropped off the newest horde, remains an indispensable target for the aggressor. Therefore, the danger remains, " - said the representative of Ukraine's military intelligence.

At the same time, Andrei Yusov emphasized that the Air Force of the Armed Forces successfully mastered the remedy partners of the air defense air defense, which actually eliminates the missile invasion of the Russians.

"The enemy would like to show that their weapons" Analogue "can do something with a Ukrainian army and Western weapons. But it turns out that no. How many shells are fired - in fact all goals are stuck. Our fighters, air forces, tools will demonstrate the best results, "Andrey Yusov said.

The next wave of rocket terror, he said, the aggressor uses for demonstrative propaganda about the alleged damage of samples of Western weapons.

"The attempt is active, mass, unprecedented, but largely, these are showing. So often, with the same intensity and quantity, the Russians will not be able to repeat such players, " - summed up a representative of the GUR of the Ministry of Defense of Ukraine.

In the National Museum of History of Ukraine in the Second World War, the exhibition of works of young artists from Rivne region "Victory colors" opened. The event took place in the ARTARMOR.

The project enables Ukrainian creative youth to declare their talent, to reveal it in a picture or article, which was reproduced on the armored sprouting, which saved the life of a Ukrainian warrior in battle. "ARTARMOR.Children" is a part of the international charity artist - "Artarmor", which was released in the city of Rivne in the spring of 2022, in which art is not figuratively, abandoned life. The armor continues to protect Ukrainian defenders, but in the form of an art object.

[!\(Images/APMIRINFORM/2023-05-30T83-00-00-04-00/artarmor-02-150x150.jpg\)](!/(Images/APMIRINFORM/2023-05-30T83-00-00-04-00/artarmor-02-150x150.jpg)

During April, children from the Rivne region worked to create their works. After determining the winners by the competition commission, the paintings were drawn to the armored. At the beginning, it was planned that only the winner would hold the right to move his work to the armored plate, which saved the life of the Ukrainian defender. In the end, such a right was decided to give the "silver" and "bronze" winners of the competition.

[!\(Images/APMIRINFORM/2023-05-30T83-00-00-04-00/artarmor-06-150x150.jpg\)](!(Images/APMIRINFORM/2023-05-30T83-00-00-04-00/artarmor-06-150x150.jpg))

"This project is aimed at protecting life, these plates from armor rescuing lives," Yuriy Savchuk, director of the National Museum of Ukraine in the Second World War, said during the opening of the exhibition. - And deeply symbolically that we are now in space "defenders" , this is the previous exhibition.

Along the perimeter you see our defenders, and the difference is that each of them has this bulletproof vest, has this plate. We deliberately decided to combine these twins, the key to which is the word protection. "

The armored plants, painted with the hands of Ukrainian children, will in the future be a significant part of the Great International Artist "Artarmor" - an art that will define life. The work of children will not only take a worthy place in the existing art exposition among the works of well-known Ukrainian and foreign artists, but will demonstrate the world's "children's side" of war and belief in victory.

The winners of the competition were greeted by the Minister of Culture and Information Policy of Ukraine Oleksandr Tkachenko.

The organizers have timed the opening of the exhibition for the International Children's Day, which is celebrated annually on June 1.

About it in your telegram [wrote](#) Deputy Minister of Defense of Ukraine Anna Malyar.

"The aggressor country has announced the search of the Syrsky Land Forces Commander-in-Chief. This is one of the techniques of information.

In 2014-2015, they also opened criminal proceedings against our commanders and combs. They were accused of committing crimes during hostilities, - the message reads.

Anna Malyar noted that this technique aimed at two tasks:

Вати Insify the status of Ukraine as a victim of an international crime of aggression and formally to equalize their criminal acts with our defensive ones.

✓ psychological pressure and demoralization of our military

"However, the" mission is invalid. " Russia has created this military-toxic reputation and has lost its trust that any accusations of the departed side of our military are perceived as aggravating information. In the second paragraph, everything is clear. Psychologically pressing the commemorations who fight with the enemy, which is much higher than the number of fighters of thabing is unpromising, "said Anna Malyar.

The delegation included members of the Council John Rogers, David Petreus and Jongerbst.

The head of state thanked for a visit to Ukraine, which is another important signal support from the United States.

"I thank the President of Biden, all over the American people for their strong support from Ukraine since the beginning of Russian aggression. We value bicameral and two -party support from the US Congress, "Volodymyr Zelenskyy stressed.

He noted that Ukraine defends democratic values that divide both entities and our peoples.

"It's a struggle for freedom, for the future of the world," the President said.

At the request of the Atlantic Council, the Head of State informed their headquarters defense needs of Ukraine. He praised the decision of Presidential Joseph Biden separately to launch the aviation coalition and the beginning of Ukrainian pilots for modern Western fighters.

Volodymyr Zelensky informed about the situation on the forefront and made a forecast of the development of development in the near future. He stressed that during the last days the Russian aggressor significantly intensified rocket terror and causes massive blows of Ukrainian cities, especially in civilian infrastructure and civilians.

The meeting raised the issue of Ukraine's expectations from NATO Vilnius. The President emphasized that it is important for Ukraine to get a clear signal about the prospects of membership in the Alliance.

"It will become a powerful motivational factor for our army, for all Ukrainian people," Volodymyr Zelenskyy said.

He also told the Atlantic Council delegations about the course of reforms in our country, which continue despite Russian aggression.

At the end of the meeting, Frederick Camp presented the President of the Citizen's Honors, which the Atlantic Council awards the world leaders who made a significant contribution to the development of transatlantic relations.

"This is a distinction for the whole Ukrainian people. For his courage and heroic, "the head of state emphasized, accepting the award.

_ I wish health, dear Ukrainians!

A brief report for this day. A fairly loud day.

The first is thank you to our air forces and all defenders and defenders of the sky of the other night bloom of Russian drones.

Again and again thank our warriors for every shotgun, for every Zabu - Russian missile. Because it is always - saved lives of people, always saved infrastructure.

Secondly - unfortunately, there were a hit, unfortunately, there were a falling of debris with the appropriate consequences, unfortunately, there were losses ... my condolences!

It is very, very important to consider air alarm and not treat it.

And I want me to be heard by all representatives of local authorities, which are heard for specific communities, for a specific territory.

City shelters should be available. People need to understand when and how the number and availability of shelters will increase.

It is the responsibility of specific officials, and specific responsibility.

Third, we continue the consolidation of partners in order for the Ukrainian air defense to be becomes becomes effective. Russian terror should lose daily and every night, in our region, in the sky of every Ukrainian city and village. When any attack of Russian terrorists end with a failure for terrorists, their defeat will be a source of our safety-long-term.

He spoke with German Chancellor today, including air defense.

He thanked the air defense systems already provided to Ukraine, that is, for our people already rescued by Germany. They also discussed in general the defense situation, our security service.

Important international measures that will happen very soon, there are common positions, to common decisions. And I thank Olaf, Mr. Chancellor, a personal determination, who is in many ways the determination of all Europe.

Fourth - spoke with representatives of a powerful British defense company Bae Systems. It is a truly large -scale weapon manufacturer - the weapon that is now being necessary and which we will need to guarantee the security of our state and the whole region.

We work on the creation of a proper base for production and repair in Ukraine. There is a wide range of weapons: from tanks to artillery.

We will provide Ukraine, and therefore, all of Europe is such a new foundation for strength. He informed the representatives of the Atlantic Council about our

basic defensive needs for now, now in confrontation. We discussed the steps that bring the creation of a new aviation coalition. We are invariably approaching this result - to receive our warriors of modern fighters. And I thank the people of the United States, everyone and everyone in the political community, who supports, thank President Biden personally and both parties of Congress.

Now, in Ukraine, on our earth, in our sky it is decided whether the conservation and civilization will be preserved - global leadership in this century. It is decided, together with America, together with Europe, together with all our allies by partners. Thank you all in the world who helps!

And, of course, today, as always, I thank our soldiers. All those who are now for the sake of Ukraine. To all who are on combat missions. At combat posts. Thank you to everyone who protects our positions in Luhansk and Kharkiv region. Thank everyone and everyone who defends Zaporozhye, Kherson. Thank you all who keep our border.

Our brigades who are fighting. Our crews who are ready to go forward. And laying. Our security forces. At all directions and at all levels, the enemy should feel that Ukraine has strengthened.

Glory to our heroes!

Glory to Ukraine!

US Secretary of State Anthony Blinken has announced new export control measures aimed at depriving Russia of the opportunity to receive technologies, in particular, which were discovered in Iranian drones.

He stated this on Tuesday during a press conference in Sweden, Ukrinform's own correspondent reports.

"Tomorrow we will announce new measures that will be based on the export control of technologies that have been discovered in Iranian drones, used for strikes in peaceful people in Ukraine and civilian infrastructure," - said American diplomacy.

The United States stated that the Russian side of radiation monitoring at the Zaporizhzhya NPP is an escalation by Moscow, directed by Ukraine, and that it threatens nuclear security throughout the region.

The relevant statement was made on Tuesday by the US permanent representative at Ooninda Thomas Greenfield, Ukrinform correspondent reports.

"According to recent reports, Moscow has disconnected vital sensors of radiation monitoring in Zaporozhye, which means that data from the station are now being sent to the Russian nuclear regulator. It is a clear escalation of RFFDUDivation of Ukrainian sovereignty and control over the Zaporizhzhya NPP, "the USA said.

She noted that it undermines the UN confidence in nuclear security at the station.

"I will say clearly, **Zaporizhzhya NPP** It belongs to Ukraine, so its data should be flowing to Ukraine, not to Russia, "Thomas Grinfield emphasized.

She called the actions of the Russian Federation "reckless" and stated that they contrast sharply by the relevant behavior of Ukraine.

Крім того, ми розглядали можливість створення українського центру в Берліні», – заявив Грод.

Він додав, що разом з очільниками двох українських громадських організацій Німеччини також зустрівся у Берліні із депутатом партії Зелених Василем Франко «для обговорення подальшої допомоги Україні та українським біженцям».

«Під час наших зустрічей з представниками німецьких владних органів, ми висловили щиру вдячність за потужну підтримку Німеччиною українського народу вскладний період. Ми підтвердили нашу постійну співпрацю від імені Світового конгресу українців», – наголосив Грод.

На його переконання, «разом ми зможемо надати підтримку українській спільнотів Німеччині». «Продовжуймо працювати пліч-о-пліч, щоб створити яскраве майбутнє для України та її людей!», – закликав президент СКУ.

The United States stated that the Russian side of radiation monitoring at the Zaporizhzhya NPP is an escalation by Moscow, directed by Ukraine, and that it threatens nuclear security throughout the region.

The relevant statement was made on Tuesday by the US permanent representative at Ooninda Thomas Greenfield, Ukrinform correspondent reports.

"According to recent reports, Moscow has disconnected vital sensors of radiation monitoring in Zaporozhye, which means that data from the station are now being sent to the Russian nuclear regulator. It is a clear escalation of RFFDUDivation of Ukrainian sovereignty and control over the Zaporizhzhya NPP, "the USA said.

She noted that it undermines the UN confidence in nuclear security at the station.

"I will say clearly, **Zaporizhzhya NPP** It belongs to Ukraine, so its data should be flowing to Ukraine, not to Russia, "Thomas Grinfield emphasized.

She called the actions of the Russian Federation "reckless" and stated that they contrast sharply by the relevant behavior of Ukraine.

"During this conflict, CEO(IAEA - ed.)Grossi is clearly understood that Ukraine has fully interacted in the process of implementation of all nuclear facilities, and that the IAEA has found no signs of concern related to nuclear spread in Ukraine, "the US representative reminded.

According to her, there is no doubt that "Russia's actions are an attack on a safety and the world, so we must unite and demand that the president Putinify this madness."

As reported by Ukrinform, a meeting of the UN Security Council on the Zaporizhzhya Nuclear Power Plant was held on Tuesday. The participants of the meeting were studied by the director of MAEA Rafael Grosssey, who formulated five principles of nuclear safety to guarantee nuclear security at the Zaporizhzhia NPP.

In addition, he said, the announced US measures will be directed by Russian misinformation, as well as to protect the law for law enforcement agencies.

Blinken also stressed that the work that the United States did for the last two years was critical to ensure that the invasion of Russia in Ukraine would remain a strategic failure of the Kremlin.
