The undisputed evidence of the fault of the two leaders of the occupying bodies is collected by a timely passionate part of the Donetsk region. One of the malefactors is the head of the DNR Ministry of Communications. In this

"position" he performs the task of Moscow on the translation of the local telecommunications industry by the Zarosian "standards".

About it [reports](#) Security Service of Ukraine.

To do this, he organized the launch of the FOENIX FSB controlled FSB on the basis of captured equipment of Ukrainian communication operators in the occupied districts of the region.

Subsequently, he facilitated the invaders in the forced "transfer" of the local residents of the Russian telephone network. In this way, the intelligence service of the aggressor country is obtained to the personal data of subscribers and information about their content.

In addition, the FSB uses a controlled telephone operator for the widening of SMS distributions with misinformation about the situation on the front and intra-political situation in the region.

Another attacker is the "Deputy Director" of the so -called "Unitary enterprise" DNR "of the Phoenix communication operator. It was he who helped the EMFSB staff to get full technological access to the mobile company telecommunications equipment.

On the basis of the evidence collected, the security service investigators informed both of the persons involved in the creation of a terrorist group or a terrorist organization.

Russian aggression clearly proves that only collective preventive guarantees can be reliable.

About it in your At the end of the 405th day of the full-scale war said President of Ukraine Vladimir Zelensky, reports Ukrinform.

Video: [I wish health, dear Ukrainians!](#)

He just turned to the Chile Parliament - another country that heard Ukraine, heard what we want. It doesn't matter what the distance between our

peoples. We appreciate life and protect the international order. We must deprive the hope of support in Latin America.

He also addressed the governors of the US states - this is the first time such a special appeal to the representatives of each state. He thanked them with the suspension, emphasizing how we, together with America, can not only win the ongoing killing, but also prove that freedom and cooperation always restore an indirect life after the strikes of aggression.

He spent several international conversations today, talking to our partners.

He thanked Canada and personally Mr. Prime Minister Trudeau for unchanged support. For its next manifestation - financial assistance of 2 billion 400 million Canadian dollars, which our budget has already received. In detail, we discussed in the battlefield and the security needs of our country.

To reject the enemy from our earth and thus finish this faster, we have to mobilize the world, our partners, all the peoples, as they agree with the chaos that Russian aggression brings the world.

He spoke to Ursula von Der Lyen, Mrs. President of the European Commission. Our steps of Vevointegration, our joint measures, which we are preparing ... a new sanction packing bush, which must continue the pressure line on Russia, pressure to reduce its terrorist potential, its threat.

Today, by the way, a historic event for our region, for the whole of Europe, the entire Euro -Atlantic community. Finland becomes a 31st NATO member.

I congratulate the entire people of Finland and personally Mr. President. With reliable security guarantee - collective guarantee.

Russian aggression clearly proves: only collective guarantees, only prerequisite guarantees can be reliable. This is what we have always talked about. We also talk about speed - the speed of security decisions matters. We in the infect, what can be the speed of procedures. There will be a day when security will be guaranteed for our country.

He is constantly in connection with our commander who oppose the state-pursuer of Napoli battle. Today there was a special format of our military meeting. General Syrsky - regarding Bakhmut, Head, Head of GUR - in the general war situation. The Ministry of Defense - on the supply of ammunition and even more by the needs of our defenders. Decisions are already being implemented.

All day we are preparing for international events planned for this week. They are important, bold, ambitious. As this is a rule for Ukraine.

We keep in control and the internal situation, in particular about spiritual independence. We also guarantee it. To break Ukraine - neither from the outside nor from the inside - no one.

I thank everyone who is in battle for Ukraine! Avdiivka and Bakhmut, Marinka Takrasnovrovka, every hot direction ... I thank you, warriors!

Thank you all who help Ukraine!

I will note two decisions today.

The United States provides a 2 billion \$ 600 million defense support package. The HIMARS Boobes for Air Defense, and Artillery, what is needed. Thank you, Pan -President Biden, thank you, Congress, thank every American!

And the second solution. Today, the work of the Independent International Commission of the United Nations, which investigates Russian crimes against Ukrainians, has been extended. Each such international legal step brings the racists to the inevitable, fair responsibility.

Glory to Ukraine!

Republikens presidents uttalande om Finlands medlemskap i Nato

Finland har i dag blivit medlem i försvarsalliansen Nato. Den militära alliansfrihetens era i vår historia är slut. En ny era börjar.

Varje land maximerar sin egen säkerhet. Det gör också Finland. Samtidigt stärker medlemskapet i Nato vår internationella ställning och vårt handlingsutrymme. Som partner har vi sedan länge aktivt deltagit i Natos verksamhet. I fortsättningen är Finland med sin insats en del av Natos gemensamma avskräckning och försvar.

Medlemskapet i försvarsalliansen ger Finland säkerhet. Finland ger i sin tur säkerhet åt alliansen. Finland, som är engagerat i alla Natoländers säkerhet, blir en pålitlig allierad som stärker den regionala stabiliteten.

Finlands medlemskap är inte riktat mot någon. Det ändrar inte heller grunderna eller målen för Finlands utrikes- och säkerhetspolitik. Finland är ett stabilt och förutsägbart nordiskt land som strävar efter fredlig konfliktlösning. Principer och värderingar som är viktiga för Finland kommer även framöver att stå kvar som ledstjärnan för vår utrikespolitik.

Natomedlemskapet kommer att kräva förändringsberedskap och anpassningsförmåga av Finland. Även om allt inte förändras i och med medlemskapet kommer vi som medlem i alliansen att behöva ett nytt sätt att tänka och ny lagstiftning. Mycket har redan gjorts: vi har i flera år målmedvetet utvecklat vår kompatibilitet med Nato. Ändå återstår ett betydande arbete för att samordna Finlands försvar som en del av Natos gemensamma försvar. Försvarsmakten ställs också inför nya krav och utmaningar som vi måste svara på.

Samtidigt är det klart att Finlands viktigaste bidrag till Natos gemensamma avskräckning och försvar bygger på att trygga och försvara vårt eget territorium. Här bevarar det finländska övergripande säkerhetstänkandet sitt värde. Men vi arbetar inte längre ensamma.

Finland ansökte om medlemskap i Nato tillsammans med Sverige. Finlands medlemskap är inte fullständigt utan Sverige. Det ihärdiga arbetet för ett snabbt svenska medlemskap fortsätter. Likaså fortsätter vårt nära samarbete för att bygga den gemensamma säkerheten och det gemensamma försvaret i hela Norden.

Since the beginning of the year, Ukraine has received less new promises, with some exceptions to the supply of weapons, but obligations are becoming longer.

This, as Ukrinform reports, follows from a new study , which is preparing a King Institute of the World Economy.

Compared to December 2022, there is a general decrease in the volume of new assistance promised to Ukraine. For a new period covered by the period, from January 16, on February 24, 2023, Ukraine was allocated 12.96 billion euros, with a significant part of these funds received only from a few donors. Thus, Japan Tasandaur countries in early 2023 promised to provide significant support to Ukraine.

The most notable are Scandinavian countries: Norway(1.11 billion euros, growth by 90%), Sweden(0.33 billion euros, plus 41%). Denmark(EUR 0.24 billion, plus 33%)Ifinland(EUR 0.56 billion, plus 165%).

Японія пообіцяла нову значну фінансову допомогу на суму 5,1 млрд євро увигляді позик, а Нідерланди пообіцяли 2,5 млрд євро, призначені, серед іншого, для нової системи Patriot для України.

Новим трендом у сфері надання допомоги There is a "longer planning horizons". Previously, the aid obligations were short -term and it was difficult to predict. Only the connection has made an obligation for the whole budget year. Now other countries, such as Britain and the Netherlands, imitate this model, promising to provide in 2023 the same amount of assistance as in 2022. Norway has even announced a long -term program of support for Ukraine with financial and military assistance of approximately 7 billion euros over the next five years, according to the study.

"The trend towards one- or long-term planning of assistance to Ukraine is very positive. In 2022, the obligations were mostly inconsistent with taspecific. This is very complicated by budgetary and military planning in Ukraine. It is advisable that some Western governments are holding leadership in acceptance, "said the head of the group who founded UkraineSupport Tracker, director of the Kristoftrebesh Khistoftrebsh Research Center.

TO WHOM IT MAY CONCERN

We appeal to you on behalf of the families of Ukrainian military doctors and medics captured by the Russian aggressors.

While lacking in medicines, tools and personnel, - these Ukrainian military doctors and medics did everything in their power to save peoples' lives. With no weapons to defend themselves, they acted according to international and human laws.

Doctors and medics imprisoned by the Russian Federation are kept in inhumane conditions. Although it does not officially confirm this fact, Russia violates international legal norms, fundamentally the provisions of Geneva Convention on the Treatment of Prisoners of War.

Here are the words of a military medic who returned from the hell of Russian captivity: "We are infinitely happy and infinitely unhappy. Happy because we returned home, although we were ready to die. Unhappy, because our soul returns to Taganrog, Kursk and Olenivka. To be deaf, that's what we hoped for. Not to hear our comrades screaming in pain in the interrogation room. For them, hell continues. We can never forget this."

There are hundreds of captured doctors and medics. We call on international institutions not to forget about this painful reality. We call on international organizations to provide help to release Ukrainian military doctors and medics from captivity.

Similar statements were erupted by Russian propagandists in connection with the death of V. Tatarsky, who demanded the "complete destruction" of Ukraine.

The murder of the Ukrainophobe has gained serious resonance, so the Kremlin decided to do so much and through manual propagandists try to make a Tatar martyr and a victim of the Nazis

In fact, the enemy tries to unite the Russians around this info drive to raise their low morale and increase the mobilization rates

"We will win everyone, we will kill everyone, we need to be robbed. Everything will be like we mile," - the Tatar phrase in support of the Putin

The state should work out a mechanism for the return of Ukraine's defenders to peaceful life.

On this emphasized Viceremier-Minister-Minister of Reintegration of the Occupied Territories of Ukraine Irina Vereshchuk at the interagency meetings

of the formation and implementation of state policy in the field of social protection.

“Citizens who protect their homeland should be sure of the support. Especially those defenders and defenders who were injured by combat actions. They should not prove their status, undergoing numerous bureaucratic procedures. In this matter, digital instruments should be introduced, decisions should be made automatically, with minimal influence of the human factor. These people protect us at the front, so as a state we have to make social protection in a peaceful life,” Irina Vereshchuk emphasized.

In particular, the Minister of Veterans Julia Laputin, Minister of Social Policy Oksana Zholnovich, representatives of the Ministry of Defense of the Presidential Office joined the discussion.

As it is noted, during the meeting, its participants agreed that the issue of veterans to a peaceful life should be considered comprehensively.

Thus, the agencies presented their own support programs for the defenders of Ukraine, quality, in particular, social adaptation, psychological rehabilitation, employment, stimulation of entrepreneurship development among veterans.

Today, the 74th anniversary of the North Atlantic Alliance, the Main and Political Union in the world, is marking the North Atlantic Alliance. NATO became the basis of a single system of Evro -Atlantic security from Canada to the Baltic countries. For Ukraine, membership of the Educational Alliance is one of the key goals of foreign policy. More about how NATO was created and about its present in the Army's Army.

After the end of World War II, Europe lay in ruins. The United States came out with a superpower, which created military bases on all continents. The warnings of the Western countries to take into account the lessons of the two world wars - that it was better to work with each other than to hostile, led to awareness of the most integration at the military level.

The initiative of the creation of a new union of states came from the United States and the United Kingdom. British Foreign Minister Ernest Bevin contributed to the signing of the Brussels Treaty in 1948. The document created the Defense Alliance of Benilux countries(Belgium, the Netherlands, Luxembourg), France and the United Kingdom of Great Britain and Northern Ireland.

After that, the conversations of the US, Canada and Britain began to create an Atlantic security system. The novelty of NATO was that the universal defense was committed by the US to the Allies in Europe. In the case of a conditional attack on France, US troops stationed by the Navara European Continent would come to the rescue.

Sinding the Vashington Agreement

On April 4, 1949, the Washington Agreement was signed in the US capital, which was consumed by a document that created the North Atlantic Alliance. However, active discussions between the three major countries - the United States, Great Britain and France - were foreseen.

Signing of Washington Agreement

Paris saw the future of NATO as a global organization, and Washington and London planned the Alliance as the only security system in the Euro -Atlantic. Excellent views between the Allies were also the inclusion of colonies in collective protection. Then, in the late 1940s, European states were still colonial empire(https://www.nato.int/cps/en/natohq/topics_67656.htm).

Signature

Belgium proposed to mention the Congo, and France Algeria. After all, Algeria remained.* "On the territory of any of the parties in Europe or North America, at the Algerian Departments of France, in Turkey, or on the islands under the jurisdiction of any of the parties in the North Atlantic area north of the Tropics of Cancer; * On the forces, vessels or planes of any side when they are in or above, or in any other zone in Europe, where the occupation forces of any of the parties were placed on the date when the contract was obtained validity, either in the Mediterranean, or the North Atlantic area north of the Cancer Tropics."

The solemn signing of the NATO Establishment in Washington was the initial military-political union. The then US President Harry Truman was among those who saw in the North Atlantic Alliance the future of the safety of and the

defense. Moreover, the Cold War began - a period of US struggle with a treacherous union. Europe was divided into opposing camps. By the way, Truminen was the author of the doctrine of restraint, which involved the active cooperation of the allies with the purpose of not widening communism in the world.

12 countries created the North Atlantic Alliance in 1949: the United States, Great Britain, Canada, Portugal, Denmark, Iceland, France, Belgium, the Netherlands, Luxembourg, Italy, Norway.

For military integration in NATO in 1951, the headquarters of the Supreme High Commander -in -Chief of the United NATO Armed Forces in Europe was established. The first Supreme Chief Commander was the American General, the Hero of the First World War Taxer of Allies in World War II David Dauyt Eisenhower.

Eisenhower and letter of its appointment

During the Cold War, NATO became the main outpost of the West in the struggle of the USSR. Although Timothy Andrews Sale notes, the author of the book "Strong Alliance: NATO's History and Global Post-war Order", the Alliance was more likely to be a direct threat to the Soviet invasion, and rather indirect interventions of the USSR SPAGANDS, intelligence. In other words, to

influence the public opinion of Ukraine NATO on the placement of ballistic missiles or other operations of military work of allies.

The main principle of the Alliance was and remains the civil control of the military. NATO Generals usually became the former defense ministers, foreign affairs of Chancellors of Britain, the Netherlands, Italy, Norway, Denmark.

Indeed, the period of the 1990s in the history of the Alliance has passed under the desire to attract the former communist states in cooperation. On the initiative of US President Bill Clinton, in 1994, the NATO Peace Partnership Program was announced. Therefore, there was an atmosphere of the possibility of coexistence of the former supervisors - this concerned in particular Russia. But, as we saw later, the Kremlin did not give up its imperial complexes with the military invasion of other sovereign states.

At the same time, it was in the 1990s that the North Atlantic Alliance began to actively work with public diplomacy. The latter is to create a positive NATO abroad through informing about the activities of the organization for Ukrainian partners.

In 1997, key events of relations of Ukraine - NATO:

- NATO Information and Documentation Center in Ukraine has been established;
- At the Madrid Summit, President of Ukraine Leonid Kuchma signed KhartiyUkraine - NATO;
- A mission of Ukraine with NATO was opened at the Alliance headquarters.

On September 11, 2001, the US terrorist attacks were a turning point in NATO history. So the only time the 5th Article of the Washington Agreement was applied. On 7 October 2002, the United States launched an anti-terrorist operation against the Taliban Vaffganistan, which was joined by NATO Allies and Partner countries through acting contingents. Among these states was Ukraine. In the end, the most relevant in the history of the Alliance, which lasted 20 years, ended with the withdrawal of military in the summer of 2021.

In June 2020, Ukraine received the status of a partner with advanced opportunities. Although the cooperation of our country with the Alliance has been going on since the 1990s: joint military exercises, rehabilitation of Ukrainian military abroad, and the implementation of NATO standards in the Security and Defense Sector of Ukraine.

Ukraine Minister

After a large -scale invasion of the Russian Federation in Ukraine on February 24, 2022, a natively revised security strategy. In the new strategic concept of the Alliance, approved at the summit in Madrid in June 2022, Rosiybul was named "the main security threat to the Euro -Atlantic region."

"So it happened that night. Using the peculiarities of the Shahheda launch, they began to use the relief of the coast and the coastal zone, in particular,

the Bplabuli launched at a very low distance above water levels. This usually complicates their detection of air defense systems - stated Natalia Humeniuk, Head of the Joint Present Center of Southern Ukraine forces of Southern Ukraine, during the Non -New News Etherer.

In addition, the officer noted that the work of the defenders of the sky began simultaneously with a danger of air anxiety. This is due to the fact that the priority was devoted to combat work and then notified. Such cases are not often, but they still happen. This happens because of a very high system of systemPPO during massive attacks.

It is worth noting that the enemy's army aimed at several goals. It was directed in different directions. This indicates the probable tacticorosis of air defense forces. The efficiency of beating the southworks confuses the enemy, so they have not used tortoise or UAV for a long time.

Over the past 24 hours, the enemy army has struck three times with the managed aviation bombamiberislav and Kherson districts. Fortunately, there were no casualties, but such a lot of destruction is caused. Again, the invaders directed them to industry and agricultural land. This is to ensure that the region is not likely to develop and revive.

About it the President of Ukraine [said](#) during their exception to a meeting with members of the National Association of Governor.

"Thank you very much for this opportunity!

Ladies and Gentlemen!

Ambassador!

Dear representatives of all America - from the east coast to the western.

All the cities and communities of the United States are actually presented at this meeting, and honor for me - to contact you.

I just completed the trips to those regions of our country that are released by the Obrose Army or border with the fighting area.

All this is a tremendous territory. The line of active fighting in Ukraine is now over 1200 kilometers. It's like Washington, D.C., to Chicago and back!Front - footage - even larger.

Millions of people live in cities and villages, where we either have expelled the Russian label or are getting ready to expel.

Think about this number: nearly 1900 cities and villages of our country need to build.

Schools and churches, houses and enterprises, transport and power plants ... All of you are well aware of what is to restore the living conditions after the devastating tornado. You do it!We do it!But after the strokes of the human element, the human girlfriend, not natural cataclysm.

Ukraine's restoration will be the largest economic project in Europe for the lives for some generations.

And I believe that America will be with us in this reconstruction!Your companies, your working places ... Just as you are now with us in defense.

Ladies and Gentlemen!

To whom, not to you, the governors of the state, to know what really stands according to "reconstruction" and "defense".

This war has not been resolved against our country as against freedom in Europe in general. And when asked why America should help Ukraine in our defense, I answer: just look at reality.

Millions of Ukrainian families are torn by war, millions are forced to look for in other countries of protection against Russian terror. Hundreds of Ukrainian cities and villages in Spanius artillery, rockets, aviation and Iranian drones, which is used by Russia.

There was a city of coal. 15 thousand inhabitants. The aggressor burned it. Mariupol. More 400 thousand inhabitants. Russia left it only ruins.

Thousands of fields are replaced. Much of our economy is broken. Hundreds and hundreds of people by force deported to Russia ...How much will it cost America then?

The Kremlin dreams of humiliation of America, Europe, the whole free world ... The Kremlin dreamed of NATO, to provoke a conflict that will put your nation with a election: to fight or not. It is Ukraine that is now your reliable last limit, your reliable border ... Thanks to the Ukrainian strength, in particular, your people will not be able to make this choice - the choice for your men and women, brave men, whose lives would be laid on the altar of protection of the most valuable - freedom.

1200 kilometers of fighting in Ukraine. And how many plus it can be in Europe? Ukraine is able to prevent the expansion of war. It is able to defeat Russia on our land.

The enemy of freedom must lose quickly and reliably where he came from the criminal aggressive war. That is why we apply for the support of Parsh, weapons and finances. Ukraine stands - your peace, your allied partners will stand.

And I want to thank all the Americans - everyone and everyone, leaders and ordinary people who see this reality, who know how important it is to protect the freedom lashes that support Ukraine.

We are grateful to the President Biden, both parties and houses of Congress and every school that is now involved in the protection of freedom. I am grateful to those who are ready to work with us in reconstruction.

Thank you all. I thank the Arkansas and all the employees of the state defense industry wonderful Himars systems, which actually change the course of hostilities for the departure of the Russian army to the deaf defense.

I thank Alabami and all staff of state enterprises that produce, in particular, Javelin anti -tank systems that saved the lives of thousands and thousands of Ukrainian soldiers.

I thank Arizona and Oklahomi, where our military trained, in particular for Petriots. Thank you to every US state that is involved in the production of Petriots.

"Harpons" and "Silegers", "First" and "Bradley", other systems and products(Not safety), services and decisions that bring Ukrainian victory closer, give Ukrainian life stability despite the war, is your production, your states. Texas and Nevada, Maryland and California, Indiana and Oregon, tripodington and New York and many others ...

Each of the states already has experience of helping us. Not only defense, but also people, in particular in the treatment and rehabilitation of soldiers and civilians - adults of I -Ukrainian children who were injured by Russian terrorist strikes and mines.I know that individual states are negotiating special cooperation. Something is being restored. Ohio and our Kharkiv region, Illinois and Nashayiv region, Minnesota and our Chernihiv region. We have to expand such a direction of bilateral cooperation - from state to region, from the city of the house. What will supplement the interstate work powerfully.

It is with Ukraine that America has the opportunity to protect its values that are familiar with the famous ones. Our cooperation also creates a new growth for our safety, for our economy, for jobs in both of our countries.

The main thing is not to lose time, not to lose the chance we have. To act now, to help now. Ukrainians do so that the Americans do not have to fight. We get new strength for our states.

And I am sure that we will always be successful.

Thank you for attention!Thank you, America, for the right help that allows you to transmit!

I invite you who have not yet been in Ukraine, visit our country and see that our people's protection is the protection of our common dream of freedom and vide for everyone.

By the way, Mr. Governor Murphy, who visited the Lviv region in February, can confirm: We are a hospitable people and are always glad to visit an open heart.

Glory to the United States!

Glory to Ukraine!"

I wish health, dear Ukrainians!

He just turned to the Chile Parliament - another country that heard Ukraine, heard what we want. It doesn't matter what the distance between our peoples. We appreciate life and protect the international order. We must deprive the hope of support in Latin America.

He also addressed the governors of the US states - this is the first time such a special appeal to the representatives of each state elected by citizens. He thanked them with the suspension, emphasizing how we, together with America, can not only win the ongoing killing, but also prove that freedom and cooperation always restore an indirect life after the strikes of aggression.

He spent several international conversations today, talking to our partners.

He thanked Canada and personally Mr. Prime Minister Trudeau for unchanged support. For its next manifestation - financial assistance of 2 billion 400 million Canadian dollars, which our budget has already received. In detail, we discussed in the battlefield and the security needs of our country.

To reject the enemy from our earth and thus finish this faster, we have to mobilize the world, our partners, all the peoples, as they agree with the chaos that Russian aggression brings the world.

He spoke to Ursula von Der Lyen, Mrs. President of the European Commission. Our steps of Vevointegration, our joint measures, which we are preparing... a new sanction packaging, which must continue the pressure line on Russia, pressure to reduce its terrorist potential, its threat.

Today, by the way, a historic event for our region, for the whole of Europe, the entire Euro -Atlantic community. Finland becomes a 31st NATO member.

I congratulate the entire people of Finland and personally Mr. President. With a reliable guarantee of security - a collective guarantee.

Russian aggression clearly proves: only collective guarantees, only prerequisite guarantees can be reliable. This is what we have always talked about. We also talk about speed - the speed of security decisions matters. We in the infect, what can be the speed of procedures.

By the way, NATO Summit in Vilnius deserves to be quite ambitious.

There will be a day when security will be guaranteed for our country. All day we are preparing for international events planned for this week. They are important, bold, ambitious. As this is a rule for Ukraine.

We keep in control and the internal situation, in particular about spiritual independence. We also guarantee it. To break Ukraine - neither from the outside nor from the inside - no one.

I thank everyone who is in battle for Ukraine! Avdiivka and Bakhmut, Marinka Takrasnogorovka, every hot direction ... I thank you, warriors!

Thank you all who help Ukraine!

I will note two decisions today.

The United States provides a 2 billion \$ 600 million defense support package. The HIMARS Boobes for Air Defense, and Artillery, what is needed. Thank you, Pan -President Biden, thank you, Congress, thank every American!

And the second solution. Today, the work of the Independent International Commission of the United Nations, which investigates Russian crimes against Ukrainians, has been extended. Each such international legal step brings the racists to the inevitable, fair responsibility.

Glory to Ukraine!

The case, violated by the District Prosecutor of Manhattan Elvin Bragg, concerns the submission of false documents - a crime of low gravity, for

which there is a punishment of up to four years of imprisonment, is also possible.

The indictment is about bribery agreements for silence. Along with them, related to the expansite, the tabloid edition of the National Enquirer paid \$ 30,000. The former Swiss Trump Tower, who claimed that Trump is the father of an extramarital child.

Tabloid made another payment of the partner of the year according to Playboy magazine in 1998 Karen McDugal, who wanted to sell her story about a novel with Trump during the 2016 election campaign. She concluded an agreement for \$ 150,000 with a Zatabloid who bought the rights to her history to hide her.

The last payment, which is focused in the indictment, concerns an agreement worth \$ 130,000 between Trump's mediator Michaelkoen and the porn star Stormy Daniels, enclosed in the last days of the election campaign. The payment, which, according to Cohen, made at the instructions of Trump, guaranteed that Daniels would not publish his story about sexual connection from the outstanding one.

Trump reimbursed Cohen's losses, and falsifying the relevant documents is a fracture, prosecutors say. In internal documents, the Trump company indicated the payment of Cohen as legal expenses, referring to the previous cost of the fee. However, as the investigation revealed, there was no such cost, and the agreement on the fee was also fictitious.

Trump denies all the offenses as well as any sexual contact with a porter.
