About it [told](#) Secretaries of National Security and Defense Alexey Danilov during the discussion "Ukraine before the face of external challenges".

He is convinced that Russia's fragmentation has already begun, and the decision of a full -scale invasion of February 24, 2022 only accelerated this process.

"This fragmentation occurs regardless of the desire of some countries, including Western countries. Everything will start with the Caucasus. And it will continue or not, it depends on us, "the NSDC secretary emphasized.

If the fragmentation process does not complete, the issue of stability of Ukraine will constantly interrupt on the agenda.

"The country that is in the risk zone does not attract investors. It is not necessary to vitrate that money will be used, regardless of the safety situation. There is a great deal of countries in the world where you can invest without risk. Therefore, if we are not abandoned by Russia's issues, then all other issues will be extremely difficult for us, "Alexei Danilov said.

In his opinion, new unions and tasks of Ukraine will be formed in the world and the region to make them protect themselves from Russia with their help.

The NSDC Secretary also shared a forecast for the development of the world. The National Security Council has developed five basic scenarios, among them:

- 1 . revival of democracies and a one -pole world accompanied by the United States
- 2 . a variable world under the influence of China
- 3 . a two -pole world in which the US and China will rule
- 4 . Multipolar world, or the world fragmented into several economic and safety blocks
- 5 . EU and China coalition that will have the greatest impact

Alexei Danilov is convinced that the most likely is the scenario of the transition of the additive world, or the competitive coexistence of the two countries.

Despite the fact that the army of the Russian Federation is fighting along the entire front line, its advancement is approaching the climax, so the occupiers use artillery to compensate for reduced offensive potential.

About it in your [report](#) reports the Institute of War Study(Isw).

Зазначається, що 8 квітня голова Ради резервістів Сухопутних військ України Іван Тимочко повідомив, що російські війська ведуть бої на всій лінії фронту, але наступальний потенціал росії продовжує знижуватися і що нинішні російські атаки спрямовані на відволікання і розпорощення українських військ в очікуванні контрнаступальних операцій.

Також повідомляється, що Іван Тимочко оцінив атаки РФ, зокрема в районі Бахмута та Авдіївки. Зазначається, що за його словами російські війська недосягають серйозних успіхів на жодній ділянці фронту, зазначивши, що темпи обстрілів у Бахмуті та навколо нього дещо знизилися на одних ділянках, а на інших — повністю зупинилися.

А російський наступ на Авдіївку, за оцінкою Тимочка — «захлинувся». Він підкреслив, що РФ досі не взяла під контроль Мар'їнку, незважаючи на те, що перетворила місто на руїни.

Водночас російські війська використовують артилерію, щоб компенсувати знижений наступальний потенціал, повідомляють в ISW.

Аналітики вважають, що високий попит на снаряди свідчить, що росія значною мірою покладається на артилерію, щоб компенсувати ключові недоліки в бойовій проможності, зокрема погані навички наземного штурму та недоступність авіації в Україні.

Російські війська використовують важкі артилерійські обстріли, щоб повністю зруйнувати населені пункти, перш ніж захопити їх наземними атаками.

«Триваючий дефіцит артилерійських боєприпасів у росії підірве здатність російських військових продовжувати компенсувати інші свої недоліки та обмеження», — йдеться у зведенні.

We are contagious about this stage of war, when it is important to both our society and partners of the defect of the path we have to go.

About it in your The president of Ukraine Volodymyr Zelensky said, Ukrinform reports.

*Viso:*

**\_ I wish health, dear Ukrainians!\_**

He held a regular rate meeting today. First of all, they considered the combat. What is in the main directions, in severe directions, such as Bakhmut and Avdiivka, Donetsk region in general, such as Kreminna and Luhansk in general.

They also considered the fact that only should be done. What we work on.

There were reports of General Syrsky, General Tarnavsky, Main Committee, Gur.

The General Staff and the Minister of Internal Affairs reported on the completion of new units of our defense forces - new brigades.

SBU head, General Malyuk made a report on his part - on our inner stability, protection against the internal enemy and protidius to collaborators.

We are now at this stage of war, when it is important to our society and the partner to lose the sense of the path we have to go. It is the way. The path that is ahead.

Compared to last year, many places are now quieter. But this does not mean that you can ignore the war somewhere or be less concentrated on the assistance.

We managed to do a lot with partners to protect people, Ukraine, all of Europe. But that does not mean that it is time to rest on the laurels. The path is ahead. Movement is ahead. What we need no less unity, less. No less focus than before.

As before, our positions on the front, all our warriors in positions must support Ukrainian positions politically and informally, with the power of weapons by the tribal of our social unity, our inner stability and strength of Ukraine with the world. And this is what is the task of both the state and all the states, both Ukraine and everyone in the world, who value free life and international rule based on rules.

It is unreasonable to simply hopefully hoping that someone else who is now in the trenches, who is now in the assault, will bring victory. This is a common task. It is won by everyone. Those who fight for it and those who give weapons. Those who are the possibilities of the terrorist state and those who increase the capabilities of Ukraine. Today I had a very interesting, meaningful meeting with the American Businessman and Philanthropist Howard Buffette. It has long and generously helping Ukraine, our people. Many of the projects are being implemented with its support. For example, the construction of a kitchen factory has begun in Bucha, which will become part of a reform of

school nutrition in Ukraine and will provide children in three communities of Kyiv region. This project will also be scaled to different regions, in particular in Kharkiv region.

And when a person helps when he personally cares for support - which is a total of hundreds of millions of dollars in general - then such a person sees very well, how important everyone to be on the way to victory, how important everyone is active, as important to all become a hero to something in something. To win we all.

I thank you for the support of Mr. Buffett. Thank you to all our partners in the world, who non -traffic in help.

I thank all Ukrainians and Ukrainians who understand that we have to go this path together - to victory, and in true unity, supporting each other and the state.

**\_ Glory to all our soldiers!**

The People's Forestry of Ukraine and the former athlete Olga Saladukha criticized the actions of the president of the International Olympic Committee Thomas Bach at the expense of Ukraine and the possible admission of athletes from the Russian Federation and the RB to the Olympic Games.

She told this exclusively in a comment to Ukrinform correspondent.

"Thomas Bach shows that he has opened the door in order to return the Russian and Belarusian athletes to the world arena is what he or she has in world sports. We see that more and more federations allow these athletes to participate in competitions. Honestly, I don't know what they think. A year ago, Thomas Bach said that we are solidarity with you, that people are killed in Ukraine. In a year we have lost even more people, we see destroyed infrastructure, and solidarity went somewhere ... They are conditionally solidarity with us, but allow ourselves to do it, do it. The other day, I returned from Donetsk, I was under the time ravine. I saw how the cities are destroying and wrote the post: please come and see what's going on. Our athletes instead of trophy, protect their home country, stand and die for their home. I am scattered Thomas Bach to hear our athletes, "Saladukha said.

In addition, the former World Champion in a triple jump stressed that the Mipovin is possible to make Russian and Belarussian athletes prevent international competitions, including the Olympic Games.

"The government is now forbidding our athletes to compete in competitions where Russians and Belarus will be released. We need to do everything possible to prevent these athletes, so that our athletes can go, speak to rise in our craft, heard the anthem and hear about our country. The work of the Minister, the Presidential Olympic Committee continues. Recently, there was a meeting of the World Commission of Athlets. We told about our pain there. As a deputy of the Verkhovna Rada, I appealed to Thomas Bach from the Committee on the prevention of Russian Tabilor's athletes for international competitions. He says he hears us, but they tell our athletes that if the government does not allow you to do a permit, then the IOC will support you, you will be able to perform in competitions. I even miss out how it will happen, "Saladukha said.

She also emphasized that Ukrainian athletes now do not understand what to do, because in the future Russians and Belarusians can allow competitions. The IOC recently published recommendations for international federations on the admission of Russians and Belarus to international competitions in neutral status without national symbols. The Committee plans to make a separate decision this issue a little later.

We are contagious about this stage of war, when it is important to both our society and partners of the defect of the path we have to go.

About it in your The president of Ukraine Volodymyr Zelensky said, Ukrinform reports.

*Viso:*

**\_ I wish health, dear Ukrainians!\_**

He held a regular rate meeting today. First of all, they considered the combat. What is in the main directions, in severe directions, such as Bakhmut and Avdiivka, Donetsk region in general, such as Kreminna and Luhansk in general.

They also considered the fact that only should be done. What we work on.

There were reports of General Syrsky, General Tarnavsky, Main Committee, Gur.

The General Staff and the Minister of Internal Affairs reported on the completion of new units of our defense forces - new brigades.

SBU head, General Malyuk made a report on his part - on our inner stability, protection against the internal enemy and protidius to collaborators.

We are now at this stage of war, when it is important to our society and the partner to lose the sense of the path we have to go. It is the way. The path that is ahead.

Compared to last year, many places are now quieter. But this does not mean that you can ignore the war somewhere or be less concentrated on the assistance.

We managed to do a lot with partners to protect people, Ukraine, all of Europe. But that does not mean that it is time to rest on the laurels. The path is ahead. Movement is ahead. What we need no less unity, less. No less focus than before.

As before, our positions on the front, all our warriors in positions must support Ukrainian positions politically and informally, with the power of weapons by the tribal of our social unity, our inner stability and strength of Ukraine with the world. And this is what is the task of both the state and all the states, both Ukraine and everyone in the world, who value free life and international rule based on rules.

It is unreasonable to simply hopefully hoping that someone else who is now in the trenches, who is now in the assault, will bring victory. This is a common task. It is won by everyone. Those who fight for it and those who give weapons. Those who are the possibilities of the terrorist state and those who increase the capabilities of Ukraine. Today I had a very interesting, meaningful meeting with the American Businessman and Philanthropist Howard Buffette. It has long and generously helping Ukraine, our people. Many of the projects are being implemented with its support. For example, the construction of a kitchen factory has begun in Bucha, which will become part of a reform of

school nutrition in Ukraine and will provide children in three communities of Kyiv region. This project will also be scaled to different regions, in particular in Kharkiv region.

And when a person helps when he personally cares for support - which is a total of hundreds of millions of dollars in general - then such a person sees very well, how important everyone to be on the way to victory, how important everyone is active, as important to all become a hero to something in something. To win we all.

I thank you for the support of Mr. Buffett. Thank you to all our partners in the world, who non -traffic in help.

I thank all Ukrainians and Ukrainians who understand that we have to go this path together - to victory, and in true unity, supporting each other and the state.

**\_ Glory to all our soldiers!**

At a briefing of the Ministers of Defense of Ukraine and the Kingdom of Denmark in Media Centerukraine - Odesa, Alexei Reznikov shared plans to

protect civilian citizens from the consequences of a Russian large -scale invasion, namely the release of territories. He noted that the process would consist of several differenties.

According to him, Denmark has specialized drones - submarines that have sappers that are able to detect, record and transmit coordinates to the sappers, which can carry out sapper work underwater. In Ukraine, since 2014, the company has been operating, which is represented by the Kingdom of Denmark. This company has great possible expertise to carry out humanitarian demining, that is, the change in areas that are not in the war zone.

Another institution of demining in Ukraine is the SES. They are interested in the demining of civilian infrastructure.

There is currently an interagency group headed by Yulia Sviridenko, the First Viceceremian and the Minister of Economy. It, as an economist, understands which industries are priorities in this matter. And the experience of the Kingdom of Denmark will be indispensable for the effective work of our sappers.

Center for Combating Misinformation in NSDC Ukraine [Published](#) The main narrative that was promoted by the Russian media.

“Russia is on the side of light. And this can be easily proved, because Russia does not seek to be richer, does not seek to capture other countries, does not seek to subdue someone,” Kirill Gundyayev said boldly.

Gundyayev's cynical statement was supplemented by the words that the war in Ukraine was the “cemetery of God” and only Russia found the strength to withstand evil.

Also, according to Moscow Pop, the reason for the war in Ukraine was the non-imperial desires of Putin, and the conflict of the West and Russia against the background of the absence of “common Christian values”.

The statements of religious leaders are aimed at heating the internal conflict in Ukraine against the background of the transition to the PCU.

"Reconciling the war with religion, the Kremlin tries to justify their crimes and unite the Russians around the "Holy War", which, in their opinion, should contribute to voluntary mobilization," the statement said.

This is stated in [message](#) Poland's representations to the UN.

“Every year in the first days of April we honor one of the most tragic clergymen of Poland - [Katyn Shot](#). У 1940 році за таємним наказом Йосипа Сталіна НКВС (Soviet secret police), здійснила серію масових страт майже 22 000 польських офіцерів та представників інтелігенції — військовополонених. Це сталося лише через кілька місяців після того, як сталінська червона армія приєдналася до гітлерівського Вермахту під час військового вторгнення до Польщі, що фактично почало Другу світову війну. Польських військовополонених зі зв'язаними руками розстрілювали в потилицю, а потім кидали в ями безіменних братських могил. Один за одним, двадцять дві тисячі разів. Тож не дивуйтесь, що фотографії минулорічних подій у Бучі та Ірпені повернули ці жахливі спогади з нашого власного минулого», — зазначив Кшиштоф Щерський.

Він процитував пророчі слова, сказані польським президентом Лехом Качинським, який загинув під російським смоленськом у 2010 році під час візиту для вшанування пам'яті польських офіцерів-жертв розстрілів НКВС у Кatinі:

«росія вірить, що повертаються колишні часи імперії, яка розвалилася менше 20 років тому. Що знову домінування буде характерною рисою цього регіону. Але цього не буде», — резюмував постійний представник Польщі в ООН.

За процесуального керівництва прокурорів Офісу Генерального прокурора скеровано до суду обвинувальний акт стосовно командира роти 173-го окремого розвідувального батальйону 106-ї дивізії зс РФ за

фактом жорстокого поводження з цивільним населенням, поєднаним з умисним вбивством та інших порушень законів та звичаїв війни.

Розслідуванням встановлено, що 5 березня 2022 року російські військові 173-го окремого розвідувального батальйону та 137-го гвардійського парашутно-десантного полку захопили будівлю в м. Ірпіні по вул. Федора Кричевського. Вони перевіряли людей на блокпосту на виїзді з міста.

Захопивши об'єкти, окупанти встановили вогневий контроль над проїжджаючою частиною вул Олега Кошового. На той час це була єдина дорога, якою можна було евакууватися на транспорті з міста.

Наступного дня, 6 березня 2022 року, о 07:30 цивільні жителі м. Ірпінь спробували евакуюватися з міста на власних автомобілях. Люди наклеїли на них листи з написами «ДІТИ» та «ЕВАКУАЦІЯ», щоб позначити, що це саме цивільні транспортні засоби.

Колона рухалася по вулиці Незалежності та повернула на вулицю Олега Кошового у напрямку Житомирської траси. Коли автомобілі доїхали до ЖК «Кошовий» по них ізгранатометів та стрілецької зброї відкрили вогонь російські військові. В результаті обстрілу шести автівок загинуло п'ять осіб та ще сім, у тому числі малолітня дитина, отримали поранення різного ступеню тяжкості.

Окупанти жорстоко ставилися до поранених та не давали можливості надати їм допомогу.

Досудове розслідування здійснювалося групою слідчих Головного слідчого управління Нацполіції України.

The initial plan to seize Kiev was designed for 3-5 days. In the destroyed technical college there was a parade form of clothing: they were preparing for a parade on Khreshchatyk, and the lack of street fighting.

About it in an interview with RBC-Ukraine [told](#) перший заступник Міністра оборони України генерал-лейтенант Олександр Павлюк.

«Під виглядом проведення стратегічного командно-штабного навчання РФ здійснила підготовку та розпочала широкомасштабну збройну агресію з метою знищення нашої держави. Початковий план захоплення Києва був розрахований на короткострокову операцію тривалістю в 3-5 діб. Подібний план був використаний СРСР в Угорщині в 1956-му, Чехословаччині в 1968-му та в Афганістані у 1979 році», — повідомив він.

За його словами, окупанти за звичним для себе принципом планували щонайшвидше висадити ССО і повітряні десанти на аеродромах Гостомель і Васильків.

«Ракетними та авіаційними ударами — знищити нашу систему ППО, пункти управління військових частин ЗСУ та Національної гвардії, об'єкти критичної інфраструктури.

Далі, за умов дезорганізації і краху системи управління, — захопити урядовий квартал та встановити свій маріонеточний уряд. Наміри противника було вщент розбито Силами оборони, як і всі подальші спроби зміни тактики наступу. Ворог недооцінив наших громадян, і зрештою — був змушений стрімголов тікати», — зазначив Олександр Павлюк.

The Coordination Headquarters met with the families of prisoners and disappeared defenders from a separate airmobile brigade of the DShV Armed Forces. Participation in the events of the coordination headquarters and the military unit.

About it [reports](#) Coordinating headquarters for the issue of prisoners of war.

The staff representative drew attention to the fact that the accounting category has no non -intermediary influence on the involvement in the exchange processes: both captivity, and probably captivity, and missing persons - all defenders and defenders who are introduced into a unified register of defenders, are fed for exchange.

According to a representative of the military unit, in order to obtain certain certificates of the case, it is necessary to issue an appropriate appeal to the military unit via territorial centers of staffing and social support(TCC and SPs - Victory Activities). Він запевнив, що родичі, які зробили відповідні запити, отримують витяги з актів службового розслідування.

Представник фінансового відділу прокоментував питання, які стосуються порядку нарахування грошового забезпечення і додаткової щомісячної винагороди під час виконання бойового завдання, а також виплату коштів у тому разі, коли військовослужбовець зник безвісти чи потрапив у полон.

Що стосується повернення тіл загиблих захисників, представник Штабу зауважив, що цей процес належить до повноважень Офісу Уповноваженого з питань осіб, зниклих безвісти за особливих обставин. Після деокупації території відбуваються пошукові заходи за участі відповідних груп. окремо ведуться переговори про обмін тілами з країною-агресоркою.

In Ukraine, eight fighters were sent for lattice, who stormed Bakhmut and identified the positions of the Armed Forces in Kherson region.

About it [reports](#) Служба безпеки України.

За матеріалами СБУ тюремні строки отримали 8 бойовиків, які штурмували Бахмут та розвідували позиції ЗСУ на Херсонщині. В український полон вони потрапили під час бойових зіткнень на східному та південному фронтах.

Зазначається, що серед засуджених — помічник гранатометника так званого «батальйону прізрак». З 2014 року він воював проти сил АТО, а після широкомасштабного вторгнення штурмував міста в Донецькій та Луганській областях.

Крім того, тюремні строки отримали двоє бойовиків-росіян. Разом із іншими окупантами вони чергували на російських блокпостах у захоплених містах Донеччини, проводили артобстріли позицій українських військ на території регіону.

Ще один зловмисник мав завдання виявляти безпілотні літальні апарати Сил оборони на тимчасово окупованій території Луганщини.

«До 15 років ув'язнення також засуджено бойовика, який на початку повномасштабного вторгнення перебував у тюрмі на території тимчасово захопленої частини Донеччини. Згодом загарбники запропонували йому амністію. Упродовж 20 днів колишній в'язень брав участь у штурмі Бахмута і потрапив таму полон», — ідеється у повідомленні.

Також на Полтавщині за матеріалами СБУ до 15 років тюрми засуджено двох мешканців Горлівки, які напередодні 24 лютого минулого року добровільно вступили до лав окупантів. Пізніше вони брали участь у штурмі населених пунктів Донеччини.

President of Ukraine Volodymyr Zelenskyy [applied](#) To the Ukrainians on the 412nd Defense Day:

\_ I wish health, dear Ukrainians!\_

He held a regular rate meeting today. First of all, they considered the combat. What is in the main directions, in severe directions, such as Bakhmut and Avdiivka, Donetsk region in general, such as Kreminna and Luhansk in general.

They also considered the fact that only should be done. What we work on.

There were reports of General Syrsky, General Tarnavsky, Main Committee, Gur.

The General Staff and the Minister of Internal Affairs reported on the completion of new units of our defense forces - new brigades.

SBU head, General Malyuk made a report on his part - on our inner stability, protection against the internal enemy and protidius to collaborators.

We are now at this stage of war, when it is important to our society and the partner to lose the sense of the path we have to go. It is the way. The path that is ahead.

Compared to last year, many places are now quieter. But this does not mean that you can ignore the war somewhere or be less concentrated on the assistance.

We managed to do a lot with partners to protect people, Ukraine, all of Europe. But that does not mean that it is time to rest on the laurels. The path is ahead. Movement is ahead. What we need no less unity, less. No less focus than before.

As before, our positions at the front, all our warriors in positions are supported by Ukrainian positions politically and informally, forces and power and the power of our social unity, our inner stability of Ukraine's tamitivitiy with the world. And this is what is the task of both the state, so Ivsih in the state, both Ukraine and everyone in the world, who value the free life of an international order based on the rules.

It is unreasonable to simply hopefully hoping that someone else who is now in the trenches, who is now in the assault, will bring victory. This is a common task. It is won by everyone. Those who fight for it and those who give weapons. Those who are the possibilities of the terrorist state and those who increase the capabilities of Ukraine. Thank you to all our partners in the world who does not keep the activity in help.

I thank all Ukrainians and Ukrainians who understand that we have to go this path together - to victory, and in true unity, supporting each other and the state.

**Glory to all our soldiers!**

**Glory to our strong people!**

***Glory to Ukraine!***
