In January -February 2023, the government response team on a computer emergency event, which operates with the State Secretariat, has worked on more than 300 cyberincyders. It is almost twice less than in the corresponding

period last year, when Russia was prevailing for a large -scale invasion and the activity of hackers was anomalous high.

About it [reports](#) State Secretariat of Uterticulum.

"With the help of hackers, Russia is trying to get any information that can be advised in the Convention War," the message reads.

According to experts, in January 2023, the activity of cyber -refiners was somewhat reduced. This may probably be associated with the enemy New Year holidays. However, the Ulita hackers returned to the usual level of activity.

Since the beginning of this year, an increase in the number of attacks for espionage has been emphasized on the maintenance of constant access to the organization. And even the middle -aged software distributed by Russian hackers is dominated by data collection and remote access to devices.

"It can be one of the signs that Russia is preparing for a long war. She tries to obtain any information that can give preference in the Convention against our country: from mobilization data-to disclosure of the secrets of Western weapons logistics, "the Dozhaspecs said.

President of Ukraine Volodymyr Zelenskyy [applied](#) to Ukrainians on the 395th day of the war:

I wish health, dear Ukrainians!

Today, our National Guard celebrates its day, and it will be right if we thank the National Guard together. For the National Guard, along with all the warriors, he powerfully beat Ukraine. Thank you for the strength and strength of killing for the Donbas. For the defense of Bakhmut and Avdiivka. For the heroic protection of Mariupoli "Azovstal". For fighting in Luhansk region. For the fighting in the Kyiv region, for the battle for Kiev. They keep defense in the south, in the Zaporozhye direction.

Separately, I want to thank for the onset of the offensive, which has already become an example of the formation of new brigades for Ukrainian defense.

During the large -scale war, almost 5,000 National Guards have been marked by state awards - it is for participation in battles, for bravery, for stability, a slaughter, which is reached by the National Guard. 32 National Guard fighters awarded Hero of Ukraine.

I thank all the Guards: soldiers, sergeants, officers, command!Thank you who helps the National Guard units, who trains the fighters, provides them with them necessary, helps with treatment after injuries, with rehabilitation.

The power of Ukraine is the power of all who fight for Ukraine and who helps the soldiers. It is simply impossible to Yuena our state force without the National Guard.

Today there was a meeting with the military - a special military meeting, a special participant. He also held meetings with intelligence.

Defense, strengthening of our protection - both from the external threat, as well as the internal threats. We are preparing our appropriate steps.

Constantly, unchanged maximum attention - the situation on the forefront. Cruel battles, how much they take away the lives of our people and require a permanent mobilized stinker state and society every day.

It is wrong, it is unfair when our fighters who come in the front have a feeling that for many, the war has been in the rear. For those who are not just far from Donetsk or Nikopol, Saltivka, from the border areas of Sumy region, from Zaporizhzhya ... And who is thoughtful from the trenches, from the daily pain of Ukrainians.Dear Ukrainians!Support our fighters always when possible. Also, also about volunteer meetings and join when you can.

It is very important that everyone who has information influence is involved in the viral work. This applies not only to journalists. This applies to anyone who

can spread the truth about aggression. Who is capable of reminding the world of pro -Ukrainians and Ukrainian women who have passed through occupation through losses ... about what Ukraine is fighting for freedom and justice for both our people and for all the currents that are threatened by Russian tyranny. The world should be heard as intensively as last year that aggression against Ukraine is ongoing. He should hear that to end the war this year, to liberate Ukraine from Russian evil this year - the recipient task of the civilized world. Because civilized means, in particular, the irrespection to protect civilization.

He met with goodwill Ambassador UNICEF Orlando Bloom and UNICEF - Organization team that deals with humanitarian support and protection of children. Orlando Bloom has long been working with this direction. He was already in Ukraine, Nanha Donbass, even before the full -scale war. And he knows that this aggression has brought, how full -scale the efforts of the world should be to stop it to draw Ukraine after the war.

We discussed the issue of reconstruction of our country, our school infrastructure. Avid this help. We agreed to make our teams work on a few layers.

In particular, this is the issue of the return of our children who were exported to Russia by the creation of bomb shelters for our children. And the third is the technical support of dystioning training in areas and areas where it is impossible to study offline secrets.

Today, as always, I will celebrate our soldiers, who gave a significant result of Ukraine for the last day, for this day, in general this week.

57 Separate Motor Infantry Brigade, 5th Separate Storm Brigade and 93rd Separate Brigade-Well done, boys!Thank you for your power!

Marines of the 35th and 36th separate brigades, fighters of the 55th Artillery Brigade "Zaporizhzhya Sich"-all in Donetsk-thank you for being the best in the week!

I also want to celebrate our warriors today, which defend the summary and Chernihiv region. It is also a defense against attempts to start DRG across the border, it is the attachment of Ukraine from air strikes, it is also a protection against terrorists. **_ Glory to all our soldiers who are in battle!_**

_ Thank all who help defense!_

_ Eternal memory and respect to all our soldiers who gave their lives in Ukraine!_

As a result of large -scale special operations in Kharkiv and Donetsk regions, a branched agent network of the FSB, which is composed of locals, was

composed. The attackers were collecting intelligence on the places of moving forces of defense in the territory of the regions.

About it [reports](#) Security Service of Ukraine.

In the "special attention" of the enemy there were routes of movement of military echelons and dismantling of railway stations, which unload the arms of the Armed Forces. The agents also explored locations with ammunition, fire positions, checkpoints and fortifications of Ukrainian troops in the frontline areas of Ukraine and Dnipropetrovsk.

In addition, they convey to the occupiers the coordinates of strategically important bridges. The attackers recorded the results of Russian missile strikes by Pokramatorsk, Druzhkivtsi, Konstantinovtsi and settlements of Kharkiv region for argument of repeated air attacks.

Also during the temporary occupation of Izium and Balaklava, the persons involved in the local occupation administrations.

The SBU counterintelligence officers in stages documented the criminal acts of Russian agents ashamed four participants of the enemy network. One of them used the status of an assistant People's Deputy of Ukraine and the certificate of the journalist.

Four more are in the territory of the aggressor country. Complex measures are underway for them.

According to the investigation, the agent network was formed by two FSB personnel employees before the start of a large-scale invasion. It was a agent who was previously recruited by the Honorary Consul of the Russian Federation in Kharkiv. Other participants of the group, the aggressor was involved in unspoken cooperation remotely or during the traveling of the persons involved in the Russian Federation. Each of them was awarded a conspiratorial legend.

After February 24 last year, the FSB "activated" its agent for exploration and subversive activities against Ukraine. The transfer of intelligence to the RFZlovniki was carried out through a telegram channel in the form of media files of Tagelocations on electronic maps. In the case of occupation of the regions, the traitors "claimed" for entry into the management of the occupation administrations. In addition, according to the coordinates revealed during investigative actions, counterintelligence was a hostile cross with a weapon that the invaders left during the escape of the defense forces in Kharkiv.

On the basis of the evidence collected, the security services informed the detainees in the state treason, which was committed in the state of martial law. The trial of the arrogant event is detention. The investigation is ongoing to hold the responsibility of all perpetrators.

Deputy Minister of Defense of Ukraine Anna Malyar on her page in the telegram [told](#) About how not to break out a psychological equilibrium, reading messages in the media.

“There are two main types of information in the communication summons of the war:

News - retreat/come, have a rocket stroke, fighting, we keep defense, we cause losses, stabilizes the situation, intensified arbitration and more.

But there are things that will not change to the victory, which are specific and which do not need to be perceived as news and frightened every time. Because it is a simple -constitution of the inevitable fact.

For example:

The Russian Federation wants to capture the whole of Ukraine. This is their ultimate goal for our country. They have fallen to us in 2014. Therefore, regardless of the course of combatants, their defeats and unjustifiably large losses, they do not change this purpose. Another thing is that they cannot realize it.

What does it mean to us? What we should allow and consider all possible events in order to be ready to resist any time at any time. Actually, this is what happens.

Any headlines with the assumption of events are not news, but only assumption. All assumptions are entitled to life, but objectively there is only what is happening on the front and what has already happened.

Of all the forecasts of this war, there is only one accurate - we will win it.

The topic of mobilization. Also, no news and relevant until the victory itself. It is worth taking this way.

Objectively mobilization has been ongoing from February 24 to execute the Presidential Decree.

Thanks to the mobilization and high motivation of our people, we have already preserved the state in 2022 and now we will finish the case and release our lands. If you apologize for mobilization, it is the everyday reality of war, not news.

But for the calm perception of realities it is necessary to know that no waves are mobilizing. Everything goes in a planned order. The need for mobilization

depends on the development of the situation on the front - these are obvious things, it is not news.

It will also remain a permanent issue of the probability of rocket attacks of fans of Ukraine. Probably everything. Because the war continues. But how should you read the such heads with forecasts?

To understand that no one knows 100% how it will be. To know that Ukraine works with our partners to maximize the sky.

We have become a very adult society this year. We have learned to critically accept any information, we courageously tolerate the most tragic news and is quite difficult to knock out the collective psychological balance of media reports from the collective psychological equilibrium.

But this condition should be constantly maintained and not panic, fears and betrayal - because we still win the war, "Anna Malyar wrote.

Everything has changed during this year. Ukraine has changed the world.

The stability of the Ukrainian people and the skill of our army convinced that Ukraine would win.

_ I wish health, dear Ukrainians!

He just spent the meeting - for the first time on the departure, in the Dnieper. It is here, that the urban city of our country, after visiting manganese and Nikopol, Zaporozhye, the leading positions of our soldiers in the Zaporozhye region.

Operational directions have reported the actual situation. General -General, General Tarnavsky - they were personally. Those who head the defense of the Nadonechyna in the hottest directions. There were also online reports of the commander, which cover the south and north. There was a report by the head and others.

By the way, I want to thank the soldiers of our intelligence for their powerful work today. The Kraken unit, as always, at the height. Well done guys!

They discussed the general situation in the frontal areas, the fortification and protection of our borders along the entire length of the front - from Kherson region to Kharkiv region.

Each commander understands that the enemy must be responsible for every blow to our locations and villages, on our people. For Sloviansk, for Konstantinovka and Druzhkivka, for Avdiivka and Toretsk, for all the pain of Ukrainians-and not only during the full-scale war, but also during the 14th year.

The Dnieper has been our fortress for over nine years, and has been supporting the front of fighters all this time. It was here, in the Dnieper, from the 14th of the age of thousands of our soldiers saved health after injuries. The Dnieper concentrated the work of volunteers-from the first escape of aggression in the 14th year.

I thank you, Dnipro, thank everyone here and everyone in the city, who helps Ukraine to stand, stand firmly and beat the occupier.

Today in Zaporizhzhya there was a hit by Russian rockets in residential buildings in the city. Ordinary houses ... Unfortunately, partially burned.

Dozens of people were injured by this crazy Russian blow. Terrorists accurately where the rockets were directed. Sliding-fugitive "tornadoes". On houses.37 people were injured, two were killed. My condolences to those who have lost their relatives and closely...

More than 400 people have sought help.

Of course, Russia will be responsible for this blow. For this purpose, we will work with international justice, mobilizing the world for creating a sp

specifications on Russia's aggression. All this will be. The sentences will be terrorists.

Of course, we help those who have lost their home from this and similar blows. Local authorities and partners have a resource in order to give people priority assistance. And I thank everyone who quickly and without unnecessary bureaucracy implements relevant programs. I visited today our fighters at the hospital, where they are being restored. I thank every doctor, every nurse, all volunteers who help save the fighters.

He met with the leader Raphael Grosssey. The topic is clear: safety energy, our nuclear power plants. First of all, the Zaporizhzhya NPP, which Rosias uses for radiation blackmail in the world. No other terrorist has undergone in his cynicism to such depths in which Russia is constantly looking for a new bottom.

Keeping hostages for over a year is the worst thing that has happened in the history of European and world atomic energy. I thank our partners, thank Grossi to understand this and for the support of Ukraine in the relevant matters.

And one more.

We are already preparing for an important international event that will take place this week with a concern for President Biden and the United States. The summit for democracy. Ukraine will participate. Our position in support of freedom will sound, always, firmly.

Thank you to everyone who helps our country to protect freedom!

Glory to all who are fighting for Ukraine!

I thank all our people in Zaporozhye, in Manganese, in Nikopol, in the Dnieper, in all the locations that Russia wants to destroy so much and who stand so firmly!

_ together we will win .

Glory to Ukraine!
