According to Ukrinform correspondent in New York, she stated this at open debate in Radbeza Postpreda UK at Oonbarbar Woodward.

"We saw what the Russian idea of multilaterality means for the world. For more than a full -scale invasion of Russia in Ukraine, President Putin brought this Ukraine unimaginable suffering by trampling the UN Statute. Thousands of Ukrainians have been killed, millions were forced to leave their homes, and billions of people around the world have grown up with a rapid increase in prices for raw materials and brackets, "she said.

According to Woodward, the war has also become a real catastrophe for Russia itself, which suffered numerous human losses. Millions flee from the country to avoid a prize, freedom of speech is suppressed, Russia's economy is declining, noted.

"Her army is in a disorder, relying on Wagner - a non -reporting group, whose existence was denied a year ago, but who now issues the advisory foreign ministry during your prescription," she said, addressing Lavrov.

"Despite all the statements of Lavrov's Minister on effective multilaterality, I am not seeing effective or multilateral in Russia's foreign policy," Woodward said.

According to her, if Lavrov is interested in ending the conflict as soon as possible, Russia should immediately withdraw its troops from all over the Ukrainian territory.

Freedom Ukraine and Belarus are closely linked, Belarusians seek victories of Ukraine, as well as the key to their own freedom.

This was stated by the leader of the Belarusian opposition Svetlana Tikanovskaya in the Berlin Power of Freedom, organized on April 24 by the German Fundmain, reports Ukrinform correspondent.

"The fate of Ukraine and interconnected: not free Belarus without free Ukraine; There will also be no safe Belarus, "Tikhanovskaya said.

She noted that hundreds of Belarusian volunteers are fighting side by side, many activists in the country themselves join in the guerrilla movement, volunteers collect information and transfer it to the Armed Forces. The Belarusian Vladagorstoko pursues people for it: on average, 20 people and protests against the regime, Tikhanovskaya.

She emphasized that Ukraine should provide everything needed in order to win it.

The oppositionist also urged the event to help hold Lukashenko's reference regime, as the tribunal should be not only for Putin, but also for her puppet - Lukashenko.

"Lukashenko knows that without Putin he will not last a day. Therefore, he allowed the Russian dictator to use the Belarusian territory for attack on Ukraine and supported this attack, "Tikhanovskaya said, repeating that it was supported by Putin's war, not the Belarusian people.

"Putin wanted to do Ukraine as Belarus is today: a fully controlled puppet country with weak and humble government. But in the way of Lukashenko, who has completely obeyed Putin, the Ukrainian government of Inadrod stood up in defense of their state. The whole world is inspired by the determination of Ukrainian, "the oppositionist emphasized.

According to her, plans to place nuclear weapons in Belarus will make 9 millions of Belarus hostages of two criminal regimes and create a constant threat to Ukraine, Europe, and the world.

"But the worst part will mean Russian control over Belarus for years. Mipovina is not allowed, "Tikhanovskaya emphasized.

According to her, in 2020, Belarusians fought for the honest elections, today they will be fought for their sovereignty and the very existence of their country.

Although the Baltic countries are no longer importing Russian energy such as gas and gas after invasion of Ukraine last year, they are still entrusted to the stability of their electricity system.

Both Russian and continental-European systems operate at 50 Hz, but while the Russian system is managed from Moscow, the continental Europe network is decentralized, which means that every national network operator is responsible for maintaining the stability of its system.

There are currently no data on the volume of milk yields in the Donetsk Tacherson regions, where battles with Russian invaders are ongoing. The Association explains that it is likely that the growth of raw material production in March is associated with the beginning of the "big milk season" in Ukraine. However, increasing the demand for dairy products in Ukraine in the short term is more likely due to limited demand in the domestic market.

At the same time, in foreign markets there is a limited demand for dairy products. In March, traditional buyers of Ukrainian dairy products as Israel and Georgia reduced imports of milk powder, Moldova reduced imported oil, and Kazakhstan bought less cheese.

Read also: As of today, Ukrainian dairy products are not in demand in the EU, where there are excess milk-raw materials, and warehouses are clogged with exchange products. In addition, under the pressure of local market operators, the Polish government introduced a temporary assembler for the

import and transit of agricultural products from Ukraine, incl. Dairy, complicates the sale of domestic producers.

According to preliminary data of the State Statistics Service, in March 2023, Ukraine export 8.94 thousand tons of dairy products worth \$ 20.27 million, which is 1.8% more than in February this year.

Presidential Advisor Mikhail Podolyak insists that the Western names of Ukraine's alleged plans to strike Moscow in the anniversary of the full -scale invasion form public opinion in the West proinfantality and impulsive actions of Ukraine, which is dangerous to give seriously.

Instead, Ukrainians need long -range missiles and aviation to destroy Russian logistics in temporarily occupied territories and various types of aviation, he stated in , reports Ukrinform.

"We see a strange media backing ..." On the anniversary of the war, Ukraine planned to strike the strikes in Moscow to all that it has, but partners refused, " - conspiratorically reported respected American media. Of course, without details of the logic camps. And so one simple question is right away. And why would we need to make a cellar? To what? What task would such a one -time action solve? Changed the course ? Would the Russians run away? Canceled the broth in weapons? So, such publications with a mandatory reference to "anonymous sources" perform only one catastrophic function: forming a social opinion in the western capitals, as if Ukraine is unreasonable, infantile, an impulsive country, which adults are dangerous to trust. It is consciously done unconsciously - another question, "Podolyak emphasized.

At the same time, he explained that the vision of Ukraine is quite different.

Maybe it is not possible to play excuses and underwhelming realpolitik, will the war and people die? " - said the adviser of the OP head.

A number of countries make proposals for peaceful settlement in Ukraine, but in order for such proposals to be capable, it is necessary to visit Ukraine first, to understand the difference between the aggressor and the victim of aggression: Russia does not want to stop aggression, but Ukraine can not afford to stop resistance to Russian.

This was stated in Luxembourg today during a press conference after the EU's Supervisor's results by EU High EU representative Josep Borrel, Ukrinform correspondent reports.

"We had a discussion in Ukraine as always. In the course conference, Minister Kuleba provided us with current information on the situation on the ground, the propiotic and needs of Ukraine. We know that Ukraine urgently requires water and rockets, and they need them to protect their territory. This is not that Russia does not want to stop, and Ukraine does not want to. NO. It can't be so presented. Russia does not want to stop the invasion, Aukraine is forced to continue to defend himself. This is the right way to explain that there is happening there, "Borrel said.

"Given the horror that is happening in Ukraine, many people call for peace. I also call for peace. But these calls - where they were when the Russian troops were in the borders? We all want peace, and above all - the Ukrainians themselves. But it should be a fair peace, and until then we will need to support Ukraine's defense, "the EU's high representative added.

Read also: He recalled that certain ideas for peaceful settlement in Ukraine were rejected, as well as from Brazil. In order for them to be effective, anyone should talk to Kiev, go there, see aggression with their own eyes, and look at it with the eyes of those who are under the bombs every day. Any such-person has a very clear imagination that there is an aggressor that has struck the International Charter and invaded another country, and there is a victim of this aggression, Borrel emphasized. As reported, the EU Council of Ministers in Luxembourg today took place in Luxembourg, the main topics of which were: discussing further assistance for Ukraine, in particular, with the urgent delivery between the EU and China.

Countries continue to work on the implementation of the project of joint ordering ammunition for Ukraine, but the EU consistently fulfill the consistent obligations to supply military equipment to Ukraine, weapons and tunes to cover urgent needs for defense against aggression.

This was stated in Luxembourg today by the EU's Foreign Affairs Supervisions in Luxembourg.

"Today we looked at the volume of supplies to Ukraine. I can assume that their general volume has already exceeded EUR 13 billion, only in the measurement of military support. We continue to fulfill our obligations to deliver 1 million units of artillery ammunition and missiles for Ukraine. Remember that we have developed the first, second and third paths for this purpose. The first tile envisaged the use of 1 billion euros to meet the most different needs of Ukraine. This work continues. I cannot give Valkretic figures, but more than 1000 rockets have already been provided to Ukraine, and the number of ammunition is increasing, although it should grow faster in the next days, "Borrel said.

He noted that the second way of providing Ukraine with ammunition, which preceded the joint order by countries The production of artillery ammunition at the defense industry enterprises is still in need of a joint decision, although the allocation for such targets for another billion euros has already been agreed at the EU level.

"In this(The second path - ed.)There are some differences, but we continue to work. We do not look forward to forming a legal document. The work is fully ready, until such a legal document is completed. The third way is to increase the capacity of our defense industry. My friend(European Commissar - Ed.)Tieri Breton will soon be presented with specific proposals for increasing defense production. For this, we will need to use what we have, but we have a multifaceted one, "the high representative of the EU emphasized.

He also reminded that the military auxiliary mission of Ukraine, with the help of which more than 16 thousand Ukrainian servicemen have already undergone a training, continues to work, so the EU fulfills its obligation to provide a training for 30,000 military specialists by the end of the year. **Read also:** [**Borrel**](#) As reported, the EU Council of Ministers of Ukraine was in Luxembourg today, the main topics of which were: discussing further assistance to Ukraine, in particular, the urgent delivery of ammunition to counteract Russian aggression, the development of the situation in Sudan, as well as to clarify the strategy of development of development between the EU and China.

Freedom Ukraine and Belarus are closely linked, Belarusians seek victories of Ukraine, as well as the key to their own freedom.

This was stated by the leader of the Belarusian opposition Svetlana Tikhanovskaya in the Berlin Power of Freedom, organized on April 24 by the German Fundmain, reports Ukrinform correspondent.

"The fate of Ukraine and interconnected: not free Belarus without free Ukraine; There will also be no safe Belarus," Tikhonovskaya said.

She noted that hundreds of Belarusian volunteers are fighting side by side, many activists in the country themselves join in the guerrilla movement, volunteers collect information and transfer it to the Armed Forces. The Belarusian Vladagorstoko pursues people for it: on average, 20 people and protests against the regime, Tikhonovskaya.

She emphasized that Ukraine should provide everything needed in order to win it.

The oppositionist also urged the event to help hold Lukashenko's reference regime, as the tribunal should be not only for Putin, but also for her puppet - Lukashenko.

"Lukashenko knows that without Putin he will not last a day. Therefore, he allowed the Russian dictator to use the Belarusian territory for attack on Ukraine and supported this attack," Tikhonovskaya said, repeating that it was supported by Putin's war, not the Belarusian people.

"Putin wanted to do Ukraine as Belarus is today: a fully controlled puppet country with weak and humble government. But in the way of Lukashenko, who has completely obeyed Putin, the Ukrainian government of Inadrod stood up in defense of their state. The whole world is inspired by the determination of Ukrainian," the oppositionist emphasized.

According to her, plans to place nuclear weapons in Belarus will make 9 millions of Belarus hostages of two criminal regimes and create a constant threat to Ukraine, Europe, and the world.

"But the worst part will mean Russian control over Belarus for years. Mipovina is not allowed," Tikhonovskaya emphasized.

According to her, in 2020, Belarusians fought for the honest elections, today they will be fought for their sovereignty and the very existence of their country.

According to Ukrinform correspondent in New York, she stated this at open debate in Radbeza Postpreda UK at Oonbarbar Woodward.

"We saw what the Russian idea of multilaterality means for the world. For more than a full -scale invasion of Russia in Ukraine, President Putin brought this Ukraine unimaginable suffering by trampling the UN Statute. Thousands of Ukrainians have been killed, millions were forced to leave their homes, and billions of people around the world have grown up with a rapid increase in prices for raw materials and brackets, "she said.

The UNF OWF Skol's permanent Representative on behalf of 27 EU countries has accused the region of cynicism against its debate on the multilaterality of international relations and the protection of the principles of the Charter of the United States.

According to Ukrinform correspondent in New York, he stated this at a meeting of the UN Security Council, organized by Russia, on "Effective Multilaterality by Protecting the Principles of the UN Charter".

"In organizing these debates, Russia tries to present itself as a protector of the multilaterality assigned to the UN Charter. Nothing can be further distinguished. If Russia was indeed interested in the topic of today's order, it ceased to violate the UN Charter, international law and immediately withdrawing all its troops from all over Ukraine, "reading a statement on behalf of the EU countries.

According to him, this day is "another sad example of Russian information manipulation, misinformation and abuse of their membership of the UNSR."

He called Russia's discussion of this topic with flashy hypocrisy, although effective multilaterality should actually play an important role in international relations.

Skoog also emphasized the need to reform the UN and all the global management system, including the Security Council.

Read also:

In addition, according to EU States, the international community should ensure that Russia is responsible for crimes committed in Ukraine and the opposition.

"The EU also remains an adamant supporter of the International Criminal Court, and we continue to call for the general ratification of the Roman Statute," he appealed, thus appealing to the MCS issued by the order for the arrest of President of RFVvolodimir Putin for abduction of Ukrainian children.

"141 The state supported this requirement. If Russia takes care of efficient multilayers, then this is the first way to prove it, "the post -pre -EU said.

The Center for Studies of the Military History of the Armed Forces of Ukraine on the occasion of the 103rd anniversary of the Warsaw Treaty between Ukraine and Poland in 1920 presented a new exhibition project "Union of White Eagle and Golden Trizub". He tells in detail the military assistance provided by the Poles more than a hundred years ago, as well as the help that is now provided during the Russian-Ukrainian War.

It is worth noting that the history of Ukrainian-Polish relations has a rich and saturated fire. The Poles and Ukrainians are not uncommon to unite. Especially if it went from the original enemy - Muscovy. And one prudent pages of mutual history are the conclusion of a political law between the Ukrainian People's Republic and the Republic of Poland on April 21, 1920.

[!/\(Images/APMIAINFORM/2023-04-24T93-00-00-04-00/img_0273-150x150.jpg\)](!/(Images/APMIAINFORM/2023-04-24T93-00-00-04-00/img_0273-150x150.jpg))

It was part of the Military Convention, which laid down the fundamental Polish-Ukrainian military action against the Bolshevik troops of Ukraine. The importance of these and subsequent allied initiatives can be completely characterized by the words of Jerzy Gedroycs, a well-known Polish publicist, politician and public figure: "There is no independent Poland of inadvertent Ukraine."

It was here in Kiev that joint hostilities with the participation of the UNR Army of Ipol soldiers against the Bolshevik authorities took place. As in 1920, a common enemy, a Russian aggressor, united the efforts of two neighboring peoples in our time. We see the sufferer that Poland is the most powerful lobbyist of Ukraine. It provides logistics support for Ukraine, assists weapons

and equipment, has become a refuge of more than 3 million Ukrainians, - says Colonel Igor Kosyak, Head of the Center for Military History. Knowing the price of Russian occupation, Ukraine and Poland are doing everything to prevent the repetition of the events of 1920 and 2022. And from the beginning of the large-scale intensification of Russia, Poland has taken a clear pro-Ukrainian position.

Maybe then in 1920 we did not win, but now our union is much more. After all, Ukraine enlisted the support of most countries of the world. And we will necessarily win. We continue to create a new Europe together. And this Europe will be released due to the courage and courage of Ukrainians, - said Volodymyr Tilishchak, Deputy Chairman of Ukrainian Institute of National Memory.
