The commander of the Tactical Aviation Brigade of the Air Command "Center" of the Air Force of Ukraine Colonel Alexei Manyushkin noted that Ukrainian

servicemen are so motivated that they are ready to master in a short period of Western equipment to bring our victory as soon as possible.

About this [it is referred](#) on Military Mediabcenter.

"We are already using some Western weapons specimens, such as a HARM pro-ditulocation rocket, which will be much higher if we use it from the F-16 aircraft," he said.

According to Alexei Manyushkin, in the first weeks of the invasion of Russians in Ukraine, accumulators lost a significant amount of their aviation. Then the image of "ghosts" appeared because the Russians did not expect that there would be such resistance and where the planes came, if they "destroyed" them.

"I am proud of my pilots who perform combat missions because it is really easy to knock down the same" Shahhed "or winged rocket. When it was created by the MiG-29, it was not intended to combat such unmanned uncertain apparatus, then they did not exist even in nature, "-said.

The brigade commander added that the forces of Ukraine's defense forces are sincerely grateful to foreign partners for the military assistance already provided and those planes, components, and facilities that will come to Ukraine in the near future. From the systems of Soviet production to modern air forces - everything helps to make nasheneo safer.

First Deputy Minister of Defense of Ukraine Lieutenant General Oleksandr Pavlyukvpw interagency meeting on the possibilities of production in Ukraine of modern equipment and equipment for mine

Ukraine is the most replaced country in the world. The area of contaminated with excellent objects of territories reaches 180 thousand square kilometers.

Demand groups work to solve the problem, but are not able to speed up with an extremely large amount of work.

Read also:

[The problem of mine safety will be relevant for Ukraine for tens of year](#) In order to resolve this issue on April 6, 2023, on the initiative of the First Department of Defense of Ukraine, Lieutenant General Alexander Pavlyukivka was an interagency meeting "Possibilities of production in Ukraine of modern equipment and technique for mine".

In addition to representatives delegated by ministries and profile departments, representatives of state and private enterprises were invited in the meeting.

According to Lieutenant General Oleksandr Pavlyuk, the Ministry of Defense, the Armed Forces and other other ways are already taking some steps to

create new units, as well as the preparation and better equipment of those that already exist.

The main task of this meeting was to study the possibilities of domestic producers, their ability to provide special units with means of differentiation and technology.

During the meeting, representatives of the Armed Forces support forces, DSST, other consignments voiced the specific needs for modern technical means, necessary for the fulfillment of the tasks of the demining units, and the basic requirements for them.

In particular, the head of the administration of the State Special Service of Defense of Ukraine Major General Bogdan Bondar reported that the units especially need manual demining means, machines for mechanized miners, means of monitoring of territories, including drones.

The Commander of the Armed Forces of the Armed Forces Brigadier General Dmitry Gerega, in his turn, reported that the units of support use during demining wedged machines of various modifications: Slovak machines Bozena and their counterparts, but in the near future the need for such technique will only grow.

In the further discussion of the capabilities of Ukrainian producers, representatives of other ministries, departments, companies and organizations took part in the demining rate.

The First Deputy Minister for Strategic and Industry, Oleg, suggested to create powerful cooperative hubs at the public and private sector bases, where enterprises will be involved in cutting types of work.

The idea was supported by the CEO of Ukroboronprom, Yuriy Gusev, which reported that a state-owned enterprise already has a number of developments, in particular the custom of demining machines on the basis of domestic T-64A tanks.

The participants of the meeting discussed the possibility of involving the working group with the leading of the Vice-remer-Minister of Ukraine.

The group should work out the general concept of work, consider the issue of unification of technology, licensing of production.

Regarding their own production, representatives of the Federation of Employers of Ukraine have asked that there are both staff and modern machines and other equipment in the country.

After a roundtable voiced at the requirements and capabilities of the economy, the directors of the Tasks of domestic enterprises told about their opportunities to create technicians for transportation of explosive objects, in particular, the armored vehicles they already produce, as well as the means .

At the end of the event, Alexander Pavlyuk in a comment to the correspondent of the Armyinformis:

Increasingly, the State Migration Service of Ukraine(SMS of Ukraine)They help Ukrainian soldiers in receiving ID cards and foreign passports. Documents are restored as soon as possible and understanding of the loss of their certificates.

Also, in the conditions of war in Ukraine and taking into account military assistance, which will be used by Western countries, today there is an urgent

question of the need to teach our defenders in the use of modern weapons. It is possible to do this quickly only abroad in special training centers.

Therefore, more and more SMS units assist Ukrainian soldiers in receiving law passports that are needed for business trip to Western Ukraine.

-Every Ukrainian can contact any migration service, regardless of the place of registration, and draw up the necessary documents,-said in the service.

Another participant of the FSB agent network was detained in the frontline regions of Donetsk region. The malefactor was collected for the occupants of

the identity of the base and routes of movement of defense forces in the areas of Kramatorsk, Konstantinovka and Toretsk.

About it [reports](#) Security Service of Ukraine.

She passed the coordinates of local schools and kindergartens to the aggressor. It was Zaii's "Attachment" that the Rashists made a rocket strike on one of the educational establishments last August. As a result of the Russian air attack, the local school was destroyed. After enemy shelling, the agent went out to the location and recorded the consequences, which then "reported" to the Russian special service.

According to the investigation, the person was a resident of the frontier Ukrainian city, which was published by the FSB after the start of a large - scale invasion.

In the course of the criminal tasks, the person transmitted to the enemy of the location of Ukrainian objects through the messenger in the form of electronic coordinates or photographic materials with a binding to the terrain. In the case of seizure of the region, he was enemy for his associate "position" in the ranks of the local occupation administration.

When searching at the place of residence of the malefactor, mobile phones were used, which used to communicate with the aggressor, in particular to transfer photo -Ukrainian objects.

On the basis of the evidence collected, the detainee was informed of suspicion of state -owned state, committed in the state of martial law.

She was chosen by a preventive measure - detention. Investigation is ongoing to establish all the circumstances of the crime and prosecute the perpetrators.

### **Rashists do not want to pick up their dead from the battlefield**

Fighting episodes "battle for T-shaped" in miniature are demonstrated to the entire large-scale war, the likelihood of which was the probability of which another 10 years were weighing in the world by the absurd. At that time, no one seriously considered the possibilities in Europe, even "border incidents", and even more so "regional low -intensity conflicts" - as those who did not see the latter who did not see in 2014 the beginning of the unjust and criminal Russian.

In turn, the war also does not ask whether someone wants to see her and why she was called - she just comes without permission and to everyone as equal. It destroys the agenda every hour, forms a list of probables of tomorrow's day. The Ukrainian today determines what the post -war world will be - on what basic values it will be rebuilt, the grounds for what principles and guarantees will become reliable and safe. And as much as it will be.

[!\(Images/APMIRINFORM/2023-04-07T49-00-00-04-00/dsc\\_0161-150x150.jpg\)](#)

In a few days, the K2 Video has already watched millions of people from all over the world - they are sure that tens of millions will see it in the future. And they will almost be able to observe how, in one of the hundreds of such supporting, the front line of the front line, Ukrainians beat heroically. They stand, protecting from the enemy not just the edge of the field, where two boarding of old acacia and oaks meet. They defend their own freedom and the future of their children. Defend the right to live and work on their land by their own laws. Nurture children in love and abundance. To decide what to sow with whom to make friends with and which to believe God. The names of those who died in unequal battle but did not give the enemy of their native land, they are forever etched in national memory, and their hamstring will be decent to the following generations.

Who were and how the invaders were called, whose remains were still scattered on the battlefield, their exact number - it is unlikely that anyone will be able to install it for sure. No one came in a hundred corpses - he did not invite the "hour of truce" for the harvesting of bodies, did not ask for mediation from organizations or structures that are authored for similar events, nothing like that - they still lie there. The author saw dozens of bodies of the Russian sample.

It is only known that it is "Wagnerivtsi" - another neologism and phenomenon of time of hybrid war.

The war, when it appears in the middle of people, always, though in its own way, but forces them to stop the fire for a while - for a short constructive conversation, the essence of which usually comes down to the need to take the battlefields and the wounded.

And if we recall the historians and theorists of the wars of the past, such contacts of the Taneuhile Following the achieved arrangements formed a code of honor of the warrior their unwritten rules of war. Usually, after great upheaval, militaryelitis turned into a military-political and took responsibility for the further development of their country and determined the form of its statehood. By the expensive of military experience, during their internal and foreign policy, they preferred diplomatic resolution of disputes.

[!\(Images/APMIRINFORM/2023-04-07T49-00-00-04-00/dsc\\_0193-150x150.jpg\)](#)

Over time, when there was a period of recovery, development and progress, and concluded regulations and formulated rules established after bloody wars, were relevant and were usually violated by the successors of those who did the war. However, the work of previous wars was improved not only by methods of their conduct, but also formed international law.

The Russian aggression ignitors violated the signed treaties and have been taken to sebellia and refused to recognize not only international law but also the law.

ARMIA INFORM

As if there was nothing in the history of wars, except for the well-known and demonstration correspondence of the Second World War, one of the Soviet military chiefs of their subordinate. At the request to move away from the occupied borders, who continue to be unpromising, as the unit suffered significant losses, the ammunition was founded, and the replenishment of ammunition was not recognized - the chief went out to the officer. And the views were ordered: "I will go through the Lychnya composition." A historical regression bordering Deevolution ...

### **Fighting on the outskirts of Siversk**

The direct participants in the fighting on the outskirts of Siverskaya "Crimea" and "Kachan" lead to T-t-t-t-their, show their horrific consequences and tell the details. It is less than a kilometer reckoning, so we work quickly, and when we leave a place - a mortar shelling begins.

In the Kristist army since 2018, first served in artillery, then transferred a pre-emptive unit.

We had a fight here - we took two positions: one took our grandfathers, the other - we did not know about it and at night he moved on us from two directions. While dug, the enemy decided to attack the right flank, then went around and began to step from the left. We met him from the ambush and caused the lesion - so they were all there.

We fought with ZEKs, they did not have enough military experience, they will go - and all. About a hundred, and maybe more ... You saw, there are 30-40 on thirty meters of landing, and planting-he, which is long, and everywhere lies.

Some were captured, some were dug alive after our tank. To tell them something - so nothing. They thought they would be to here, and they were given coffee here, they were given, cigarettes - they are shocked. They were tamped by the video - as if we were cooking their heads here. It is horror - they will be so believed, and when they are captured, they see that we are normal people.

What they drive - I think that they have made criminal businesses and sit for fifteen years ... So I think: it is better for half a year, but as and by whom it will be here - I do not even imagine. He came here to kill people to fail to not report to him in Russia.

[!\(Images/APMIRINFORM/2023-04-07T49-00-00-04-00/dsc\\_0230-150x150.jpg\)](Images/APMIRINFORM/2023-04-07T49-00-00-04-00/dsc_0230-150x150.jpg)

We have seen their artillery beat on them if they start retreating. They are being able to retreat, so they either spend the night in the "gray zone" or just forward. The prisoners said that they were canceled for their retreat - demonstrably shot before the routine, "the man tells.

His brothers on the pseudo "Kachan" during the storming followed the attacking - searched the bodies of servicemen who accepted that first unequal battle. They were dead to the latter, but they were thrown by

grenades in the trench they were left. Among those who had to be evacuated were his acquaintances. Those "very good people ..."

Unfortunately, and as a reminder, technological progress has brought people not only the comfort, convenience and opportunities of the present today, but also a broadcast of copter, which filmed a short moment of the long war.

As in a short moment, good people who have left their loved ones and loved ones, warm and cozy homes, work and hobbies - have taken death in an earthen trench where acacia meet with oaks at the edge of the winter field.

ARMIA INFORM

Thanks to their habitation and self-sacrifice, in that unequal battle, the enemy was stopped and was deprived of the opportunity to attack the same stronghold points to the left, to break the defense and stick further-even to the t-shaped homes.

There is a punishment for every crime. Someone can call it "provided by law", someone - execution, someone - justice.

Soon the crews of two Ukrainian tanks and a single-fighting machine of infantry came to the T-t-t-t-wing, and in a fair battle they did what they always did in the Ukrainian-persons of their native land with the invaders-turned into a fertile black soil.

The Coordination Headquarters met with the families of the border guard of the State Border Guard Service. The children of the captive border guards conveyed drawings in support of their parents and employees of the coordination headquarters who do everything to return home.

About it [reports](#) Coordinating headquarters for the issue of prisoners of war.

The staff representative assured that the work on the release of all prisoners is not. For the Russian side, nothing weighs the timing of staying and the severity of the injuries, because the enemy has not agreed to release all weighted and sick, women and civilians. The aggressor tries to use our prisoners as a pressure lever on our native, society of Tukraine.

"The main thing that stimulates exchanges is our success at the front," the representative of the Staff said.

They discussed the topic of international responsibility of the Russians for non -compliance with international humanitarian law in the places of keeping our prisoners. The names are constantly being pressed psychologically in captivity so that they move to the biker, but such cases are extremely rare.

The headquarters also noted that in cases where we manage to establish the place of keeping the prisoner, we usually do not inform our family so that this information does not come out. Because when the Russians find out that we have such a miracle, carry a person, which means a new stage, a new "acceptance"-confusing, adaptation to new conditions.

"The counter-offensive of the Armed Forces depends on many factors, so the above military-political production has several options for developments. We are analyzing not only the state of our army, but also the situation with the enemy, "Oleksidanilov said.

At the same time, the NSDC secretary criticized loud statements about the counter -offensive from these people's processes.

"Only a limited number of persons in the state - up to five - knows about the plans of the counter -offensive: terms, time, place," the NSDC secretary emphasized.

Alexei Danilov stressed that the Armed Forces want to have as many Western weapons as possible to destroy as many terrorists as possible.

At the same time, the NSDC Secretary emphasized the insidiousness of the enemy, who "is so moving and nervous from the international military assistance we provided."

"Partners of Ukraine understand that we protect not only ourselves, democracy, but the rags of Europe. Our common task is to remove Russian abomination, "Alexei Danilov researched.

The Cabinet of Ministers of Ukraine amended the procedure and conditions of payment(death)or disability volunteer, and their families.

About it [reports](#) Government portal.

From now on, one -time financial assistance will also be assigned and paid by volunteer assistance to the Armed Forces of Ukraine or other forceful structures during measures to ensure the defense of Ukraine, protection(contusion, injury or injury)when providing such assistance, and members of families killed in the number of such volunteers.

The corresponding changes on the initiative of the Ministry of Veterans of Ukraine were governmental to Resolution No. 604 of August 19, 2015.

The amendments also clarify the list of documents that should be submitted to one -time financial assistance, which will reduce the terms of their consideration.

The decision on the appointment of one -time financial assistance to such persons will accept the formed Ministry of Veterans by the Interagency Commission in accordance with the law of Ukraine "On the status of war veterans, guarantees of their social protection". Payment will be made at the expense of the reserve fund of the state budget.

For the appointment of one -time financial assistance, you must contact the expensive commission with the application and submit the necessary list of documents.

"Today, the government has made an important and necessary decision to provide social guarantees to people who have provided invaluable support to our military since the first days of Russian armed aggression. They are always close, because wolves and the military are a strong connection, in our unity - the power of tanglamity of the Ukrainian nation. We work together for victory!" - Yulia Laputina, an accent of veterans.

The adoption of this resolution was preceded by a thorough joint work of the Ministry of Veterans, the CMU Reforms Office, the Ministry of Social Policy, the Ministry of Finance, the Ministry of Economy and the Commissioner of Human Rights. Comprehensive work on improving the reinforcement in this area is continuing.

Under the procedural leadership of the Kyiv City Prosecutor's Office, the native of Lviv was reported to suspicion of public calls for aggressive war

against Ukraine and justification, recognition of lawful and denial of armed aggression of the Russian Federation against Ukraine.

Previously, the suspect served for 12 years in the Cathedral of the UOC -MP in Lviv. From 2005 he lived in Kyiv, and in 2014 he fled to Moscow.

According to the investigation, after the start of a full -scale invasion of the Russian Federation in Ukraine, using its own account on social networks, distributed to an unnecessary circle of users of the message and video. He justified the armed aggression of the Russian Federation against Ukraine and publicly called for an aggressive war.

In his posts and videos, the suspect supported and promoted the occupation of the occupying country in connection with a full-scale invasion of Ukraine, glorified the Russian military, distributed Russian narratives about the secretary-biolactures in Ukraine and the Ukrainian.

The priest tried to convince that Russia did not start the war, but on the contrary - he closed it and translated the guilt at its beginning to "Maidan" and Ukrainians.

The man also expressed gratitude to the military for performing a "dirty work in Ukraine".

The conclusions of forensic linguistic expertise have confirmed that textual - public materials have a propaganda nature and are aimed at reaping, recognizing legitimate armed aggression of the Russian Federation against Ukraine and containing public calls for an aggressive war against Ukraine.

The pre -trial investigation is carried out by investigators of the Security Service of Ukraine in Kyiv and the Kiev region.

Commenting in the heading [dovidra.info](#) At the YouTub-Canal Center of Strategic Communications and Information Security Key Principles during the War, Deputy Minister of Defense of Ukraine Anna Malyovazhavzhavzhavzhawha that among hostile information and

psychological operations(Paco)One of the most notable nowadays is the attempt to discredit the mobilization campaign, which has been going on since February 24 last year.

However, the Deputy Minister notes that often the Ukrainians themselves contribute to the propagandists in spreading messages against our country: \_ "Often it happens that because of the ignorance and misunderstanding They will say something very important now. ".

Indeed, from time to time on the World Wide Web we come across rollers that criticize stories on the street, or read the advice of some expert expert in law, as potential conscripts to avoid getting them.

So let's figure out what reports about the mobilization campaign during the time phase of the Russian-Ukrainian War walk the Internet, which of them are relevant, and which have all the signs of falsification or distortion. It is also interesting that in Russia itself mobilization is passing and whether everyone who supports their leader is dreaming of protecting his false ideas with weapons in his hands.

### **A small percentage of evidence in no way affects the mobilization campaign in our country**

Ternopil, Ukraine, turn to the shopping center and the joint venture

This statement can be denied statistics that have recently been [published](#) In Military Mediacenter, Deputy Director of Planning Department of application

of the Main Department of the National Guard of Ukraine Colonel Mykola Urshalovich. According to his information, as of April 6, only before the NSU brigades as part of the formation of units of the Guard of the offensive received 20 204 applications from volunteers. If you take into account the statistics of this campaign in the State Border Service of Tanational Police of Ukraine in general, more than 35,000 candidates dream of weapons.

Of course, among citizens there are those who avoid conscription, try to interfere with the Motherland, however, a small percentage of such evasion in no way is not flooding on a mobilization campaign in our country.

In Russia, a partial mobilization has been announced - the turn of evaders with Georgia

At the same time, Russia's official information resources prefer to close the eyes of Nazonoconfigured in the Crimea and Donbass occupied in the temporarily seized areas of Zaporizhzhya and Kherson regions. They prefer not to tell about hundreds of thousands of Russian men, who, when the call, were indicated, Georgia, Turkey, Kyrgyzstan, Finland, Armenia and other countries.

And the authorities of the Indonesian Bali Island, where 58,000 Russian citizens have left the large -scale Russian invasion of Ukraine since the beginning of a large -scale Russian invasion of Ukraine, a statement of deterioration of the criminogenic situation and is trying to limit the issuance of visas for Russian citizens. About it [reports CNN](#).

In general, according to [evaluation](#) Forbes.ru, from the beginning of mobilization - after September 21 last year, when Putin signed a decree "prompting partial mobilization in the Russian Federation", almost 1 million people left the boundaries of his state state.

**From single conflicts on the streets, the statement does not follow that "in Ukraine is ongoing violent mobilization" Therefore, the Russian daily newspaper writes: "On February 14, in Odessa, the staff of the Yavsk Committee rigidly detained a man in the middle of a crowded street. The videoads, removed by eyewitnesses, show how the man overthrown on the asphalt tries to resist, but people in camouflage form his hands and feet in the camouflage form to bring to the van. "**

The South Operational Command condemned incorrect behavioral servicemen and on its official Facebook page [reported](#) that "on the fact of the conflict situation, which occurred on February 14, 2023, during the hours of work of a group of servicemen of one of the shopping center and JV with alerting citizens who are subject to mobilization, in the public place, the military service is conducting a service investigation."

Agree that such a single conflict on the streets does not consider that "violent mobilization is ongoing in Ukraine."

#### \*\* Alert can be awarded anywhere where it is not prohibited

\_ "In early January all over Ukraine the" mobilization teams "were intensified, empowered to prescribe to men summons anywhere and any time, and in the case of resistance-forcibly deliver to territorial centers of complete ... addresses. The reason for the mass raids, which was affirmed by the military, was the reluctance of people to open the door to representatives of the armyarmia, " - asserts One of the conducting propaganda Russian news online publications of Lenta.ru.

However, it does not inform its readers that according to the legislation of Ukraine, the summons can be reached not only at the places of registration or residence([https://www.youtube.com/watch?v=T1\\_hYb-NWyQ](https://www.youtube.com/watch?v=T1_hYb-NWyQ)).

Military lawyer Igor Serov noted the Armyinform that there is a clearly defined list of officials who can do so: "give the summons to conscripts, conscripts and reservists, except employees of the Tax Code and JV, may be directors of state bodies, local self-government bodies, heads of enterprises, organizations, organizations, organizations, organizations, organizations ZhEKs. But they must have a state-owned decree of the territorial center of logistic support. "

In the case when a citizen believes that the delivery of the summons occurs with any violations, for example, it does not specify all personal data or it is

filled with colors, it is possible to refuse to sign it. Then, in the presence of the witness, an act of refusal will be drawn up. These mistakes will be made at the Center. A person also has the right to seek the help of lawyabout directly to the CCC and JV.

But we should not forget that we have not only rights but also responsibilities. According to [Article65](#) The Constitution of Ukraine "Protection of the Fatherland, Independence of Tatertorial integrity of Ukraine, honoring its state symbols is the obligation of citizens of Ukraine. Citizens serve military service according to the law. "

Deputy Minister of Defense Anna Malyar on her Facebook page [noted](#) that "after a large -scale invasion of these IPSOs is difficult on something or on someone. Because to frighten the summons after everything we have passed for this year is hard. "

The GUR of the Ministry of Defense confirms the sharp increase in the number of Russian invaders who seek to be captured to save their lives.

Within the framework of the Ukrainian State Project "I want to live" in March 2023 more than 3000 appeals were recorded. This is twice as much as the previous monthly indicators, the spokesman of the program for surrendering the Russian military in Polonvitaly Matvienko said.

Ukraine's military intelligence also states the activation of the occupation of the invaders in the Polonbezhnaya on the battlefield.

The Ukrainian counter -offensive operation on Earth has not yet begun, but the effect of the respective already produces results. The choice of a Russian soldier during the war is simple: either death or captivity. However, a series of sudden, unexpected, lightning events are able to change everything.

The Ministry of Defense of Ukraine is reminiscent of regular diversity in camps for wars and other advantages of the Geneva Conventions, but at the same time - the sound of the window.

Glory to Ukraine!

In the premises of the bookstore "Old Lion" in the center of the capital of Ukraine there was a presentation of the book of Yevgeny and Solomiya Stepanenko "Alphabet of War", which is a modernist, writer and executive producer "Radio Culture" Irinawinsk.

The book "Alphabet of War" is a conversation about one of the stories of the Russian-Ukrainian war, namely about the history of father and daughter. The history, outlined in the book, began eight years ago in 2015, when Yevgeny Stepanenkov was with the Russians and their delicacies in eastern Ukraine, and his daughter salted him from the front in peaceful Kiev.

[\(Images/APMIRINFORM/2023-04-07T79-00-00-04-00/abetka-vijny-01-150x150.jpg\)](!/(Images/APMIRINFORM/2023-04-07T79-00-00-04-00/abetka-vijny-01-150x150.jpg))

In 2014, after the fighting in eastern Ukraine, Yevgeny Stepanenko went to a volunteer in the special purpose unit. He participated in the battles of the Baddonetsk Airport, Mariupol and Debaltsev. He was a spokesman for the Defense Staff. After the injury he suffered, he became one of the founders of the first volume mobile hospital named after M. Pirogov, where he held the post of deputy chief of staff.

The father's correspondence with his daughter became the basis of the book "Alphabet of War".

"I am grateful to the salt that helped me get back from the war mentally. Thanks to her leaves who were included in this book, she was gaining a courage to discuss the topics important and complex for her. It helped me

return to normal life of my time, "Yevgeny Stepanenko recalled during the presentation.

The book is built as an alphabet, where every letter is one of the dimensions of war Tamra around the war. It intertwines the life of a child in a peaceful city and the life of a father in the war. Salt calls Dad to the front, writes SMS and letters, tells about his affairs, school, friends, competitions, dances, pets ...

Even the salts ask children's and childish questions Daddy about the war. How does he live with scratches and sisters there? Are there any children in the war? What eat in the war? Is it possible in the war to trick? Will Dad another after the war? And Dad is simple, and at the same time carefully explains everything in the world.

[!\(Images/APMIRINFORM/2023-04-07T79-00-00-04-00/abetka-vijny-04-150x150.jpg\)](#)

"I wrote this book to try to explain, what is the war that it exists, how it is arranged. By February 24, the majority of the population was somewhere in the east. It was not in our context. I wanted to reply at the level of emotional, philosophical as part of our lives, "Eugene shared.

It was difficult for him to explain to people who did not know what war was. According to him, this war is endless: "It has been a tenth year, and it is possible to compare with some school, which seems to never end. So now. We make an infinity of war in some infinity. While the book was written, we lived in the Minsk agreements. The impression was that this war was suspended. And if it does not develop in such a terrible way as it was February 24, 2022. "

Eugene says that now it has become easier to explain the essence of the war.

"War is such a life in inhumane conditions, it should not be, but it is. It is more difficult to explain that life and in the war continues. Find the words that you can explain the war, a thing that cannot be explained. Everyone of my text was in emotional experiences. This is a book about emotions and the living. I am happy that we have created a book that helps people, "the author said.

Since 2021, Yevgeny Stepanenko has been working in the Balkans as a special correspondent for Ukrainian media, and after the beginning of a large-scale invasion of Russia in Ukraine helps the forces of Ukraine's defense. He has long determined that "some road has ending, so war. And when it happens, as I wrote: everything will end, because it does not happen differently. The war will end in the way and we will definitely go through this process. "

The Command of the Armed Forces of the Armed Forces of Ukraine responded to the request of the employees of the National Library of Ukraine for children and submitted to the reading audiences the use of sleeves and old helmets, which do not meet NATO standards. To make visitors transformed them into works of art.

-Children see this world differently, and in their palms is a real basis, because they turn such terrible military attributes into bright art. From now on, these helmets and sleeves are not a symbol of war, but on the contrary - the mirus and victories, which will soon come to our native land. After all, beauty must overcome evil!- said the CEO of the library Alla Gordienko.

[!\(Images/APMIRINFORM/2023-04-07T83-00-00-04-00/foto1\\_sholomy-150x150.jpeg\)](!(Images/APMIRINFORM/2023-04-07T83-00-00-04-00/foto1_sholomy-150x150.jpeg))

Now, thanks to the skill of the creative team, Ukrainian symbols, flowers of different colors, weird animals in ethnic style have appeared on the military tools.

To participate in the art performance, young visitor librarians were invited, some of which study at the Stefan Turchak Kyiv Children's School of Arts.

[!/\(Images/APMIRINFORM/2023-04-07T83-00-00-04-00/foto3\\_sholomy-150x150.jpeg\)](!/(Images/APMIRINFORM/2023-04-07T83-00-00-04-00/foto3_sholomy-150x150.jpeg))

The smallest of the participants who are only four years old, with a remarkable creative passion for the painting of the sleeves and created the work of Victor (from the lat. *victoria* - "victory") In which the secret code was encrypted: it will be overlapped. And the back of the work is adorned by the illustration of the peaceful sky and the sun, because they are dilated that a dreamy peace and victory will soon come on our earth.

Library staff, who also joined the drawing, chose themselves to work Maria Priymachenko. Therefore, some helmets are decorated with recognizable man's beasts of the famous Ukrainian artist.

A special place in the art space of the library is the installation in memory of the prostration of children who were victims of the consequences of Russia's armed aggression. The souls are presented in the form of paper angels, which are observed.

Some of the painted helmets and sleeves will be handed over to the defenders to the front and units of military units for the design of traditions. The other part of the organizers plan to be implemented at a charity auction to help buy new equipment and ammunition for the units of the Armed Forces of Ukraine.

### **Three Rak Rak modules are 24 self -propelled mortars**

The originality of the configuration of self -propelled mortars **rak** is that the auxiliary masters are more than self -propelled mortars. Yes, indeed, Ukraine will receive three rannyodules. But for eight self -propelled mortars of one module are added four -core machines, three transport for transportation of mines and other equipment, as well as two reconnaissance and one repair! That is, 10 more auxiliary machines are added to the eight -footed machines in the mouth module. So a typical module **rak** consists of 18 cars.

However, if you count only self -propelled mortars, then for three modules they are indeed 24, and in total Ukraine will receive 54 cars that are included in three route modules.

Denis was born in Donetsk region in Gorlovka. He graduated from Gorlov's Higher Professional College No. 37. In a peaceful life he loved to meet with friends Taribal. From 2015 to the last breath, he defended his native land by the Uvations of the Armed Forces of Ukraine.

The brothers knew his position: he became a volunteer to return to his dear. He was condemned to the countrymen who succumbed to Russian propaganda. His last post on Facebook is Goldda's quote Meir: "There is no way about peace with those who came to kill you."

The Security Service has assembled a evidence base at the Prokremliivsky Politician Alexander Lazarev, who assists the aggressor in the war against Ukraine.

The person involved before the start of a full -scale invasion was part of a pool of public pseudo experts who worked for Medvedchuk, Murayev and Sharia.

Lazarev himself was directly engaged in "unbuttoning" of media images of the Khreml's associates and helped them in promoting enemy narratives in information space.

For this purpose he was a frequent "guest" on the airfare of the sub -channels "Our", "ZIK", "NewsOne", "112" and "Russia today".

In his comments, he repeatedly justified Moscow's aggressive policies in the East of Ukraine by the Civil War.

However, after February 24 last year, Lazarev hidden abroad.

Subsequently, he arrived in the occupied Crimea and joined Aksyonov's closest point, which helps in holding hostile information campaign.

On the basis of the evidence collected, investigators of the security services informed the defendant in the treason, as well as violations of equality of citizens depending on their racial, national, regional affiliation, religious beliefs, disability and other grounds.

Complex measures are ongoing to hold it.

The investigation was conducted under the procedural guidance of the Kyiv Regional Prosecutor's Office.

She told this during [discussion](#) On the topic "Changing the demographic situation in the country: forecasts and challenges for the state", the First

Deputy Minister of Social Policy of Ukraine Darius Marchak. The participants of the event discussed the challenges of the demographic crisis caused by the war of the cross -spheres of the life of Ukrainians.

The demographic crisis has a significant impact on the social sphere. The first challenge is the outreach of Ukrainian citizens abroad. Due to the decrease in the number of people in the country, the number of taxpayers is reduced. For example, the number of those who work that pay the ESA(Without the military), decreased by 25 %.

At the same time, there is a large -scale internal migration, which is the second call of the demographic crisis. 4.8 million internally displaced persons have already been registered.

Much IDPs will not be able to return home. According to the World Bank, the damage and losses caused by war, nearly half a million units of housing in Ukraine have been completely destroyed, almost a million units of housing have been damaged. Social support of such citizens occurs through a payout program(2000 UAH of the registered IDP and 3000 UAH per child).

— Крім того, відбувається тиск на спроможність системи соціального захисту надавати необхідний обсяг послуг у всіх громадах, куди переїжджають такі люди. Оскільки необхідні додаткові місця в дитячих

садках, школах, закладах охорониздоров'я, виникає додаткове навантаження на соціальних працівників, і ми неможемо спрогнозувати станом на сьогодні, який обсяг інфраструктури потрібно вдовгостроковій перспективі будувати в цих громадах. Не відомо, скільки з ВПО повернуться додому, а скільки назавжди залишиться в цій громаді, — пояснила перший заступник міністра соціальної політики України.

The third significant challenge is the increase in the number of citizens who are poverty. Another line of negative impact of demographic changes on the

social protection system is the rapid disability of society. According to the Pension Fund system, which registers the payments of disability pensions, during 2022, 13 thousand people began to receive a disability pension.

The next systemic negative impact of the war is an increase in the number of children who have been lost by one or both parents. At the same time, according to the officials, there is a sharp suspension of the pace of deinstitutionalization of the system of institutions. However, the priority of social policy remains to provide children in families, including the development of family -type orphanages. Was greatly disturbed this trend, and this is an additional risk, which depends on how much this child will grow, how socialized it will be, or will have good education and subsequently its own sources of income. .

\*!

**At the same time, the number of persons who will be entitled to permanent payments from the state and early retirement will increase:**

У зв'язку з цим серед пріоритетів соціальної підтримки Дарія Марчак назвала надання соціальних послуг. Це означає, що кожна людина, яка потребує підтримки, має знати телефон або місце перебування кейс-менеджера, який підкаже, як розв'язати проблему.

The relevant direction of interaction was discussed during a meeting of the Sons of Liberty International and Legenda Tnt & Military Archaeology with the missing missing from Oleg Kotenko.

During the meeting, the management of international organizations reported readiness to conduct awareness of explosive subjects(GNP)Executives of the search teams of the Ministry of reintegration. And also - to organize their

supersonation to locations of likely burials of missing persons in conditions of increased danger.

These measures will help reduce the risk of lesions of such commands and unobtrusive ammunition.

As a result of the meeting, representatives of international organizations transferred an unmanned aviation complex to the missing person from the missing. The equipment will help the search teams of the Ministry to carry out preventive inspection of places of probable burial and to identify GNP on the ground of such locations.

Today, the Cabinet has approved a state policy strategy on internal disperse for the period up to 2025. The appropriate operating plan for 2023-2025 was also approved.

The document was developed by the Ministry of Reintegration with the support of the Council of Europe. Experts of international and non -

governmental organizations, which are in charge of the protection of the rights of internally displaced persons, also joined it.

The adoption of a new strategy is the response of the state to the challenges of the massive population of the population caused by full -scale aggression of the Russian Federation. It provides for the state support of IDPs at all stages - from evacuation, in the process of social adaptation in a new place to the time of return to the place of permanent residence.

Thus, the state will focus on 5 strategic purposes: 1 . Response of the state to the challenges of internal movement. 2 . The safe evacuation of citizens from dangerous areas and meeting their humanitarian needs. 3 . IDP adaptation at a new place of residence. 4 . Integration and development of IDPs in host territorial communities. 5 . Support for a safe return to an abandoned residence of a tareintegration.

"State internal movement policy should be comprehensive. The focus of attention should focus on adaptations and further integration internally displaced persons in host communities. These are access to educational services, employment, and support for self -employment. An important component of being professional psychological assistance. I thank the Council of Europe and the public organizations that have joined the strategy development. From now on, we have a clear way to respond to the challenges of internal movement, "-said Irina Vereshchuk stressed.

We will not forget that it was from the occupation of the Ukrainian Crimea, from the repression in the Crimean Freedom of Ukrainian and Crimean Tatar, that the attempt of Russia to put Ukraine and other peoples of Europe in slave conditions was against the Crimean Muslim conditions. Humiliation, repression, murder, war ...

But where the path of evil began, it is there that we are waiting for us and victory over it. Deconing Crimea is non -alternative not only for Ukraine but also for the world. For an order in the world based on the UN Conventions and the Charter, not the dimensional habits of murderers, rapists and robbers that Russia is trying to resolve.

I believe that prayers for peace for all our land will be heard without exception. We will return to Crimea - and then the world will return to the union, because the aggressor loses. The victory of Ukraine will mean the victory of life - the lives of Ukrainians of all denominations, of different origins, but with one dream and faith: is the general in good.

He said this in front of Eftaur, who was honored to divide with our warriors, also with representatives of the Majlis, the Crimean Tatar people and the dips corpuslum countries.

Despite the sadness and pain of war, let the sacred Ramadan be bright!

From the positive factors - it has come to understand that Western countries have to diversify their supply chains of energy and other materials.

In this case, Adomenas believes that the concept of "diversification", "reduction of dependence" in the available conditions is insufficient. He should be replaced by the realization that the conditions of "peace that gives everyone" ended at all. "We need to prepare for a new phase of international relations. They will be characterized by a much greater level of aggression, unpredictability and in general - the presence of war or its threat, "Adomenas explains.

In his opinion, all this is necessary because the formation of block - democratic countries who want to revise the worldwide, founded by the rules that have existed in recent decades.

The Ministry of Internal Affairs has expressed disappointment about the joint participation in the procession of Rimmi -Ukrainian and Russian adolescents, as it is an attempt to equate the victim of war and aggressor victims of Russia and distorts the reality in which the Ukrainians have Russian.

This is stated in the post of spokesman of the Foreign Ministry Oleg Nikolenko in , reports Ukrinform.

He noted that yesterday, on Holy Friday, a great religiousness took place in Rome - a procession that symbolizes the victory of good over evil, the light of the darkness, faith over despair.

"We are deeply grateful For his turning on Ukraine and Ukrainians. Unfortunately, they have to state that this year's rank was again overshadowed But the aggressor, "Nikolenko said.

He explained that it was reading texts that were read during the 10th Staff of the Great Walk: on behalf of a Ukrainian teenager who found shelter in Italy after the capture Asha for the Nikarers of Russia's invading war against Ukraine.

Mantas Adomėnas, Deputy Chairman of the Lithuanian Foreign Ministry, believes that the real renewal will only be renewed after fundamental changes in aggressor countries - Russia and Belarus. The greater sense is the search for new formats, one of which "European Political Community / European Political Community".

Adomenas expressed this opinion in .

"In such a composition where Irosia and Belarus are involved, that is, two aggressors, it is impossible to renew. It will happen only when the war is over, and Russia and Belarus admit their guilt of the Zaia Solution. By that time, this organization is not so much that is meaningless, alabestate, "Adomenas said.

In his opinion, starting a new security policy in Europe is currently related to the search for new formats. One of them is the European political Community / European Political Community initiative, which will soon be released in Moldova for his second summit. "This community was created by an estimated basis as an alternative to the OSCE. In turn, the OSCE had one time -to prevent the new war in Europe, but it was unable to do so, "Adomenas said.

The early decade of the next decade can bring up to 50 percent of the "green" energy in total energy and even exceed the indicator.

Such an optimistic forecast in the comment of Ukrinform was expressed by the chairman of the board of the Global Union 100% Renewablesukraine Alexander Dombrovsky.

"I am convinced that by 2030 we have the opportunity to get more than 50% of pure energy for the end consumer," Dombrovsky said, adding that the state has set up enough ambitious targets and moves to them despite a war that not only stopped the process, but vice versa stimulates to move faster.

He noted that such a forecast is optimistic, because this requires prerequisites: if Ukraine wins quickly and recovery, and the rules of economic development will be "right" - there will be no corruption, not a Wonopoly, but there will be economic decentralization - not only , but also investment. For the state, it is important to create the rules of the game that will not be disturbed, will not change, which will allow to invest, develop this market quickly, emphasized Dombrovsky.

The Verkhovna Rada Explode, MHP Eco Energy President(an enterprise that specializes in gas production)It substantiates that many experimental projects and laboratory tests have taken out that what many have not believed until recently are realized today.

"We can produce our own energy resources. Ukraine has a 100 percentage of being one of the most innovative, technologically developed countries in the world, "Dombrovsky is convinced. According to him, Ukraine has a colossal power: in addition to the sun and wind, as one of the most powerful agrarian states, Ukraine also has enough waste and raw materials to produce a biogas, biomethane, green hydrogen, etc.

Many Ukrainian companies are not waiting for the war, they are working, investing now. But you need a "green" cooperation with foreign partners. Ukrainian companies develop such cooperation primarily to Znimenchyna, also establish contacts with the Dutch, Austrian, Danish, British, and American firms. **Read also:** The interlocutor of the agency gave figures: for 30 years of independence, Ukraine paid only Russia, more than \$ 100 billion only for imported gas, which was equal to one pre-war budget The main exporter, again, was bought by diesel, oil, coal, natural gas, nuclear fuel.

"The Russian aggression confirms that oil, gas exported by Vevrope to Ukraine and earned on it, all this returns in the form of weapons, missiles, and destruction. The whole world eventually understood, Europe has changed its attitude 180 degrees, "Dombrovsky said. He noted that "green", renewable energy today is not just about energy. This is about the protection of Ukraine, the energy security, the energy independence of Ukraine, but also the EU.

Dombrovsky during the recent international conference "9th Berlin Energy Dialogue", together with associative members of the Union, set a signature under a memorandum on mutual understanding and cooperation with the most renewable energy(BEE).

"Starting working on the third annual study of vitality in November 2022, we knew exactly that the lessons obtained would be a hard -generated asset for generations of managers. 30 amazing lessons and stories of life, 30 stories of humanity, 30 stories of openness to the world of readiness, despite all the threats every day to move hard to victory every day - this is something that motivates us here and now not to lower our hands and believe that it is best in the first place, "said the founder of the company. One Philosophy Natalia Popovich.

**Read also:** [\*\*business\*\*](#) It is noted that the conclusions of communication with wartime leaders for organizations include 5 key vitality lessons that allow them to stand and remain relevant for both employees and their clients today. Among the lessons-to go with the team, to benefit society, to form prompt response centers and to be ready for any development of events, to live here and now, but not to give up dreams and plans for the southern plans and to be aware of responsibility to Ukraine and the future.

The survey also showed that more than half of the surveyed leaders of the general public reassurance to the possibility of attack by the Russia conducted preparatory actions and had prescribed algorithms of actions in the event of a full -scale invasion.In addition, according to a study, 100% of the companies surveyed supported their workers in the first days of the war, helped to leave and export their families in most safe regions or abroad. 20% were exporting people to the company. During the war, executives continued to pay their wages to their workers, even if the company paused.

Every second company launched its crisis headquarters in the early days of the war. In 20% of the respondents, several parallel headquarters worked - the worst.

74% of the surveyed executives noted that they managed to keep the team in equal war. 10% significantly reduced the number of employees and 16% of the expanded team.

**Read also:** Every third company reorient its work abroad. Some have completely sprayed their efforts to develop activities outside Ukraine, others combine work in Ukraine and abroad.

100% of respondents noted that the flexibility of decision -making helped them keep the team and the company.

86% of the surveyed leaders noted that their vitality is related to the significance of the strategy of development of pre -war times: the transparency of the organization, a recognizable brand they trust.

55% of executives said that since the beginning of the war, their company suffered economic losses, and 45% stated a partial increase in profits. Today, as well as the public and public sector, it is supported by international organizations.

"All those surveyed unanimously noted that their points of war were families and teams, colleagues who stood side by side and most important days, and in the days of intermediate victories. This is something that stimulated not to lower the arms and move on. The belief in the future and victory of Ukraine has prompted to act now, without expectations for better times, "the study said.

Pleasure this week with good results for the state - on weapons, in popular support, to expand our connections with the world, in our NATO movement.

This was stated in the evening President Volodymyr Zelenskyy, reports Ukrinforms.

*Viso:*

**\_ I wish health, dear Ukrainians!\_**

The most significant these days, of course, a visit to Poland, our arrangements, our notes.

Poland has completed everything declared on tanks: they are already in Ukraine, including "leopards". There are new arrangements for BMPs - more than a hundred cars. Children's carriers - "Rosomak" - 200 cars. Now a hundred, and a hundred later. Seven -sized mortars, additional missiles, "miga" ...

By the way, we have important agreements on the economy, for the reconstruction of Ukraine - in particular, for our Kharkiv region.

At the level of the first ladies of Ukraine and Poland, there are various humanitarian projects, medical. In particular, it is the training of our physicians with comprehensive assistance to patients with burns of YEXSTRENDY Air evacuation of the wounded, in particular in the war zones. Tens of doctors have already passed or undergo such training. And the project is to have a mastering - learning with rehabilitation, training of Ukrainian psychologists.

That is, in this struggle for life and freedom, we are really side by side with Polish brothers and sisters-in all areas. And I thank for such a unchanging, diverse insignificant support!

There is also a new, already 35th defense package from the United States. HIMARS rockets, air defense missiles, artillery shells, for protection against armored vehicles, and other existing support elements. Thank you, American!

German support for Ukraine this week has increased by 200 million euros our country's investment. In particular, these are projects of German companies that will help our economic and therefore social stability. Thank you to Germany!

The Netherlands announced a package of more than 270 million euros. Tsadogamo for our restoration, humanitarian, non -lethal support for defense, as well as it is very important - support for justice. To collect evidence of Russian crimes, to create a register of losses caused by Russian aggression. I thank the Netherlands for being in all areas of life protection together!

Denmark and Norway are working on a joint package of shells for our artillery. Thank you for it!

There are new sanctions from Australia and New Zealand. Thank you for them!In fact, the values for which we all fight here in Ukraine are close to every one, regardless of whether they are geographically from us. Everyone appreciates and protection against terror. There is no such people who would

be approved by the Russian occupation: Russian concentration camps, deportation children, to rape women, burning cities ... The more the world knows about Russian aggression, the faster the aggressor will lose, and peace will return. Ukraine - will return to everyone in the world. I thank Cili's care!

A very important decision was made this week in Lithuania - for the main expectations of the NATO summit, which is planned in Vilnius.

The Lithuanian Seimas acknowledged the need to invite Ukraine to become a member of NATO - to ask this year, at a summit in Vilnius.

I thank the Lithuanian people, all Lithuanian politicians for understanding the most relevant security situation in Europe. Only with Ukraine will the Alliance be guaranteeing true protection of Europe from any encroachment on the lives of peoples-on existing borders and international order based on the rules. But it is difficult to imagine the strength of Ukraine.

This decision of the Lithuanian Seimas will have a continuation in the coming weeks of the Months. We are already working on it.

And of course, thank our soldiers. EveryoneBorder guards, National Guard and Police, Intelligence and SBU, the State Secretariat and SES ... All who are now in battle. Who protects our sky. Who gives Ukraine cyber defense is protected. All who keep our border. Who trains our new crews. Who eliminates the effects of the blows who saves our people from injuries and who prepares the Verivka for the occupiers.

Glory to all who fight for Ukraine!Thank you all your partners for the power!

**Glory to Ukraine!**

Usocial networks have found a new party of American secret documents in Ukraine, China and the Middle East.

As Ukrinform reports, it reports Documents were found on Twitter and other sites on Friday, April 7. As it is noted, this is the second within a few days of large vitic -septum documents, which is a concern in the Pentagon.

It is reported that this time the network was merged with more than a hundred documents. Analytics believe that the scale of leakage together with the

confidentiality of the document itself can cause great damage to national security .

"A new leakage of documents seems to go beyond the strictly secret material plans of Ukraine. Analysts on safety issues that have got acquainted on the social network, say that the growing collection of materials also contains confidential information about China, Indian-Pacific Theater, Middle East and Terrorism, " - the testimony reads.

The former high -ranking Pentagon Mick Malroy's employee said that willow - secret documents are "a significant breakdown in the security system", which may be prevented by Ukraine.

"Since photocopies of documents were mostly published, it seems that it was a self -escaped leak, made by someone who wanted to harm Ukraine, USA and ", - said Malroy.

The Odessa Odessa Club has opened an exhibition of cartoons "Corruption -

"Safety for the whole world". In the West, they solemnly extinguished the brand, which shows one of the works presented.

Ukrinform correspondents visited the exhibition.

According to the co-author of the project, a member of the International Federation of Journalists, Presser Rotary Club "Odessa-Richelieu" by Alexander Fedorov, the idea of carrying out cartoons on corruption was born last year during a tour of "Russian ship, go ...".

"In the process of my communication with the famous Ukrainian cartoonist Vladimirkazana, the idea arose to make this anti -corruption exhibition. Volodymyriv first declared her on a round table, which was organized by the International Association of Caricature in Paris. Work has begun, today this exhibition consists of about one hundred cartoonists from more than 21 countries of the world, "Fedorov said.

He added that work on anti -corruption topics continue to come from professional masters and ordinary lovers of satire and humor.

The co-author of the project reported that the youngest participant of the cartoon exhibition is a 10-year-old girl Olena. She sent the work of Stop Corruption, which is shaped with shaken palms.

Fedorov also drew attention to the work of Kaznevsky, which depicts as some people allow themselves to make money in the war. Unfair officials are reflected in the form of mosquitoes that suck blood from the hand of the defender of Ukraine.

The Odessa Richelieu President Vyacheslav Voronkov, who is one of the organizers of the exhibition, was present at the west, stressed that there are two things that corruption is afraid.

"Corruption is afraid of light and laughter. After all, the caricature and the caricature, to impose corrupt officials in an unattractive form for them, " - said Voronkov.

After conducting the exhibition in Odessa, the exposition is planned to be shown in other cities of Ukraine, as well as in EU countries.

After inspection of the exposition, all those present were invited to special repayment of the new brand, which shows a reminder of the first Odessa "bribe". The author of the photo is the head of the cartoonist Association Victor Jevaga.

The war against Ukraine has led to a serious increase in orders at different visual arms, it is also felt in the defense-industrial complex of Sweden.

As Ukrinform reports, it reports .

"We need to increase production. Last year, more than 1000 people were hired, Tesame will do this year. However, the supply of weapons is a long process that includes many political solutions. And in this regard, it is also

necessary to increase the gains in Europe and make purchases faster, "said Victor Valstrom, Director of Saab Communications Company.

"For decades we have been accustomed to the logic of peacetime, looking at the price and our product. Now time is crucial, it all depends on its presence. And we are not very prepared for this either in industry or in governments, "said Secretary General of the Swedish Association of Defense Industry Robertymmergard.

The EU recently announced joint procurement of artillery shells. Subsequently, several Swedish companies can take part in the Usom.

According to Swedish experts, joint purchases are a good initiative, but countries can be more useful.

"Neither the European Commission nor the European Defense Agency is accustomed to such products, but Member States are accustomed to. Agreements between several member states could be the best option. But this initiative and financial support from the European Commission was a relevant step to encourage states to act, "Limmergard said.

Ministers and Sciences of Ukraine Oksen Lisovy calls teachers and teachers to stop the language around the language.

According to Ukrinform, he stated on his page in According to the forest, a person is a patriot of the country whose language is spoken by their children. "I am immensely rejoiced when I hear Russian-speaking people unite with their own children in Ukrainian. I thank all those Russian-speaking, who have conquered Ukrainian, and urge: to form a Ukrainian-language environment

around your children - cartoons, cinema, books, a circle of communication, and content on the network.

So people who want success for their children do.

So people who believe in their own ability to lead to success in their own country do, "he emphasized.

As the leader emphasized , "manipulations around the language are nothing but hypocrisy," and it "is extremely difficult to remain indifferent."

"If someone, teaching Ukrainian, goes to Russian on a break," she actually demonstrates her skeptical, disrespectful attitude of the adherence to the children, "the forest said and called on everyone to" stop such practice. "

"If Russian -speaking parents are able to switch to Ukrainian with children, then why is the system of education not able to support their Ukrainian - language environment?" He asked.

According to the minister, "a teacher with an educational institution that is not able to register the state language is a direct violation of the current legislation. This case will be taken.

According to the head of the Ministry of Education and Science, "the behavior of this lady looks like ... To put it mildly ... her role is inappropriate. The educational community forms a nation.

It forms the society of the future. That is why it is at least strange when students have a higher level of consciousness than their teachers. "

Forest also noted the activity of young people who "does not tolerate such shameful posture(for this is not a position but out of)and not afraid of threats(My student youth was mentioned when we got rid of the Soviet Absurd)".

**Read also:** It was reported that in Irpen the teacher of the philosophy of the state tax university was conducted in the couple in Russian. One of the students asked the pad to switch to Ukrainian, to which she replied that she "unconsciously conquered Russian because she taught her 35 years."

China has been a three -day military training around Taiwan after the visit of the Taiwanese representative Tsai Invven to the United States.

As Ukrinform reports, it reports .

The command of Chinese troops in the eastern direction has announced today the offering of exercises, describing them as "a serious warning against Taiwan's conservation forces with external forces and a necessary step for protection of national sovereignty and territorial integrity."

During the exercises, they plan to work out maneuvers in the Taiwanese protocea and to the north, south and east of the island, with the involvement of the maritime and air components, according to the statement of the Eastern Command of the People's Liberation Army of the People's Republic of China.

Shortly after the statement The Taiwan Ministry of Defense reported that 42 Chinese military aircraft have discovered the Naddan Strait, separating the island from the mainland of China. Data, 29 Chinese military aircraft crossed the middle line and entered the Taiwan air defense recognition zone.

China began training a day after Taiwan President returned a 10-day visit to the United States, during which she met with the US Congress Congress speaker Kevin McCarthy.

The official Beijing has repeatedly opposed this trip and to threaten "decisive action" if it happens. China claims that Taiwan's self -enemocracy is part of its territory.

US Secretary of State Anthony Blinken does not see any reason to negotiate fire between Russia and Ukraine.

About it reports , reports Ukrinform.

In an interview with the Funke Media Group and the French newspaper Blinken stated that if the fire will lead to "practically ratify Russia's seizure of certain territories in Ukraine, it will not become a fair and strong peace."

According to its words, under such conditions it would allow Russia to reorganize troops, relax, and after some time again to attack.

He noted that 141 countries in the UN spoke for the fair peace and respect of the principles that underlie the UN Charter, "which were violated by Russian, including territorial integrity."

The US Secretary of State stressed that there are two targets before the West. The first is to do everything possible to help Ukraine return the occupied Rossiya.

The second is to help Kiev create medium -term and long -term potential for deterring aggression and for self -defense. According to Blinken, there will be considerable efforts to help Ukraine recover from destruction. In addition, until Russia is changing the course, "we must maintain the unprecedented pressure" Namoskva with the help of sanctions and export control, he stressed.

Blinken also commented on the Kremlin's plans to place tactical nuclear weapons of Ubilorus. "First of all, this rhetoric is absolutely irresponsible again," said the American diplomat.

"The only country that talked about nuclear weapons or threatened, hidden in someone else, to apply it - and it is in the midst of aggression against Ukraine, is itself ", - he said.

"When we arrived in Italy, I missed. I felt without everything: completely naked. I did not know the language and had no friend. Grandma tried to be happy, but I repeated that I wanted to go home. I finally decided to return to Ukraine, "he said.

At the same time, the Russian said: "I am a Russian guy, and when I say it, I feel guilty, and at the same time, I do not understand why, and therefore feel ill. Without happiness and dreams for the future. "

The Russian remembers his older brother, who a few days after the 18th anniversary "went on a journey" and then a report of his death came. "We were all told that we should be proud of, but at home there were only sadness of intervals. The same thing happened to Dad and the grandfather who left and we do not have about them about them, "the Russian guy said.

Ambassador of Ukraine to Andriy Yurash stated that he learned from the media. The Cross is a worship in the Catholic Church, which consists of 14 stations and symbolizes Jesus Christ's path to Calvary before crucifixion.

On April 8, 31 deported by the Russians returned a Ukrainian child.

About it during a press conference at the Media Center Ukraine - Ukrinform reported by the Director of Save Ukraine, Presidential Commissioner of the President of Ukraine(2014-2021.)Mykola Kuleba.

“There are now 31 children heading to Kiev. These children will come to the capital in 3-4 hours. This was our 5th rescue mission, and it was special not only in compliance with the children we saved, but also in complexity.

Unfortunately, the grandmother, whom she took two children, died during this mission, "he said.

According to Kuleba, because of this, not 33 children were returned to Ukraine as planned, but 31. He specified that he would need to return the body of this woman to Ukraine's ideas, which she had to take away.

Kuleba focused on long -term and multiple FSB interrogations. "So it is not surprising that my grandmother's heart stopped," the executive director of Saveukraine added.

He stated that when the parents and legal representatives of these children came to the camp to pick them up, the Russians did not allow them to enter the institution together.

"They(Russians - ed.)They were kept behind the fence and one parents were allowed to allow the cameras where the cameras were installed. They pressed on their parents so that parents were to take away the child, thanked the fact that the Russian Federation preserved their ", - said Kuleba.

The former Presidential Commissioner for the Rights of the Child has noted that they would be Russian to identify children(which they were taken out - ed.)And to pass the corresponding lists of the red cross so that Ukraine is able to find their parents.

**Read also:** "All the children they returned say that no one in no way has to find their parents. We were looking for these children, and it was very difficult, the children, where 5 different places of stay were changed in 5 months - they were thrown at another camp. There is a lot of evidence that these children have been tampered with these children, "said the executive director of the Save Ukraine.

He specified that there were data on one and a half million Ukrainian children who, after 2014, found themselves in the Russian Federation or in the captured territories.

"It is almost 20% of the child - it is about Crimea, Donbas, and occupied territories of other regions. And these are children who are hostages who, unfortunately, will not be able to return to Ukraine today for various reasons, "Kuleba added.According to Ukrinform, according to the Ombudsman's office, as of April 8, 360 children were returned in Ukraine.

In the first time, 60% of children in Ukraine were outlined in Russia were to leave their homes.

About it during a press conference at the Media Center Ukraine - Ukrinform declared the executive director of the Save Ukraine Charitable Foundation, the Presidential Ukrainian Commissioner for Children's Rights(2014-2021.)Mykola Kuleba.

"According to my estimates, 60 percent of children have been forced to move from their homes since the beginning of full -scale aggression, this is more than half. They were forced to flee from the war, "said Kuleba.

He also noted that his Fund was making every effort to return Ukrainian children illegally spent by Russia. According to Kuleba, Save Ukraine organizes and conducts such rescue missions on its own.

"We do not cooperate with the authorities of Russia. We started working with the office -tombstone, headed by Dmitry Lubinets, who has the corresponding negotiations. But we are ready to take on only the issues of logistics, registration of corresponding documents, transportation, transportation, further arrangement of children, "he said.

The lawyer of NGO "Ukrainian Legal Advisory Group" Yevgeny Kapalkin reminded that international humanitarian law, in particular Geneva Conventions, categorically consolidate the occupying state to move children in the occupied territory or state of their country.

"There are clearly regulated prescriptions that require compliance with the occupying state. However, as we see in the situation in Ukraine, Russia does not adhere to the principles and tries under the pretext of evacuating the deportation of children of the Russian Styraerator. And there she applies the impact on both their consciousness and their consciousness, and deprives the opportunity to communicate with relatives, etc. ", - Doglana.

Executive Director of Bo Save Ukraine, Presidential Commissioner for Child Rights(2014 -2021rr.)Mykola Kuleba believes that the children deported by Russia will be found ina of the territory of Belarus.

He stated this during a press conference at the Media Center Ukraine - Ukrinform, answering the question whether there were information about how many Ukrainian children who got to Russia were taken to Belarus.

"We have no information how many Ukrainian They are in Belarus. I think we will also find these Divine in Belarus. But now(Data - ed.)How many such children, Devoni - we do not even know about the territory of the Russian Federation. Now it is difficult to find some information in general - both in Belarus and in Russia, "he said.

According to the executive director of Bo Save Ukraine, so they are looking for any reports on where these children are, in particular - in what parts of the Russian Federation.

A lawyer of the Regional Human Rights Center(RCHR), a participant in the Quebec community of international law, the Interagency Commission on Application and Implementation of International Humanitarian Law in Ukraine Kateryna Rashevskaya stated that in Russia the lists of so -called resource families - those families that are being exposed to the upbringing of a certain number of Russian children.

"And this creates additional space for manipulation. Example,(In Russia, the telling of parents - ed.): "In order not to lose the benefits, the burn over these children - take the person more please 10 or 8(Ukrainian - ed.)children, etc. ", -the lawyer has informed.

According to her, the Russian Federation illegally and unreasonably refuses to return Ukrainian children to their homeland.

"This unreasonable delay in repatriation of these children ... and even incomplete, these are actions that are quite aimed at this repatriation -a serious violation of Geneva conventions, international humanitarian law and can be qualified as a military crime," Rashevskaya.

In Kiev, three Ukrainian children - Vitaliy, Artem and Anastasia, who managed to turn from deportation, told how they were treated in Russia.

They told about it during a press conference at the Media Center Ukraine - Ukrinform.

According to Vitaliy, he was initially in one camp in which there was a more or minimal situation and then moved it with other children to another.

"In this second camp, when I went to one of the rooms, there was no tile nor linoleum - nothing, just cement, and there were 3 beds without bed. Misled and waited for 2 hours, no one had brought it. We went to the camp directors, and we were told that she was not obliged to give anything: "We are not volunteers, we had to carry with you," he said.

According to the young man, they were fed with cold porridge, they did not even give tea and said that they had to take food with them.

"We had a" important "conversation every night: for example, we were told that Ukraine is terrorists. We were not allowed to call parents. We could play for 4 hours at the Russian camp, and we were told that we have to study it as our 5 fingers, "he added.

The occupants forced the children to sing the Russian anthem, and Artem said.

"There were threats - we were frightened by a psychiatric hospital that they would give us there. We slept on the floor - there were no beds, pillows - some mattresses. The jackets were wailing," Artem said.

For her part, Anastasia said that they were forced to sing a Russian high-end week at a certain time, and for refusing were called thankless.

Separately, she noted that when the children asked the invaders to return them to their parents - for example, to organize transportation by bus, they said that the car was very expensive to order and that their parents needed to come and pick up.

The Commander-in-Chief of the Armed Forces of Ukraine Lieutenant General Mykola Oleshchuk explained why the Western F-16 planes are important for Ukraine.

As Ukrinform reports, Oleshchuk wrote in .

According to him, first of all, the F-16 is the best protection of the rear regions. The Middle Ukrainian air defense destroys about 75% of winged

rockets and shock drones. But 25% still reach their goals. The F-16 can effectively destroy the air threats on the borders without allowing missiles and drones of D-Ukrainian cities.

Currently, Russian aircraft prevails in Ukrainian by number, and most importantly, in the invaders technological advantage.

"In the air forces, there is not enough forces and means of both terrestrial and air, in order to effectively protect the airspace, troops on the front and peaceful residents in the frontline from the daily terror of enemy shock aircraft of Irtolot. The F -16 will allow to win dominance in the air, significantly weakened the countryman, saving many lives daily, "Oleshchuk said.

The enemy is increasingly used by managed 500 kg aircraft all over the linefront. There are signs of preparation for mass use of cabins weighing 1500 kg. Peaceful ones suffer in the northern, southern, eastern regions.

"F-16 have in service Air-air class up to 180 km. This will allow you to drive away the enemy aviation from our borders and the line of combat collision that the minimizing the advantage of the use of managed aviation airplanes and other weapons of airborne, "Oleshchuk emphasized.

He noted that the wide range of modern high-precision weapons F-16 will allow to make high-precision strikes on Russian troops of the maintenance.

"It is necessary to stop the attacking actions of the enemy, to win the advantage in the air, to destroy ways of supplying equipment, ammunition and the enemy's living power. The F -16 will be able to perform the CIZE!"Oleshchuk emphasized.

**Read also:** [Ignati](#) F-16 aircraft will also help regain control of the sea. The available equipment and weapons of Soviet aircraft transforms all the missions of Ukrainian pilots into deadly, which causes irreparable loss of Ukraine. Only modern technologies will make their work effective and safe. Oleshchuk assured that Ukrainian pilots have been prepared and motivated to learn. They are enough to fight and study at the same time.

**Read also:** Ukraine now uses aircraft 40 years ago. Some of them are twice the senior of their pilots.

"It is becoming more and more difficult to maintain their serviceability every day. Own stocks are depleted, and they are also not allied. Many questions are asked by so -called "cannibalization", but it cannot last forever. You can not expect all the aviation completely. Thanks to the transfer of melts from Slovakia and Poland, it will be possible to some extent restore the Air

Parkmig-29 of several airplanes, to strengthen the ability to perform current combat operations with fighter aviation. However, to achieve the preference in the air, for the winner, we need modern planes!"Oleshchuk emphasized

Even outdated and ineffective Soviet boobs are also reduced.

"Even with a sufficient number of good aircraft and prepared pilots, our aircraft will remain without means of damage. The transition to the F-16 Chimne Western Platform with a wide range of modern weapons is a single output. Ukraine needs F -16!"Oleshchuk summed up.

Pleasure this week with good results for the state - on weapons, in popular support, to expand our connections with the world, in our NATO movement.

This was stated in the evening President Volodymyr Zelenskyy, reports Ukrinform.

*Viso:*

**\_ I wish health, dear Ukrainians!\_**

The most significant these days, of course, a visit to Poland, our arrangements, our notes.

Poland has completed everything declared on tanks: they are already in Ukraine, including "leopards". There are new arrangements for BMPs - more than a hundred cars. Children's carriers - "Rosomak" - 200 cars. Now a hundred, and a hundred later. Seven -sized mortars, additional missiles, "miga" ...

By the way, we have important agreements on the economy, for the reconstruction of Ukraine - in particular, for our Kharkiv region.

At the level of the first ladies of Ukraine and Poland, there are various humanitarian projects, medical. In particular, it is the training of our physicians with comprehensive assistance to patients with burns of YEXSTRENDY Air evacuation of the wounded, in particular in the war zones. Tens of doctors have already passed or undergo such training. And the project is to have a mastering - learning with rehabilitation, training of Ukrainian psychologists.

That is, in this struggle for life and freedom, we are really side by side with Polish brothers and sisters-in all areas. And I thank for such a unchanging, diverse insignificant support!

There is also a new, already 35th defense package from the United States. HIMARS rockets, air defense missiles, artillery shells, for protection against armored vehicles, and other existing support elements. Thank you, American!

German support for Ukraine this week has increased by 200 million euros our country's investment. In particular, these are projects of German companies that will help our economic and therefore social stability. Thank you to Germany!

The Netherlands announced a package of more than 270 million euros. Tsadogamo for our restoration, humanitarian, non -lethal support for defense, as well as it is very important - support for justice. To collect evidence of Russian crimes, to create a register of losses caused by Russian aggression. I thank the Netherlands for being in all areas of life protection together!

Denmark and Norway are working on a joint package of shells for our artillery. Thank you for it!

There are new sanctions from Australia and New Zealand. Thank you for them!In fact, the values for which we all fight here in Ukraine are close to every one, regardless of whether they are geographically from us. Everyone appreciates and protection against terror. There is no such people who would

be approved by the Russian occupation: Russian concentration camps, deportation children, to rape women, burning cities ... The more the world knows about Russian aggression, the faster the aggressor will lose, and peace will return. Ukraine - will return to everyone in the world. I thank Cili's care!

A very important decision was made this week in Lithuania - for the main expectations of the NATO summit, which is planned in Vilnius.

The Lithuanian Seimas acknowledged the need to invite Ukraine to become a member of NATO - to ask this year, at a summit in Vilnius.

I thank the Lithuanian people, all Lithuanian politicians for understanding the most relevant security situation in Europe. Only with Ukraine will the Alliance be guaranteeing true protection of Europe from any encroachment on the lives of peoples-on existing borders and international order based on the rules. But it is difficult to imagine the strength of Ukraine.

This decision of the Lithuanian Seimas will have a continuation in the coming weeks of the Months. We are already working on it.

And of course, thank our soldiers. EveryoneBorder guards, National Guard and Police, Intelligence and SBU, the State Secretariat and SES ... All who are now in battle. Who protects our sky. Who gives Ukraine cyber defense is protected. All who keep our border. Who trains our new crews. Who eliminates the effects of the blows who saves our people from injuries and who prepares the Verivka for the occupiers.

Glory to all who fight for Ukraine!Thank you all your partners for the power!

**Glory to Ukraine!**

Ukraine can bring up to 50 percent of the "green" energy in total energy supply next decade and even exceed this figure.

Such an optimistic forecast in the comment of Ukrinform was expressed by the chairman of the board of the Global Union 100% Renewablesukraine Alexander Dombrovsky.

"I am convinced that by 2030 we have the opportunity to get more than 50% of pure energy for the end consumer," Dombrovsky said, adding that the state has set up enough ambitious targets and moves to them despite a war that not only stopped the process, but vice versa stimulates to move faster.

He noted that such a forecast is optimistic, because this requires prerequisites: if Ukraine wins quickly and recovery, and the rules of economic development will be "right" - there will be no corruption, not a Wonopoly, but there will be economic decentralization - not only , but also investment. For the state, it is important to create the rules of the game that will not be disturbed, will not change, which will allow to invest, develop this market quickly, emphasized Dombrovsky.

The Verkhovna Rada Explode, MHP Eco Energy President(an enterprise that specializes in gas production)It substantiates that many experimental projects and laboratory tests have taken out that what many have not believed until recently are realized today.

"We can produce our own energy resources. Ukraine has a 100 percentage of being one of the most innovative, technologically developed countries in the world, "Dombrovsky is convinced. According to him, Ukraine has a colossal power: in addition to the sun and wind, as one of the most powerful agrarian states, Ukraine also has enough waste and raw materials to produce a biogas, biomethane, green hydrogen, etc.

Many Ukrainian companies are not waiting for the war, they are working, investing now. But you need a "green" cooperation with foreign partners. Ukrainian companies develop such cooperation primarily to Znimenchyna, also establish contacts with the Dutch, Austrian, Danish, British, and American firms. **Read also:** The interlocutor of the agency gave figures: for 30 years of independence, Ukraine paid only Russia, more than \$ 100 billion only for imported gas, which was equal to one pre-war budget The main exporter, again, was bought by diesel, oil, coal, natural gas, nuclear fuel.

"The Russian aggression confirms that oil, gas exported by Vevrope to Ukraine and earned on it, all this returns in the form of weapons, missiles, and destruction. The whole world eventually understood, Europe has changed its attitude 180 degrees, "Dombrovsky said. He noted that "green", renewable energy today is not just about energy. This is about the protection of Ukraine, the energy security, the energy independence of Ukraine, but also the EU.

Dombrovsky during the recent international conference "9th Berlin Energy Dialogue", together with associative members of the Union, set a signature under a memorandum on mutual understanding and cooperation with the most renewable energy(BEE).

Mantas Adomėnas, Deputy Chairman of the Lithuanian Foreign Ministry, believes that the real renewal will only be renewed after fundamental changes in aggressor countries - Russia and Belarus. The greater sense is the search for new formats, one of which "European Political Community / European Political Community".

Adomenas expressed this opinion in .

"In such a composition where Irosia and Belarus are involved, that is, two aggressors, it is impossible to renew. It will happen only when the war is over, and Russia and Belarus admit their guilt of the Zaia Solution. By that time, this organization is not so much that is meaningless, alabestate, "Adomenas said.

In his opinion, starting a new security policy in Europe is currently related to the search for new formats. One of them is the Europeanpolitical Community / European Political Community initiative, which will soon be released in Moldova for his second summit. "This community was created by an estimated basis as an alternative to the OSCE. In turn, the OSCE had one time -to prevent the new war in Europe, but it was unable to do so, "Adomenas said.

The Deputy Foreign Minister of Lithuania Mantas Adomas believes that, in addition to the military aid of Ukraine, the democratic world itself needs prompt re -equipment and re -equipment of its economy, taking into account the threats that it puts it on the block of anti -democratic countries.

Adomenas expressed this opinion in .

"Re -equipment, re -equipment (In addition to Ukraine - ed.) The free world is needed, who thought for 30 years that he had some vacations in history when he could admire and relax. It was a misunderstanding that global conflicts would be gone. It is necessary to understand that all this is dramatically changed. Therefore, we, democratic countries, must be re -armed, " said Adomas.

He added that the democratic world should be mobilized in various fields, in that number - in economic terms, and also - establishing a military economy, improving military logistics.

**Read also:** [Linkyavichus](#) According to the diplomat, the process of transitioning the democratic countries to a regime that takes into account the threat of war, has begun, but it moves too slowly. From the positive factors - it has come to understand that Western countries have to diversify their supply chains of energy and other materials.

In this case, Adomenas believes that the concept of "diversification", "reduction of dependence" in the available conditions is insufficient. He should be replaced by the realization that the conditions of "peace that gives everyone" ended at all. "We need to prepare for a new phase of international relations. They will be characterized by a much greater level of aggression, unpredictability and in general - the presence of war or its threat, "Adomenas explains.

In his opinion, all this is necessary because the formation of block - democratic countries who want to revise the worldwide, founded by the rules that have existed in recent decades.

Under the procedural guidance of the Kyiv City Prosecutor's Office, the citizen of Ukraine was informed in absentia of suspicion of state treason and humiliation and dignity.

According to the investigation, even before the start of the full-scale invasion of the aggressor state, Ukraine began to actively assist the Russian Federation in the implementation of subversive activity.

In order to fulfill the tasks of Russian curators, he prepared and published Usocial networks destructive propaganda, in which he expressed pro - Russian views. As a political scientist, he has repeatedly participated in various political shows, including Russian TV channels.

In his publications and speeches, the suspect spread Russian narratives about "Nazism in Ukraine", promoted ideas aimed at discrediting an independent state.

The political scientist persuaded his audience to be the falsehood of foreign policy of Ukraine focused on European integration.

These publications and video recordings were actively "accelerated" by Winternett and Social Products and were available to unlimited users.

By his actions, the political scientist has damaged the sovereignty, territorial integrity, inviolability and information security of Ukraine, providing assistance to representatives of the Russian Federation in conducting subversive activity against Ukraine with the formation of the sphere.

The pre -trial investigation is carried out by investigators of the State Security Service of Ukraine in Kyiv in the Takiiv region for operational support of the SBU.

Cyberhachivtsi of the Security Service of Ukraine were neutralized in the Kropyvnytskyi Botoerm, which was in favor of the Russian special services.

As a result of investigative operations, the organizer of the enemy "cell" was detained. He was a displaced person from Zaporozhye, who moved to the Nakirovograd region after the beginning of a full -scale invasion.

There he began to create massively anonymous accounts on social networks and seated through Darknet. The corresponding equipment was installed in the rented apartment from the sleeping areas of the regional center

The average cost of one bot is 200 UAH.

It is established that the attacker created almost 3 thousand fake accounts, which he planned to sell for a total amount of more than half a million UAH.

Its main "clients" were representatives of the Russian special services, as well as their control of pro -Kremlin propagandists.

Bots needed aggressors to "accelerate" misinformation allegedly on behalf of Ukrainian citizens about the situation at the front, as well as for trying to discredit the units of the Defense Forces.

Thus, the enemy tried to shake the intra-political situation of the inserted regions of Ukraine in the conditions of war.

During the search in the rented apartment, the person involved was found:

Currently, investigators of the Security Service of Ukraine have informed the

attacker about the suspicion of extinguishing, recognition legitimate, denial of the armed aggression of the Russian Federation with anti -Ukraine and the glorification of its participants.

The issue of additional qualification of criminal acts of the person involved in the measure of a measure of restraint - detention is being resolved.

The measures were carried out by the SBU staff under the procedural guidance of the regional Prosecutor's Office.

The DBR employees reported the suspicion of the former Kherson pre -trial detention center who kept patriots stolen in the cameras.

After the start of the temporary occupation of the Kherson region and the seizure of the Kherson Detention Center of Kherson, the junior inspector-cinema of the department has received from the special services of the Russian Federation the proposal to join the ranks of the fake law enforcement

organs "Management of the service of the service ordered in the Kherson region".

The former law enforcement officer betrayed the oath and voluntarily occupied the post of the junior inspector of the duty. He followed all the instructions of the invaders, in all the work of the institution, for which he received a salary in rubles. Actively agitated cooperation with the enemy: calling former colleagues, urged to go to the service of a denounced institution.

It is known that he kept in the detention center of the Kherson, whom the occupiers stole in the cameras for disobedience, exercised moral pressure on prisoners, threatened them.

After the release of Kherson, the person fled with the military personnel of the Russian Federation.

The prompt support of the internal security of the National Police reported suspicion of collaborative activity and treason.

The sanction of the article provides for a sentence of life imprisonment.

In the straight [ether](#) The only news spokesman of the Air Force of Ukraine Colonel Yuri Ignatkomen projected the use by the enemy of managed aviation bombs in the territory of Ukraine. In particular, the officer noted that these

high -precision aircraft means of the defeat are used throughout the front line - this is the south, the east of the country, Isum region, and Chernihiv region - he attacks everywhere.

Read also:

Tactics of hostile air attacks became more dangerous - Colonel Yurignat The enemy uses Su-35 to use managed airbombs. Every day, the enemy uses 10-12 such bombs every day with the help of these aircraft throughout the front line. These are Fab-500 bombs weighing 500 kg, equipped with wings and GPS navigation.

-This bomb flies to its goal another 10-20 kilometers, and maybe more, depending on what height it is from,-explains Yuri Ignat. -And here is a tens of kilometers from the line of collision and there is, in fact, the threat of applying such aviation bombs.

Yuri Ignat also said that just yesterday in the Russian media space there was information that Shoigu was checking a plant, a disappointed line for the production of already one and a half-ton bombs, which the Russians would also be equipped with wings and GPS navigation. And this is three times the amount of explosive substance, and therefore three times the destructive force of the more threat.

Specialists of the Center for Moral and Psychological Support of the Naval Forces of the State Security Service of Ukraine actively work with the military personnel of the Navy, who have returned from the captured undergoing process of rehabilitation.

According to the head of the Center Vasyl Oniskov, during the communication with the assigned category of defenders of Ukraine, his subordinates not only focus on overcoming the consequences of post -traumatic stress disorder, but also provide practical and methodological assistance to the released soldiers in the design of lost devices, consultation on further rehabilitation.

During the work in this area, military psychologists have accumulated considerable practical work, which will be implemented in the systemic work of the more. Each time after the next exchange, new issues arise, newly tailoring that need to be resolved, so the assistance process is constantly improved.

In preparation for work, the specialists of the Center use not only their own experience and developments, but also study third -party sources, analyze the Tauzaglization of the experience of Ukrainian and foreign psychologists

on the rehabilitation of soldiers from captivity of military personnel. After all, this category is quite difficult for the work of psychologists, people close in themselves, difficult to contact, try to abstract from the experience. In such a situation, the mistakes of psychologists can increase the stressful state of the liberated.

- God forbid, eventually we will return all the prisoners, and the need for such a workman. We are currently working as needed-for every request of rehabilitators. We try not only to support our warriors-every time we take with them some gifts-sweets, symbolism, souvenirs, printed editions to adjust them to the positive,-said the head of the Center of Moral and Psychological Support. Navy of Ukraine.

The officer emphasized that the most important result of this work should be a painless overcoming of the issues related to the captivity released by the soldiers, and returning them to a normal calm full -fledged life.

Commenting on the recent flight of three carriers of the Mig-31KZ fighter missiles of the Belarusian Magulychi Aerodrome to Russia, Colonel Yuri Ignat noted that this was already happening, and every time the aircraft returned. According to the officer, this spite can be associated with both planned rotation and certain technical moments. For example, the need to carry out regulatory work of Naerodroma base. Thus, the fact that the carriers of "daggers" are currently in the immediate vicinity of the Ukrainian border, so far, unfortunately, the threat of their use is not relieved.

At the Eastern Regional Center for the Coordination Staff on the behavior of the prisoners of war, a meeting with the families of prisoners of war and universal warriors of TRO in A7097 from Poltava was held.

About it [reports](#) Coordination Headquarters of the Utelegram-channel.

The meeting was attended by the head of the Eastern Regional Center Sergey Chebyshev, representatives of the Coordination Staff on the management of prisoners of war, the International Committee of the Red Cross, the National Police, the Territorial Center of Acquisition and Social Support, the Armed Forces forces.

Family representatives were interested in the priority of the submission to exchanges except for vulnerable categories: women who were wounded. Sergei Chebyshev's foundations, the registers are alphabetically and the foreseeability of the submission for exchange does not affect anything. Unfortunately, when returning from the ground, the position of the enemy party is crucial.

Representatives of the headquarters also noted that the appeal of the so - called "ombudsmen" of Russia and the unrecognized entities in the occupied territories of Ukraine, as well as other authorities of the Russian Federation, allow to enemy the prisoners for their purposes, to carry out IPSO. In the case of special prisoner, the risk of psychological influence of the enemy on him increases significantly, and the issuance of such prisoners is deliberately delayed.

Why the F-16 multi-purpose fighter jets are important to Ukraine, the Air Force General Mykola Oleshchuk, the Air Force.

The best protection of the rear regions

On average, our air defense destroys about 75 % of winged rockets and shock drones. But 25 % still reach their goals!

Civilians die, infrastructure is destroyed. The F-16 can effectively find these air threats at the borders without allowing the rockets and drones of our cities.

□ The advantage in the air is a reliable cover of advanced

Russian aviation prevails Ukrainian at times by quantity, and most importantly, the powers are technological advantage.

The air forces are not enough forces and means of both terrestrial and air, in order to effectively protect the airspace, troops on the front line and peaceful residents in the frontal area from the daily terror of enemy shock aircraft of Irtolot.

The F-16 will allow to win domination in the air, much weakening the enemy, saving many lives daily.

□ The most effective counteraction against the use of managed aircraft

Increasingly, the enemy is used by managed 500 kg aircraft all over the linefront. There are signs of preparation for mass use of cabins weighing 1500 kg!

The aircraft of the Russians do not enter the area of the defeat of our air defense, remotely strikes on the front line and frontier cities. The civilians suffer from the copies, southern, and eastern regions.

The F-16s have an air-to-air rocket with a range of up to 180 km. It will allow you to drive the enemy aircraft away from our borders and lines, which minimizes the likelihood of the use of other air base weapons.

□ A powerful blow to response

The wide range of modern high-precision weapons of the F-16 will allow high-pointed strikes in Russian troops during counter-offensive actions. It is necessary to stop the attacking actions of the enemy, to win the advantage in the air, to destroy ways of supplying equipment, ammunition and the enemy's living power. The F-16 will be able to perform the CIR!

□ Sea control

The Black Sea is still under the control of the Russian fleet. The F-16 has armed-on-power anti-ship missiles that can easily drive all the enemy fleet in ports or the seaside. Ukraine needs to ensure freedom -regulations and protection of "grain corridors".

#### pilots - hostages of old technologies serviceability, spare parts

Ukraine uses aircraft 40 years ago. Some aircraft twice the older pilots! It is becoming more and more difficult to maintain their serviceability. Multiples are closed by the so-called "cannibalization", but it cannot be long. You can't wait for all the aviation to stop completely. Thanks to the transfer of melts from Slovakia and Poland, it will be possible to some extent restore the Air Parkmig-29 several airplanes, to strengthen the ability to perform current combat operations with fighter aviation. However, to achieve the preference in the air, for the winner, we need modern planes!

#### Ammunition reserves

The reserves of even outdated and ineffective Soviet ammunition for existing Aviapark are constantly decreasing. Even with a sufficient number of good-served-levies and prepared pilots, at some point our aviation will remain the deficiency of the lesion. The transition to the F-16 or other Western platform with a wide assortment of modern weapons is the only way out!

## **\_ I wish health, dear Ukrainians! \_**

It is a pleasure to complete this week with good results for the state - the Castle, on international support, to expand our connections with the world, to NATO movement.

The most significant these days, of course, a visit to Poland, our arrangements, our notes.

Poland has completed everything declared on tanks: they are already in Ukraine, including "leopards". There are new arrangements for BMPs - more than a hundred cars. Chrysostomists - "Rosomak" - 200 cars. Now a hundred, and a hundred later. Veshessamorous mortars, additional missiles, "miga" ...

By the way, we have important agreements on the economy, for the reconstruction of Ukraine - in particular, for our Kharkiv region.

At the level of the first ladies of Ukraine and Poland, there are various humanitarian, medical projects. In particular, it is the training of our physicians with comprehensive assistance to patients with burns of YEXSTRENDY Air evacuation of the wounded, in particular in the war zones. Tens of doctors have already passed or undergo such training. And the project will have a teaching - learning on rehabilitation, training of Ukrainian psychologists.

That is, in this struggle for life and freedom, we are really side by side with Polish brothers and sisters-in all areas. And I thank for such a unchanging, diverse insignificant support!

There is also a new, already 35th defense package from the United States. HIMARS rockets, air defense missiles, artillery shells, for protection against armored vehicles, and other existing support elements. Thank you, American!

German support for Ukraine this week has increased by 200 million euros our country's investment. In particular, these are the projects of German companies that will help our economic and therefore social stability. Thank you to Germany!

The Netherlands announced a package of more than 270 million euros. The deed of our recovery, humanitarian, non -lethal support for defense, as it is very important - support for justice. To collect evidence of Russian crimes, to create a register of losses caused by Russian aggression. I thank the Netherlands for being in all areas of life protection together!

Denmark and Norway are working on a joint package of shells for our artillery. Thank you for it!

There are new sanctions from Australia and New Zealand. Thank you for them!

He continued his appeal to the world and first appealed to the Parliament of Latin America, to the Chile Parliament.

In fact, the values for which we all fight here in Ukraine are close to every one, regardless of whether they are geographically from us. The more the world knows about Russian aggression, the faster the aggressor loses, the span will return. Not only Ukraine will return - it will return to everyone in the world. I am chili for support!

A very important decision was made this week in Lithuania - for the main expectations of the NATO summit, which is planned in Vilnius.

The Lithuanian Seimas acknowledged the need to invite Ukraine to become a member of NATO - to ask this year, at a summit in Vilnius.

I thank the Lithuanian people, all Lithuanian politicians for understanding the most relevant security situation in Europe. Only with Ukraine will the Alliance be guaranteeing true protection of Europe from any encroachment on peoples' lives-on existing borders and international order based on rules. But it is difficult to imagine the strength of Ukraine.

This decision of the Lithuanian Seimas will have a continuation in the coming weeks of the Months. We are already working on it.

And of course, thank our soldiers. Everyone! The Armed Forces and Border Guards, the National Guard, Intelligence and the SBU, the State Secretariat and the SES... All who are now in battle. Who protects our sky. Who gives Ukraine cyber defense and protects. Everyone who holds our border. Who trains our new crews. Who eliminates the consequences of the hallmarks, who saves our people from injuries and who prepares sentences for the invaders.

**\_ Glory to all who fight for Ukraine! Thank you all partners for the powerful assistance! \_**

***Glory to Ukraine!***

Live in the evening [Telelorphone](#) The only news is the head of the united coordination press center of the South Defense Forces Pititans 1st rank Natalia Humeniuk answered the questions of journalists about the current

situation in the south of the country and the degree of threat of jail and aviation strikes.

The officer noted that in fact, the number of cases of the announcement of the air duty decreased, and the reasons for this may be a number of factors. First, in neighboring Belarus, joint training of aviation of podillets ended, as they could be expected from the aggressor for anything. Secondly, from the territory of the Kremlin satellite flew to Russia by aircraft "Dagger". At sea the bloody plans is periodically prevented by storm weather. There are several other factors that Natalia Humeniuk has told in more detail.

"The threat has decreased now, but has not disappeared at all," she said. - Currently, one rocket carrier, but on a combat duty in the Black Sea they will grow. And this is 4 caliber missiles. In addition, we know well that they can remove other ships and other ships from the needs, and for 2-3 hours.

Natalia Humeniuk suggests that with the change of weather is possible to activate the enemy. Yet, says the officer, the same "calibers" of the enemy no longer as he would like it. And it is impossible to produce a backdown of missiles, and the ways of delivery of the means of the defeat are under fire control of the Defense Forces of Ukraine.

In the Azov Sea, the presence of invaders is limited by the presence of one ship, occasionally - two. They explore the situation, can carry intelligence. However, says the 1st rank captain Natalia Humeniuk, today the guards of the sky from the air command "South" have reduced their numbers, the beating the exploration of the unmanned aircraft.

Putin ruined Russia. Collage Armyinform

The President of the United States, Joe Biden, signed a decree that has been sanctioned against Russia for another year, imposed in April 2021 due to the

"harmful activity" of the Russian Federation and expanded in March 2022 post -wide component invasion of Ukraine.

About it [reports](#) The White House press service.

According to the decree, according to the US law, the sanctions are terminated if within 90 days before the annual date of their announcement, the President is not informed about the continuation of the established restrictions.

Since the Russian government has not stopped "harmful external activity", which "continues to be an extraordinary threat to national security, foreign policy and economy of the United States", the US President made a decision to undergo the effect of anti -Russian sanctions after April 15, 2023 for one year.

Among the types of harmful activities of the Government of the Russian Federation, the following are:

About it [reports](#) State enterprise "National Atomic Energy Generating Company" Energoatom".

"From now on, the employees of the Zaporizhzhya Nuclear Station will not reach the Donesa, as it was always, and part of the way will walk on foot," - said the news.

It is noted that the buses for the staff of the ZPEC, who are delivering to work, will no longer run to the final point of the route. A new fence will become a new fence, which the invaders will be equipped on the approaches of the station -building of the station. To do this, they have already started digging the ground.

Therefore, route buses only reach the ring where workers are squeezed, and they should just go. Thus, the racists actually expand the closed perimeter around the station, as if preparing it for defense. More speaking: they are afraid that they do not stop even before illegal building in the territory of the atomic object.

"ZPP is Ukraine! And no fences will prevent the return of the station under the contractor and the legal operator - energy apparatus!" - added to the press service.
