Russian aggression against Ukraine has negative consequences for Asia and the world, so in the interests of the countries of the region to take a clear position in support of the state and the UN Charter.

This was stated by the Minister of Foreign Affairs of Ukraine Dmytro Kuleba in the online existence of the Asia Center of Harvard University(USA).

«Азія знаходиться в епіцентрі тектонічних зсувів у системі міжнародних відносин, які відбуваються через російську агресію проти України», — заявив він.

Міністр підкреслив, що азійський регіон протягом десяти років виступав глобальним агентом змін: його держави вибороли незалежність, перемогли імперіалізм, віднайшли власний голос і втілили економічне диво, подолавши бідність.

«Два слова, які я чую від азійських колег дещо частіше, ніж хотілося би, це „солідарність“ та „нейтральність“. Вони висловлюють солідарність з Україною, за що ми вдячні, але декларують нейтральність щодо нас та Росії. Водночас проходну нейтральність не може бути мови, коли йдеться про агресію, вбивства, терор, з'валтування, мародерство і масові звірства. Країни Азії мають зайнятічітку позицію на підтримку України та Статуту ООН», — наголосив Дмитро Кулеба.

Голова МЗС переконаний, що розділення світу на Глобальний південний та північний північне. Натомість універсальними для всіх цінностями є принципи Статуту ООН, які необхідно захистити від імперіалізму.

«Новий імперіалізм вже не просто стукає в двері, а вибиває їх. Все через те, що протягом десятиліть світ мав сліпу пляму розміром з Росію. На щастя, це в минулому. Росія програє війну — не лише проти України, але і проти сучасності, розуму та здорового глузду», — заявив він.

Дмитро Кулеба порівняв керівництво Росії з диктаторами минулого, які напередодні краху своїх режимів намагалися військовою силою втілювати імперські амбіції, але вже невдовзі втрачали все.

«Російська війна проти України несе лише погані новини для всіх у світі. Українці страждають найбільше, але російська агресія також руйнує життя, економіку та надії людей у багатьох регіонах. Саму тому Росію необхідно зупинити», — зауважив міністр.

Дипломат нагадав, що на початку повномасштабного вторгнення ніхто не вірив в Україну, але нині ситуація докорінно змінилася завдяки тому, що українці мали сміливість, а світ — гідність.

The minister stressed that Ukraine will win, and Russia will need "generations to choose from the pit that it has driven itself." The main lesson will be that "aggression does not produce any results", and it will be equally relevant for east, east, south and north of the world.

"It is still possible to avoid the collision of civilizations. The world in which the country is supported by each other is still relevant. If we can protect together, so we can withstand other challenges: climate change, food crisis, global inequality," he summed up.

Ukrainian Marto to take into account the experience of Israel in the construction of a strong state during the war.

Olena Kondratyuk, Deputy Chairman of the Verkhovna Rada, expressed this opinion in the Eviritelvagraphon "Unified News", Ukrinform reports.

"We all believe in victory, but must be reinforced and understand that it is probably that we will have life in the future as it lives . That is, in the safety

and constant activity and constant experience, but at the same time life is set up, "Kondratyuk said.

According to her, we must first look at the extremely responsible state of this country to the alert system, to our safety. An important alert system itself, which orients people on the type of danger.

"Israel is very characterized by such a sense of freedom and re -equipment of the economy into military rails. It is very important for us in this system of system in which Israel exists when we talk about safety, when it is a long time to go down to the bomb shelter, to have this equipped bomb shelter.

Israeliped to the rails of constant struggle for life. Each school has a bomb shelter that we need to do; Kindergartens also have special boxes, where children can run and wait and save lives for 15 seconds, " - said.

She added that in this country they are punished by fines at the enterprises of those who neglect the alarm during working hours: "This is the coordinate system that we have motivated. You see, we survived such a difficult night when the greatness of "Shahmed" flew on us. And I communicated with whom I have communicated with, and they say they get used to it and continue to sleep. This is not typical for Israel, because it is a must -designed cover for safety. Israel and we have an enemy, say that we have common enemies. Since it is Iran for Israel, and for us we see that Russia is now using Iranian drones, so it is important for us to have a riding interest in the UN. Because we have a common danger. "

China's trade and economic cooperation with Russia does not aim to support the Russian invasion of Ukraine, and in the case of sanctions against Chinese companies, it will take action.

This was stated at a briefing by the Ministry of Foreign Affairs of the Interior Van Wenbin, commenting on the notification of the EU preparation of restrictions on seven companies from China for sales of equipment, which could be used for military purposes, reported by Ukrinform.

"Chinese-Russian Taurance cooperation is absolutely not about the crisis in Ukraine. It is not directional against any third party, and it is unacceptable for us to interfere with one and resort to threats," Van said.

According to him, the introduction of restrictions by the European Union "undermine the mutual confidence of China's tamping with the EU."

"We urge the European Union not to take this wrong step," said China will take decisive measures to protect its legitimate legal rights and interests.

The diplomat also stressed that in the issue of Ukraine, China "adheres to the objective and fair position" and plays a constructive role "in the promotion of the crisis."

First of all, I want to thank our soldiers. Those who protect the Ukrainian sky, andim, who beats for the sake of Ukraine on the forefront.

Our defenders of the sky are the soldiers of the Air Force and other troops who have involved the defense against rockets and Shahheda of terrorists - these days are just fellows!Not only inspire us. Partners see what Ukrainians are capable of, what weapons are in our hands, which we are effective when we are acting for our joint security.

The success of Ukrainians in defense against Russian aggression is, unambiguously, anti -Dotto protruding of other aggression. The world must see that the free people are able to protect the grave from the invaders. We can - so others will be able to. If Taksamo will act boldly, just as well and as well with other free peoples. I thank every warrior who gives Ukraine this result!I thank every partner who helps our soldiers exactly the weapon needed for the results!

I will especially note today the soldiers of the 96th Kiev anti-aircraft missile brigade. The ghost and last day are absolute good fellows!

Of course, today, as always, I thank our units that fight the most cruel destinations. Marinka, Bakhmut, Avdiivka ... I thank everyone who protects Ukraine there for bravery and sustainability!The occupiers have re-arranged from their leaders some regular tasks to move somewhere for sure to give ... There are good news about this. Of course, a contagious time to publish them.The first meeting is for mine demining. As of now, more than 170,000 kilometers of our territory are contaminated with mines and ammunition that have been broken. In general, this is evaluated within the time limits quite unpleasant - it is necessary, it takes decades to deal with such a threat. We have to do it much faster. We also prepare a special

system of action, which will help to change the new territory more quickly after de -occupation. We are actively working as partners to increase our capabilities. In technique, in preparations and pyrotechnics. With everyone in the world who has experience, who has technology, who has financial capabilities to support, we will cooperate to make Ukraine again clean from Russian mines.

Another meeting is the Security, which he has held today, concerns the development of a fundamental new security concept for Ukraine. We will comprehensively give all the country's security issues. At the legislative level, at the level of government, in specific practical issues. From the protection of the border to new safe conditions for the work of schools, from the infrastructure foundations of the economy of the real ability to guarantee our people such protection against terror that have the most advanced states of the world. All this will be presented. All this is everyday.

Today, May 8, when the world remembers the words "Never again!", We are giving in Ukraine to these words. Not only to remember but to protect. Ukrainian Marto to take into account the experience of Israel in the construction of a strong state during the war.

Olena Kondratyuk, Deputy Chairman of the Verkhovna Rada, expressed this opinion in the Eviritelvagraphon "Unified News", Ukrinform reports.

"We all believe in victory, but must be reinforced and understand that it is probably that we will have life in the future as it lives . That is, in the safety

and constant activity and constant experience, but at the same time life is set up, "Kondratyuk said.

According to her, we must first look at the extremely responsible state of this country to the alert system, to our safety. An important alert system itself, which orients people on the type of danger.

"Israel is very characterized by such a sense of freedom and re -equipment of the economy into military rails. It is very important for us in this system of system in which Israel exists when we talk about safety, when it is a long time to go down to the bomb shelter, to have this equipped bomb shelter.

Israeliped to the rails of constant struggle for life. Each school has a bomb shelter that we need to do; Kindergartens also have special boxes, where children can run and wait and save lives for 15 seconds, " - said.

She added that in this country they are punished by fines at the enterprises of those who neglect the alarm during working hours: "This is the coordinate system that we have motivated. You see, we survived such a difficult night when the greatness of "Shahmed" flew on us. And I communicated with whom I have communicated with, and they say they get used to it and continue to sleep. This is not typical for Israel, because it is a must -designed cover for safety. Israel and we have an enemy, say that we have common enemies. Since it is Iran for Israel, and for us we see that Russia is now using Iranian drones, so it is important for us to have a riding interest in the UN. Because we have a common danger. "

Volodymyr Gavrilov, Deputy Minister of Defense of Ukraine

**When Ukraine's defense forces begin a counter -offensive operation, a big panic will appear in the Russian because of the false view of reality shown by their propaganda.**

This was stated by Deputy Minister of Defense of Ukraine Volodymyr Gavrilov in [interview](#) The Independent.

"We will start our counter -offensive. When and where - it doesn't matter now. And when Cestant, Russia will be in a panic, you will see a lot of panic. They are still unclear that their propaganda shows a false picture of what is released on the ground. This war is won on land, not on screen -based, not on the Internet, "the Deputy Minister of Defense said.

Volodymyr Gavrilov added that the Kremlin hid the true scale of the loss of Russia in Ukraine from its own people, but it will no longer be able to do so when Ukraine is apt to win their territories, and these losses will increase even more.

"You cannot deceive your people for many years ... Especially if they do see the difference in the ground, they begin to see killed and wounded, they see families who have lost their men, their homes. You cannot get the death of your son, husband or brother, "Vladimirgavrilov said.

He also expressed the opinion that he would not be surprised if, perhaps on a month or next month, the world will see something that will contribute to the immediate drill of the Russian strategy, its troops or its economy.

"Bakhmut demonstrated not only to us in Ukraine, but also an enemy that for Russian a military decision in this war, even worse, that at the end of this war, Russia is waiting for a military catastrophe, and we will see it soon," - the addctor of the Minister of Defense of Ukraine.

About it during [briefing](#) Bogdan Okhrimenko and Victoria Tsymbalyuk reported by representatives of the coordination headquarters on the management of the maintenance headquarters.

"There are several hundred Ukrainian women-military women in hostile casemates. Coordinating headquarters and all state authorities work in order to get their return more quickly," Bogdan Okhrimenko said.

In turn, Victoria Tsymbalyuk added that Ukraine, for its part, adheres to the Norm of the Geneva Convention, which provides for non-holding in captivity of women-military women, and also requires this from the Russian Federation.

"Ukraine adheres to the Geneva Convention. Russian military women who were captured were repatriated. We also demand this from the Russian page: to return women-women without conditions and exchanges, "she said.

According to a representative of the coordination headquarters, unlike women-military women, the exact number of civilian Ukrainian women in the Russian Federation is unknown. At the same time, the authorities are working to find out and reconcile them home. More than 300 Ukrainian children are considered to be an intermediate result at the coordination headquarters.

It is impossible for 100% to assert or refute exacerbations for May 9.

This noted Deputy Minister of Defense of Ukraine Anna Malyar.

"The likelihood of exacerbation will always be, regardless of the date, until it is long. The fact that the Russians love to give and historical parallels - yes. But historical and festive dates, to which they "did not intensify." Therefore, exacerbation may not be exacerbated, "Anna Malyar wrote, calling for being a gift for the insidiousness of the enemy and defense.

Every year on May 8, Ukraine and the world are celebrated in memory and reconciliation.

The Second World War of 1939-1945 became the largest tragedy of the world in the twentieth century. Having taken tens of millions of lives, breaking the

fate of hundreds of millions of people, destroying the entire cities and even Ukraine, she paved her bloody path as well as Ukraine.

The front twice swept the lands of Ukraine - first from west to east, then splits to the west. Millions of Ukrainians have laid their lives for the sake of victory over the Nazma Reconstruction of Peace. Millions have undergone wanderings during and after the end of Vivna, which has been signed over the following decades and has been tangible to now.

The broken fates of those who were in camps or in the forced emigration of the war, the explosions of ammunition, which have been hiding in the ground since the war, have crippled and killed in peacetime, serious illnesses and severe burden of the sums of the dead to today do not let people go to the world.

The Second World War became the largest tragedy of humanity in the twentieth century. To remember it, because the war should not be repeated.

Never again!

Unfortunately, now this slogan did not work.

Again. Again.

Ukrainian and world "Never again!" did not stop Russian aggressors with their "can repeat".

And the Russians repeat. And Ukrainians stop.

The Russians seek to destroy peace and praise the war.

Ukrainians destroy the war and defend peace.

To stop the Russian "can repeat."

To win the Ukrainian and the world - "Never again!".

We return our country to an honest history without ideological impurities. It is on May 8 that the peoples of the world recalls the grandeur of the victory over Nazism. It is on May 8 that the memory of everyone whose lives took away the war. It was on May 8 that the act of unconditional surrender of the Wehrmacht was recruited.

This was stated by President of Ukraine Volodymyr Zelenskyy in [telegram](#) .

— Сьогодні я подав до Верховної Ради України законопроєкт, яким пропонується встановити 8 травня Днем пам'яті та перемоги над нацизмом у Другій світовій війні 1939–1945 років. Ми ніколи не забудемо внесок українського народу в перемогу над нацизмом. І ми не дамо брехати, ніби перемога в тій війні могла відбутись і без участі якоєї країни або народу. Як тоді ми разом знищували зло, так і зараз ми разом знищуємо аналогічне зло, — зазначив він.

На жаль, як акцентує глава держави, зло повернулося. Хоч агресор тепер інший, у нього та сама мета — поневолення або знищенння.

— І як тоді ми спиралися на спільну силу вільних народів, так і зараз ми б'ємося проти зла разом із вільним світом, разом із вільною Європою. І ми переможемо! Буде день нашої перемоги — День перемоги України. Буде! — запевнив Володимир Зеленський.

За його словами, багато років тому на нашому континенті була встановленатрадиція святкування саме 9 травня Дня Європи — для відзначення досягнутих миру та єдності.

— Сьогодні єдність на нашему континенті наближає нас до відзначення першого дня нашого миру. І правильно буде разом з усією вільною Європою відзначати День Європи. **Сьогодні я підписав відповідний указ, і щороку відзавтра 9 травня ми будемо вшановувати нашу історичну єдність — єдність усіх європейців, які знищили нацизм і переможуть рашизм.** Єдність, яка наближає мир. Вічнапам'ять усім загиблим у Другій світовій війні! Слава кожному і кожній, хтобився проти нацизму та переміг! Слава всім нашим героям різних часів, яким ми однаково завдячуємо нашим життям! — наголосив Президент України.
