The letter was released on , Senator Mike Lee, reports Ukrinform.

"We are deeply concerned about the fact that the US assistance trajectory with military efforts It is threatened with further escalation and there is no need for strategic clarity, "the letter reads.

The text states that the war has been going on for the second year, and still "it is not visible", as well as, they say, there is no clear strategy for its completion.

"Proxy with Russia in Ukraine does not correspond to the strategic interests of the state and risks escalation that can get out of control," the signatories said.

Republicans accused Biden's administration of "a long conflict set" and stated that the current strategy of sanctions against Russia, as well as allocating assistance to Ukraine, would only delay it. They called assistance to "unlimited" and stated that it should be stopped, otherwise, in a word, there is a growing risk of direct conflict between the US and Russia.

"We will strongly oppose all future assistance packages if they are related to a clear diplomatic strategy aimed at rapidly reducing this war," the authors of the letter said.

They called the "provocation" of the decision to transfer to Ukraine the HIMRS system in June year and spoke negatively about the transfer of Ukraine tanks Abrams.Khus, a group of legislators called the transfer of intelligence information to Ukraine as it complicates attempts to deny the Russian arguments about the "complicity" in Ukraine in Ukraine.

It is important that, while the aggression is ongoing, the Russian state does not have any access to regional, Olympic sites. In particular, to the Paris Playground - the very city will host the 2024 Olympiad.

He emphasized this in the evening President Volodymyr Zelenskyy, reports Ukrinform.

Viso:

I wish health, dear Ukrainians!

He just turned to the Parliament of Mexico, and this is the second such appeal of the pre -region of Latin America. I am grateful to Mexico for his attention to Ukraine and the support of international security, the need for the widest possible unity to protect international law.

Because if the right does not work, life threat will only grow ... The bandits of the Yagresar will become even more arrogant. We should not allow this.

In fact, it was in Kiev that NATO Stoltenberg's NATO Zano Turks were also devoted to Kyiv. Protection of Ukraine. Protection of the entire international order based on the rules. Protection of life.

We are preparing for the Ramstein meeting, and Mr. Stoltenberg's position is important. We are preparing for our active action at the front - they are inevitable.

We are also preparing for NATO Summit in Vilnius, which is scheduled for the summer of this year, but its content is being processed now. It is at such meetings that in contacts of different levels that we lead with partners.

Neither the majority of Ukrainians nor most Europeans, nor the majority of NATO residents will understand the Alliance's leaders, unless a well - deserved political invitation for Ukraine to the Alliance is sounded at this summit.

Ukraine has done everything in order for our application to be satisfied.

It is difficult even to say whose contribution to European and Euro -Atlantic security is greater than our soldiers ... Ukrainians and Ukrainian women who protect their lives with their lives. I thank all the partners who support us in this.

The international summit of cities and regions took place today in Kyiv. The new formatting of our country with partners.

The Congress of local and regional authorities of Ukraine, which unites the central authority of local leaders, is now gaining international level. In order to actively disappear foreign partners to rebuild in our country, to the development of economic, infrastructure in our communities.Today, Ms. Ann Idalgo met with Paris mayor. It was honor to hand over a special distinction of Ukraine for the capital of France, a distinction of the city-rescuer.

Paris has become one of the largest centers for Ukraine in Europe - in all its senses.

I would like to point out the help in protecting our energy. It was in the capital of Frank that the format conference was held, as it was called, "Energy Ramstein". Paris has accumulated significantly support for Ukraine with equipment for energy, provides social and humanitarian support.

I thank all the French, all Parisians, President of France Macron for her unchanging for Ukraine, for leadership. And especially I want to mention the absolutely principal and such a consonant Ukrainian position of Ms. Paris on the protection Olympic movement from Russian ideologization, from propaganda.

It is obvious that the terrorist state will do everything to justify itself through the sports to use the International Olympic Movement in support of its aggression.

That is why it is important that as long as aggression continues, She had no access to the sports, Olympic sites. In particular, the Paris Playground - this city will host the 2024th Olympics.

Ms. Paris's mayor has reaffirmed today that she did not see the place for the representatives of the aggressor state in Paris while aggression is ongoing. This is a clear, important signal, thank you for him.

It would be good that such signals may be heard in the International Olympic Committee, where, unfortunately, the personal benefit of individual bureaucrats is dominated by the relevant principles.

One more.

Today, the moon of Ramadan is ends for Muslims ... The bright holiday Ramazan-Bayram deserves the most common conditions. It deserves the peace that we so strive for, we deserve victory, we all go. I believe that the Lord will bless Ukraine with the will for all our territories and all our people.

I wish all our Muslim community and all the Muslims of the peaceful celebration!

Ramazan Bayramınız Hayırlı ve mubarek olsun!

Glory to all our soldiers who are now in battle for Ukraine!

Thank you all who help!

Glory to Ukraine!

Germany's Baby is not needed to delay the war, but to get it.

This opinion is held as they proved the debate in the German Parliament on Thursday evening, 4 with 6 parties of the German Bundestag in addition to the right-wing and left, the Ukrinform correspondent reports.

"These Not aimed at continuing, on the contrary, the purpose is to help Ukraine defend against further attacks and to cause war, to establish peace in the region, "the Social Democrat Hanneswalter said. He noted that for

over a year of the war, Ukrainians proved that they could protect their state, and partners, including Germany, from the very beginning they said that Ukraine could rely on them, that they would provide support until it would be necessary. Such support includes the supply of defense -weapons for the Armed Forces, stated the politician.

Representative of the greatest opposition force, CDU/CSU, Thomas Revezkamp agreed. "We are not supplying weapons that kills people, but a weapon that saves people of red -Russian murdered attacks," he said.

His one -party party Bernhardt Loos noted that "reality shows: peace of safe, without effective restraint, without effective defense in the event of an attack by a clear utopia." The Russian war, cruel and inhuman, has to stop, therefore, there is a weapon so that Ukrainians can protect themselves from the aggressor, the deputy said.

Jamila Shefer reminded that her party, the Green, has always been a party of peace, "but unfortunately, not every aggressor and not always can be curved by placifist methods. That is why Ukraine deserve our support, "said the Parliamentary.

Another representative of the same party Mike Ausendorf emphasized that Putin could at least stop the war, and "the termination of supplies of weapons of the Armed Forces would mean that Ukrainian would be able to protect itself, resulting in not peace, but occupation by a free state that has nothing to do From peace. "

Read also: [**Bundestag**](#) The issue of supply of weapons was discussed on the initiative of the right -wing "alternative for Germany", which is strongly against the assistance of weapons of Ukraine, since it, according to them, "will not only delay the war with all its negative consequences for civilian population, but also because Germany can be statistoral of war" . The left, who "do not want to kill Germans," oppose this. "

Postal excavation of Melitopol and the district should restore the life of the territory and its infrastructure, punish collaborators and traitors, reconcile the population to restore the economy.

Ivan Fedorov, a correspondent of Ukrinform, said this during a speech at the International Summit of Cities and Regions.

"We need to be aware that after our victory, the main preventive new aggression of Russia should be a successfully developed economy, and special conservation should be given to our territories. Because they are the last form between Europe and the aggressor," he said.

Fedorov recalled that Melitopol is a gate to the Crimea, and in its territory, residents of more than 100 nationalities lived in its territory. Melitopol was considered the intercultural capital of Ukraine.

"In 2014, our city chose its path of development - the European pursuit. After Russia's invasion of Crimea, Donbass, Lugansk, Russian providers tried to seize our city, and our community coped with the this. Since 2014, in cooperation with international partners, we have been developing our social infrastructure and making plans for the development of the region until 2030, but did not take into account only one that Russia will declare the war of a whole civilized world, "the city mayor said.

Ivanfedorov mentioned that his himself and his military was imprisoned with an inventing position and refusing to work for the enemy.

At present, 70% of businesses do not work in the city. People are on the verge of poverty, and the drugs and foods, according to Fedorov, are more expensive three times than in any companion of our country.

"People cannot receive medicine without a Russian passport. So they have a choice: either life or Russian passport," he added. **Read also:** [**Melitopol**](#) "We all have a unique chance now - to build a new Ukraine. The number one is the creation of the Melitopol Region Plan, the Life Restoration Plan for Infrastructure. We are already accumulating humanitarian aid, first -time things, generators, to restore life -and -level as soon as possible. the city to get our inhabitants back. The second and most difficult step is to build a long -term strategy of reconciliation after a long occupation. All collaborators and traitors must be punished, and also need to reconcile those who remain and endure terror and those who have turned. It is impossible to make this country about the future of our country. Without a strong thaеconomically, this is impossible, "Fedorov said.

He also thanked the international partners for his support and expressed his hope that she would continue.

He made the attention of the participants of the event that it is not necessary to perceive Ukraine as a "gray zone", which can protect Europe from the invasion. transported for export by rail. 1.157 million tonnes were transported in the direction of the ports, and 380 thousand tonnes were transported to the Western border crossings.

"This is below the last month and below the last parameters of almost five months. If such dynamics are stored, exports of less than 2.5 million tons were transported in total in the course of the month. In the best months, we transported 3.2 and 3.4 million. That is, we see that there is a significant subsidence of transportation due to problems on border with the "grain corridor", - Tkachov said.

In addition, a fall in the transmission of wagons with grain cargoes is recorded. If in early April this figure reached 590 units of rolling stock, then it decreased by 37%, to 374 cars.

It was reported that Hungary and Poland were introduced on April 15, 2023 by a temporary ban for import of grain and other types of agricultural products of the Ukraine. On April 19, 2023, a ban on import of Ukrainian agro-products to Slovakia will be enforced. According to Ukrinform, the agency reports .

It is noted that one cargo, under the new agreement, will be delivered to the port of Karachachezhe in May.

The agreement with Pakistan gives Moscow new opportunities to sell its raw oil, adding to the growing sales of Russian to India and China, as the Kremlin redirects the volumes from the Western Markets, where its oil was forbidden after the start of a full -scale invasion of Ukraine.

The reduced price of oil gives the necessary rest for Pakistan, which is collided with the crisis of payments and the problem of critically low currency reserves. Energy imports are currently most of the country's external payments.

The Agreement stipulates that Pakistan will only buy raw oil, not purified, and it is expected that imports will reach 100,000 barrels a day if the first transaction will be without problems, Reuters reported to the Oil Minister of Pakistan Government Musadik Malik.

"Our orders are, we have already placed them," the official said, confirming the information of the agency's source that Pakistan will buy only raw materials, and non -prepared petroleum products.

"Obviously, the motivation for making these decisions is that because of the Ukrainian -seeding in a number that was recently, local farmers cannot sell more expensive. Germany's Baby is not needed to delay the war, but to get it.

This opinion is held as they proved the debate in the German Parliament on Thursday evening, 4 with 6 parties of the German Bundestag in addition to the right -wing and left, the Ukrinform correspondent reports.

"These Not aimed at continuing, on the contrary, the purpose is to help Ukraine defend against further attacks and to cause war, to establish peace in the region, "the Social Democrat Hanneswalter said. He noted that for

over a year of the war, Ukrainians proved that they could protect their state, and partners, including Germany, from the very beginning they said that Ukraine could rely on them, that they would provide support until it would be necessary. Such support includes the supply of defense -weapons for the Armed Forces, stated the politician.

Representative of the greatest opposition force, CDU/CSU, Thomas Revezkamp agreed. "We are not supplying weapons that kills people, but a weapon that saves people of red -Russian murdered attacks," he said.

His one -party party Bernhardt Loos noted that "reality shows: peace of safe, without effective restraint, without effective defense in the event of an attack by a clear utopia." The Russian war, cruel and inhuman, has to stop, therefore, there is a weapon so that Ukrainians can protect themselves from the aggressor, the deputy said.

Jamila Shefer reminded that her party, the Green, has always been a party of peace, "but unfortunately, not every aggressor and not always can be curved by placifist methods. That is why Ukraine deserve our support, "said the Parliamentary.

Another representative of the same party Mike Ausendorf emphasized that Putin could at least stop the war, and "the termination of supplies of weapons of the Armed Forces would mean that Ukrainian would be able to protect itself, resulting in not peace, but occupation by a free state that has nothing to do From peace. "

It is important that, while the aggression is ongoing, the Russian state does not have any access to regional, Olympic sites. In particular, to the Paris Playgroun - the very city will host the 2024 Olympiad.

He emphasized this in the evening President Volodymyr Zelenskyy, reports Ukrinform.

Viso:

I wish health, dear Ukrainians!

He just turned to the Parliament of Mexico, and this is the second such appeal of the pre -region of Latin America. I am grateful to Mexico for his attention to Ukraine and the support of international security, the need for the widest possible unity to protect international law.

Because if the right does not work, life threat will only grow ... The bandits of the Yagresar will become even more arrogant. We should not allow this.

In fact, it was in Kiev that NATO Stoltenberg's NATO Zano Turks were also devoted to Kyiv. Protection of Ukraine. Protection of the entire international order based on the rules. Protection of life.

We are preparing for the Ramstein meeting, and Mr. Stoltenberg's position is important. We are preparing for our active action at the front - they are inevitable.

We are also preparing for NATO Summit in Vilnius, which is scheduled for the summer of this year, but its content is being processed now. It is at such meetings that in contacts of different levels that we lead with partners.

Neither the majority of Ukrainians nor most Europeans, nor the majority of NATO residents will understand the Alliance's leaders, unless a well - deserved political invitation for Ukraine to the Alliance is sounded at this summit.

Ukraine has done everything in order for our application to be satisfied.

It is difficult even to say whose contribution to European and Euro -Atlantic security is greater than our soldiers ... Ukrainians and Ukrainian women who protect their lives with their lives. I thank all the partners who support us in this.

The international summit of cities and regions took place today in Kyiv. The new formatting of our country with partners.

The Congress of local and regional authorities of Ukraine, which unites the central authority of local leaders, is now gaining international level. In order to actively disappear foreign partners to rebuild in our country, to the development of economic, infrastructure in our communities. Today, Ms. Ann

Idalgo met with Paris mayor. It was honor to hand over a special distinction of Ukraine for the capital of France, a distinction of the city-rescuer.

Paris has become one of the largest centers for Ukraine in Europe - in all its senses.

I would like to point out the help in protecting our energy. It was in the capital of Frank that the format conference was held, as it was called, "Energy Ramstein". Paris has accumulated significantly support for Ukraine with equipment for energy, provides social and humanitarian support.

I thank all the French, all Parisians, President of France Macron for her unchanging for Ukraine, for leadership. And especially I want to mention the absolutely principal and such a consonant Ukrainian position of Ms. Paris on the protection Olympic movement from Russian ideologization, from propaganda.

It is obvious that the terrorist state will do everything to justify itself through the sports to use the International Olympic Movement in support of its aggression.

That is why it is important that as long as aggression continues, She had no access to the sports, Olympic sites. In particular, the Paris Playground - this city will host the 2024th Olympics.

Ms. Paris's mayor has reaffirmed today that she did not see the place for the representatives of the aggressor state in Paris while aggression is ongoing. This is a clear, important signal, thank you for him.

It would be good that such signals may be heard in the International Olympic Committee, where, unfortunately, the personal benefit of individual bureaucrats is dominated by the relevant principles.

One more.

Today, the moon of Ramadan is ends for Muslims ... The bright holiday Ramazan-Bayram deserves the most common conditions. It deserves the peace that we so strive for, we deserve victory, we all go. I believe that the Lord will bless Ukraine with the will for all our territories and all our people.

I wish all our Muslim community and all the Muslims of the peaceful celebration!

Ramazan Bayramınız Hayırlı ve mubarek olsun!

Glory to all our soldiers who are now in battle for Ukraine!

Thank you all who help!

Glory to Ukraine!

The letter was released on , Senator Mike Lee, reports Ukrinform.

"We are deeply concerned about the fact that the US assistance trajectory with military efforts It is threatened with further escalation and there is no need for strategic clarity, "the letter reads.

The text states that the war has been going on for the second year, and still "it is not visible", as well as, they say, there is no clear strategy for its completion.

They called assistance to "unlimited" and stated that it should be stopped, otherwise, in a word, there is a growing risk of direct conflict between the US and Russia.

"We will strongly oppose all future assistance packages if they are related to a clear diplomatic strategy aimed at rapidly reducing this war," the authors of the letter said.

They called the "provocation" of the decision to transfer to Ukraine the HIMRS system in June year and spoke negatively about the transfer of Ukraine tanks Abrams.Khus, a group of legislators called the transfer of intelligence information to Ukraine as it complicates attempts to deny the Russian arguments about the "complicity" in Ukraine in Ukraine.

«Ми вітаємо Генерального секретаря НАТО Єнса Столтенберга у Києві, в Україні, яка стоїть міцно, вільно й бачить перспективу повного звільнення нашої землі від російського окупанта. Цей візит пана Генерального секретаря — перший за час широкомасштабної війни — ми трактуємо як знак, що Альянс готовий розпочинати нову главу у відносинах з Україною — главу амбітних рішень», — сказав Володимир Зеленський під час спілкування з представниками ЗМІ зарезультатами переговорів з Єнсом Столтенбергом у Києві.

«Наші цілі щодо цього найбільшого навчання з розгортання від моменту заснування НАТО є всеосяжними. Ми хочемо продемонструвати спритність і швидкість ВПС як засобів першого реагування та продемонструвати повітряні сили НАТО. Крім того, ми як Люфтваффе показуємо, що можемо спланувати, організувати виконати такі масштабні навчання. Ми беремо на себе відповідальність. Співпраця 24 країн покращує нашу взаємодію та забезпечує надійне стимулювання потенційного агресора. Трансатлантичний вимір — ми матимемо 100 літаків повітряної національної гвардії США, які літатимуть у Європі — є надійним доказом згуртованості та солідарності НАТО», — сказав головнокомандувач ВПС Німеччини генерал-лейтенант Інго Герхарц.

Військово-повітряні сили, що беруть участь у Air Defender 2023, ознайомляться зі сценаріями навчання, що імітують сценарій статті 5 НАТО, тобто колективну оборону території Альянсу. Після прибуття та зупинки американського підкріплення та інших літаків союзників у трьох вузлах у Німеччині Ягель/Хон у Шлезвіг-Гольштейні, Вунсторф у Нижній Саксонії та Лехфельд у Баварії, а також Шпангалем у Рейнланд-Пфальці, Фолькель у Нідерландах та Часлав у Чеській Республіці, учасники відпрацьовуватимуть комбіновані повітряні операції у навчальних районах над Німеччиною та виконуватимуть так звані екскурсійні місії до країн Балтії та Румунії.

Навчальні райони на сході, півдні та півночі Німеччини, які використовувалися під час Air Defender 2023, базуються на районах, які ВПС використовували для регулярних тренувань протягом десятиліть. Однак для забезпечення комплексної повітряної діяльності великих сил вони були розширені та частково з'єднані один з одним коридорами.

Glory to Ukraine!

I am glad to welcome all our country, all of Ukraine are all our beautiful cities, our strong communities, which are presented in the Congress of Local and Regional Power of Ukraine. With this summit, we open a new level of interaction at the Kongres. It is an interaction between our communities, the communities of Ukraine, and the communities of other respectable states - our partners, which we appreciate very high. Those who, like all Ukrainians, appreciate the most important thing - freedom and important, effective self - government.

Mr. Jones! I am very pleased to welcome you, dear representatives and representatives of the European Union, Council of Europe, states, governments and parliamentary partners! Dear mayors of cities, heads of municipalities and associations!

I thank you for your participation in our work format and ask you to fix one important fact - a fact that was confirmed by our defense of the Ed Russian aggression.

The whole Ukrainian people stood up for their state, and it is a manifestation of the experienced people. A people who can act together for the sake of national good, a people who are able to protect their interests, a people whose national safety is to understand that every community should live with dignity ... Such a people have an advantage in the war, namely: it can fight nationally. And I thank each of our people and every Ukrainian community who, in unity with the state and inheritance with each other, help to bring it closer to the most important thing - our jointly! Thank you all, dear ones, who are offline, online!

Ladies and Gentlemen!

You see that the Russian state is throwing people who do not understand, for the fact that they die on our earth. For them, this land is alien. The invaders carry evil, the Borossian system exists as follows: trying to make the usual mockery of people's depreciation. And trying to take it beyond his borders. It is for this Russia that its weapons - its rockets, bombs, its artillery and shameful terror of the against a normal life. If you consider this war to confront ideas, then with the victory of our states, we will note the victory of the idea

that people are important. Everyone and everyone. All of their gromades. Every Ukrainian city, every town, every Ukrainian village. Our state was. And thanks to this approach instead of the ruins that Russia brought to Nesen, we will rebuild true Ukrainian life everywhere - European free life. Such a life that our people are ordinary but free - respect. This is a person respected by everyone.

Dear, present!

Dear our partners!

I want to turn to you. I invite you all to build direct links with our congress of local and regional authorities and, accordingly, with the help of Congress - with Ukrainian communities to start joint actions as soon as possible, a jointly awakened new system of protection of our lifestyle with you. Open, democratic, the life of free, based on very simple things, too much.

Here and now we see in Ukraine what aggression can bring to any people if you try to repeat it in the other part of the world.

And we see what safety standards are needed today, our sets need. I am sure that in our example we see what safety standards are needed to any country in the world, any towns, villages, communications, transport, energy, all infrastructure(What are we also underwent this war), schools, education

networks, as well as the safety of embankment in general, to guarantee the most important thing-the protection of life ... regions. From bomb shelters in schools to a completely New Standard for all systems of the country, from a new protected infrastructure in each community to a new decentralized power system of Ukraine in general, which cannot be destroyed by rocket terror, which was applied against our state by the Russian Federation.

I am grateful to everyone and everyone who helped us! And especially I would like to be marked today the assistance of Paris, which this winter has become one of the leaders of energy support of Ukraine, who consolidatedly gathered partners in such "Energy Rostein". I thank you very much. This meeting was in Paris, then our partners were supplemented with the appropriate equipment that helped us - absolutely all people, communities - to preserve the light of life.

Ukraine has founded a special distinction for rescuers. You know that many cities in Europe, in Poland, have received this distinction from Ukraine. They were truly aspiring. I am grateful to all our partners. And for me today it will also be a distinction for the great energy support of Mayor Parisapani Ann Idalgo in gratitude for the support of Parisians for Ukraine. Thank you very much, both France, and the President, and thank you to all the priests who support.

Dear present, dear ladies and gentlemen!

Important new Ukrainian protection infrastructure and our cooperation with you for the safety, I am sure, will be an example for countries, cities, communities, for people. Just as Russian aggression has caused global negative, very painful consequences, Ukrainian victory should bring new standard -safety, new experience of joint action and economic potential, new opportunities to build and defend themselves together. Together!At the level of states and companies, communities.

Having carried out a decentralization reform in Ukraine before the war, giving our communities more powers - it is very important - and resources - it is also important - the mate of this congress to provide respect for each community. In order to give each community all the tools for the realization of their interests, the interests of the social community, the interests of communities. Here, in the congress, the central power of our country - both executive power and Izakonaty. We need to work together so that the community does not have to look for offices in the capital. Here is all our local self-government. It was easier for other communities to interact. And faster. Now we add an international component.

I am sure that this component can be fully implemented, to full power - as well as our inner power we use for the full for the protection of Ukraine, our people, for the sake of the victory of Ukraine. **Thank you for your attention!**

Glory to Ukraine!

Prosecutors of the Lysychansk District Prosecutor's Office of Luhansk Oblast

reported to four persons in the absence of an aggressor state(Part 1 of Art. 111-2 of the Criminal Code of Ukraine).

За даними слідства, після окупації територій Луганщини РФ почала відкривати так звані «гуманітарні центри» від політичної партії «Єдина росія».

Місцеві жителі з активною проросійською позицією обійняли керівні посади в таких «гумцентрах» у Лисичанську, Привіллі та Новодружеську Сєвєродонецького району.

Підозрювані надають матеріально-технічну допомогу загарбницьким угрупованням збройних сил РФ. Це відбувається під виглядом забезпечення російською «гуманітаркою» постраждалих жителів.

У пропагандистських медіа вони систематично заявляють про всебічну підтримку РФ. До роботи гуманітарних осередків залучають волонтерів серед місцевого населення.

Пособники ворога активно популяризують діяльність партії та окупаційної влади. У так званих «гумцентрах» активно розповсюджують російська пропаганда, роздають партійні газети та агітують за підтримку дій держави-агресора.

Наразі вирішується питання щодо оголошення фігурантів у розшук та обрання запобіжного заходу.

I wish health, dear Ukrainians!

He just turned to the Parliament of Mexico, and this is the second such appeal of the pre -region of Latin America. I am grateful to Mexico for his attention to Ukraine and the support of international security, the need for the widest possible unity to protect international law.

Because if the right does not work, life threat will only grow ... The bandits of the Yagresar will become even more arrogant. We should not allow this.

In fact, it was in Kiev that NATO Stoltenberg's NATO Zano Turks were also devoted to Kyiv. Protection of Ukraine. Protection of the entire international order based on the rules. Protection of life.

We are preparing for the Ramstein meeting, and Mr. Stoltenberg's position is important. We are preparing for our active action at the front - they are inevitable.

We are also preparing for NATO Summit in Vilnius, which is scheduled for the summer of this year, but its content is being processed now. It is at such meetings that in contacts of different levels that we lead with partners.

Neither the majority of Ukrainians nor most Europeans, nor the majority of NATO residents will understand the Alliance's leaders, unless a well -

deserved political invitation for Ukraine to the Alliance is sounded at this summit.

Ukraine has done everything in order for our application to be satisfied.

It is difficult even to say whose contribution to European and Euro -Atlantic security is greater than our soldiers ... Ukrainians and Ukrainian women who protect their lives with their lives. I thank all the partners who support us in this.

The international summit of cities and regions took place today in Kyiv. The new formatting of our country with partners.

The Congress of local and regional authorities of Ukraine, which unites the central authority of local leaders, is now gaining international level. In order to actively disappear foreign partners to rebuild in our country, to the development of economic, infrastructure in our communities.

I am grateful to anyone who participated in the summit ... representatives of different countries, cities, municipalities. European institutions, the Council of Europe, the President of the EU Committee ... more than one hundred participants from almost forty countries. I am grateful to everyone for the support of Ukraine!

Today, Ms. Ann Idalgo met with Paris mayor. It was honor to hand over a special distinction of Ukraine for the capital of France, a distinction of the city-rescuer.

Paris has become one of the largest centers for Ukraine in Europe - in all - persons. I thank all the French, all Parisians, President of France Macron for her unchanging for Ukraine, for leadership. And especially I want to mention the absolutely principal and such a consonant Ukrainian position of Ms. Paris on the protection Olympic movement from Russian ideologization, from propaganda.

It is obvious that the terrorist state will do everything to justify itself through the sports to use the International Olympic Movement in support of its aggression.

That is why it is important that, while aggression, the Russian state has no access to the sports, Olympic sites. In particular, the Parisian site - this city will host the 2024 Olympics.

Ms. Paris's mayor has reaffirmed today that she did not see the place for the representatives of the aggressor state in Paris while aggression is ongoing. This is a clear, important signal, thank you for him.

It would be good that such signals may be heard in the International Olympic Committee, where, unfortunately, the personal benefit of individual bureaucrats is dominated by the relevant principles.

One more.

Today, the moon of Ramadan is ends for Muslims ... The bright holiday Ramazan-Bayram deserves the most common conditions. It deserves the peace that we so strive for, we deserve victory, we all go. I believe that the Lord will bless Ukraine with the will for all our territories and all our people.

I wish all our Muslim community and all the Muslims of the peaceful celebration!

Ramazan Bayramınız Hayırlı ve mubarek olsun!

Glory to all our soldiers who are now in battle for Ukraine!

Thank you all who help!

Glory to Ukraine!
