Greetings to the graduates of the Taras Shevchenko Military Institute, Braian Menness, a maider-Major of Liberty Fort, the United States Armed Forces.

I want to express my gratitude to the brigade General Anatoliishevchenko for the opportunity to share with you a few tips, as Vasaclas prepares graduates who, while risking their own lives, take on a sensotement to perform tasks that will undoubtedly help protect Ukraine.

I recently dismissed the deputy commander of the 18th Airborne Corps. At one time, we were a unit of the US Armed Forces, which supported the Armed Forces of Ukraine from February to December 2022. The armeds of Ukraine and the people of Ukraine were incredibly impressed by us.

In 2000, more than 23 years ago, I participated in one of the first exercises with the program "Partnership for Peace" in the west of Ukraine, near Lviv, he drew for joint strategic planning together with the then commander of the Armed Forces, Colonel Ivan Yakubts. For me, this was a good experience. Comparing the condition of your army then and now, I am amazed at how much the armed forces of Ukraine have strengthened, in particular, thanks to such co -wanders as you.

More than 35 years ago, I graduated from the Academy in the West Point. Among the Academy's immigrants, there is a belief that if the release ceremony rains, the graduates will be war. In our case, the belief has come true. For more than five years, he managed the fighting in Iraq and Afghanistan, and also answered for planning the actions of the combined command of special operations of the efficiency of the deployment in these countries. He also performed the duties of the battalion and brigade in the 82nd Airborne Division, the first Ranger battalion and the 10th Mountain Division Commander.

I acknowledge that I did not have such combat experience as the one that is obtained in Ukraine, however, I am deeply convinced that there are inviolability that commanders should possess: \* be technically aware. Commanders should be experts in their field;

The world is not in place, as well as the challenges we face. Commanders should be open to new knowledge, master new tactics, technologies of Tastrategy. The training should be continuous.

And most importantly, commanders should be true to their country and always hold their word. The devotion and purpose of military service should not be in doubt.

Your main motivation should be to protect and defend the provisions of the Constitution of Ukraine. In difficult times, military duty and protection of your country are the main call. You are all doing right if you enjoy the time spent on the service. Be careful to the servicemen and educate the subordinates who will appreciate your command qualities.

The power of the army is in its unity. Successful completion of the task is always a common mate.

Finally, take the time to remember those who served us to be sacrificial immune and invaluable experience of which is now an important lesson for us. Honor them do their best to preserve the principles they fought for. I will consider that you will be guided by these tips during your service. Beat, strong and worthy.

Thank you for the opportunity to greet you. I really admire you! Good health to you! I pray that one day in Ukraine there will be peace.

The European Investment Bank will start a new portfolio of projects to rebuild Ukraine for 840 million euros. It is about transport, cybersecurity, municipal infrastructure, water supply, as well as the reconstruction of the Kakhovka reservoir.

About it reported Prime Minister of Ukraine Denis Shmigal on Facebook.

"The EBRD will support Ukrainian energy companies" Naftogaz "," Ukrenergo "and" Ukrhydroenergo "for the amount of 600 million euros. After the liberation of the Kakhovsky Damage, we will develop a road map of the reconstruction of the hydroelectric power station. The plans include a program of 3-5 billion euros for the implementation of reconstruction projects. In addition, partners will continue to financially support Ukraine within the four -year IMF program of Nature \$ 15.6 billion, "Denis Shmigal wrote.

Also at the conference began creating a business coalition for investment in the Ukrainian economy, in particular to Ukraine Business Compact(Association of conducting Ukrainian and international companies in the global community of reporting businesses to support the restoration of Ukraine)The 500 companies have already joined. During the event, the Ukrainian G7, the EU and its financial institutions of development were launched and the Agreement of Ukraine, the EU, Norway, Switzerland, the European Investment Bank and the EBRD restart market of private insurance were signed.

In addition, the United Kingdom announced a contribution of 20 million pound -screenings to the Miga reinsurance fund, which, for its part, signed a Memorandum of Understanding with a Prosredit Bank, which increased the sumgaranths to 40.8 million euros. An agreement was concluded between IFC and the Ukrainian Danube shipping for modernization and expanding the capabilities of the Danube logistics. During the conference, the Ukrainian-British digital platform was launched to find business partners.

"Partners positively evaluate the dynamics of reforms in Ukraine, do not doubt the most European prospects, support the idea of using frozen Russian assets to rebuild Ukraine," Denis Shmigal stressed.

Currently, the settlements of Kherson and Mykolaiv region carry out works of treatment of consequences of the blast by Russia of Kakhovka hydroelectric power station. In some areas, residents return to their homes. About it [reports](#) Ministry of Reintegration of the Occupied Territories of Ukraine.

However, when returning to the housing that was in a flooded state, you need to follow the following tips:

1 . Before you go to the apartment, evaluate its external integrity. Especially supporting structures and walls. Make sure they are not deformed and safe. When moving the apartment, consider the holes in the floor, broken glass and more.

2 . Be as careful as possible. Do not touch the electrical panels, switches, sockets, if they were not well dried, cleaned and trusted by specialists. In case of switching on, they can be struck by electric current or causing a fire. The same applies to the electrical appliances that remain in the flooded home.

**Do not endanger your loved ones:** You can only get back with your children, well -dried and safe housing.

**Remember:** to return to the homes that were in the flood area can be more than with the permission of local authorities and emergency response services.

Russian occupation troops have strong resistance, while at the same time suffered significant losses in personnel, weapons and equipment.

As reported Deputy Minister of Defense of Ukraine Anna Malyar, who died over the last week, the enemy has eight times more than ours.

“Our aviation, missile troops and artillery over the past week:

*caused more than 110 strikes in the areas of concentration of the enemy personnel; destroyed 17 enemy anti-aircraft missile complexes; caused defeat on 11 management points, which significantly reduced the enemy's capabilities to defeat our aviation and UAV; Impressed 7 warehouses of the enemy ammunition, "she said.*

In addition, Anna Malyar added **hundreds of** units of enemy equipment, including tanks, helicopters, artillery systems.

"For example, **2** enemy helicopters KA-52 and **1** Mi-24, as well as **48 out of 51** Iranian shock UAVs type Shahd-131/136,"-summarized the Deputy Ministers of Ukraine.

We will remind, on the 488 day of confrontation of the Russian aggression forces of defense of Ukraine will be given eliminated Almost 1000 invaders, destroyed 21 artsystem and 14 BBM.

On June 24-25, the second annual Drone Hackathon "Anti-Shahed" took place. During the time, 50 teams presented projects for representatives of security and defense forces. According to the results of the ratings, three winners were selected who presented the most effective and most effective projects. Each will receive \$ 1 million for realization and scaling of technological developments that will help fight Shahmed.

About it [reports](#) Government portal.

"In the war, it is important to understand what is happening on the battlefield and to propose technological solutions. We see how the situation on the front changes in direction. How important are UAVs, satellite communications, situational identity systems. The picture of the battle changes. Fast decisions need to be made to realize effective ideas. It is now critically important to create alternative counteraction to Iranian Shahane. We have cool cases with the army of drones, when not only foreign drones, but also UAVs of domestic production were supplied to the front. Similar to the development of systems of protection of the Ukrainian sky, "said the Vice Prime Minister for Innovation, Education, Science and Technology-Minister of Digital Transformation Mikhail Fedorov.

The winners of the drone hackathon "Anti-Shahed" will conclude contracts for 1 million donors. The funds will go to the development of development as soon as possible, which destroy the wicked drones in the Ukrainian sky. New technologies will help fight stars Shahas so that you do not spend powerful resources for the Air Force.

"In fact, the Ukrainian infrastructure is being attacked by Iranian drones. Only at least 400 Shahane has been launched in May. In total, at least 1,200 percussion was launched in Ukraine last year. Ukrainian experts are able to amaze the world and efficiently counteract. Our task is to support the developers, to create speeches for mass production of alternative systems of counteraction to Iranian shivedam, "-said Oleksandr Kubrakov, Vice Prime Minister for the Restoration of Ukraine-Minister of Development of Ukraine-Minister of Communities, Territories and Infrastructure. That is why it is critical to us to create alternatives to counteracting Iranian shivedam.

"It is important to use not only available weapons, but also new samples of equipment for the Armed Forces of Ukraine. Our enemy does not sleep and develops a tav perfect its technologies. This also applies to the shamed attack on Ukraine. Each is individual. Therefore, in order to constantly counteract new attacks of UAVs, we need to introduce new systems to identify, identify and destroy goals. I am sure that every idea proposed by Nahaktone has every chance of working for victory, "Vladimir Koval, General General of Ukraine, said.

"When a new modern idea is being put into practice, it is an effective surprise for our enemy. According to available information on the territory of Russian, UAV production plants are actively built, and therefore the percentage of new

Dronovpovp attacks will increase. With each attack, the enemy analyzes his or her bug works constantly on changing tactics. Therefore, the first thing that can be implemented as quickly as possible is the system of detection of enemy drones and, of course, their prompt destruction, "said Anatoliy Krivonozhko, Lieutenant General, Commander-General, Commander-in-Chief of the Center.

"Every great war sets new trends in the development of military technologies. First -Ass to create a war of tanks. The second is aviation. This war has shown that the wars of unmanned aerial vehicles will take place at the next decades. That is why we need to create these modern technologies to overcome the enemy on the front today and to protect our territories in the closest, "said Yuri Shchigol, Head of the State Secretariat of Communications.

We will remind, earlier within the army of drones we have already held the first Drone Hackathon. The 30 formed teams, which presented technological solutions in the development of the BLPL, 6 became winners. In half a year, they embodied their ideas into a product that was repaired at the landfill.

The Drone Hackathon "Anti-Shahed" is implemented on the initiative of the General Staffing Forces of Ukraine, the Ministry of Defense and the Ministry of Infrastructure within the project of the armies and is aimed at finding innovative and effective solutions in the fight against gunfires.

Everyone has proven Russian terror again and again to us, and to us, and to the world that this country deserves only one in the consequences of everything that she has done - the tract and a tribunal, a fair and legal courts against all Russian murderers and terrorists.

About it in your [appeal](#) At the end of the 489th day of the war, President of Ukraine Volodymyr Zelenskyy said, Ukrinform reports.

**Dear Ukrainians and Ukrainian women!**

Exactly on the anniversary of the impact of Russian terrorists on Kremenchuk, on the Trade Center, when 22 people were killed, Russian inhumans again directed missiles in the Potremenchuk district.

Today, Russian terrorists also fired at Kramatorsk. C-300 missiles. People were killed, and among them-a child. My condolences to my relatives and loved ones. More than 40 people are injured at this hour. Everyone is assisted. Proceeds of gaps.

Every such manifestation of terror again and again proves to us and the world, which is only one of the consequences of everything that it has done - defeat the tribunal, fair and legal courts against all Russian murderers.

And again and again, thank everyone in the world who supports Ukraine and helps our people's defense!

Today there is a new defensive package from the US for our soldiers. Armored vehicles for Petriots, Stingers and Himars. Additional shells for our artillery. I thank Mr. Biden President, Congress, both parties, and all Americans!

He spoke to Mr. Prime Minister of Norway. He thanked for the support provided - the defense, economic, political. Very important!He informed him about my trip to our warriors, about our actual defense. He voiced some of our armed needs. The creation of fighter jets also discussed. A separate topic in conversation is the future NATO summit in Vilnius. Type Norway for understanding!

He also held a special meeting with our internationalists today - the office, the government is preparation for the Vilnius summit. I am sure that the summit decisions can be static for Ukraine!We do everything possible for this and connected to this international opportunities of Ukraine.

And, of course, the front. Our characters, our active actions. Today, we also have moving before!In all areas where we take offensive actions. Thank you, warriors!Today we have important results in reflecting Russian assaults. I am very grateful to you!Thank you for every destroyed occupier and every Ukrainian life saved!

Glory to our heroes! I thank everyone in the world who is not afraid of Russian terrorists and returns the world with us!

***Glory to Ukraine!***

The recent events in Russia are another proof that Putin's war has led to anything but instability.

The Prime Minister of the Netherlands Mark Rutte said this in the Hague at the Hague during a working conference on the results of a working meeting with the participation of heads of state and government, Poland, Romania, Albania, Belgium and Norway, Ukrinform reports in Hague.

"Instability in [Russia](#) Generality in Europe, so we are concerned. These events are another proof that Putin's war did not lead to anything but instability. First of all, she has been the unbearable suffering of the Ukrainian people ... We must focus on the purpose, making sure that Putin's war against Ukraine is failure, "he said.

He also stressed that Russia's war in Ukraine is an unfair war with the safety of other countries.

"It's a war against everything. We are for freedom, democracy and the rule of law. And, of course, war is a direct threat to our own safety. Because in the case of success in Ukraine, Putin will not stop there. And so Ukraine can count on an adamant support, "he stressed.

According to him, the NATO Summit in Vilnius will be very important, where the probard will be made, the war of Russia in Ukraine.

As reported by Ukrinform, on Tuesday, June 27, 2023, a meeting in the NATO preparation for the NATO summit, which should take place on July 11 and 12, was in the Dutch HAAZ.

The fact that Russian President Vladimir Putin and his entourage was represented as a strength of the system for years was the greatest weakness.

This opinion was expressed by the expert of the German Council on Foreign Relations Stefanmaster when communicating with foreign journalists in Berlin, Ukrinform reports.

According to the master, the attempt of the putty, arranged by the last weekend of Eugene and PVC "Wagner", showed the full "weakness of the Putin system, which is being drawn around one person, personalized."

The authorities, having lost, and temporarily, monopoly on violence, was not able to negotiate, for a few hours the country lost its administration: all the awaiting what will say [Putin].(<https://www.ukrinform.ua/tag-putin>), and "he looked as if he did not understand what was happening, he was weak, far from reality."

"If Putin does not respond, the system flows into chaos. The system is not flexible enough to respond to the force majeure, "the expert summarized. He believes that "the incredible loss of prestige for Putin, which is very difficult for him, and the entire system is weakened."

As for Wagner PEC, it will not play an important Important in the war, says the master, this army is no longer powerful as before. The expert is also reported that the model of private companies, started in 2014 to conduct hybrid operations, exhausted itself, lost its relevance during the real war and the system was sooner or later punished by Prigogine and taken under control.

Putin, in turn, obviously wants to demonstrate even stronger determination, but also exacerbate repression within the country.

He called this "German fear" a problem. But today's Russian federation is not the USSR in the 1980s. In a table of a highly staged systematic system in the Russian Federation, it can very quickly get to the putty, "faster than everyone could imagine."

We will remind, last weekend of PEC "Wagner" went a march to Moscow, but in a few hours she stopped her advancement, explaining it by the reluctance of shedding.

Poland to hold a meeting of five EU agricultural ministers in the second half of July, where the import for import until September 15, with the Minister of Agrarian Policy and Food by Ukrainian Solonsky.

This was reported in Luxembourg by Polish Agricultural Agriculture, after meeting agrarian countries of the EU, Ukrinform reports, citing [wnp.pl](#) .

"Most likely, such a meeting will take place on the third week of July. We need to talk about technical questions, as well as explain that our activity(Five EU countries - ed.), which we carry out in the European Union, aimed at helping Ukraine, but at the same time do not harm our farmers, and help to assist the appropriate tools for the future, "Telus said.

He added that the war in Ukraine would end, but the issue of Ukrainian products will stretch. Therefore, you need to prepare a common tool for action.

In his opinion, it is not about money, as well as the need to make system decisions.

He said that the agricultural policy ministers of five EU countries will themselves have an individual negotiations with all other profile EU ministers to clarify the need for systematic decisions on this.

In May 2023, the European Commission forbade the import of wheat, corn, rapeseed and sunflower from Ukraine to Bulgaria, Hungary, Poland, Slovakia and Romania at the insistence of these countries. On June 5, the prohibition was proceeded by September 15, 2023.

Poland has suspended transit of Ukrainian agro -agricultural products through its territory, but renewed it from April 21. Warsaw hopes that a ban on import The Ukrainian grain will be continued after September 15, as well as that some other types of products of Zuzraina will be added to the transmitted products.

One of the arguments of Warsaw to ban the import of Ukrainian grain to Poland, the import of technical grain, which was later sold as a consumer, as well as the consumer market of the Polish market in Ukrainian grain, from which Polish agrarians suffered.

Vlad Ukrainian has currently recorded the stay of our children stolen in 57 regions of Russia.

This was during the presentation of the Special Report of the Commissioner of the Verkhovna Rada of Right -Luddy “Unslevex. Violation of the rights of Ukrainian children in the temporarily occupied territories of Ukraine and in

Russia: deportation, militarization, indoctrination "said Ukrainian Ombudsman Dmitry Lubinets, Ukrinform correspondent reports.

"We have officially recorded the stay of Ukrainian children In 57 regions of the Russian Federation. In 16 regions, the most of the 380 children were victims of violent transfer to Russian -year -olds. There have also been cases of abduction of children by Russian militaryly occupied territories for intimidation, pressure on relatives, collaborative data, "he said.

Lubinets added that it is noted that Russian servicemen use the use or possible use of violence to children to force adults to work in favor of the Russian army or occupation power.

The lawyer of the regional human rights center Kateryna Rashevskaya informed that according to their data, since June 15, 2023, the Russians take 100 children daily - sometimes a little less, sometimes there are several more - in the so -called "re -education" camps.

"Therefore, the number(Stolen Russian Federation - Ed.)Children are growing, and Russia wants to return them, "she said.

The Ombudsman cited law enforcement agencies that the Russian Federation is involved in the armed conflict in the role of spies, corridors, and also involves them in the campaigns of forced mobilization of Ukrainian citizens in temporarily occupied territories, sometimes even as an actor.

According to him, a number of tools are used for recruiting children. For example, the so-called rest in "military-patriotic camps", membership of Vunarmia and other "military-patriotic" movements.

"In fact, there are many. They differ in names, triggered by gerrulates of different federal subjects of the Russian Federation, but all have the same signs. That is, the purpose(This - ed.)-This is the maximum involvement of Ukrainian children in such patriotic movements and popularization of the military of the Russian army, "Lubin said.The Commissioner for Human Rights informed that, according to the Unified Registration Investigations, 5 criminal proceedings have been registered in Ukraine since the beginning of a full -scale invasion of the Russian Federation in Ukraine, which investigateded the use of minors in armed conflict.

As reported , Currently, Ombudsman's office has official data on 365 illegal adoption of Ukrainian children in the Russian Federation.

An attempt by the leader of the Wagner PEC, Yevgeny Prigogine, started the process of inevitable destruction of Russia, its course depends on responsible politicians in the world.

This was stated by the Secretary of the Security and Defense Council of Ukraine Oleksiy Danilov Uvstau at the International Conference "Ukraine and NATO on the eve of Vilnius Samite: from support through victory for membership", correspondent.

"The question of what to do with Russia is the key question today that stands on the day. We insist that as long as Russia is in the state in which it is, it will be threatened with any its neighborhood, and not only. And this is a key question. And the question of our victory is the cure of Russia's fragmentation, a natural fragmentation, that it becomes the one that should be, "Danilov said.

The Wagner leader Yevgeny Prigozhin is not an independent figure, behind him are people in the way, who seek to change the leadership of the Russian Federation.

According to Ukrinform, the Secretary of the National Security and Defense Council of Ukraine Alexei Danilov said this on the air of the nationwide television.

"I can't agree that it was a performance, it was a real fighting, barefoot when the whole world saw that Putin was not the leader of the country, all, as Shchuri, fled from Moscow, fled urgently as soon could not influence, and for Russia It will have enormous consequences. First, I want to say that Prigogine himself is not an independent figure, behind him stands in shoulder straps, and this is quite clear today, it was not his own desire to go somewhere, he clearly under control. But if he was under Putin -controlled earlier, then this control of Putin is already lost, he is in a common, relatively speaking, the group with other persons whose goal today is the issue of replacing the leadership of the Russian Federation, "Danilov said.

According to Danilov, some representatives of the Russian political elite understand that there are no ability to win in the war with Ukraine, and they will prepare a certain basis to depart from this situation.

Responding to the question of whether the "second season" of rebellion in Russia, the Secretarrhrnbo noted: "There will be more than one season, not as quickly as we would like, but the process began and yesterday there was a continuation. Yesterday's performance of the Kremlin Shchur(Vladimir Putin - Ed.)With a statement that was to outline the "future", she was so strange - he thanked the people who killed Russian. It goes beyond any understanding. "

Danilov added that the consequences of Prigogine's hike will definitely be.

"The consequences will be. The whole world has seen that Russia as such a managed country is not existing, it is a very dangerous territory and we will continue to observe. I cannot say whether they will go out and remove the masks now, to worry about Putin's mussing, but the fact that the people who participated in this were in the Kremlin are clear, "Danilov said that it was a bold -specific operation to discredit Putin.

According to the Secretary of the NSDC, there are some reasons that the Wagnets did not reach 200 KMDO

Moscow.\*!(<https://www.ukrinform.ua/rubric-world/3728184-ssa-trimali-u-taemnici-rozviddani-pro-plani-zakolotu-prigozina-vid-bilsosti-souznikiv-cnn.html>)He also reported that Putin's protection is significantly strengthened and even the injection of members of the Russian Council in the room is guarded, which has never been earlier.

As reported Ukrinform , the leader of the Wagner PEC Yevhen Prigogin announced Demarsh of the Anti -Russian Military leadership on June 23, in particular against the Minister of Defense of the Russian Federation Sergiyashah.

Oleksandr Lukashenko negotiated with Prigogin, after which he stated that the groups of the group return to the field camps. On Tuesday, Lukashenko approved the arrival of Prigogine in Belarus.

Polish President Andrzej Duda believes that the movement of Wagner PEC and her leader of Prigogine to Belarus is “a very negative signal”.

The world has to analyze why one person in the Kremlin forces everyone to "dance under their Balalaika" and to draw conclusions from this situation, otherwise the next Russian war will be a very short time.

This was stated by the Secretary of the Council of Security and Defense of Ukraine Alexey Danilov International Conference "Ukraine and NATO on the

eve of the Vilnius Summit: Recognition due to the victory for membership", Ukrinform correspondent reports.

"No one wants to think about how it happened that one man in the Kremlin is riding the world, forcing the whole world ... Dance under his balalaika, and the whole world is watching quietly, and no one wants to understand: why did it happen? It is necessary to draw conclusions, because if we do not make these conclusions now, the question of the next war is a question of a very short period of time, " - said [Danilov](#).

According to him, in almost 32 years of independence, Ukraine looked many mistakes through pink glasses on many processes that are taking place in the world.

Today, the illegal circulation of fuel in Ukraine is about 10-15% of the market. Because of this, the state budget does not receive at least UAH 5-10 billion.

This was announced by the People's Deputy and the Chairman of the Provisional Investigation Commission of the Overy Council on Economic Security Yaroslav Zheleznyak in [telegram](#), reports Ukrinform.

"Currently, illegal fuel circulation is 10-15%, which is lost for the budget minimum 5-10 billion UAH. Retail sales: up to 30% of the market falls on "barrels" - entirely ungrown mini gas station, which in the best puppies are trading without taxes, usually very low -quality counterfeit fuel. 30% are medium and large gas stations that evade taxes, "trade in documents" and also enjoy selling "body" fuel. 40% is White River, "the deputy said.

He said that there is no fuel smuggling today, and therefore a complete finening, which is sold at the gas station and from the "barrel", made in Ukraine. Given business associations at least three factories(in Kirovograd, Cherkasy and Poltava region)Illegal production was carried out.

Zheleznyak stressed that the commission has already prepared a list of 500 points, which either issue counterfeit fuel without taxes, or work without a license, as a list of 22 refining plants, which are probably engaged in the production of low -quality fuel.

In addition, in the coming weeks, the parliament will be introduced by a law - proofread that restores the electronic administration(Searp), the excise duty will be installed, gas condensate and oil referring to excise goods, and the tax burden data will be restored.

The report of allegedly camps for "Wagnerivtsi" in the territory of Belarus is a special-operation, because Alexander Lukashenko will not allow this.

This opinion was expressed by the Secretary of the National Security and Defense Council of Ukraine Oleksiy Danilov on the air of the national telephone "Unified News", Ukrinform correspondent reports.

"Lukashenko is a very experienced politician, he has been in power since 1994 ... He will ever allow anyone to build any camps in his territory. This is an exclusion. These are the Russians spread to make certain IPSO or influence our Ukraine, Poland, Lithuania, which have borders with [Belarus](#). This is a regular special operation. I get sick that Lukashenko will allow Putin to make a separate private army on his own, which will not be under control," Danilov said.

According to him, the situation in Russia proves that there can be no multi-private military companies in the country, since it all ends with a relationship between them.

Copenhagen consultations on key principles of peace achievement were extremely highly evaluated by the format of the meeting and discussing the Ukrainian peace formula.

The head of the Presidential Office of Ukraine Andriy Yermak informed about it at a meeting with Zavurnalists.

According to him, the consultations initiated by Ukraine were attended by national security and political advisers from Brazil, Great Britain, Denmark, EU, Italy, India, Canada, Germany, South Africa, Saudi Arabia, USA, Turkey, France and Japan, France, France and Japan. Also representatives of the European Commission and Euro Council. The meeting, he added, became a continuation of the Dialog, which was started at the G7 summit in Hiroshima between leaders [Ukraine](#), G7 and Global South countries.

Answering the questions of Ukrinform, the position of which the countries, during this meeting, thanks to her, became closer to Ukraine, the head of the OP said that the very fact was that the countries were so different in its own position, geopolitical interests, was extremely highly appreciated by all partners at one table. . "All consultation participants share the main principles laid down. Everyone knows what will be a victory for us. Everyone is ready to help achieve this victory, "he said.

According to the results of these consultations, the presidential office intends to organize the global summit of peace. Some of the participants of the meeting in Copenhagen express an assignment that such a summit may pass by the end of the year. "But for us, we are a longer term, we will make every effort to make the summit. As a potential place of its holding, I was the first to propose Ukraine. It can also be one of the global countries, for example, India during G20. Or the UN General Assembly in New York, "A. Ermak commented.

He also added that Ukraine sees a good prospect in the preparation of a print summit in conducting summits in separate areas - in food security, ecology, nuclear safety, humanitarian problems. "If it had happened to the country and even on different continents, it would only help the world understanding us and consciously support us."

In general, according to A. Ermak, today the coalition in support of the "formula" of Zelensky already has up to 50 countries, potentially more than 140 countries, which have been supported by Ukraine during the vote of landmarks in the UN. **Read also:** [EU supports the Ukrainian formula peace and will promote it in the world - Borrel](#) He recalled that the formula consists of 10 points and is based on the principles of the UN and international law. The national team won the 34th medal at the III European Games in Krakow(Poland).

Володаркою «срібла» в новому олімпійському виді спорту стала 27-річна Анна Пономаренко, яка виступає на змаганнях під нікнеймом Stefani, передає Укрінформ.

Матч за «золото» Stefani проводила проти 17-річної нідерландки India. На кону було не лише звання чемпіонки Європейських ігор, але й ліцензія на Олімпіаду-2024 - її отримувала лише переможниця змагань.

Stefani програла усі три раунди India. Вона набрала лише два очки у першому, поступившись у двох наступних - 2:7, 0:9, 0:9. Таким чином, олімпійську ліцензію здобула нідерландська бі-гьорл.

Як інформує [Суспільне Спорт](#), breaking, or breaking is a kind of dance that was born in the 1970s in the New York district of Bronx. It combines elements of hop and acrobatic movements, and also requires great athleticism.

The Netherlands is efforts to enhance Ukraine's air defense.

The Prime Minister of the Netherlands Mark Rutte said this in the Hague at the Hague during a working conference on the results of a working meeting with the participation of heads of state and government, Poland, Romania, Albania, Belgium and Norway, Ukrinform reports in Hague.

“We make every effort to strengthen air defense [Ukraine](#) , and we, as before, will be devoted to the cities and in no way guilty of civilians are protected from

Russia's cruel robust attacks now and in the coming years. And when the matter goes to further form NATO relations with Ukraine to decide it to Ukraine and all the members of the Alliance, not Vladimir Putin and not the Russian Federation, "he emphasized.

According to him, Lithuania is a good place for the summit next month. He also said that the path that Ukraine is going on is the same path that has passed other countries on the border with Russia in the last 30 years.

Rutte also noted that NATO members are now 31 countries, and it was hoped that Sweden would be 32nd in the 32nd country.

"Putin's plan had unpleasant consequences because of his ruthless aggression. He was consent to share us, but now he knows that we will continue firmly in our collective security," he said.

Also, Rutte, answering journalists' questions about today's affairs on specific steps for Ukraine on the way to NATO membership, Rutte said: "Presidents of Lithuania and Romania very clearly said that we should move forward postbuilding, we cannot simply follow Bucharest. which we can accept at the NATO summit, which will give Ukraine a clear signal that its future in NATO," he said.

As reported by Ukrinform, on Tuesday, June 27, 2023, a meeting in the NATO preparation for the NATO summit, which should take place on July 11 and 12, was in the Dutch HAAZ.

The first NATO Secretary General Jens Stoltenberg arrived in the West, after which they met with the Prime Minister of the Netherlands Mark Rutte.

During this meeting, its participants discussed the Russian Federation in Ukraine and security in the world.

As it was reported, since the beginning of the Russian invasion of NATO and the Union countries continue to provide Ukraine with significant political, economic, humanitarian and military assistance. The continuation and increase of such assistance will be one of the main topics during the meeting of the heads of state and governments of the country, which will take place in Vilnius on July 11-12.

NATO Secretary General Jens Stoltenberg noted at one of the latest pre - conferences that NATO Allies agree that Ukraine became the Alliance, but will

not consider the issue of its formal invitation to enter during the Vilnius Summit.

Everyone has proven Russian terror again and again to us, and to us, and to the world that this country deserves only one in the consequences of everything that she has done - the tract and a tribunal, a fair and legal courts against all Russian murderers and terrorists.

About it in your [appeal](#) At the end of the 489th day of the war, President of Ukraine Volodymyr Zelenskyy said, Ukrinform reports.

**Dear Ukrainians and Ukrainian women!**

Exactly on the anniversary of the impact of Russian terrorists on Kremenchuk, on the Trade Center, when 22 people were killed, Russian inhumans again directed missiles in the Potremenchuk district.

Today, Russian terrorists also fired at Kramatorsk. C-300 missiles. People were killed, and among them-a child. My condolences to my relatives and loved ones. More than 40 people are injured at this hour. Everyone is assisted. Proceeds of gaps.

Every such manifestation of terror again and again proves to us and the world, which is only one of the consequences of everything that it has done - defeat the tribunal, fair and legal courts against all Russian murderers.

And again and again, thank everyone in the world who supports Ukraine and helps our people's defense!

Today there is a new defensive package from the US for our soldiers. Armored vehicles for Petriots, Stingers and Himars. Additional shells for our artillery. I thank Mr. Biden President, Congress, both parties, and all Americans!

He spoke to Mr. Prime Minister of Norway. He thanked for the support provided - the defense, economic, political. Very important!He informed him about my trip to our warriors, about our actual defense. He voiced some of our armed needs. The creation of fighter jets also discussed. A separate topic in conversation is the future NATO summit in Vilnius. Type Norway for understanding!

He also held a special meeting with our internationalists today - the office, the government is preparation for the Vilnius summit. I am sure that the summit decisions can be static for Ukraine!We do everything possible for this and connected to this international opportunities of Ukraine.

And, of course, the front. Our characters, our active actions. Today, we also have moving before!In all areas where we take offensive actions. Thank you, warriors!Today we have important results in reflecting Russian assaults. I am very grateful to you!Thank you for every destroyed occupier and every Ukrainian life saved!

Glory to our heroes! I thank everyone in the world who is not afraid of Russian terrorists and returns the world with us!

The recent events in Russia are another proof that Putin's war has led to anything but instability.

The Prime Minister of the Netherlands Mark Rutte said this in the Hague at the Hague during a working conference on the results of a working meeting with the participation of heads of state and government, Poland, Romania, Albania, Belgium and Norway, Ukrinform reports in Hague.

"Instability in [Russia](#) Generality in Europe, so we are concerned. These events are another proof that Putin's war did not lead to anything but instability. First of all, she has been the unbearable suffering of the Ukrainian people ... We must focus on the purpose, making sure that Putin's war against Ukraine is failure, "he said.

He also stressed that Russia's war in Ukraine is an unfair war with the safety of other countries.

"It's a war against everything. We are for freedom, democracy and the rule of law. And, of course, war is a direct threat to our own safety. Because in the case of success in Ukraine, Putin will not stop there. And so Ukraine can count on an adamant support, "he stressed.

According to him, the NATO Summit in Vilnius will be very important, where the probard will be made, the war of Russia in Ukraine.

As reported by Ukrinform, on Tuesday, June 27, 2023, a meeting in the NATO preparation for the NATO summit, which should take place on July 11 and 12, was in the Dutch HAAZ.

The first NATO Secretary General Jens Stoltenberg arrived in the West, after which they met with the Prime Minister of the Netherlands Mark Rutte.

The event is attended by Lithuanian President Gitanas Nausėda, President of Poland Duda, Romania President Klaus Iohannis, Prime Minister Belgiumalexer de Kroo, Prime Minister of Norwegian Jonas Gahr Støre, Prime Minister.

During this meeting, its participants discussed the Russian Federation in Ukraine and security in the world.

As it was reported, since the beginning of the Russian invasion of NATO and the Union countries continue to provide Ukraine with significant political, economic, humanitarian and military assistance. The continuation and increase of such assistance will be one of the main topics during the meeting of the heads of state and governments of the country, which will take place in Vilnius on July 11-12. **Read also:** [State Department of "Rebellion" Prigogine: We saw a direct call of leadership Putin a](#) He noted that the decisions made during a summit in Vilnius would lead Ukraine to NATO.

At all levels, the Ukrainian side emphasized that the assurances that "Ukrainian member of the Alliance", which were heard during the NATO Bucharest Summit in 2008, were not enough.

Instead, Ukraine raises NATO allies on the issue of guaranteeing security and a clear prospects for movement to full membership in the Alliance.

The fact that Russian President Vladimir Putin and his entourage was represented as a strength of the system for years was the greatest weakness.

This opinion was expressed by the expert of the German Council on Foreign Relations Stefanmaster when communicating with foreign journalists in Berlin, Ukrinform reports.

According to the master, the attempt of the putty, arranged by the last weekend of Eugene and PVC "Wagner", showed the full "weakness of the Putin system, which is being drawn around one person, personalized."

The authorities, having lost, and temporarily, monopoly on violence, was not able to negotiate, for a few hours the country lost its administration: all the awaiting what will say [Putin].(<https://www.ukrinform.ua/tag-putin>), and "he looked as if he did not understand what was happening, he was weak, far from reality."

"If Putin does not respond, the system flows into chaos. The system is not flexible enough to respond to the force majeure, "the expert summarized. He believes that "the incredible loss of prestige for Putin, which is very difficult for him, and the entire system is weakened."

As for Wagner PEC, it will not play an important Important in the war, says the master, this army is no longer powerful as before. The expert is also reported that the model of private companies, started in 2014 to conduct hybrid operations, exhausted itself, lost its relevance during the real war and the system was sooner or later punished by Prigogine and taken under control.

Putin, in turn, obviously wants to demonstrate even stronger determination, but also exacerbate repression within the country.

He called this "German fear" a problem. But today's Russian federation is not the USSR in the 1980s. In a table of a highly staged systematic system in the Russian Federation, it can very quickly get to the putty, "faster than everyone could imagine."

We will remind, last weekend of PEC "Wagner" went a march to Moscow, but in a few hours she stopped her advancement, explaining it by the reluctance of shedding.

The Kievan-Pechersk Lavra Reserve The exhibition-gallery “Ukraine. Formation of statehood.”

The exposition presents 11 sculptures of Ukrainian figures, as well as the state and national paraphernalia, Ukrinform correspondent reports.

"Such a project was to appear decades ago. If we knew the True History that we present at this [exhibition](#), maybe there would be no war ... We hope that thanks to such a contribution to the study of Ukrainians in history, we will come to victorious, "said the founder of the Museum of Formation of the Ukrainian Nation Valeryglan.

The exhibition includes information stands, which reproduced attributes of the Ukrainian state from the Middle Ages to modern times: seals, international documents, money, flags, coats of arms, maps, which record changes in the territory of Ukraine in the 10-21st centuries. Also presented a collection of 25 towels embroidered in the traditions of the Ukrainian region. Thanks to VR Okules, visitors can see what Bucha, Irpin, Borodyanka and Gostomel were before and after a large-scale invasion of the Russian Federation.

The exposition includes mise -enhancing with figures of Ukrainian prominent figures of idols. For example, here you can see Konstantin Ostrozky, Mikhahalagrushevsky, Stepan Bandera, Roman Shukhevych, Dmitry Yarosh and Leonidakravchuk.

"Many people think that these are wax figures, and compare them with the work of Madame Tusso. But our best, because there are figures standing separately, lvs. And we are gathered in the misessen, and the viewer is a clear context of the era. And in the cibing of cybershir, as close as possible to natural, made of dysilicone. When you look at this figure, you see not just an image and face, but every detail, "said the editor -in -chief of the project Larisa Lebedenko.

Even moles, spots, and nonsense can be seen on the "skin" of sculptures. The teeth and eyes of sculptures are made of real prostheses, which is also intensified realism.

Not far from the village of Zarvanytsya, in the Zolochiv district of Lviv region, Ukrainian searches from the public organization "Searching for aircraft of World War II in Ukraine" found a place of falling a German aircraft. Starting the excavation of the most likely location of the aviation search enthusiasts found fragmentation of the amazing vessel Luftwaffe, which was probably shot down or suffered by the catastrophes of the impact of the 1940s.

We did not find big debris. The available details clearly show that the aircraft is German: gray and blue colors of paint and sleeve with shuttermG151.

[!\(Images/APMIRINFORM/2023-06-27T30-00-00-04-00/355611102\\_1318507495689844\\_740551421503525145\\_n-150x150.jpg\)](#)

According to the search group manager, the plane actually fell on a village that no longer exists, so the details are at least. Probably, says Andrew, they were won by local residents in those days.

Searches carefully explored this place and the territory next to it. In general, small debris, 2 gaps from the German aviation automatic gunmg151, iron sleeve and part of the tape from Mg151/20. So, it is difficult to draw a plane type - there are too few fragments. Therefore, professionals "turn on" logic:

[!\(Images/APMIRINFORM/2023-06-27T30-00-04-00/4-62-150x150.jpg\)](#)

Thus, the researcher says, according to the searches, it is a plane Fw190

modification of A6, lost on July 16, 1944. The pilot is a lieutenant Hans Press, it is considered missing.

(<https://armyinform.com.ua/2022/02/20/u-svit-vyjshla-tretya-knyga-poshuk-litakiv-dsv-v-ukrayini/>) Also, during the search work, a group found several things of the First World War. Unfortunately, Ukraine became the scene of both world wars, and today the greatest war after the Second World War continues in its territory. And there are also whiped aircraft and other aircraft - both hostile and ours. Of course, times are other, and with the least possibility, their fragments and, in the cuttings, pilots are taken away. So the coming generation of searchmen, unlike Andrei Kiryanov and his like -minded people, will have less work. We will hope for it.

As for the community of searchmen itself, they have a large -scale war, like all Ukrainians in general, broke their plans and changed their lives. According to Andriykiryanov, many of them went to defend the country. The rest were involved in Privature. And one of its directions was the organization for the willing commercial hikes in the mountains - hiking with excavations in

interesting places, where during the Second World War there were accidents. The project has been put into practice, and the result was and continued to be added to the Armed Forces and the targeted assistance of the search engines with specific units of the Ukrainian army. But this is a topical story.

During the counter-priser measures in the front territories of the Donetsk region, a delayed informant, a resident of the Pokrovsky district, who, after a

nourish-scale-scale invasion of the Russian Federation, created his own telegram channel. On this resource, he taught electronic maps marked with the places of base and inter -perpetration of the Armed Forces units in the Avdeevsky direction.

About it [reports](#) Security Service of Ukraine.

The attacker collected relevant information on his own initiative during a trick, where he was hidden recorded the locations of Ukrainian defenders. He also wied information about the consequences of Russian air strikes in the territory of the district. In these reports, the collaborator "illuminated" the coordinates of the victims of Ukrainian objects with the attachment to the area.

It is established that among the main users of the Internet resource were militant-occupied groups and representatives of the special services of the Russian Federation, who are involved in the poor actions against the forces of defense on the Eastern Front.

In addition, the person involved in his own telegram channel to spread the fake Kremliv propaganda regarding the socio-political situation in the region.

On the basis of the evidence collected, the detainee was notified of the suspicion of the contained dissemination of information about the referral, movement of weapons, weapons and ammunition to Ukraine, the movement, movement or deployment of the Armory Forces of Ukraine in martial law.

He is now in custody. The attacker faces up to 8 years in prison.

Athletes representing the Armed Forces of Ukraine as part of the domestic national team of the BII European Games won six "gold", five "silver" and one

"bronze" medal. Pan-European competitions, which are attended by more than 4,000 athletes from 48 European countries, are taking place from June 21 to July 2. About this during a briefing at Military Media Center [reported](#) Deputy Head of the Department of Physical Culture and Sports of the Ministry of Defense of Ukraine Colonel Anatoly Pelykh.

According to Anatoly Pelikh, as of June 26, the Ukrainian national team, which includes 263 athletes, won 25 awards, winning 12 "gold", seven "silver" and six "bronze" medals.

Anatoly Pelykh stressed that the competition is still ongoing, but the Army has already shown a good result, obtaining half of the awards for the national team of Ukraine.

"III European Games are an event that is held every four years, it is a new format of competitions in the Sports Sports System. The first games among European Ukrainians were first held in Azerbaijani Baku in 2015, friends were played in the Republic of Belarus, and others in the Republic of Poland. The competitions are competed from 30 sports disciplines, 263 athletes of the Ukrainian national team are available in 27 disciplines. Competitions in individual 19 disciplines are the stage qualification for the Olympic Games of 2024, which will take place in the Upryzhi, "Anatoly Pelyki said.

According to him, the Armed Forces of Ukraine at the European Games in 2023 were represented by 85 athletes. They managed to get "gold": in the commanding room with kayaks and canoes, athletics-Yaroslavamaguchikh, karate-Angelica Terluga, jumping into the water-Anna Piscivska, fencing-Joan-Fabi Bezhur.

The competition is ongoing.

For a long time the portable X -ray complex "Fuji" was impossible for military

physicians. Without unnecessary explanation, let's say - the cost of one such complex reaches more than 70 thousand euros. But thanks to the command of the medical forces, the unebachable citizens who have become donors are in service in military submission already have several such devices. Some work in the advanced surgical wards directly on the front, others help the doctors of the utility.

From the outside, it looks like a large camera and weighs only three and a half kilograms. It is easy to manage it, despite its high manufacturability. The control panel is sufficiently selected and scanning the hand, the chest of the Cherry. The device itself will choose the irradiation force for a quality image. By the way, its design is designed so that the doctor who uses this device can take up to twenty pictures a day without sacrificing your own health.

- Another undeniable advantage of this "baby" is that he is one hundred percent digital, - continued the colonel of medical service Yuri Yarynich. - There is no film. The device includes a special digital plate of images. Its resource is very large. After using the picture, it immediately is transferred to the digital base of our institution and is tied to a particular patient. This greatly simplifies the diagnosis, coordination between colleagues-doctors, and subsequent treatment of the wounded.

Now all portable X-rays are loaded with work by one hundred percent. Every day, valuable and high-tech devices help to return to the healthy heroes of Ukraine.

In the following publications, the Armyinform will continue to talk about technical and unique people who treat and return from the servicemen.

Yuri Ignat about Russian missiles. Collage Armyinform

Since the beginning of a large-scale invasion of Russia, the occupiers have already developed about 140 X-22 missiles. Today, these missiles are no longer manufactured, but in Russia there are hundreds of units.

About it today during the broadcast "[Uniform](#)" Colonel Yuri Ignatus told the Air Force Air Force Air Force.

Recently, signals have been raised in several areas of Ukraine. Unfortunately, not all the attacks of the enemy from the air passed without consequences ...

-A year ago, the same X-22 rocket hit a shopping center in Kremenchug, many people had. A year later, the enemy again beats with the same rocket to the punched cities. The rockets were made at 11:50. They came in and flew through the Poltava region, and the explosions were heard in Kremenchug.

He also added that the speed of the X-22 rocket is more than 4 thousand kilometers of the guard. It is a serious capacity rockets - with an explosive part almost a ton. Abervation that threatens Ukrainians also because these weapons are quite inaccurate, because it is permissible to deviate from a given target - about 600 meters.

The evidence base, collected by investigators of the Security Service of Ukraine, allowed the responsibility of another enemy associate, which was

transferred by the occupiers of the dislocation of the Defense Forces in Mykolaiv region.

First of all, he tried to install and send the aggressor locations of armor and other fortifications of the Armed Forces near the regional center.

SBU staff detained the attacker at the end of June 2022 during the contradictory measures in the frontal territories of the region.

According to the materials of the Ukrainian special service, the court appointed him 8 years in prison, taking into account his cooperation with the investigation.

According to the investigation, the attacker is a local resident who, at the beginning of the full -scale invasion of the Russian Federation, was remotely involved by the FSB in the unlawful work.

It is established that the Russian intelligence service went to a man through one Ordrekmlivsky telegrams, where he has repeatedly left his anti-Ukrainian comments.

He carried out all further communication with the FSB in the messenger through the "liaison". He was the administrator of the same telegram channel.

The invaders were planned to be used to prepare rocket and artillery shelling of the positions of Ukrainian defenders.

On the basis of the evidence collected, the court found a hostile informant guilty of the two -way of the Criminal Code of Ukraine:

- Part 3 of Art. 114-2(Unauthorized dissemination of information about the direction, movement of weapons, weapons and ammunition to Ukraine, movement, displacement of the Armed Forces or other military formations formed in accordance with the laws of Ukraine);
- 1. 2 you. 3 st. 436-2(justification, recognition legitimate, denial of armed aggression of the Russian Federation against Ukraine, glorification of its participants).

Obtaining qualifying documents for seafarers will soon be available.

About it [reports](#) The Ministry of Minzifra Press Service.

"This is the first service in the field that will eliminate corruption and completely change the approach of pre -communication between sailors and the administration of navigation," - the statement reads.

The service of qualifying documents for seafarers is the first in the scope of large -scale digital transformation of the sphere of navigation.

"Earlier, a register with sailors' documents was in private hands, which consumed the risk of corruption. Passing or receiving documents, the prokraining was often accompanied by corruption schemes from private companies. And the level of corruption in the sphere was up to \$ 150 million a year, "the Ministry of Defly added.

Digitalization of the sphere will help to overcome corruption and increase the admission of the budget. The sailors do not have to visit government agencies or forced to convert to private companies to obtain a qualifying document.

On the portal, the action will be able to apply for receipt:

Soon the Minister will launch beta test of services, which will be able to participate in:

The Coordination Headquarters met with the families of missing persons of the military personnel of the Separate Marine Infantry Brigade named after Mikhail Bilynsky. Native and close defenders are interested in the recovery of exchange algorithms.

About it [reports](#) Coordination headquarters of inquiries for the treatment of prisoners of war.

The coordination headquarters explained that the aggressor country does not have an authorized structure that would exchange prisoners of war, so each exchange is a separate operation of Ukrainian special services. It is impossible to talk about clearly defined algorithms in this context.

The expert also noted that the work on the exchange on the principle of "not all" is slow, but is moving.

"We have already taken the initiative and gave the Russians without any conditions of five. They, in turn, later gave their own initiative. However, this does not mean that if we give tomorrow, conditionally, a hundred of their wounded, we will get the same number of ours. There is no guarantee at this time, "the expert said.

The coordination headquarters also drew attention to the fact that the disadvantage of the stay of our defenders and defenders in captivity are public and can be provided even by close relatives. At the same time, the headquarters can notify the departments of the prisoners' maintenance - such data will be displayed in the Personal Office. Staff experts try to track the movement of prisoners in places in Russia, but it is always possible to do it promptly and accurately.

"Sometimes even their Ministry of Defense does not know where one or the other is located," the headquarters representative emphasized.

The coordination staff staff also emphasized that the enemy continues to carry out information and psychological special operations regarding relatives of government. In particular, the Russians deliberately disseminate information of the intersection of a defender in a particular colony, although it is not in fact.

The coordination headquarters again emphasizes the need to use only official information from authorized persons and institutions.

In the estuary, the "Chief Engineer of Rossenergo" was detained, who disconnected the peace of electricity and handed the energy to the racists.

About it [reports](#) SBU press service.

"The former Master of Electrical Networks in the Liman was the attacker. Under the frequent seizure of the city, he supported Russian invaders and passed their assistance in the war against Ukraine. For this he was appointed "chief engineer" in the aggressor "Regional Energy Company of the Russian Federation", - the message reads.

It is noted that in this "position" he disconnected the civilian population of the region and has proven affordable energy to the needs of the racists.

In particular, the person involved in the flow of current to the occupation administration of the Luman, as well as to the enemy of local "departments of the DNR police" and "military commandant" of the Russian Federation.

In addition, the collaborator provided uninterrupted energy supply of buildings, which were struck by regular Russian troops. At the same time, the housewives were left without electricity.

The person also recorded for the pro-Kremlin telegrams of the authorities, where he praised the occupation regime of the aggressor country.

Upon release of the estuary, the attacker tried to "lie down to the bottom" and such justice. However, the SBU staff disrupted the "plans" of the person involved - they set his location and detained.

He has now been informed of suspicion of collaboration. The attacker aggravates imprisonment.

**ІНСТРУКЦІЯ ЩОДО НАПИСАННЯ ЛІСТИВ ВІЙСЬКОВОПОЛОНЕНИМ**

Згідно з III Женевською конвенцією військовополоненим дозволено як надсилати, так й одержувати листи й поштові картки.

Національне інформаційне бюро за посередництва МКЧХ допоможе військовополоненим та їх родинам налагодити зв'язок.

Листи – це важливий зв'язок із зовнішнім світом військовополонених. Дотримання нижче описаних правил збільшує ймовірність того, що ваші рідні чи близькі, які перебувають у полоні, зможуть отримати листи.

1. Згідно з Женевськими конвенціями держава-одержувач має право цензурувати листи, тому рекомендуємо зміст листів робити політично нейтральними, не надавати оцінку військовим діям чи політичній ситуації, а також не передавати інформацію, що може нашкодити українським військовим.

2. У листах можна написати про сімейні новини, вкласи дитячі малюнки і всіляко підтримувати військовополоненого.

3. Не слід у листах повідомляти ваше місце проживання, номери телефонів, електронні адреси, інші дані, які можуть бути використані для ідентифікації осіб. Адресу проживання слід зазначати лише на зовнішньому конверті, як описано нижче.

4. Важливо правильно підписати та запакувати ваш лист. Це пришвидшить та спростить передання листа вашій близькій людині.

**ПРАВИЛА ПАКУВАННЯ ТА ПІДПИСАННЯ ЛІСТА:**  
Для відправки листа вам слід підготувати два конверти: внутрішній (меньшого розміру) та зовнішній (більшого розміру). Ретельно слідуйте правилам підписання листа.

Pentagonophically announced a meeting on Wednesday of the heads of defense agencies of the United States and Germany, as well as discussing them, in particular, the issues of strengthening of NATO allies on border and further military assistance to Ukraine.

This was reported on Tuesday during a briefing by the spokesman of the Ministry of Defense Shatener Patrick Ryder, reports his own correspondent of Ukrinform.

"Tomorrow, Minister Austin will welcome German Minister Boris Pistorius a super-bilateral meeting here in the Pentagon," said a representative of American awareness.

In the city of Bakhmut, the state of today did not go. The liberation of this direction has its own feature, which makes the process. Bakhmut and suburbs have a developed system of engineering fortifications and an extensive network of strongholds. All this in its time was prepared by our military and local authorities for defense, in fact that it could have been holding it for so long. But now these fortifications and strongholds are busy, so to liberate these lands, a little more effort and patience are needed. ”

The NATO Secretary General Stoltenberg warned the Allies on the Alliance against the underestimation of the NATUS of Russia, although recent events have testified to this country's instability, tagging continued to continue to support Ukraine in its efforts to protect the antispan.

Jens Stoltenberg stated this in the Hague today during a press conference with the participation of a working meeting with the participation of heads of state and governments of Lithuania, Poland, Romania, Albania, Belgium, the Netherlands and Norway, Correspondent.

"We have all seen events in Russia over the past days. This is an internal business. But it is obvious that President Putin's criminal war against Ukraine deepened sections and created a new tension in Russia itself. At the same time, we cannot underestimate it. It is even more important to continue our help for Ukraine. I expect that during a summit in Vilnius in a few weeks we will make a clear message about our obligations, "said the Alliance head.

The Ukrainian army is increasingly moving away from outdated Soviet management methods, mastering the latest domestic developments. Remember, for example, the introduction of a protected combat system of management of the tactical link "Nettle", without which no combat unit now does? Now the Armed Forces have every chance of weaponing another unique development — *an automated and remote control system of artillery intelligence barak , which cannot be detected by any technical means. And this is because it gives a clear "tight" of the coordinates of the work of even a large caliber -gun at a distance of 12 km, and mortars and artillery — \*\* up to 30 km.*

Correspondent [Armyinform](#) He had a conversation about this development with the chief of artillery of one of the individual infantry brigades that nowadays the invaders in the Donetsk direction. Lieutenant Colonel Vitaliy Podvysotsky Testatta helps to improve the truly unique invention of his author and his large team of like-minded people for almost a year. According to him, the development is already practical to wide use in the Armed Forces.

ARMED INFORM

\*!

Honestly, I did not believe at first that *barak* would work effectively when a team of like -minded people and colleagues of the inventor with some thamphon and microphones came to the front. But we urgently needed some new tool of artillery intelligence, first of all, for an effective counter -battery fight against the enemy. Therefore, we joined their work, and in the summer of Odessa we were given to us for testing a pilot version of the complex *barak* .

The first version of the barracks

But at the moment we have reached the next. Now we are filled with accurate coordinating articles and individual enemy guns at distances of up to 30 kilometers. We have the most accurate data if we fire from distances of U18-24 kilometers. We spend no more than five seconds on "sampling". After that, with the help of *barak* operators, we compare our data with the data of our "birds", which are almost constantly spreading in the sky and are with operators\_Barak\_ on direct communication online, information from tactical intelligence, we get the same coordinates of goals.

**Mr. Vitaliy, what is this complex physically?**

It is easy to work, does not require large human or material costs. Physically, it is eight, and, if necessary, small, small modules of directional action, which are located according to certain schemes of tacked, for several kilometers. They work around the clock, independently of each other, having every energy supply for 5-7 days. Software is constantly being improved taking into account various factors that fall to the work of the complex. It is the intensity and massness of the work of the gate -artillery, each barrel of which *barak*

should be astonished, the time of day, the temperature environment, etc. The latest updates that have made for *barak* Odessa are an opportunity to shine the spans of Iranian "Shahmed", as well as a module or system -module when the sounds of outputs are fuzzy. Bazazvis for determining goals is constantly updated, up to calibers less than 82 millimeters. By the way, the latest version of the complex *barak* is already actively used directly on the Odessa coast.

### **Modules can be controlled remotely?**

So. If the operator receives from the air intelligence data about the work of the artillery -protector that leads fire on us, and *barak* it "does not see" at all, Vinidststentially makes a restart of a module, seeks and changes frequency - determination, etc. The operator also has the opportunity to process the obtained data with software algorithms, which, according to the expert, will determine the most precise coordinates of the goals. The data obtained shall be transmitted to the senior boss, who already enforce the expediency or possibility of using the fire in response.

As far as I know, there are no world analogues of the world at all. At least by dimensions, survivability, mobility, ease of application and service, width of the observation strip and accuracy during the coverage of a total number of goals. And most importantly - it has a passive effect, it is planned to detect any technical means. He is not capable of influencing the enemy radio struggle. Moreover, it is planted to destroy it physically, such as acoustic

intelligence station for a false or armored database. Try to find in the fields and forestry in a few kilometers eight dug and masked under the locality or soils of the case with a suitcase-diploma! Even if the number of them will be accidentally destroyed or failed, the complex will act. The module does not give any radiation, even thermal, and how operators receive information from them - the "secret of the firm".

### **How long does the algorithm take: "Severe" Coordinates goals - data transfer - a decision - a fire in response?**

Five seconds to determine coordinates, 30 seconds for processing and transferring data to an artillery group, a few minutes to make a decision to impress the target and set the fire task of the artillery unit, and the first shot.

### **The results are satisfactory?**

More than. In addition to the direct hits, which are constantly in place, we are even maximal shooting distances for errors in determining the coordinates of 50 meters, we can, say, calculations of enemy guns and the guns of the gun-fugitive projectile, fragments of which are flew in a radius of 200 meters. But we or the means of impression of the higher command have a mobile opportunity to suppress the work of the enemy's art to support the action of our possessive.

\*\* Vitaliy Ivanovich, in your opinion, is it capable of *barak* to take place in the artillery units of our troo

- As far as I understand, *barak* is simply a short name of the complex, he does not have an industrial manufacturer. But how does the inventor qualify him?

The definition of the author sounds as follows: "The centralized multi - moderate system of the reconnaissance of the passive principle." And *barak* is really an abbreviation.

### We can see the work of operators *barak* ?

So. A officer from the Fire Support Department of the brigade, who is engaged in this direction, will now be coming behind you. You will see the command of operators, which alternates on the complex and shifting, serves

modules, exhibits them according to the schemes and replaces the power supply ...

... We talk to the head of the department, the senior operator of complex - reconnaissance Yaroslav.

**- Yaroslav, how much do you think is effective barak ?**

In terms of accuracy of determining the coordinates of shooting guns or reactive systems of volley fire, it is extremely accurate at distances somewhere in 25 kilometers, and gives a small error at the maximum distance of determining the targets of 30 kilometers. Moreover, we already clearly shine the work not only of mortar calibers, but also anti -aircraft installations and even large caliber machine guns 10-12 thousand meters.

**Does the quality of work depend on weather conditions or other factors?**

We have six methods of information processing. Four of them take into account the meteodans, which we enter into the program. Each module gives out the results of the "seam" coordinates autonomously. They are combined in a special plate, after which we receive data on the direction of conducting fire - that is, where the orcs are firing, the distance to their firearms, and in the end - their current coordinates. Then we compare the result with the data of

the subdivision, with which we are on online communication, and at night additional with information of the respective points at the leading positions. Then we give out the most exact result where it is necessary.

### **How protected in all senses the modules themselves? - modules give failures?**

Sometimes. But they are able to restart either independently or remotely with the help of operators. By the way, remote control is a single plus *barak*. There were several cases where the enemy's work was recorded at any of the directions of the speech, and our complex did not hear it. We remotely reconciled the work of several modules into a different frequency range quickly fell out the enemy. Further, our arta was taken for the cause.

### **You know about the results of her work?**

I know, but I will not voice. When the older command expresses gratitude to us, it means that we and our artillery worked perfectly.

### **Your impression of *barak* ?**

He is incredible!

P . S . \*\* *Sond the interview, the author contacted Odessa, namely, and invented \_barak* (He has now asked for his name). За його словами, цей комплекс вже ефективно працює не тільки надонецькому напрямку, але й уздовж узбережжя Чорного моря, в акваторії Очакова, у багатьох бойових бригадах на півдні України. Завдяки БАРАК вони посилили контрбатарейну боротьбу з орками та вже навчилися виявляти й знищувати іранські «Шахеди». Команда однодумців у винахідника велика, наразі вона працює на волонтерських засадах. Про стовідсоткову готовність комплексу до серійного виробництва, зі слів винахідника, можна буде говорити лише після держвипробувань та прийняття його на озброєння в ЗСУ.\_

Continuing armed aggression, Russian occupation troops experience losses daily. About 50 wounded occupiers were brought to the Kindergarten building,

converted into a field hospital, located in Novomikhailivka in the Kherson region.

The enemy also continues to refurbish civilian education institutions in the temporarily seized territories of Ukraine to medical institutions. Thus, the Zaporizhzhya Regional Secondary School of Passed Point was transformed into a single -military hospital. There is a constant transportation of wounded invaders.

Enemy hackers attack the critical infrastructure of Ukraine: it is necessary to work constantly.

About it [reports](#) Special Communications and Information Protection Telegrams of Ukraine.

From 2022 to this day, the government response team of Ukraine Cert-UA, which operates at the State Secretariat, has worked and explored more than 3,000 cyberincyders and cyberattacks.

Among the goals of hostile hackers are many objects of critical infrastructure of Ukraine, because the attackers do not leave attempts to leave Ukrainians without vital services.

The State Secretariat is reminiscent of: even those organizations in which the protection is built by the curtailed standards must constantly overestimate the risks, test the various scenarios of penetration and the possibility of detecting attacks, updating knowledge and documenting processes, since hostile hackers use the whole arsenal.

Державна служба спеціального зв'язку та захисту інформації України

Today, we all have to understand that even after the end of the Convention against IT infrastructure, we can last for many years.

Russian hackers continue to penetrate the network of critical infrastructure as through computers of executives (What are the use of unlicensed programs), and through computers of IT administrators who consider it protected, and through trust with suppliers, including IT software-developed software.

Therefore, strengthening of their own protection is extremely important for everyone: the university of the organization - to the trainee, from the water supplier - to the Department of Social Administration.

The Security Service has collected evidence on another rasher's associate, which transmitted the aggressor to the location of the dislocation and the movement of defense forces in the frontlands of Donetsk region.

About it [reports](#) SBU.

First of all, the attacker tried to identify and "merge" the Russian invaders of the dislocation of the Armed Forces personnel, as well as artillery positions and logisticals of Ukrainian troops in the Avdeevsky direction.

The SBU staff detained the enemy informant in February this year during the contradictory events.

According to the Ukrainian special service, the court appointed him 10 years of prison.

As the investigation established, the attacker was a resident of Mirnograd.

At the end of 2022, he was involved in unspoken cooperation against Ukraine, the representative of the DNR Intelligence Management.

In the field of view of the enemy, a man got through his activity on Russian - volume networks, where after the start of a full -scale invasion of the Russian Federation published anti -Ukrainian comments.

The informant bypassed the frontline territory of the Pokrovsky district and hidden locations of Ukrainian defenders.

The collected information was sent to the temporarily occupied part of Donetsk region through the Messenger of Telegrams.

On the basis of the evidence collected, the court found the attacker guilty under Part 3 of Art. 114-2 Criminal Code of Ukraine(Unauthorized dissemination of information, moving weapons, weapons and ammunition to Ukraine, movement, movement or placement of the Armed Forces).

Volodymyr Zelenskyy

\_ Dear Ukrainians and Ukrainian women!\_

Exactly on the anniversary of the impact of Russian terrorists on Kremenchuk, on the Trade Center, when 22 people were killed, Russian inhumans again directed missiles in the Potremenchuk district.

Today, Russian terrorists also fired at Kramatorsk. C-300 missiles. People were killed, and among them-a child. My condolences to my relatives and loved ones. More than 40 people are injured at this hour. Everyone is assisted. Proceeds of gaps.

Every such manifestation of terror again and again proves to us and the world, which is only one of the consequences of everything that she has done - defeat the tribunal, fair and legal courts against all Russian killers.

And again and again, thank everyone in the world who supports Ukraine and helps our people's defense!

Today there is a new defensive package from the US for our soldiers. Armored vehicles for Petriots, Stingers and Himars. Additional shells for our artillery. I thank Mr. Biden President, Congress, both parties, and all Americans!

He spoke to Mr. Prime Minister of Norway. He thanked for the support provided - the defense, economic, political. Very important!He informed him about my trip to our warriors, about our actual defense. He voiced some of our armed needs. The creation of fighter jets also discussed. A separate topic in conversation is the future NATO summit in Vilnius. Type Norway for understanding!

He also held a special meeting with our internationalists today - the office, the government is preparation for the Vilnius summit. I am sure that the summit decisions can be static for Ukraine!We do everything possible for this and connected to this international opportunities of Ukraine.

And, of course, the front. Our characters, our active actions. Today, we also have moving before!In all areas where we take offensive actions. Thank you, warriors!Today we have important results in reflecting Russian assaults. I am very grateful to you!

Especially today I will note the famous 3rd Separate assault brigade, a strong 28-sided mechanized brigade, a heroic 54th separate mechanized brigade of the 57th separate motor infantry brigade. I thank all of you, warriors!Well done!

Thank you for every destroyed occupier and every Ukrainian life saved!

Glory to our heroes! I thank everyone in the world who is not afraid of Russian terrorists and returns the world with us!

***Glory to Ukraine!***

Alliance allies must maintain solidarity with Ukraine, which one day enters Donato, but before this day comes, the Alliance should help Ukraine to create legal conditions for transformation and provide legitimate security guarantees.

About in the Hague during the Press Conference on the results of a working meeting with the participation of NATO and Heads of State and Government

of the Netherlands, Lithuania, Poland, Romania, Albania, Belgium and Norway, said Prime Minister Belgium Alexander de Croo, reports Ukrinform.

"It is crystal clear that one day Ukraine will become a member **NATO**. The question arises in the fact that we will do at the time before. At this time we have to do two things. First, to create a good political framework to continue dialogue with our Ukrainian dogs. Secondly, we have to provide the necessary security guarantees, and the clerks from Ukrainians are obviously legitimate," the Belgian government officer said.

During the Alliance, which will take place in Vilnius on July 11-12 this year, the Union countries should provide Ukraine with a clear political path to VNATO's membership, and make this path as simple as possible.

About today in the Hague during a press conference, after the working meeting of the NATO Secretary General and Heads of State and Government

of the Netherlands, Lithuania, Poland, Romania, Albania, Belgium and Norway, said President Gitanas Nausėda, Ukrinform reports.

"Another issue we will discuss in Vilnius is the future of Ukraine and its relations with [NATO](#). Lithuania is a convinced member of Ukraine's membership in NATO. Ukraine is part of the Euro -Atlantic Safety Architecture. We have to agree on the political path for Ukraine's Dialess in Ukraine, and to make this path as simple as possible. We support the creation of Nato -Ukraine Council, whose inaugural meeting can be found in Vilnius, "the Lithuanian leader emphasized.

He noted that the fact that the NATO summit takes place in Vilnius, on the Eastern Border of the Alliance, is a symbol of time. Since NATO's summit in Madrid, the situation of renders of safety on the eastern flank has only worsened. Russia launched a tactical nuclear in Belarus. In Russia, there was an attempt at the military rebellion of the Wagner Group. If the "serial killers" from this group are stationed by Belarus, all neighboring countries will even be more threatened.

In such circumstances, according to the President of Lithuania, NATO's restraint measures and pre -defense measures are gaining the highest priority. That is why the updated regional defense plans for the allies should be implemented as quickly as possible.

"In Madrid(During the summit in June 2022 - ed.)We agreed that the fighting groups will be increased to the size of the brigades, where and when it will be necessary. The Sucky corridor is the decisive strategic importance not only for the defense of the Baltic Region, but also for the whole alliance. During the Alliance, which will take place in Vilnius on July 11-12 this year, the Union countries should provide Ukraine with a clear political path to VNATO's membership, and make this path as simple as possible.

About today in the Hague during a press conference, after the working meeting of the NATO Secretary General and Heads of State and Government

of the Netherlands, Lithuania, Poland, Romania, Albania, Belgium and Norway, said President Gitanas Nausėda, Ukrinform reports.

"Another issue we will discuss in Vilnius is the future of Ukraine and its relations with [NATO](#). Lithuania is a convinced member of Ukraine's membership in NATO. Ukraine is part of the Euro -Atlantic Safety Architecture. We have to agree on the political path for Ukraine's Dialess in Ukraine, and to make this path as simple as possible. We support the creation of Nato -Ukraine Council, whose inaugural meeting can be found in Vilnius, "the Lithuanian leader emphasized.

He noted that the fact that the NATO summit takes place in Vilnius, on the Eastern Border of the Alliance, is a symbol of time. Since NATO's summit in Madrid, the situation of renders of safety on the eastern flank has only worsened. Russia launched a tactical nuclear in Belarus. In Russia, there was an attempt at the military rebellion of the Wagner Group. If the "serial killers" from this group are stationed by Belarus, all neighboring countries will even be more threatened.

In such circumstances, according to the President of Lithuania, NATO's restraint measures and pre -defense measures are gaining the highest priority. That is why the updated regional defense plans for the allies should be implemented as quickly as possible.

"In Madrid(During the summit in June 2022 - ed.)We agreed that the fighting groups will be increased to the size of the brigades, where and when it will be necessary. Alliance allies must maintain solidarity with Ukraine, which one day enters Donato, but before this day comes, the Alliance should help Ukraine to create legal conditions for transformation and provide legitimate security guarantees.

About in the Hague during the Press Conference on the results of a working meeting with the participation of NATO and Heads of State and Government

of the Netherlands, Lithuania, Poland, Romania, Albania, Belgium and Norway, said Prime Minister Belgium Alexander de Croo, reports Ukrinform.

"It is crystal clear that one day Ukraine will become a member **NATO**. The question arises in the fact that we will do at the time before. At this time we have to do two things. First, to create a good political framework to continue dialogue with our Ukrainian dogs. Secondly, we have to provide the necessary security guarantees, and the clerks from Ukrainians are obviously legitimate," the Belgian government officer said.

The Cabinet of Ministers of Ukraine has allocated the Ministry of Veterans of Ukraine 200 mLN 633,87 thousand hryvnias for the reconstruction of the Borodyan Center for Social and Psychological Rehabilitation of the Population, which belongs to the sphere of management of consciousness.

The relevant decision to allocate funds from the Fund for the elimination of the consequences of armed aggression was made at a government meeting.

Borodyanka-Center is the flagship project of the Ministry of Veterans, and the active construction of which is supported by the partners of the Ministry. It should appear on the site of the tank hit by the Russian invaders of the Center for Social and Psychological Rehabilitation of the Population in the town of Borodyank(Kyiv region).

Цей заклад забезпечуватиме надання комплексних послуг із психосоціальноговідновлення не лише ветеранам війни та їхнім сім'ям, а й постраждаломуцивільному населенню. До того ж, відновлення бородянського центру патронує Президент України Володимир Зеленський, який вже віддав на його відбудову стотисяч доларів — грошову винагороду, яку він отримав разом із Медаллю Свободи, котру вручають в США видатним світовим діячам.

«Дякую керівництву держави та Уряду за підтримку цього дійсно важливого проєкту! Ми залучаємо та акумулюємо кошти наших і національних і міжнародних партнерів на цей проєкт, і відкриті для співробітництва у відбудові нашого Центру», — зазначила міністр у справах ветеранів України Юлія Лапутіна.
