At the checkpoint "Ustilug" the participants of the marathon "I raise the flag for Ukraine" were handed over to the Lithuanian athletes by a Ukrainian flag, which was previously held from the military from Bakhmut.

-On the Ukrainian-Polish border, the border guards met the participants of the subtramarane, which on June 25 started in Kiev. Athletes overcame the route with Ukraine, which received from the Ukrainian soldiers from Bakhmut. In particular, the route ran across the Kyiv region, Zhytomyr, Rivne and Volyn, - the message said.

According to the State Tax Service, a team of Ukrainian runners passed to friends from Lithuania near the checkpoint "Ustilug". They will deliver the Ukrainian flag to Vilnius, where they plan to raise it to the NATO Summit, which should take place on July 11.

-This action we want to draw the attention of the world community to the war in Ukraine and to bring it to the 33rd member of the North Atlantic Alliance NATO. In Lithuania, people will hang Ukrainian flags on houses, balconies, bridges, when the NATO summit will take place for all delegations. On all roads where they will go, - says the organizer of the Daminicas Kubilius.

Round table "Legal and Social Fundamentals of Formation of Motivation to Protect Motherland"

In Kiev there was a round table "Legal and social foundations of formation of motivation for protection of the Motherland". It was initiated by the public organization "Center for Legal and Social Protection of Citizens of Ukraine".

People's deputies of Ukraine, leading lawyers and experts on social protection of the Ministry of Defense of Ukraine and the Armed Forces, the Ministry of Internal Affairs, Ministry of Veterans, teachers of the Department of Legal Support of the Humanitarian Institute of the National University of Defense of Ukraine, participants of the public and representatives of the Russian-Ukrainian-Ukrainian people were invited to participate in the roundtable.

The participants of the discussion discussed a lot of problematic issues regarding the implementation of Ukraine, which came to the surface in connection with the introduction of martial law.

In particular, the state of enforcement of the provisions of the laws on the implementation of citizens involved in the country's armed protection was analyzed for a decent isment and reimbursement by the state.

The chairman of the Center for Legal and Social Protection of Citizens of Ukraine Sergey Lysenko

Head of NGO "Center for Legal and Social Protection of Citizens of Ukraine", Candidate Factory, Associate Professor, Retirement Colonel Sergey Lysenko reported the Armyinform correspondent that special attention was paid protection.

The imperative of the formation of positive motivation, the participants of the round table, in addition to patriotism and public respect, called decent financial support during the service and after retirement, which should fully compensate for the military service, the risk to life and health, to guarantee their health and health. psychological expenditures and ensure proper maintenance of families.

It was also about eliminating the dissatisfaction of servicemen with residential, medical and material support and efficiency of functioning of the adaptation of military personnel dismissed or resignation. In such conditions, it is necessary to review the legislative framework, first of all, its ability to attend directly in the field of social protection of servicemen and members of their families.

ARMIRINFORM

The North Atlantic Alliance has undergone a certain evolution in the

understanding of what is a defense, restraint, and how to respond to security challenges. The beginning of the Russian aggression against Ukraine in 2014 from the occupation of Crimea and the beginning of hostilities, Nadonbass led to conceptual changes in NATO.

More about NATO changing its approaches to security, said a tribal interview for the ArmyInform CEO of Rasmussen Globalfabris Potier, who previously formed the Alliance Development Strategy. The first part of the NATO summit in Wales 2014 and whether 2 %of GDP costs are enough.

*!Saint-Kanen-Ivelin, Versel University of Versel University and Metropolitenlondon University. In 2007-2010 he was the founding director Carnegie Europe. In 2010-2016-the head of the NATO Secretary General Planning Office. Since 2016 - CEO of Rasmussen Global.____

- What do you think about NATO transformations during Russian large - scale coordination of Russia to Ukraine? How did the war change alliance?

- I think there were two speakers. First, when NATO for the first time in the latest history began to revise their concept of nuclear restraint. This was really a reversible moment. When I joined NATO in 2010, there was an analysis of defense and nuclear restraint, but very few people were ready to talk about nuclear restraint as such.

NATO leaders at Chicago Summit 2012

In 2014, there was a moment when NATO had to rethink these terms to re - reinstall them. So, I think, in the conceptual, intellectual development, it was the discovery of the concept of nuclear restraint. NATO had to defile its

position in the European territory against what it has argued as a greater threat to Russia.

And the second dynamics is that, apparently, a much minority was carried out, which were needed to restrain Putin. As we are unfortunately the field in 2022, eight years he made it again (_ stopped on Ukraine. —The ed.)_.

And that means that in some way NATO's restraint and defense measures have been partially seized. Yes, the Alliance managed to protect its territory, but the plans of holding were failed, including sanctions that did not change the behavior of the putin. Therefore, I think it was an important lesson in 2014. - If you look at [the strategic concept of 2010](#), it was a truly attempt to find a balance between three main tasks. Namely collective defense, foreign missions and new security threats. But very quickly, since 2014, the concept of 2010 was crossed out by the first Russian aggression against Ukraine.

Active Engagement, Modern Defence

Strategic Concept

for the Defence and Security
of the Members of the North
Atlantic Treaty Organization

Adopted by Heads of State and Government
at the NATO Summit in Lisbon
19–20 November 2010

And I started editing a strategic concept. You know when a Word is viewed to

see what can be changed, which is completely complete. And how NATO characterized relations with Russia, obviously, it was more strategic partnership.

I think that the balance between the above three main tasks was also impossible.

The main task was the collective defense of the Alliance. And then we began to combine other activities around the defense, including new threats.

- Why NATO Wales Summit in 2014 became historical?

- I think it was the first point when NATO returned to Europe both as a waoperative and philosophical sense. It was the first summit to which it was considering its main mission in Europe. The value of the latter was not the main among the priorities of the Alliance.

And I remember the meeting in the North Atlantic Council (*NATO's main political organ. - Ed.*) , on which we discussed how to build a territorial defense and what weapons need to have. But then new gaps emerged strategic planning, such as mobility.

NATO had a new brilliant solution after Wales _ --_ a plan of readiness. The Equati argued that more than 40,000 NATO forces would be almost

constantly being deployed on the eastern flank. But for a short time, they had to be deposited with additional alliance forces.

We have realized that there were no legal arrangements to quickly overwhelm NATO forces.

Part, if you want, rethink an alliance called "Readiness Action Plan", agreed at the Summit in Newport(Wales)In the United Kingdom, which became a truly molding summit. Because at that time, NATO allies discussed the teaching of foreign forces about Afghanistan. Instead, the Alliance did not speak prokelive defense and nuclear restraint in the European territory.

The summit in Wales was the first of a series of summits, where the topics of discussion are collective defense, nuclear restraint and Russia. And the trend persists. - Yes, it was a heavy battle. I prepared the initial Atlantic Declaration. The intervals were difficult, especially with Canada and Germany. The then Canadian Prime Minister, Stephen Harper, was a fiscal hawk, which was compounded for money for 2 % of GDP for defense. And then many other countries hid the borrowing of Canada and Germany, because it was convenient.

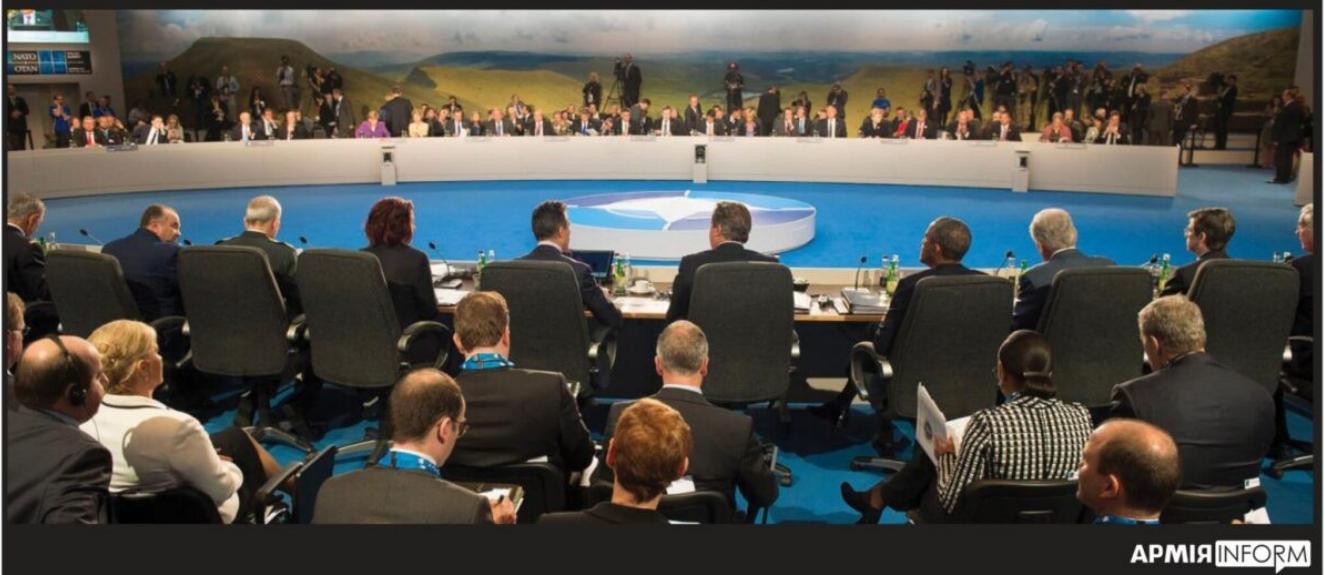

As a result, we received a text with a typical diplomatic language where there were many of the magnitude.

However, we can call it success. Why? Because for the first time, such a requirement was presented for approval to the heads of state.

Саміт НАТО в Уельсі

- Затверджено План дій готовності НАТО
- Створено ініціативу НАТО з розвитку потенціалу безпеки
- Орієнтир витрачати мінімум 2% ВВП на оборону за період до 2024 року

АРМІЯ INFORM

The main results of the NATO summit in Wales/ Army Infographic

And that was my initial idea when Anders Fog Rasmussen (*NATO Secretary General U2009-2014. - Ed.*) announced her. In fact, 2 % of the cost of defending in the past, and even 3 % during the Cold War.

- What is the result of this obligation now?

- first, there are two people who have forced to increase NATO's costs for defense _ --_ Vladimir Putin and Donald Trump. In a crazy way but trigger became(aggressive)Putin's actions against Ukraine. Therefore, many European countries have acknowledged that they need to increase defense and ability.

And then Donald Trump (*In 2016. - Ed.*) was elected President of the United States. He began to distort the idea that the US obligation to NATO - is the investment in defense. And it caused another shock in the Alliance.

NATO countries are still not achieving the goal, so now we can only talk about the seven units that have 2 %. I think there are ten countries that are close to this purpose or reach it by 2024.

When you look at the overall situation, you can give the argument a projection already 3 %. And I know that on the eve of the Vilnius Summit in NATO there were disclosures to have a target of 2.5 % as new 2 %.

This is a discussion to have 2 % not as a maximum but a minimum. NATO has the opportunity to go beyond the boundaries of 2 %. But the Alliance countries do not yet have the necessary expenses. And this is evidence that Europeans have not yet set defense on the first plane of their priorities, knowing the world we live in.

Today, the Hague has announced the creation of an International Center for Investigation for Crime Aggression against Ukraine. In general, the issue of

bringing the reference of Russian military criminals is among the main priorities of Ukraine and foreign partners. Therefore, it is important to understand the legal mechanisms of the process.

The correspondent of the Armyinform, while in Brussels as part of the EU's response in Ukraine, recorded an exclusive interview with the European Commissariat Didier Rainerders about the Roman Statute and Ukraine and how it is possible to condemn Russian military criminals.

- Why is the ratification of the Roman Statute by Ukraine is crucial for investigating Russian military crimes? **

And this is very important for all participants in the process. This is the first reason for such a reclamation country as Ukraine, as a candidate country for entrance to the EU, very importantly participate.

I repeat all the time that the Verkhovna Rada of Ukraine has come time to ratify the Roman Statute (*Ukraine has signed in 2000, but not yet ratified. - Avt.*) .

The second reason why it is important to do because if you ask to apply_(against Russia. - Ed.)_ International rules, you also need to eat with them in Ukraine. I know that military crimes in Ukraine have been committed by the Russians.

The International Criminal Court

The first permanent court set up to try those accused of:

- War crimes
- Crimes against humanity
- Genocide

The world map showing the status of the Roman Statute

I cited an example when they send the UN peacekeeping mission to another country and is shaking war. And then it is worth making sure that persons who committed war crimes, for example, will be punished against women and children.

Because if the country is involved in the international process, international jurisdiction, it is easier to come to court with more and more countries that we need to support Ukraine. In this way, a tribunal will be created on the crime of aggression.

Therefore, the ratification of the Roman Statute by Ukraine will, of course, help organize investigation, persecution and condemnation of Russians responsible for these crimes.- Starting from February 24, 2022, Euras (*The European Union Agency for Criminal Justice Salvation. - Avt.*) tried to create a duplicate mechanism based on existing tools. Eurosta plays the role of intermediary between prosecutors of different countries. So two things were done.

You know that because of Russian aggression in Ukraine it was difficult to obtain digital division. So, we changed the position in euro. Now Euras has

created the Basudans to collect all evidence and exchange them between prosecutors of different EU Member States, the International Criminal Court in Ukraine-everywhere. This is the first step.

Read also:

[As the International Criminal Court arrests Putin](#) The next is the organization of skillful coordination of actions. So, we have a joint investigation, that is, a specific team with prosecutors of the EU Member States, Ukraine, the International Criminal Court. There is a good cooperation with our American colleagues for data exchange, investigation and judicial reversal of war crimes. A joint investigative group - the third part - will now be the International Center for Pursuing Crime Aggression against Ukraine.

It is not only about war crimes, crimes against humanity or genocide, but also a crime of aggression. There is an opportunity to gather evidence and prepare the prosecution research group. Such a role is given to European.

In addition, Eurasa gives the ability to work together. We have meetings of prosecutors between participants from different countries of the world and, of course, from Europe.

Eurost plays a central role in the development of the process, as there is a collection of collection and organized coordination between prosecutors.

- What is your position on the chances of bringing Russia to justice comprehensive violations of international law?

That is why we try to work on a crime of aggression separately. But now the ICS will talk hard about specific violations of certain conventions. We try to give all the support to get more evidence of a violation.

My work is to provide all opportunities and tools to the prosecutors with judges to perform their work, investigate, pursue and judge military warriors. - **What is your position on investigating the crime of Russia's genocide anti -Ukraine?**

It is clear that they do everything possible in the ISS for investigation.

**PROSECUTE
#RussianWarCrimes**

Що таке воєнні злочини?

Це порушення законів та звичаїв війни (серйозні порушення міжнародного гуманітарного права)

Щодо цивільних осіб:

- ▶ поранення чи вбивство
- ▶ катування, фізичне насилля, згвалтування, нелюдське поводження чи позбавлення волі
- ▶ взяття в заручники
- ▶ насилия щодо медичного персоналу
- ▶ використання для прикриття військових (живі щити)
- ▶ депортації та незаконне переміщення
- ▶ примушування громадян до участі у військових діях проти власної держави

Щодо невійськових інфраструктурних об'єктів:

- ▶ пошкодження або знищенння цивільної інфраструктури
- ▶ знищенння культурних та освітніх закладів
- ▶ пошкодження медичних установ, транспорту, обладнання
- ▶ пошкодження/знищенння культових споруд (храмів, мечетей, синагог тощо)

Щодо гуманітарної допомоги:

- ▶ відмова чи позбавлення доступу до медичної допомоги
- ▶ умисне нанесення ударів по персоналу, транспорту, обладненню пов'язаному з наданням гуманітарної допомоги

А також:

- ▶ використання окупантами цивільного одягу, однострою ЗСУ, емблем гуманітарних та медичних установ під час військових дій

Of course, when you talk about genocide, it is more difficult to investigate in comparison with military crimes or crimes against humanity. But in the hands of the ISS this is possible, because in the Roman statute there is the ability to work on various crimes.

Yes, it is a crime of aggression under the Roman statute. But this situation cannot be put into effect, I explained because of the specific situation of Russia (*The Russian Federation signed, but was unattractive, and in 2016 Moscow withdrew the signature of the document. –Aut.*).

Але можливе і розслідування справи про геноцид. Я не випадково сказав, що ми почали дискусію на початку березня минулого року з Євроюстом і «Мережею геноциду» (*Eurovist network for investigation and judicial persecution of genocide, crimes against humanity and war crimes. - Avt.*) . We want all available tools.

I just want to be sure that all the prosecutors responsible for the formation of the position could go to the court where they already have to make a decision.

You know that in the past it was the most sufficient decision in the event of investigation of the crime of genocide in Rwanda and former Yugoslavia. In Ukraine, Eco -Comand of the ISS.

Even during the war, we intend to create a reliable decision to be sure that during life, military criminals should know that there is a risk to be a court or a tribunal.

- What are your impressions of cooperation with Ukrainian colleagues?

If, exactly a year ago, when Ukraine was in service with only anti -aircraft missile complexes of Soviet production, the Officer of the Air Force Command Considenis Druzhny explained that "the problem of air defense is one more

serious, it is necessary to be re -armed, there is no other way out," today the firing is commenting on the state of Ukraine. It notes that the number one is currently increasing the number of recent weapons:

Denis Skodzhizh notes that at dawn on February 24, 22, firmly approved to destroy everything they saw in the air. However, now this decision is supported by a serious argument in the form of powerful air defense complexes.

-If at the beginning of the war we knocked a third of the calibers and the X-101 missiles, then it was considered a great success at that time,-says the officer. - Today we make 80 percent of such goals, and in some cases we demonstrate the ratio. This is the merit of not only anti -aircraft groups, but also mobile groups, fighter aviation and other structures and troops. We work for the result!

And although now the experts are not for celebrations, and to relax through constant nighttime attacks, the anti -aircraft attacks rarely succeed, Denis Pasti promised: "Let's win!And then we will rest!And we celebrate!".

There are many criteria for evaluating events on the front, one of them is that in the east of Ukraine, from January, Russian troops have not advanced as they planned.

About it on the air of the nationwide TELEXON "The only news" of the Talazalaspanpian of the Minister of Defense Anna Malyar, Ukrinform reports.

"Since January, the main directions of the enemy's offensive are Eastern - Avdiivsky, Maryansky, Kupyansky, Liman.([https://www.ukrinform.ua/tag-bahmut](https://www.ukrinform.ua>tag-bahmut))where they can also do nothing. They did not take control of the city and could not get out of it, by the way, too. We make it a dynamics, but somewhat different. The enemy cannot move that slyvin does not use. They threw out a huge amount of equipment, weapons, and a huge number of people were killed. The many months of Bakhmut's battle for them is a bustard, and they did nothing. Therefore, when we say that the fighting is ongoing, or in this direction there is no advancement, it does not mean that there is nothing there or that it is someone's shortage, " - said Malyar.

The Deputy Minister noted that the effectiveness of the defense forces is measured not by the distance, which managed to move forward, or the number of released points. Another criterion she called the number of enemy -destroyed personnel, the number of equipment, places of compact crowd of Russian military.

"If all this was not destroyed, it would go to us. Two weeks in a row and half a day, and in the east, our military destroy about 100 places of compact - sighing of Russian military. These are those military who could go here and go. Less than 10 points of management every week, from where weapons come from, UAV, every week about 20 warehouses of enemy weapons. And the equipment. Last week only in the southern direction of our Naztupli, 10 units of enemy equipment were destroyed, " - said Malyar.

He noted that he personally discussed this issue with the Pontiff.

The Italian Cardinal visited Moscow last week, and was previously in Kiev.

In the Vatican, Cardinal efforts are characterized as "aimed at identifying humanitarian initiatives that could open ways to peace."

Talking to the Italian public broadcaster RAI on Sunday, Cardinal Zuppi said that he was not working on a "peaceful plan" or "mediation" between Ukraine Moscow, noting that he was simply focusing on "humanitarian aspects".

The training of life safety measures is one of the priority tasks for the SES of Ukraine. In our country there is a war, and everyone should know and clear the necessary actions in the event of explosive and suspicious subjects.

About this [reported](#) on the site of the SES of Ukraine.

Therefore, rescuers of Chernihiv region, in order to teach the population to resist the risks associated with explosive objects, and how to act in the event of a threatening emergencies of a military nature, created a mobile variable security class that has started their work days.

Thus, during an on -site lecture in one of the communities of Chernihiv district, rescuers carried out an explanatory work to teach the audience and remind the right -by -safety of life. With the help of 3D-makers, emergency officers told the more common types of explosive objects: their types, consequences of carelessness, and also told the basic requirements in the event of suspicious subjects. Citizens were emphasized that it is possible to come across a dangerous find, because the explosive can be masked into toys, bright packages, household items, etc., so it is necessary to be as careful and careful as possible.

To all present rescuers handed out thematic monuments, booklets, paintings of the UNCEF Ukraine Children's Fund.

Now the world must be aware that the joint safety depends entirely to the off - global attention to the actions of the invaders at the station. Russia must be clearly aware: the world sees which scripts are preparing to be terrorists, and the Svetrozhtovy react.

The President of Ukraine Volodymyr Zelensky said this in his address at the end of the 496th day of the war, Ukrinform reports.

I wish health, dear Ukrainians, Ukrainian women!

He has just completed the conversation with Mr. French President Macron, and this is the third international negotiations for today-after talking to the Secretary-General and the Prime Minister of Sweden. The main thing is our defense, front, weapons, the capabilities of our warriors, and I am grateful to partners for understanding our needs. We were given new defensive packages, and, by the way, thank you, Emmanuel, for that something today began to come and weapons we agreed on , Rockets, tanks.

But, of course, they also talked about more strategic things - about which the security foundation of Europe will be after this war and our victory.

In order for the world to come faster and to be long, honest, true, Russian evil must not be the line for the Kremlin's ambitions. We are all the free European nations, all in our Euro-Atlantic community, not Russian terrorists and any of their blackmail and aggression.

We add the content of the NATO summit daily, which will take place in Vilnius of the Venan Week, and I am grateful to all our partners who work together with the web strengthening of the Alliance, and therefore, for safety in Europe - real safety. Today, talking to France, with the Prime Minister of Sweden and See and General, coordinated our steps in front of Vilnius.

He also held several meetings with government officials and our team of office internationals on training for foreign policy activities that will take place in the near future.

It is very important - about the situation at the Zaporizhzhya nuclear power plant. Now all the light is conscious that the common safety depends entirely on global consumption to the actions of the occupiers at the station. Russia must be clearly aware: it is a light to which scripts are preparing for terrorists, and the world is ready to react.

Radiation is a threat to all in the world, and the nuclear power plant must be completely supported from any radiation incidents. Today, exactly 16 months, as Russian military, fully control the territory and structures of the Zaporozhye NPPs. In different states of the world there are their own intelligence and other opportunities to accurately recognize what is happening and who is guilty of it. Now, from our intelligence, we have information that on the roof of several Gergers of the Zaporizhzhya Nuclear Station, Russian military

placedly -led with explosives. Maybe to simulate a stroke on the station. They may have some other scenario. But in any case, the world sees-and cannot feel!- that the only source of danger to the Zaporizhzhya nuclear power plant is exactly Russia. And no one else.

Unfortunately, there was no timely and large -scale response to a terrorist attack against the Kakhovsky hydroelectric power plant. And it can inspire the Kremlin to a new evil.

To stop it is the duty of everyone in the world, and no one can leave the scene, because radiation leaves no one away.

I thank Mr. Macron for his attention to the situation at the ZPP and for his willingness to do everything he needed to guarantee safety.

One more.

Today, Russia has once again hit Kharkiv region, in the city of Pervomaisky. Iskander is likely. Eight ordinary high -rise buildings were damaged. More than 40 people have been injured, 12 of them were children, two were babies, they have less than a year ... As of this time, rescuers, together with police officers, still carry out the trading homes. Everyone who was injured in this missile blow will provide the necessary help.

And for this blow the enemy will be responsible, as well as all other blows.

Russian terrorists want to become model in how they destroy their lives. We will be model in how life we protect and how life replies - fairly and inevitably - every stroke of every terrorist.

The Nazis tried to escape from justice. Quite a long time. But many of them have been found and are still held accountable. We catch the racists much faster.

By the way, now I will still have a meeting with the Interior Minister Klimenko Taerivist to the baby's security service - and about the new challenges of our security, a common situation. There was also a meeting today with intelligence ...

We know how to put terrorists in place.

Thank you all our soldiers!

Glory to Ukraine!

People's Department Sergey Alekseev, who, on the eve of the Lychakiv Court of Lviv, chose a measure of detention in the form of detention for 60 days, left the pre -trial detention center after making a bail in the amount of UAH 2.264 million.

He reported this in a comment [public](#), reports Ukrinform.

"The pledge was made for me by my friends and colleagues around 6:00 pm(July 3 - Ed.). Одразу я не вийшов, вийшов 4 липня близько 13 години. Справи там немає, кажуть кращі адвокати. Це виключно "підстава" опозиційного депутата. Далі ми будемо відстоювати: йти або на виправданний вирок, або на закриття справи", — заявив Алексєєв.

As reported by Ukrinform, on July 3 [Lychakiv District Court of Lviv Obravable West by the People's Deputy from the European Solidarity Party Sergei Alekseev](#) - 60 days of detention under guard. An alternative to arrest was the pledge of 2 million 264 thousand UAH.

The Prosecutor General's office informed Alekseev of suspicion under Part 4 of Art. 190(fraud) Criminal Code of Ukraine. He can threaten 5 to 12 years of confiscation of property.

According to the investigation, the deputy took possession of the money of the citizen. It is \$ 50,000.(1.8 million UAH). Він нібито обіцяв іноземцю сприяти в уникненні екстрадиції, для цього «гарантував» використати власні звязки в суді. Правоохоронці зафіксували, як Алексєєв одержав 30 тис. дол. Перед цим він отримав ще 20 тис. дол.

Під час суду Алексєєв заявив про політичні переслідування. Він стверджує, що ці гроші – оплата адвокатських послуг, а справа проти нього сфабрикована.

Сергій Алексєєв – заслужений юрист України, раніше працював у Енергобанку, очолював юридичний департамент у Київенерго. У 2005 році був юридичним радником міністра палива і енергетики, а також помічником депутата Людмили Кириченко.

Kiev Ivarshava cannot avoid the topic of complex history, but it should not be become in bilateral relations.

On this in [interview Ukrinform](#) Poland's expander Alexander Kwasnevsky emphasized, talking about the 80th anniversary of the Volinsky tragedy.

"This topic cannot be avoided, but it also cannot be a major two-way relationship," Kwasnevsky emphasized.

He noted that on the 60th anniversary of this crime (In 2003 - ed.) Ukrainian and Polish sides organized memorial events in Pavlovka (Volyn region - ed.).

“Мені здається, що на 80-річчя цих трагічних подій I must say the words that said the head of the Verkhovna Rada Ruslan Tefanchuk during a speech in the Diet (May 25 in Warsaw - ed.). Це має бути спільне вшанування жертв, підкреслення, що таке ніколи не може повторитися, і заклик до дій заради примирення”, - наголосив експрезидент РП.

Він висловив сподівання, що на дипломатичному рівні, між канцеляріями Президентів України й Польщі ведеться робота, “аби знайти в цьому році розумну формулу вшанування жертв”.

"In Kherson and Mykolaiv region, the first 23 soil samples were selected. They are selected during the work in the areas where water has completely sleeping. Studies allow to establish the level of soil contamination. Among it,

the presence of toxic substances in it and the level of parasitic fatigue," the statement said.

The Ministry of Health notes that flooding of objects such as cemeteries, toilets, fields, landfills, as a result of the blasting of the Kakhovka hydroelectric power station caused the risk of pathogens of viral hepatitis, helminthiasis and other acute infectious diseases.

*!(<https://www.ukrinform.ua/rubric-regions/3731339-na-pravoberezzi-hersonsini-zalisaetsa-pidtoplennim-odin-naselenij-punkt.html>)According to the Ministry of Health, as of July 4, 95 % of samples meet hygienic requirements. In 5% of samples selected in the River Port area Kherson , exceeded by parasitological indicators. These are helminth eggs and intestinal cysts that can cause gastroenteritis or dysentery. Cynfection diseases are transmitted through contact with contaminants.

In order to prevent probable infection, it is important for people to avoid contact with polluted soil, in particular during the cultivation of land for agricultural products, as well as not to consume contaminated vegetables and fruits and not to use water of wells in the contaminated area.

Explanation with the population on the prevention of infectious diseases and CKPC poisoning is carried out daily during the departure to the communities.

The Cabinet of Ministers has made changes to the specifics of the ProZorro Market, and now the solemn time for the procurement will be the request of proposals.

According to Ukrinform, the relevant decision was approved by the Government on July 4, 2023, reports [press service of the Ministry of Economy](#).

«Ми провели дослідження для того, щоб спростити роботу усіх користувачів вProzorro Market. Опитавши замовників та постачальників, ми внесли ряд вдосконалень. Основна докорінна зміна полягає в тому, що тепер усі закупівлі вProzorro Market будуть відбуватися через запит пропозицій. Інструмент запиту пропозицій у Prozorro Market, як і раніше дозволить замовникам швидкозакривати свої потреби без підготовки тендерної документації», - пояснила заступник міністра економіки Надія Бігун.

Читайте також: [Упродовж п'яти років у Prozorro .Продажі](#)

[оголошували 17,5 тисячі аукціонів малої приватизації](#) She noted that on average, such a purchase will last up to 10 days. In addition, the VZamovnik will always receive favorable offers, because he will receive an order that will be able to offer the best price

Previously, when purchases up to 100 thousand hryvnias it was possible to make direct orders of the catalog. In fact, the purchase process was similar to the purchase of a conventional online store. However, research and surveys of users have shown that these prices did not always correspond to the availability of certain goods of suppliers. Therefore, the request allows you to receive more current business proposals and better prices.

Therefore, from now on, the customers who have decided to buy the required product from ProZorromarket, regardless of the amount of purchase, should announce the request and specify the order characteristics of the order. And then the suppliers will be clearly aware of the conditions of supply and will give the current price for specific conditions of the costing.

If the value of the goods is over UAH 500 thousand, then in this case the request must contain information about the characteristics of the product and their allowable values according to the directory profile. There is also a condition that this case should be at least two proposals from suppliers.

In order to reduce manipulation by suppliers, the requirement is required to provide an obligatory projection of the contract in the request of the proposal. The customer is also given the right to reject the winner's offer if he refuses to sign the contract and proceed to the consideration of the next one.

*!(<https://www.ukrinform.ua/rubric-economy/3726748-u-travni-cerez-prozorro-opublikovali-zakupivel-na-121-milard.html>) In the new order of procurement,

the concept of procurement profile is removed, instead, the concept of technical specification is introduced. This should be removed by some foolish understanding that has arisen when communicating the product.

As reported, Prozorro Market administrators are three centralized organizations. Professional purchases are filled with consumer catalogs, medical procurement of Ukraine - medicines and medical products, SE "Ukrainian Special Systems" - computer equipment and software. Today, the range of Prozorro Market has about 90 thousand works of 3 thousand skilled suppliers.

Colpsrosia is a matter of time because the Federal Center has shown its inability to have a basic issue - security. Therefore, in the West, in particular in Europe, it is now occupied by what the scripts of the collapse of the Russian Federation can be.

This opinion expressed [Ukrainian radio](#) The President of the Center for Globalism "Strategy 21" Mikhail Gonchar, commenting on the statement of the NSDC Secretary Oleksiydanilov, that the event should prepare for the

collapse of the Russian Federation, because Dictator Vladimir Putinvated control over his country, Ukrinform reports.

According to the expert, the Russian Federation is not mono -ethnic and not a mono -confessional state. It is a conglomerate of different peoples, ethnic groups with different denominational parameters. The term "federation" in the name of this country does not correspond to the real state of things.

Therefore, it is possible to hold all this conglomerate for a monolithic state for a long time, but not all the time, Gonchar notes.

*!(<https://www.ukrinform.ua/rubric-politics/3728310-u-es-rozgladaut-scenarij-rozpadu-rosii-posol-ukraini.html>)In his opinion, the collapse of Russia is a matter of time, as evidenced by the studies. "In 2021, the topic of Russia's collapse was perceived as exotic imarginal. In 2022, this issue was already discussed. In 2023 we see, for example, that serious studies began to be published. In particular, the work of Janusz Bugai was recently presented State. Instructions on Rounding Russia ", which refers to scenarios that may have a place in the event of its collapse, which is not considered as such" will be or will not ". The question is only the time when it happens. Last week in Slovakia, a book of prominent Slovak was present in Slovakia Futurologist Yurai Mesika "2023: Ricmate of the Russian Empire. Of course, including the scenarios of the prolongation of the Putin state, the repressive state, but with the understanding that the potential existence is completed, " - explains the expert."It is not quite correct to ask whether the Russian collapse will take place this year, or next or 5 years.

In his opinion, also the issue of time - when the subjects of the Federation after the rebellious reception will begin to make at the local level certain decisions related to ensure the stability of the "Federation" subject, understanding that the Federal Center showed its inability in the basic question - security.

"So, since the war is absorbing more and more resources, somewhere in Yakutia and in the European part of Russia will be more and more aware of practical decisions" just in case ". It will not be immediately open -minded against the federal center, because it is still powerful. But the fragility of the Federal Center does not take advantage of the lazy, "the expert summed up.

As reported by Ukrinform, Secretary of the Security and Defense Council of Ukraine Alexeydanilov in a speech at the International Conference "Ukraine and NATO of the Prednivnia Summit: on support through the victory of

membership" stated that the interruption of the rebellion of the leader of the PEC "Wagner" Yevgeny Priggin started his transparent. Responsible political politicians.

For its part, the Ambassador of Ukraine to the EU Vsevolod Czentsov noted that the Veuro-European Union has long been a discussion on the actions of the European Community and Member States for various scenarios of events in Russia, including the collapse of the Russian Federation.

The Russians have disseminated on social networks fake information that allegedly on the night of July 5 could attack the Zaporizhzhya NPP with drones.

Andriy Yusov, a representative of the Main Intelligence Directorate, reported this [Channel 24 commentary](#), reports Ukrinform.

The GUR MO emphasized that new exclusions of Russian propaganda regarding the situation of Nazaposhi NPP are "a primitive and false IPSO." Information that Ukraine may allegedly attack the territory of the NPPS, of course, does not meet reality. Yusov stressed that such fakes are related to several aspects.

*!(<https://www.ukrinform.ua/rubric-economy/3731392-zaes-vtratila-zivlenna-z-osnovnoi-linii-elektroperedac-magate.html>) On the one hand, it is a response to a wide information campaign, which will be Ukrainian in the world with the coverage of Russian invaders in the territory of the Zaporozhye NPP and other critical infrastructure. In addition, Ukraine constantly highlights the facts that can testify to the preparation of the next thermal, such as the destruction of the Kakhovka hydroelectric power station.

However, on the other hand, according to Yusov, such informational campaigns and pins can be conducted as preparation and information cover for true terrorist actions.

"But now we do not see any significant change at the station. However, it is worthwhile to vote that the station continues to be under the control to complete the preparation for the terrorist attack. But it is now about raising the degree of nuclear space, conducting IPSO in order to sow panic in Ukrainian society to reduce Ukrainian defenders," Yusov said.

The Kraken Uspecs are convinced that the blow to Pervomaisky in Kharkiv is related to the funeral of their brothers Oleg Fadeenko on the pseudo "Malysh", who died in a hospital from a wound under Bakhmut.

He wrote about it in [telegram](#) Chief of Staff of the Special Forces of the GUR Kraken Konstantin Nechichev, reports Ukrinform.

"While farewell to our brother Oleg Fadeyenko Rusnya struck a rocket launcher on Pervomaisky in [Kharkiv region](#). Nothing new. No honor. Instead of fighting the War, they continue to beat the civilian population. There was a hunching, which is at all 800 meters from the venue. However, it was a purposeful blow to people who came to say goodbye to Zoleng, because during the whole war it is the third arrival in the city," said Vichev.

Farewell to Kraken, who served in Kraken, and later in the 3rd OSHB, was reported publicly by local authorities - as in the case of other dead defenders from Kharkiv region.

"I knew him from a teenage age. He grew up, courageous in my eyes. As if he lives according to his separate rules. He was the embodiment of justice in power. He was in the way to master the temperament, put it in shackles, keep it on the chains and release his Kraken to fight evil. But the damned warfare of his life. Wad in peace. You have done a lot in this life. Your law will live forever," he wrote the day before in [Facebook](#) Mayor of Pervomaisk Mykola Baksheev.

The first lesson, in his opinion, is that the aggressive war against Ukraine Vladimir Putin's weakening is much more than many observers thought. "Angry 2022, it seemed to continue or even strengthened his authority, despite some devastating defeat of the Russian army in Ukraine. At the same time, the viewing was reported that the Russian economy was not(still) Seriously affected by the war. The rebellion of Prigogine and the fact that almost no force has resisted the capture of the main Russian headquarters in the war of anti -Ukraine, as well as then - the march to Moscow, showed the entire depth of split by the Urosian army and in the state apparatus, "Borsel wrote.

"This is another reason why we must continue to support the Armed Forces in the withdrawal of Russian troops away from the country. The victory of Ukraine is the best way to achieve a just peace, based on the international right that Ukraine needs and deserves. Such peace can also open the

process of change for Russia, which is a prerequisite for a long -haired shape. Russian history shows that when the changes occur, they can quickly. We have to be prepared for this, "Borrel said.

It was reported that on June 23, a military rebellion took place in Russia, during which Wagner group seized a military headquarters in Rostov-on-Don, installed full control over the city and moved to Moscow, without meeting almost no lineage, except for the task of air strikes by government. strength. Finally, the leader of the Wagner PEC Yevgeny Prigogin abandoned his plans, a jerk "unwillingness to shed Russian blood." Meanwhile, the large - scale arrests of the Russian generals indicate that the rebellion was a wider plan, the knife of the head of the Wagner group himself.

International Warning Group on Sanctions against Russia, headed by Presidentandri Ermak Head and Director(FSI)Ambassador Michael McFol presented a new document to strengthen the sanctions of the Anti -Russian MIC.

According to Ukrinform, it reports [Presidential Office](#).

International Working Group on Sanctions Against Ermak-Macfola, Presentation Report(№ 12), aimed at limiting the access of Russian MIC of dozid technologies.

The head of the head of state stated that this document contains a conviction of how the Western components continue to contribute to a full -scale invasion of the Nazi and the war against Ukraine. The Russian Rocket X-101, which killed 11 people, including one child on June 13, in the five-storey residential building Kryvyi Rih, contained 53 critical components obtained by outmodic countries, Yermak reminded.

"In the case of their implementation, we will substantially limit Russia to produce noviracks and replenish our arsenal," Yermak emphasized.

He stressed that in the second half of 2022 it was able to restore and even exceed the extent of the exquisite level of import of critical components for the production of variant weapons.

"All the information contained in this report, and we have passed all the evidence to our international partners, and now we expect decisive, quick and effective actions," Yermak reported.

In particular, the micro -chips of Western production have been discovered in each type of type, which was investigated by Ukrainian authorities.

The analysis of 1057 foreign components of Russian military equipment produced 155 companies demonstrates that access to critically important Western technologies from the beginning of the 2022 war and the first quarter of 2023 is in the chain of military deliveries.

The research has shown that critically important components found on the battlefield last year are contained in a wide range of weapons, including rockets, armored vehicles, artillery, helicopters, HRB, etc.

"For 155 companies whose products were identified in Russian weapons, in 2022 it accounted for \$ 2.9 billion. At the same time, the supply is almost completely due to third countries, "said the Secretary of the International Expert Group on the Sanction Uvladyslav Vlasyuk.

The report was prepared by representatives of the International Working Group of Yermak-Makfola of the Takyiv School of Economics.

The International Working Group on Sanctions Against Russia works on behalf of the President of Ukraine Volodymyr Zelensky.

The OSCE Parliamentary Assembly recognized the Russian Federation with sponsor-terrorism, and Wagner PEC was a terrorist organization.

A member of the Ukrainian delegation at the OSCE PA, the deputy chairman of the Servanarod faction in the Verkhovna Rada Yevgeny Kravchuk reported on [Facebook](#), reports Ukrinform.

Kravchuk noted that on Tuesday, members of the OSCE Parliamentary Assembly approved a summary declaration. According to her, the document states that terrorism will develop one of the greatest threats to international peace and security, and the actions of the Wagner PEC on behalf of the Russian government can be fairly characterized by terrorist. In this context, it is emphasized that Russian President Vladimir Putin personally acknowledged that the Wagner group was fully funded by the Russian Federation.

US Federal Directorate(FAA)It gave a startup from California Alefaeronautics Inc permission to develop and test the first electrical transport tool that can both ride on the road and fly.

About it reports [CNN](#) , reports Ukrinform.

The regulator stated that he issued Alef Aeronautics Certificate of Flight suitability for a limited set of tasks - for research, development and exhibitions.

Alef Automotive has stated that its Model A is the first flying transportation facility to travel public roads and park as an extraordinary car. It also has the possibility of vertical takeoff of the cam.

It is assumed that car will accommodate one or two passengers and will have a margin of up to 320 kilometers on the ground 180 kilometers in the air.

The company notes that the volatile car will be certified as a "low -speed vehicle", which means that it will not be able to move faster than 40 km/h. "It is assumed that if the driver needs higher speed, he will be able to flight," - said in the press release.

FAA stated that many developers are now working on creating vehicles with vertical takeoff and landing(VTOL). Однак транспортний засіб компанії Alef Aeronautics відрізняється від інших здатністю функціонувати як на дорогах, так і в повітрі, при цьому схожий на звичайний автомобіль та може паркуватися на автомобільних парковках.

The high representative of the EU commented on the lessons that the European Union and the World Security Committee should be taken out of attempts by the military rebellion that the Russian state.

According to Ukrinform, about it in its own blog [on the website of the European External Action]]([https://www.eeas.europa.eu/eeas/what-conclusions-should-we-draw-prigozhins-mutiny_en?](https://www.eeas.europa.eu/eeas/what-conclusions-should-we-draw-prigozhins-mutiny_en?channel=eeas_press_alerts&date=2023-07-)

04&newsid=0&langid=en&source=mail) The high representative of the EU Josep Borrel wrote.

The first lesson, in his opinion, is that the aggressive war against Ukraine Vladimir Putin's weakening is much more than many observers thought. "Angry 2022, it seemed to continue or even strengthened his authority, despite some devastating defeat of the Russian army in Ukraine. At the same time, the viewing was reported that the Russian economy was not(still) Seriously affected by the war. The rebellion of Prigogine and the fact that almost no force has resisted the capture of the main Russian headquarters in the war of anti -Ukraine, as well as then - the march to Moscow, showed the entire depth of split by the Urosian army and in the state apparatus, "Borsel wrote.

*!(<https://www.ukrinform.ua/rubric-ato/3731386-u-rozvidci-vvazaut-so-prigozin-u-bilorusi-buvatime-ale-ne-bazuvatimetsa.html>) He recalled that on June 27, Putin for the first time publicly acknowledged that the Wagner Group really received massive support and financing by the Russian state. According to Borrel, Putin created a monster, and now this monster began to bite himself. The fact that a group of mercenaries funded by the state opened fire to a regular army demonstrates the degree of pathology of Putin Russia.

The high representative of the EU called "symbolic", which before the planned rebellious Prishozhin opposed the official narrative, which the Kremlin uses in attempts to go to the war, and denied any reports of aggressive Planikiev or NATO. Instead, he accused the Defense Minister Shoigu of spreading for the sake of personal ambitions. Now the world must be aware that the joint safety depends entirely to the off - global attention to the actions of the invaders at the station. Russia must be clearly aware: the world sees which scripts are preparing to be terrorists, and the Svetrozhtovy react.

The President of Ukraine Volodymyr Zelensky said this in his address at the end of the 496th day of the war, Ukrinform reports.

I wish health, dear Ukrainians, Ukrainian women!

He has just completed the conversation with Mr. French President Macron, and this is the third international negotiations for today-after talking to the Secretary-General and the Prime Minister of Sweden. The main thing is our defense, front, weapons, the capabilities of our warriors, and I am grateful to partners for understanding our needs. We were given new defensive packages, and, by the way, thank you, Emmanuel, for that something today began to come and weapons we agreed on , Rockets, tanks.

But, of course, they also talked about more strategic things - about which the security foundation of Europe will be after this war and our victory.

In order for the world to come faster and to be long, honest, true, Russian evil must not be the line for the Kremlin's ambitions. We are all the free European nations, all in our Euro-Atlantic community, not Russian terrorists and any of their blackmail and aggression.

We add the content of the NATO summit daily, which will take place in Vilnius of the Venan Week, and I am grateful to all our partners who work together with the web strengthening of the Alliance, and therefore, for safety in Europe - real safety. Today, talking to France, with the Prime Minister of Sweden and See and General, coordinated our steps in front of Vilnius.

He also held several meetings with government officials and our team of office internationals on training for foreign policy activities that will take place in the near future.

It is very important - about the situation at the Zaporizhzhya nuclear power plant. Now all the light is conscious that the common safety depends entirely on global consumption to the actions of the occupiers at the station. Russia must be clearly aware: it is a light to which scripts are preparing for terrorists, and the world is ready to react.

Radiation is a threat to all in the world, and the nuclear power plant must be completely supported from any radiation incidents. Today, exactly 16 months, as Russian military, fully control the territory and structures of the Zaporozhye NPPs. In different states of the world there are their own intelligence and other opportunities to accurately recognize what is happening and who is guilty of it. Now, from our intelligence, we have information that on the roof of several Gergers of the Zaporizhzhya Nuclear Station, Russian military

placedly -led with explosives. Maybe to simulate a stroke on the station. They may have some other scenario. But in any case, the world sees-and cannot feel!- that the only source of danger to the Zaporizhzhya nuclear power plant is exactly Russia. And no one else.

Unfortunately, there was no timely and large -scale response to a terrorist attack against the Kakhovsky hydroelectric power plant. And it can inspire the Kremlin to a new evil.

To stop it is the duty of everyone in the world, and no one can leave the scene, because radiation leaves no one away.

I thank Mr. Macron for his attention to the situation at the ZPP and for his willingness to do everything he needed to guarantee safety.

One more.

Today, Russia has once again hit Kharkiv region, in the city of Pervomaisky. Iskander is likely. Eight ordinary high -rise buildings were damaged. More than 40 people have been injured, 12 of them were children, two were babies, they have less than a year ... As of this time, rescuers, together with police officers, still carry out the trading homes. Everyone who was injured in this missile blow will provide the necessary help.

And for this blow the enemy will be responsible, as well as all other blows.

Russian terrorists want to become model in how they destroy their lives. We will be model in how life we protect and how life replies - fairly and inevitably - every stroke of every terrorist.

The Nazis tried to escape from justice. Quite a long time. But many of them have been found and are still held accountable. We catch the racists much faster.

By the way, now I will still have a meeting with the Interior Minister Klimenko Taerivist to the baby's security service - and about the new challenges of our security, a common situation. There was also a meeting today with intelligence ...

We know how to put terrorists in place.

Thank you all our soldiers!

Glory to Ukraine!

Ukrainian prosecutors and investigators of the National Police have been

trained in Paris with the investigation of war crimes against children. The training took place at the Basinational School of Judges of the French Republic, [reports](#) Office of the Prosecutor General.

For five days, French experts - investigators, judges, lawyers, forensic experts, criminals and psychologists - shared their own experience of investigating the investigation of patient crimes in the context of their commission for children.

During the training they discussed the issues of international legal cooperation during the investigation of war crimes, features of conducting investigative actions with children, methods of collecting digital evidence.

They also paid attention to working with open sources and interaction with non-governmental organizations.

Deputy Prosecutor General Victoria Litvinov, who led the delegation of prosecutors, emphasized the importance of documenting each military crime.

She also noted the need to work out practices with this particularly vulnerable category of victims and witnesses to protect their right to punish the perpetrators.

Participants of the training visit - 20 prosecutors and investigators of the police from Donetsk, Zaporizhzhya, Kyiv, Kharkiv, Kherson and Autonomous Republicikim.

Exchange of experience with foreign colleagues will help to increase the institutional expression of Ukrainian law enforcement agencies in investigating military crimes and strengthening of international cooperation.

All this for one goal is to bring the guilty and international levels responsible.

Federal Advisor Ignacis Cassis has approved the allocation of additional 5.5 million Swiss francs for the reconstruction and repair of about 30 schools in Ukraine. Met - to provide almost 15 thousand students with access to decent and safe education. Proce [reported](#) on the official page of the Federal Radishwitzerland.

Russian military aggression has caused a serious blow to the educational sector of Ukraine. Thousands of schools throughout the country have been damaged or destroyed, and the multi -part has left the conflict areas, thereby interrupting the training of millions of students.

In response to this crisis, the Federal Advisor Ignacis Cassis increased the support of the prose "decentralization for the improvement of democratic education"(DECIDE)5.5 million Swiss francs to restore about 30 Uregions, which were directly affected by the fighting in Chernihiv, Odessa, Tapoltava. The project involves the installation of protected multi -purpose classes to ensure uninterrupted training, even when warning a offering plaque.

Reconstruction and modernization of schools in municipalities, which have ancient relations with SDC, will provide students with a safe and correspondence for eye education in class. This initiative will not only strengthen the local public services, but also strengthen the stability of the education system in crisis situations. The continuation of eye learning will also facilitate integration of migrant children and their families into the host communities.

This additional contribution of Switzerland will also allow the Decide project to provide technical and pedagogical support for online education for children who live in areas, especially vulnerable to hostilities, and deed training is impossible. Thanks to this contribution of the Swiss Confederation as 15,000 students will be able to continue their training and dignity.

The Ministry of Education and Science of Ukraine seeks to restore the educational sector, ensure the return of children to school and guarantee a safe environment and educational services during the war. The DECIDE project is implemented in close service with the Ministry of Education and Science of Ukraine, the Ministry of Communities, Territories and Infrastructure Development of Ukraine and local authorities.

Supporting Switzerland's schools is part of the Assistance Plan for Ukraine for the amount of 140 million Swiss francs announced in February by the Federal Council in February Tasted by Parliament.

For the first time in four months, the Zaporizhzhya Nuclear Power Plant was connected to a single -accessible backup transmission line, but the situation remains "extremely vulnerable" and unstable. About this [reported](#) On the IAEA site.

"Although the reconstruction of the power transmission line is positive, the situation with the external power supply of the station remains very

vulnerable, which emphasizes the unreliable situation with nuclear security and security on the facility," the Gross CEO Gross CEO.

Connection of the ZPP to a single power line 330 kilovolts(QV)Flewing from six such reserve lines to the conflict, 1 March was broken due to damage on the other bank of the Dnieper River and restored on the evening of July 1. Work on the restoration of the power line was complicated because of a complex security situation in the southern region.

The reconstruction of the 330 kV line is important because in the last few months, the ZPP has relied on a single main line of 750 kV for external electricity required to cool the reactor and other important functions of nuclear safety. Before the conflict began in February 2022, there were four lines of 750 square meters.

Currently, the 330 kV line is under voltage and is stored as a backup and ready -to -feed ZPP, if the 750 kV line becomes unavailable or damaged.

During the conflict, it has lost its power supply to the site of seven times outside the site, which causes it to temporarily use emergency diesel generators.

The classic military defeat that inevitably expects him, most likely, will lead to Putin's pre -physical death, and the Russian Federation can embark on the path of its decay.

In the expert's view, the war will really end only then, the Language Federation will fall completely, but we have a difficult way for a long way.

Modern war is 95% of artillery war, and Ukraine should increase their artillery capabilities,-emphasized the military analyst Petro Chernik during online exclusion in [Military Media Center](#) .

За словами експерта, сьогодні філософія артилерійського успіху полягає у переважанні української якості над російською кількістю.

— Противник не має і не матиме таких контрабатарейних систем, як AN/TPQ-36, 48,50. У росіян є «Зоопарк», але він і близько не витримує конкуренції із західними зразками, — зауважив експерт.

Водночас за рахунок кількісної переваги в артилерії російські війська спроможні вдаватися до тактики вогневих валів, вистрілюючи до 40 тис. снарядів на добу, що для української артилерії — недосяжна кількість.

Російський ВПК може виробляти до 120 тис. снарядів різних калібрів щомісяця, тоді як США зможуть вийти на показник у 50 тис. на місяць у кращому разі накінець серпня — початок вересня.

Натомість Україна має перевагу в номенклатурі ствольної та реактивної артилерії, яка забезпечує набагато точніше ураження. Тож головним питанням, яке потребує подальшої уваги, є кількість артилерійських систем на озброєнні ЗСУ — її потрібно неухильно нарощувати.

Петро Черник висловив стриманий оптимізм щодо цього питання, оскільки американський воєнно-промисловий комплекс запрацював і неухильно нарощує свої промисловості.

**об'єкти культурної інфраструктури
постраждали через російську
агресію в Україні**

As of June 26, 2023, 1582 of cultural infrastructure suffered losses, 585 of them were destroyed.

About it [reports](#) Ministry of Culture and Information Policy of Ukraine.

“The Ministry of Culture and Information Policy of Ukraine continues to fix the impact of cultural infrastructure in Ukraine as a result of Russian aggression. Thus, as of June 26, 2023, 1582 of the objects of cultural infrastructure were damaged, without taking into account cultural heritage monuments. With them, we may have a third(585)- destroyed.

Over the last month, the total number of affected objects of cultural infrastructure has increased by 62, most of which fall in Kherson region(25 Officer or 40%)», - the message reads.

It is noted that cultural infrastructure suffered the greatest losses and losses of Donetsk, Kherson, Kharkiv, Kyiv, Mykolaiv, Zaporizhzhya, Talyansk regions.

The largest group of cultural infrastructure objects that were damaged are club establishments. It is 48% of the total number of establishments that have suffered losses.

In general, they were injured:

club establishments - 755;

libraries - 598;

museums and galleries - 84;

Theaters and Philharmonic - 26;

Art education institutions - 119.

Classrooms, libraries, museums, theaters, Philharmonic, artistic education institutions have been damaged and destroyed (art schools and colleges) 222 territorial communities. It is 15.1% of the territorial communities of Ukraine. In particular, Vinnytsia is 3% TG, Dnipropetrovsk - 17%, Donetsk - 87%, Zhytomyr - 12%, Transcarpathian - 2%, Zaporizhia - 33%, Kyiv - 29%, Luhansk - Lugansk - 42%, Lviv - 2%, Mykolaiv - 42%, Odessa - 4%, Sumy - 49%, Kharkiv - 36%, Kherson - 37%, Khmelnitsky - 5%, Cherkasy - 3%, Chernihiv - 14% of the oblasts and m m. . Kiev.

"At the same time, we emphasize that almost the entire territory of Lugansk and significant parts of the Treatoriums of Kherson, Zaporizhzhya and Donetsk regions are still under occupation. This makes it impossible to calculate the exact number of objects of cultural infrastructure affected in the course of hostilities and occupation," he said in the department.

In the temporarily occupied territories of Zaporizhzhya and Kherson regions, Russian occupation authorities have very low support among the population.

About it wrote Deputy Minister of Defense of Ukraine Anna Malyar in Telegrams.

"That is why the pace of certification is extremely low and that is why the occupation authorities are forcibly to carry out the passportization," she said.

Recall that the Russian Federation uses The difficult situation of Ukrainians through the flooding of temporary -heated territories of Kherson region for forced certification.

Deputy Minister of Defense of Ukraine Anna Malyar, greeting the American people by the US independence, thanked for the unchanged support, which helps him to elevate freedom, destroy the enemy and protect common values.

She wrote about it in [telegrams](#) .

«Одним із найпотужніших проявів підтримки є M142 HIMARS — реактивна система залпового вогню американського виробництва, розроблена наприкінці 90-х як полегшена колісна версія M270. У своєму арсеналі HIMARS має чималу кількість різних боєприпасів: від звичайних некерованих, до високоточних балістичних ракет з GPS навігацією», — зазначила заступник Міністра оборони.

Боєприпаси та дальність їх ураження:

MLRS — 45 км;

GMLRS — 70 км;

ER GMLRS — 150 км;

ATACMS — 300 км експериментальна ракета;

PrSM — 499 км.

«Поява американських "Хаймарсів" в червні 2022 року стала неприємною несподіванкою для російських військових. Виявилось, що всі логістичні шляхи, склади з боєприпасами та місця дислокації військ перебувають в зоні ураження реактивної системи», — наголосила вона.

Злякавшись та відчувши перші величезні втрати, як зазначила Ганна Маляр, окупанти почали полювання на HIMARS'и.

«Але й досі нікого й не впіймали. Завдяки максимальній швидкості 85 км/год HIMARS здатна розгорнутися, відстрілятися та покинути позицію менш ніж за 1 хв. Це дає змогу застосовувати її для тактики shoot-and-scoot (Shoot-and-Tikai) which significantly reduces the chances of being revealed and amazed by the enemy, ” - the addctor of the Minister of Defense of Ukraine.

Anna Malyar Naval known cases of HIMARS:

“For Ukrainian military, Himars have become a real weapon of victory. After all, “one rocket is one destroyed goal” is an unattainable result for outdated Soviet counterparts, ” Anna Malyar summarized.

Dear Americans!

I congratulate you on the best day that life can reward any nation that has reiterated for the sake of freedom-I congratulate you on Independence Day!

Only bold get independence, and only the best of the bold ones are able to convey freedom from generation to generation. To pass, increasing its boundaries, the limits of how protected the life of each person, every community and all Ukraine. But increasing hope - hope for others on earth, that they will also become free and that their freedom will also become a precious heritage for their children and grandchildren.

Almost two and a half centuries America is the land of the free and the house of the brave, which attracts people from all over the world and seek higher. Darkness is disenfranchised, freedom once shines. Being an ally of such a cuteness, such courage and such freedom is an honor for us.

Ukrainian courage acquires American weapons and protects democracy, which we value with you equally. The Ukrainian freedom, with your support, has fallen a new powerful flame in our part of Europe, which will not go away that tyranny will never pass Europe again, and therefore Europe will not need the participation of your soldiers in bloody battles for freedom. The Aukrain Dream to live freely when it is crowned with a victory in the brutal invested war, launched by Russia, will give fresh energy to American leadership. The

world sees the world as clearly as possible: who with Ukraine is the same. And after our victory, the world is convinced again: who appreciates freedom - it always wins.

Happy July 4, American! And please remember that you can always count on the Ukrainian Union in the Coalition of Free.

Glory to Ukraine!

"In the event of an explosion at the NPP, the residents of the potential zone of radiation accident should be to be evacuated. If the authorities have officially notified the propositional accident, stay indoors or get the premises as soon as possible. Follow the subsequent messages and follow the instructions, " - said in [message](#) Ministry of Health.

In the ministry, they advise to prepare a suitcase or a backpack in case of evacuation. In particular, it is necessary to collect documents and their copies(Documents certifying the person, medical documents, legal documents certifying the right of ownership of movable and immovable property, contacts); face mask or respirator.

You also need to prepare a first aid kit and a weekly stock of medicines(If you have chronic diseases), wet wipes, variable clothing and shoes, minimal water and food.

Tightly wrap a suitcase or a baking with a food film or adhesive tape. This will greatly help the process of decontamination in sanitary posts.

The Ministry of Health emphasizes that people in the area of radiation accident have to leave buildings only after appropriate instructions of the authorities.

"Local authorities will report the location of evacuation points, as well as the most safe routes of movement if you will evacuate your own vehicle. Follow the instructions and keep calm, "the testimony reads.

US President Joe Biden and his NATO colleagues at the Vilnius summit have a namor to approve changes in the Alliance Planning System. This is stated in [message](#) Foreign intelligence services of Ukraine.

According to new plans, NATO seeks to have up to 300,000 servicemen ready to relocate to the eastern flank for 30 days. The plans divide the Alliance's territory into three zones - the far north and the Atlantic, the area to

the north of Valp and another zone in the south of Europe. Currently, about 40,000 -military servicemen are in a state of readiness - from Estonia in northern Darumunia on the Black Sea. Every day, about 1,100 aircraft rise into the sky above the territory, and 27 military ships operate in the Baltic and Mediterranean seas.

Austria will join the European initiative to protect the Air Space "Heavenly Shield".

I wish health, dear Ukrainians, Ukrainian women!

He has just completed the conversation with Mr. French President Macron, and this is the third international negotiations for today-after talking to the Secretary-General and the Prime Minister of Sweden. The main thing is our defense, front, weapons, the capabilities of our warriors, and I am grateful to partners for understanding our needs. We have argued for new defensive packages, and, by the way, thank you, Emmanuel, for something today, and weapons, which we agreed, started to come with something. , Rockets, tanks.

But, of course, they talked about more strategic things today - about which the security foundation of Europe will be after this war and our victory.

In order for the world to come faster and to be long, honest, true, Russian evil must not be the line for the Kremlin's ambitions. It is we who are all free European nations, all in our Euro-Atlantic community, not Russian terrorists and any of their blackmail and aggression.

We add the content of the NATO summit daily to take place in Vilnius of the Venan Week, and I am grateful to all our partners who work together with the Alliance Strengthening, and therefore, for security in Europe, real security in

Europe. Today, talking to France, with the Prime Minister of Sweden and See and General, coordinated our steps in front of Vilnius.

He also held several meetings with government officials and our team of office internationals on training for foreign policy activities that will take place in the near future.

It is very important - about the situation at the Zaporizhzhya nuclear power plant. Now all the light is conscious that the common safety depends entirely on global consumption to the actions of the occupiers at the station. Russia must be clearly aware: it is a light to which scripts are preparing for terrorists, and the world is ready to react.

Radiation is a threat to all in the world, and the nuclear power plant must be completely supported from any radiation incidents. Today, exactly 16 months, as Russian military, fully control the territory and structures of the Zaporozhye NPPs. In different states of the world there are their own intelligence and other opportunities to accurately recognize what is happening and who is guilty of it.

Now, from our intelligence, we have information that on the roof of several Gergers of the Zaporizhzhya Nuclear Station, Russian military placedly -led with explosives. Maybe to simulate a stroke on the station. They may have some other scenario. But in any case, the world sees-and cannot die!- that the only source of danger to the Zaporizhzhya nuclear power plant is the one. And no one else. To stop it is the duty of all in the world, and no one can leave the scene, because radiation leaves no one away.

I thank Mr. Macron for his attention to the situation at the ZPP and for his willingness to do everything he needed to guarantee safety.

One more.

Today, Russia has once again hit Kharkiv region, in the city of Pervomaisky. Iskander is likely. Eight ordinary high -rise buildings were damaged. More than 40 people were injured, 12 of them were children, two are babies, they have less than a year ... Staff this time rescuers, together with police, still bypassing damaged buildings. Everyone who was injured in this rocket stroke will be provided with any necessary assistance.

And for this blow the enemy will be responsible, as well as all other blows.

Russian terrorists want to become model in how they destroy their lives. We will be model in how life we protect and how life answers - fairly and inevitably - every terrorist is struck.

The Nazis tried to escape from justice. Quite a long time. But many of them have been found and are still held accountable. We catch the racists much faster.

By the way, now I will still have a meeting with the Interior Minister Klimenko
Taerivist to the baby's security service - and about new challenges to our security, a general situation. There was also a meeting today with intelligence

...

We know how to put terrorists in place.

Thank you all our soldiers!

Glory to Ukraine!

The enemy increases the number of shelling and tries to put as much as possible on the locality of the Dnieper Right Bank. Natalia Humeniuk, the head of the united News, reported this in the Emergency of the Unified News Telelrophe.

According to Humeniuk, the enemy is increasingly expanding the tactical aviation area. Now, not only Berislavsky but the Icherson district is suffering

from Russian airplanes - today the occupiers have killed twice from the air today.

Humeniuk also reported that the artillery gunshots have recently intensified - the occupiers managed to return to the former positions, where the water had already drawn after the flood caused by the blast of Kakhovka hydroelectric power station.

According to the speaker, the invaders continue to distribute efforts along the front line, since they are aware that the maximum pressure from Ukrainian units comes to the Zaporozhye direction - especially on land. In addition, Russian invaders actively use small sabotage groups on boats to learn about the ideas of Ukrainian units located on the left bank of the Dnieper.
