The recent spring session of the NATO Parliamentary Assembly in

Luxembourg emphasized the importance and benefits of coordinated procurement and logistics, which is able to respond quickly to new security challenges and maintain prompt readiness through cooperation and synergy.

At a time when countries face an urgent and difficult requirement to restore defense-industrial capabilities based on outdated platforms, the Russian-Ukrainian war in Europe increased the alliance's determination not only quickly but jointly. According to Breakingdefense, this further emphasized the need to coordinate multinational possible. It is vital to strengthen military capabilities by means of modernization, innovation and, most importantly, on the organization of coordinated multinational purchases together with collective logistical support.

The combination of resources and experience allows you to optimize the costs of the Defense States, to increase efficiency and, ultimately, to strengthen NATO's capacity to shorten and defense.

As a positive example of this approach related to a proven support mechanism, there are examples of a multinational agreement created at the initiative of two or more NATO countries that wish to organize a regular activity in procurement, support and maintenance.

Breaking Defense leads to the benefits of a coordinated approach - it is an opportunity to use the scale effect. After all, consolidating and making collective investments, it is possible to reduce costs and achieve a better ratio of price and quality. It also avoids competition between clients for scarce industrial resources.

Secondly, Breaking Defense writes that the joint work of scientists from different NATO countries has been a great opportunity to promote technological innovations. It also allows you to efficiently combine intellectual capital, encourage the exchange of knowledge and remain Vavagard of technological achievements. This is especially relevant in the context of new agents, such as cyber, hybrid war, autonomy and artificial intelligence. In addition, the Last NATO Parliamentary Assembly has become an important platform for awareness of the Alliance of Multinational Procurement and Logistics Alliance, especially in the context of discussing a tassel on the Alliance's Security Decision.

The death he had time to pick up with nlaw Russian tank

The man loved music, wrote songs himself and performed them under a guitar, and he still liked reading and traveling. On Anton's page on social networks of multi -world travel Ukraine. Near one of the photos he wrote:

"Someone will fly in front of my eyes in an instant and most importantly, to look at then ... When I look in the sunset and flocks of crows in the sky, I understand that every day my life is approaching the event and all What we have is time. "

After the death of the warrior, his relatives and brothers said that he had long been a long time and realized that she was inevitable. Anton's life was cut off in 27 years.

He said that if you die, he wanted only in battle with the enemy. Even as far as the Slovov is adhered to. The person I loved very much. Man of amazing freedom and will. It was so vinyl, so worthy of everything I did not believe that such people would exist. As much as I supported me, rescued me, pulled me up, respected the lop, respected as a woman-bull, took combat tasks, trusted-it is important to write all this in a few sentences ... How I wanted you to be left. But unfortunately you always go first, "wrote About "Perun" military Yarina Chornohuz.

Anton did not tell his family in the war. His mother is told about it. After that, the son always assured that he had all well. Today, our state has passed through one of the largest Russian Shamohada attacks - 54 drones at the same time. Almost all of them are knocked down...

almost!.. Unfortunately, Evluzu in Zhytomyr region. Let's do everything to help to restore the destroyed.

However, most of the destruction managed to distract, most of the lives that could get these "Shahda" managed to preserve. I thank everyone and everyone who has suggestion!Anti -aircraft missile troops and air forces, Air Forces Air Forces and our mobile fire groups ... Thank you, warriors!

During this terrorist attack, the most powerful blow was directed against the Kyiv region. 36 drones were shot down within the city of Kyiv and the region. This is the day of our ancient Kiev ...

During his history, Kiev saw different meanings from the invaders. He survived them all, survives and racists. None of them will be here!Kiev and all our cities, all Ukraine will put a point in the history of Moscow despotism, which for a very long time has been a different peoples. It is not saved by neither Shahda nor any other means of terror that she is humiliating in the world. Because the strength - it is in the city, it is in cities, it is in life, and when life and people are despised, and people who are more important for the culture of the city, will only lose for Russia. And even the hundred "Shahmed" will not be saved from it. They will only add shame on Russia.

These days we congratulate on the city of Kyiv and Alexandria, Severodonetsk, Kalush, Kryvyi Rih ... cities of different fate, but of the same respect. Our Ukraine. Our belief that we will pass this extremely difficult stage of history ... We will pass, and all our cities will be free, and people will be protected from any evil, which can threaten our country.

Today, I want to thank all our people who fought and fight for the adviser - all our soldiers, all types of armed forces and the rays of the troops, every Brigade, every unit. Thank you!To all who are in battle, everyone who is in combat operations to everyone who is in combat posts!I thank everyone in the world who is not indifferent and who wants the victory of freedom as well as we are.

All our energy and transporters. Thank you!Ukrzaliznytsia. Defense. All our volunteers. United24 and Ambassadors. Thank you!Our militiamen. Local government. Employees, employees of utilities. Our education. Our figures. Our historians. Everyone who stores jobs and all who create work places - despite everything. Our farmers, employees of our agricultural sector. Our industry. Avita. Our civil servants. Our diplomats. Thank you all who strengthen our defense, our country, our people!

The fact that our capital is free is that our cities are protected - protecting, that we will release every occupied city now is all merit of people. All who are fighting and working for the sake of Ukraine. It is a merit of our kind people who can do historical things. When united. When it realizes its power. When nothing forgives the enemy. And when he inspires the world.

We go forward until we liberate all of our, Ukrainian land ... We will protect every other way ... We take care of each other and remember about all our people we have to come home, to our cities and villages from Russian captivity.

Advisor to the Presidential Office of Ukraine Mikhail Podolyak stated that any compromise with Russia is a direct path to the next stages of war, escalation, a significant strengthening of the role of global terrorism.

According to Ukrinform, Podolyak said in an interview with the Italian edition of Larepubblica, reports [Presidential Office](#).

"First, the Russian Federation will have a conversation about the true conditions of the end of the war exclusively on the battlefield. And after such a "conversation" offered by our armory forces, she will not have a choice. Secondly, the formula of peace will be attached to the world democratic community, which fixes the logistics of the only possible end of the war," Podolyak said.

In addition, he said, after all the large -scale destruction and murder, which was made in Ukraine, Ukrainians are not compromised with the Kremlin.

The adviser to the head of the Presidential Office reminded that for almost nine years, the Ukrainian has been reaching out at the negotiation table, but as a result, it received a full -scale war, which has not seen a world since the Second World War.

"Any compromise with the Russian Federation is a direct path to the next stages of war, escalation, a significant strengthening of the role of global terrorism. The main point of the peace plan is the withdrawal of Russian troops from Ukraine. The conversations of the Russians will only start after that," Podolyak emphasized.

According to him, there are no other real plans, except the Ukrainian formula of peace, and Kiev will not accept other proposals because they are provided with the support of the Russian Federation.

"Any other initiative today is an attempt to sell the Russian plan, the declitic moment is an immediate ceasefire, but without the withdrawal of the Russian Occupation Group. This is a completely unacceptable position, not aimed at peace, ana security, in fact, victory of Russia. And most importantly - why to generally to break the initiatives, which stands for the figures of the Russians and their unwillingness to the brothers responsibility for enormous crimes against humanity?" - emphasized the head of the Presidential Office.

Як зазначив Подоляк, українська формула миру – це основа запланованих мирних переговорів, а учасники саміту можуть доповнити своїми корисними ідеями. Алеключовим моментом є перший пункт – вихід Російської Федерації з усієї території України, включно з Донбасом і Кримом.

«Сьогодні лідери світової демократії як ніколи єдині у розумінні природивійни, позиції Росії та правильного шляху припинення війни. Ми розуміємо, які інструменти для цього потрібні: зброя, правовий механізм

притягнення довідповіданості за злочин агресії, репарації та відновлення, відкритий обмін полоненими й повернення депортованих громадян. Головне – військова поразка Росії й неодмінне повернення нам окупованих територій», – переконаний радник керівника Офісу Глави держави.

За словами Подоляка, над проведенням мирного саміту працюють представники України, країн G7 та Північної Європи. Коло учасників поступово розширюється, тож очікується участь десятків держав демократичного світу. Приєднатися можуться інші країни, зацікавлені у поверненні світу до справедливих глобальних правил, до міжнародного права й поваги до суверенітету держав.

Відповідаючи на запитання про те, чи Росія буде учасником майбутнього мирного саміту, радник керівника Офісу Президента сказав: «А який сенс кудись запрошувати росіян після того, як вони навмисне нападають на іншу країну, навмисне порушують міжнародне право, навмисне обстрілюють мирне населення ракетами? Росіяни абсолютно не готові визнавати свою причетність до великомасштабного злочину та використовують будь-який міжнародний майданчик виключно для поширення своєї ненависті».

Щодо будь-яких вимог стосовно членства України в міжнародних організаціях, які висуває Російська Федерація, то, як наголосив Подоляк, лише український народ самостійно визначить своє майбутнє, членство в міжнародних організаціях із безпекових об'єднаннях.

«Суверенітет Росії поширюється виключно на територію Росії в межах міжнародновизнаних кордонів», – зауважив він.

На думку радника керівника Офісу Президента, спільний кордон із державою-агресором, яка понад дев'ять років веде війну проти України, вимагає посиленнямілітаризації з метою стримування її агресивних настроїв.

Today, our state has passed through one of the largest Russian Shamohada attacks - 54 drones at the same time. Almost all of them are knocked down...

almost!.. Unfortunately, Evluzu in Zhytomyr region. Let's do everything to help to restore the destroyed.

However, most of the destruction managed to distract, most of the lives that could get these "Shahda" managed to preserve. I thank everyone and everyone who has suggestion!Anti -aircraft missile troops and air forces, Air Forces Air Forces and our mobile fire groups ... Thank you, warriors!

During this terrorist attack, the most powerful blow was directed against the Kyiv region. 36 drones were shot down within the city of Kyiv and the region. This is the day of our ancient Kiev ...

During his history, Kiev saw different meanings from the invaders. He survived them all, survives and racists. None of them will be here!Kiev and all our cities, all Ukraine will put a point in the history of Moscow despotism, which for a very long time has been a different peoples. It is not saved by neither Shahda nor any other means of terror that she is humiliating in the world. Because the strength - it is in the city, it is in cities, it is in life, and when life and people are despised, and people who are more important for the culture of the city, will only lose for Russia. And even the hundred "Shahmed" will not be saved from it. They will only add shame on Russia.

These days we congratulate on the city of Kyiv and Alexandria, Severodonetsk, Kalush, Kryvyi Rih ... cities of different fate, but of the same respect. Our Ukraine. Our belief that we will pass this extremely difficult stage of history ... We will pass, and all our cities will be free, and people will be protected from any evil, which can threaten our country.

He noted that even a couple of aircraft capable of starting a rocket for more than 100 kilometers will make the enemy think and react.

According to him, the F-16 is able to become part of air defense to ensure the fighter covering within the country. The Russians do not have a tactical or operational advantage in the air due to the fact that Ukraine has received powerful assistance from partner countries.

And R-37 missiles-these missiles can be used at a distance than 200 kilometers. There is no such opportunity in Ukraine.

"If we have a platform that is able to apply, for example, the Air-Air Air missiles AIM-120, they have a range of about 180 kilometers-we have not allowed them to approach the borders at the distance of the launch of Tsi Rape," the general said.
