At a briefing of the Ministers of Defense of Ukraine and the Kingdom of Denmark in Media Centerukraine - Odesa, Alexei Reznikov shared plans to

protect civilian citizens from the consequences of a Russian large -scale invasion, namely the release of territories. He noted that the process would consist of several differenties.

According to him, Denmark has specialized drones - submarines that have sappers that are able to detect, record and transmit coordinates to the sappers, which can carry out sapper work underwater. In Ukraine, since 2014, the company has been operating, which is represented by the Kingdom of Denmark. This company has great possible expertise to carry out humanitarian demining, that is, the change in areas that are not in the war zone.

Another institution of demining in Ukraine is the SES. They are interested in the demining of civilian infrastructure.

There is currently an interagency group headed by Yulia Sviridenko, the First Viceceremian and the Minister of Economy. It, as an economist, understands which industries are priorities in this matter. And the experience of the Kingdom of Denmark will be indispensable for the effective work of our sappers.

Cyberfachivtsi of the Security Service together with the law enforcement agencies of the Republicapolskaya neutralized the transnational criminal group of fraudsters.

About it [reports](#) SBU press service.

The malefactors wandered money from the inhabitants of the front regions of Ukraine, who planned to leave the war zone, including Bakhmut and Coal. The locals "guaranteed" the locals to take them to the safest regions of our country "guaranteed". The average cost of such "services" was 30 thousand UAH.

Basically, fraudsters "distributed" their promises to the disabled and parents of young children. For this purpose they used groups on social networks and popular messengers. They took their clients "prepayment" of 50% of the declared amount. Money was kept on bank cards issued for false persons. After receiving the books, the dealers stopped communicating with the victims and no longer called. In this way, fraudsters have seen more than UAH 1.5 million in humans.

Another "target audience" of fraudsters was men of conscript age. For a "fee", the intruders promised the military to produce false expenses to travel abroad.

As a result of special operations in different regions of Ukraine, one group organizers were detained. He was a resident of Zhytomyr region, who was contacting the clients and offering them "conditions" for evacuation. In the

investigation, two other Ukrainian citizens, organizers of the criminal group, are currently in one of the EU countries.

SBU staff together with European partners conduct comprehensive detentions on the detention of both intruders and their extradition to Ukraine.

During the searches at the addresses of the persons involved in several areas of Ukraine revealed:

Currently, one of the malefactors, a resident of Zhytomyr region, reported suspicion of Part 3 of Art. 190 of the Criminal Code of Ukraine(fraud).

Вирішується питання щодо обрання запобіжного заходу - тримання під вартою. Триває розслідування для встановлення всіх обставин злочину і притягнення винних довідповідальності.

Center for Combating Misinformation in NSDC Ukraine [Published](#) The main narrative that was promoted by the Russian media.

“Russia is on the side of light. And this can be easily proved, because Russia does not seek to be richer, does not seek to capture other countries, does not seek to subdue someone,” Kirill Gundyayev said boldly.

Gundyayev's cynical statement was supplemented by the words that the war in Ukraine was the “cemetery of God” and only Russia found the strength to withstand evil.

Also, according to Moscow Pop, the reason for the war in Ukraine was the non-imperial desires of Putin, and the conflict of the West and Russia against the background of the absence of “common Christian values”.

The statements of religious leaders are aimed at heating the internal conflict in Ukraine against the background of the transition to the PCU.

"Reconciling the war with religion, the Kremlin tries to justify their crimes and unite the Russians around the "Holy War", which, in their opinion, should contribute to voluntary mobilization," the statement said.

For several weeks in a row, the situation on the battlefield does not change. The epicenter of combatants is the East. The offensive lasts in four directions

at the same time, the Armed Forces with all the enemy, but Bakhmut took the main blow.

About it told Deputy Minister of Defense of Ukraine Anna Malyar.

"It was there that the enemy concentrated the greatest effort. So, we have to use a lot of effort for the defense, "she said.

According to her, the enemy usually loses to us in street battles, so Russians simply destroy all buildings and structures. But our courageous warriors and a professional command team are restraining the enemy in Bakhmut from the promotion of the territory.

"If we did not defend Bakhmut all this time, the enemy would have advanced deep into Ukraine, so the importance of the city's defense should be understood in such a context.

The Russian Federation concentrated the Private Army of the Wagner. For the most part, they are already destroyed by the enemy forced to pull their landing units of Ispecis, "Anna Malyar explained.

President of Ukraine Volodymyr Zelenskyy [applied](#) To the Ukrainians on the 412nd Defense Day:

_ I wish health, dear Ukrainians!_

He held a regular rate meeting today. First of all, they considered the combat. What is in the main directions, in severe directions, such as Bakhmut and Avdiivka, Donetsk region in general, such as Kreminna and Luhansk in general.

They also considered the fact that only should be done. What we work on.

There were reports of General Syrsky, General Tarnavsky, Main Committee, Gur.

The General Staff and the Minister of Internal Affairs reported on the completion of new units of our defense forces - new brigades.

SBU head, General Malyuk made a report on his part - on our inner stability, protection against the internal enemy and protidius to collaborators.

We are now at this stage of war, when it is important to our society and the partner to lose the sense of the path we have to go. It is the way. The path that is ahead.

Compared to last year, many places are now quieter. But this does not mean that you can ignore the war somewhere or be less concentrated on the assistance.

We managed to do a lot with partners to protect people, Ukraine, all of Europe. But that does not mean that it is time to rest on the laurels. The path is ahead. Movement is ahead. What we need no less unity, less. No less focus than before.

As before, our positions at the front, all our warriors in positions are supported by Ukrainian positions politically and informally, forces and power and the power of our social unity, our inner stability of Ukraine's tamitivty with the world. And this is what is the task of both the state, so Ivsih in the state, both Ukraine and everyone in the world, who value the free life of an international order based on the rules.

It is unreasonable to simply hopefully hoping that someone else who is now in the trenches, who is now in the assault, will bring victory. This is a common task. It is won by everyone. Those who fight for it and those who give weapons. Those who are the possibilities of the terrorist state and those who increase the capabilities of Ukraine. Thank you to all our partners in the world who does not keep the activity in help.

I thank all Ukrainians and Ukrainians who understand that we have to go this path together - to victory, and in true unity, supporting each other and the state.

Glory to all our soldiers!

Glory to our strong people!

Glory to Ukraine!

Of course, I was pleased to hear from our guests from the United States positive words about Ukraine and what we manage to achieve together the fate of terror.I thank everyone who has chosen right now and this path of direct help. Without conscientious work of the SES and the police, simply not imagine a normal life, not to save many people. This is, in fact, what is the essence of their work is direct help to people.

I believe that today's graduates of the Ministry of Internal Affairs are justifying human hopes.

By the way, I would like to celebrate such defenders now - such rescuers, in particular from Nikopol. SES of Major Artem Shuldyakova, Lieutenant Fyodor Zaykina, Senior Sergeant Vasyl Muzychko, Junior Satisfant Vitaliy Bulkin.

Thank you guys for the rescue of the Ukrainians of post -Russian rocket strokes!

State to treat all religions and institutions registered in the territory of Ukraine, but the institutions that are relevant to Moscow will not and will not work in Ukraine.

"I wanted to note that now people who are believers, Holy Week, and this week I would not advise anyone to take any aggressive actions in relation to the state, in relation to other citizens, and to refrain from any activa precise behavior. The state will treat all religions, institutions, which are officially registered in our country, the same. We will not have someone we love or do not love. This is not the state of the state. Anyone can choose a church where he can walk, but what relates to registration documents - all institutions, and does not matter - these are church or some others that are related to Moscow, have some connections with them - they cannot work in the territory of our countries. Moreover, they will not work here, "Danilov emphasized.

"And those people who are related to Moscow and have joint documentation or in joint institutions are directly related. They have to stop these joint contacts, in accordance with the regulatory documents, the statutory documents that are in the institutions, and then there will be no issues. But by this time they do not want to do it. We will see how all will be. I emphasize once again - the state will calmly fulfill the functions of the state, the laws of our country in the territory of our country will be binding for all citizens of our country, "the NSDC secretary emphasized.

The simultaneous presidency of the Russian Security Council and the brutal execution of the Russian military Ukrainian prisoners of war significantly reduces the authority of the UN.

According to the Ukrinform correspondent, this was stated in the UN - representative of Ukraine.

"Against the backdrop of an outrageous crime, the presidency of the Russian Federation in the Security Council looks extremely cynical and harms the authority and capabilities of this organ," - said in a widespread statement.

Diplomats stressed that "a state recognized as an aggressor by the General Assembly, a state that continues to commit aggression, war crimes and humanity crimes should not be headed by the UN body, endowed with a key responsibility for supporting international peace and security." "We rely on a solid and decisive position of members. The notion of Russian military crimes and the notion of "peace-loving state" in the sense of 4 Articles of the UN Charter, "said the UN -UN Mission at the UN.

The statement states that "Russia consciously implements its policy of torture, physical violence, inhuman treatment, intentional causes of gravity, grievous bodily harm and intentional murder of captives and civilians and civilians in Ukraine." "This shocking incident has left our determination to hold all the horrific crimes involved in Ukraine, including the highest leadership of the Russian Tabeszzzzzzzzz -in perpetrators," the diplomats summed up.

According to CNN, the first video was posted on the pro-Russian channel of Uzozos networks on April 8. It was deliberately removed by the "Wagner" and shows the two-headed bodies of the Ukrainian military, which lie on the ground near the injured military car. The Russian accounts claim that the video was filmed near Bakhmut.

The second video that appeared on Twitter and deliberately blurred is probably recorded in the summer, given the vegetation in the frame. On it, a Russian boy with a knife is beheaded by the Ukrainian military, who, judging by the voice of Naidideo, was probably alive at the beginning of the massacre. Law enforcement agencies of Ukraine take measures to identify the persons who committed the crime.

We expect an uncompromising and rigid position of the international community to ensure the political, economic and legal consequences of this terrorist activity, "said the Director of the Department of Economic Diplomacy of the Foreign Ministry.

She recalled that Ukraine has already imposed sanctions against 200 legal entities and 200 physical persons of the Russian nuclear industry, in particular, Rosatomia and other Tuuvan enterprises belonging to the nuclear energy sector."We are also constantly raising the issue of reflection of our Ukrainian sanctions by the sanction policy of our partners," Vasylenko said.

In this context, she reminded that there were some sanctions against some Rosatomic legal entities that are on the territory or jurisdiction of these states in the sanctions packages of the UK, which were imposed on February 24, 2023.

Ukraine is to buy weapons in Brazil to repel Russia's military aggression. However, the power of the Latin American country refuses to sale and insists on peaceful winners.

As Ukrinform reports, it reports .

When Brazil was preparing for the 2014 World Cup and the 2016 Summer Olympic Gigrants, she purchased 34 anti -aircraft guns in Germany for a protected sky.

Last year, German officials turned to the government with a request to transfer unused ammunition, which was previously Germanyahada Brazil. However, the response of the leadership of the Latin American country was one: no if weapons go to Ukraine.

Brazil called for peace and in carefully formulated statements criticized Russia's invasion of Russia. But the country that relied on Moscow, fertilizers and fuel, also made it clear that it would not send any arms to the front line, and instead insists on mediation in peaceful changes.

"I don't want to go to war. I want to finish the war," said Luis Inacio Lula da Silva this year.

According to the documents obtained by The New York Times, Ukraine has at least two requests for the purchase of a long list of weapons, which has opened armored vehicles, planes, air defense systems, mortars, seven rifles, automatic weapons and ammunition.

Brazil mostly ignored the requests.

Brazil, in particular, is a manufacturer of military aircraft, many of which have been made by the Embraer. Brazil says that its governing principle policy has long been the principle of remaining a "friend for all".

He has just participated in the meeting of a special format of support of Ukraine - financial. And we do everything for that. Thank the partners who support us.

He met today in Kiev with a delegation of the US Senate - a two -party delegation. I informed what is happening on the battlefield now, and about our opportunities. As well as we always, we have demonstrated that our relations with America in the supply of weapons, in financial support are completely clean, completely transparent. The partners have a full vision of each unit and every unit of weapons. And it is important that no artificial manipulations are spoiled by our trust.

Of course, I was pleased to hear from our guests from the United States positive words about Ukraine and what we manage to achieve together the fate of terror.I thank everyone who has chosen right now and this path of direct help. Without conscientious work of the SES and the police, simply not imagine a normal life, not to save many people. This is, in fact, what is the essence of their work is direct help to people.

I believe that today's graduates of the Ministry of Internal Affairs are justifying human hopes.

By the way, I would like to celebrate such defenders now - such rescuers, in particular from Nikopol. SES of Major Artem Shuldyakova, Lieutenant Fyodor Zaykina, Senior Sergeant Vasyl Muzychko, Junior Satisfant Vitaliy Bulkin.

Thank you guys for the rescue of the Ukrainians of post -Russian rocket strokes!

I will also note the police crews - "White Angels" who save our people in the fan, evacuate, send humanitarian aid, resuscitated ...

I thank the police Gennady Yudin from Avdiivka for the salvation of children, Paramedic Popi, one of the White Angels in the Mariinsky Front. They have already rescued hundreds of our people, including seriously wounded.

I also thank today especially the explosion of the National Police Vladimir Perepelytsya, who works for mine in Kherson region, works very effectively.

And one more.

He was a former employee of the disbanded special forces of the Golden Eagle Militia Valery Astakhov.

After the occupation of the Crimea, he moved to the side of the enemy and joined the Lawn of the Russian Special Service of the Group under the name "Evpatoria Rot of the People's Military".

At the beginning of a large-scale invasion of the FSB, Astakhov formed a different agent group for intelligence and subversive activities against Ukraine. To its composition, the traitor remotely attracted several dozen residents of the southern eastern regions, in particular-from Bakhmut. The main task of hostile agents was the collection of intelligence on the places of basement and movement of defense forces near Fronte. The information obtained by the attackers sent Astakhov through the telegram messenger in the form of locations on electronic maps with a detailed description of the objects.

The former Berkutivets passed these data to his Curators from the FSB in the territory of the seized Crimea. They were needed by the occupiers to guide and adjust the missile-artillery shelling of the positions of Ukrainian troops.

On the basis of the evidence collected, Astakhov was informed of the suspicion of state -owned state, committed in the conditions of martial law.

He is currently hiding in the temporarily occupied territory in the south of Ukraine. Complex measures are being drawn to bring the traitor, as well as all his farmers and their Russian "curators".

If the world community does not defeat Russia in its invaders against Ukraine, it will receive a new world war with the Russian fourthwhile.

On this emphasizes Secretary of the National Security and Defense Council Alexei Danilov.

He noted that the relations of the Western countries with the Kremlin are similar to the relations of the Third Reich Adolf Hitler.

"The formula of victory of Ukraine and democracy can be discussed, but the formula is defeated. History teaches: no complete and unconditional surrender of the aggressor. Invite Hitler to the Uonna Rada meeting. Legitimize fascist power and recover Business Asusual with Wehrmacht suppliers. Leave the brackets destroyed cities, genocide, terror, torture, thousands of killed, including hundreds of innocent children, destroyed fates ... And continue to press Putin's hand on various samites, meetings and negotiations. If the world chooses a shameful peace, a new war with the Russian Fourth Reich will be wine, "the NSDC Secretary emphasized.

The FSB agent, which is involved in series air attacks on Nikolaev, has been

collected. It was by his "diligence" during the 26-30th last year that the invaders made eight rocket strikes on ten-seat sites. Among them are civilian infrastructure buildings. The court appointed 15 years in prison.

About it [reports](#) Security Service of Ukraine.

SBU counterintelligence detained the Russian agent in the regional center in July. During searches, the attacker found explosives, unregistered firearms and ammunition.

It is established that the hostile associate is a local resident whose FSB has attracted to Donaglass cooperation last May. For the recruitment, he was used by one of the pro-Kremlovsky telegrams, where the person involved actively recognized the armed aggression of the Russian Federation in his own comments.

To fulfill the tasks of the Russian special service, he went around the city and hidden photographed Ukrainian objects. The received files sent an FSB staffing staff through anonymous chat in the messenger.

On the basis of the evidence collected, the court found the attacker guilty of three articles of the Criminal Code of Ukraine:

In Kiev, a roundtable on the Military Media Center on the topic: "Innovations of Ukrainian doctors in the rescue and rehabilitation of wounded soldiers."

The topic was attended by: President of the National Academy of Medical Sciences of Ukraine Vitaliy Tsymbalyuk, Head of Innovation Department of the Ministry of Health Bogomolets Vasyl Parii, Head of the Central Health and Evacuation Department of the Armed Forces Command of the Armed Forces Colonel Inna Bragin Medical Service.

Academician Vitaliy Tsymbalyuk, in particular, noted that with the beginning of the Russo-Ukrainian War, since 2014, civilian doctors have joined the rescue. The experience of treating combat injuries was practically no, so they learned. For 9 years, a single medical space has been formed in Ukraine, where united military and civilian medical institutions were united. The experience of Israel was taken as the basis of military-medical dialrine. All medicine of this country is able to be able to be bored in a matter of hours and to ensure the reception and treatment of the wounded in case of armed conflict. This is an example for the Ukrainian medical community.

ARMIA INFORM

Ukrainian doctors have reached such a level of professionalism in the course of the war that 82% of the wounded return to the system.

Many doctors do surgery that has no analogues not only in Ukraine but the world. Due to scientific and practical developments, devices and equipment are able to seize the surgeon's access to the site of injury and to accelerate the operation of surgery. Thus, Vitaliy Tsymbalyuk told an example of a developed magnetic platform for removal of fragments of carts, mines, grenades. The large-scale invasion of Russians by scientific and medical institutions and the institutions of the Ukrainian Sciences of Ukraine, thanks to innovative approaches, managed to rescue 72 of our warriors with a heart wound, 524 military personnel have been saved and resumed by vision, more than 100-hearing after heavy vacuum was restored.

The experience of physicians was summarized and outlined in 12 volumes of specialized literature. Unfortunately, according to Academician Tsymbalyuk, "medical experience is written by the blood of our soldiers."

Roman Kashpur had blown up on a mini during the ATO and left without a leg. However, he began to prosthesis, began to reach seemingly insurmountable peaks. The warrior two years in a row took the first place in

the games of the heroes, and later, in Kharkiv, set a record of Ukraine, stretching a 16-ton aircraft!

About it [tells](#) Main Department of Intelligence of the Ministry of Defense of Ukraine.

Roman was fascinated after injury on the front line. He volunteered the front during the ATO. He then signed a contract with the armed forces and a consonant. And in 2019, under Marinka, a warrior exploded on a mini. And there was an infinity. But he did not decline.

And then there was a large -scale invasion. On February 24, Roman evacuated Zakhakov's family to Khmelnytsky. And he turned back. To defend the city.

"The first one and a half months was the active phase of my participation. Directly, Nanula. On the front line. Then there is a gray zone, then in the assault ... The commander gathered people. The unit increased the warehouse and they needed to work with them. People need to be taught," the warrior says.

When the enemy was expelled from Kharkiv region, the warrior decided to return to sports. And to realize life another dream. The novel on the prosthesis is preparing to run the London marathon. To relax the hero does not allow himself.

APMI INFORM

He was a person we didn't have time to fully appreciate.

In the morning, the sky above Kharkov is crying ... Maybe the city molds a hero who turns home to rest in an eternal sleep in his native Slobozhansky land?

... Today Kharkiv said goodbye to the famous Ukrainian artist, sculptor Tamusist Anton Derbilov. The artist died on April 6 during the battle of Zakremen, in Luhansk region.

The man was only 43 ... He was a son, a man, a father ...

According to friends, with his wife Catherine, they were familiar with their teenage age. About such couples say - "Such love happens once a million!"

The couple were artists. At one time, Derbilov founded the Sirko Toys studio. They raised thousands of unique models of tin soldiers. In their collection, the Cossacks from the army of Bohdan Khmelnytsky, soldiers for toy-made arms - from the era of antiquity to the twentieth century. Anton also created brasigetmans and generals of Ukraine and other countries.

[!\(Images/APMIINFORM/2023-04-12T92-00-00-04-00/1-45-150x150.jpg\)](Images/APMIINFORM/2023-04-12T92-00-00-04-00/1-45-150x150.jpg)

-Before creating another sculpture, Anton studied military history. For example, when Finnish journalists made a plot with him, he said for a long time that the Russians had borrowed from their countrymen-maskhalates for snipers, hat-hats, etc. He then very impressed our foreign colleagues with his knowledge,-says Ivanna Skiba-Yakubov ...

In 2015, the man became a member of Alcohol Ukulele music band. His colleague of the band Yurer Yakubov tells that Anton joined the music collective: recently I found his first message, which he wrote to me with a assistant network: "Good afternoon!We live with you in one area!I wanted to ask how to learn to play? From that day, he became a full member of our

team. Was Bariton Ukulele. The most important tools on which he played as percussion is a tsesalic chain and a wrench.

For over 20 years, Derbilov's marriage has given birth and raised three daughters - Anna, Oksana and Sofia. All the girls imitated their parents' talent - they have mastered the artistic business.

Since the beginning of the fighting in the Donbass, the artist was actively engaged in volunteering. The Ukrainian unicorn was dressed on February 26, 2022 - on the third day of the co -coma -scale offensive of Russians on the territory of Ukraine. The family then said that it was not possible to protect their girls who refused to leave Kharkiv the most difficult minutes ...

Once Anton received a weapon, together with his brothers as part of the Fifth Slobozhansky Brigade of the National Guard of Ukraine, went to carry out the combat mission of the image of the northern outskirts of Kharkiv.

- I was a part of the group of "hubs for tanks", - said the warrior. - He was led to Kharkiv Ring, to the direction of a probable enemy breakthrough. Our main

purpose was to stop enemy armored vehicles. They went there for days, and they stayed for about a hundred - they got married, created a strong fortress.

The artist shared that everything he worked all his life - to draw, to play dandy tools, to mold, etc. - temporarily had to be left in the past. On February 26, 2022, a new life with new priorities began - had to be papied small arms, grenade launcher, and explosive. Anton reported that he could only perceive himself in a new image of a serviceman when he released the Cossack mustache.

The soldier of Derbilov Anton was a veteran of Slobozhansky counter - offensive. It was medals "for bravery in battle", "The indomitable heroes of the Russo-Ukrainian War" and for the "valiant service".

On April 6, this year, as a result of mortar shelling, Anton Derbilov was disconnected with life and died on a battlefield with weapons in his hands.

I wish health, dear Ukrainians!

He has just participated in the meeting of a special format of support of Ukraine - financial. This event takes place in Washington and unites ministers of financial democracies - our partners, the European Commission, Heads of International Financial Institutions: the IMF, the World Bank, the European Bank for Reconstruction and Development. The theme is first and foremost recovery. Restoration of our country after the battlefields.

I thanked my partners for helping us to maintain sustainability, our financial stability. And he urged to be more active so that Ukrainians could be more active in rebuilding, returning to Ukrainians a normal life.

There will be no ruins in Ukraine. This is our goal. And it will be quite a specific dioxide of the full loss of the terrorist state.

Moreover, the world knows the decisions - about the assets of Russia, Russian officials, oligarchs, who were rich, while their state became a terrorist ... All these are activated to compensate for losses to those to whom Russia brought pain and suffering. . The war should be the most expensive for the aggressor. And we do everything for that. Thank the partners who support us.

He met today in Kiev with a delegation of the US Senate - a two -party delegation. I informed what is happening on the battlefield now and about our opportunities. As well as we always, we have demonstrated that our relations with America in the supply of weapons, in financial support are completely clean, completely transparent. The partners have a full vision of each unit and every unit of weapons. And it is important that no artificial manipulations are spoiled by our trust.

Of course, I was pleased to hear from our guests from the United States positive words about Ukraine and what we manage to achieve together the fate of terror.

It was very emotionally and honorable to me today to congratulate our young police and rescuers of the SES with completion of study. More than 3 thousand youth - professional and patriotic - are now joining those who want to protect the safety and normality of life. They will also work in the Quaregions, where it is most dangerous. The distribution will be served in frontlines, in the border - in Kharkiv, Sumy region. There are those who will fight the new assault teams. I believe that today's graduates of the Ministry of Internal Affairs are justifying human hopes.

By the way, I would like to celebrate such defenders now - such rescuers, in particular from Nikopol. SES of Major Artem Shuldyakova, Lieutenant Fyodor Zaykina, Senior Sergeant Vasyl Muzychenko, Junior Satisfant Vitaliy Bulkin. Thank you guys for the rescue of the Ukrainians of post -Russian rocket strokes!

I will also note the police crews - "White Angels" who save our people in the home, evacuate, send humanitarian aid, resuscitated ...

I thank the police Gennady Yudin from Avdiivka for the salvation of children, Paramedic Popi, one of the White Angels in the Mariinsky Front. They have already rescued hundreds of our people, including seriously wounded.

I also thank today especially the explosion of the National Police Vladimir Perepelytsya, who works for mine in Kherson region, works very effectively.

And one more.

Today in our country traditionally celebrates the Day of employees of the rocket and space industry. The industry that always made glory to Ukraine. And I'm sure he will do!

Thank you all who have retained our potential. Our current level of integration is international relations, our level of power - both the state and society - for

which Ukraine deserves, the level of our people - all this will allow Ukraine to take in the development of outer space along with the advanced states, and our business - along with advanced companies.

But first - we will win! In particular, thanks to Ukrainian rockets.

Glory to all our soldiers who are in battle now!

Thank you all who help Ukraine!

Thank you to everyone who protects our people and protects Ukrainian life!

Glory to Ukraine!
