Defense heads of the Union countries who held a meeting with the NATO format committee today identified the strategic directions for the development of the Alliance and confirmed the adamant support of Ukraine in its struggle for Russian aggression.

As [reports](#) Ukrinform, Admiral Rob Bauer, said the NATO headquarters today at a press conference at the NATO Headquarters.

NATO Military Committee is the highest body of the Alliance's military administration, which determines the needs of defense and development of the Armed Forces to ensure the collective defense of the Allies, to enforce political decisions in the country's leaders.

"The war that Russia has expected to complete in three days entered the fifteenth months. The growing determination and courage of the Ukrainian troops and the Ukrainian Narode continue to impress us. Today we have devoted a special session of the military situation in Ukraine and around it. The Ukrainian military representative provided detailed information on the situation on the ground, and outlined Ukraine to continue the struggle for what belongs to it by right, "Admiral Bauer said.

"The heads of the South Defense have confirmed their unchanged support - there is no doubt that NATO will support Ukraine for as long as it is a budget," the head of the NATO Military Committee added.

He warned against false mistakes in evaluating Russia's behavior: it will not stop Ukraine, since its ambition goes far beyond the Russian borders. This is a manifestation in Abkhazia and North Ossetia, Transnistria and more. Once after all, she tried to violate the foundations of international order based on directions. It was she who pushed NATO to strengthen collective defense. Not only the Alliance and Ukraine, but all the free democracies of the world.

"The fundamental difference between response to crisis and collective defense is that we are not in defense, but our opponent defines the time frame. We must be ready for the fact that the conflict can be manifested at any time. It has been brought to this new era for years. We have monitored trends of the increasing aggressiveness in Russia's behavior. Together, we have made the most enhancement of collective defense since the end of the Cold War. But this work is not completed, "the Alliance's military manager said. "All our efforts are focused on the political will of the Union countries with their military capabilities. This is more important now than ever before. The Russian aggressive war against Ukraine is the greatest threat to euro -

Atlantic security for decades. Last year, it has changed lightly. NATO will continue to do what is best able to join, adapt and protect," Rob Bauer said.

He recalled that the Armed Forces of the Union countries now unite 3.2 million people in military uniforms, and they all work for the same purpose-reliably protection of a billion citizens living in the Alliance, the democratic values they share. Their commitment and determination are a clear signal to the potential aggressor - NATO will protect every inch.

"It also indicates that together we are much stronger than alone," the Admiral said.

From the beginning of the invasion of Ukraine, Russian invaders have not created a systematic support system, have suffered heavy losses, and now forced to use outdated equipment and uninvited people in large numbers.

As [reports Ukrinform](#), the day before in Brussels, during a press conference following the meeting of the Defense of Defense of the Union countries, said the chairman of the Military Committee Nato Admiral Rob Bauer.

At the same time, Ukraine, according to him, focuses on the quality of forces and drinking of servicemen, uses weapons of Western samples, and this cut will be reflected on the battlefield over the following months.

"Any side in the war faces the same problems-loses people, has destroyed or damaged equipment, and feels a lack of ammunition. One of the award miscalculations that Russia was preparing for the three -day, "forgot" to inform the performers about its goals and could not expand the logistics system. So during the days they were left without fuel for the tank armies, "said the Dutch Admiral Bauer.

He noted that in the conditions of fighting on the fourth or sixth day, they are transformed into a logistics competition, and this is what happens in Ukraine now. This is closely related to other problems-with the ability to replenish stools, receive new equipment, tanks and combat vehicles, tanks and combat vehicles, tanks and combat vehicles new artillery systems and more. It is also about replenishing the personnel of the conscription or mobilization and its preparation.

"From a material point of view, the Russians began to use very old-materials and capabilities, for example, the T-54 tanks, the 1954 model, which we mibble on the battlefield. The problem is that they still have a lot of these-54. We see that the Russians are forced to focus on quantities. Including a large number of conscripts and mobilized people who are not well-known, they act on outdated materials, but in large numbers. Ukrainian, on the other hand, focused on quality, with weapons of the Western design, and as appropriate training for the military. This is a big difference that will have the manifestation of the next months, "NATO's Military Committee said."Logistics and logistics environment is a very important component(prompt - ed.)thinking. For many decades, we have neglected a large volume that would be associated with collective defense to a large -scale conflict - because we did not provide such a conflict. We planned smaller operations, which also had a significant logistics component, but were much more suitable for planning than war we see in Ukraine now, "Rob Bauer said.

He stressed that the solution of such problems is not a matter of one day, it will interfere with large -scale and long efforts and investments, including in the development of the system of providing troops and logistics, improving the system of military management, etc. All this is at the heart of updated operational concepts on the modernization of the structure of troops and their provision, which will be considered during NATO -Samite in Vilnius.

In turn, the Commander -in -Chief of the United NATO Armed Forces in the European American General Christopher Cavola noted that the Russian army should not be underestimated.

"I want to add that the degradation of the Russian Armed Forces is really unprecedented. Alevona concerns, above all, land forces, why we have very multifaceted. At the same time, it is worth remembering that in other areas, this degradation is much less noticeable, "said the US military commander.

Since the beginning of May, especially in the days declared by the occupiers of the festive tavhihid, in the temporarily occupied territories in Zaporizhzhya and Kherson region the number of cases of looting and theft of Russian servicemen has increased significantly. The property and vehicles are mainly stolen by a release of the need to ensure evacuation of the population.

About it wrote Deputy Minister of Defense Anna Malyar in Telegrams.

"In the settlements Tokmak, childbirth, Kamianka, Rozivka, Mikhailivka, Molochansk, Enerгодар, Chernihivka in the temporarily occupied territory of the Uzaporozhye region, Russian invaders, covering up with the so -called provision of mechanical measures, stolen the material values of local enterprises of Tagiv.

According to Anna Malyar, in Enerгодар at night from the territory of the private enterprise "Electropodenmontazh-10", about 20 units of transportation were stolen and the composition of material property was looted.

Also, at night, under the pretext of evacuation of the Russian occupation administration of the razing point Skadovsk in the temporarily occupied territory in the Kherson region, the invaders hastily removed the looted office equipment and other property.

"It is probably that on May 7 this year, Russian invaders will be used to move the stolen property of the temporarily occupied Crimea," Anna Malyar said.

Stephanyshina said this on the air of the Telernorphone "One News", reports Ukrinform.

"I am sure of one hundred percent that allies have no chance not to invite Ukraine (In NATO - order.) or not to determine the algorithm of Ukraine's accession to the Alliance. This form will happen, we are still in dialogue, in discussions. There is no clarity, but the political decision will be unambiguously.

We expect that just a week there will be a meeting of the NATO Parliamentary Assembly, on which the parliamentarians of the Union countries will be determined by their position, "Viceremierka said.

In this context, she noted that the parliaments of Lithuania and Poland were already occupied by the position on Ukraine's membership in the Alliance.

"Discussions are ongoing, but it is also obvious that today we do not say a proceeding of actions about membership or any intermediate stages. As I noted, in fact, Ukraine is a "gold standard" of NATO today, and we are talking exclusively on a political decision. I do not see any restrictions to make political decisions adopted in Vilnius, "the government emphasized.

I wish health, dear Ukrainians!

Today we have a sanction day. Five sanction packages were approved, which were carefully prepared in the NSDC, the Cabinet of Ministers, the Office, and our special services.

The first is a package concerning Zaporizhstal. We block the impact on this terrorist company, which existed thanks to various false and offshore persons. The part controlled by Russia through one of the systemic banks will be confirmed and operated for Ukraine and Ukrainians.

We will not leave any connection of the terrorist state in Ukraine, which it can be useful against our country, against our economy or against our people.

In addition, sanctions packages have been approved that continue our course in the insulation and blocking of the Russian military industry.

Hundreds of natural and legal persons of the terrorist state and the target for global isolation. We are very active in working with partners so that everyone who actually produces this aggression, who gives weapons, ammunition, technician technology into the hands of terrorists - that they are all crushed with the world.

I thank everyone who helps Ukraine to press on Russia for this war, as well as to block the efforts of the terrorist state to bypass sanctions. I am sure that it is to be one of the most severe crimes against international law in the international peace - an effort to bypass sanctions imposed to limit the restrictions of aggression, or to promote these efforts.

Presidential, NATO Exgeneral Petr Pavel estimates the chances of Ukraine's counter -offensive to return the territories occupied by Russia as good.

He stated this in an interview , reports Ukrinform.

“Of course, there is a great hope that the Ukrainian counter -offensive will be successful because Motivated, well -prepared, its experienced and, of course, are not exposed to such deficiency as Russian Army, ”Pavel said.

But, he acknowledged, if Russia is using its prepared defense well, they will be sacrificed.

According to the President, the Russian army had serious problems in the shape and technical support and combat spirit, but the collapse is not worth defense, because

Russia managed to prepare relatively high quality and deep defense in several borders.

The former Commander-in-Chief of the Czech Army, as well as the Chief Military Advisor to the NATO General Secretary in 2015-2018, believes that Ukraine will eventually hold Western fighters, but it will not be possible to transfer them in time for the commercial offensive. Urgent needs are ammunition, he added.

It was not possible to predict what territory Ukraine will be able to take away, because it is the ding scenarios of the offensive, and not always goes according to desires and plans.

The Czech leader noted that Ukraine needs the support of partners to access Donato and the European Union, but expressed the opinion that this process will be difficult and long -lasting in both cases, although negotiations on accession to the EU have all the chances to take a chance this year.

Read also: Pavel also touched China's question in an interview. He said that the actions of China during the war in Ukraine showed that the PRC was not a constructive player, because he did not invalid the war in Ukraine in Ukraine and did not call for the withdrawal of Russian troops.

The President of the Czech Republic is convinced that the European Union and other democracies need a single and realistic position on this state, one voice, so every other EU countries cannot play on equal to Beijing on their own. Babil, China will use bilateral contacts as a chance of splitting European countries or to tear Europe away from the United States.

Earlier, Paul said that Ukraine has only one chance for a large contrast.

The European Union will continue to support Ukraine as much as it will be necessary, and considers the peaceful formula of the President of Ukraine Volodymyr Zelensky as the only framework document that opens the way to a fair and sustainable peace.

About it today in Sweden, in the picturesque Steninge Castle, where there was a non-formal meeting of foreign ministers of the EU countries, during the

preparation, the EU representative Josep Borrell stated during the meeting, Ukrinform correspondent reports.

"Many people say they want peace. We also want it. Ukrainians want the most of the peace. But we will not capitulate. We don't want to become the second Belarus. That is why it is a single document that gives a wide range to achieve a fair and stable peace in Ukraine today, just now, just a single document for us today. Tomorrow we will continue discussing this with the Minister of Foreign Affairs (Ukraine - ed.) Culling," said the high representative of the EU.

He noted that it is always worth remembering the main thing: in this war there is an aggressor, Russia, and there is Ukraine that is a victim of aggression. Russia does not want to stop the invasion, but Ukraine cannot stop fighting. Ukrainians simply cannot stop because they want to exist further and preserve their existence as a sovereign.

"It is clear that Putin does not intend to give up his goals to conquer Ukraine, he will continue to attack and destroy it. The ministers today have presented the importance of continuing Ukraine's support. This is and remains our retardant - to provide Ukraine with the help and means that it can defend and achieve the necessary stability for the task of defeating Russia," - said the Zhezep Borrel.

He recalled that over the past 15 months, the EU has provided a military worker worth about 15 billion euros to Ukraine, and it is already obvious that it will be even more. The EU was quick to provide Ukraine with immediate assistance, and it is time to look in the medium term.

"We need to weigh how to transform tools that have been worked out to respond to immediate threats, such as ammunition and military equipment, and turn them into long-term obligations that will give Ukraine confidence and allow it to provide it with humanitarian, financial assistance." The high representative of the EU noted. He stressed that Ukraine's entry into the European Union is a main commitment on the part of the Member States, the implementation of which should ensure Ukraine stability and prosperity. But before this happens, the EU will require practical and specific assistance to Ukraine.

"I want to send a clear message to Putin. There will be no total war. We will continue to support Ukraine as much as it needs, and as long as it will be necessary," added Josep Borrel.

As reported by Ukrinform, the informal meeting of foreign ministers of EU countries took place today, during which European government officials considering the most important issues of foreign policy, including the support of Ukraine and determining the strategy of relations between the EU and China.

The signing of the Russian dictator by Putin's decree on calling for military assemblies in stock is a component of the information campaign to make Ukraine to negotiate.

About it stated Secretary of the Radinational Security and Defense of Ukraine Alexey Danilov.

According to him, Russia is injection of the situation because it seeks to set up Ukraine as soon as possible at the negotiation table. To do this, the aggressor country launched a large campaign.

Commenting on the latest statements of the leader of PEC "Wagner" Prigogine about the removal of his boyevik from Bakhmut due to lack of ammunition, Alexei Danilov noted that their true reason is the inability of the "Wagnerists" to take this small district center, since the armed forces defend Bakhmut and do not leave them.

"In the territory of Russia there is an intraspecific struggle, and then they will be able to find out the relationship," the NSDC Secretary of Ukraine summarized.

In Kiev, at the Municipal Art Gallery of the Desnyanskiy district, the capital of the Ukrainian cartoonist Oleg Smal presented an unplanned exhibition of works.

The exposition presented cartoons dedicated to Russian-Ukrainian, at which the author ridiculed the inadmissibility of politicians and speakers of the Russian Federation. The robot Smolia is a response to their criminal statements and actions. But despite this, the author is hesitant whether it is advisable to joke during the war.

- I always call the caricature a "defect in the psyche", because few people dreamed of sore time for the country. Agree that it is not quite normal to accept everything that happens around, with laughter. But, as for me, it is the joke at the most difficult moments to stay in their mind, - the caricaturist.

Also, during a creative meeting, the co-author of the project "Art in the Country of War" Pavel Lipa demonstrated [documentary picture](#) dedicated to the cartoonist Oleg Smol.

- The war was able to focus on political satire. He managed to connect Ukrainian cartoonists to confront Russian propaganda. It inspired this to devote one of the series to him. I want to show my own film, what art is capable of in times of war and whether personal creativity can exist in society, which has completely become on military rails, - said Pavel Lipa.

The cycle of documentaries "Art in the Country of War" is a joint pro - DOCNOTEFILMS and Babylon'13 about Ukrainian artists who remained in the country during a large -scale invasion and continue to create.

In the temporarily occupied territory of the Crimea "Security" and "Prizes" on May 11, 20123, the forced eviction of the Cathedral of St. Breakhrivna Apostle Vladimir and Olga began. The territory of the occupiers was surrounded, not

allowed to Soborunyko, and did not even show any occupation "documents" reference such actions. The invaders expelled all the parishioners, break the locks of the Thadver Temple, the property is described and taken away.

As [noted](#) The President of Ukraine in the Autonomous Republic of Crimea is not an accident, but a systemic Zaylochin, which is committed by occupation administrations since 2014, to cease the functioning of the Ukrainian Orthodox Church of Ukraine of the Kyiv Patriarchate in the territory of the temporarily occupied Crimea. In 2017, the security forces were seized part of the premises of the cathedral and transferred it to the occupation administration.

Representatives of the so -called state -owned occupied Crimea and occupation bailiffs take part in this crime. The security forces break the doors of the Ukrainian Church, steal the property of the cathedral.

Once again, it is a systematic offense that the invaders commit the entire occupation period.

Back in 2020, the European Court of Human Rights appealed to the Russian leadership by the RFI to provide information about the oppression of the Orthodox Church of Ukraine in the occupied Crimin. Of course, the occupiers did not recognize any of their crime, - said the permanent representative of the President of Ukraine in the Autonomous Republic of Ukraine in the Army of Ukraine.

I wish health, dear Ukrainians!

Today we have a sanction day. Five sanction packages were approved, which were carefully prepared in the NSDC, the Cabinet of Ministers, the Office, and our special services.

The first is a package concerning Zaporizhstal. We block the impact on this terrorist company, which existed thanks to various false and offshore persons. The part controlled by Russia through one of the systemic banks will be confirmed and operated for Ukraine and Ukrainians.

We will not leave any connection of the terrorist state in Ukraine, which it can be useful against our country, against our economy or against our people.

In addition, sanctions packages have been approved that continue our course in the insulation and blocking of the Russian military industry.

Hundreds of natural and legal persons of the terrorist state and the target for global isolation. We are very active in working with partners so that everyone who actually produces this aggression, who gives weapons, ammunition, technician technology into the hands of terrorists - that they are all crushed with the world.

I thank everyone who helps Ukraine to press on Russia for this war, as well as to block the efforts of the terrorist state to bypass sanctions. I am sure that it is to be one of the most serious crimes against international law in the international peace - an attempt to bypass sanctions imposed to limit the resources of aggression, or to assist in these efforts.

He held a rate meeting today. There were important reports of commander -in-chief. I will particularly note the report of General Syrsky Tageneral Tageneral - commanders of Khortytsia and Tavriya, respectively. The report of Zaluzhny, Minister of Defense Reznikov, Minister of Defense of Reznikov, Minister of Defense Kamyshin.

What is important to understand now? The invaders are already internally ready for defeat.

They have already lost this war in their thoughts. We need to press on them daily so that their feelings of defeat turn into their escape, their mistakes, their losses.

I thank everyone and everyone who destroys the enemy!Thank you to everyone who, despite any way, returns our land to Ukraine!We are preparing to add to you, warriors, even more arms, even more opportunities to overcome the aggressor and restore peace.

He spoke with Britain Prime Minister Sunak today. I thank you, Rishi, the support of support and the steps that allow you to understand the world that the kingdom will always be the leader.To guarantee: who would not be the aggressor against the free world, he finishes the same shame as the Kremlin.

Glory to all our soldiers, who are now in battle, in combat posts and in combat operations!I thank everyone who trains our fighters!I thank everyone who treats Ukrainian soldiers after injuries!

Glory to Ukraine!

This was stated by Estonia Prime Minister Kai Callas during the opening of Lennart Mary's 16-conference, correspondent Armyinfor from Tallinn reports.

"There is no responsibility for making Russia about its neighbors. So, in a short perspective, we must create an international tribunal against Russia. It should not be forgotten that there is also a crime of the Russian leadership. In fact, it is very important to deal with the crime of aggression.

For small states, such as the Baltic countries, the war is always destruction, and for imperials it is a glory.

For a while, I studied the history of tribunals in Nuremberg and Tokyo. Only during the Sevnurnberg did the Germans find out about the crimes of the Nazis. Therefore, not only responsibility is important, but also to the future, "Kai Callas noted.

Lennart Mary Conference has been held annually in Estonia since 2007. Its organizer is the International Defense and Security Center(ICDS). Подія названа на честь міністра закордонних справ (1990–1992)and President of Estonia(1992–2001).

This was stated by the Director of the International Defense and Security

Center Indrek Kannik during the opening word at the opening of the 16th Lennart Mary Conference, the Army of Tallinn reports.

Indrek Kannik compared Ukraine a year ago and now, noting about the strategic outrage of Russians to destroy Ukrainian statehood.

"When we met a year ago at the 15th Lennart Mary Conference, large-scale Russian aggression against Ukraine was still quite early. Mennis three months from its beginning. But even then, there were already signs that the Russian reached its main purpose - the destruction of Ukrainian statehood. The situation was quite unstable. Although Ukrainians were able to repel Russia's attack from the same time, it was possible that Russia would regroup and return.

A year later, Ukraine liberated territories on the western bank of the Dnieper and most Kharkiv region. I am optimistic enough that Ukraine will free up more this summer. The situation is much better than it was a year ago. But it's not where we would like to be, "said Indrek Kannik.

The slogan of the conference was the quote of the Italian writer Dante Alighieri "Incipitvita Nova"(So the new life begins). В цьому аспекті на думку Індрека Канніка, варто покарати росію через загарбницьку війну, щоб більше небуло воєн у Європі.

«Ми маємо зробити все, щоб зробити нове життя кращим, ніж нинішнє. Ми нехочемо війни на нашому континенті. Попереднє життя призвело нас до війни.

росія зараз, мабуть, найбільш слабка за останні 20 років. Давайте будьмочесними – ми маємо взяти перевагу в цій ситуації. росія розпочала загарбницькувійну. Вона вбила невинних людей, зруйнувала міста та села, знищила інфраструктуру та пам'ятки культури.

Нам не потрібно принижувати росію. Але ми маємо покарати її за те, що вонавчинила – як карають злочинців. Кримінальні режими теж.

Найкращим покаранням буде швидка та чітка поразка росії та звільнення всіх українських територій. Цей результат так само в наших руках, як і в руках України», - відзначив Індрек Каннік.

За його словами, нині головним завданням є надання всебічної підтримки Україні задля якнайшвидшої перемоги. Адже російсько-українська війна впливає не лишена Європу, але й решту світу.

«З нашою допомогою, з нашою зброєю, Україна зможе виграти в цій війні. Після війни, безпека України та наша безпека має бути гарантована

українським членством у ЄС і НАТО, разом з іншими націями, які цього прагнуть.

We will remind, on May 12 in the capital of Estonia, Tallinna began its work 16-conference Lennart Mary-an annual event, where they discuss issues of international security. The correspondent of the Armyinforms exclusively reports the main discussions that are happening there. The Lennart Mary Conference is the International Defense and Security Center and the European Foundation for Lennart Mary.
